

Welcome to training camp, Space Captain!

We are going to work together with Alesha
to learn how to play the game. Make sure to listen carefully!

In this game, you are trying to find space treasure.

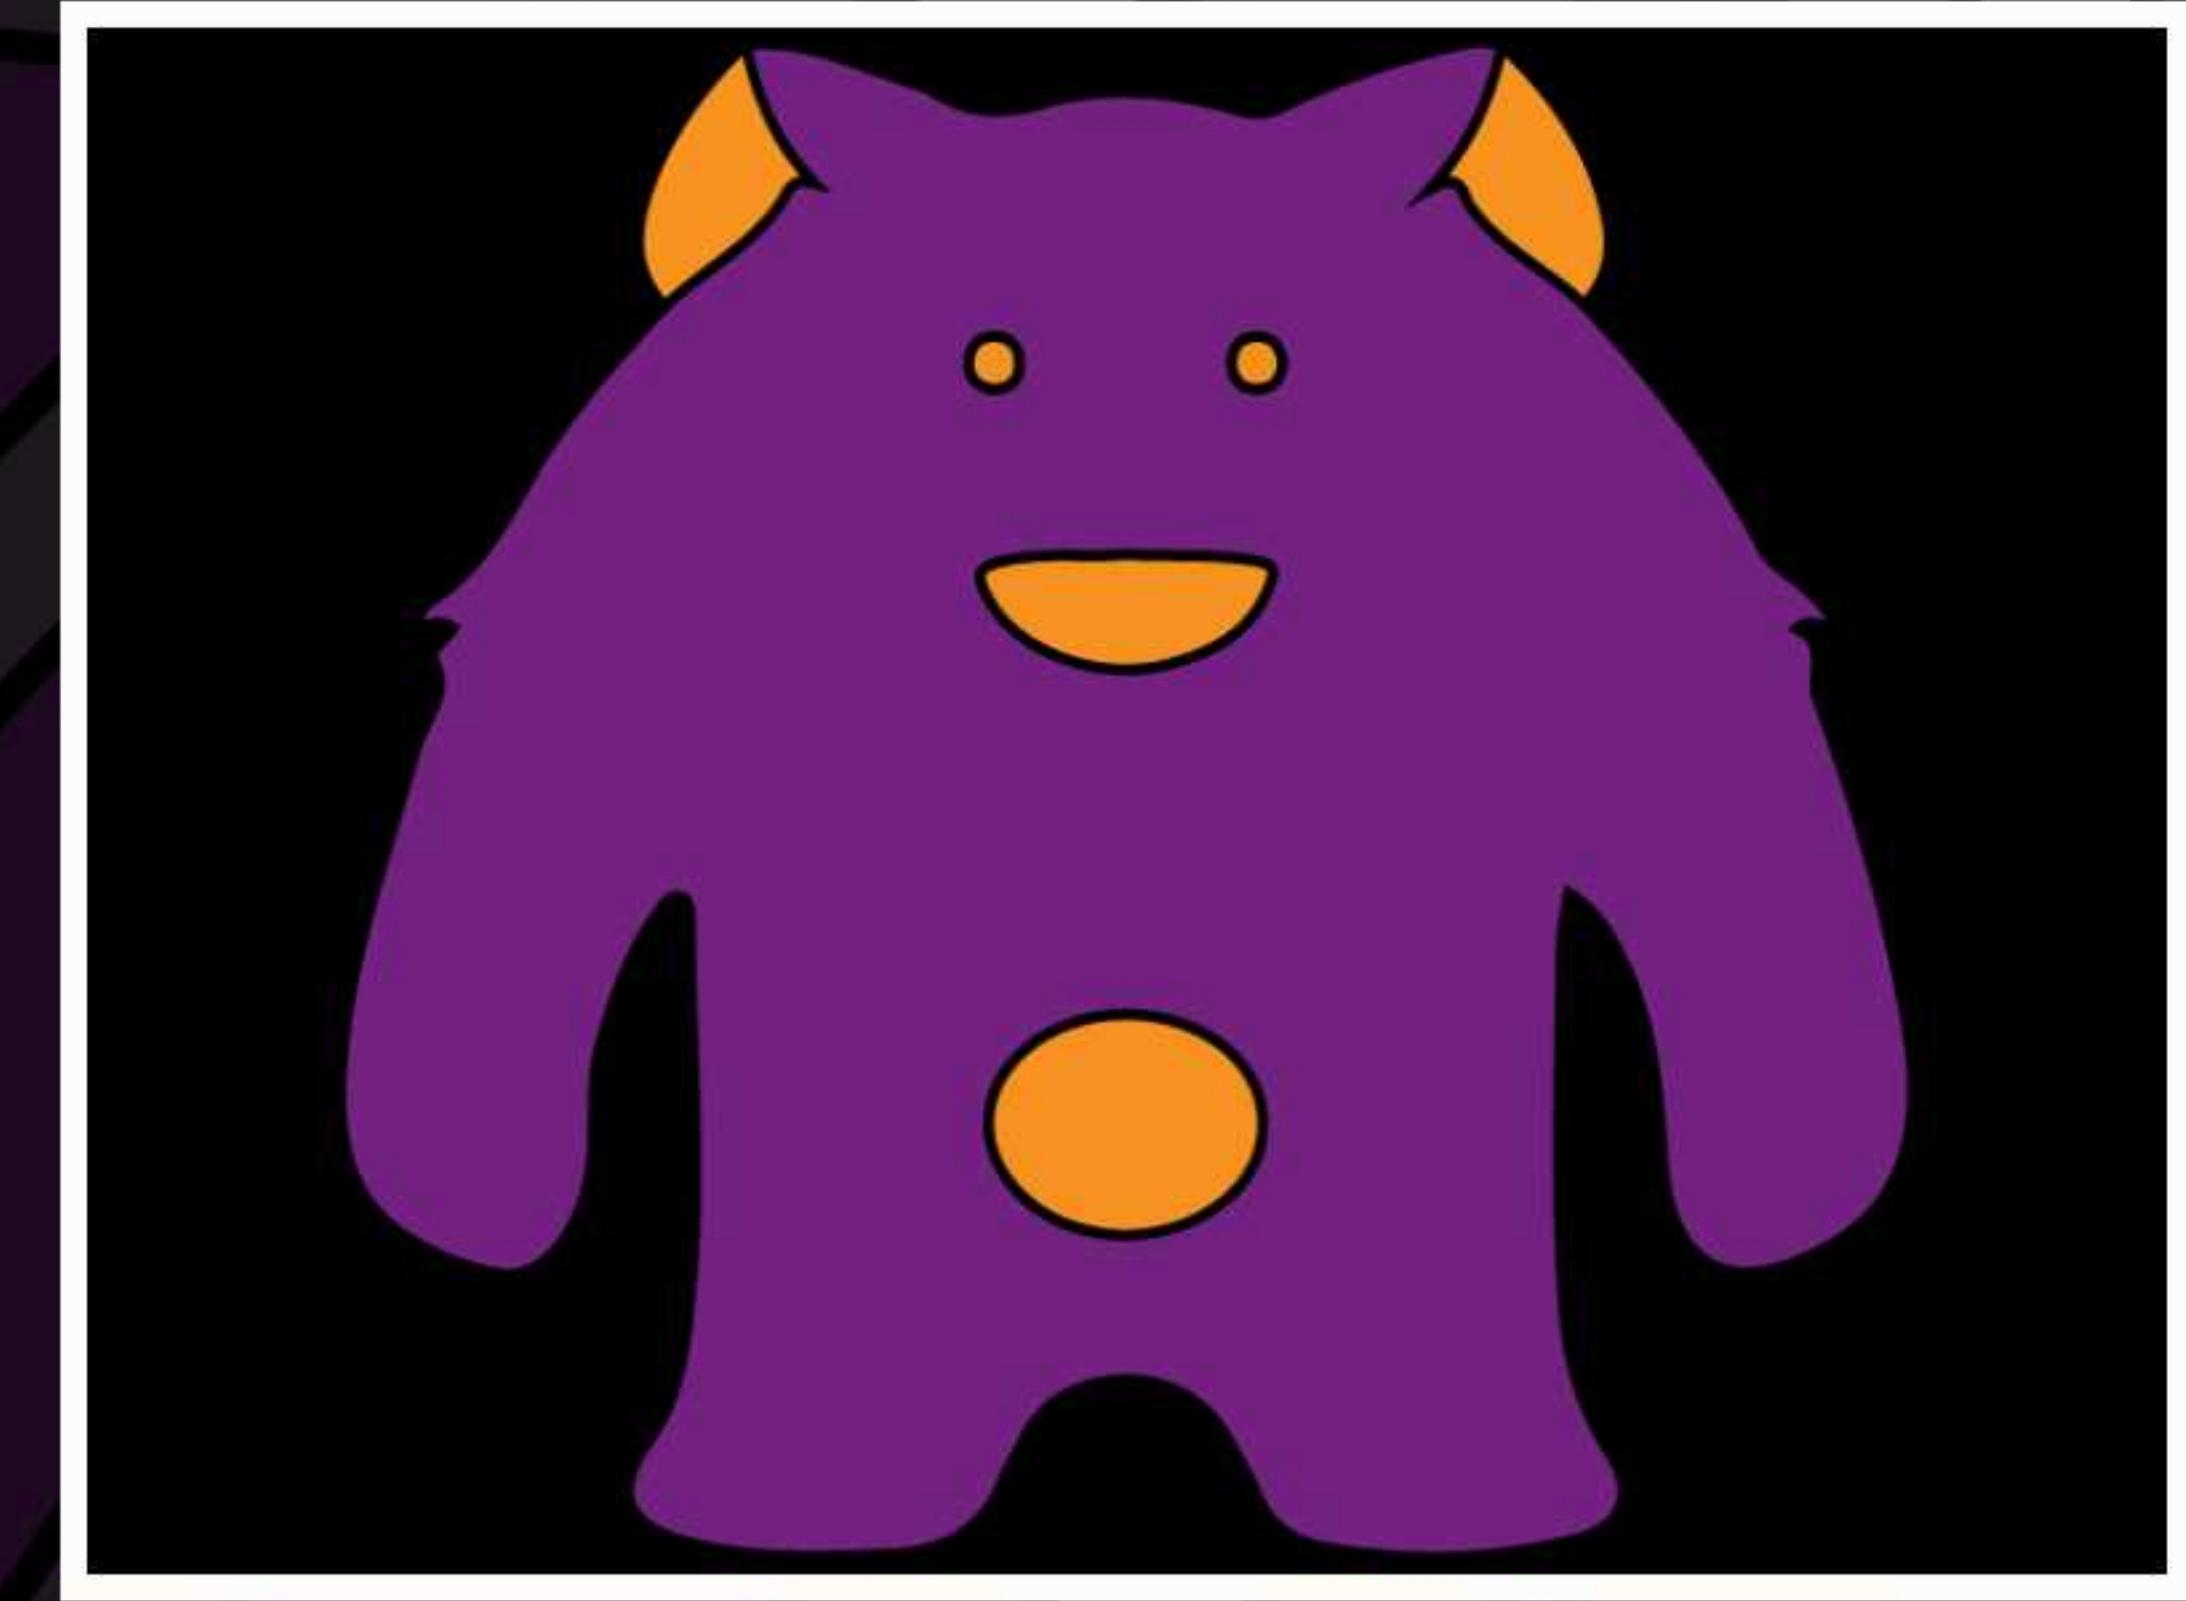

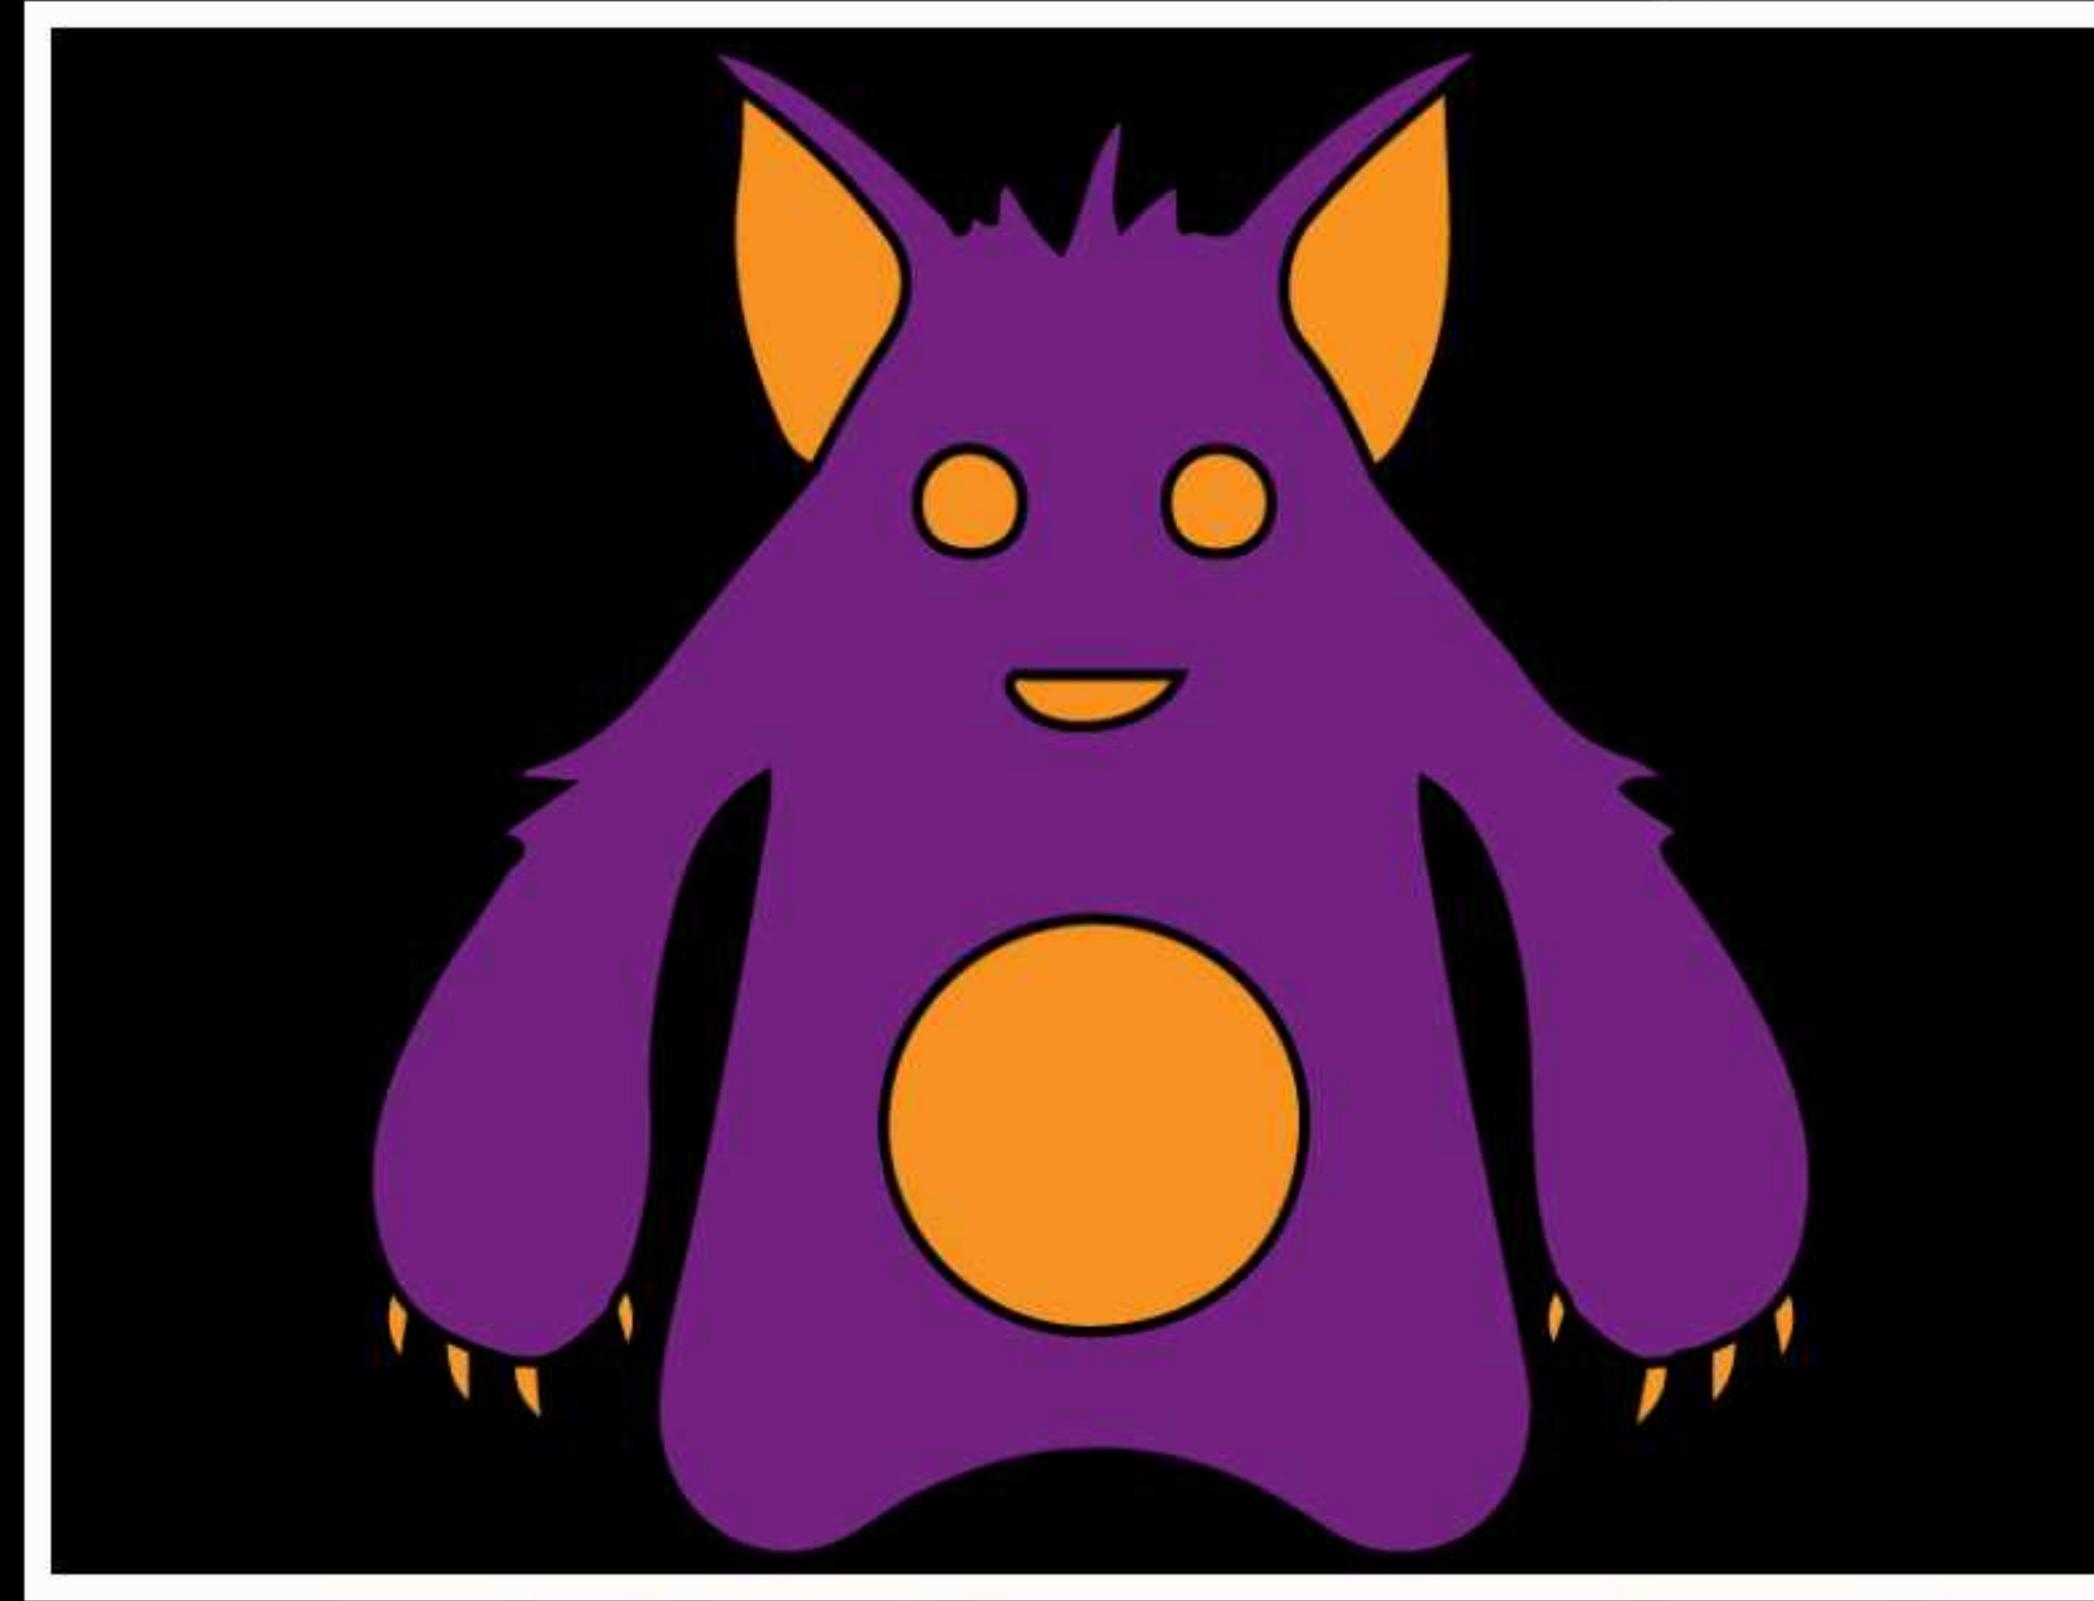

These aliens each have their own cave where they dig for space treasure.

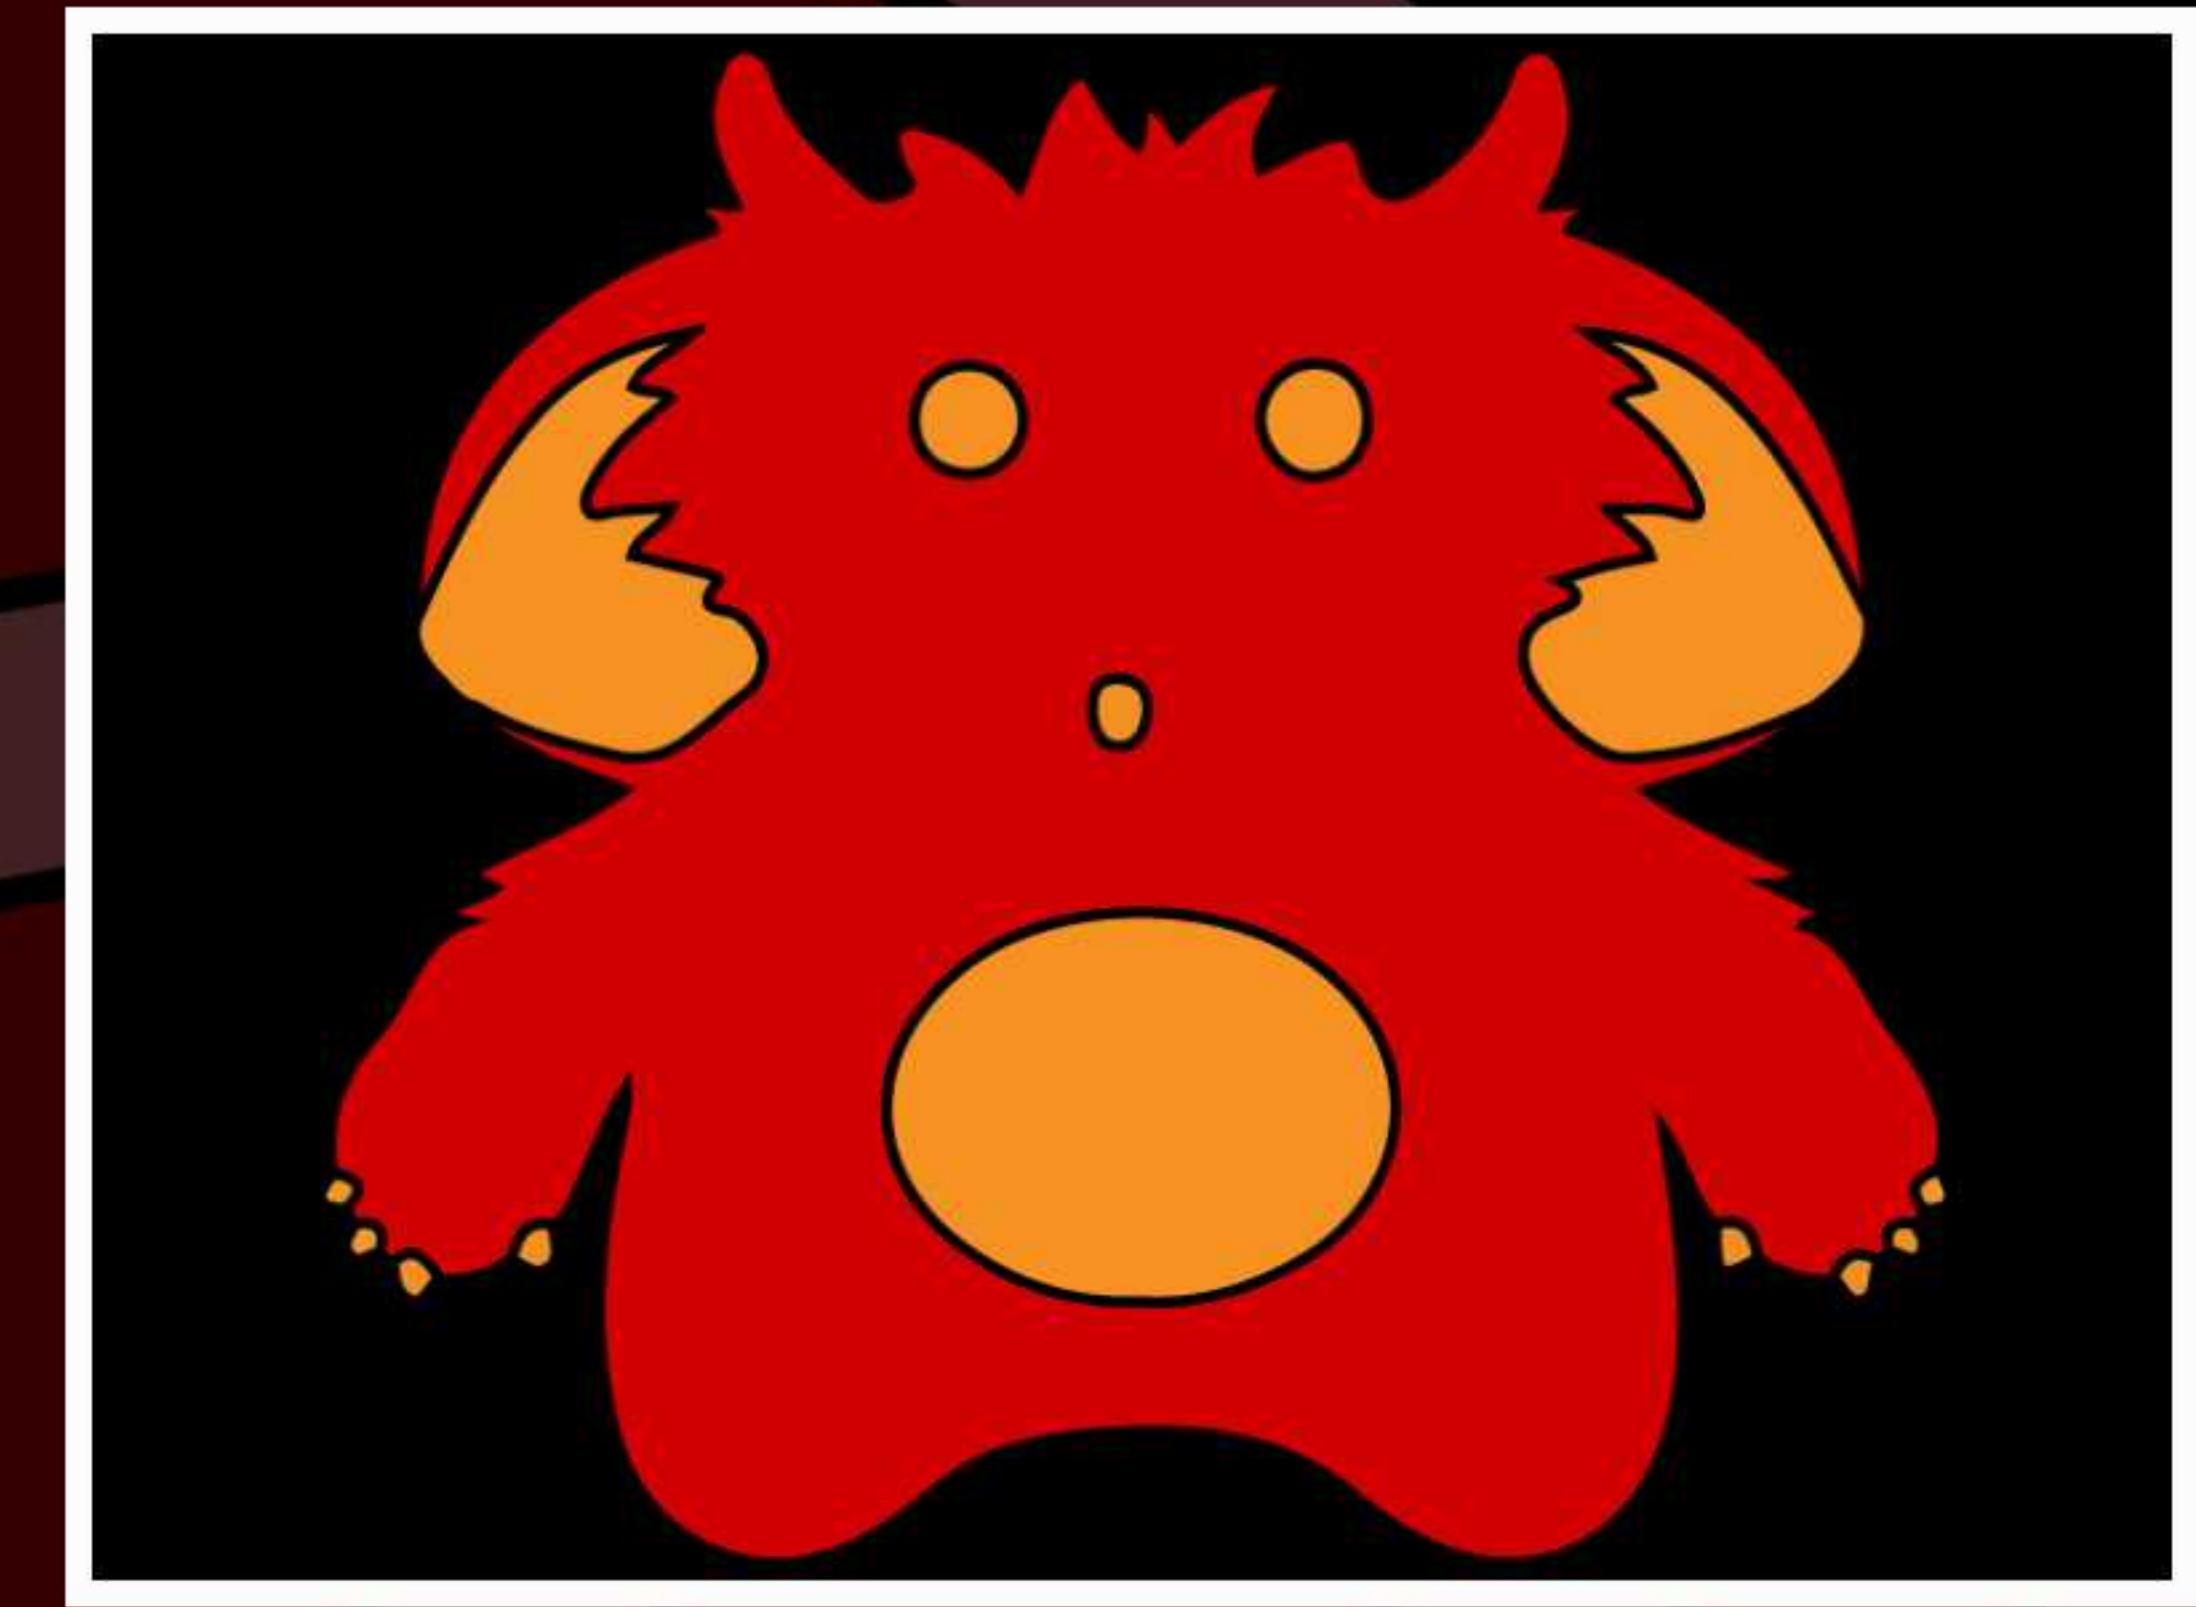

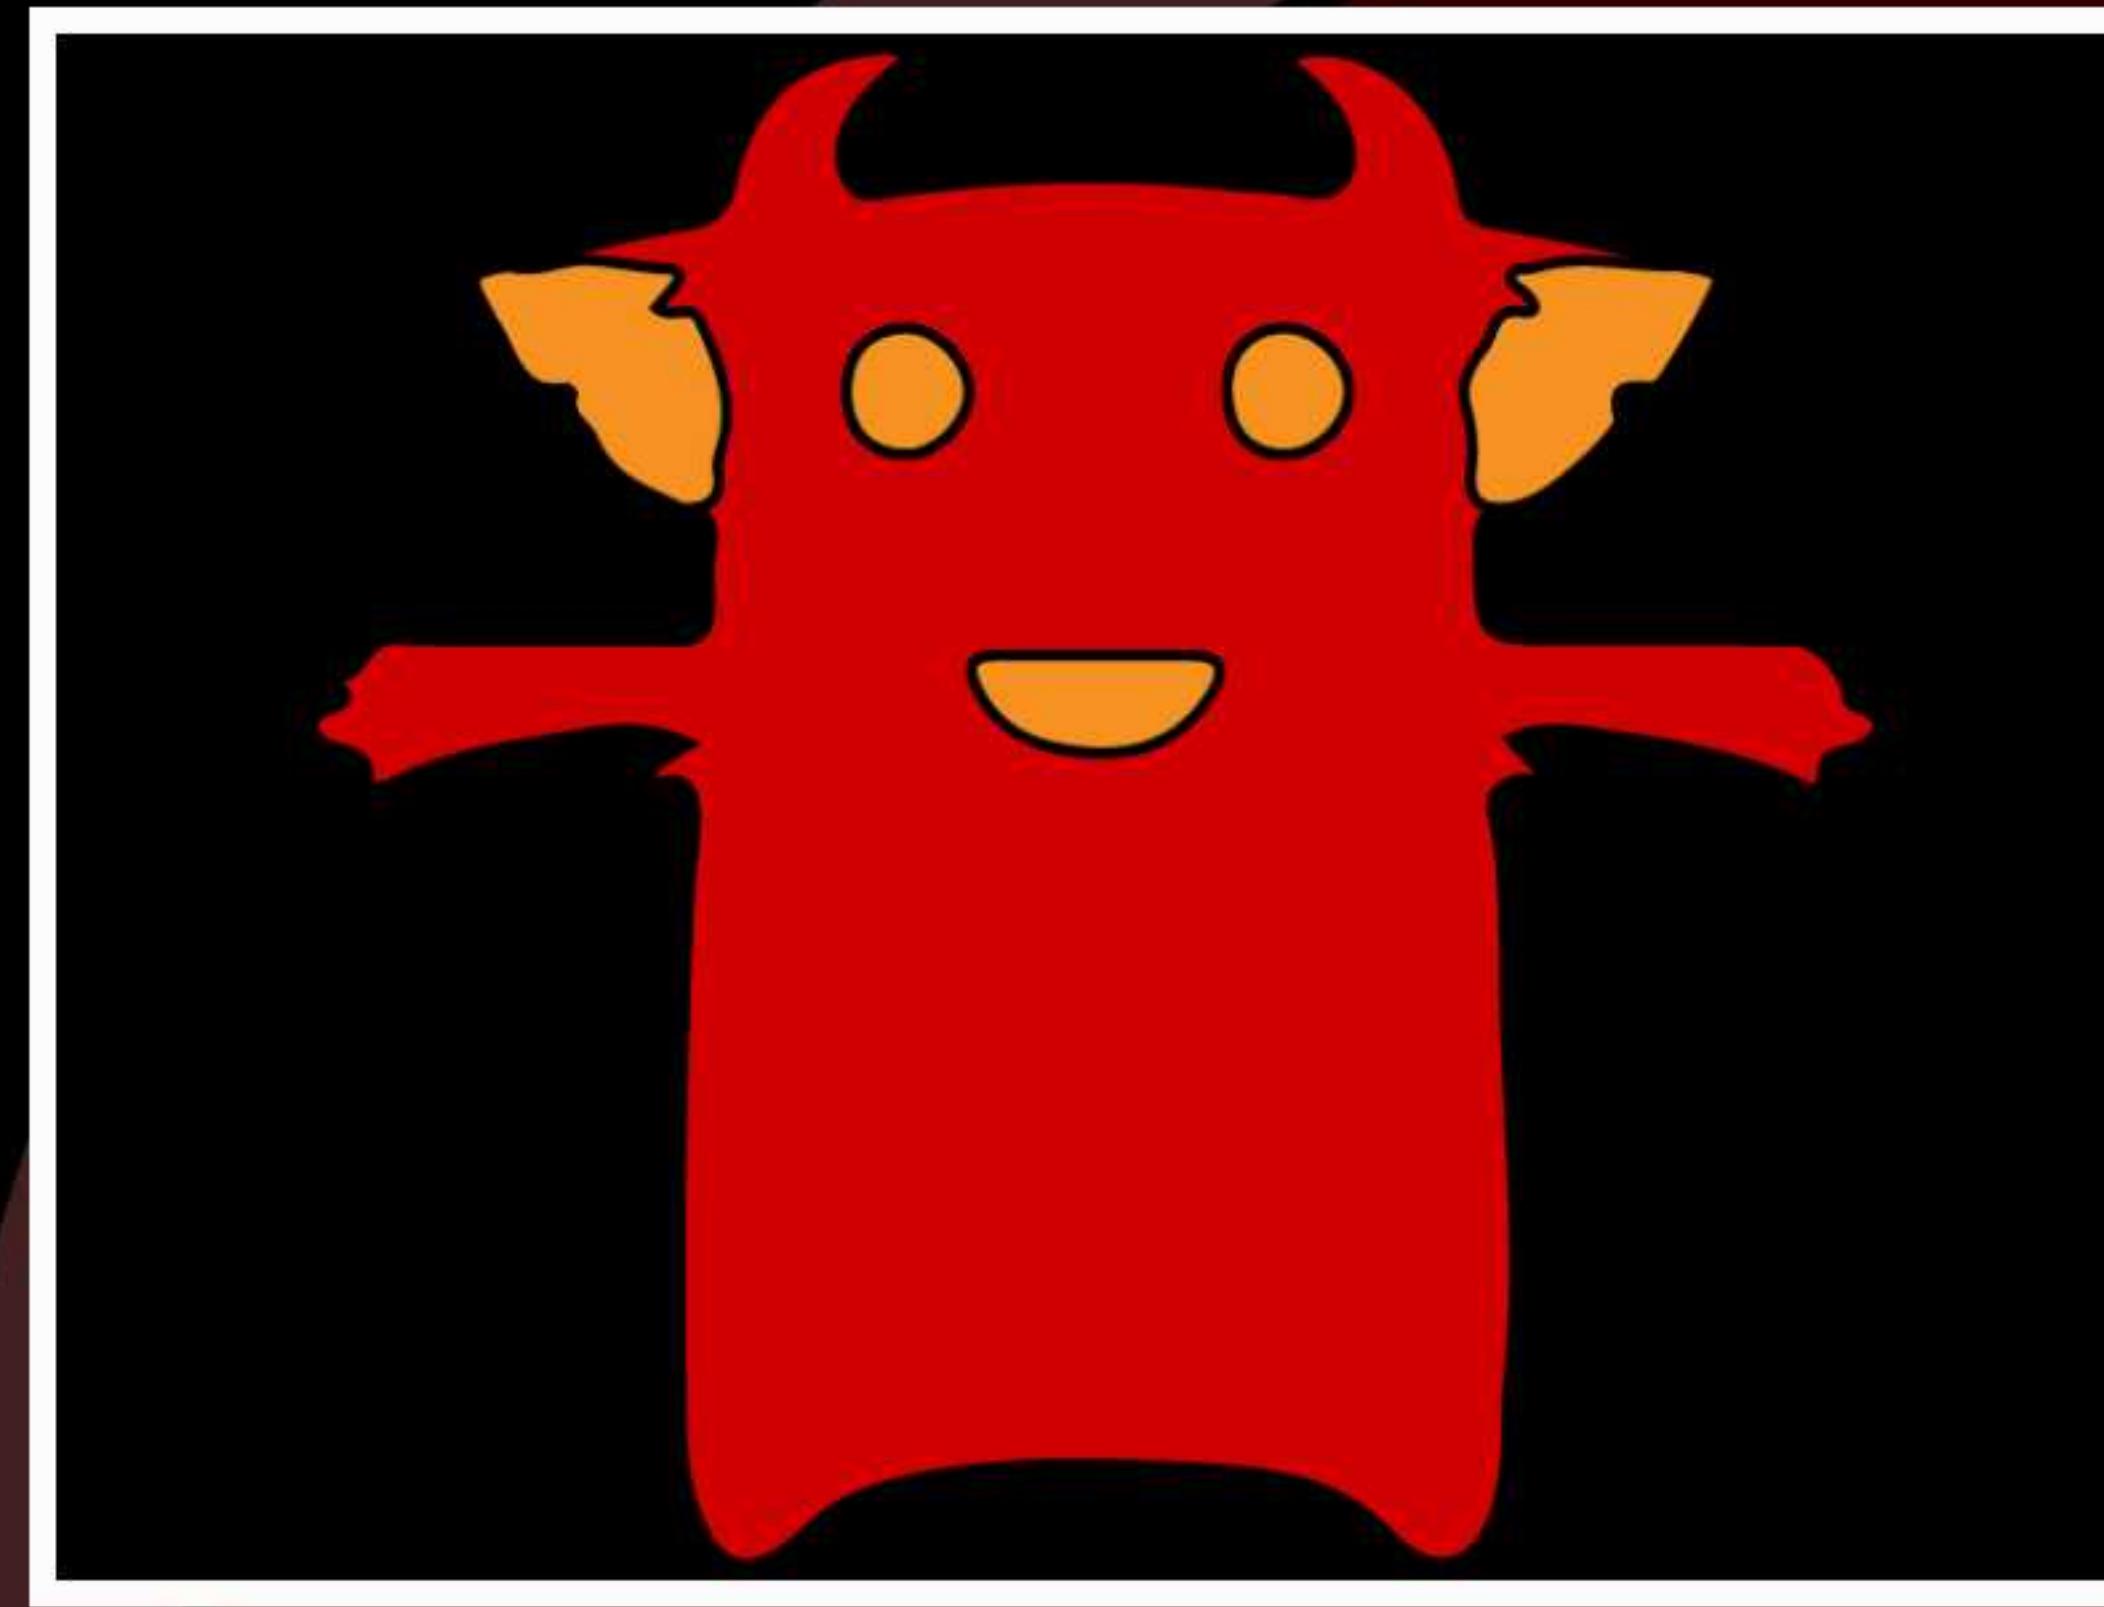

The goal of the game is to find the alien that has the most space treasure to share.

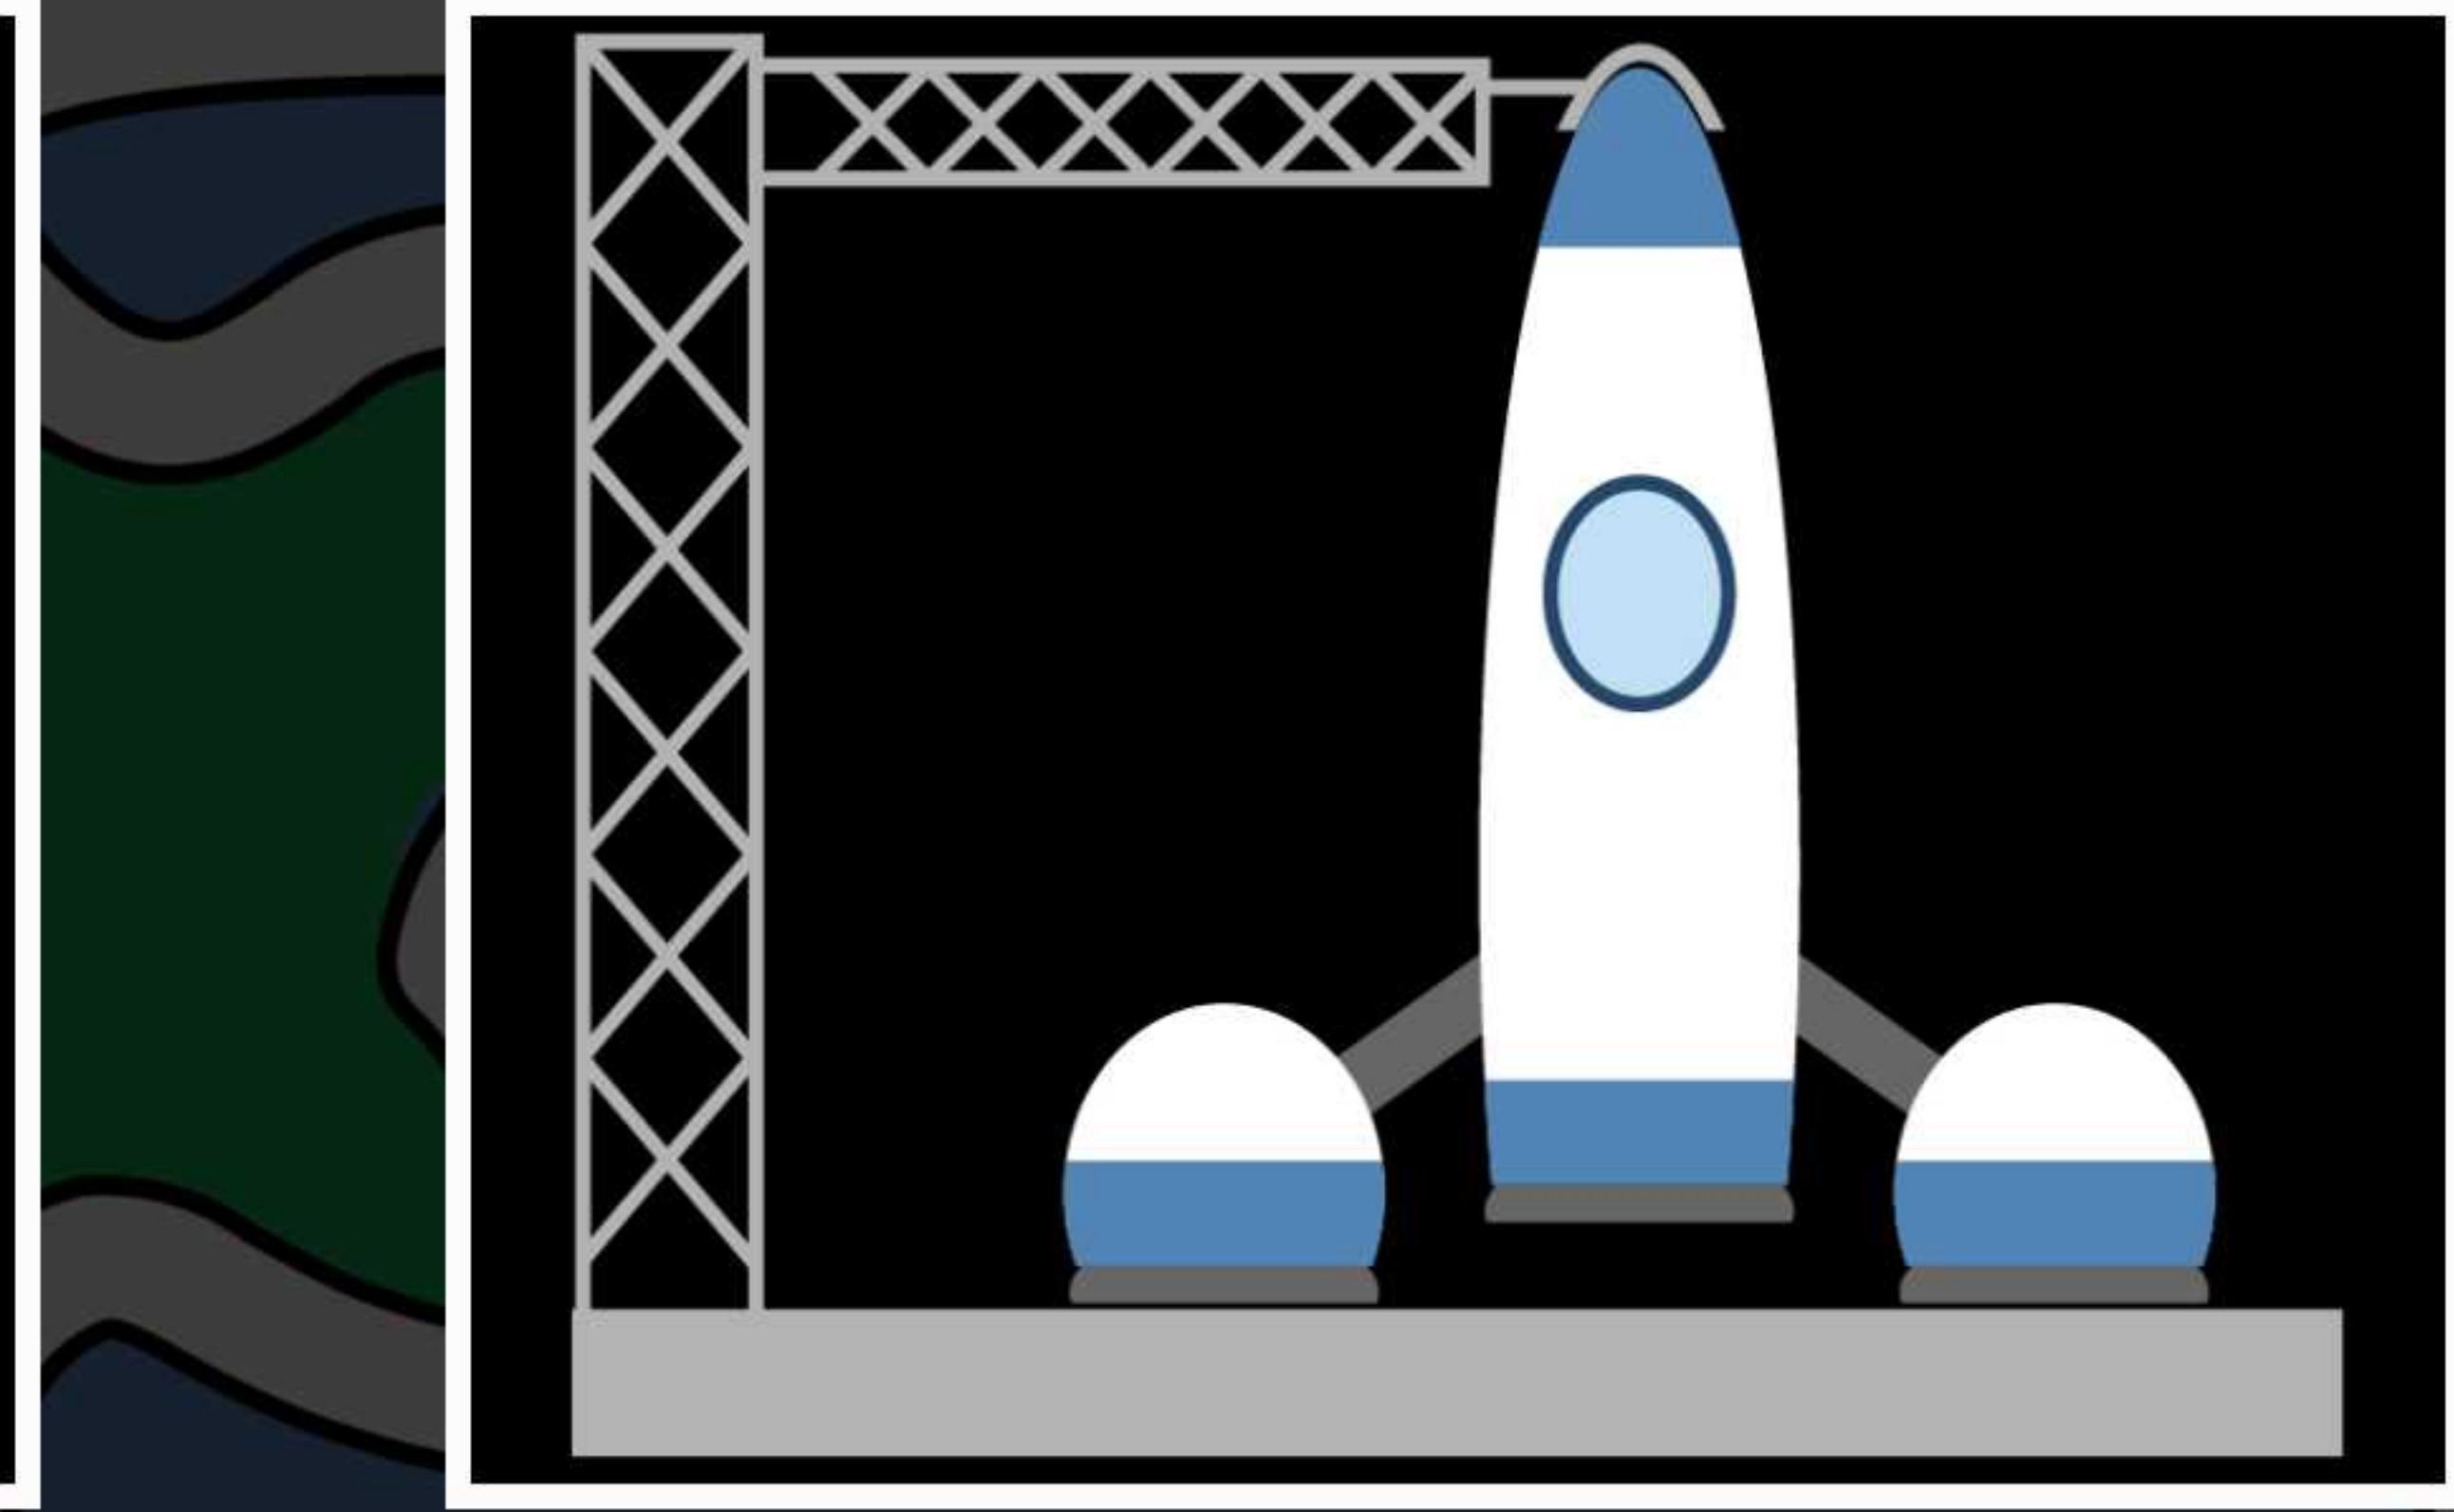

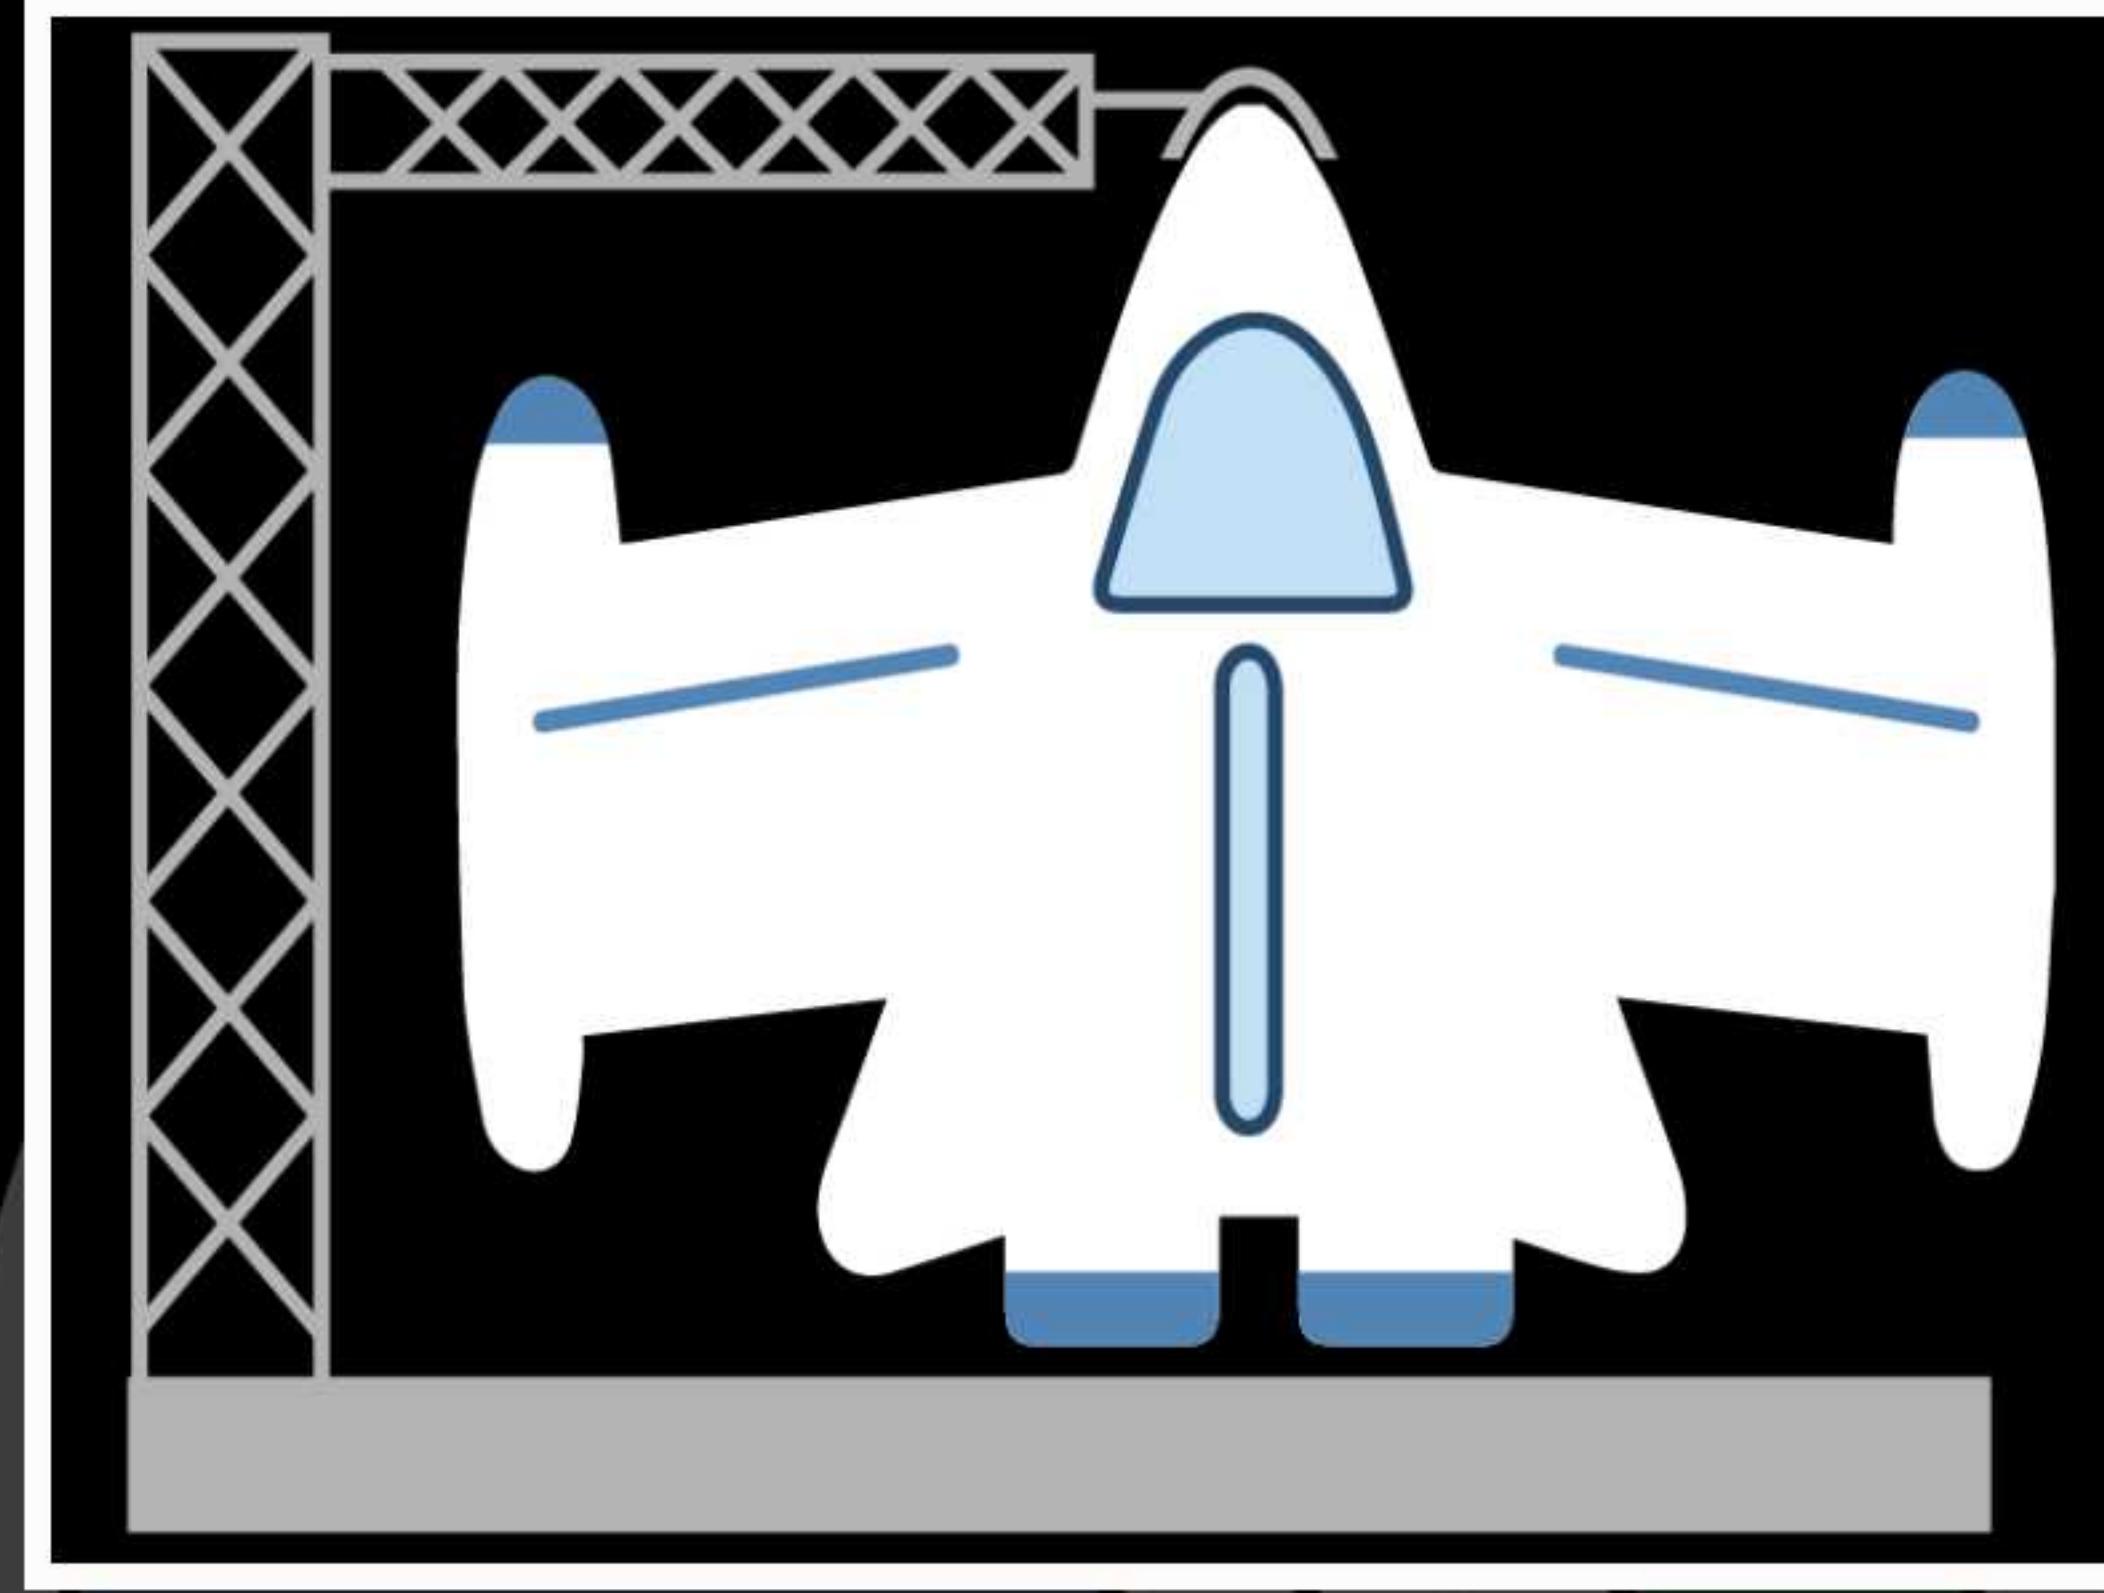

These aliens live in a galaxy on far away planets.

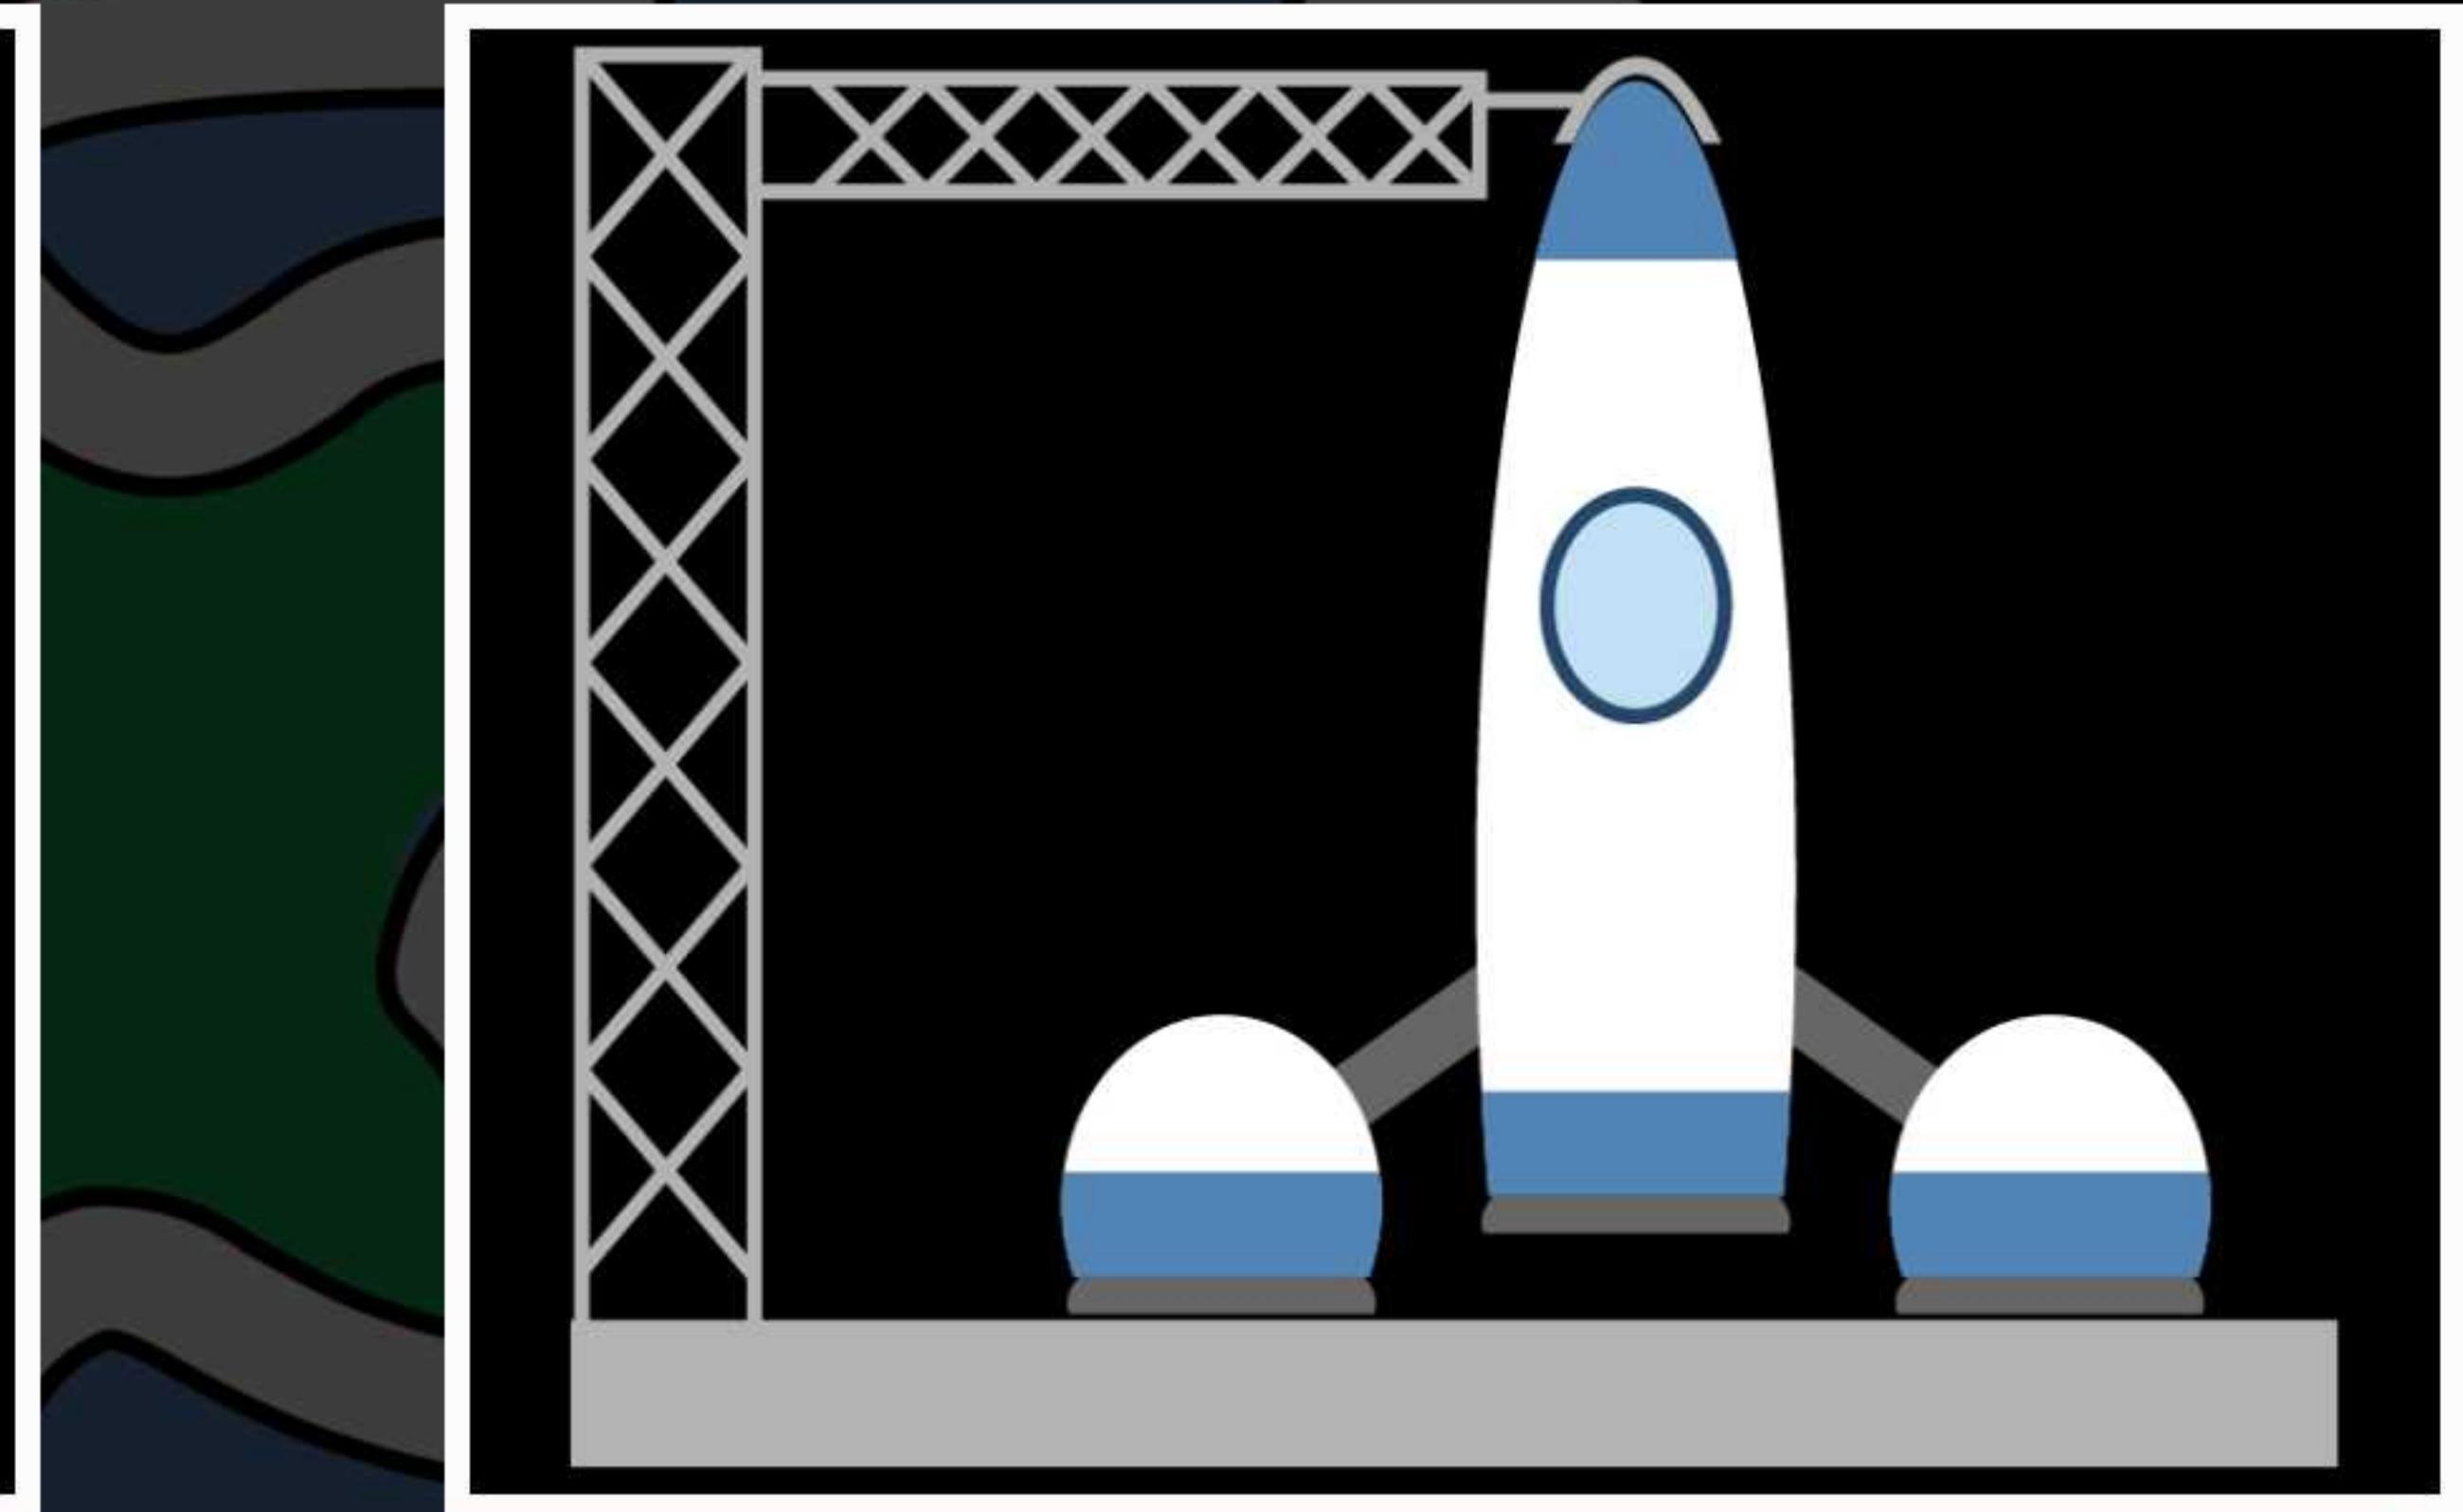

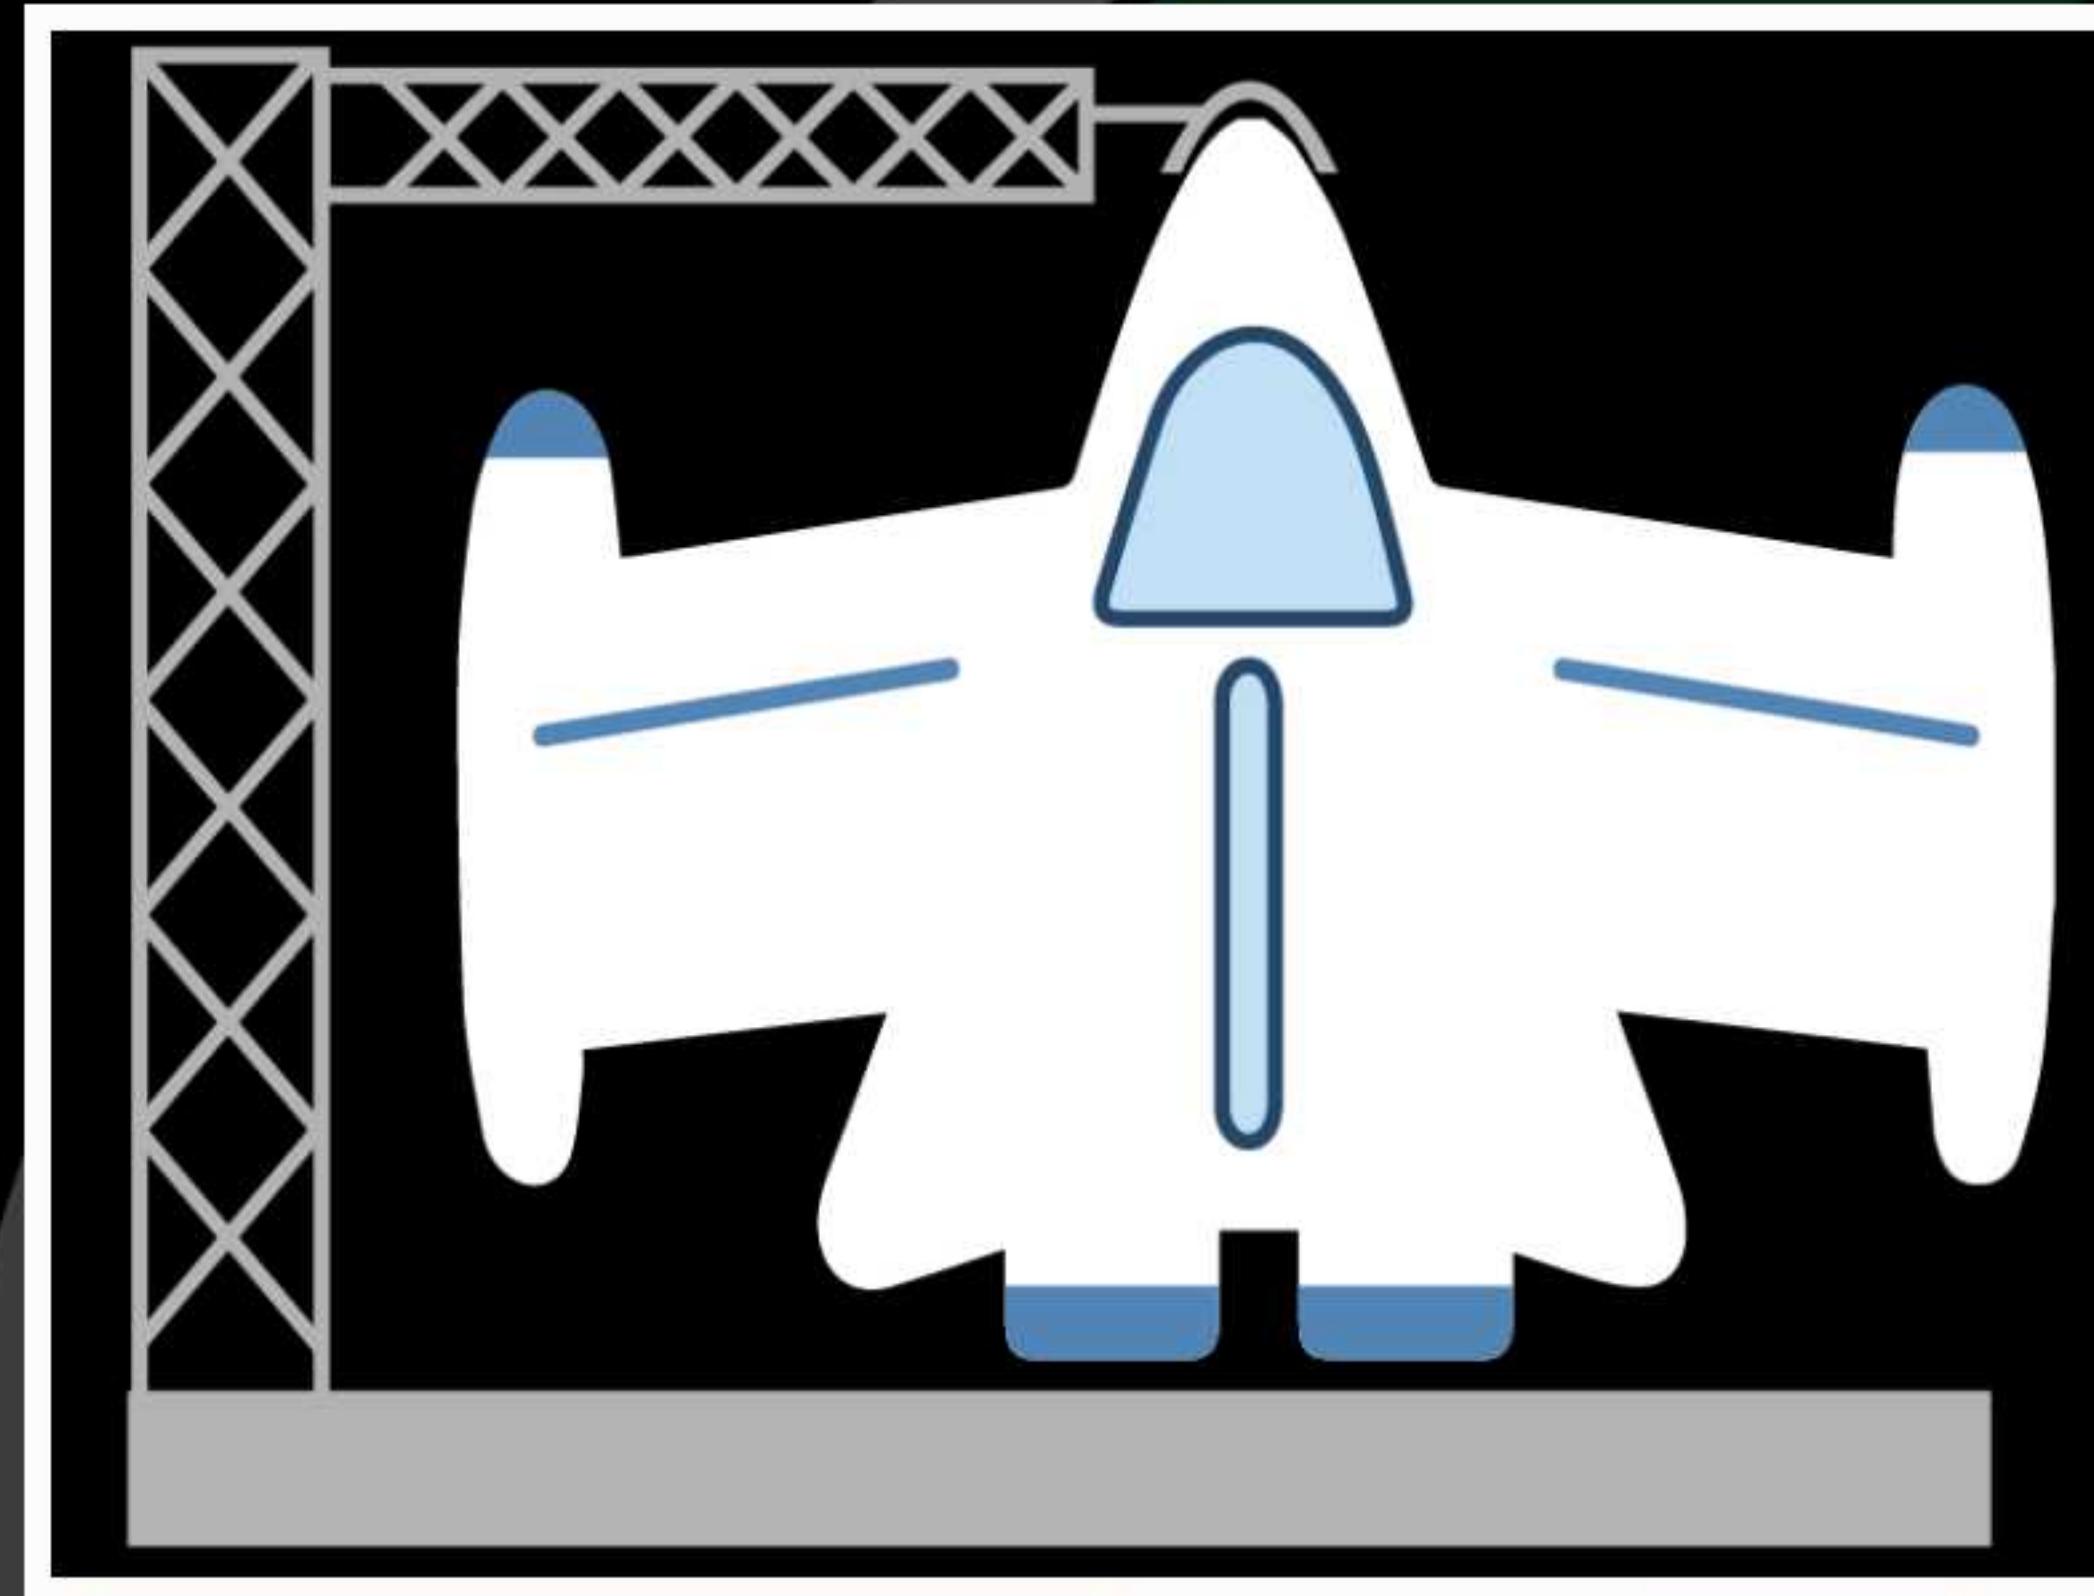

The purple aliens live on Planet Pentarus.

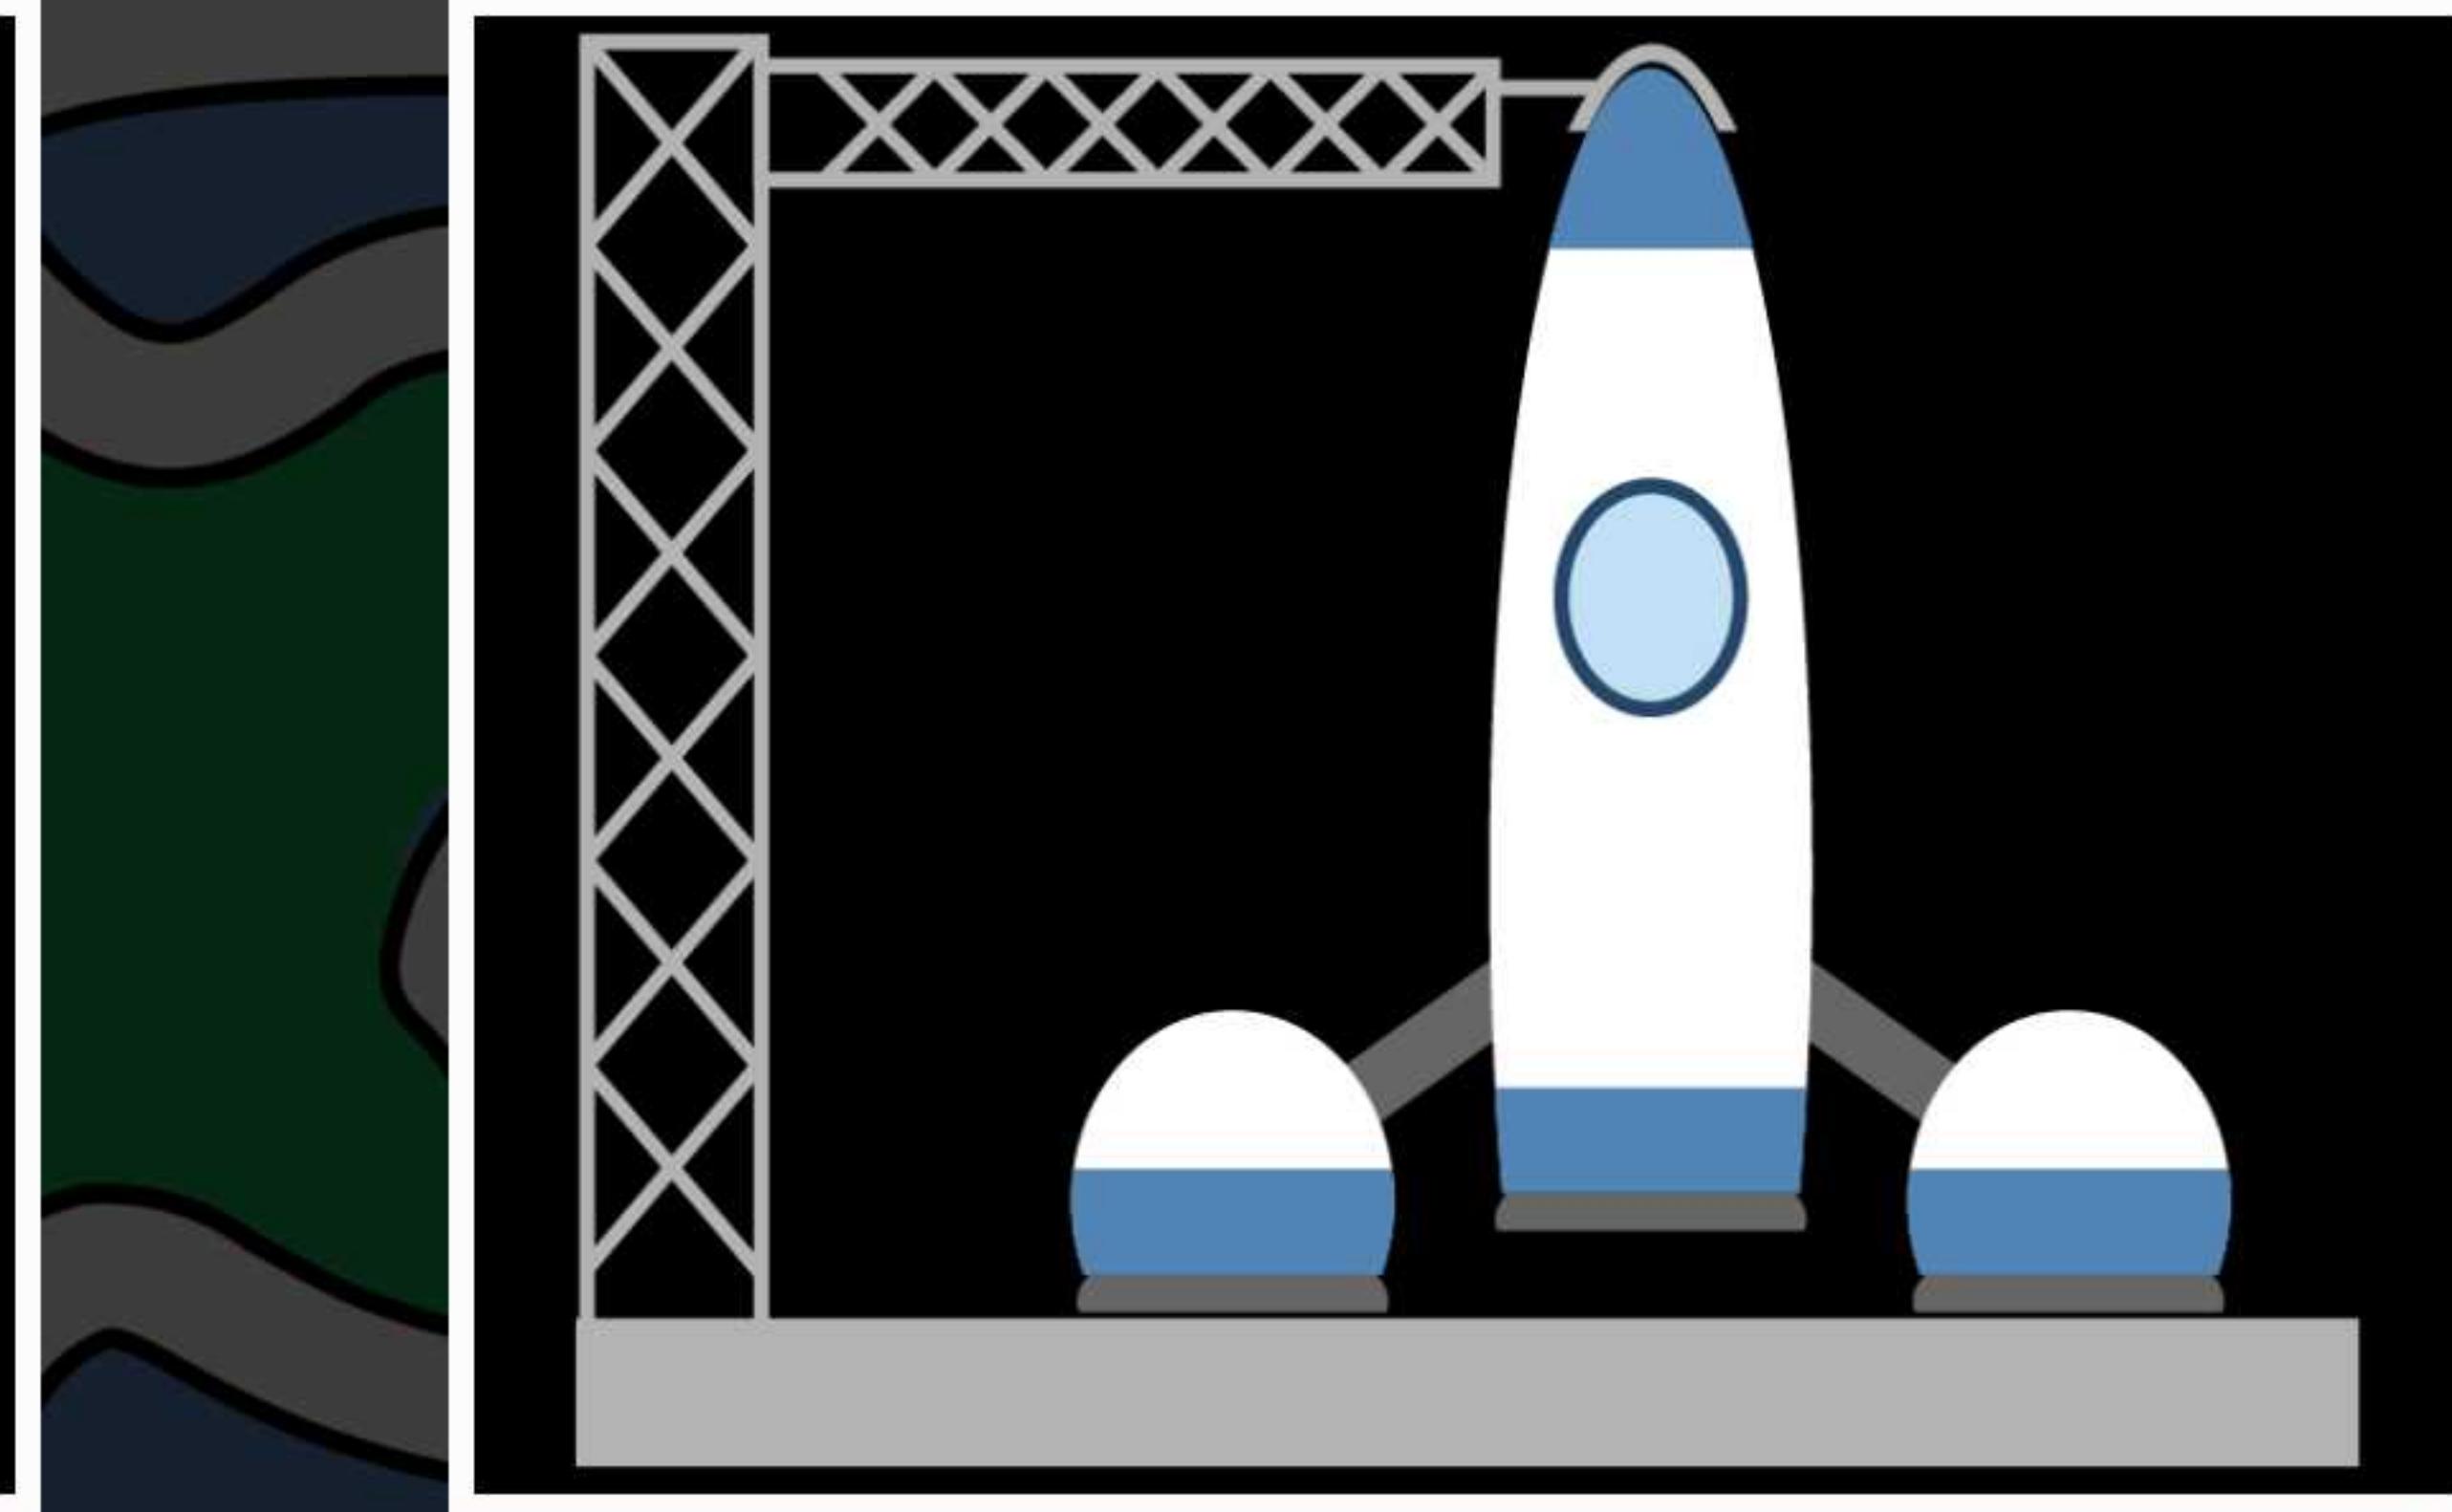

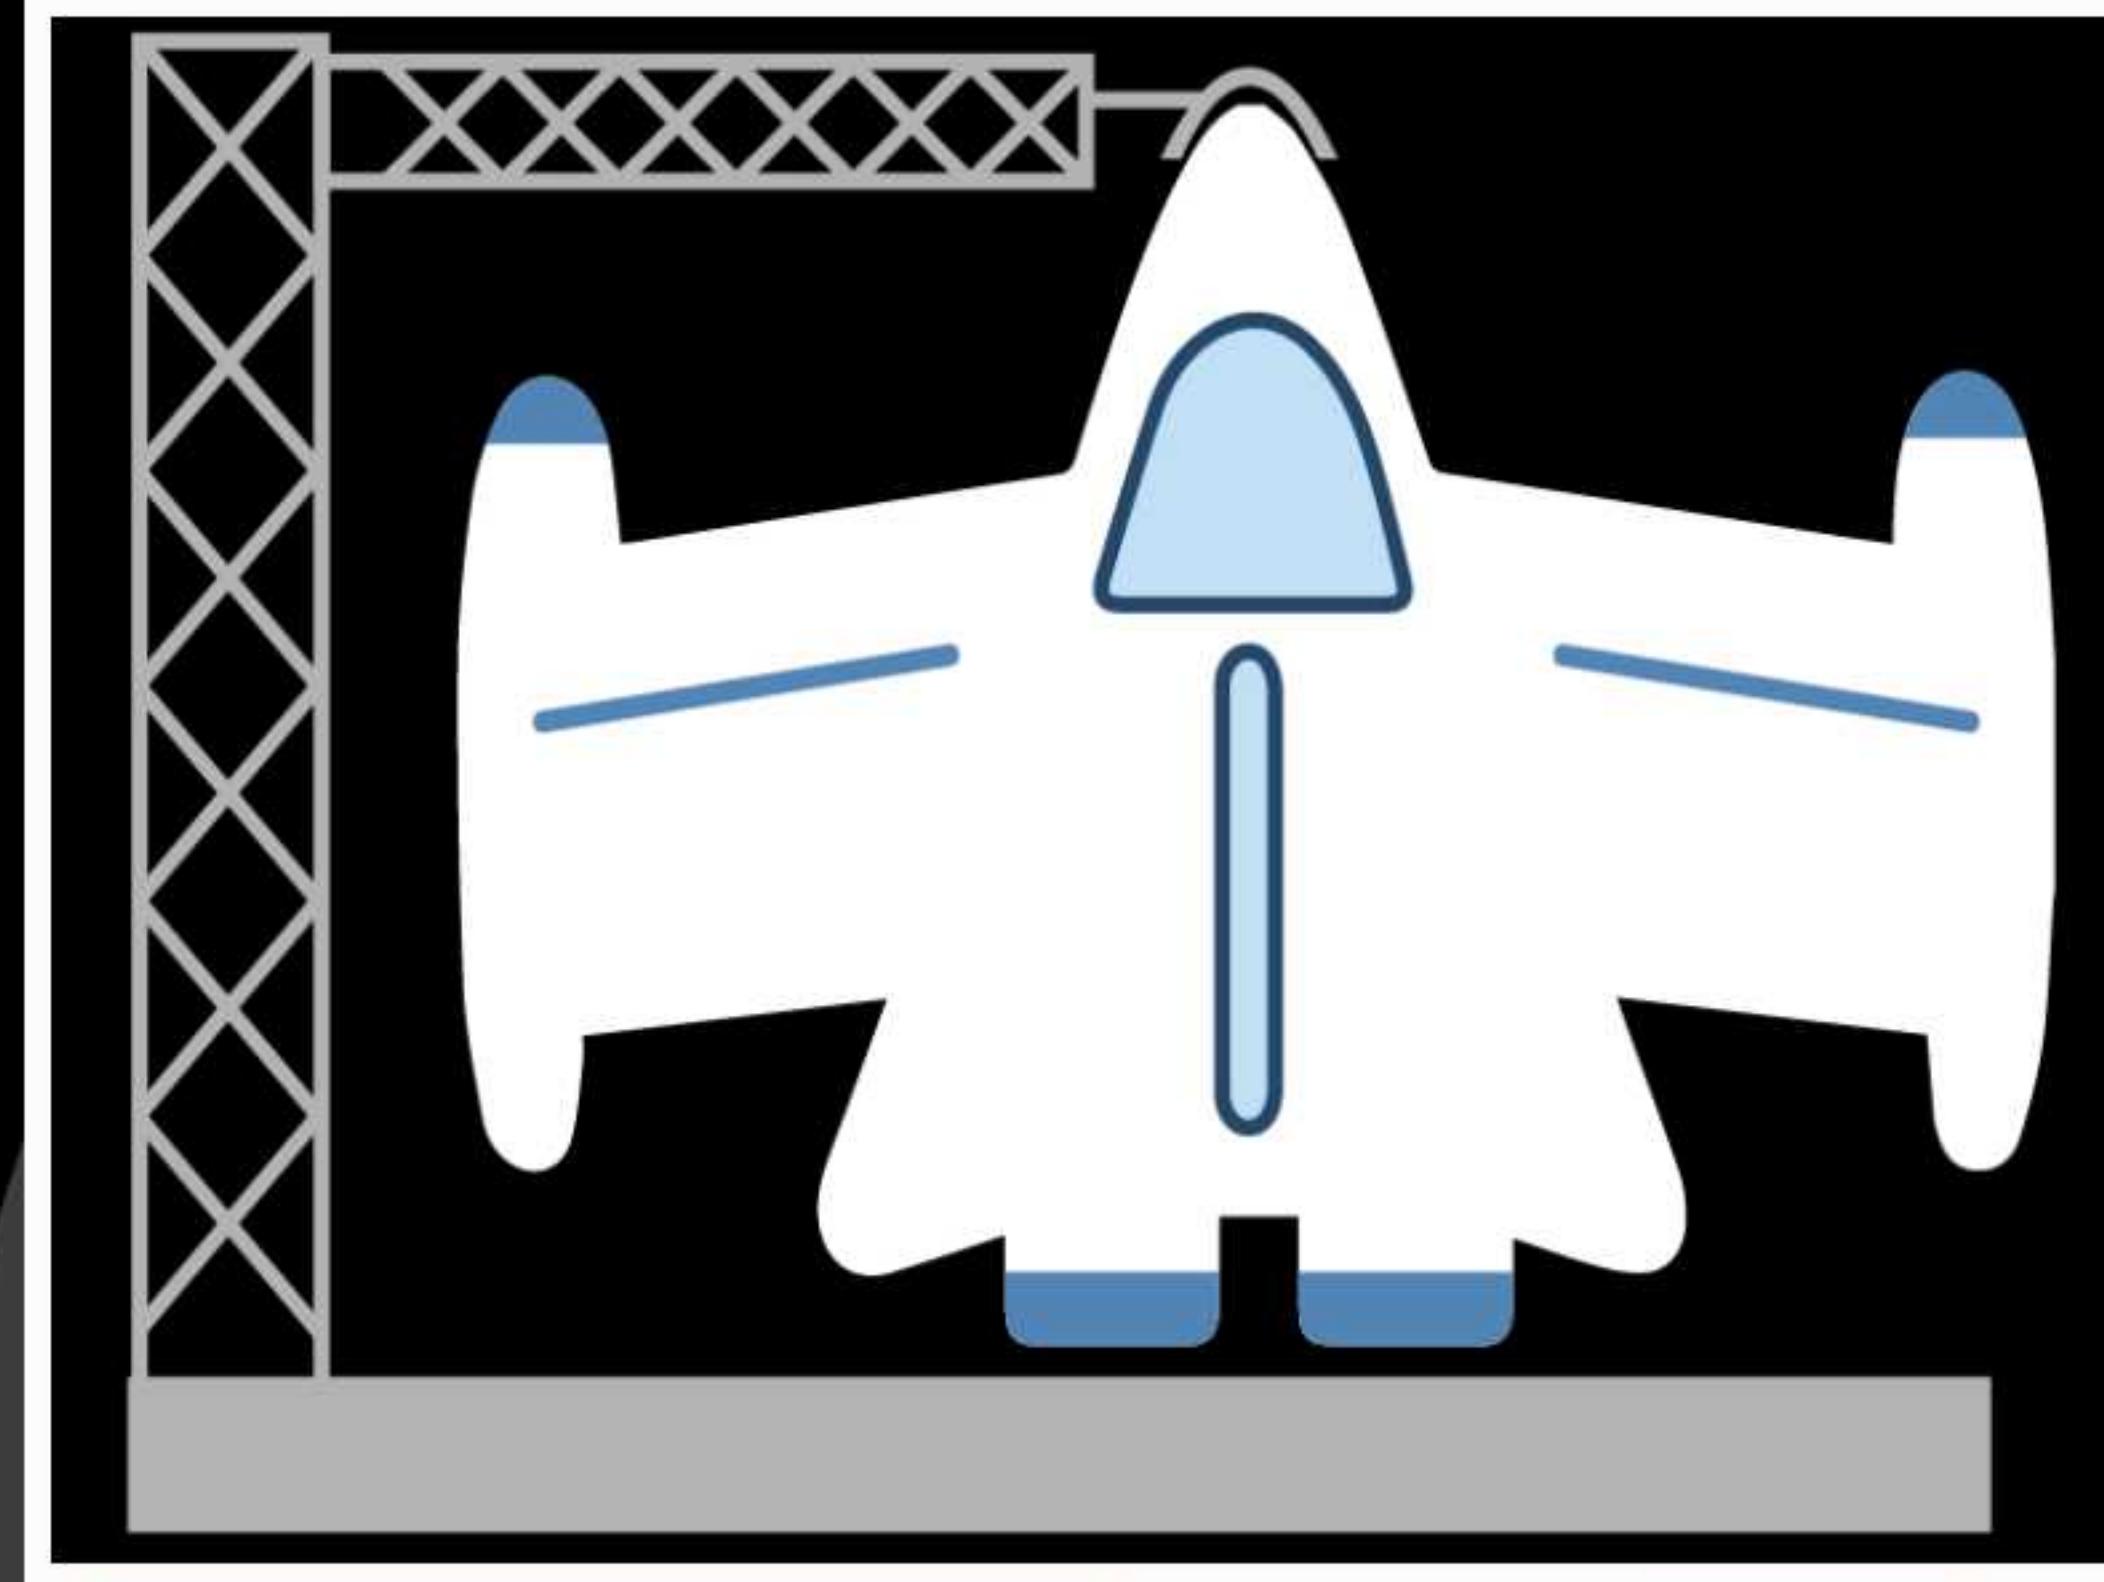

The red aliens live on Planet Rigel.

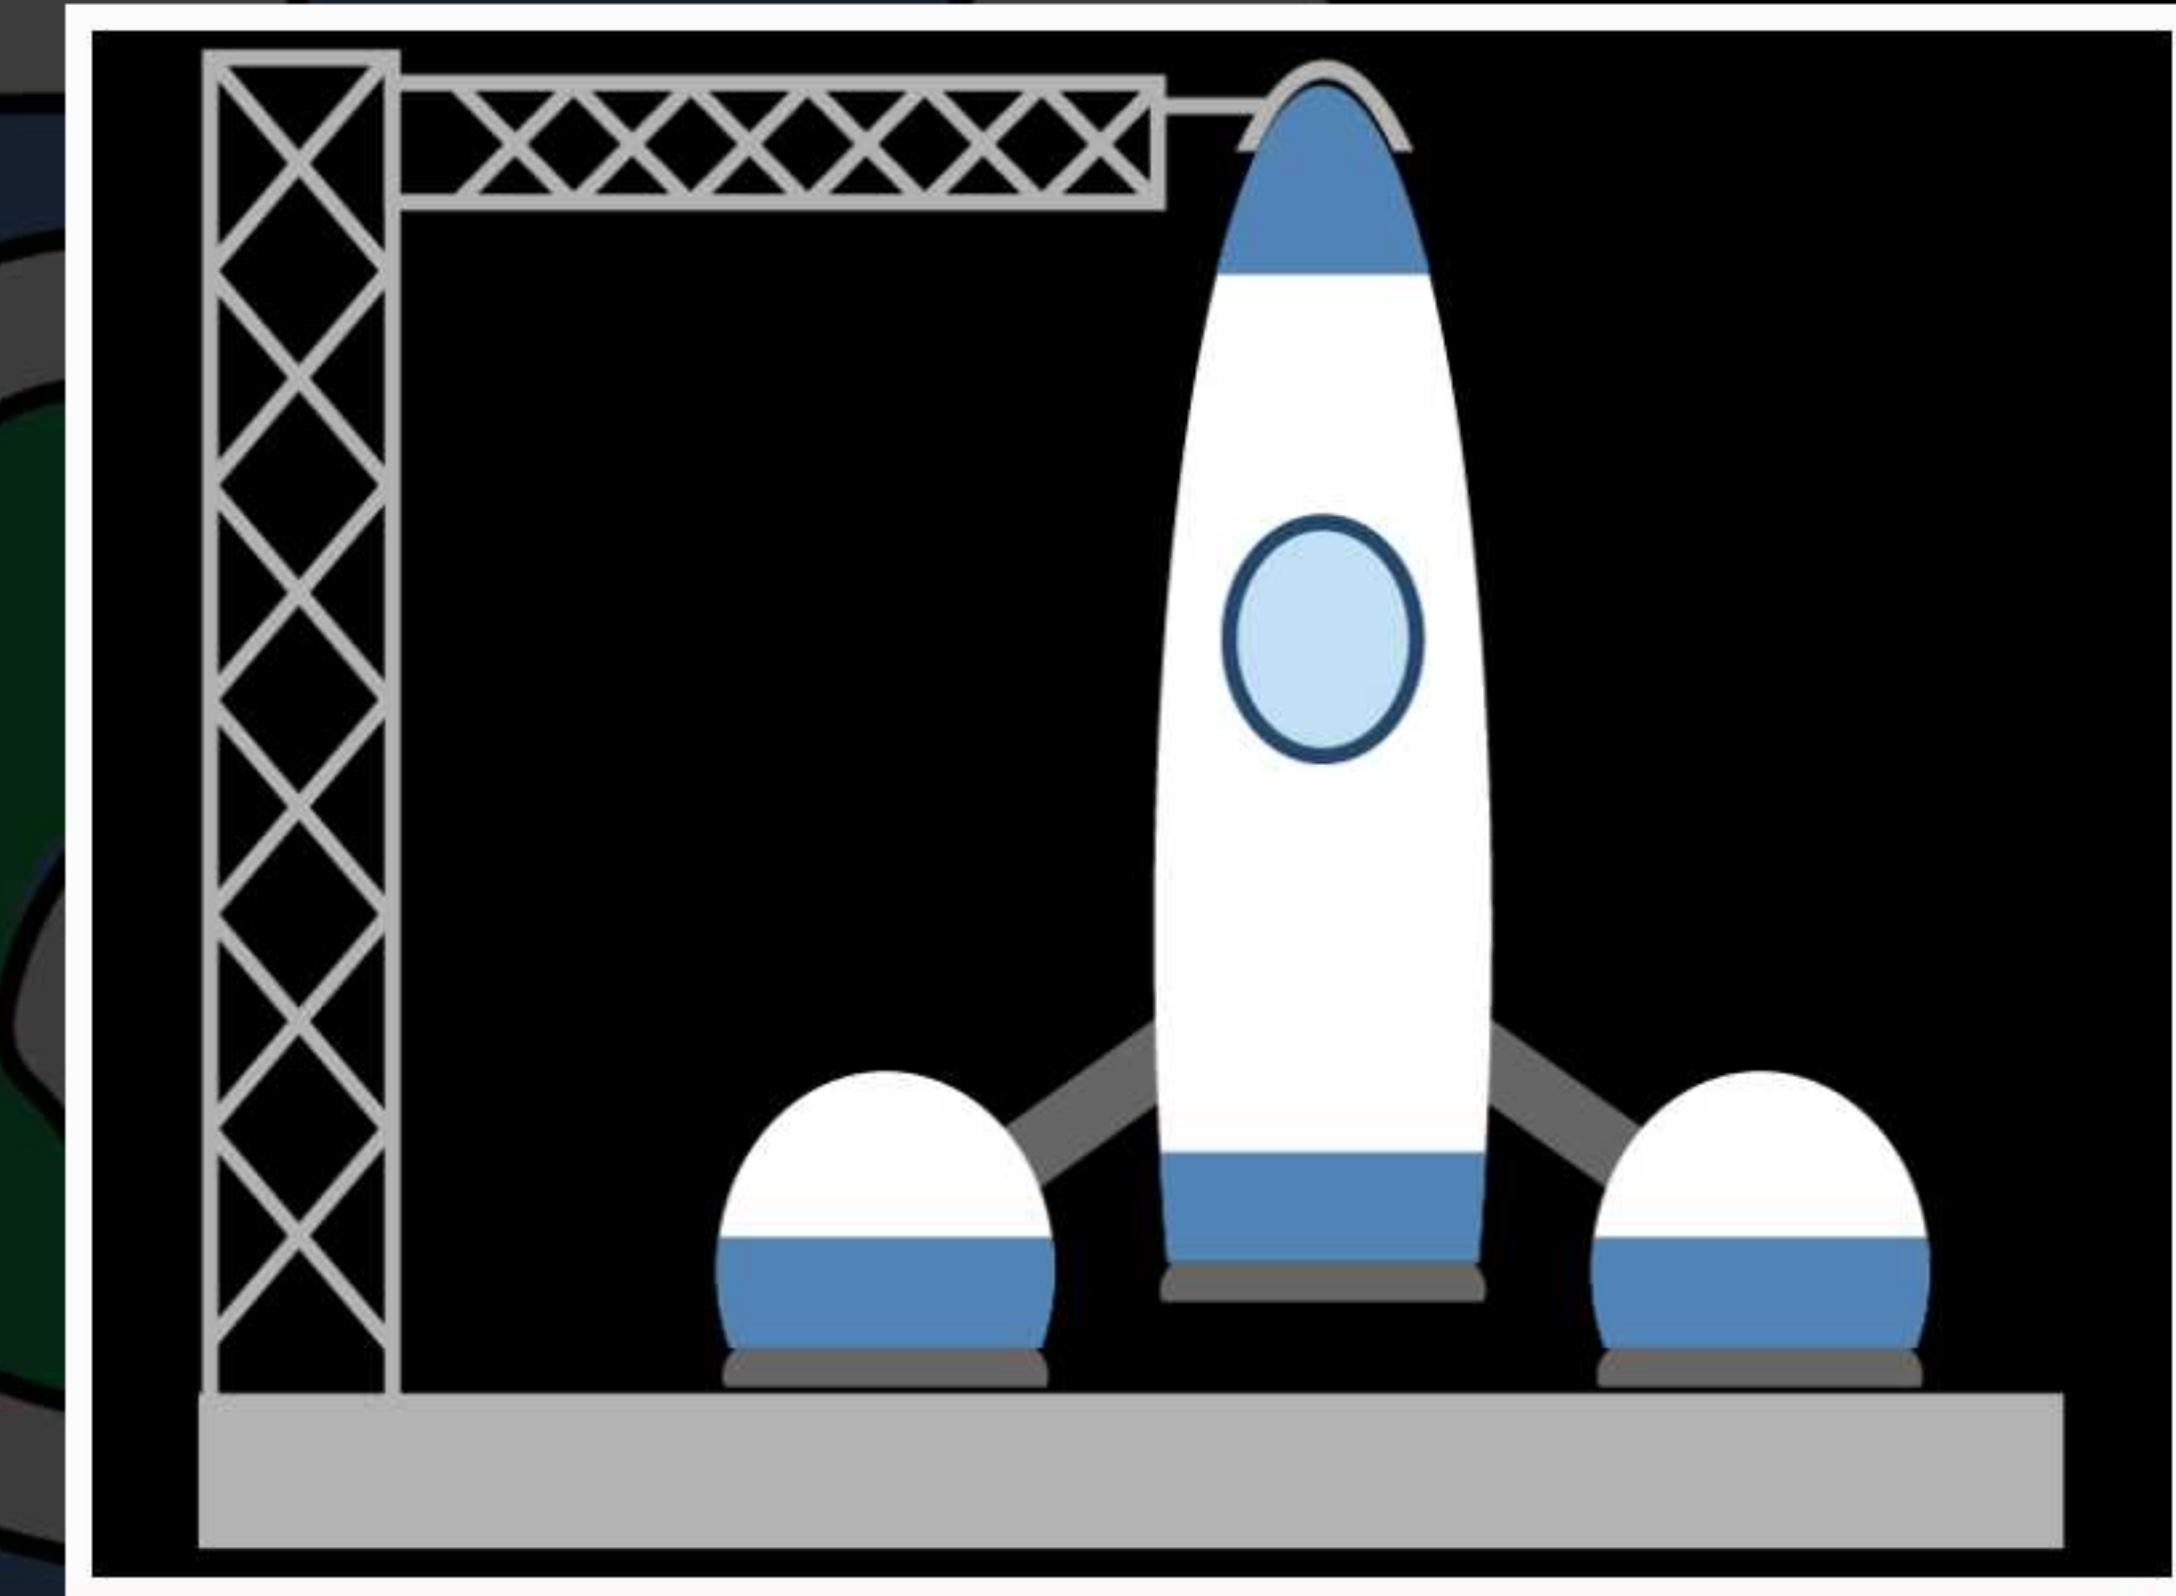

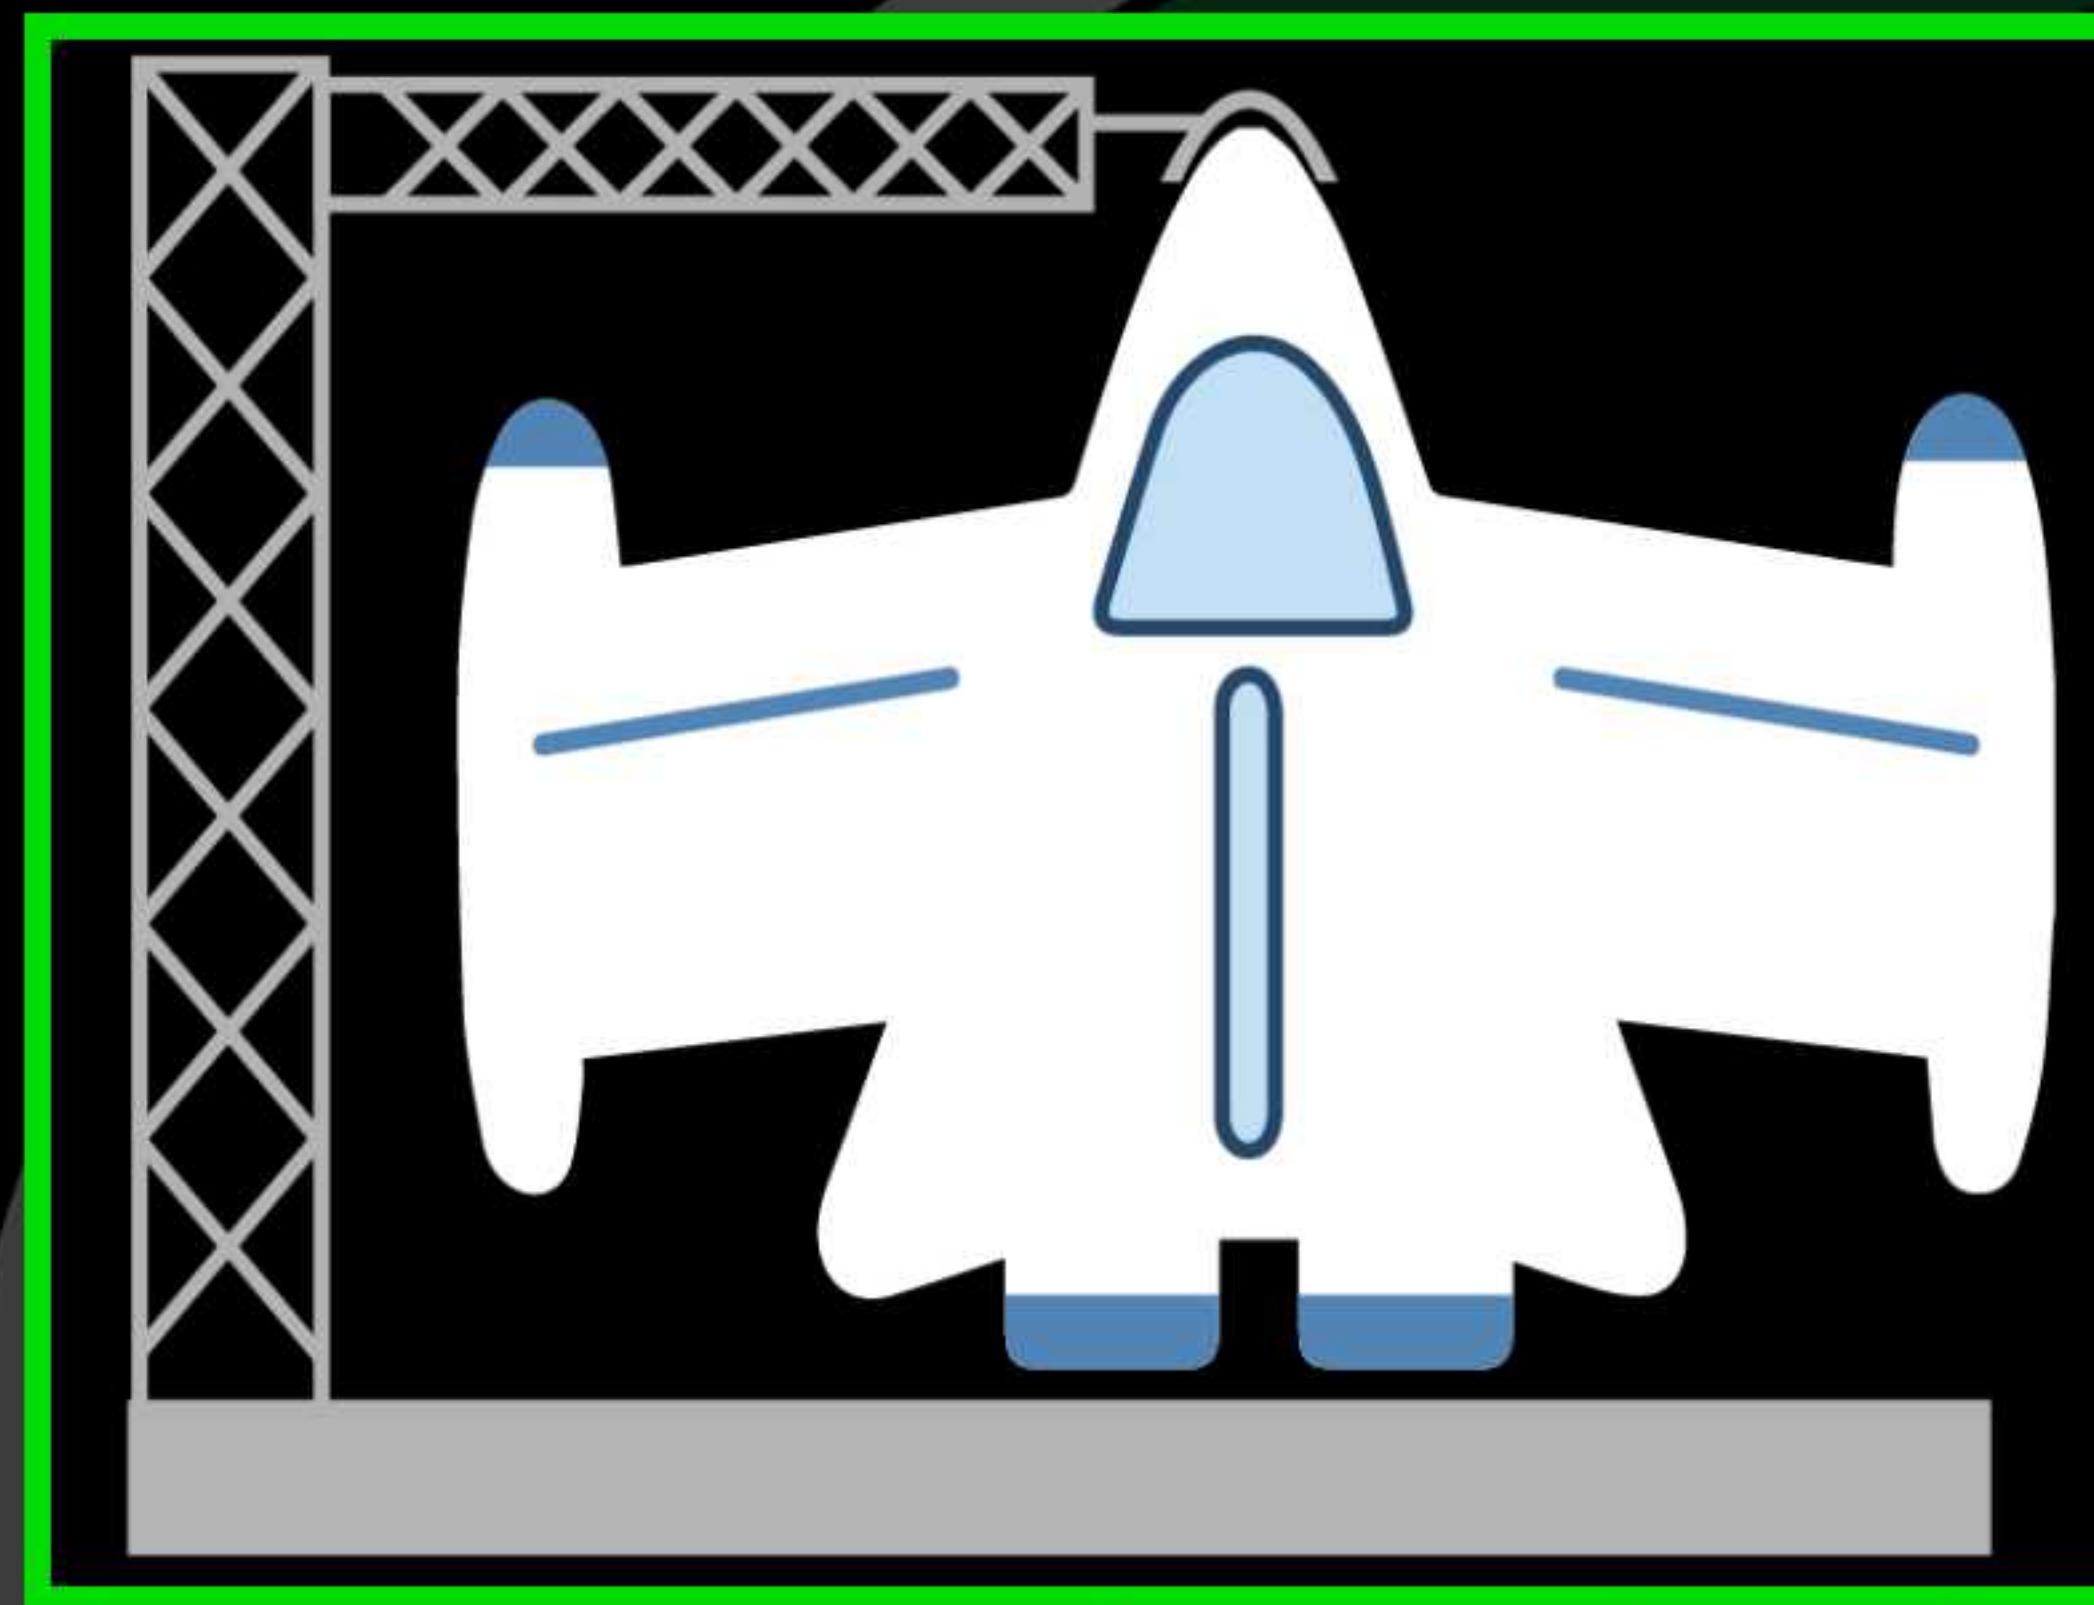

To get to these far away planets, we have given you two spaceships.

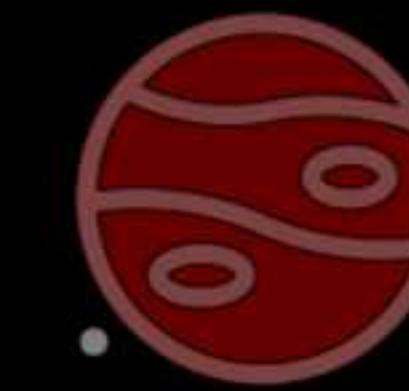

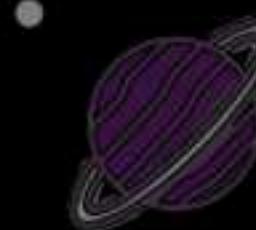

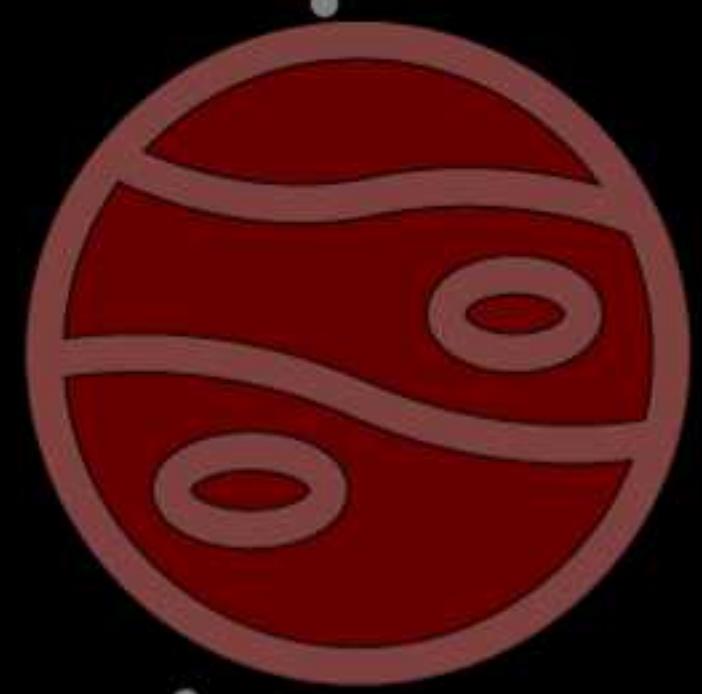

Each day, you will pick one spaceship to explore the galaxy.

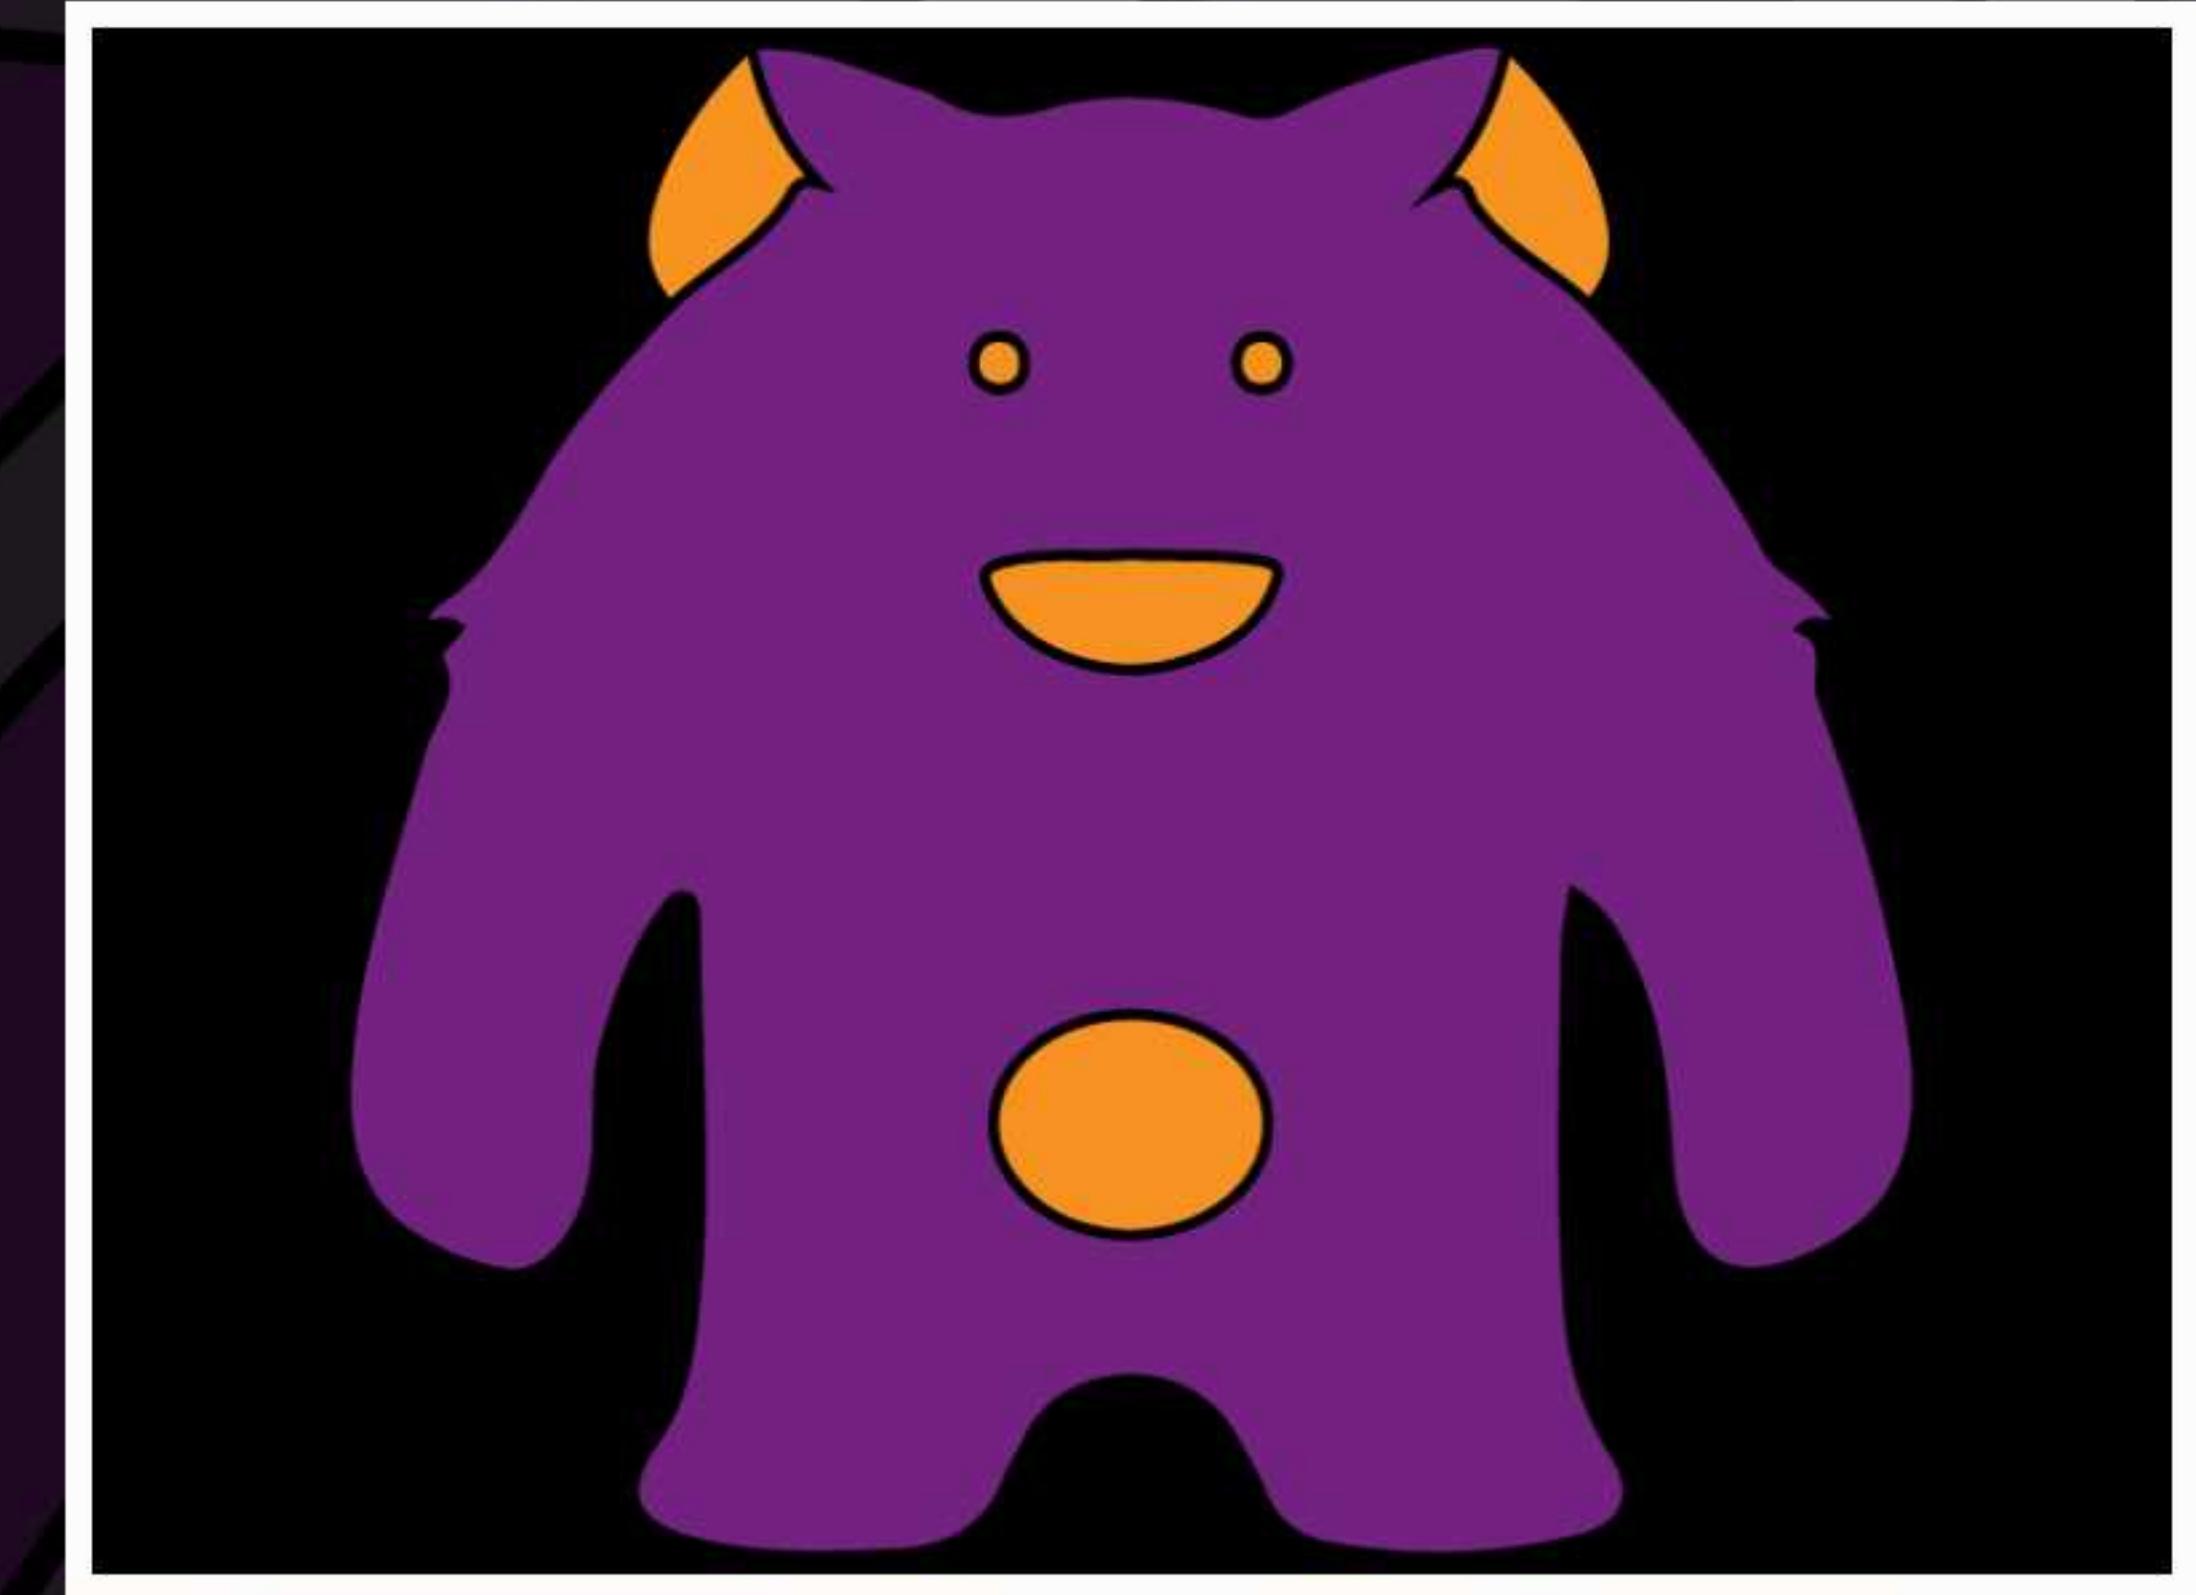

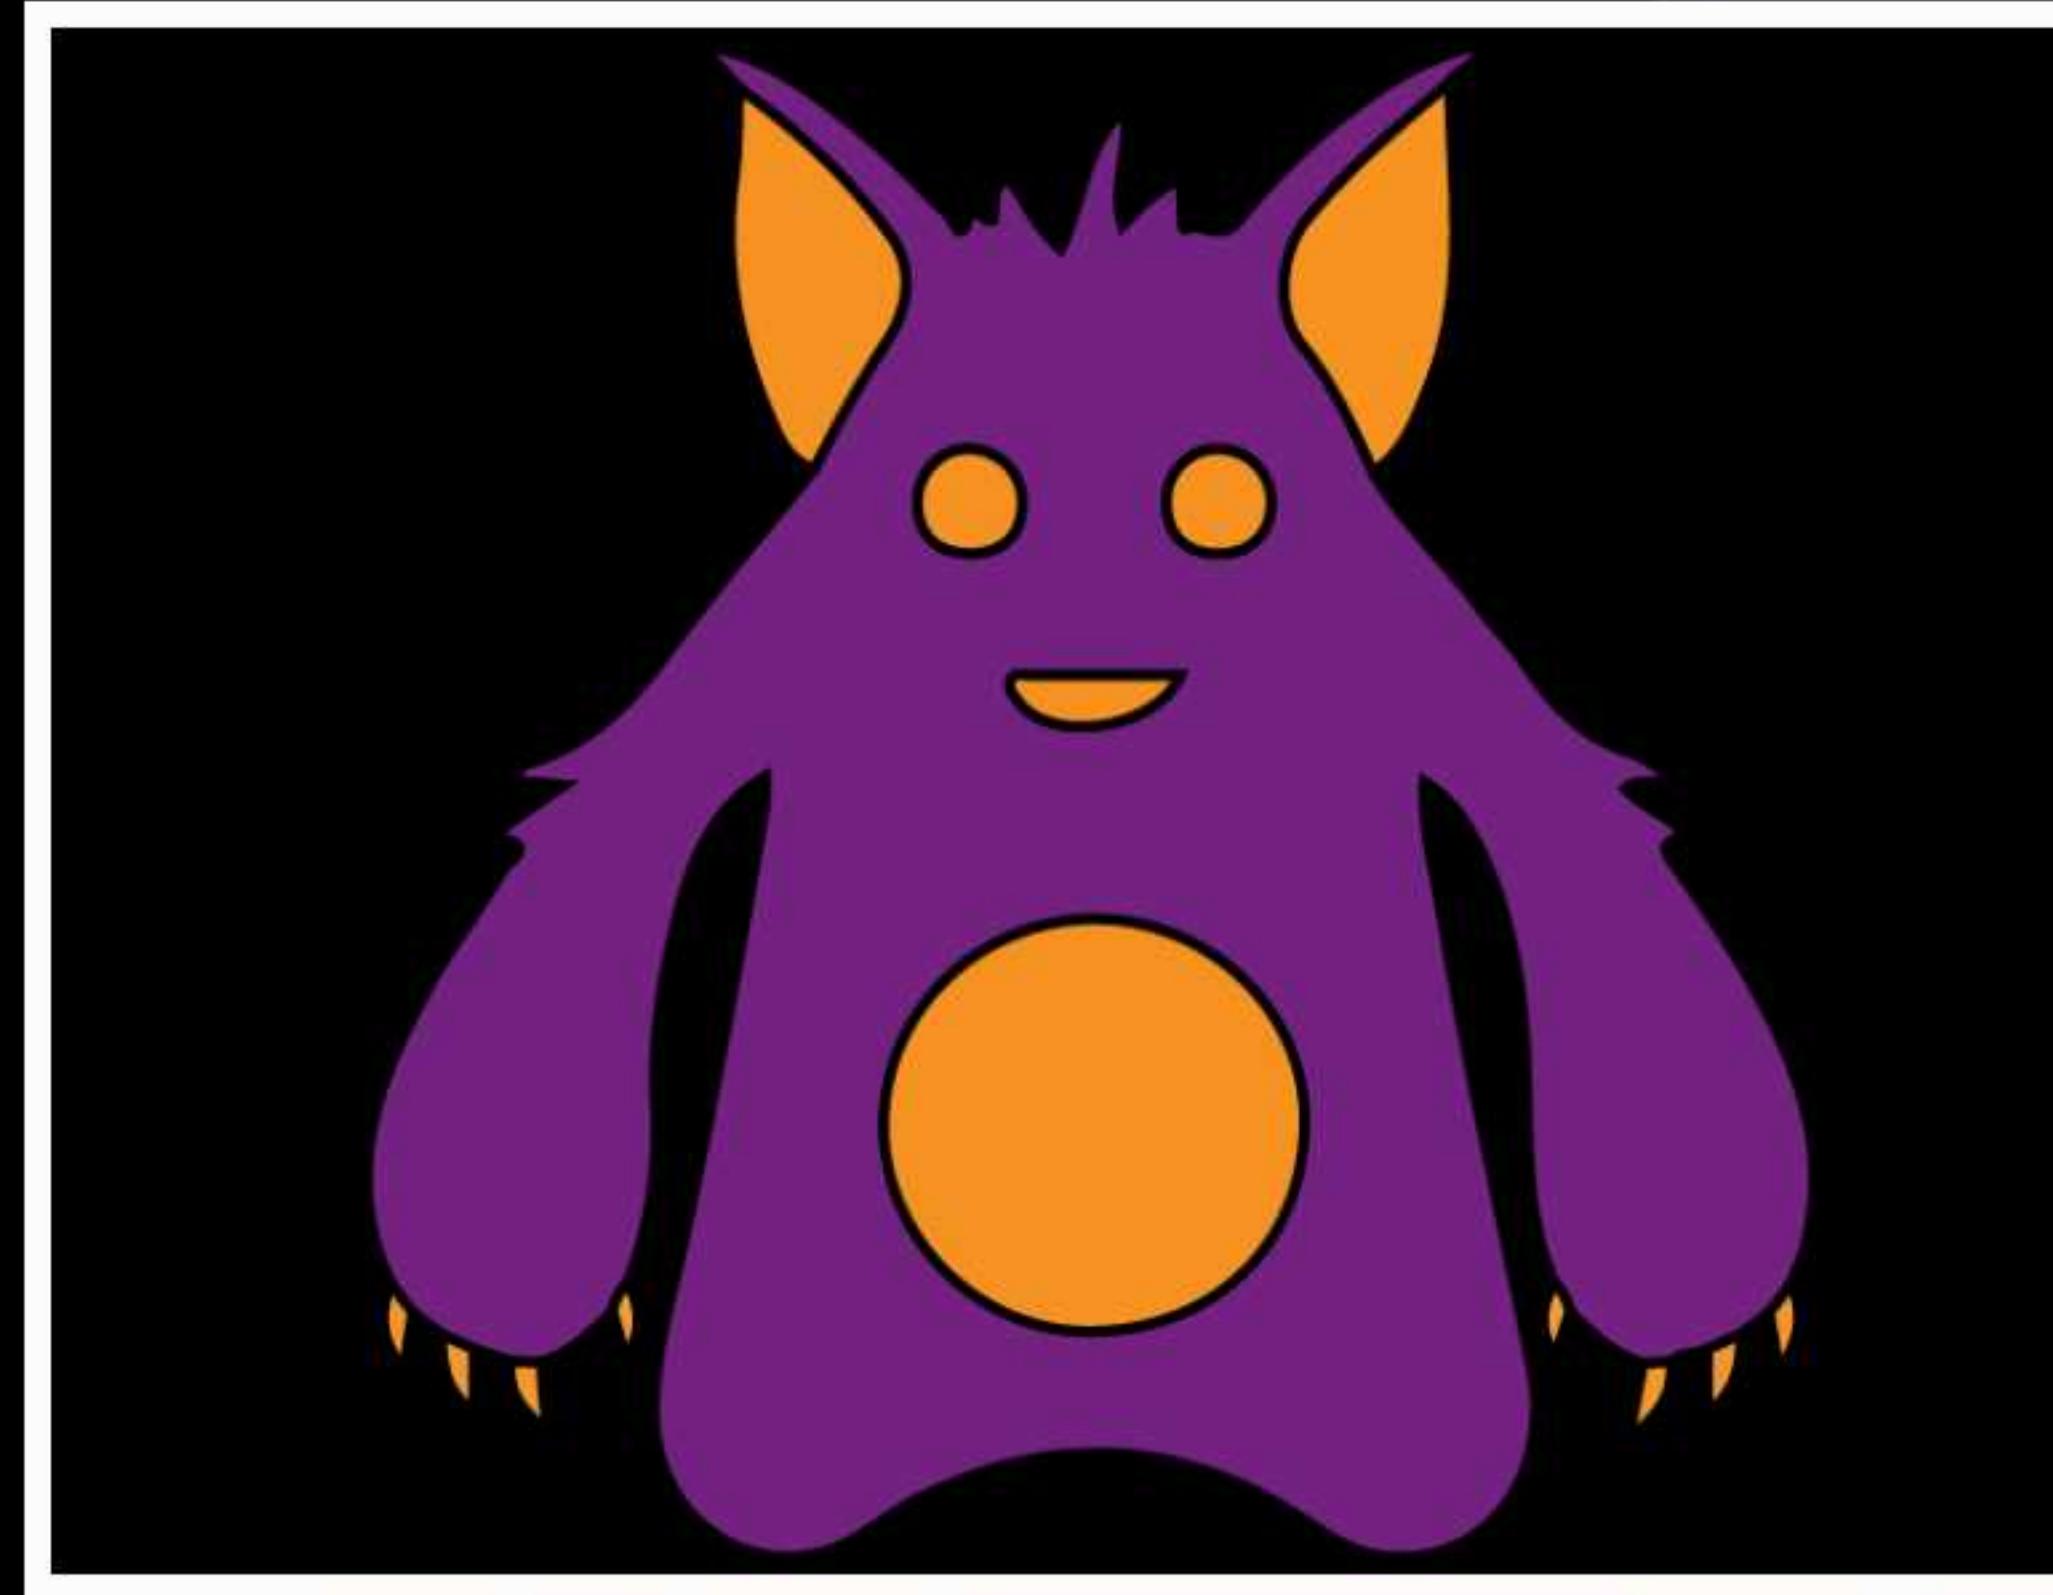

Let's start off by choosing the spaceship on the left.

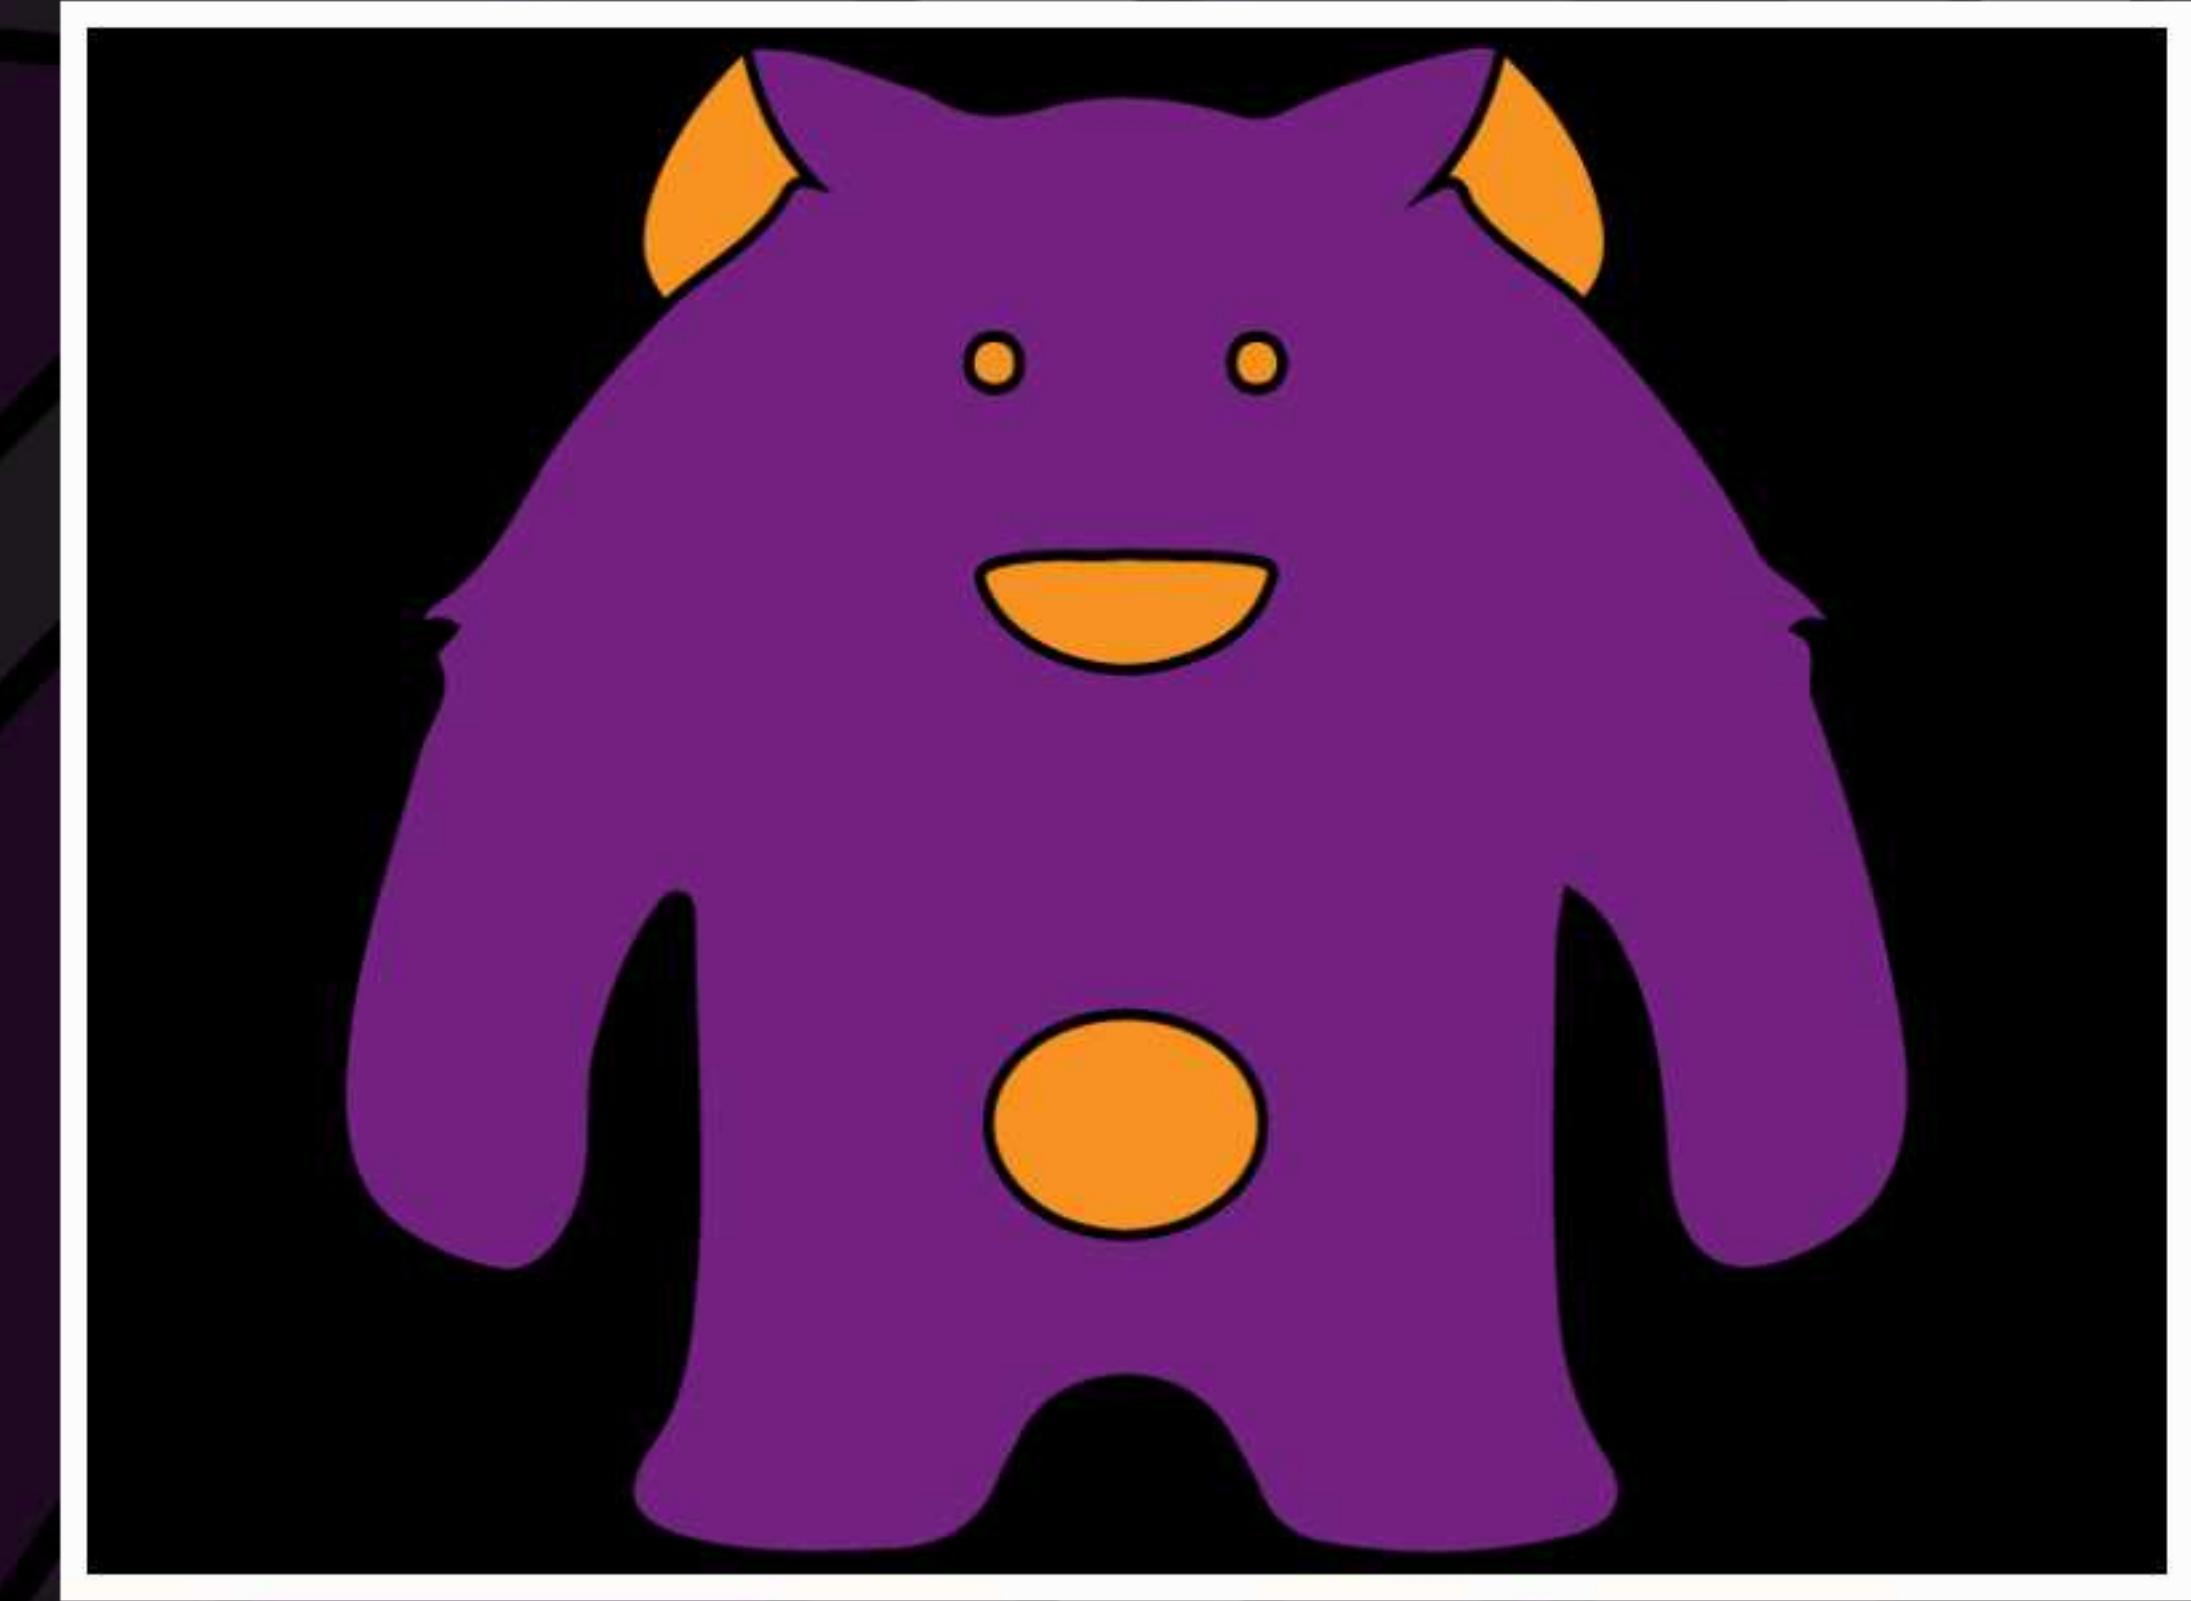

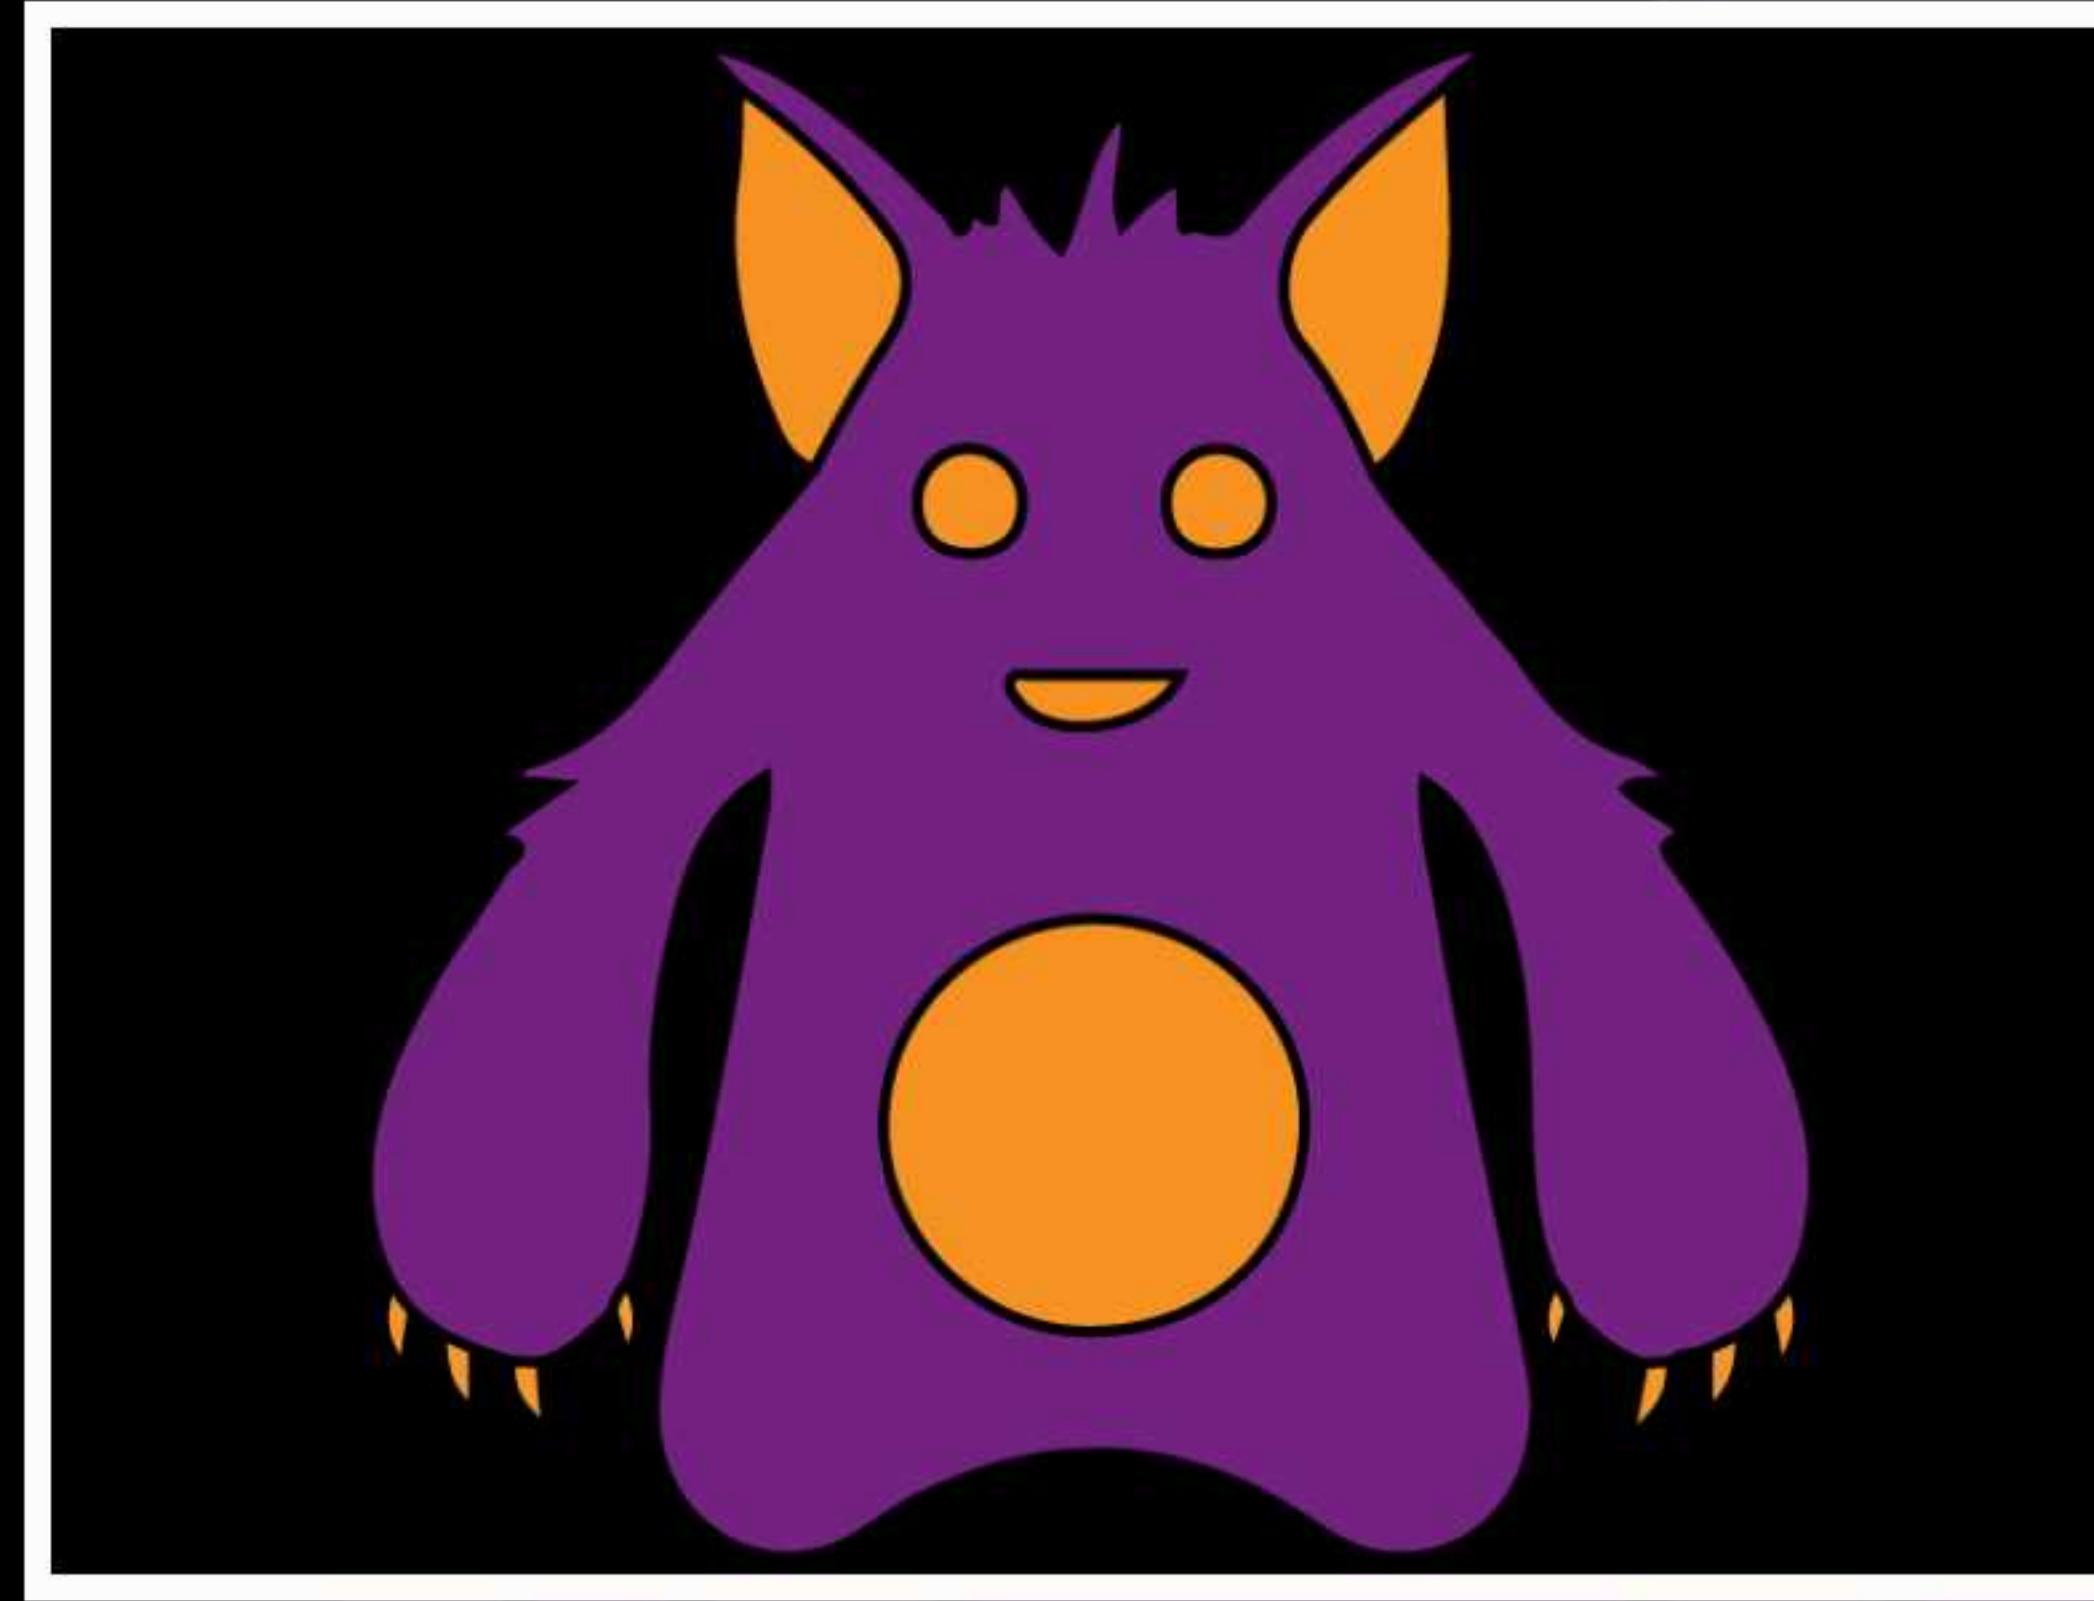

Your spaceship will navigate the galaxy and choose a planet to land on.

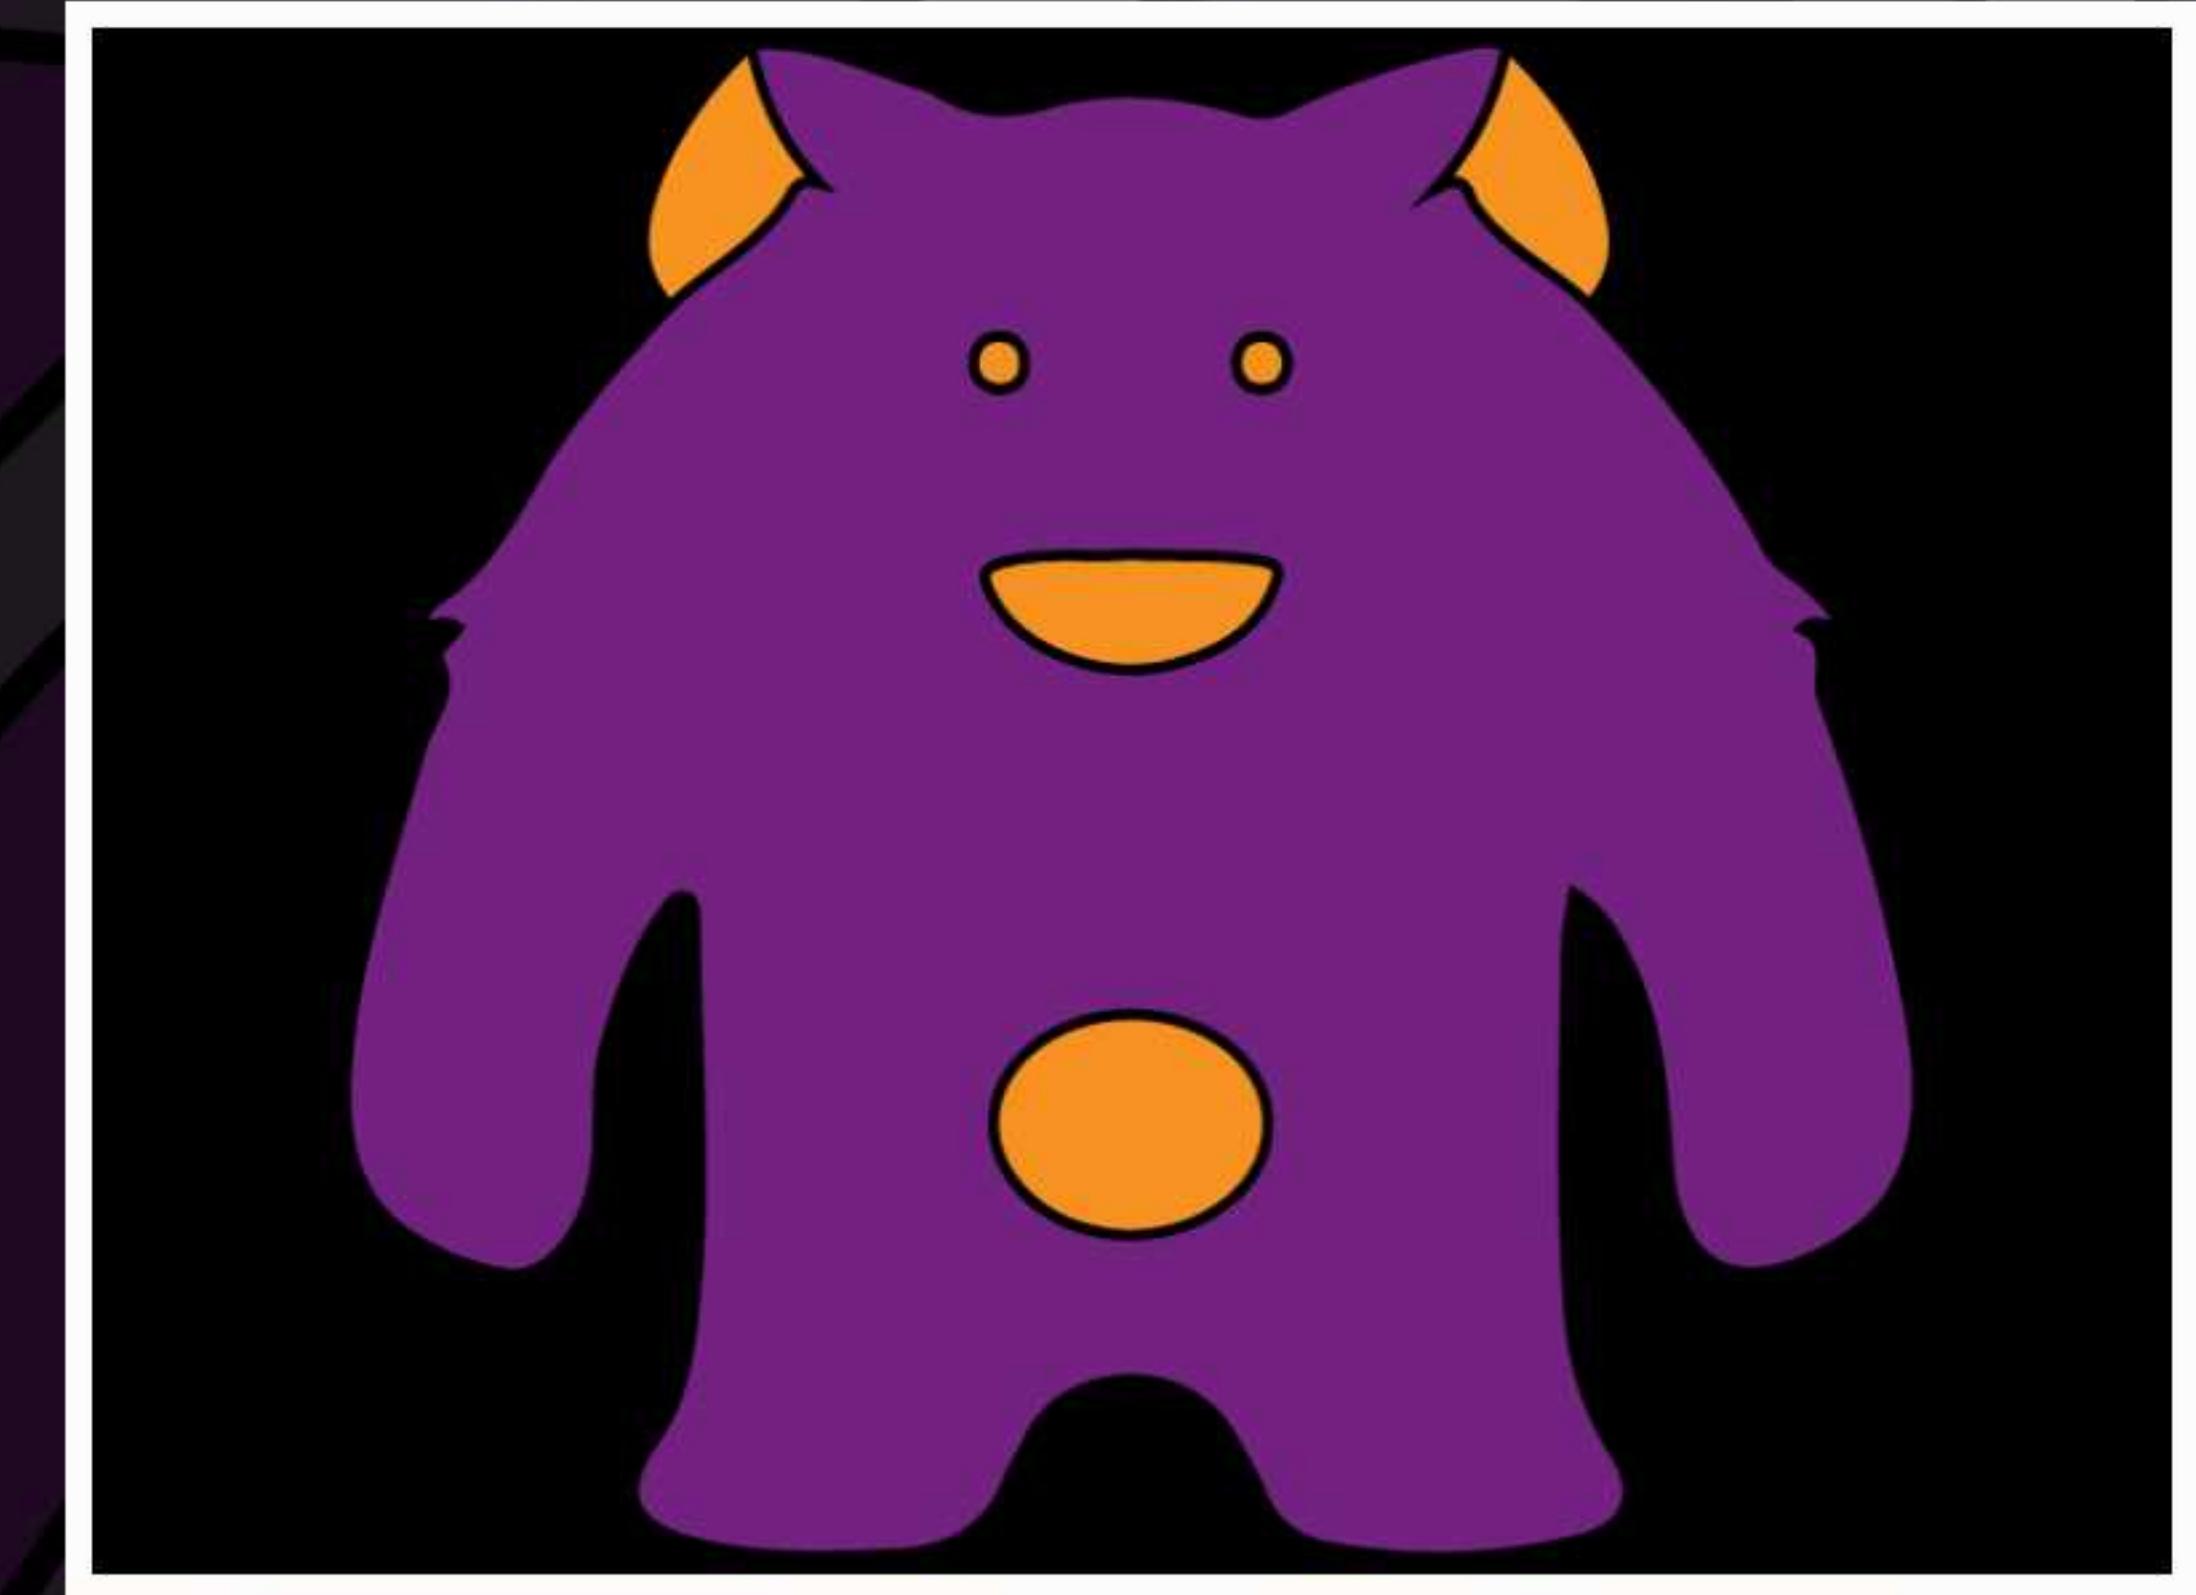

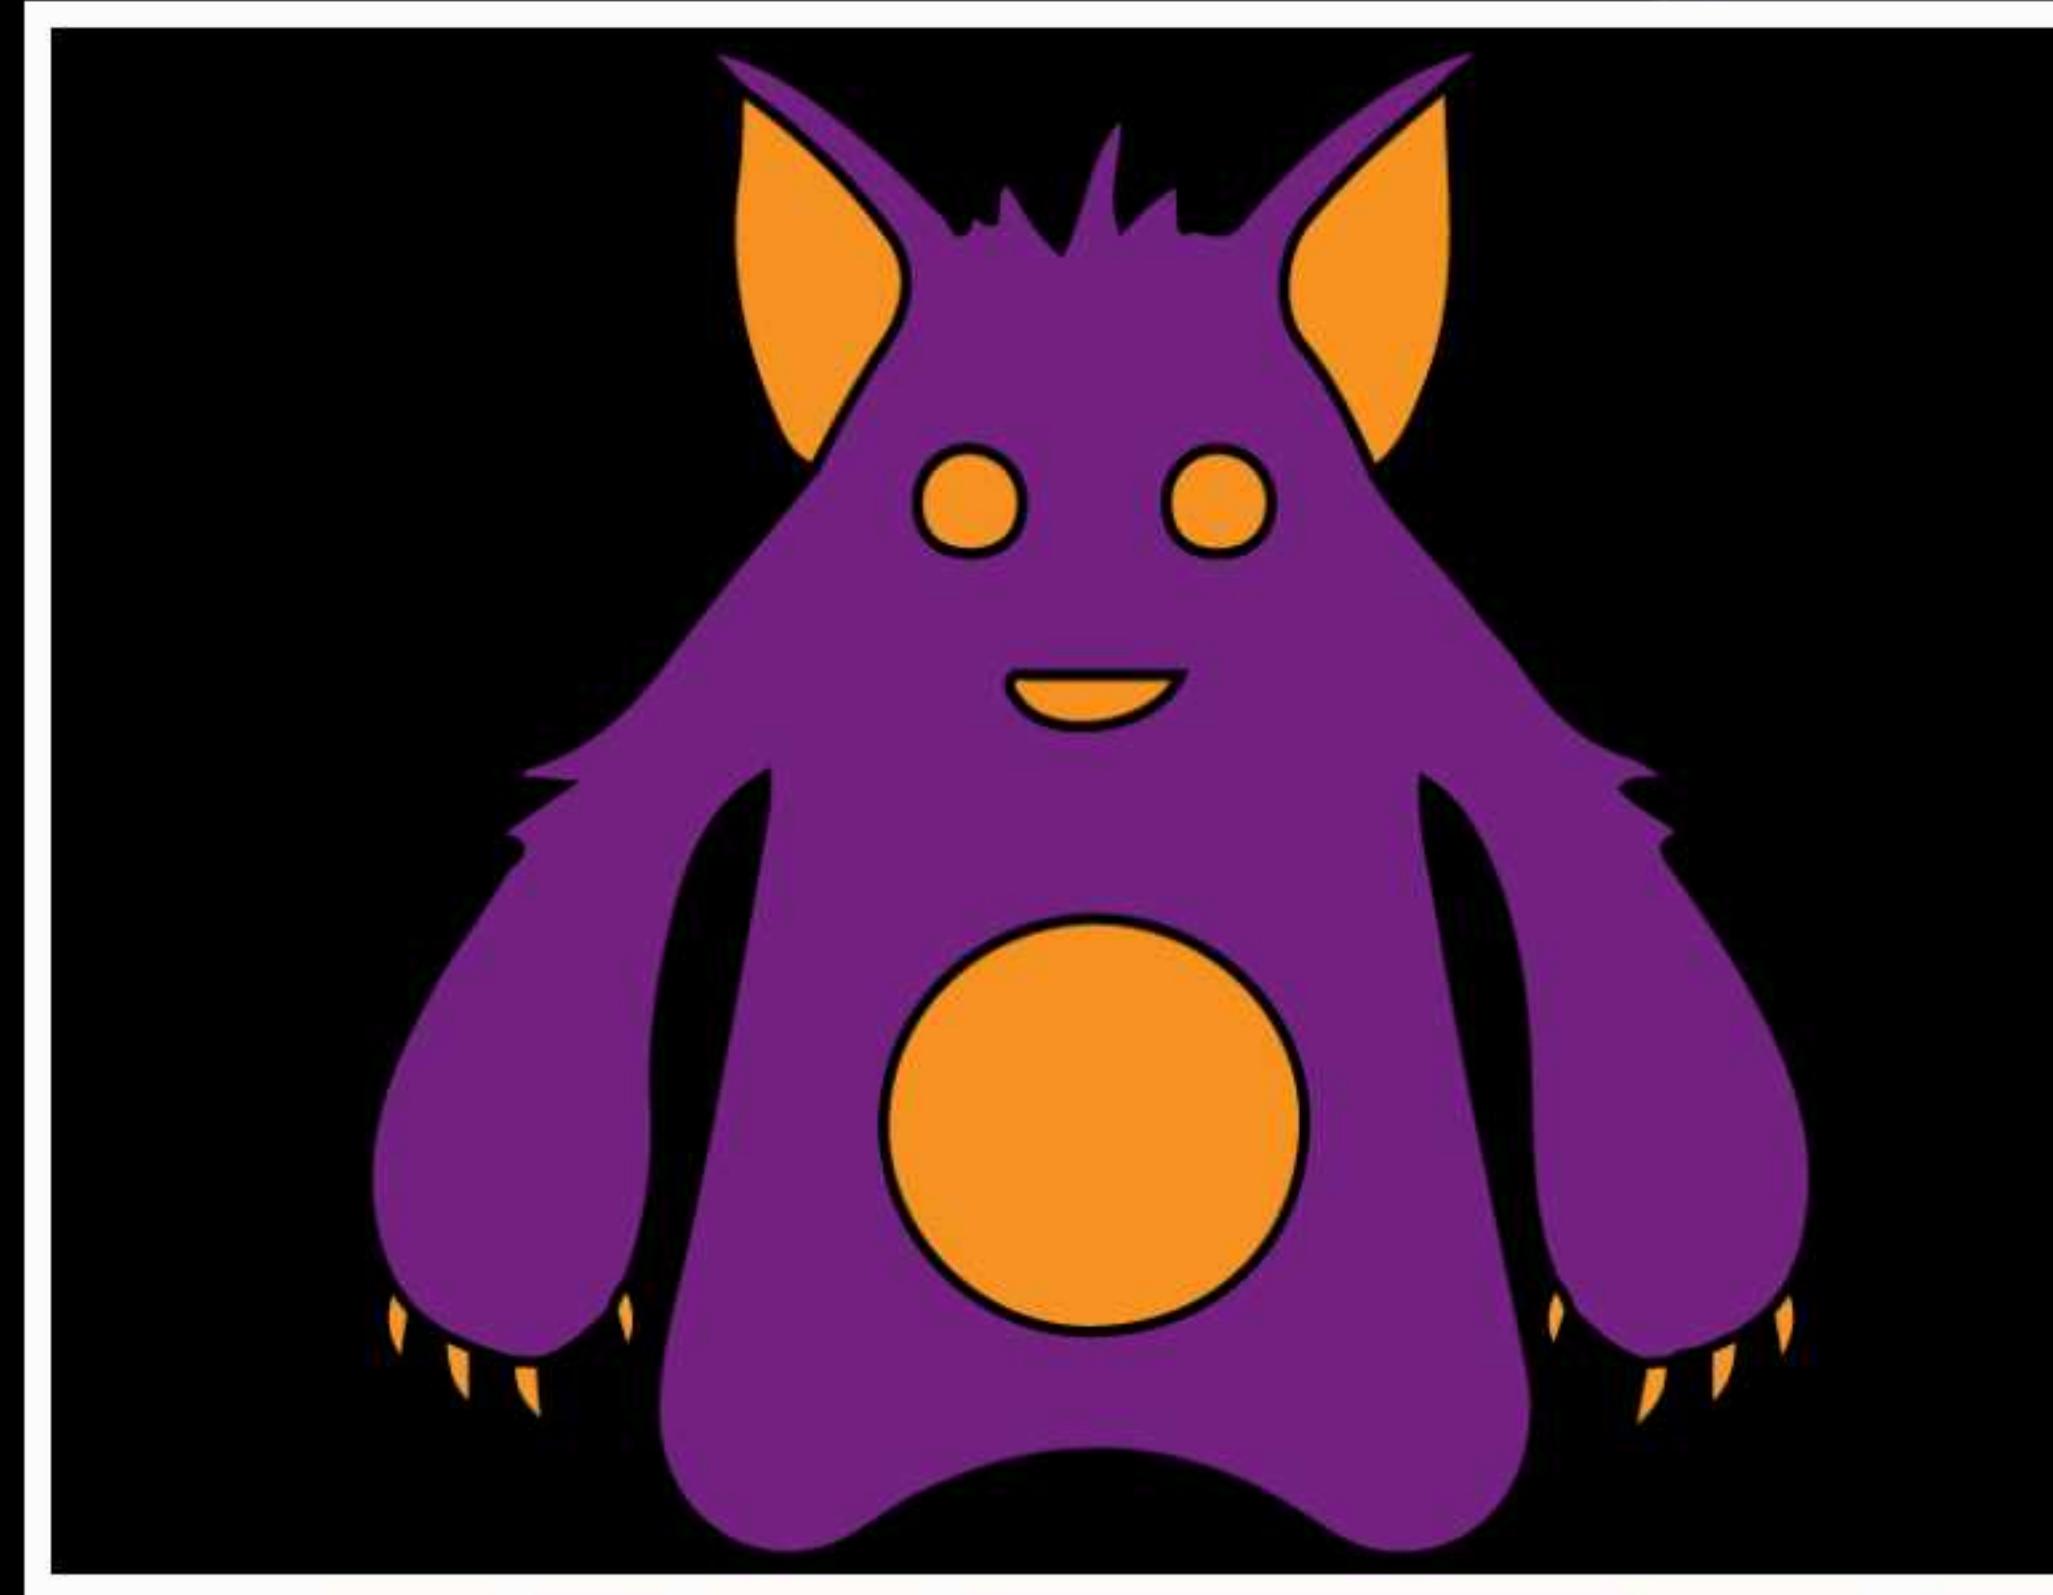

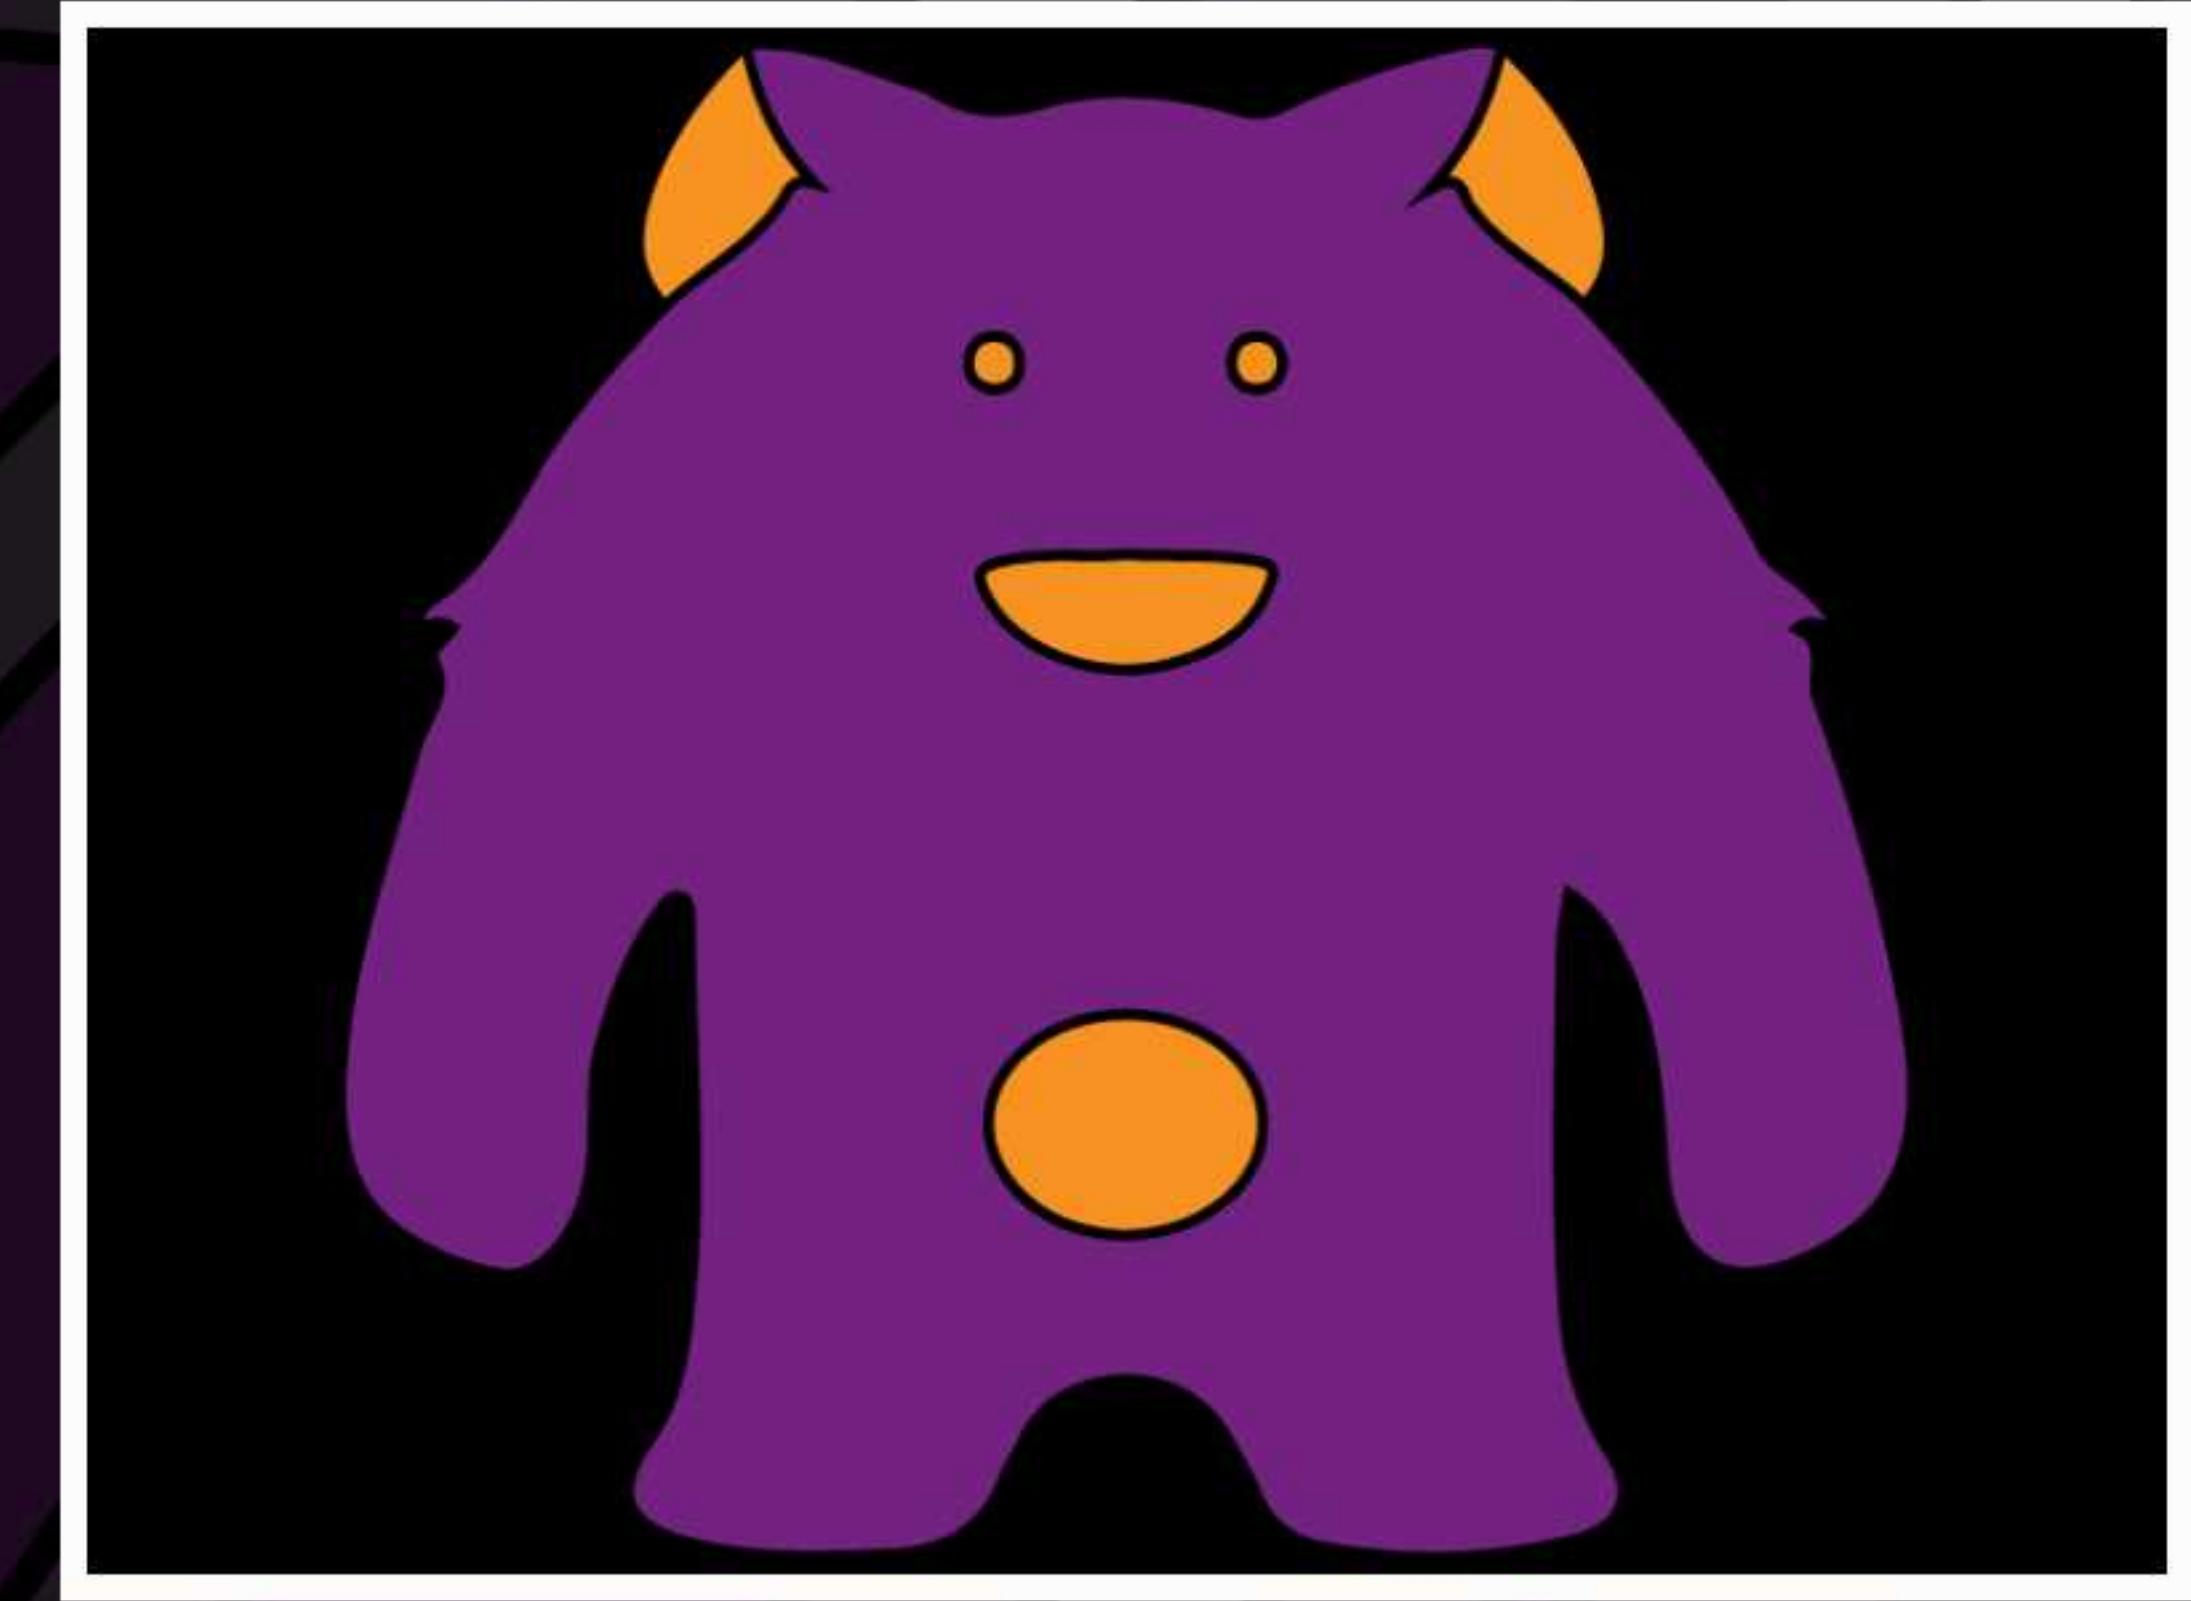

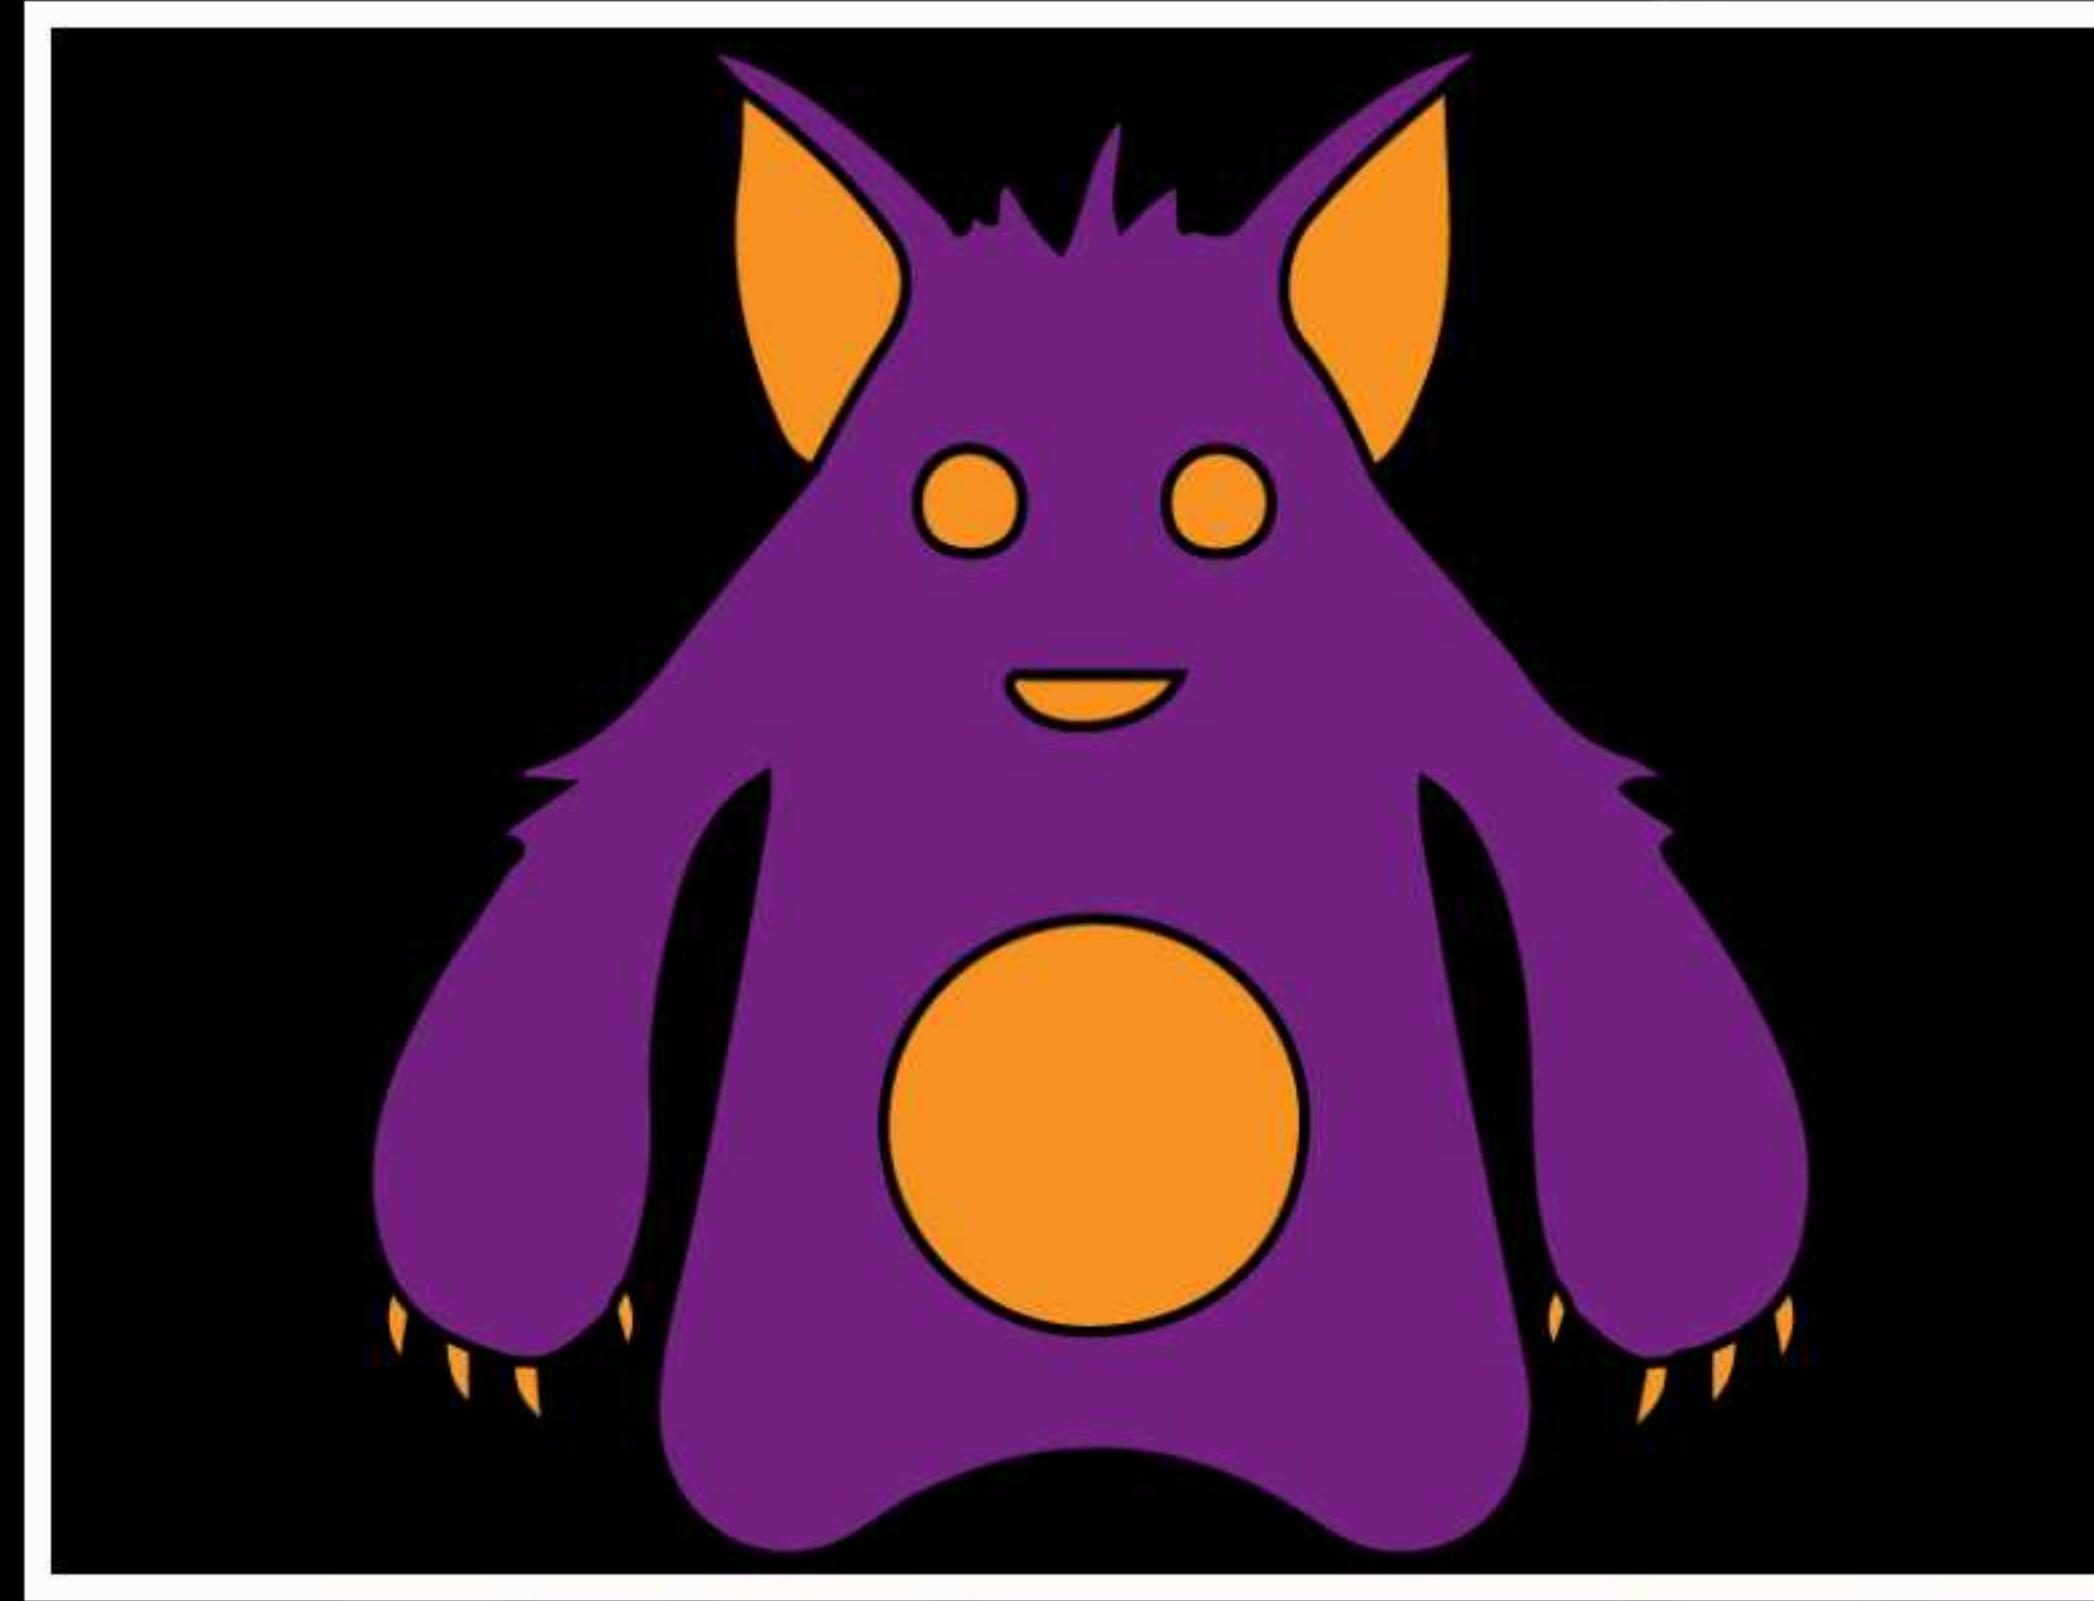

Today, your spaceship landed on Pentarus, home to the purple aliens!

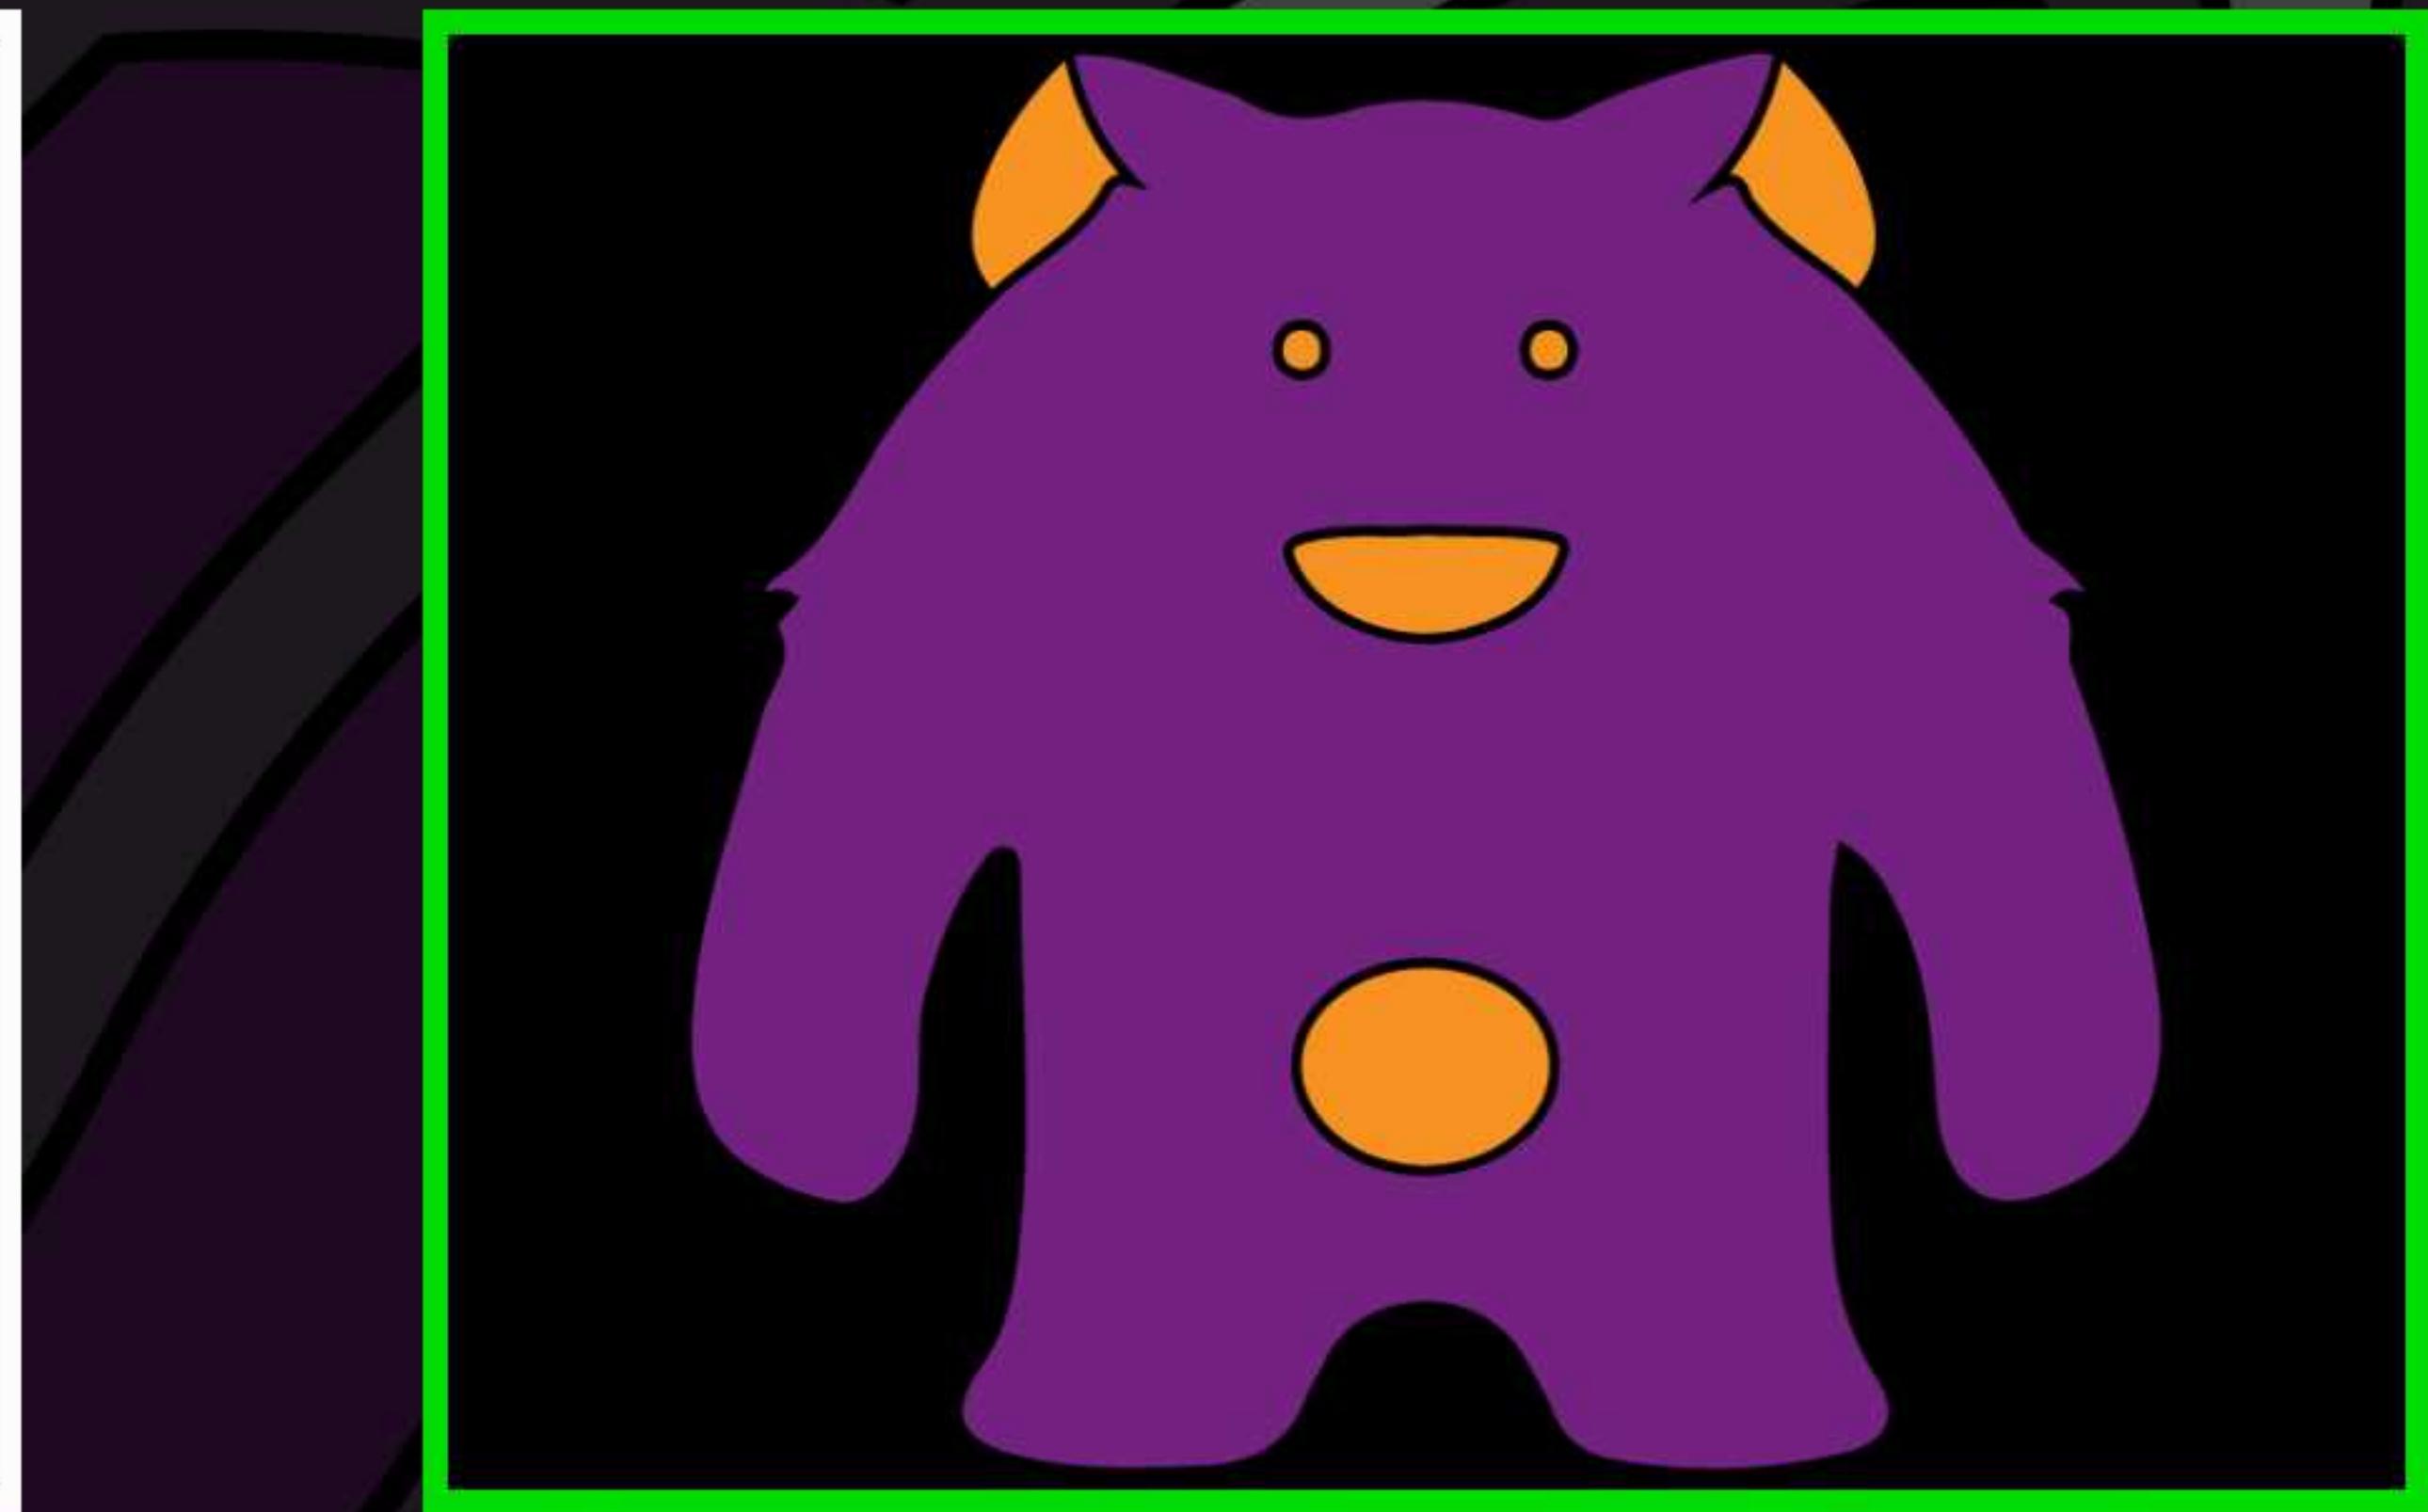

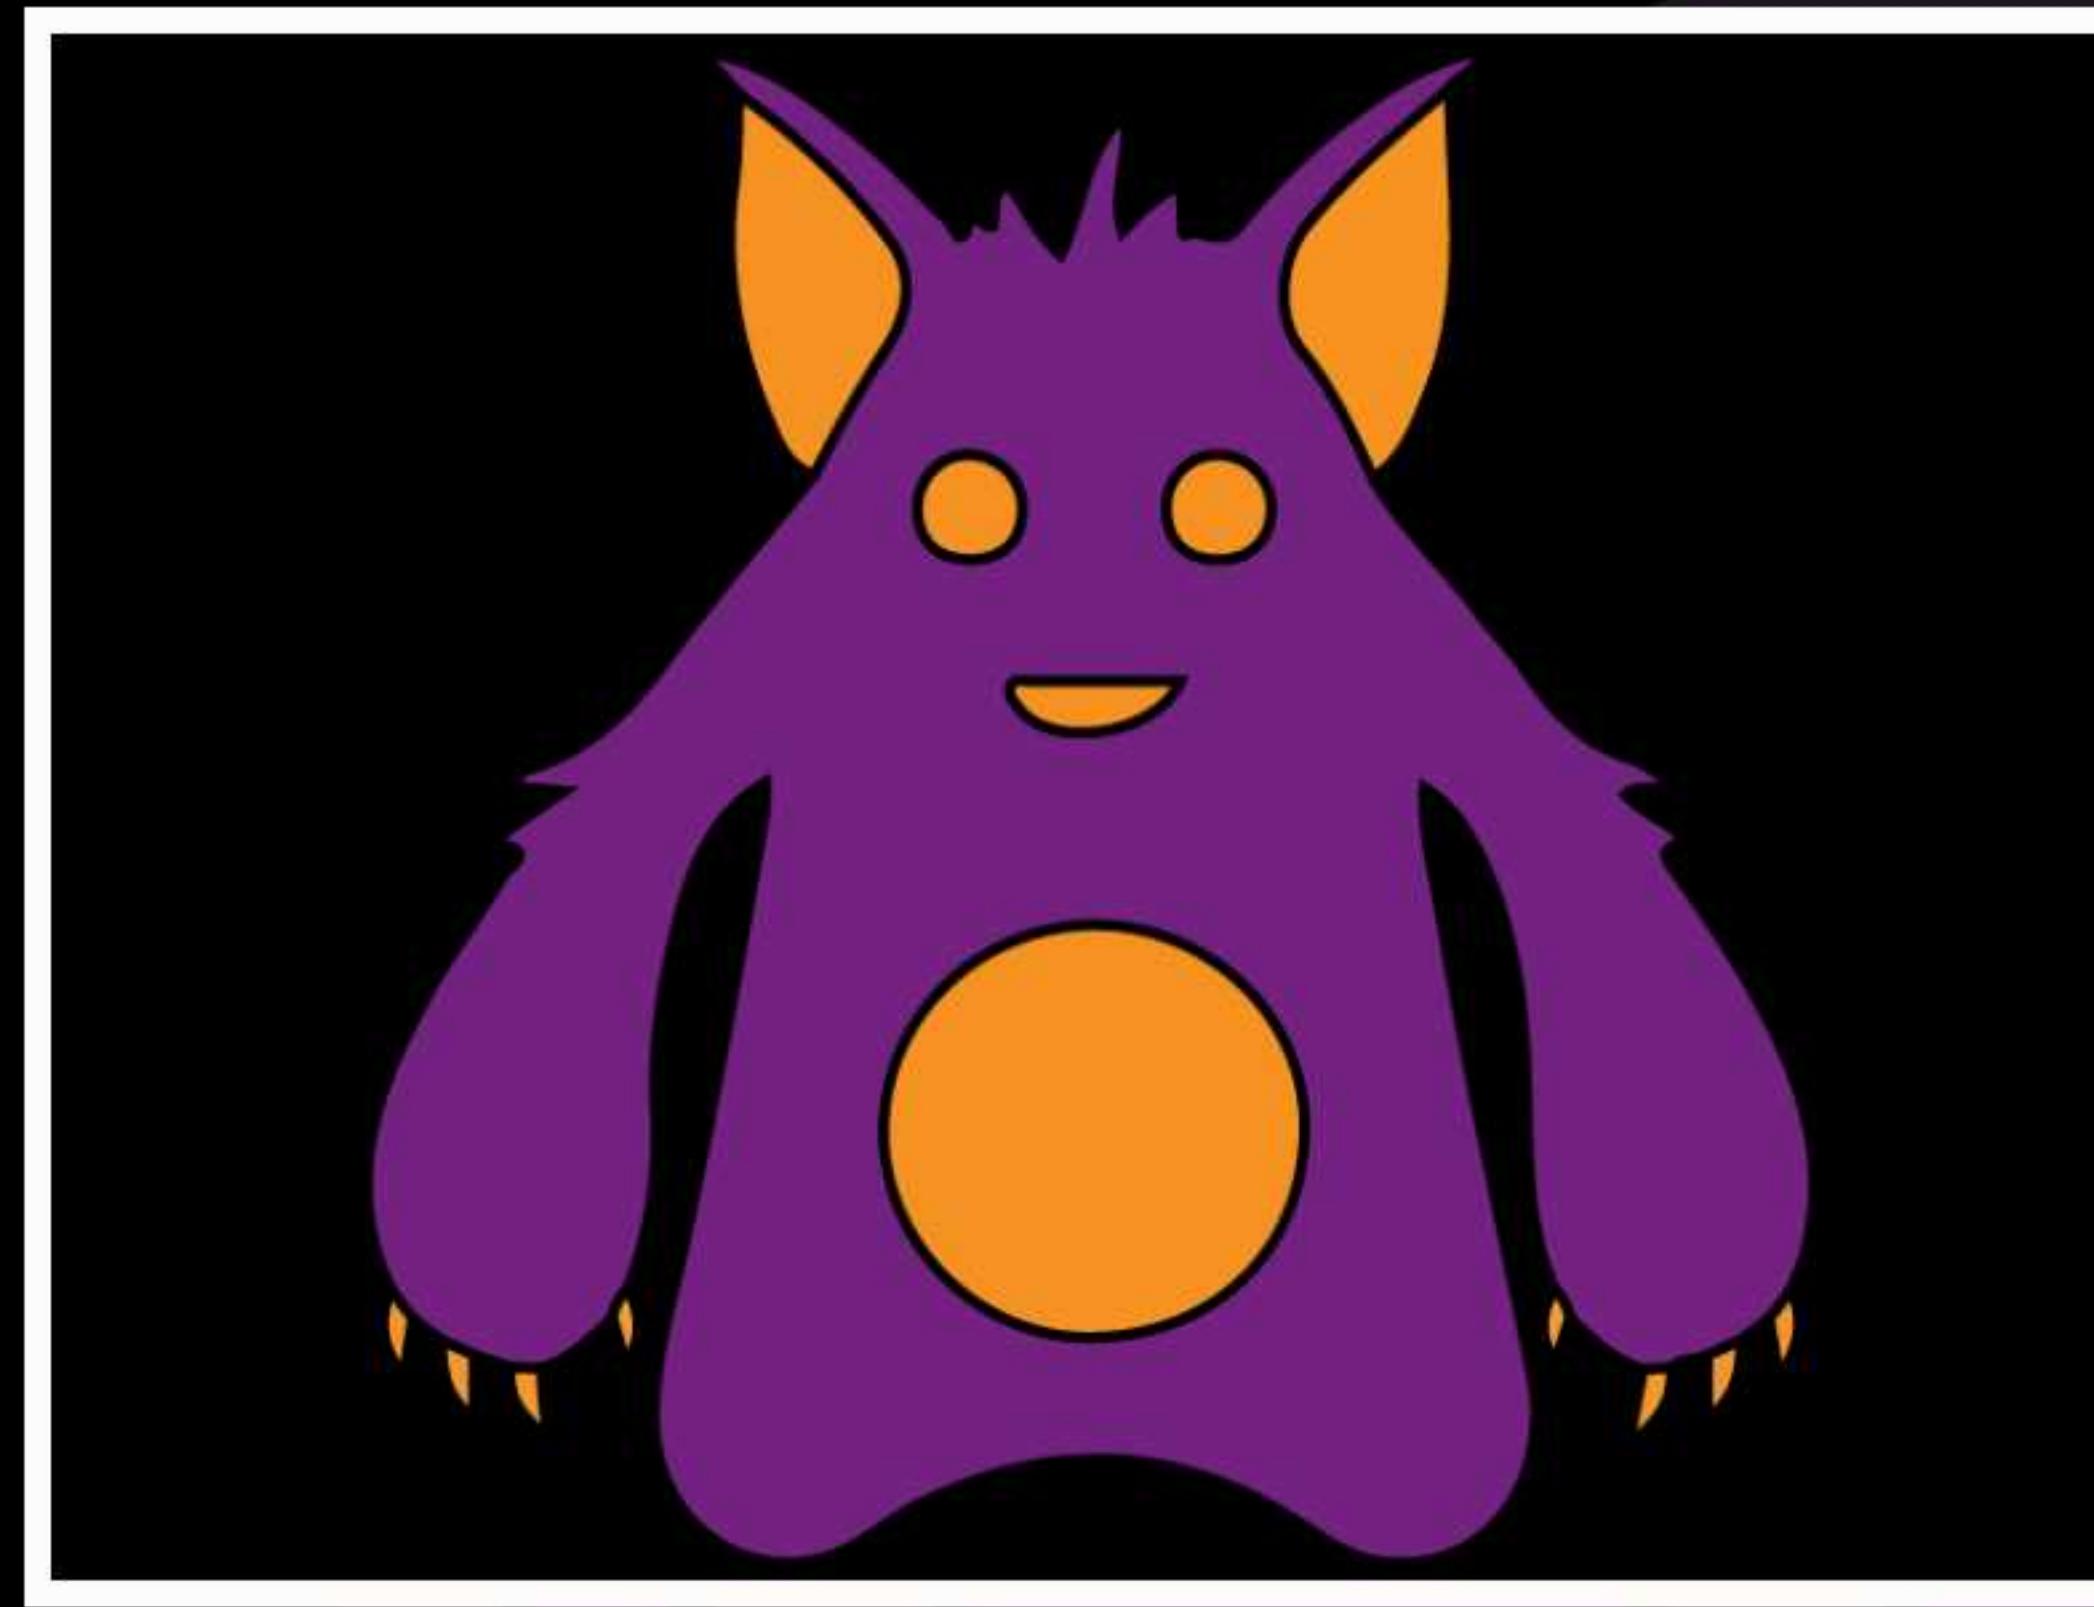

Now we will ask one alien if they have space treasure to share.

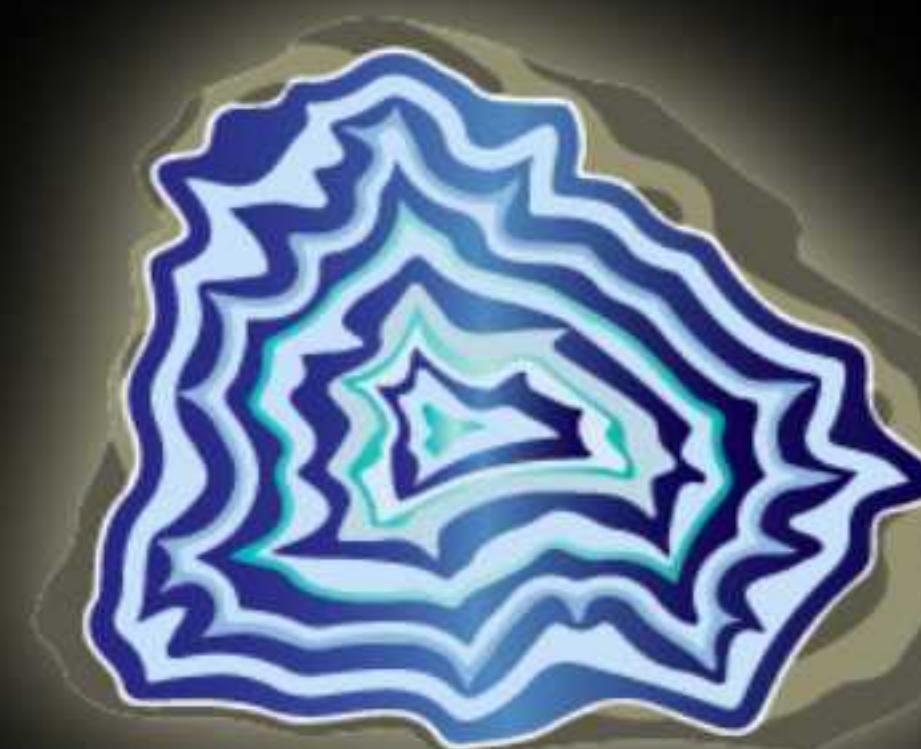

We can only ask one alien to share their space treasure each day.

Let's ask the alien on the right if they have space treasure to share!

Win!

Nice Job! You chose an alien who had space treasure to share!

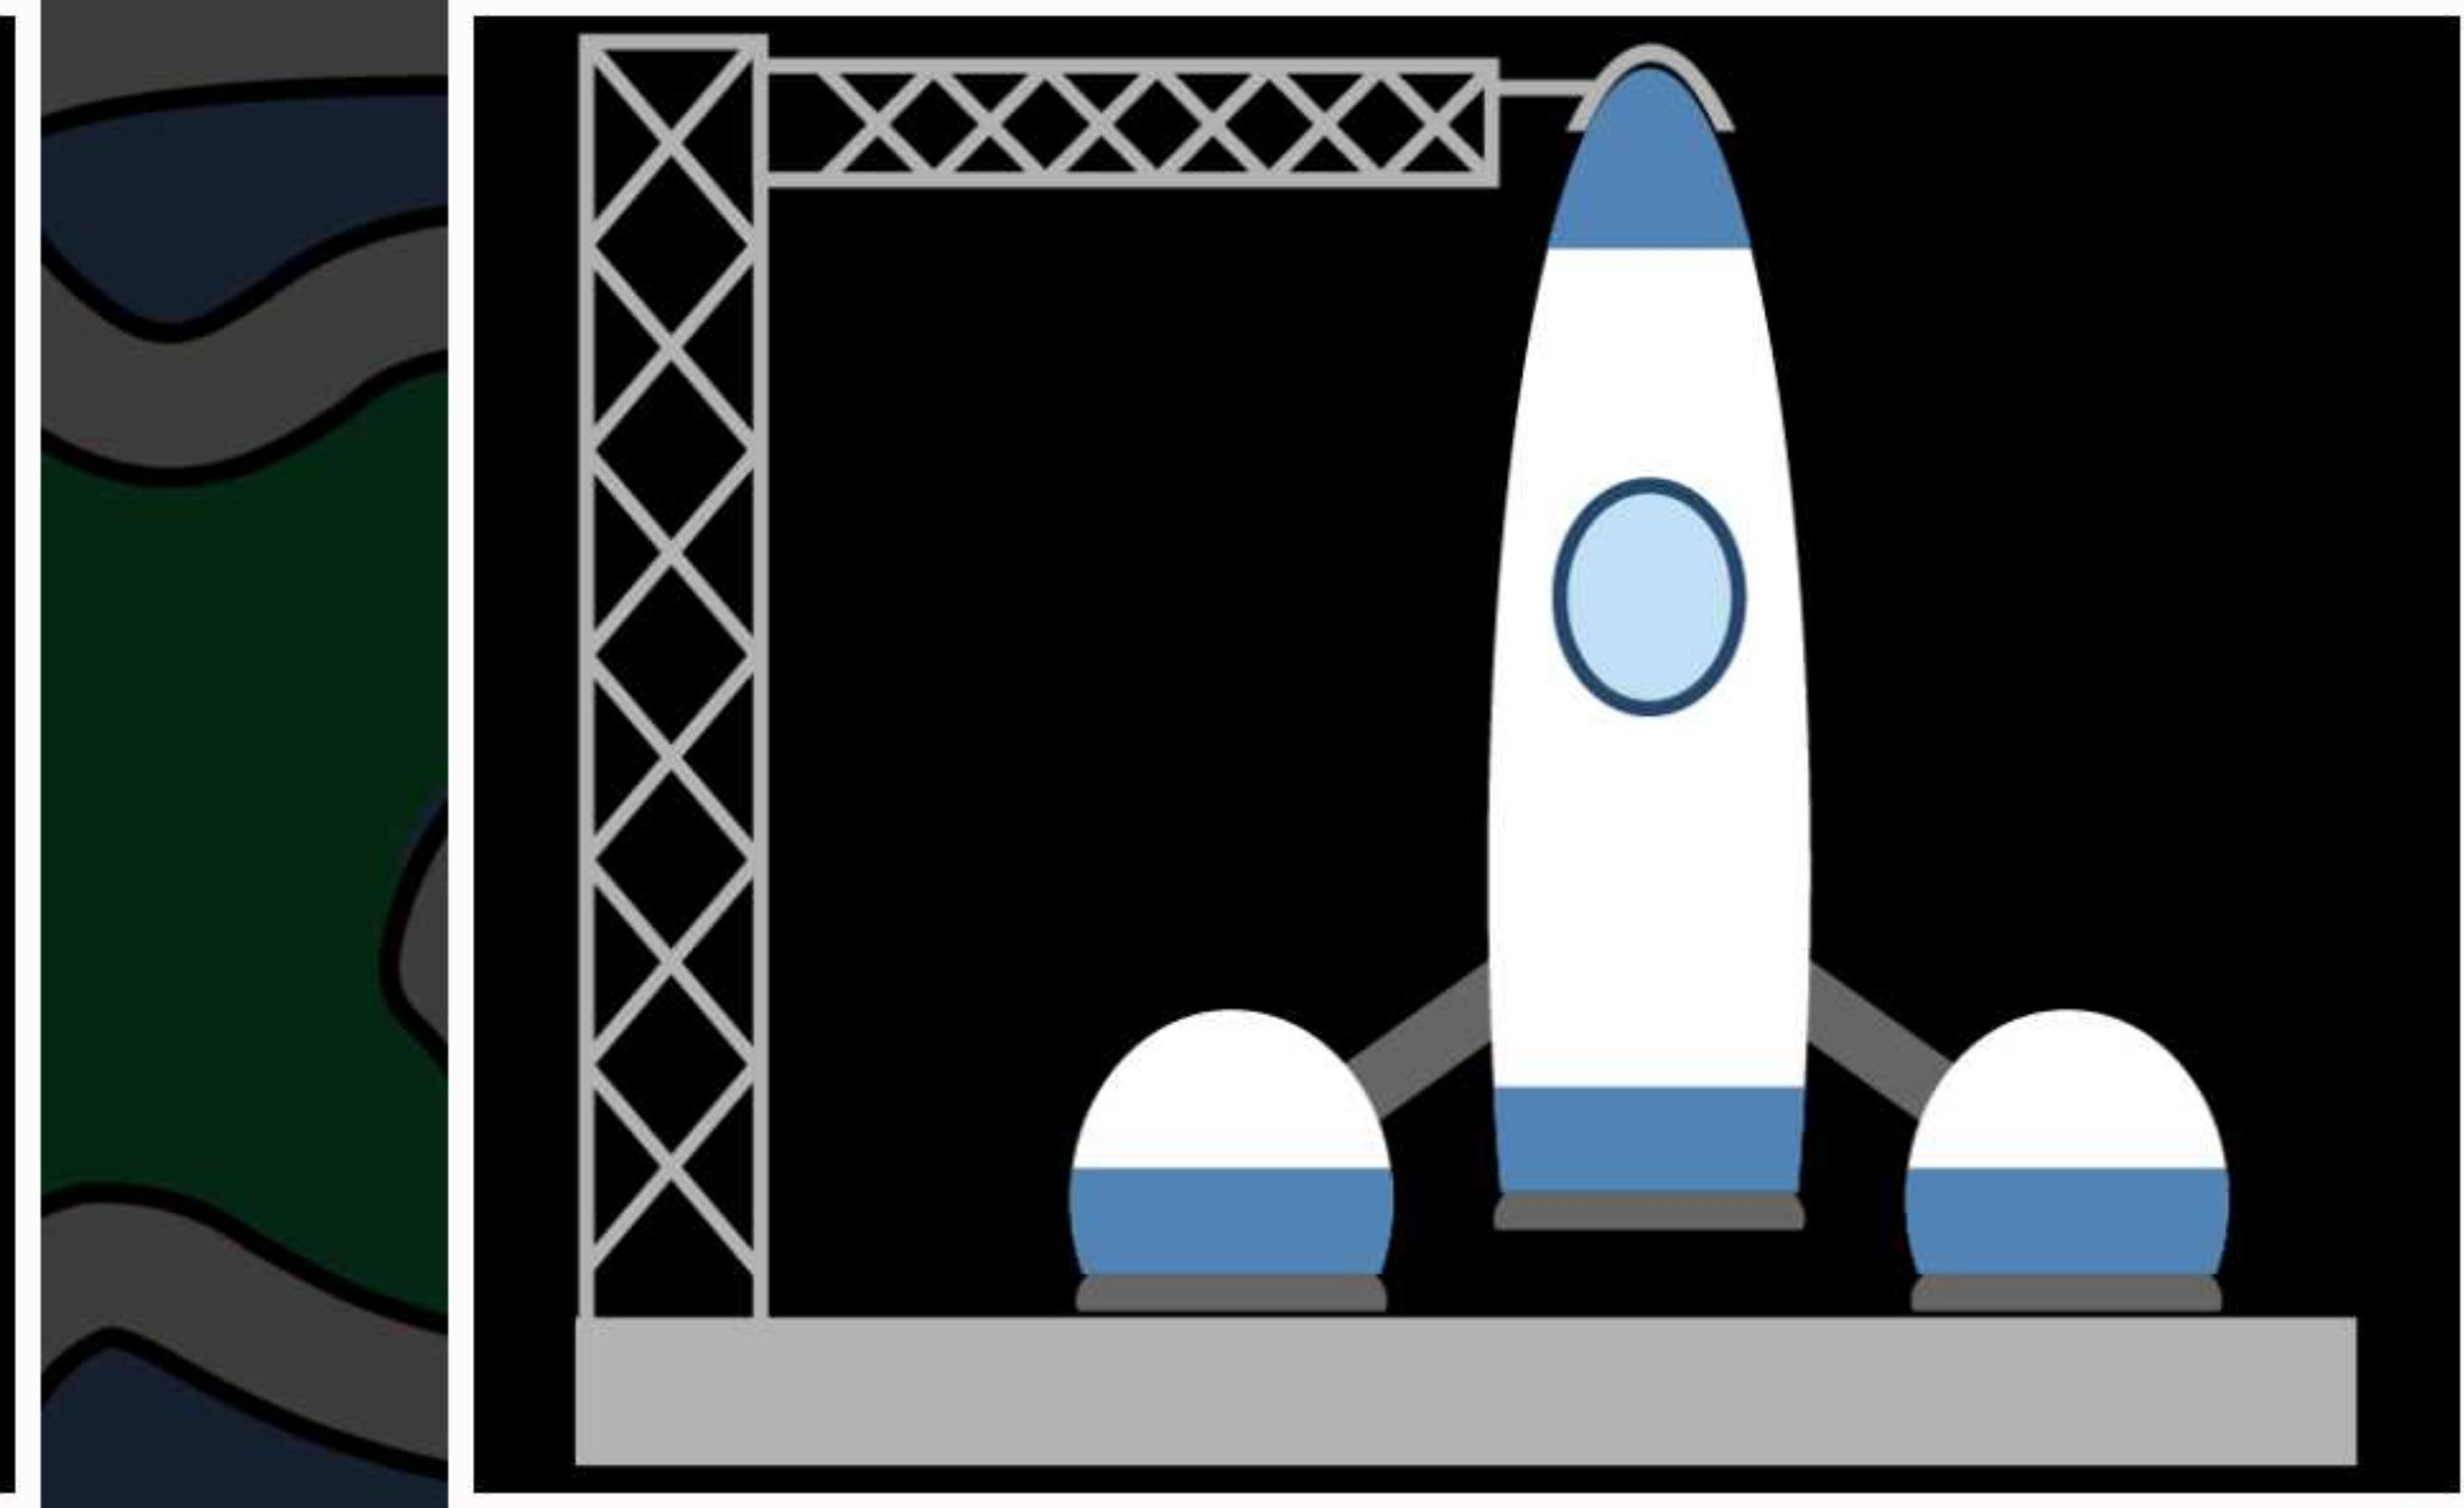

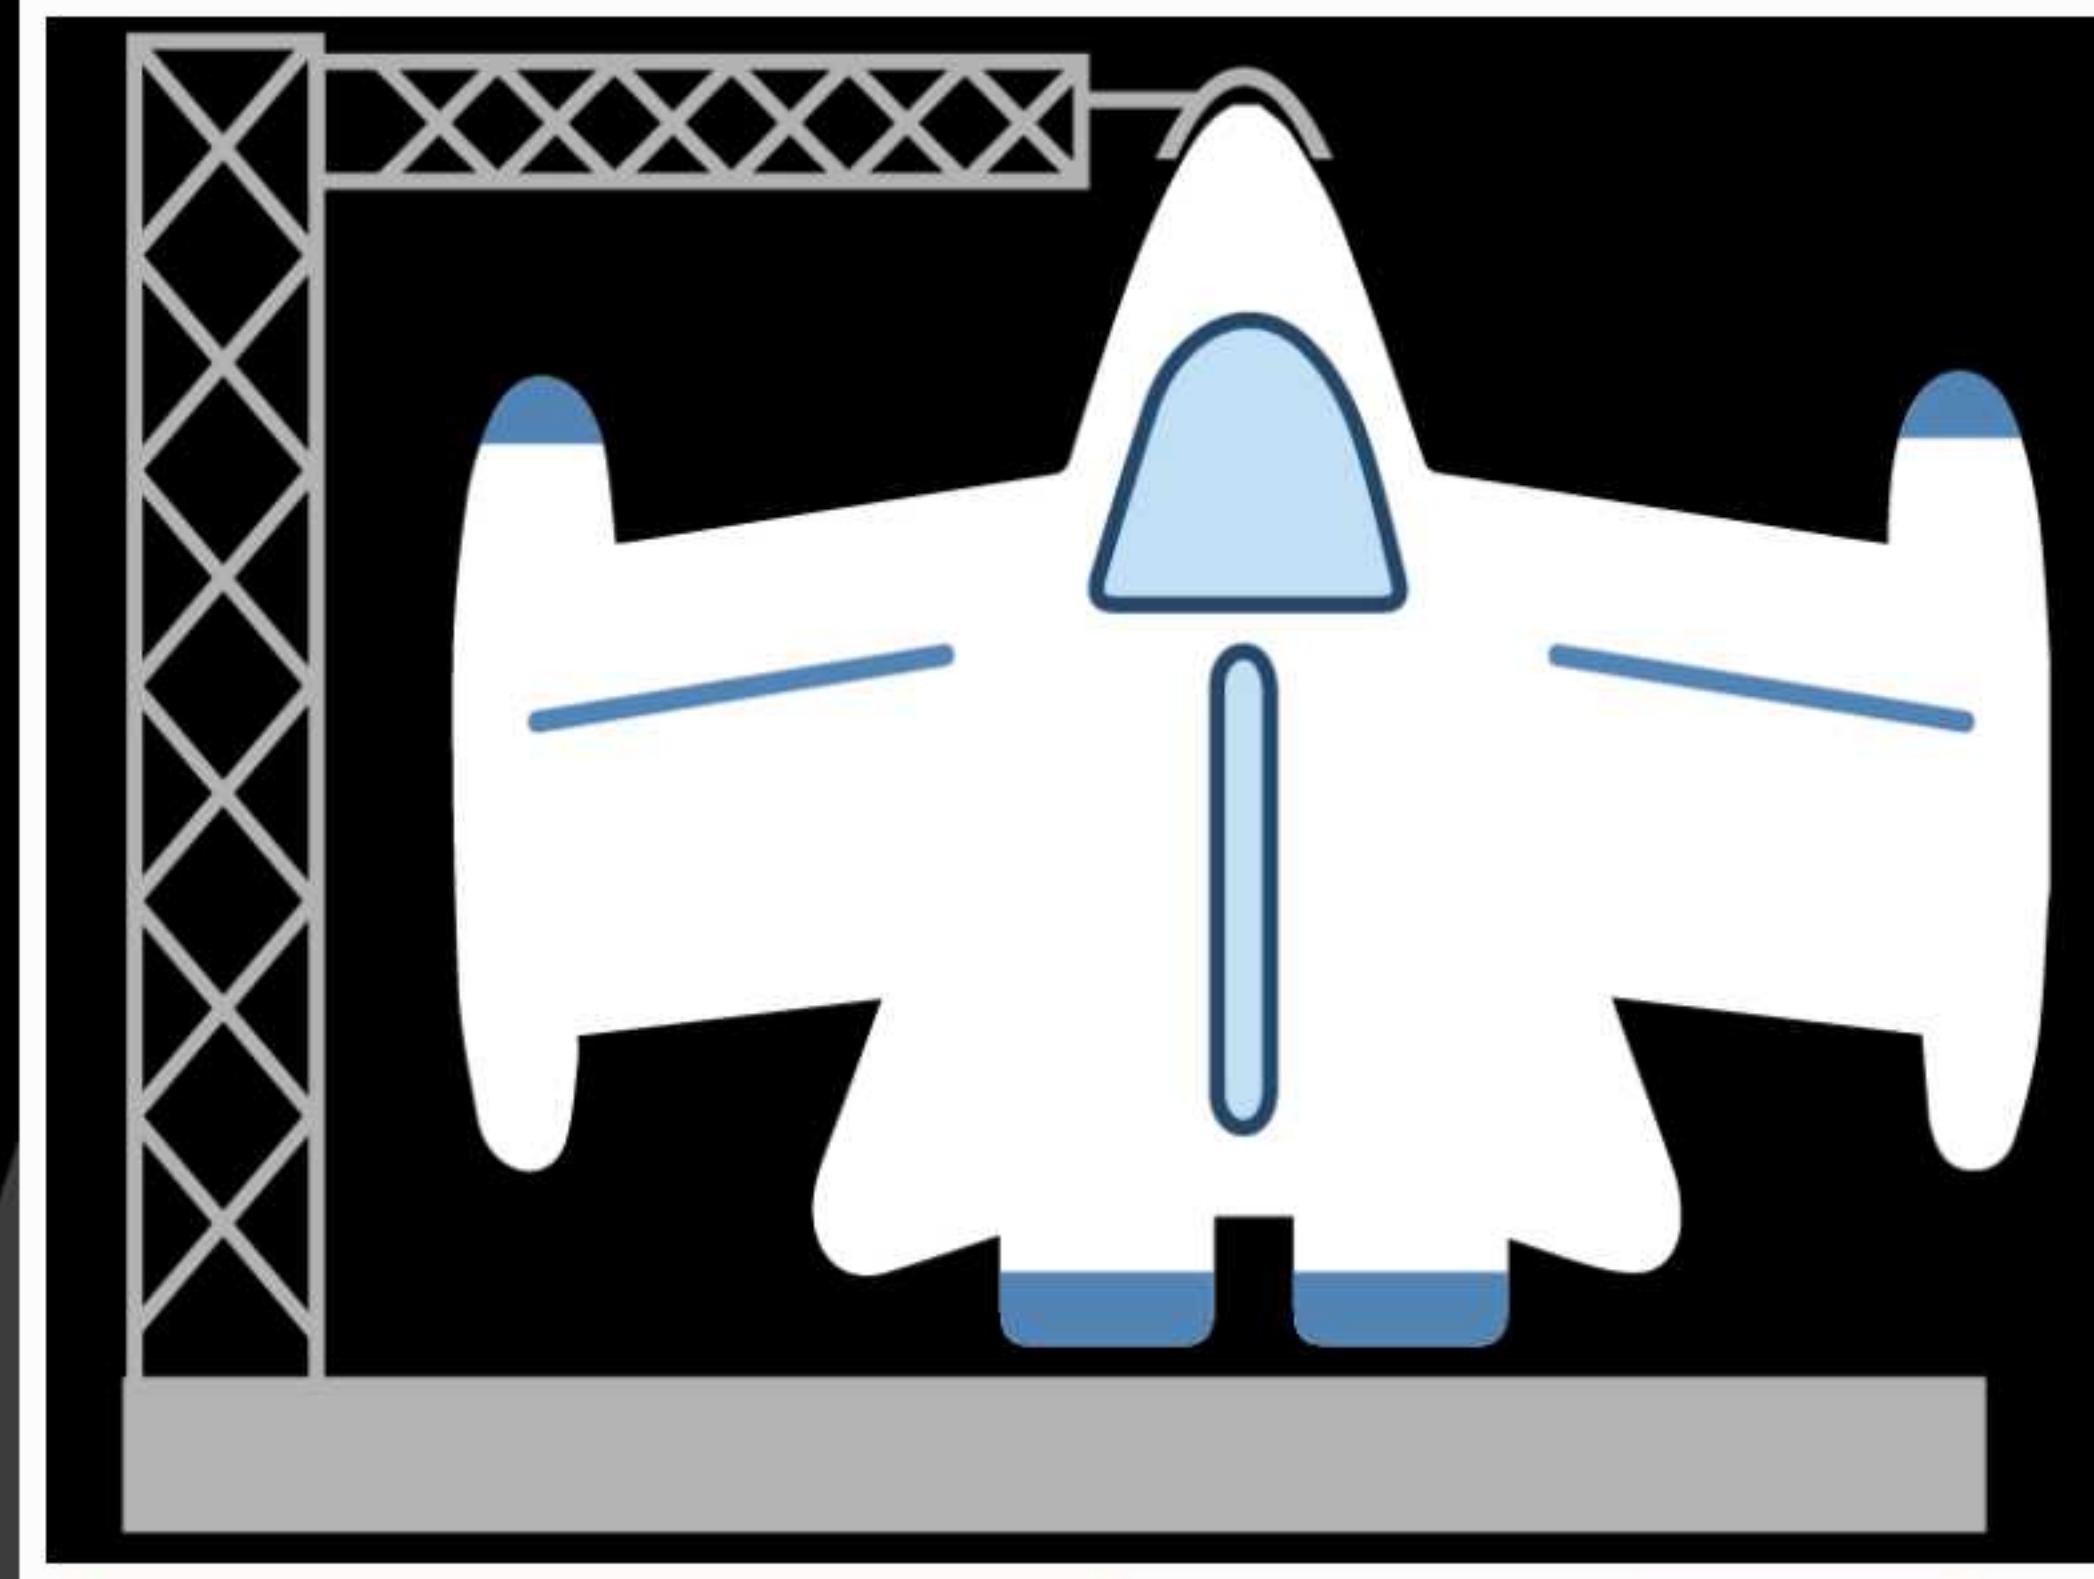

Win!

Let's return home so we can try again!

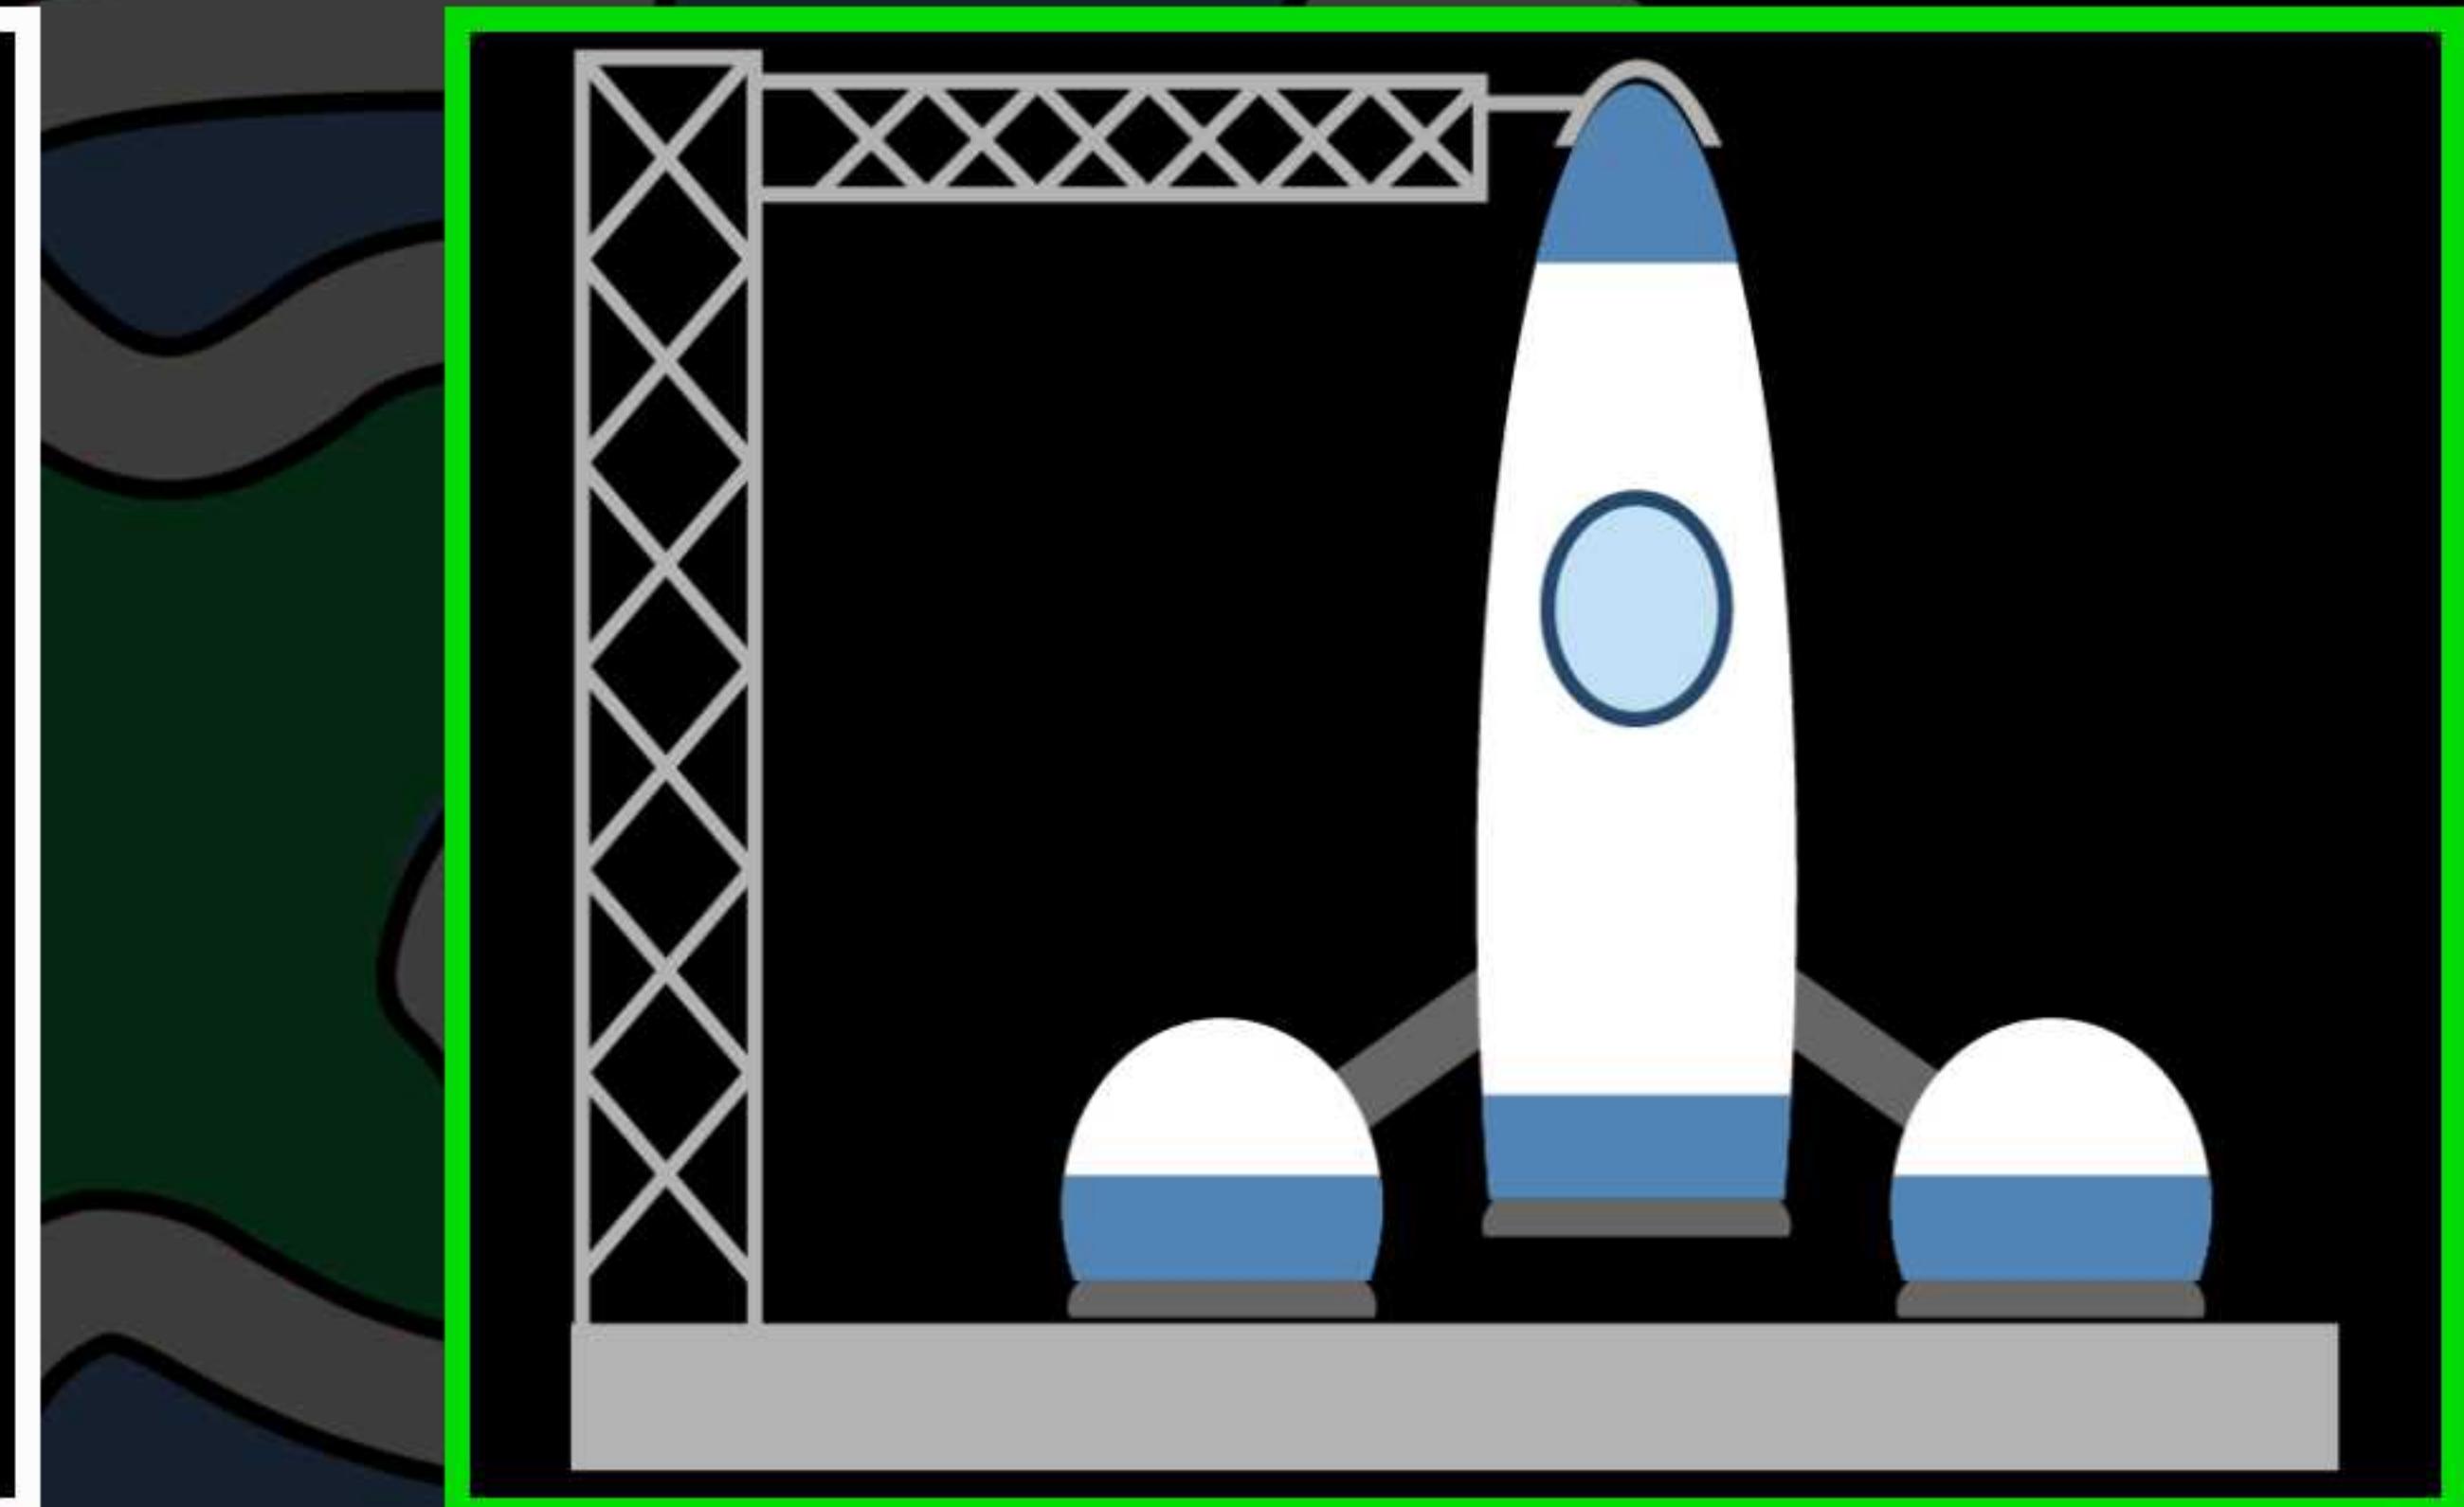

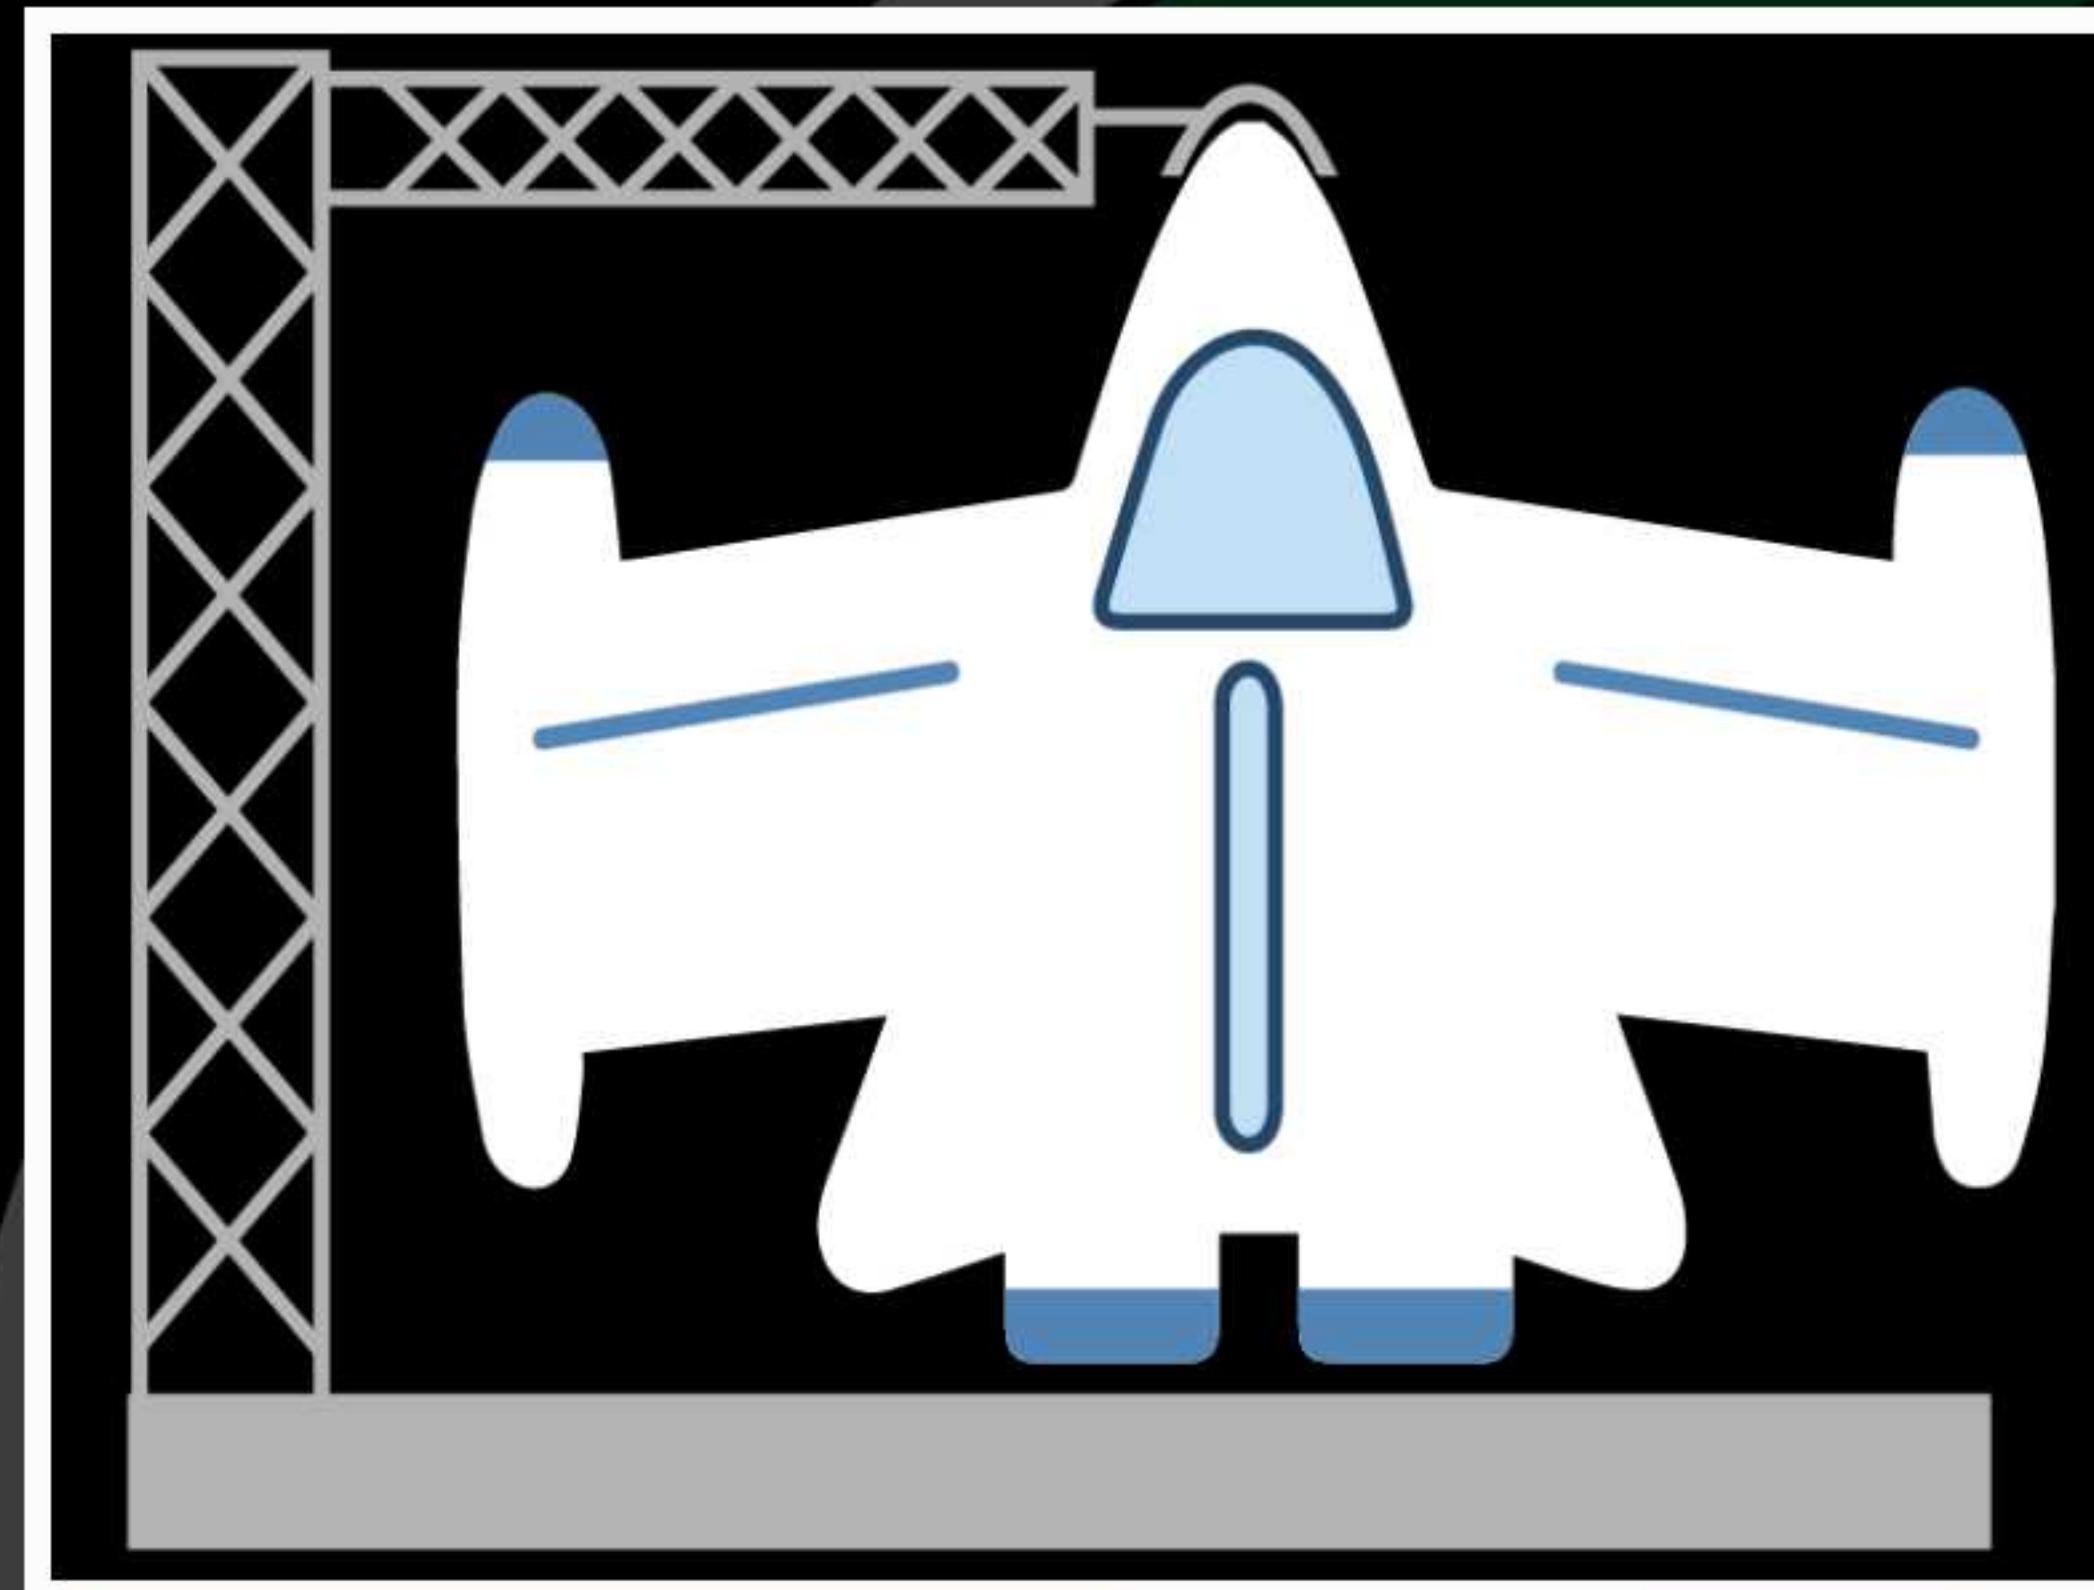

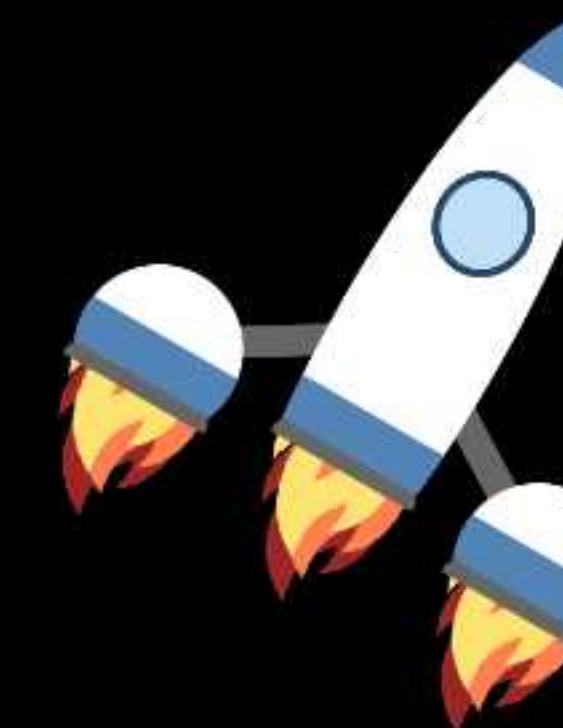

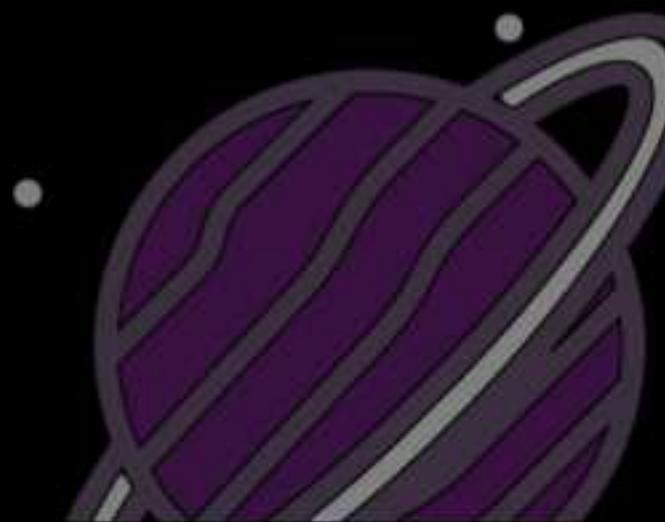

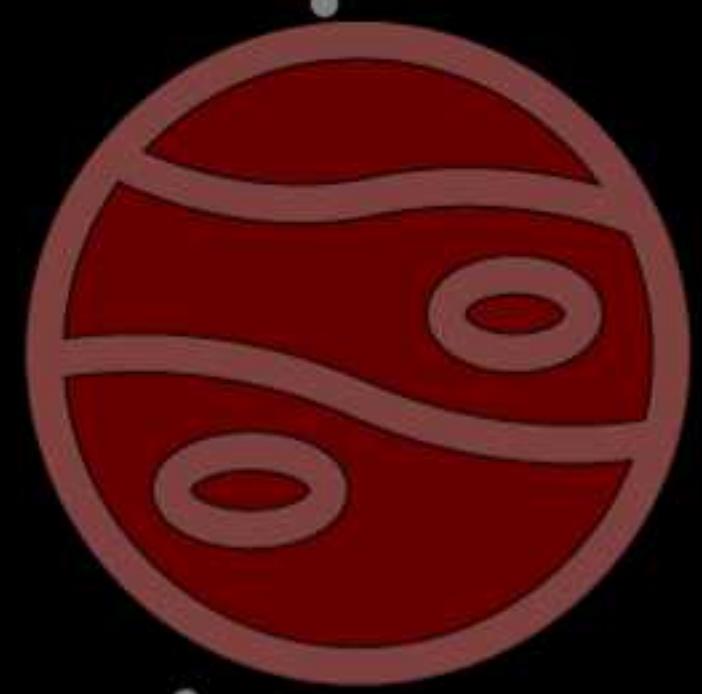

Returning Home...

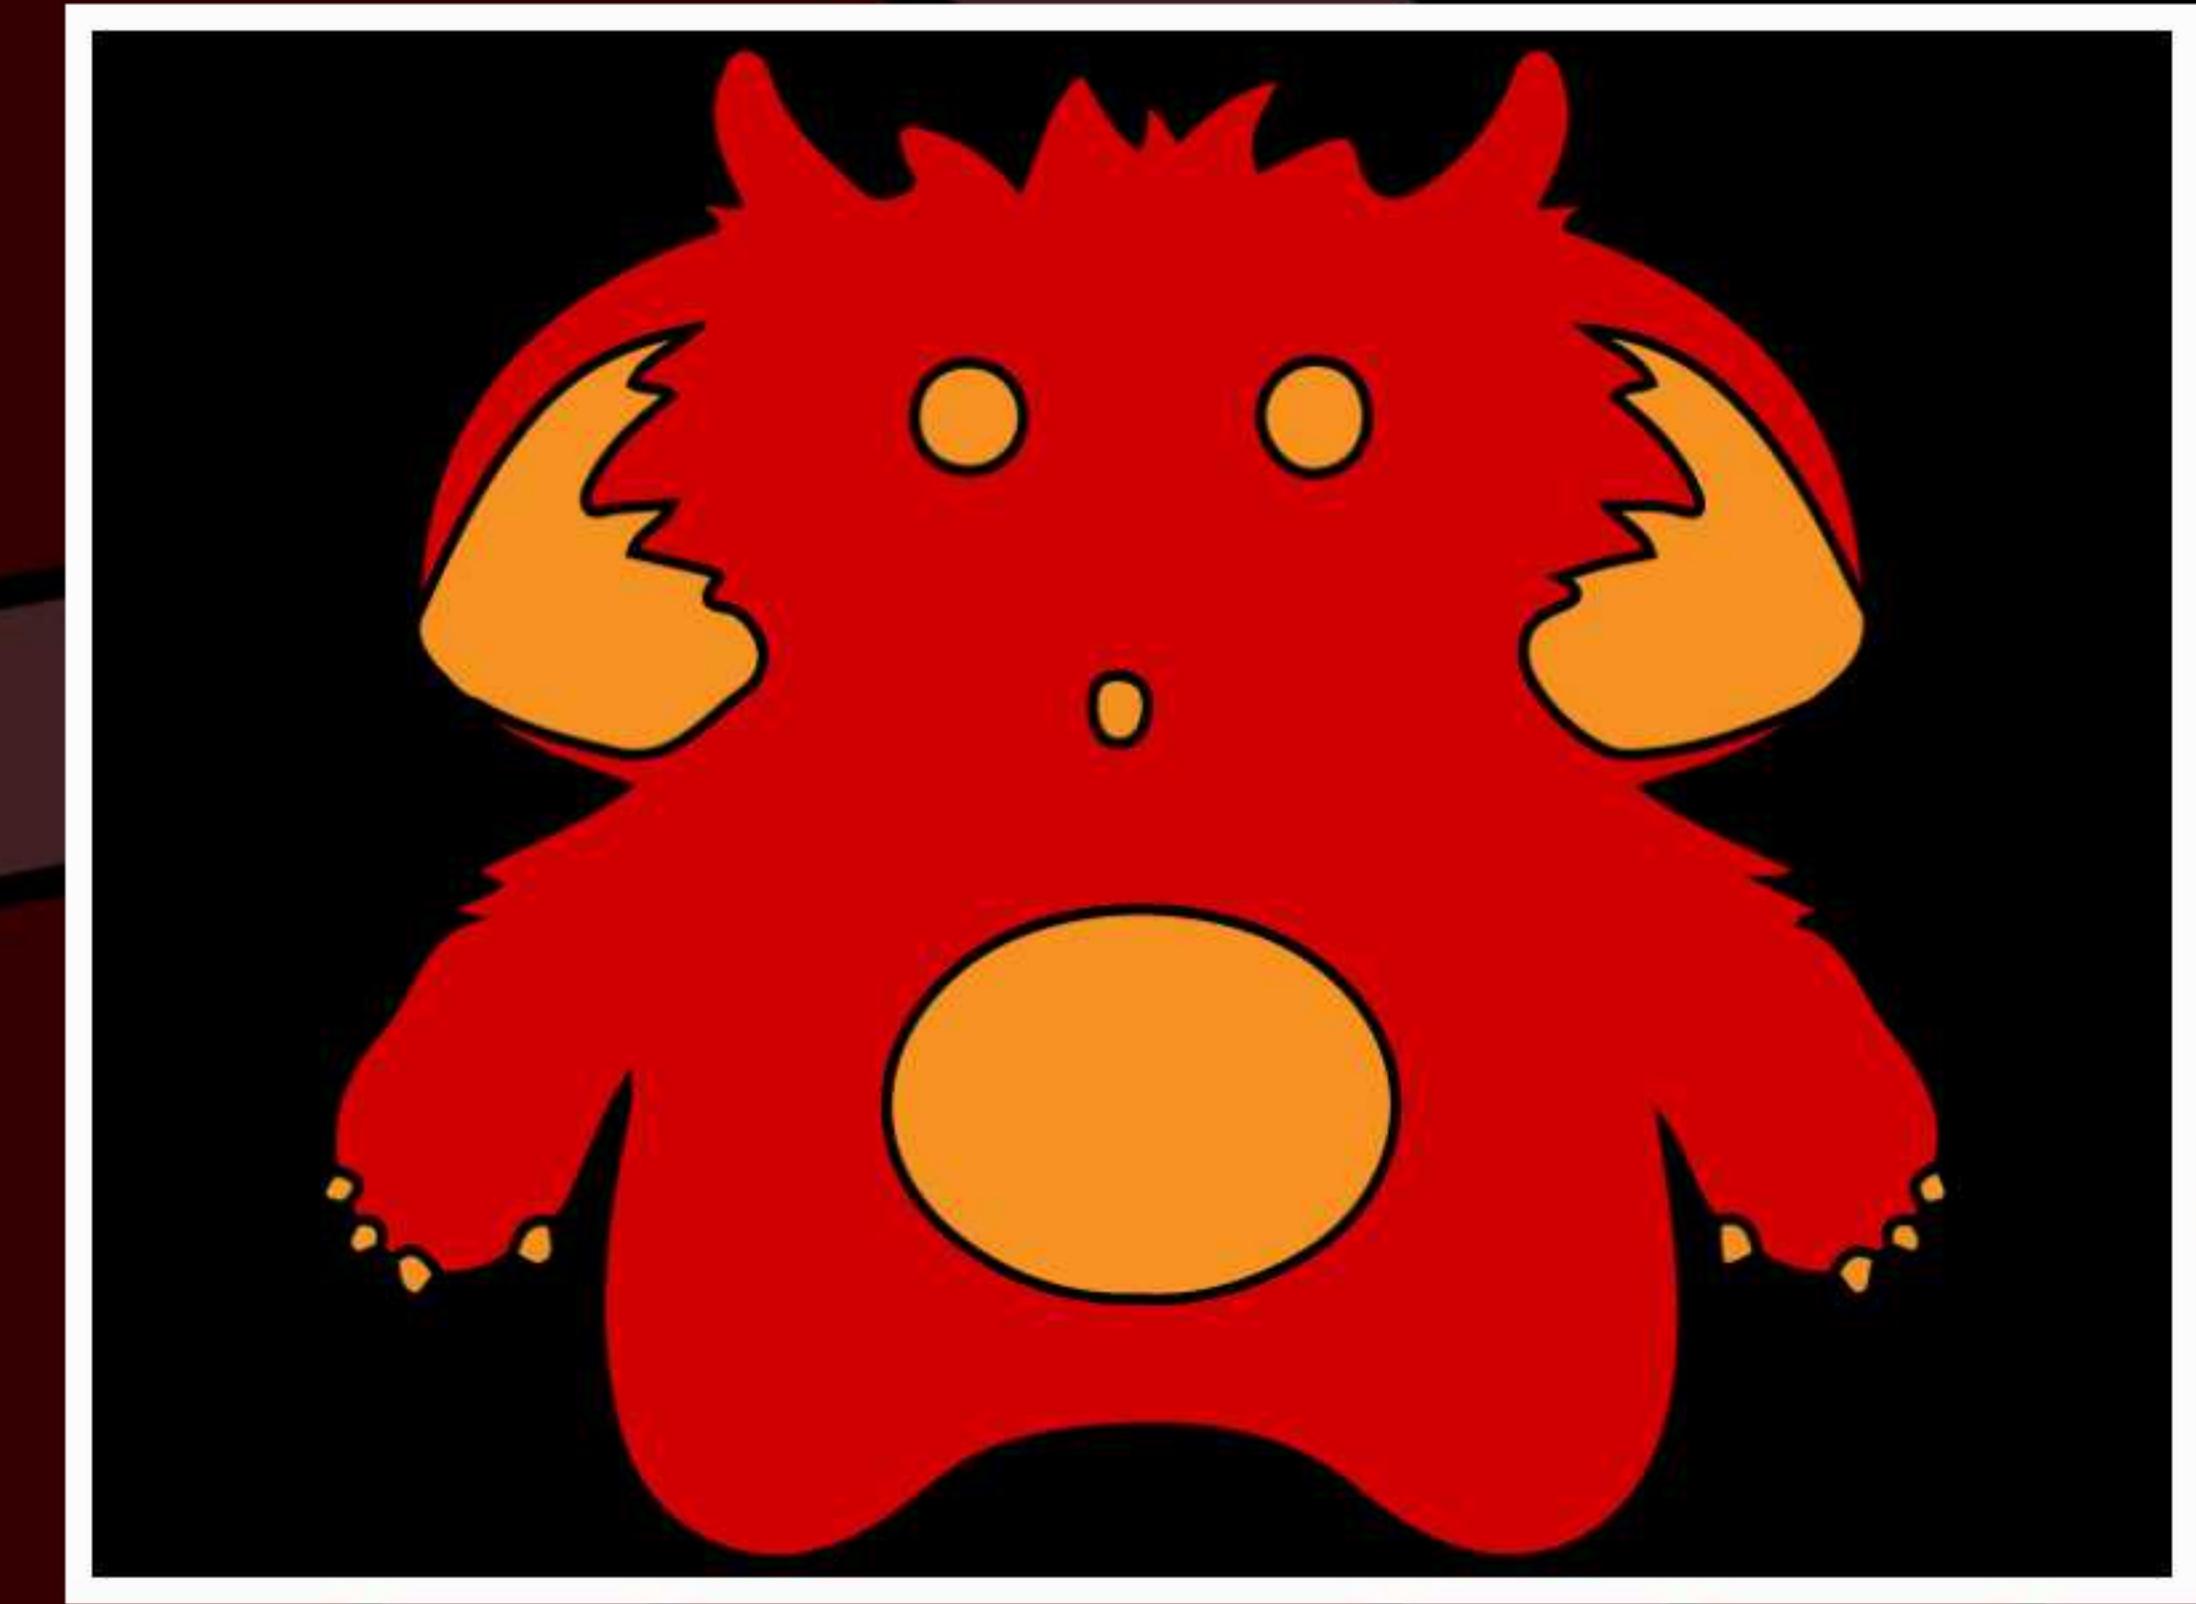

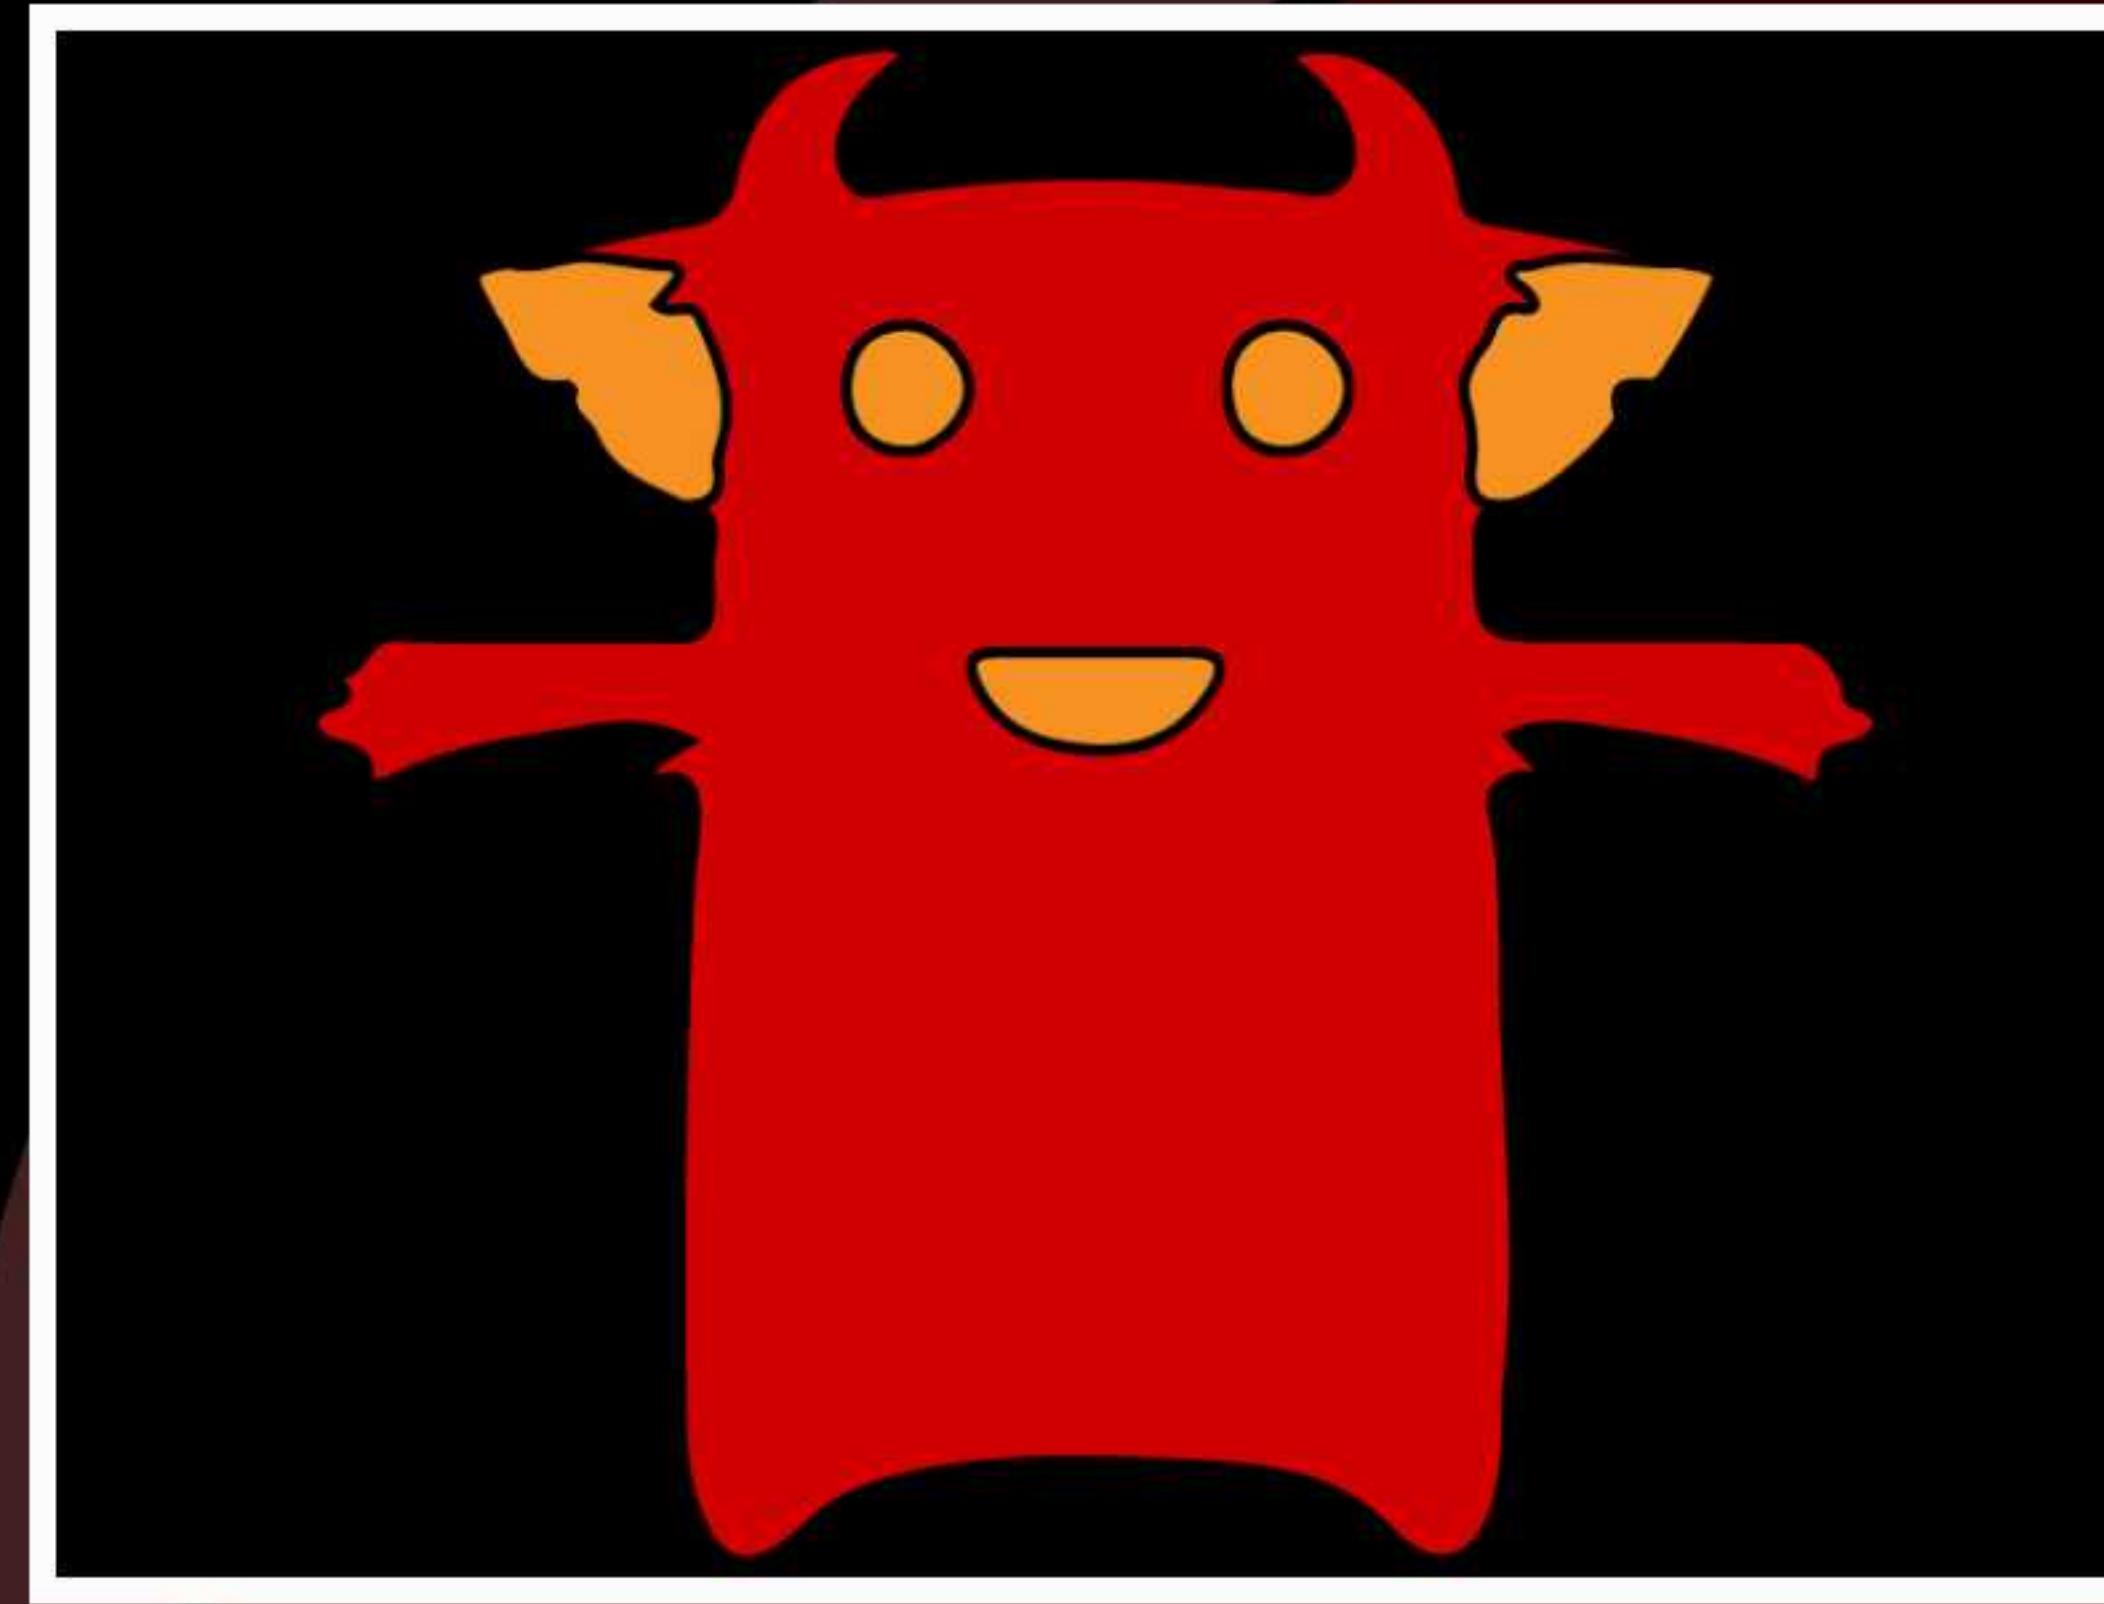

Now let's choose the spaceship on the right.

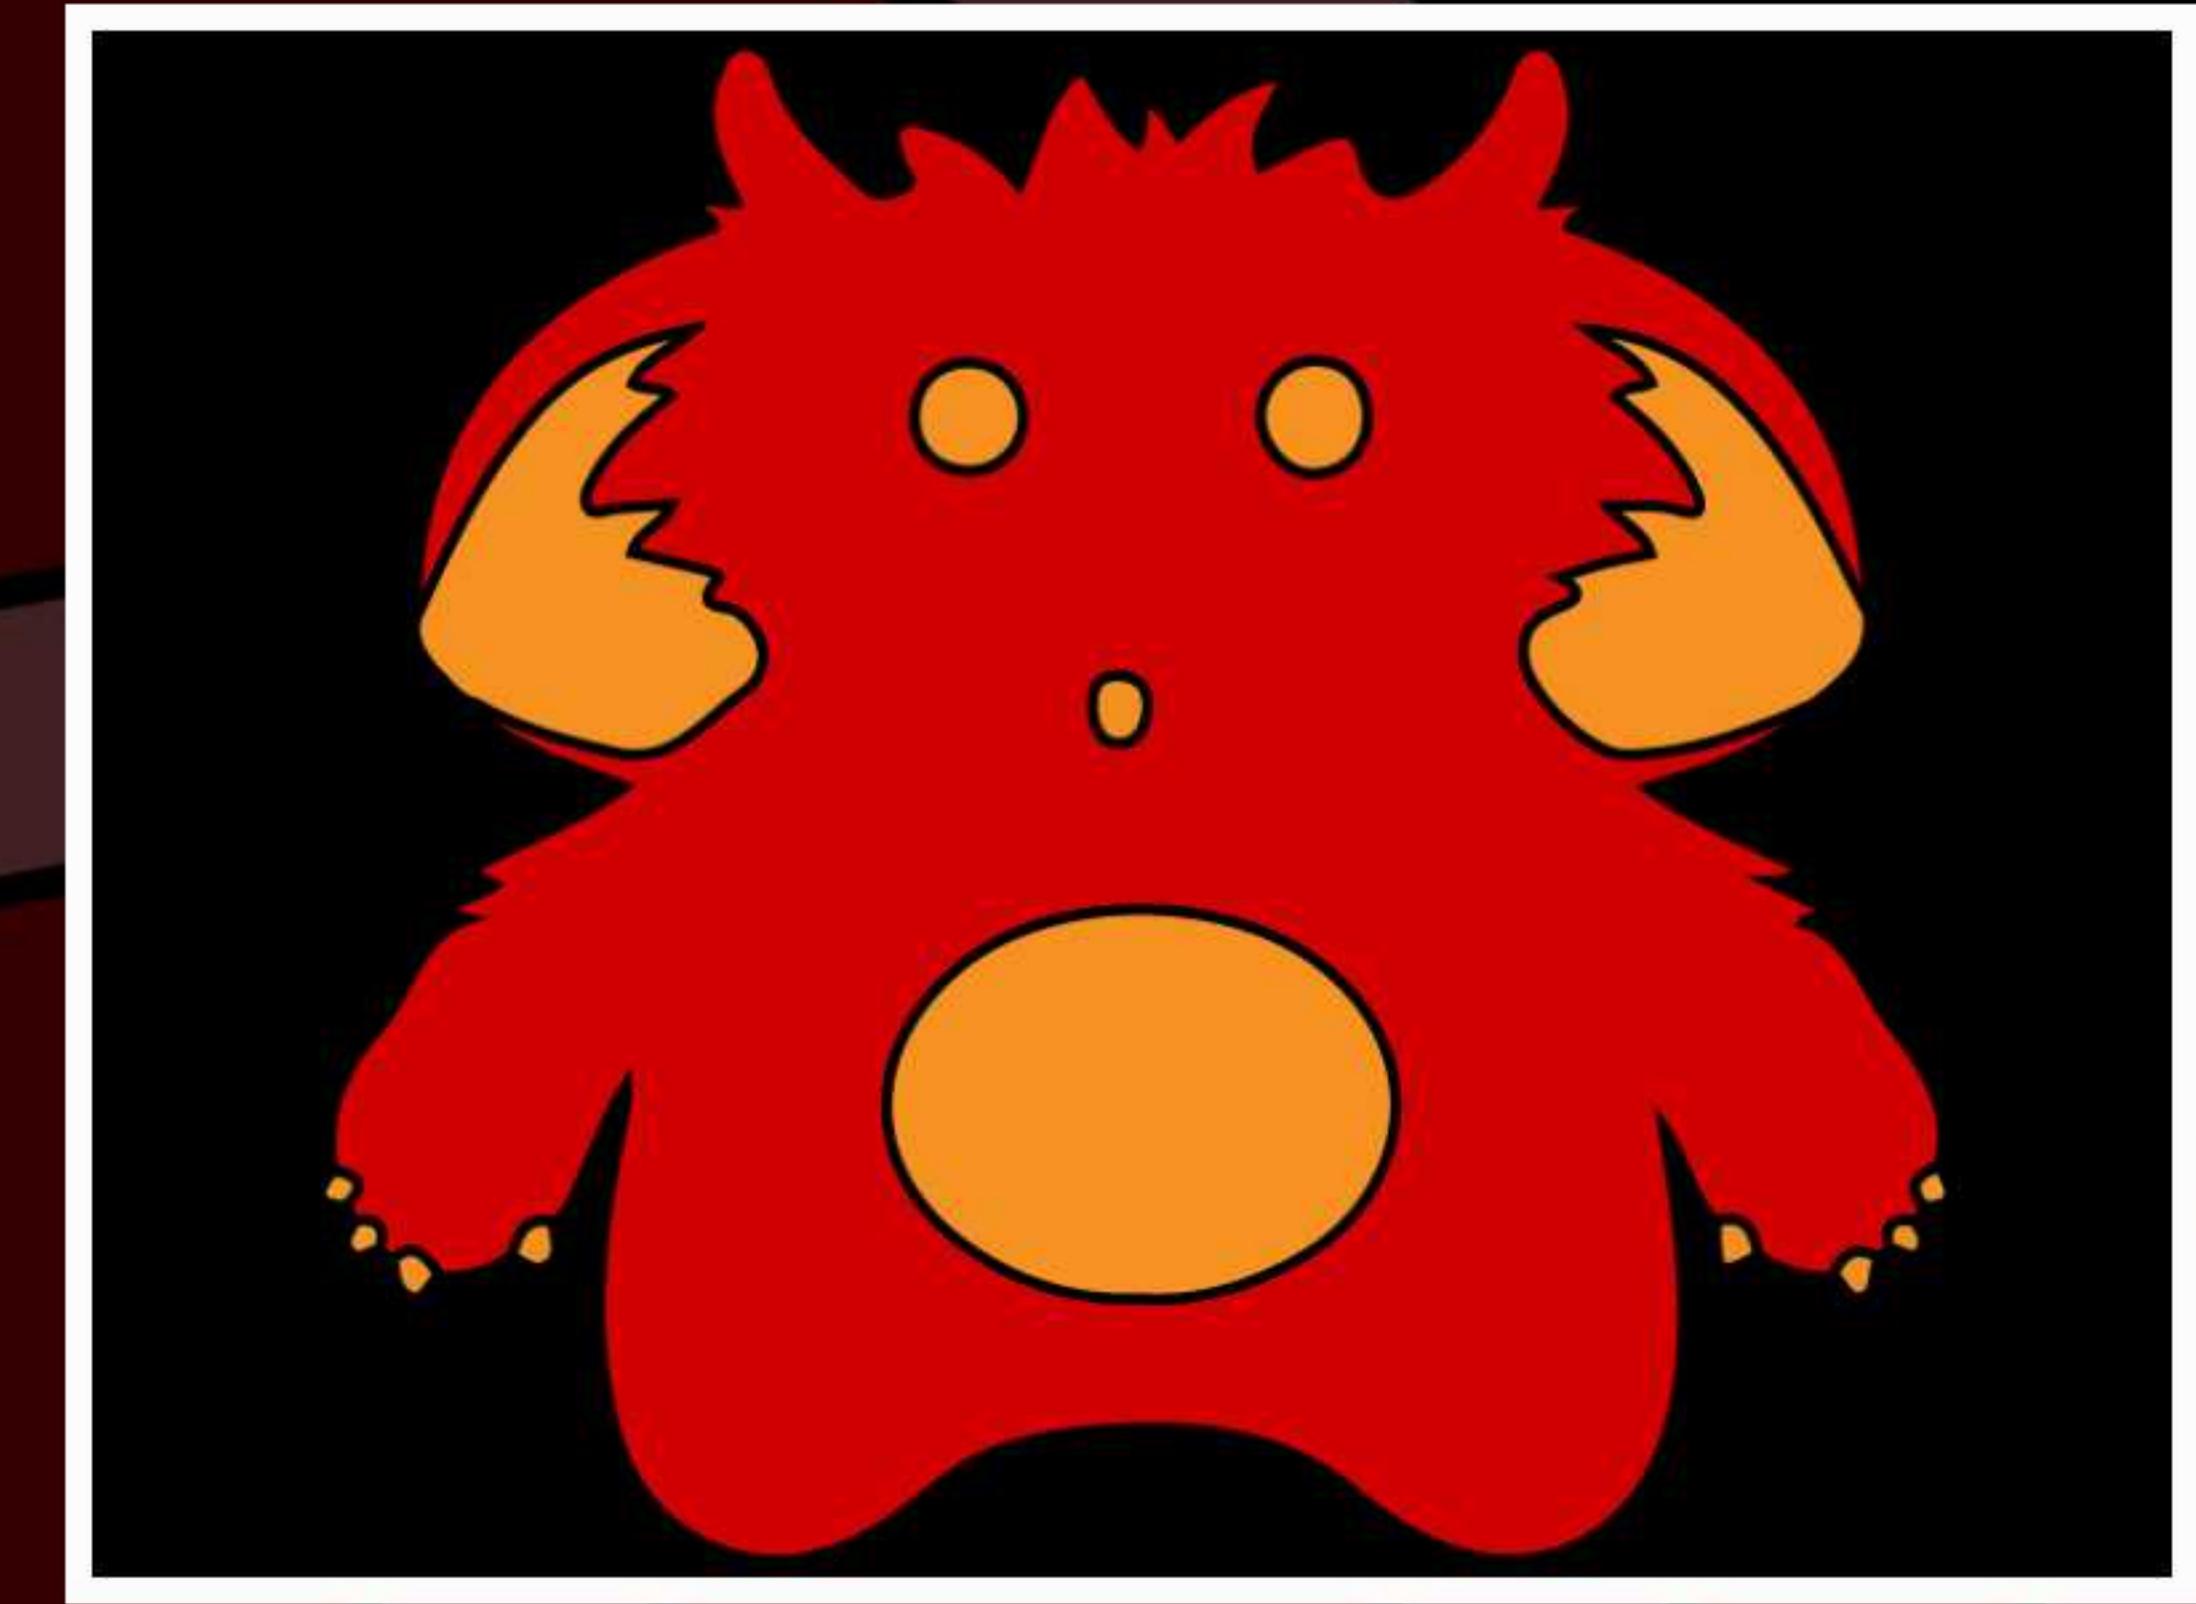

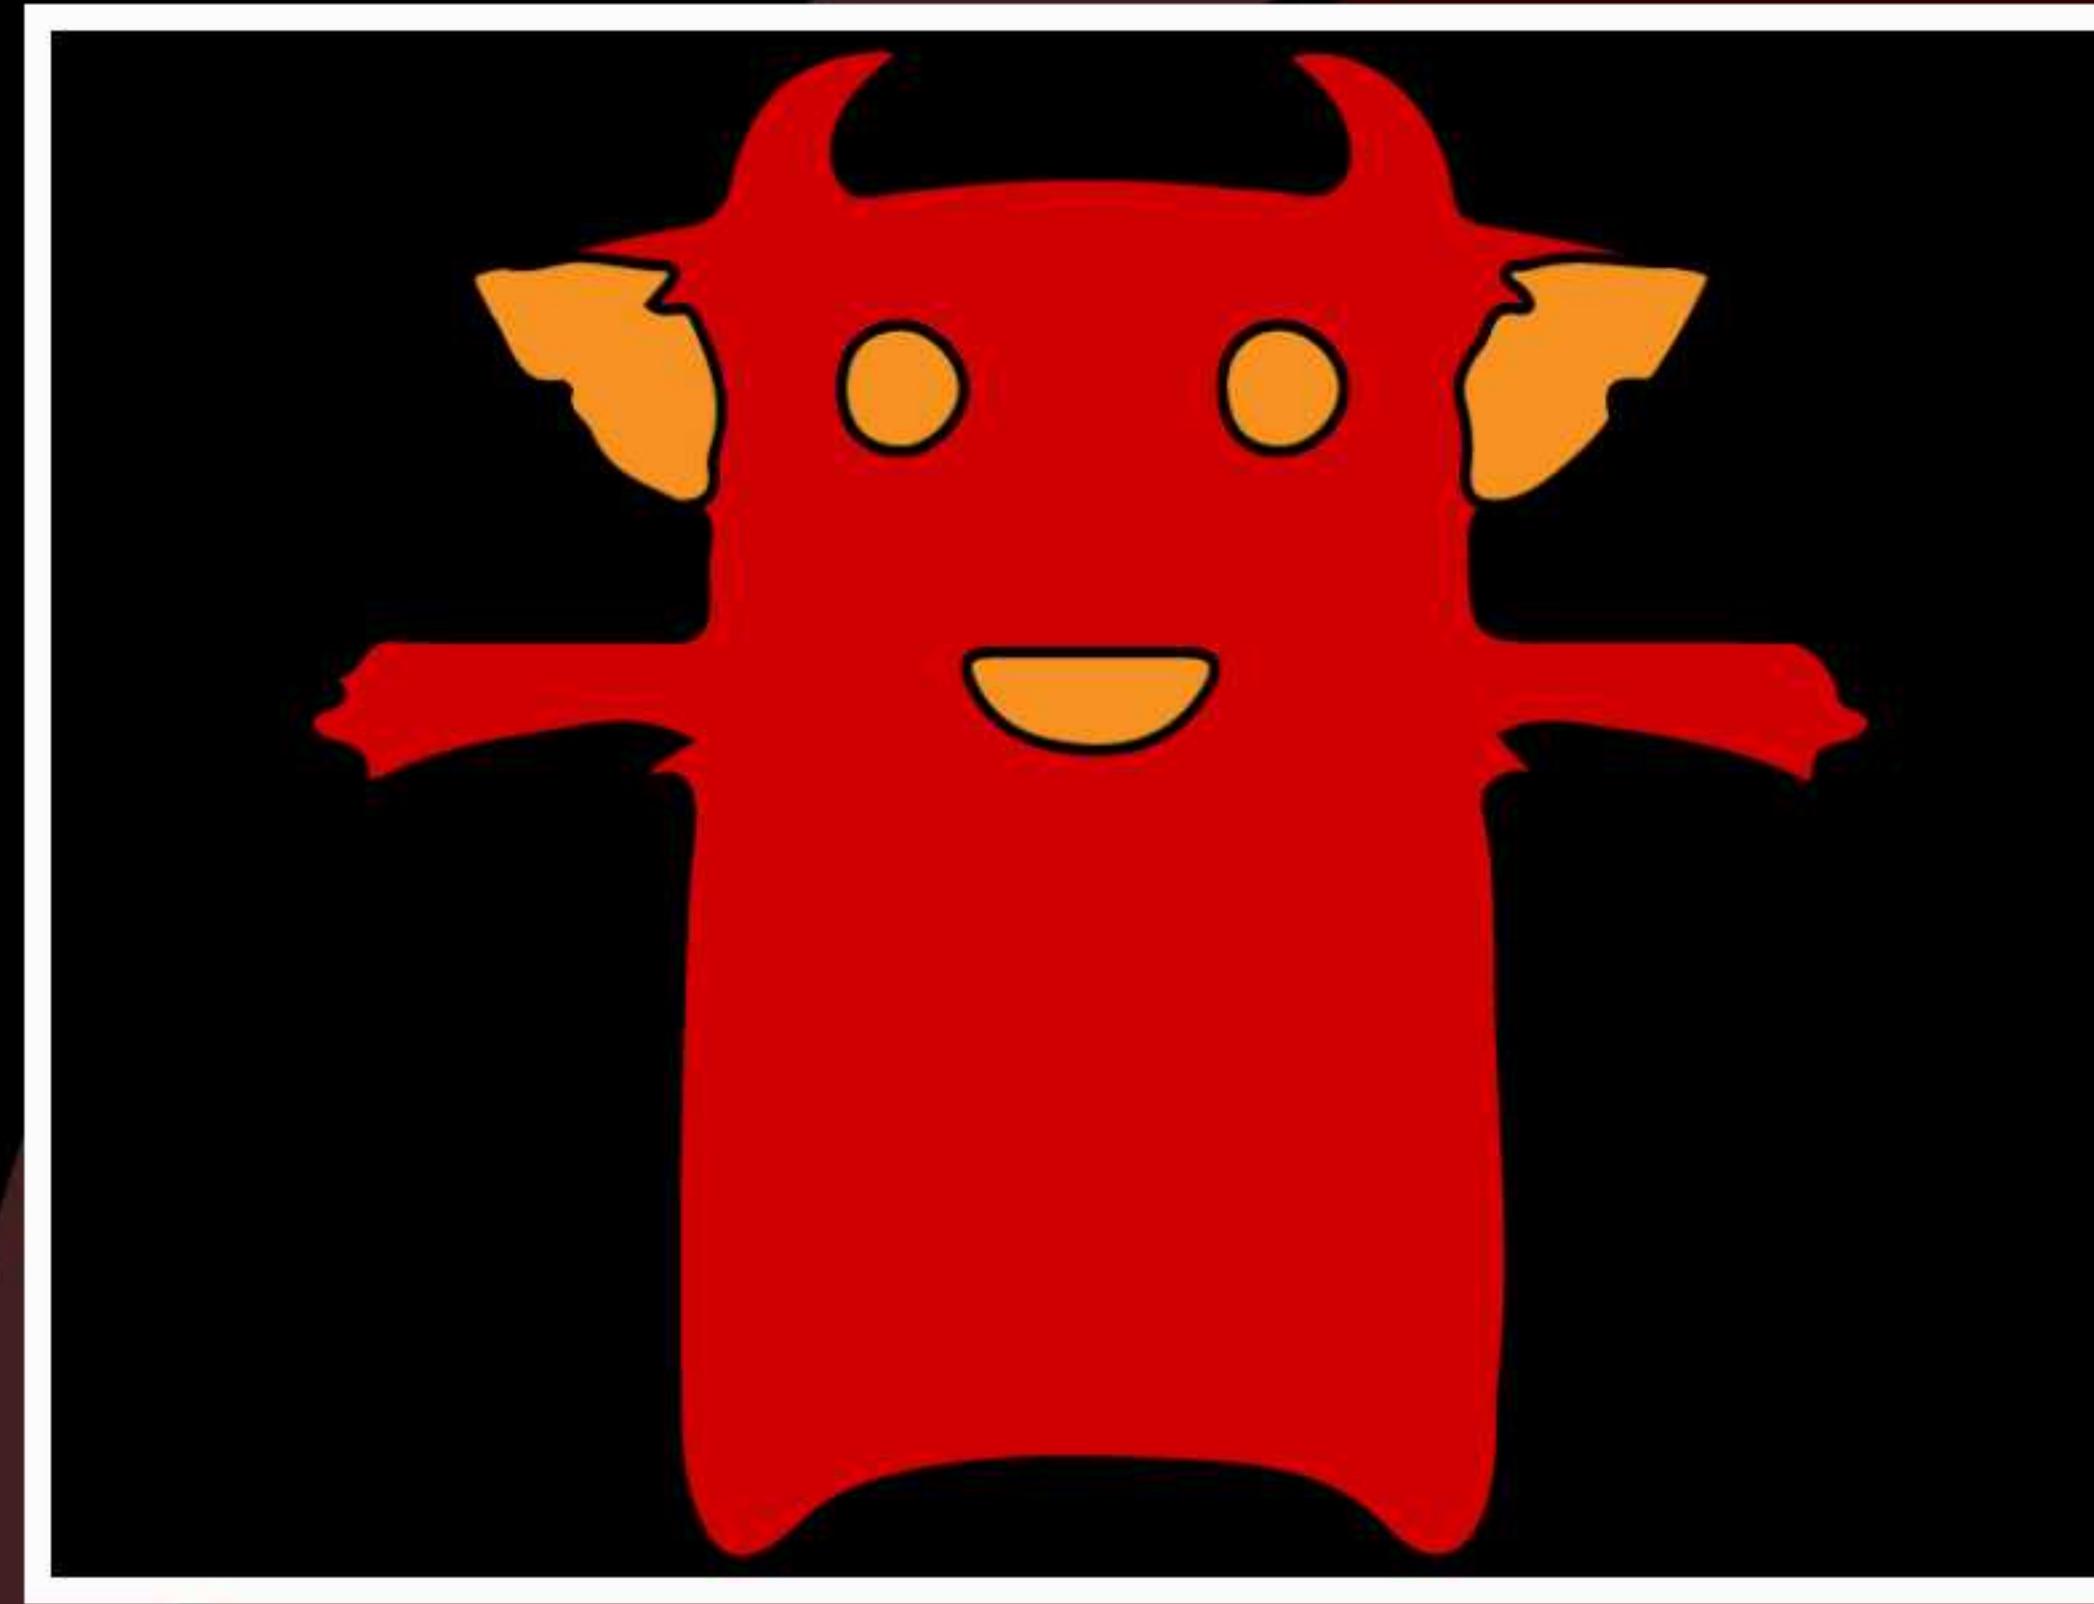

Your spaceship is navigating the galaxy and will land shortly...

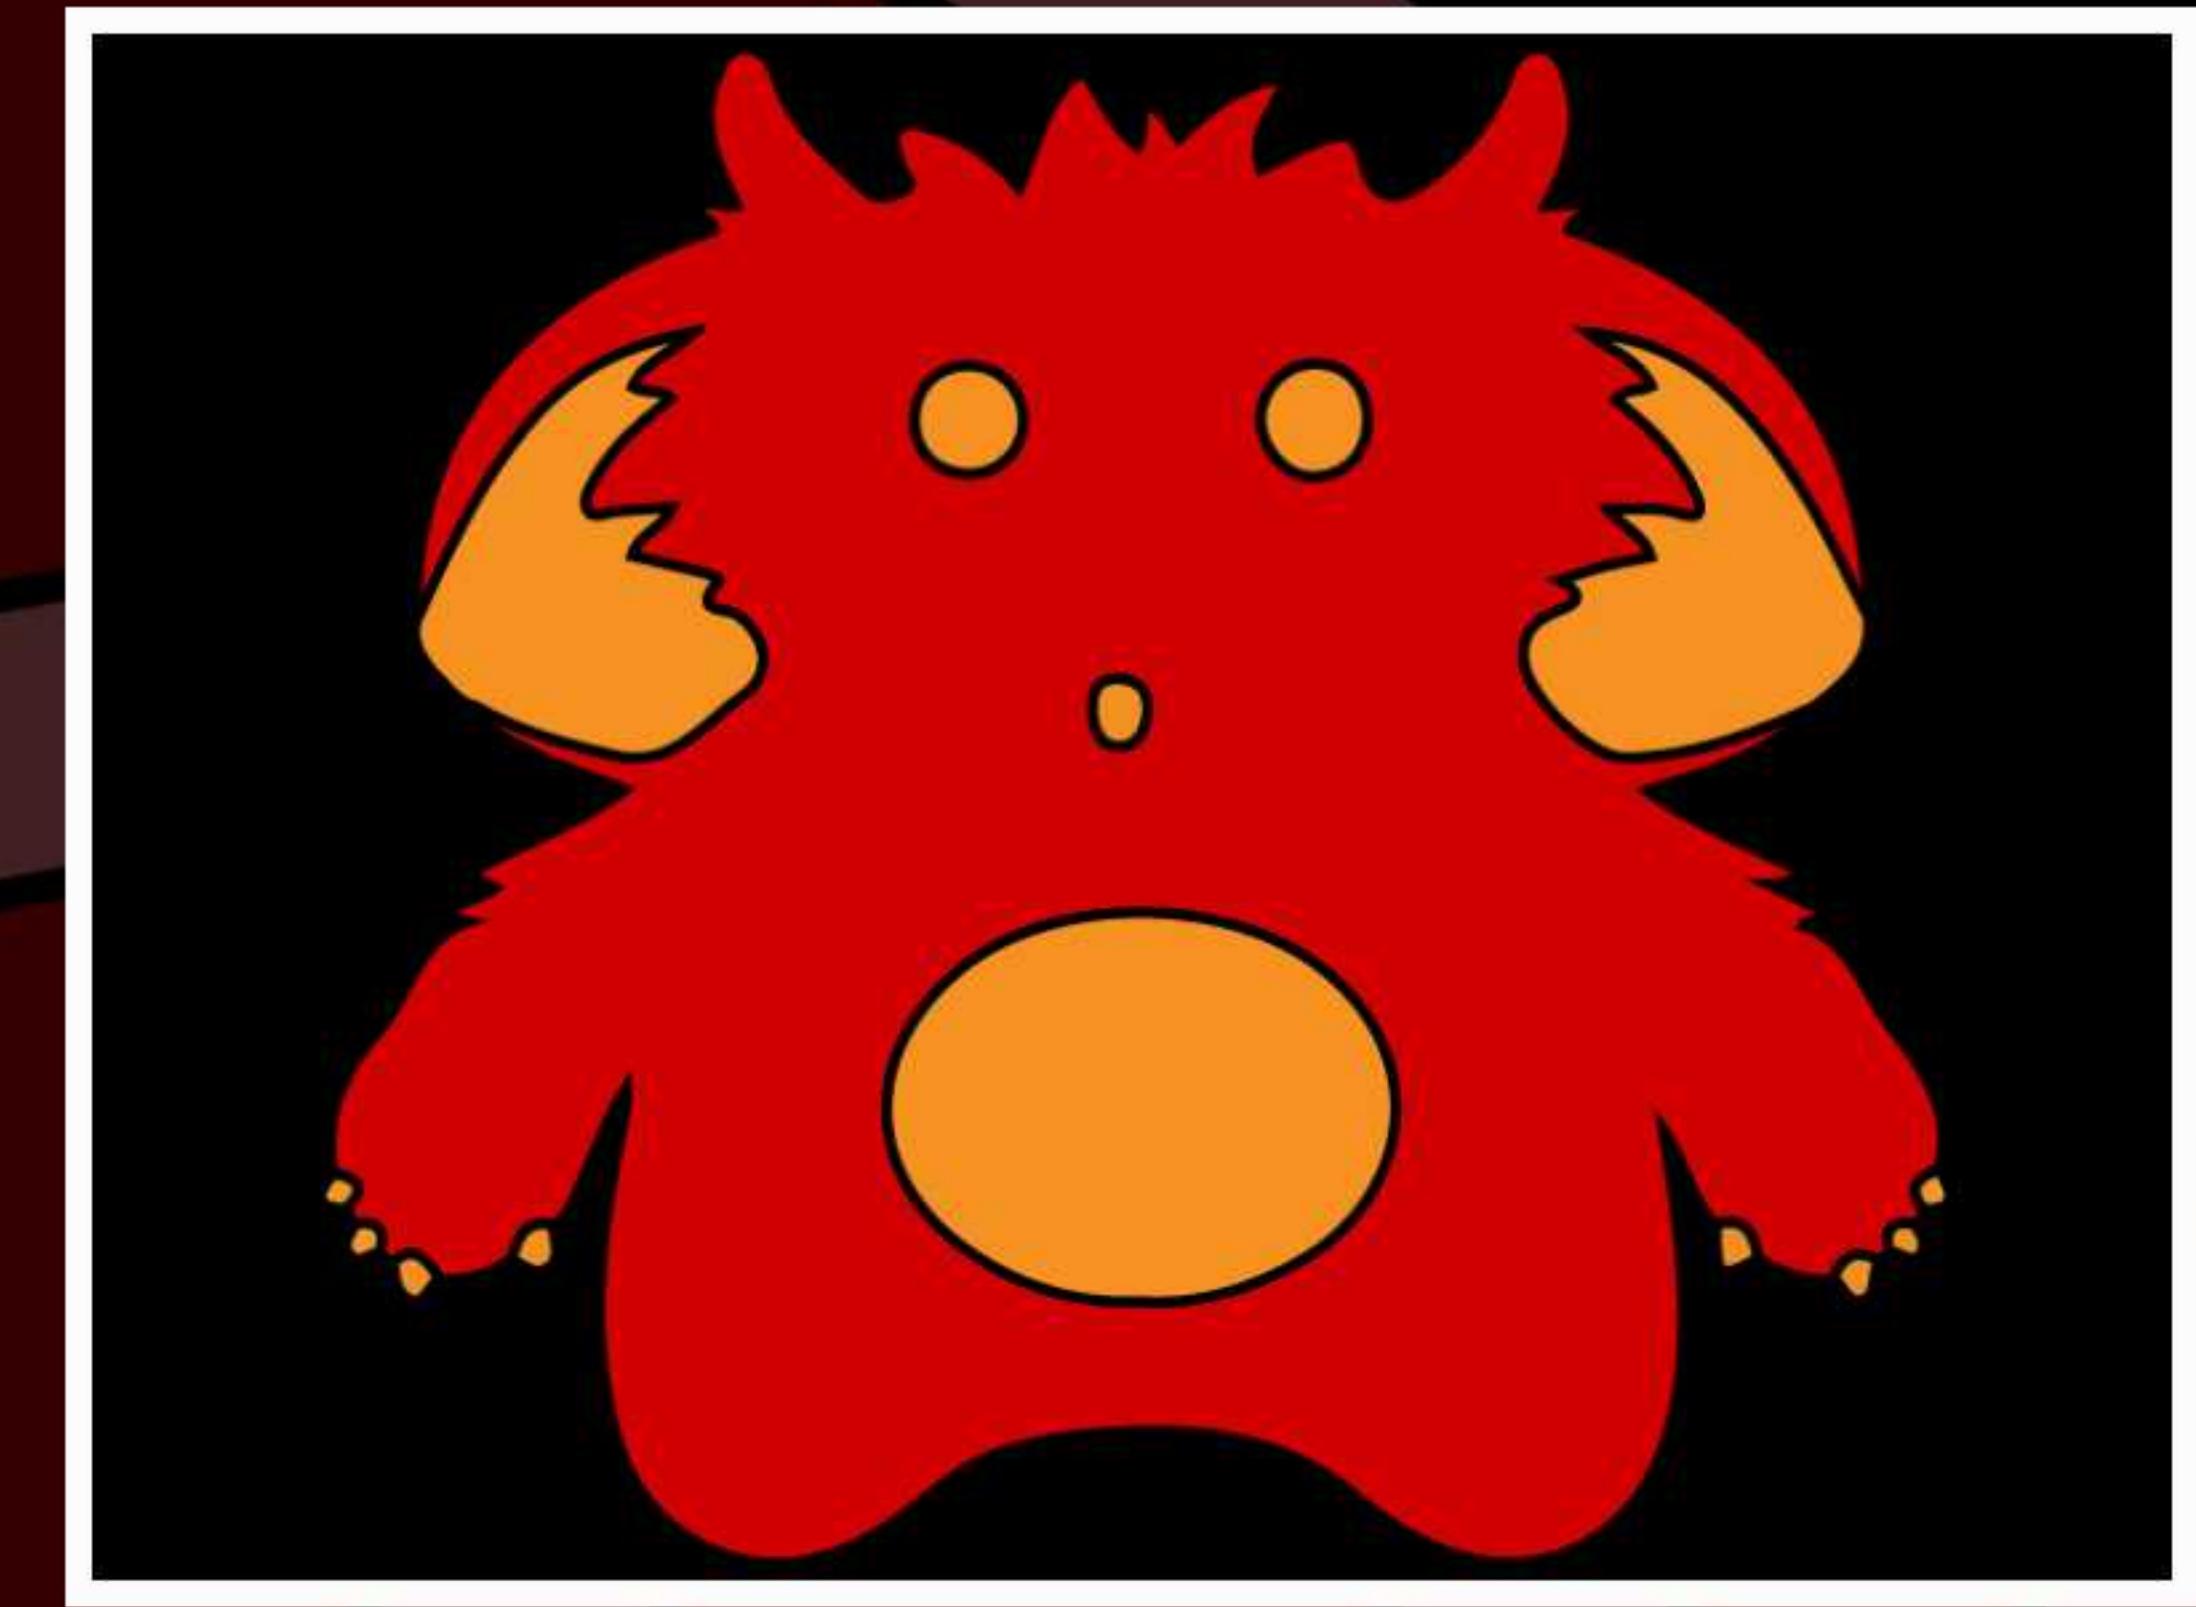

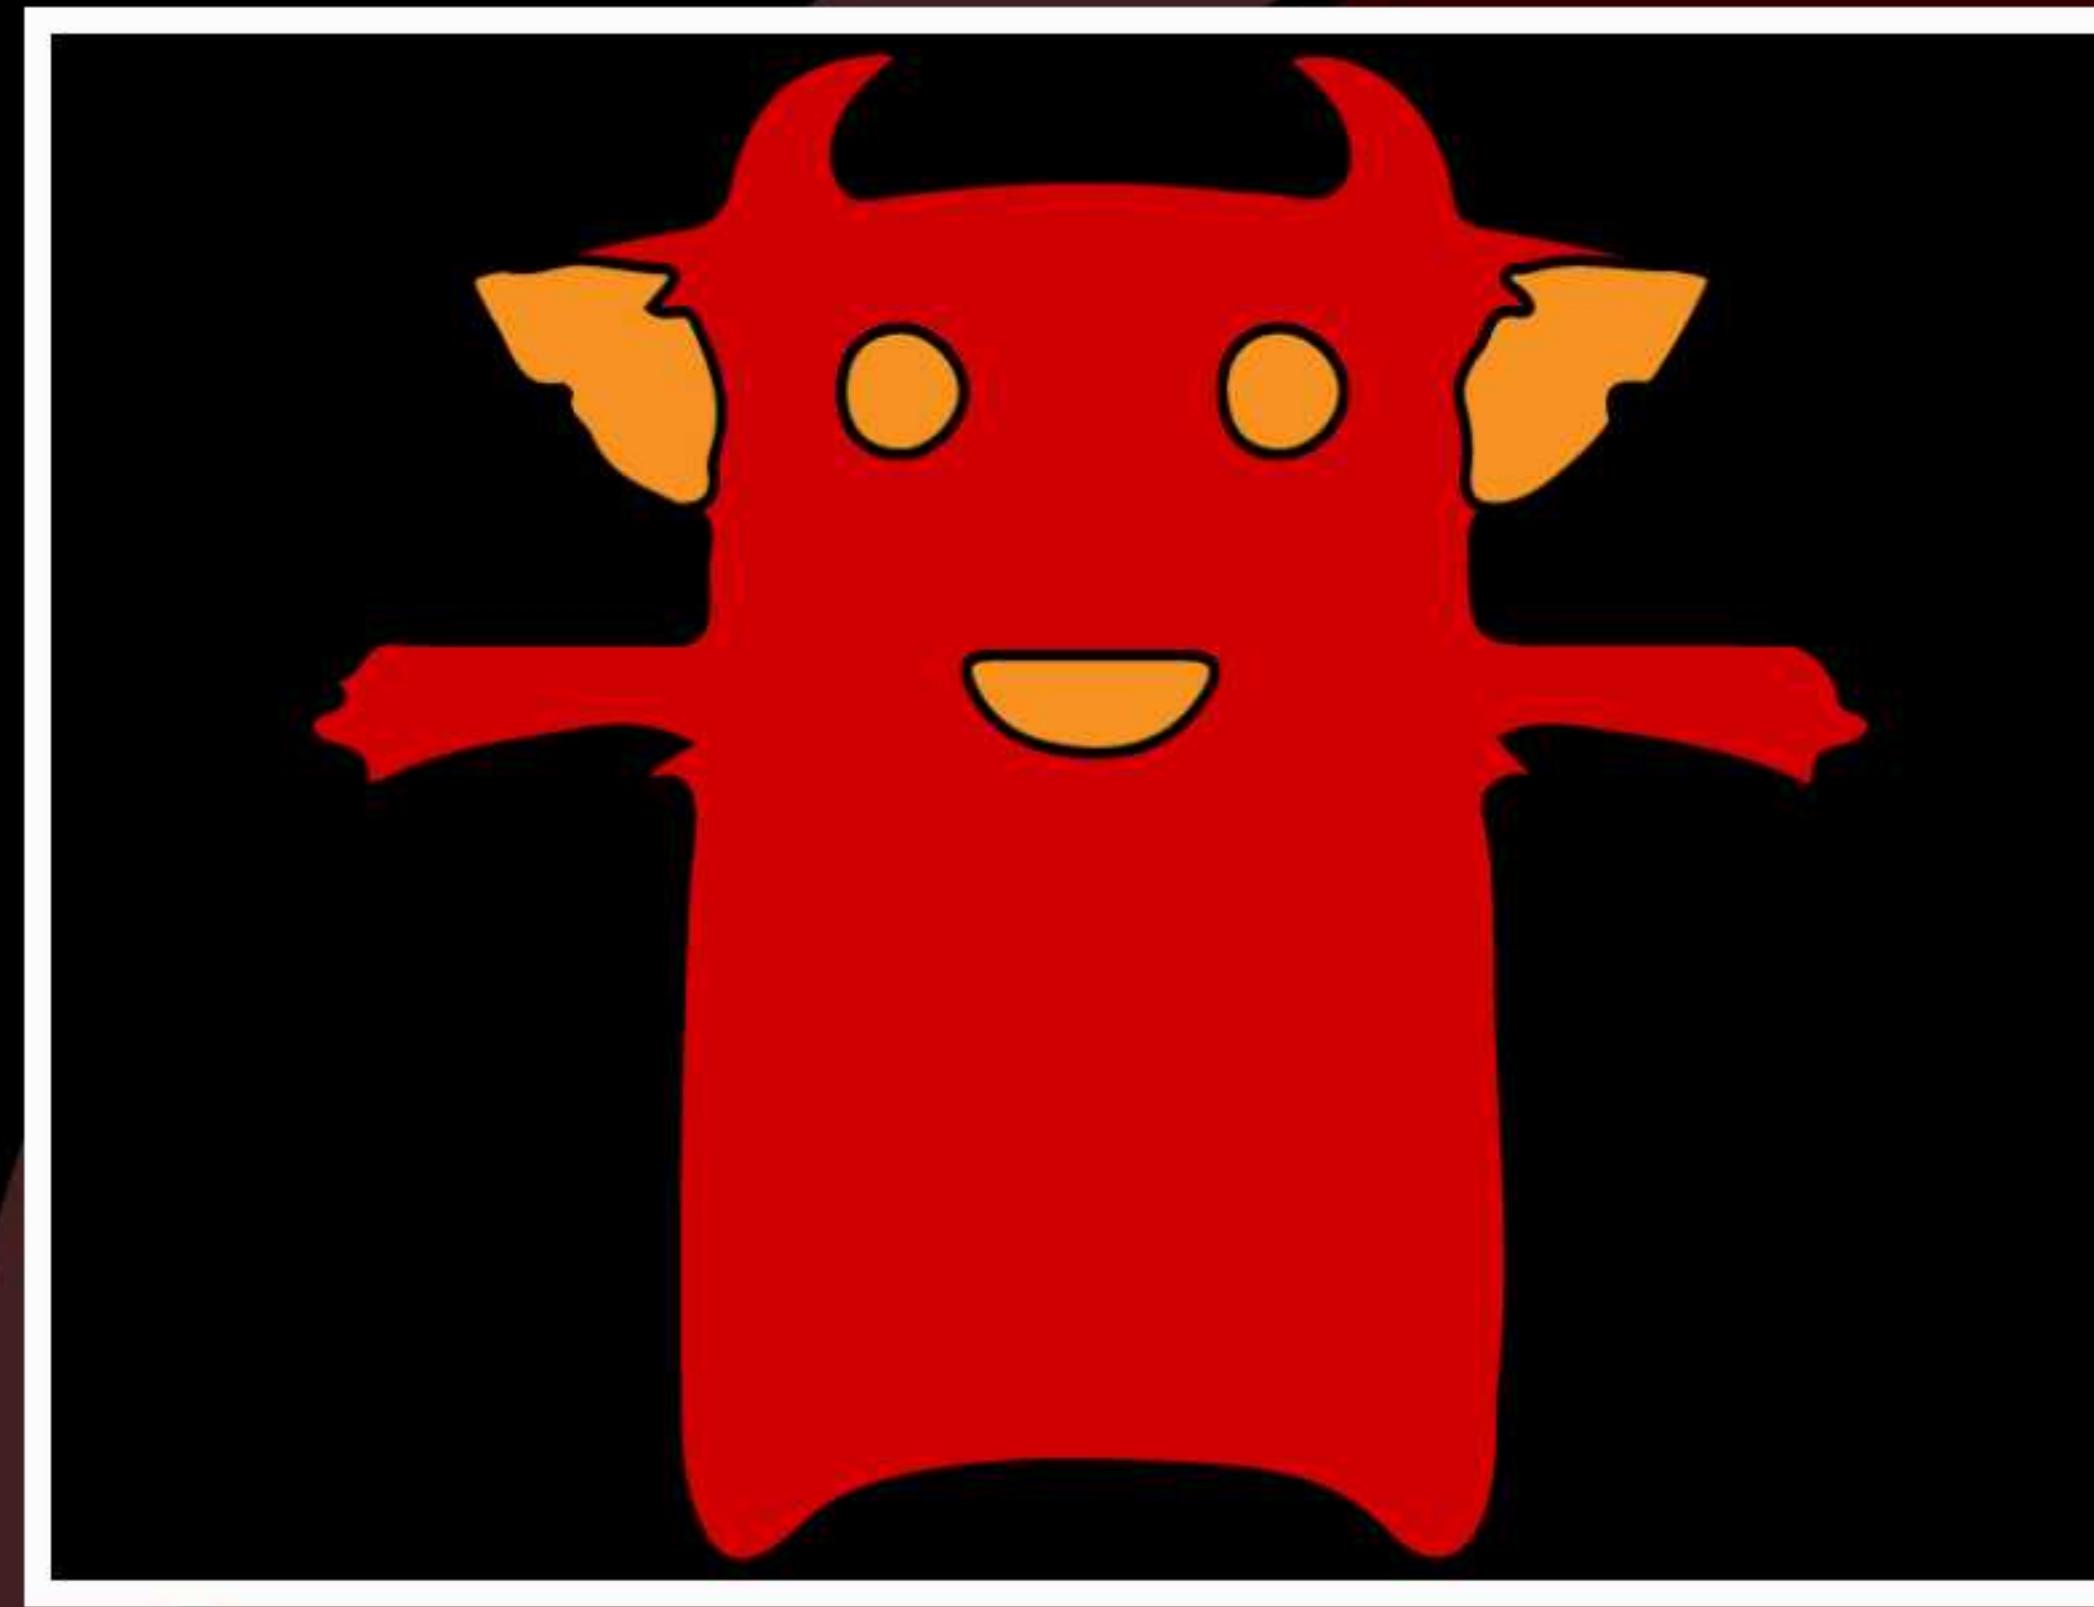

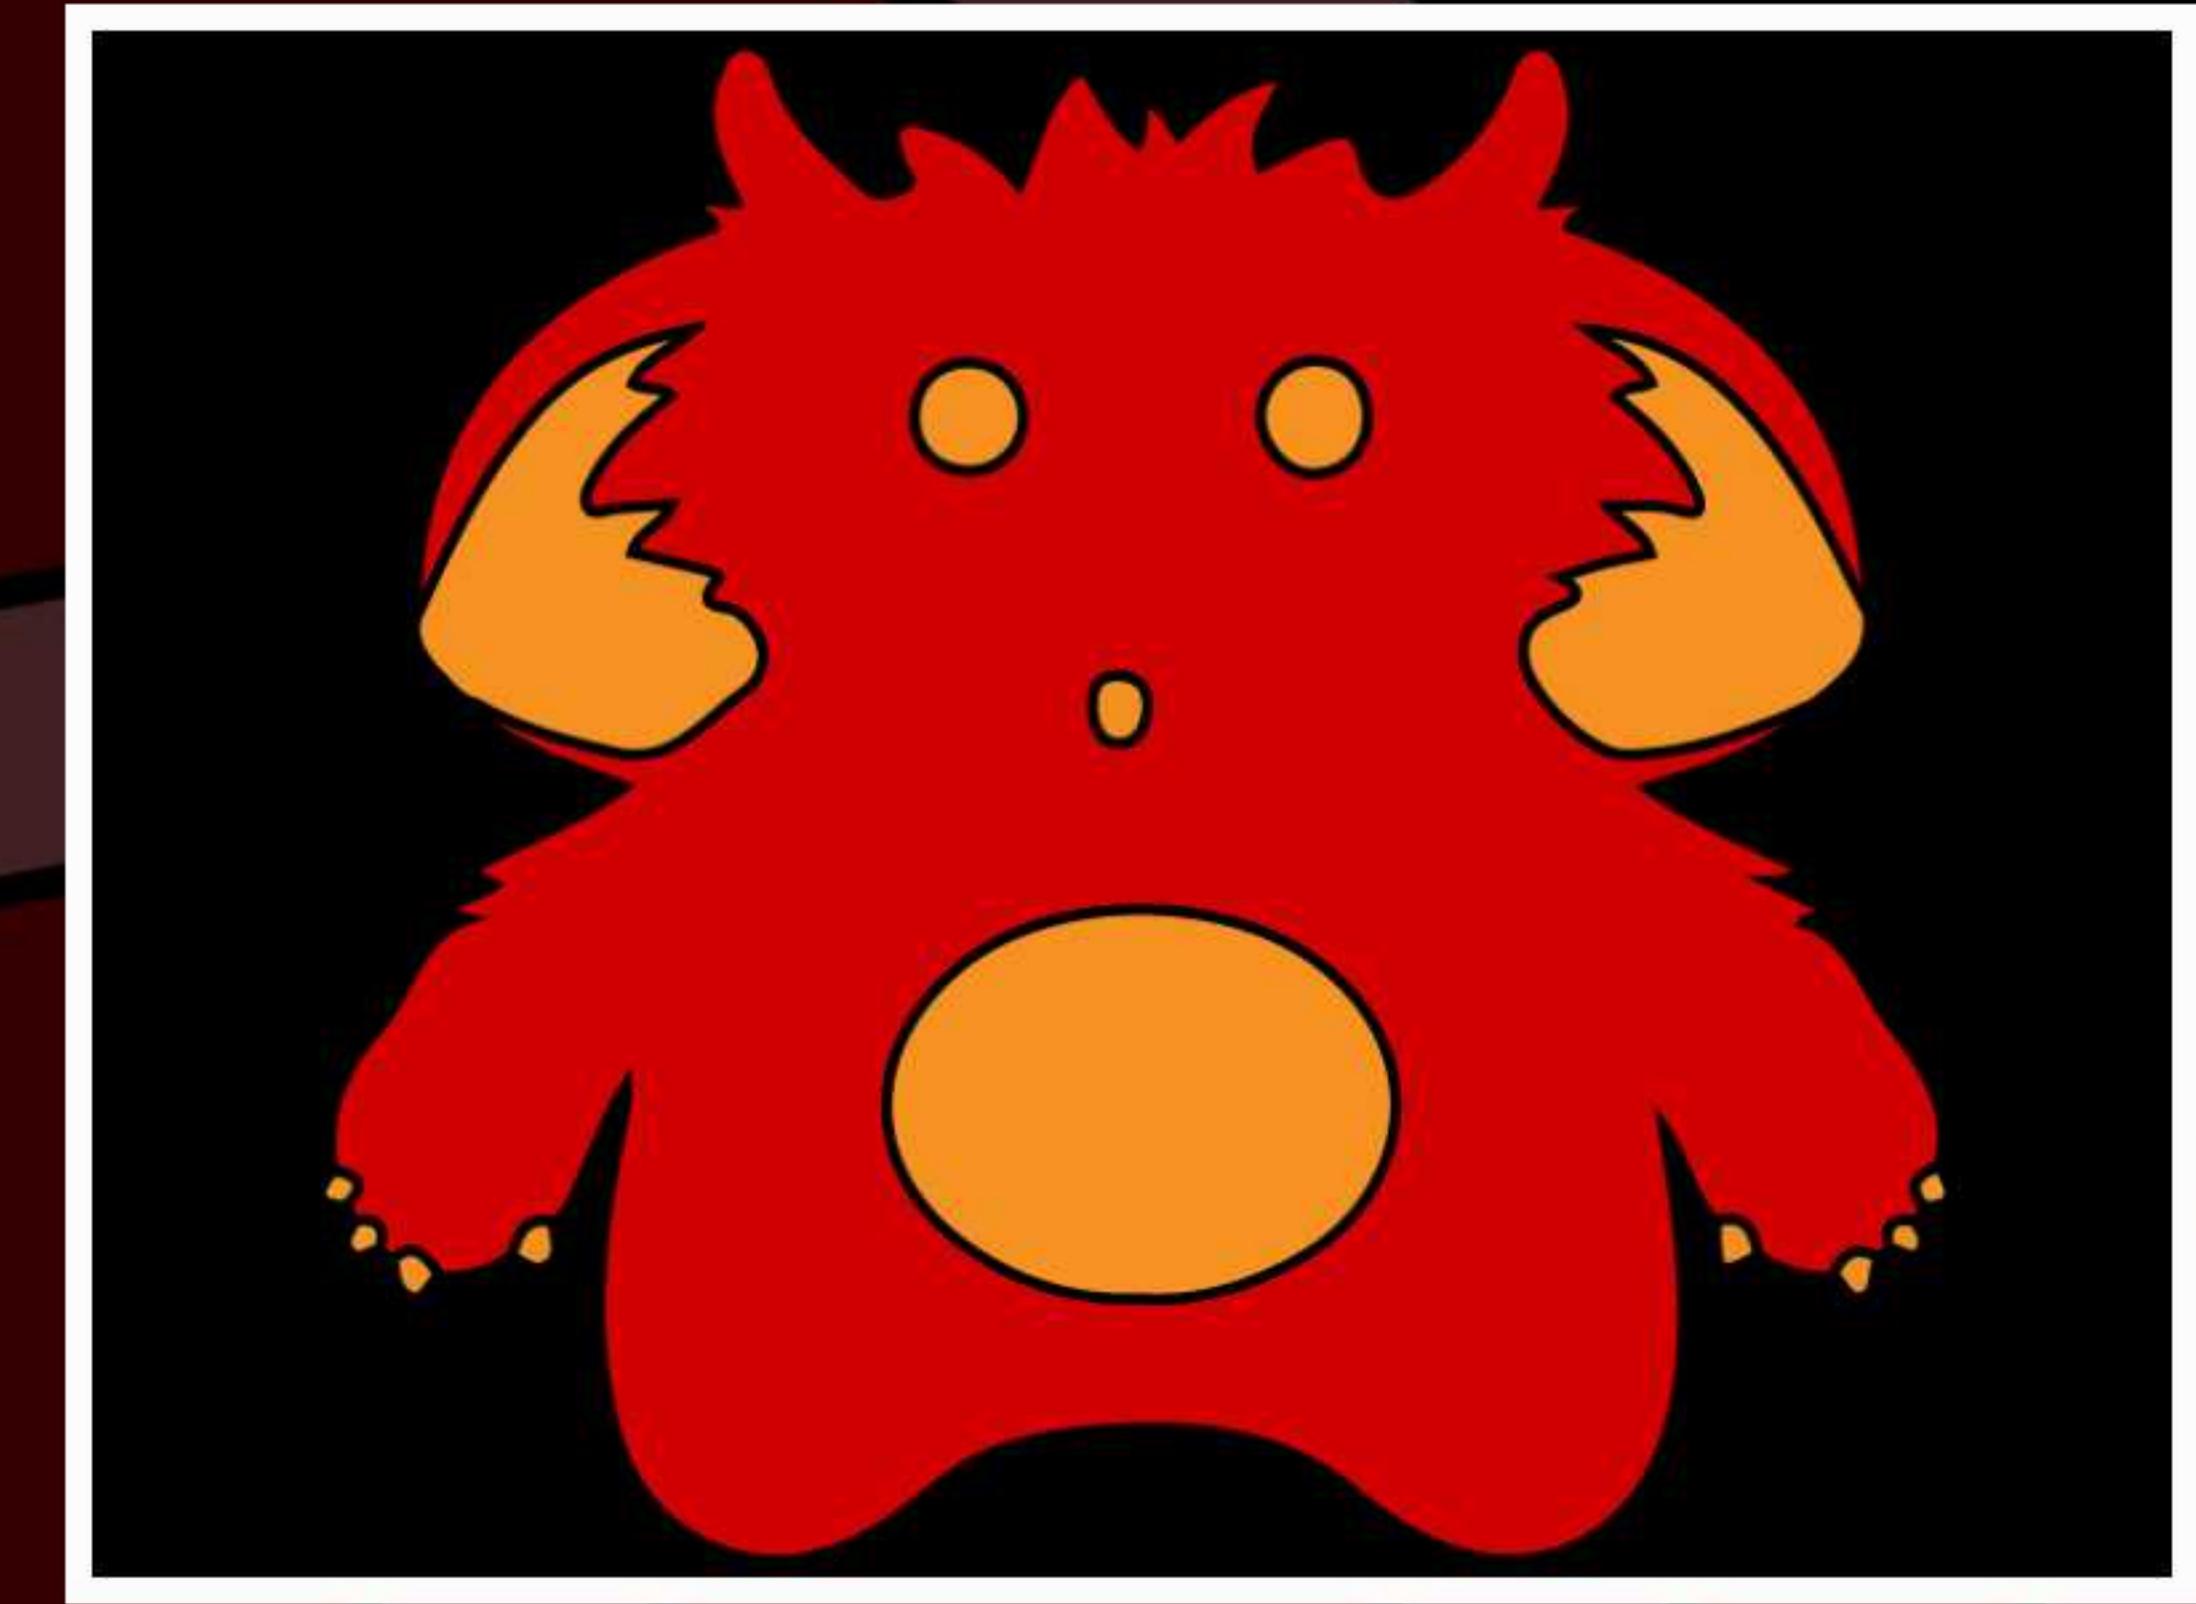

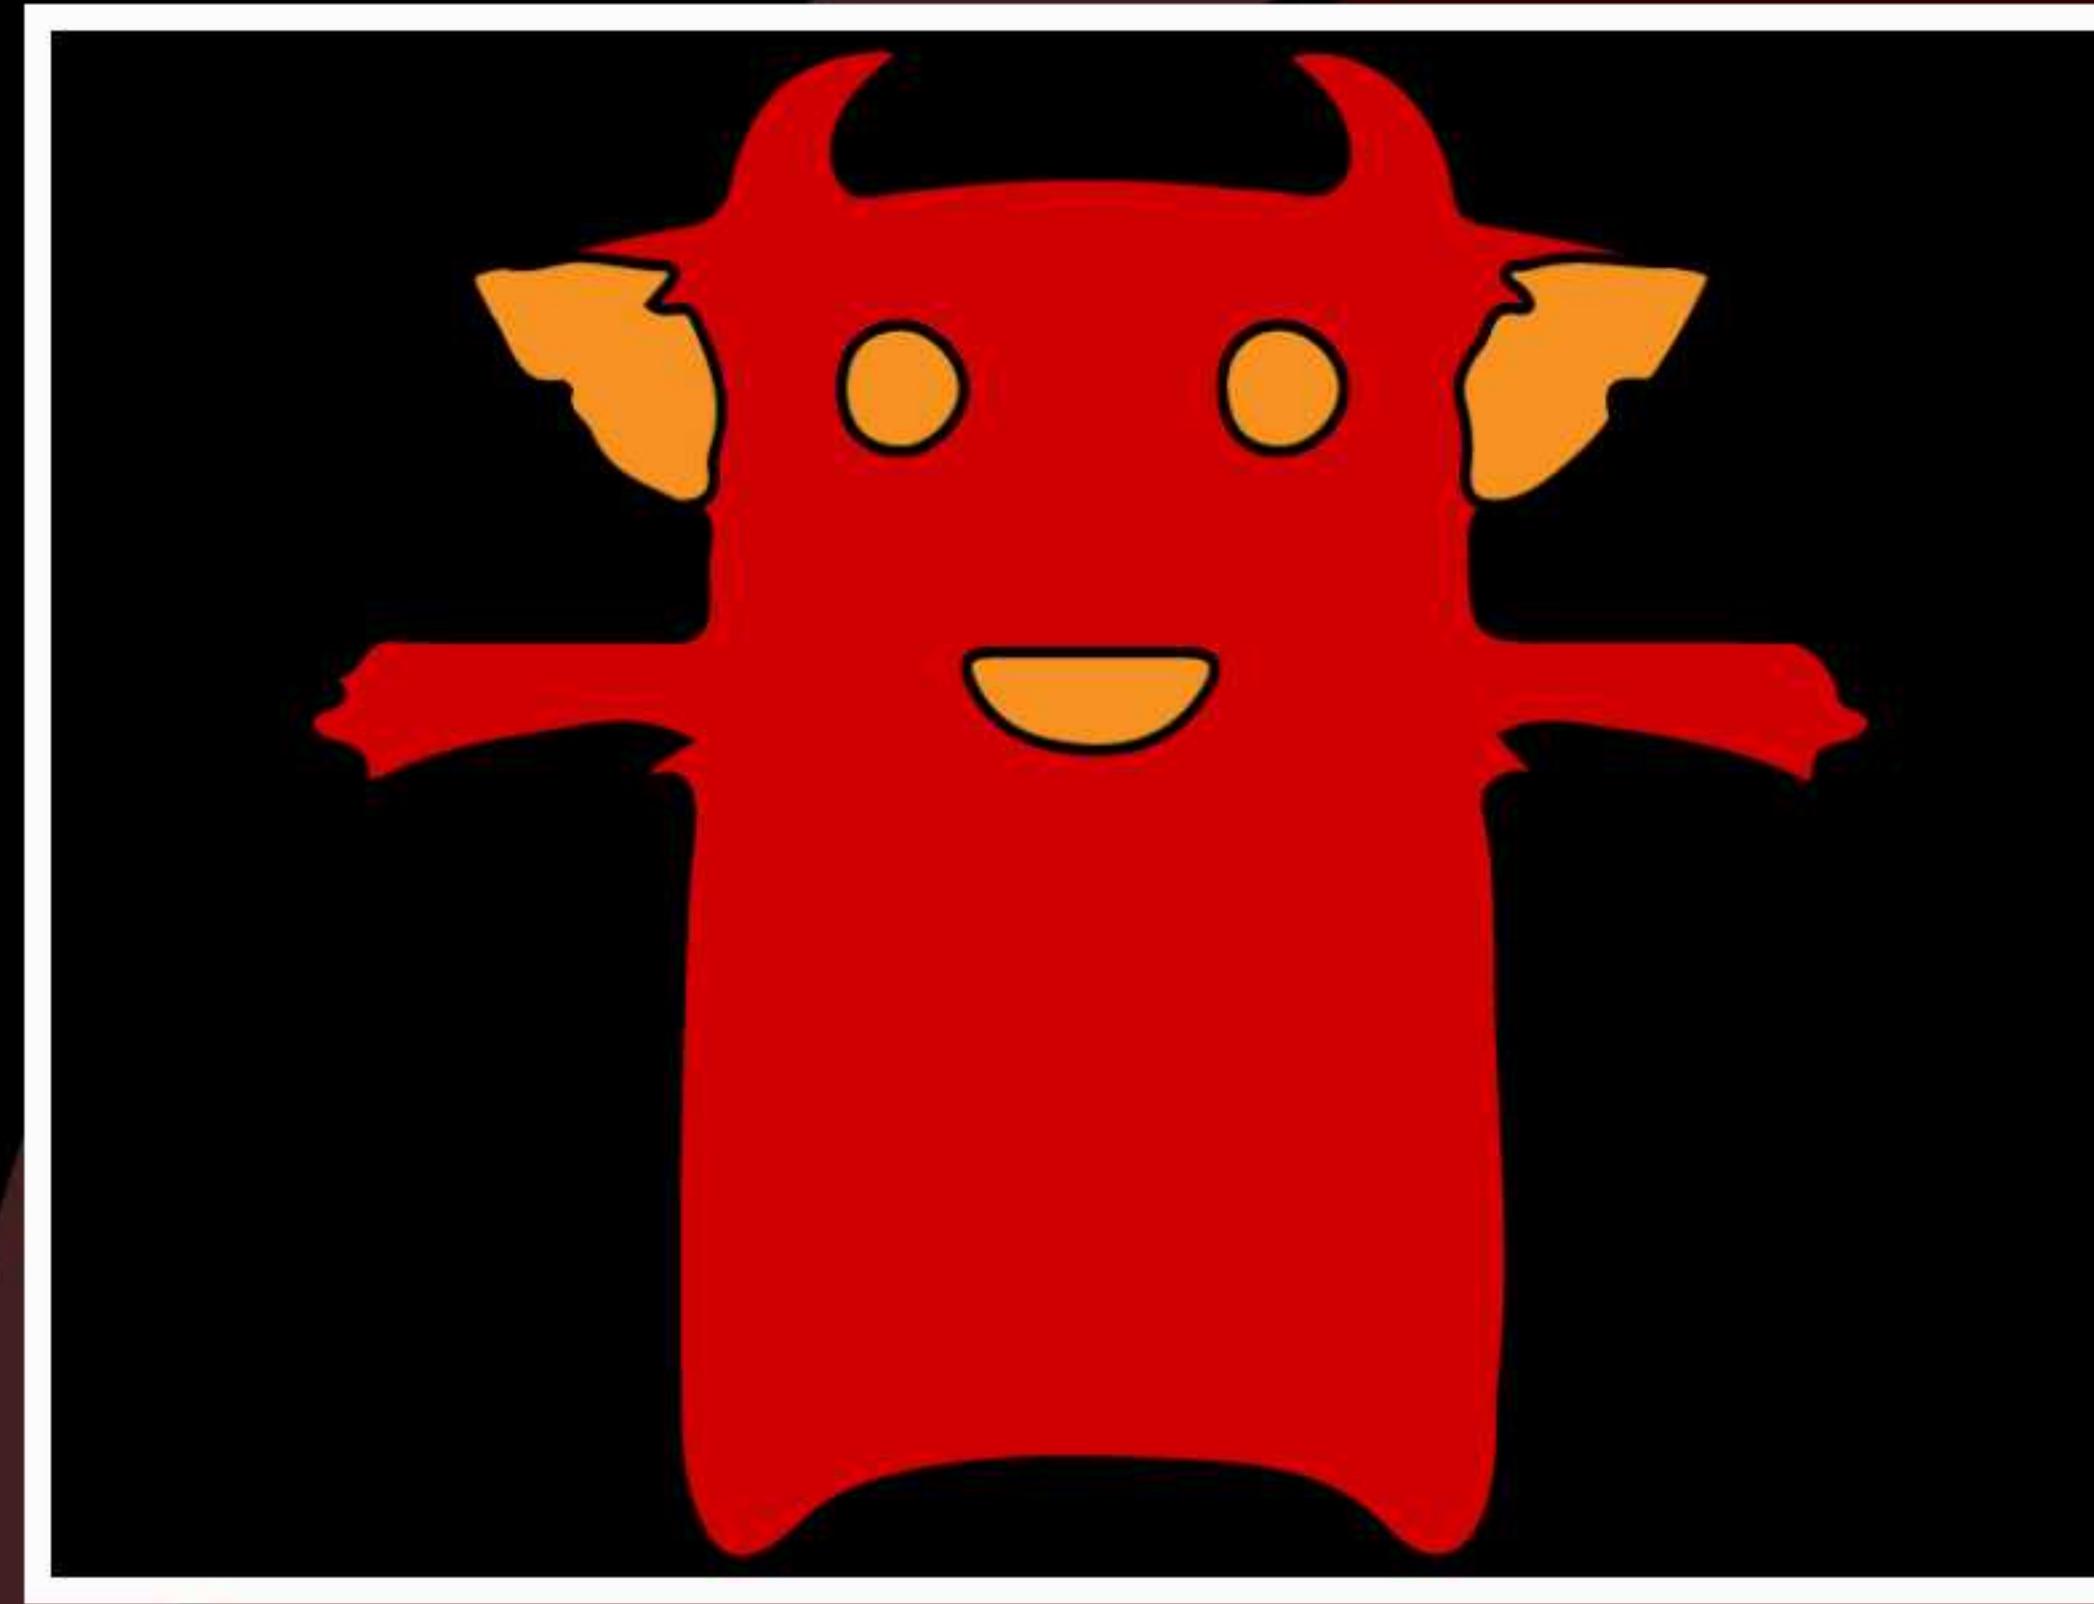

Today, your spaceship landed on Rigel, home to the red aliens!

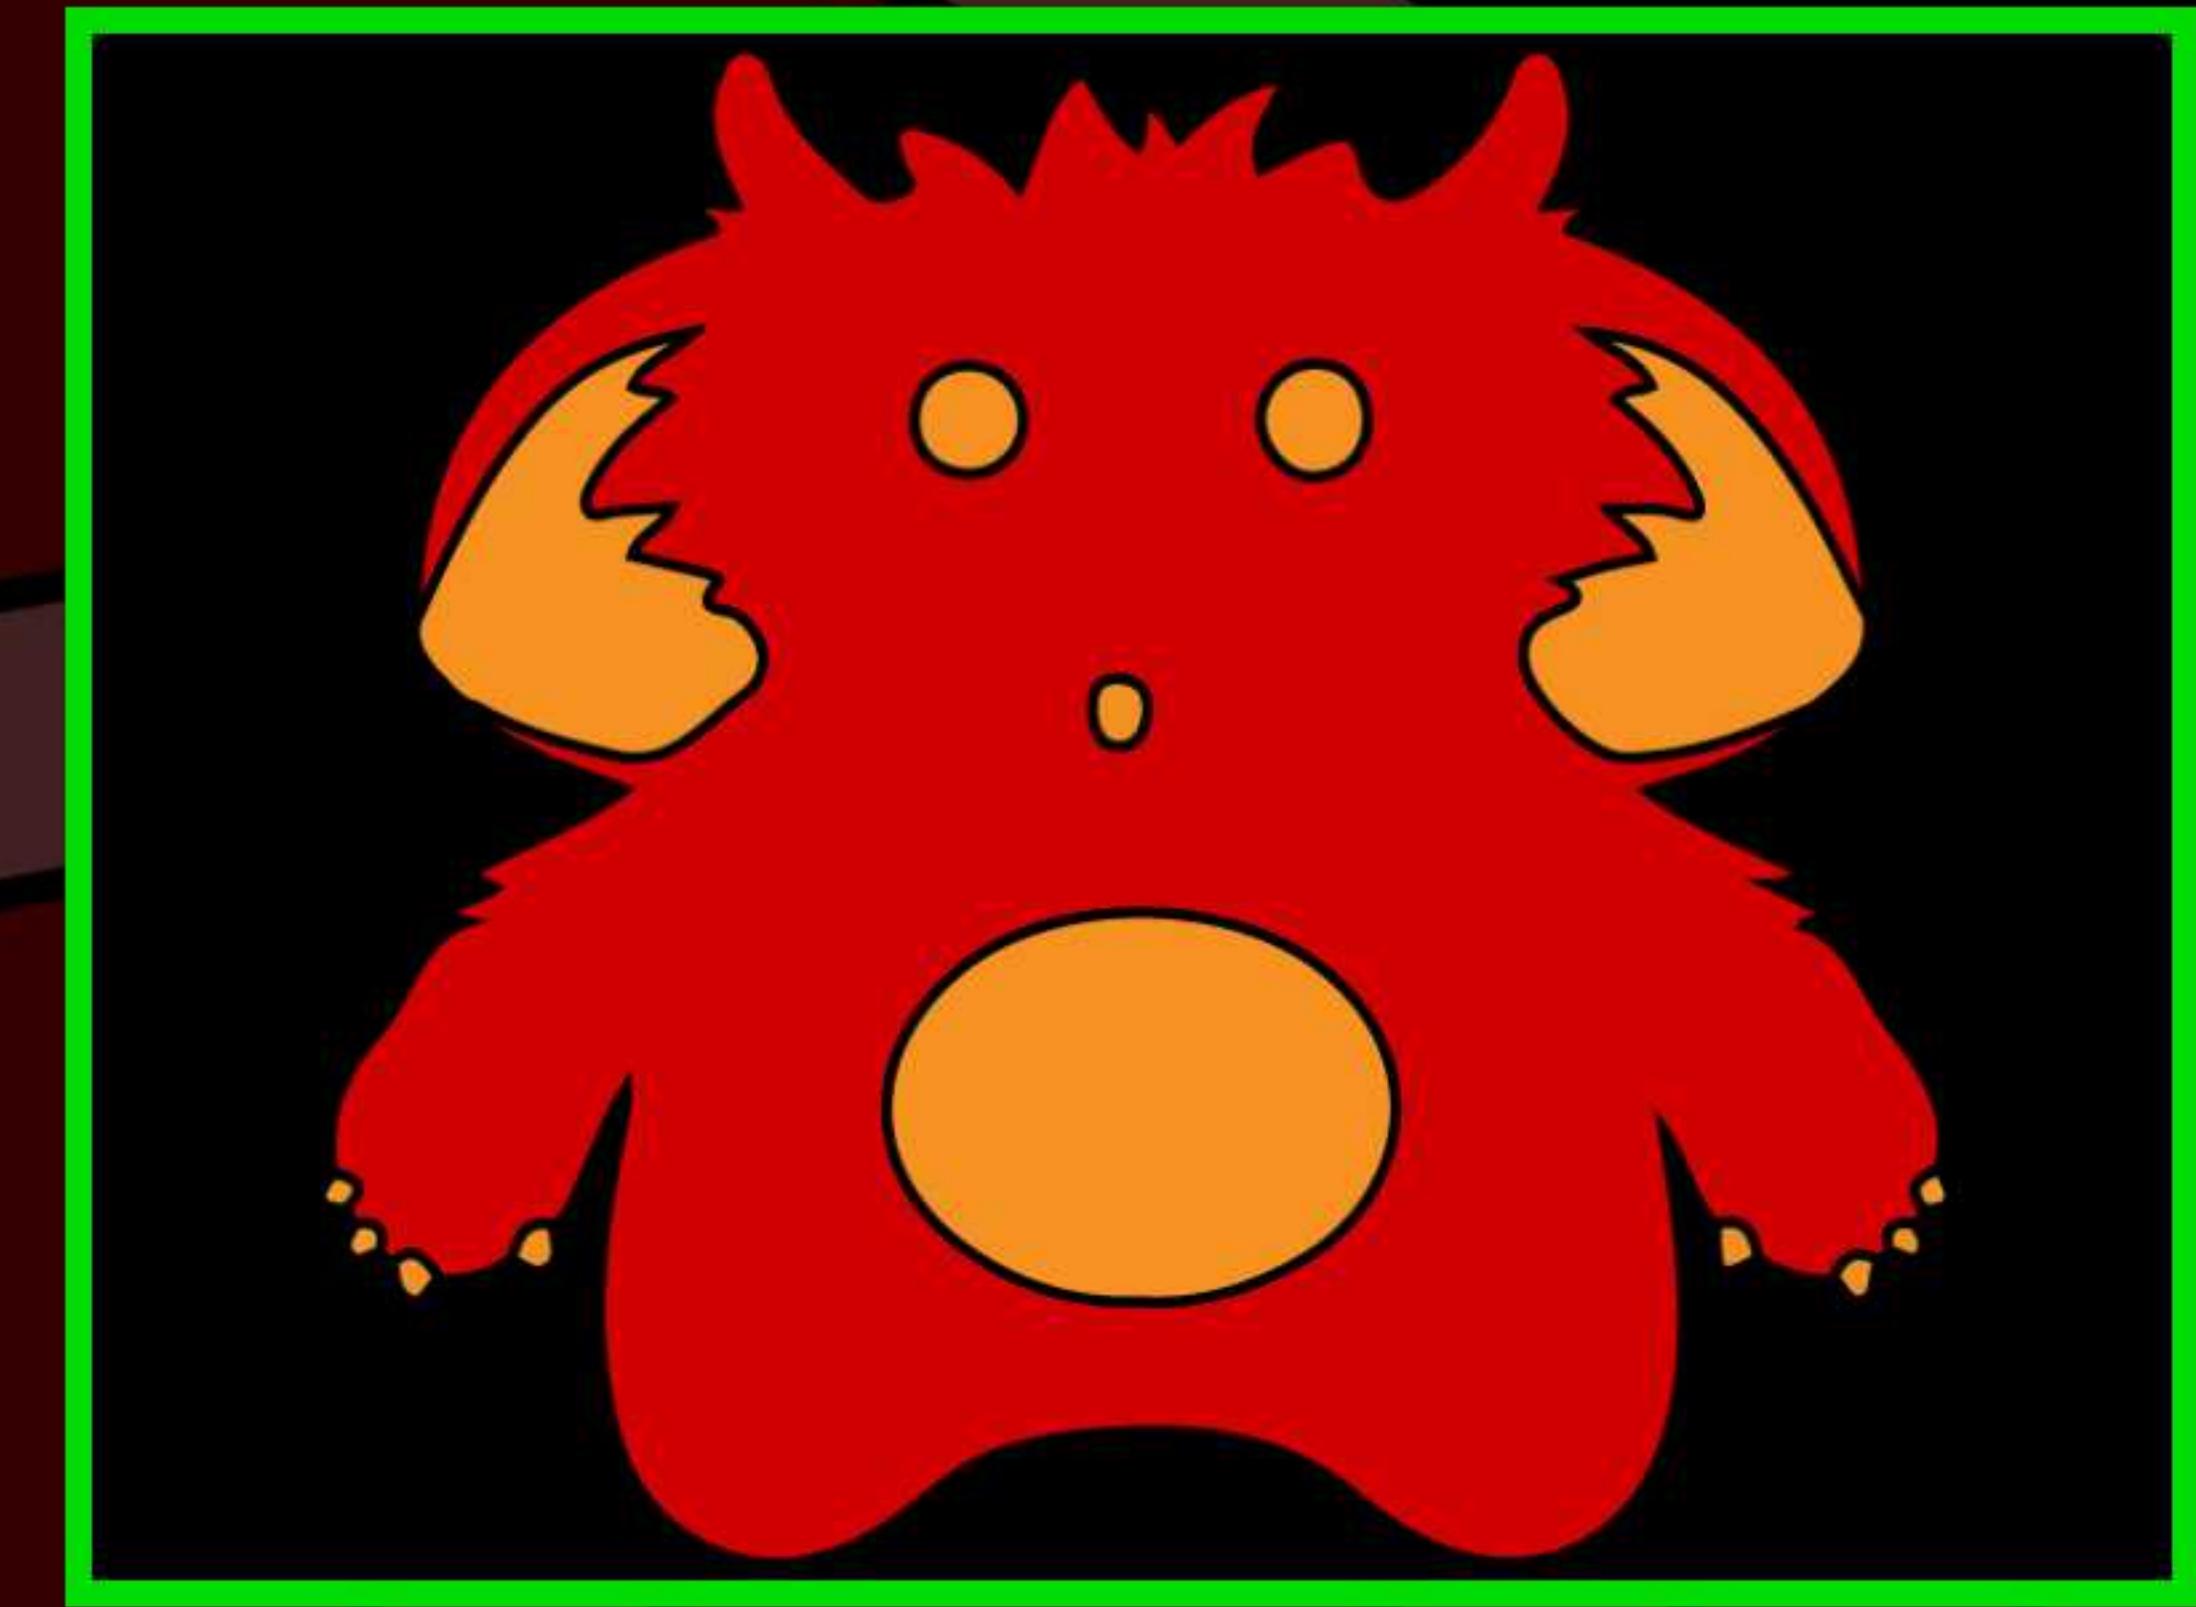

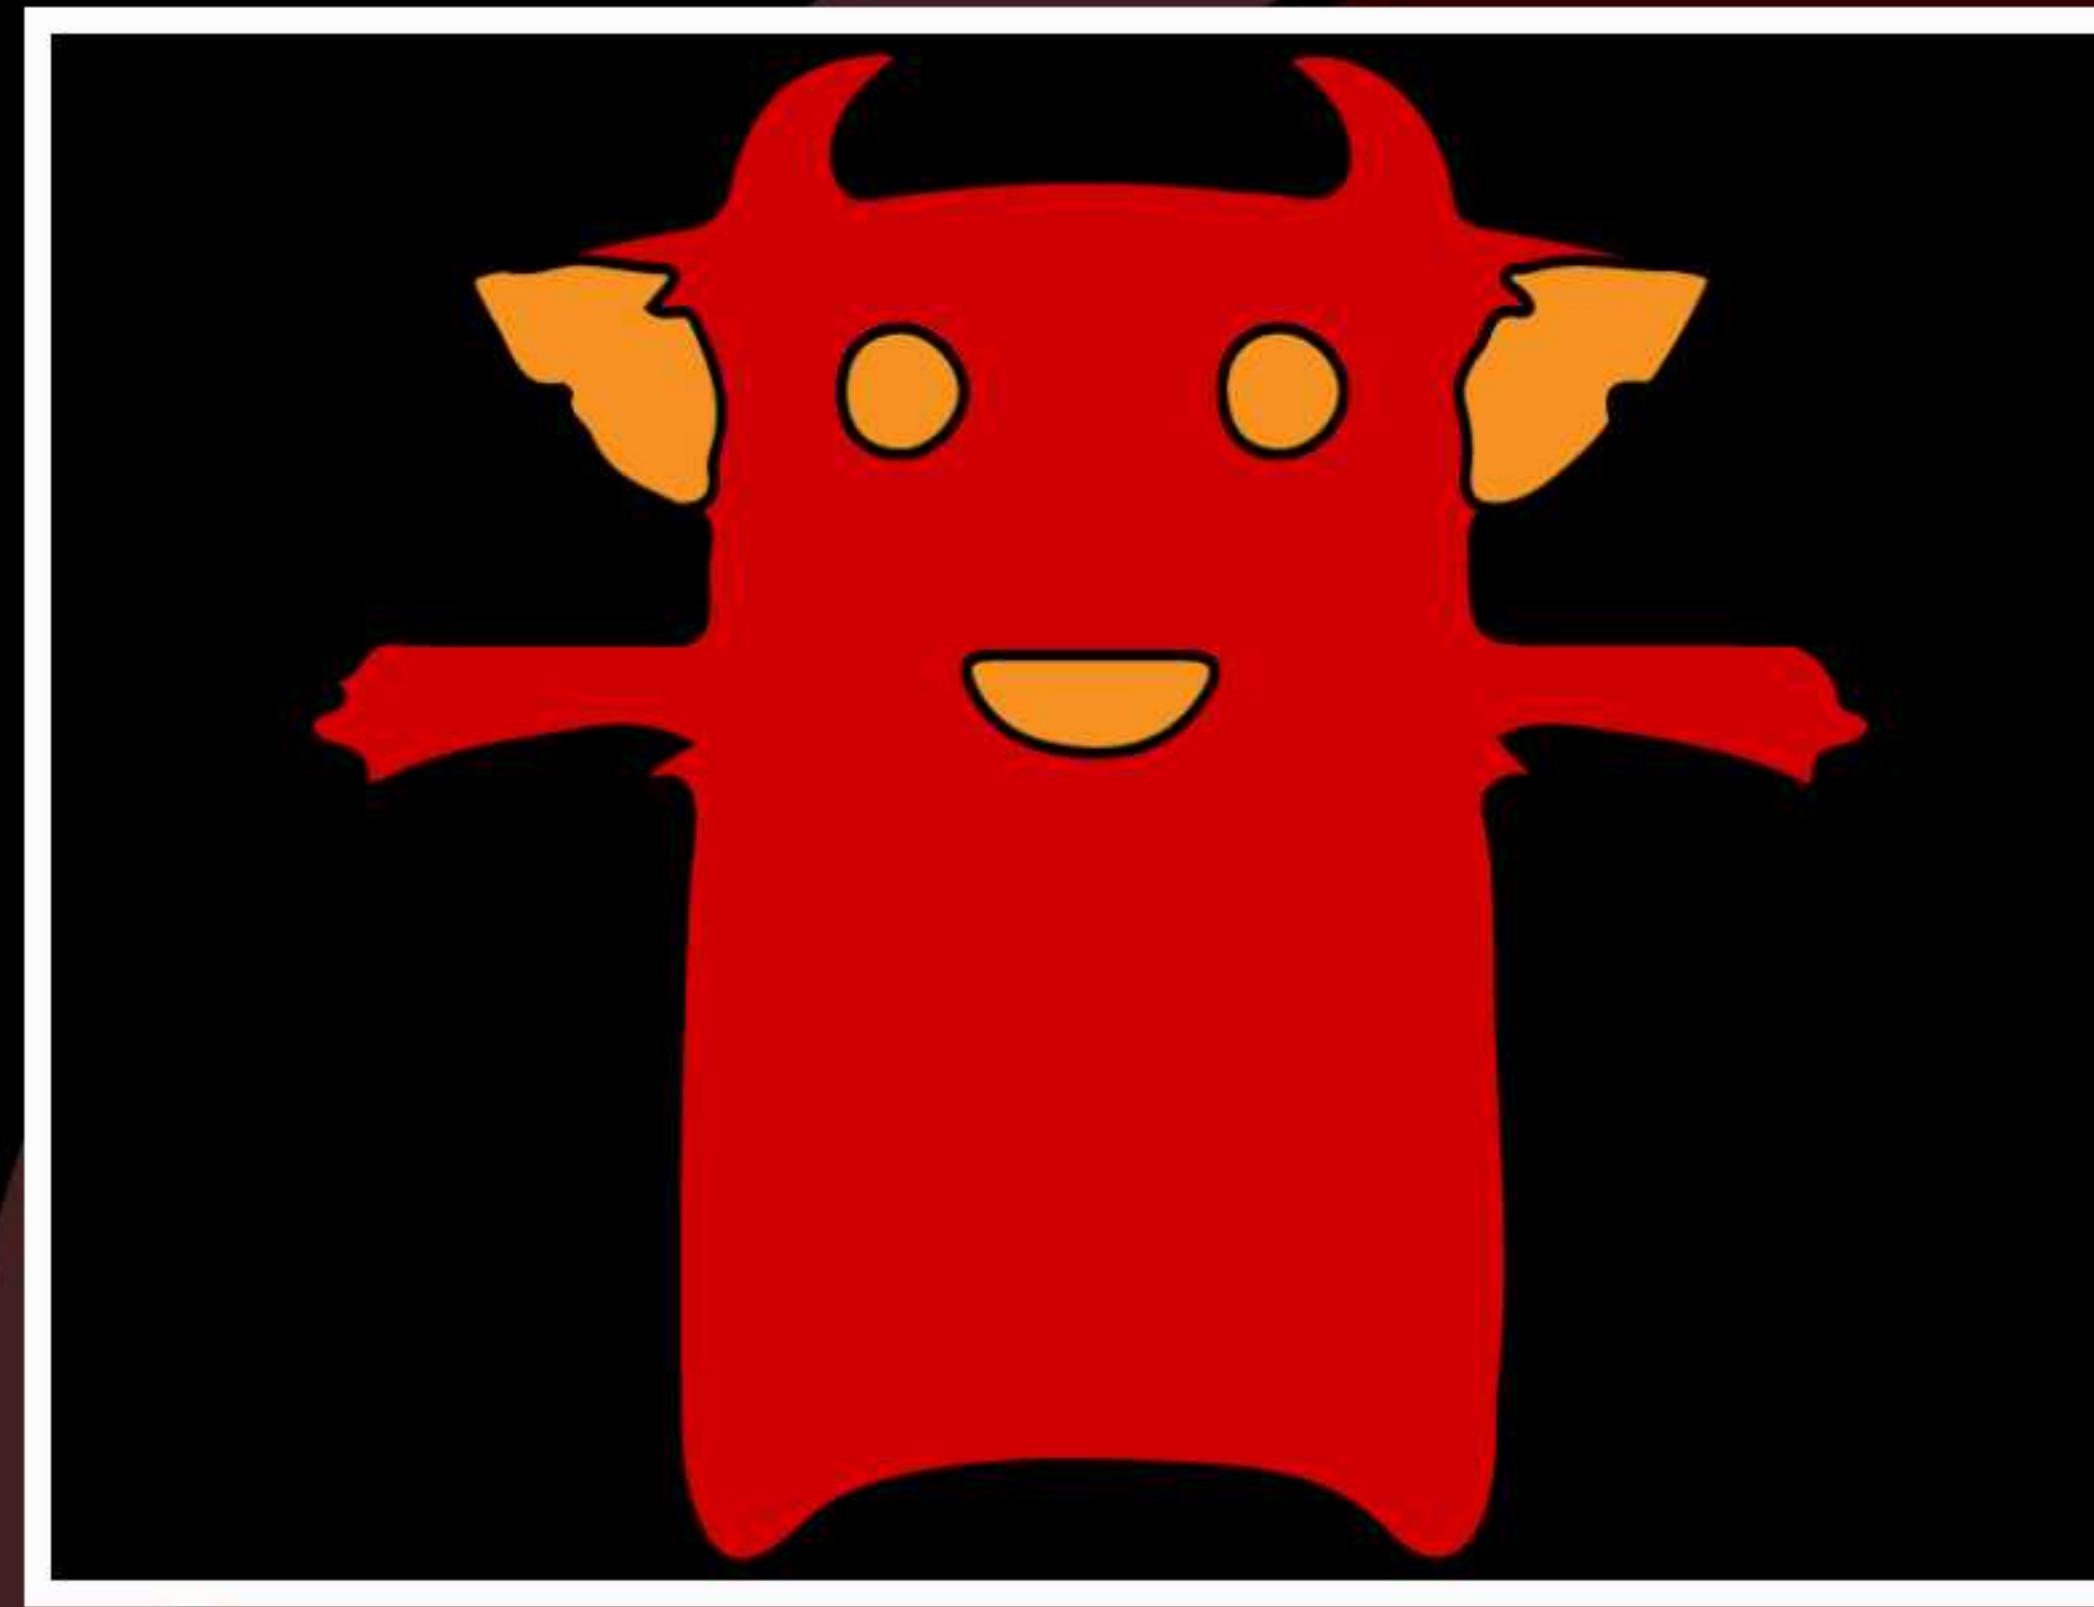

Now we will ask one alien if they have space treasure to share.

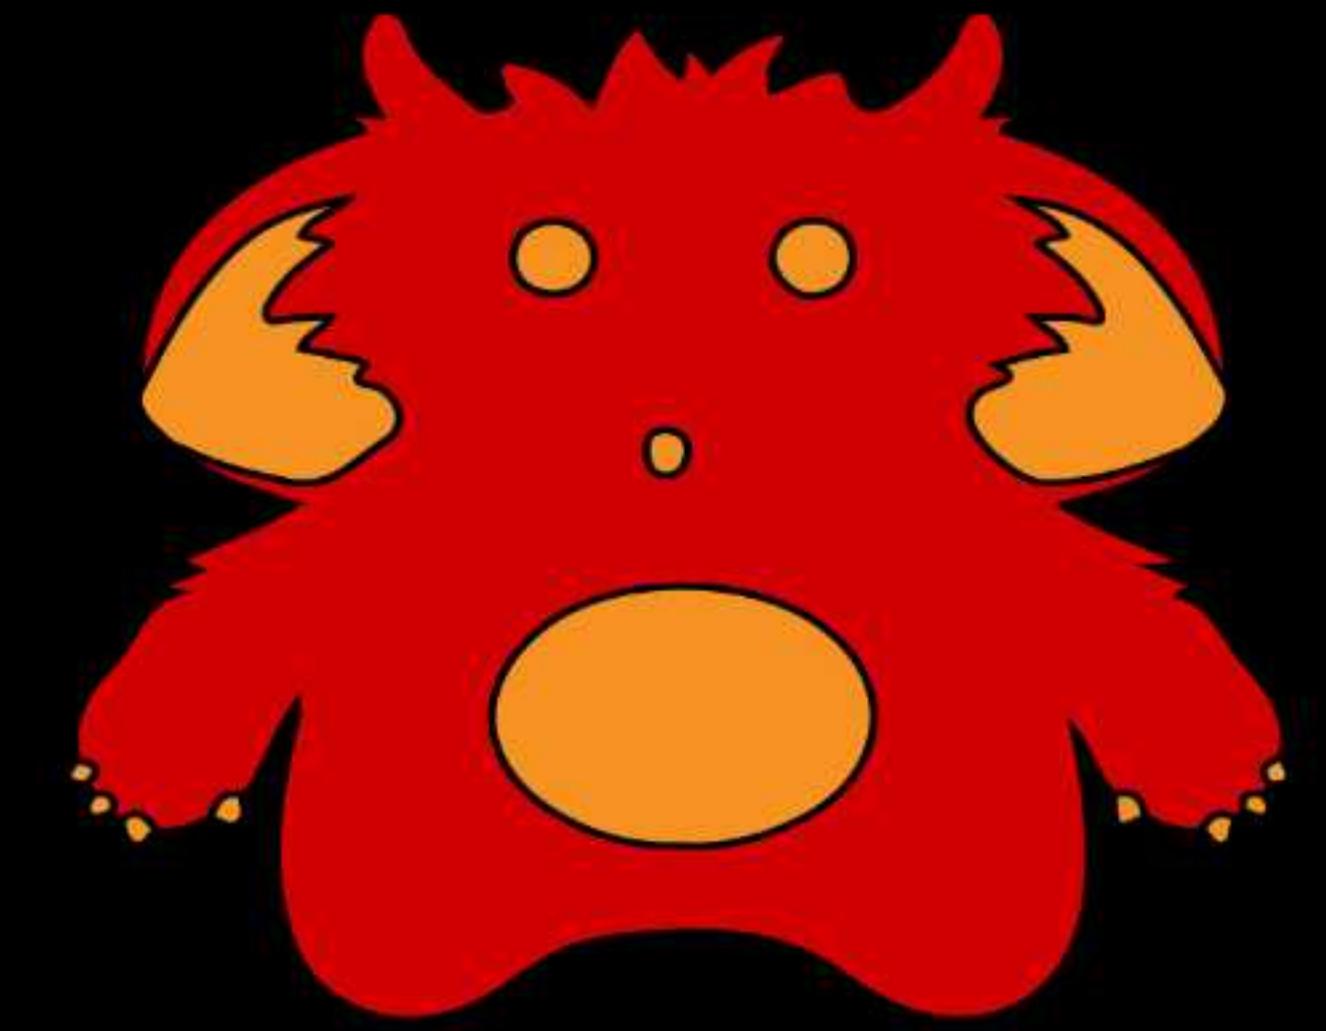

We can only ask one alien to share their space treasure each day.

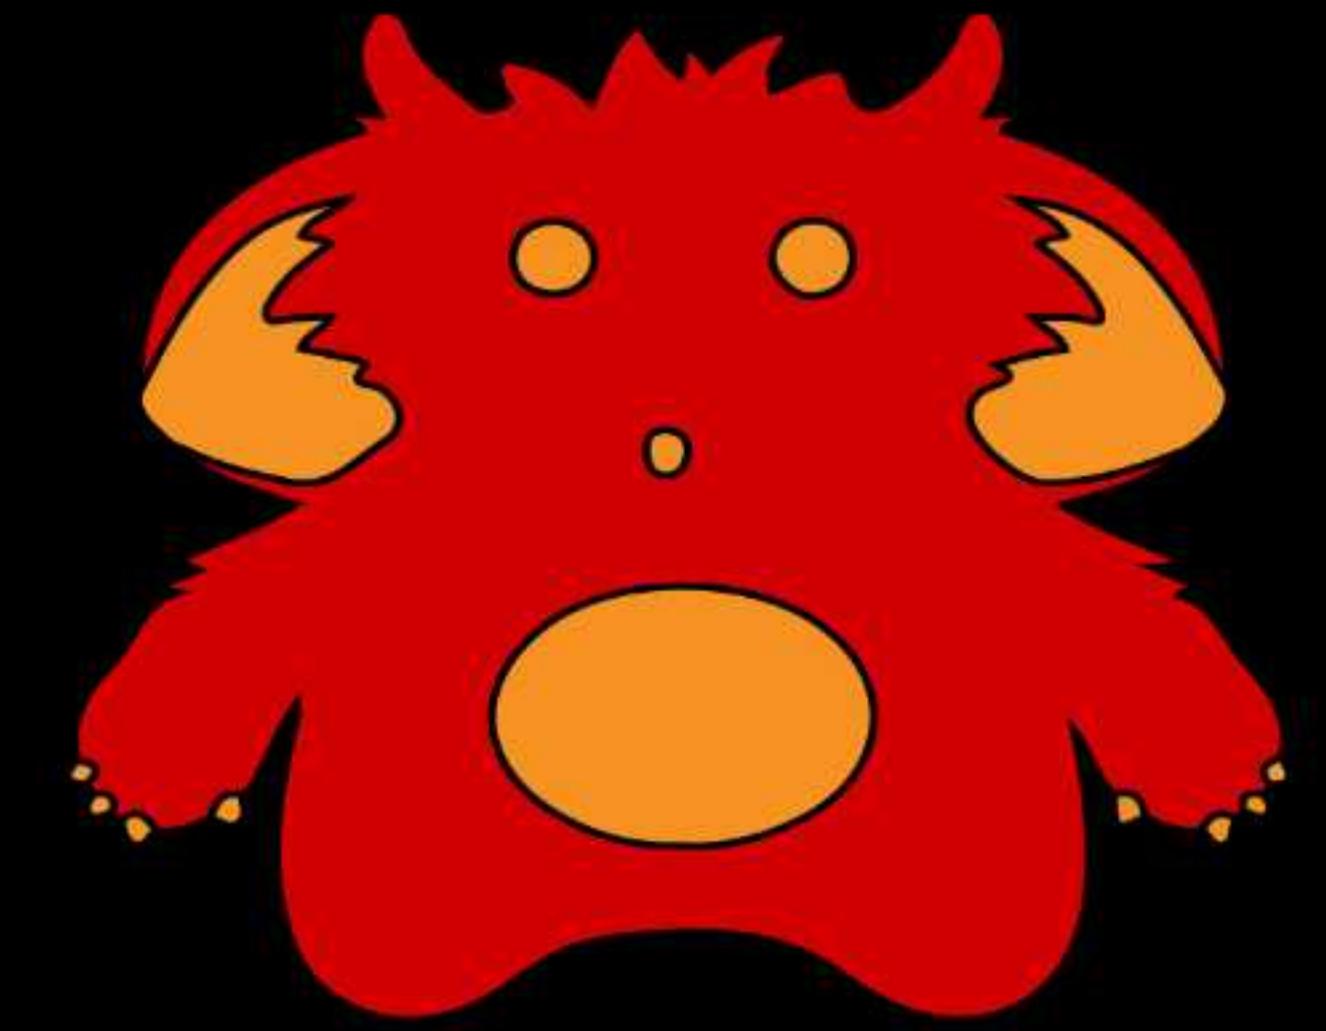

Let's ask the alien on the right if they have space treasure to share!

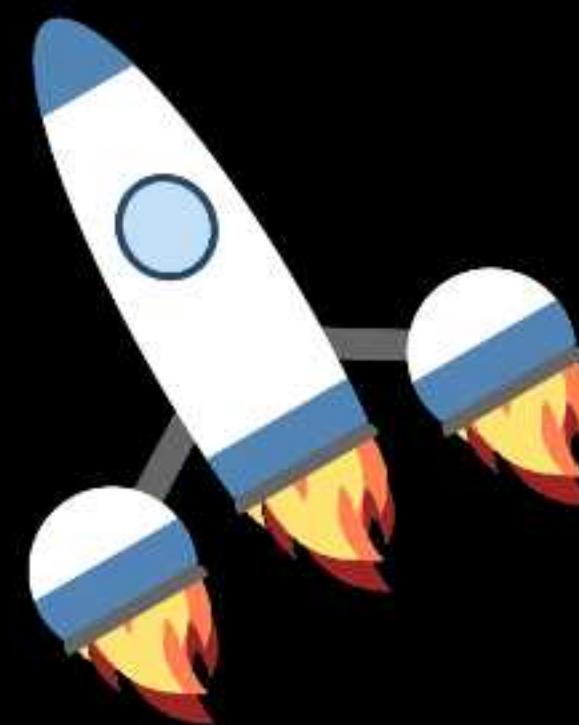

Lose

Oh no! This alien didn't have any space treasure to share today.

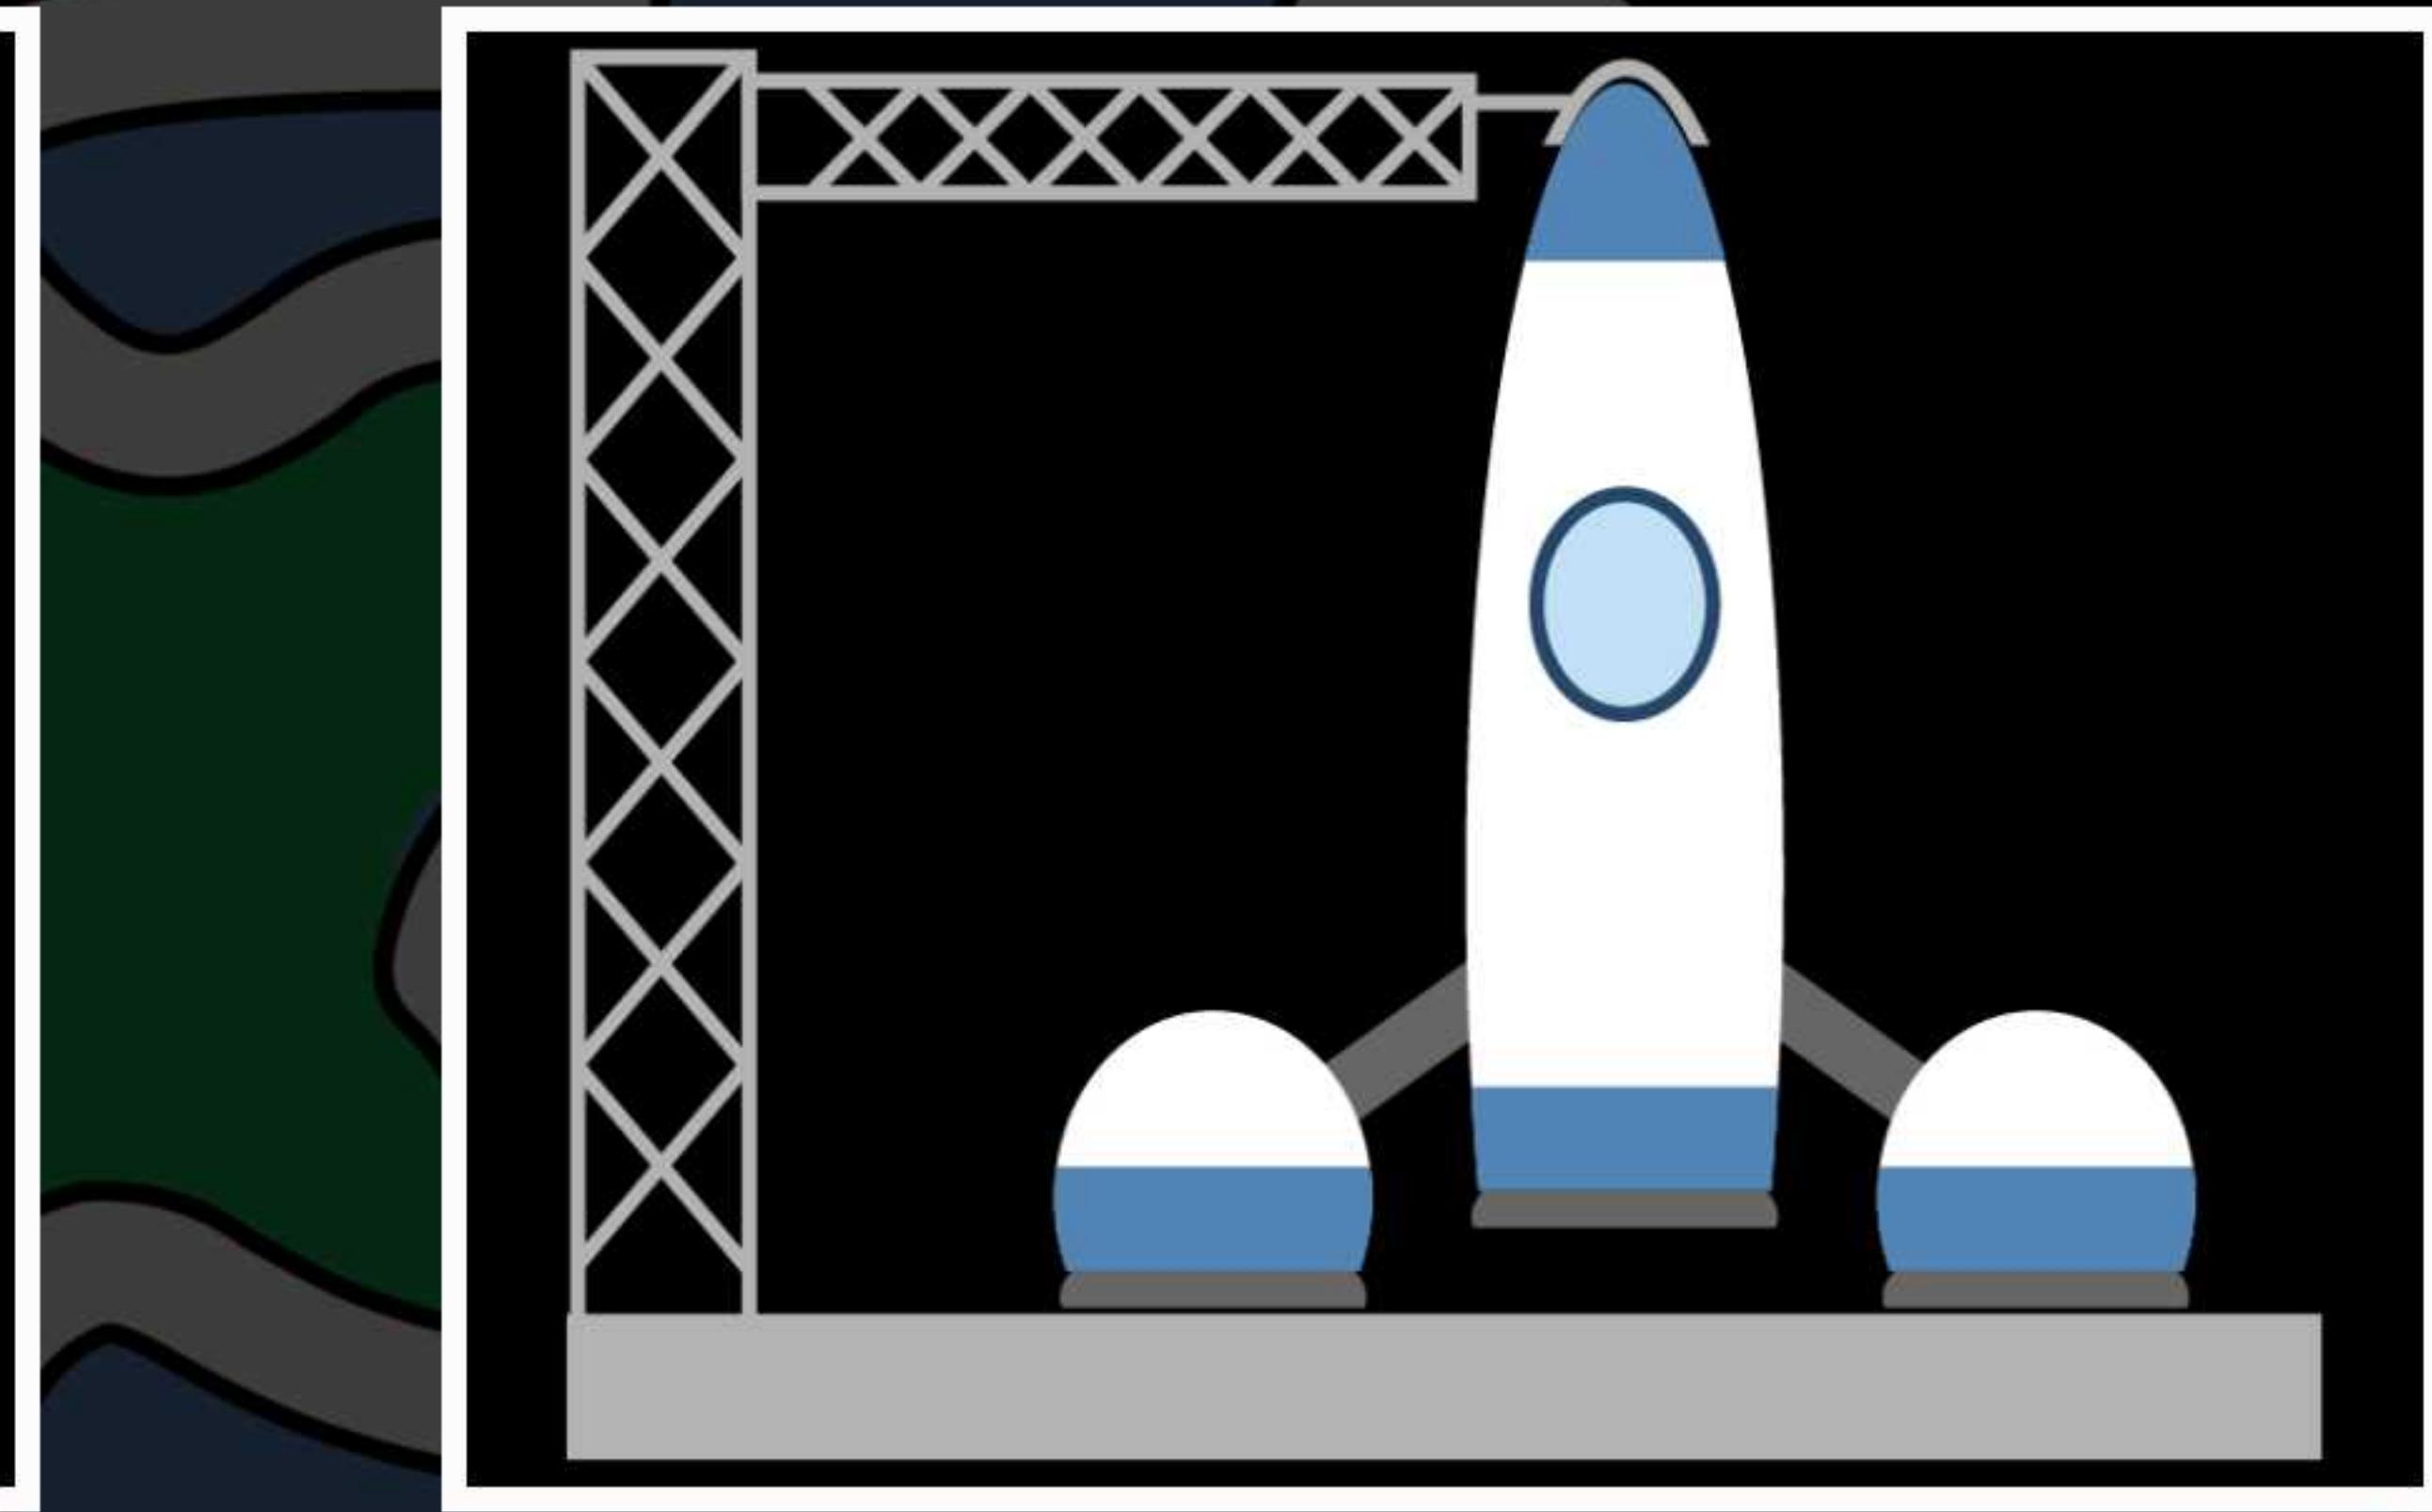

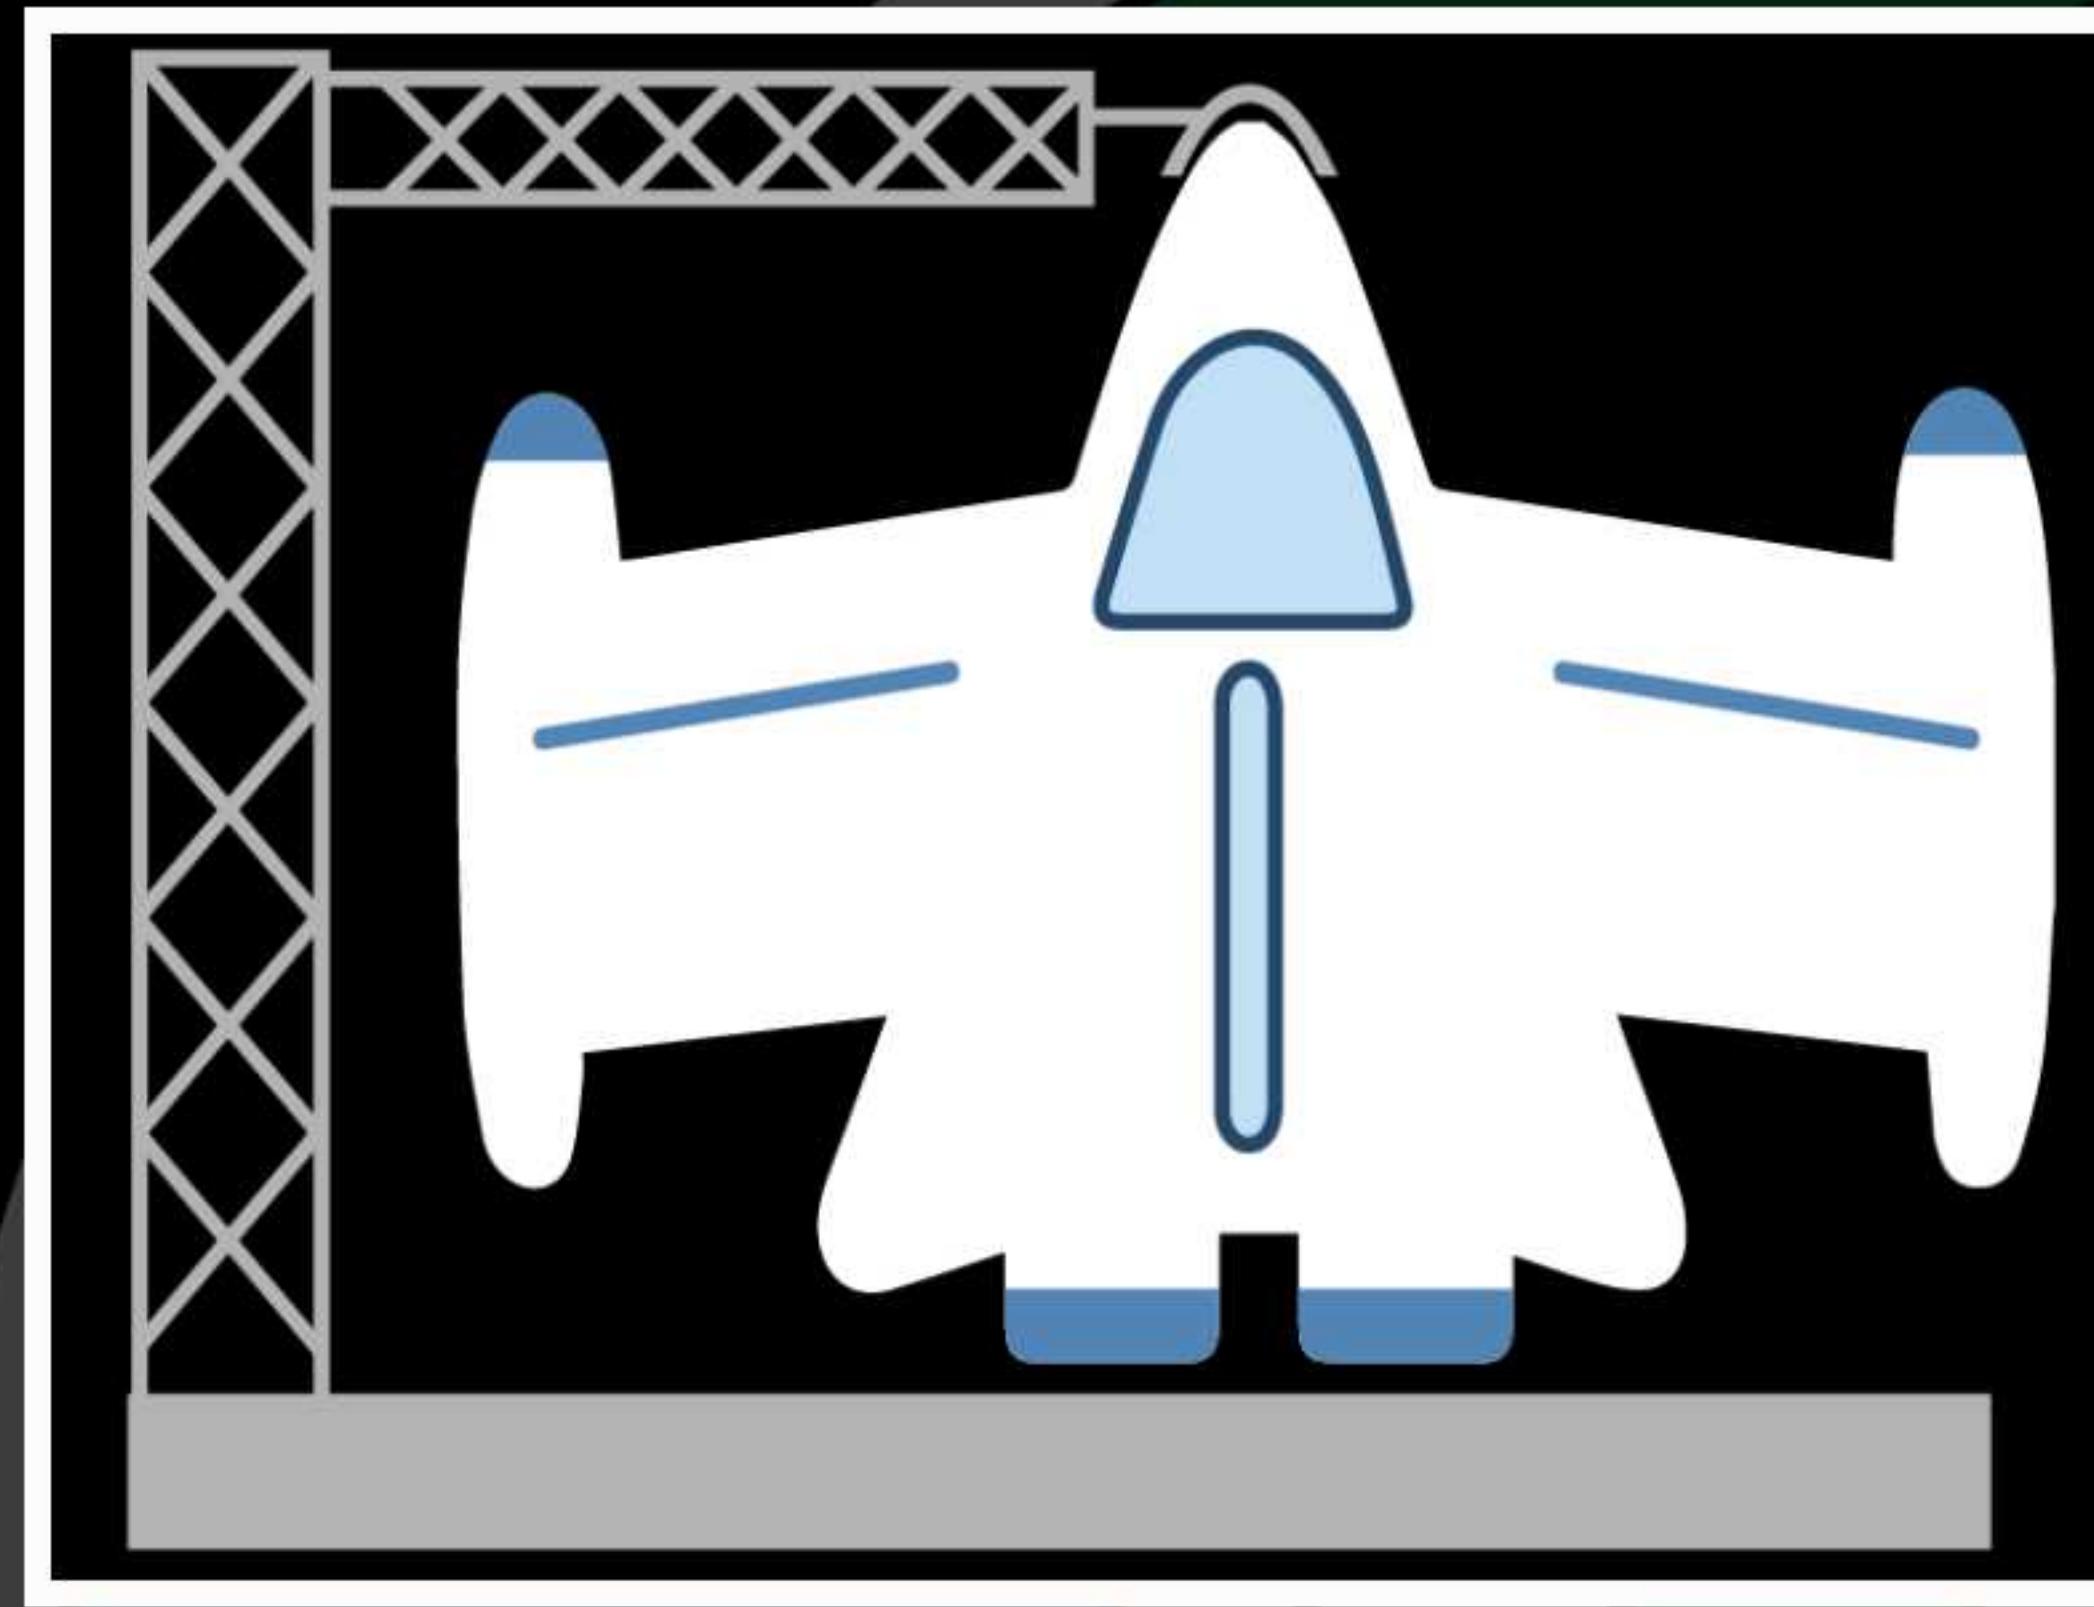

Lose

Let's keep exploring to see if we can find more space treasure.

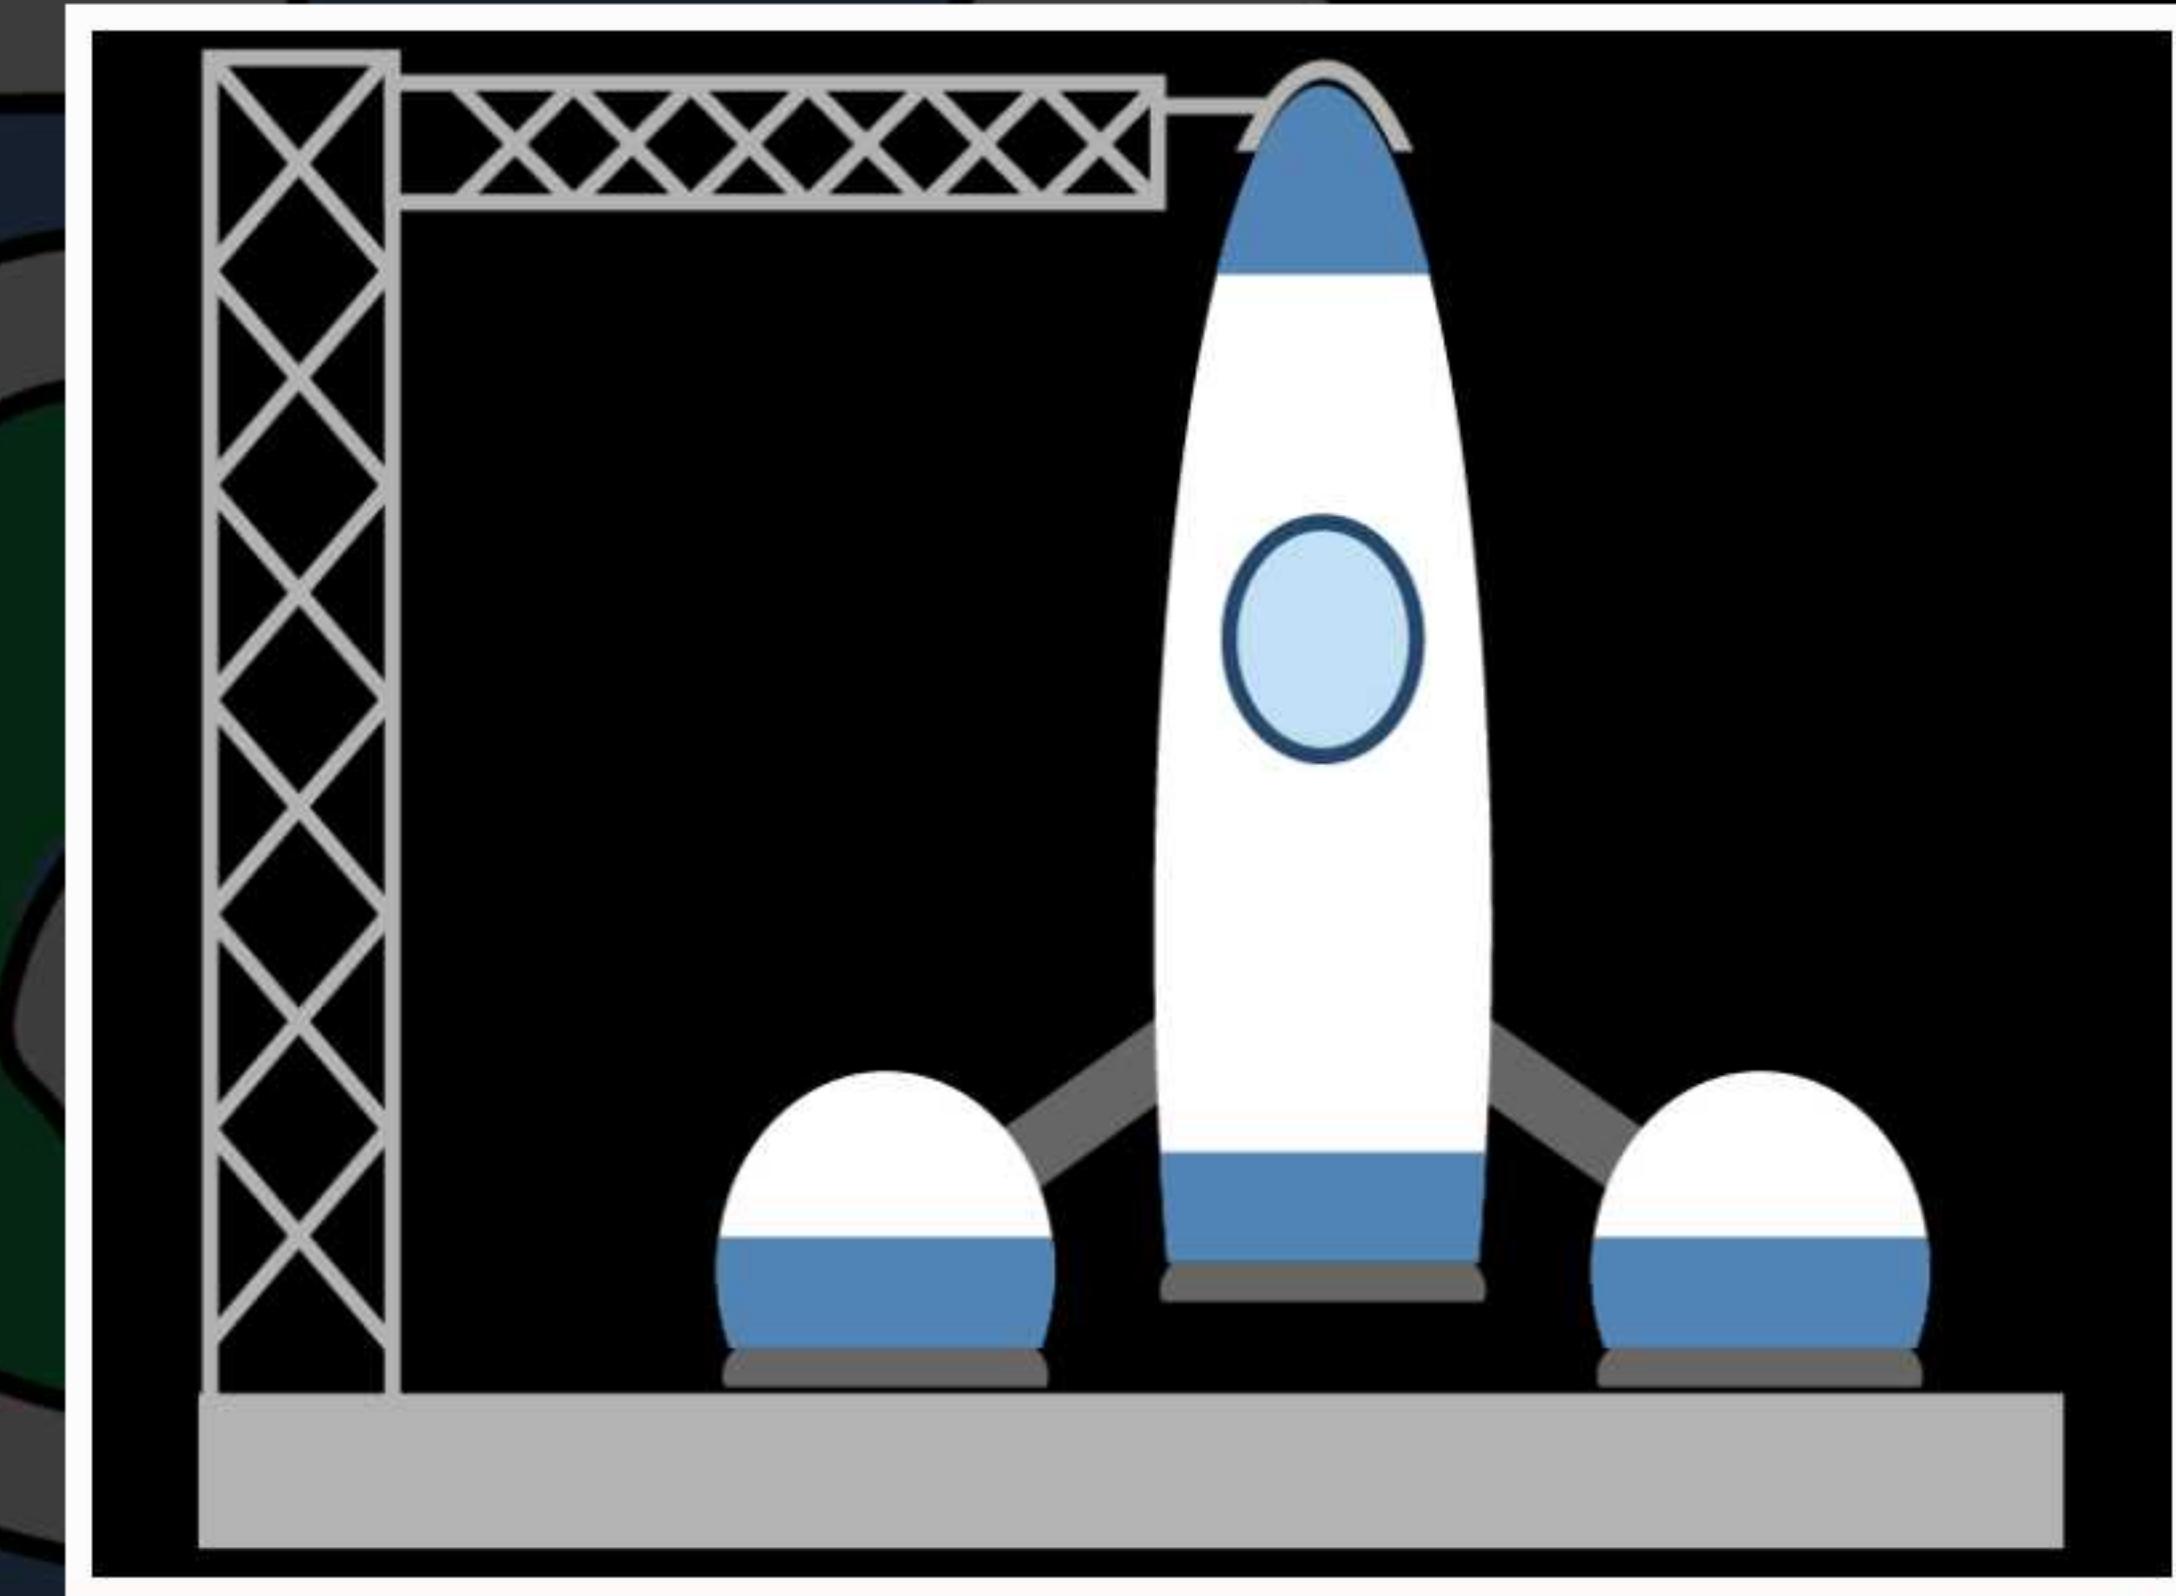

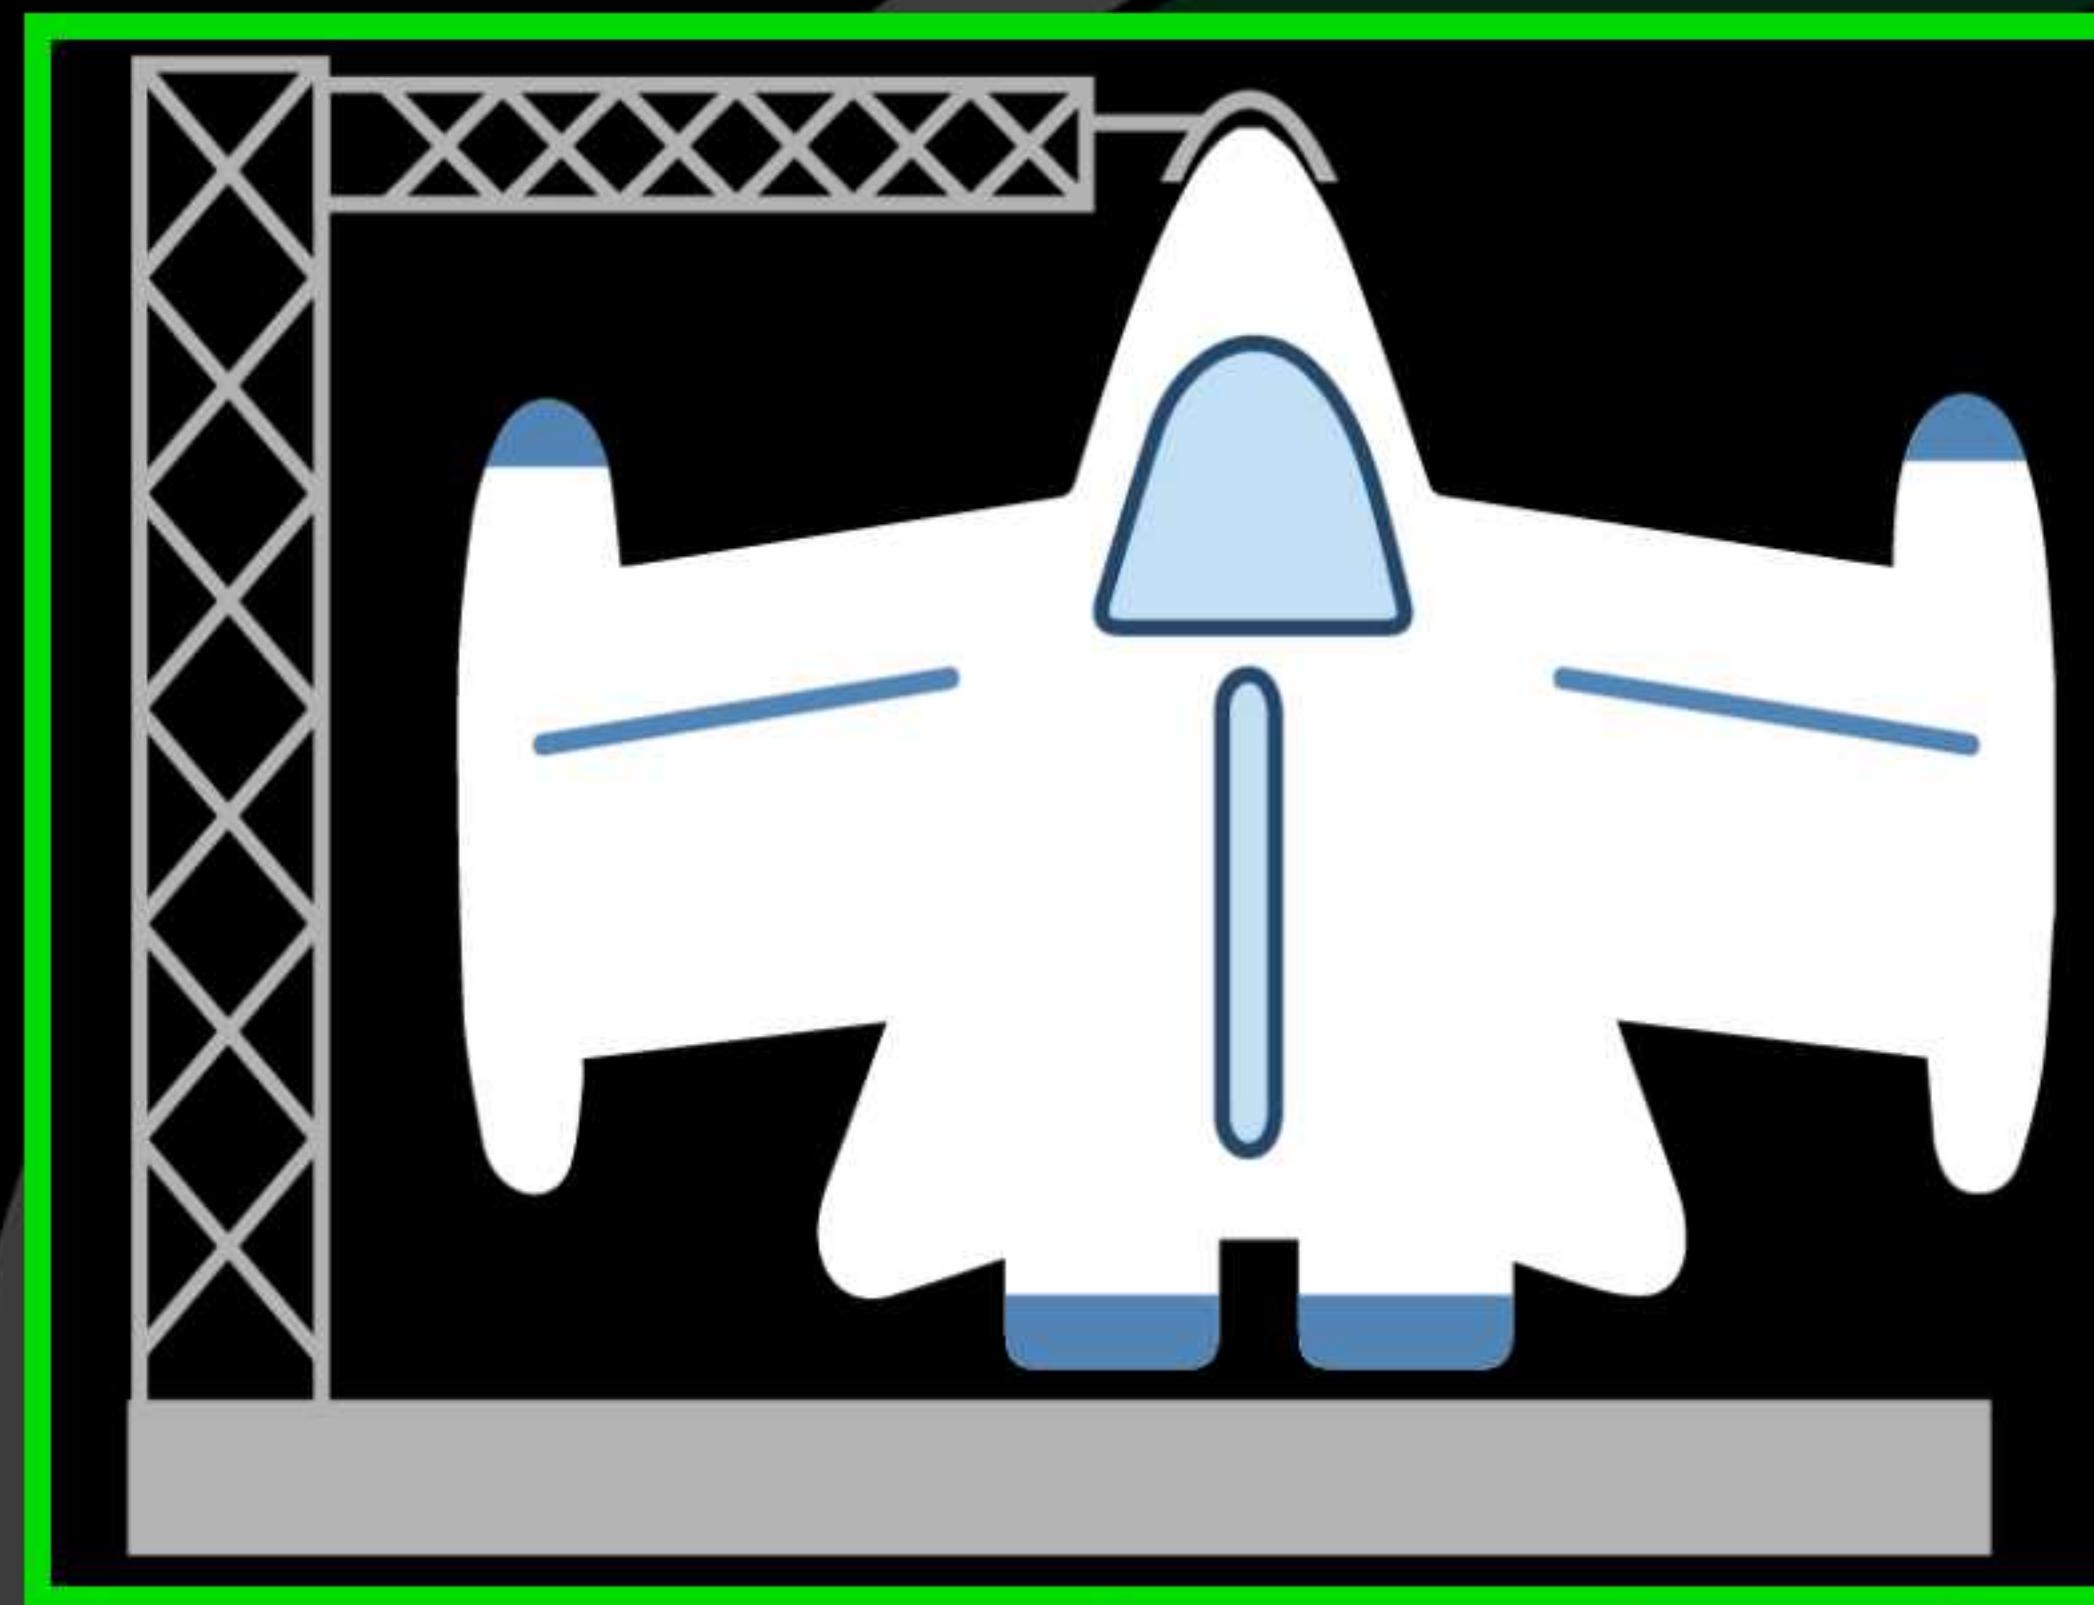

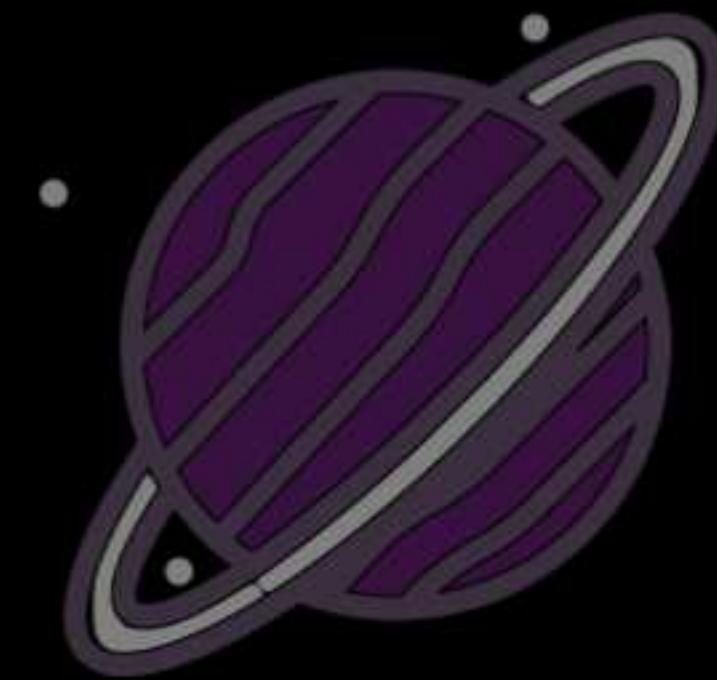

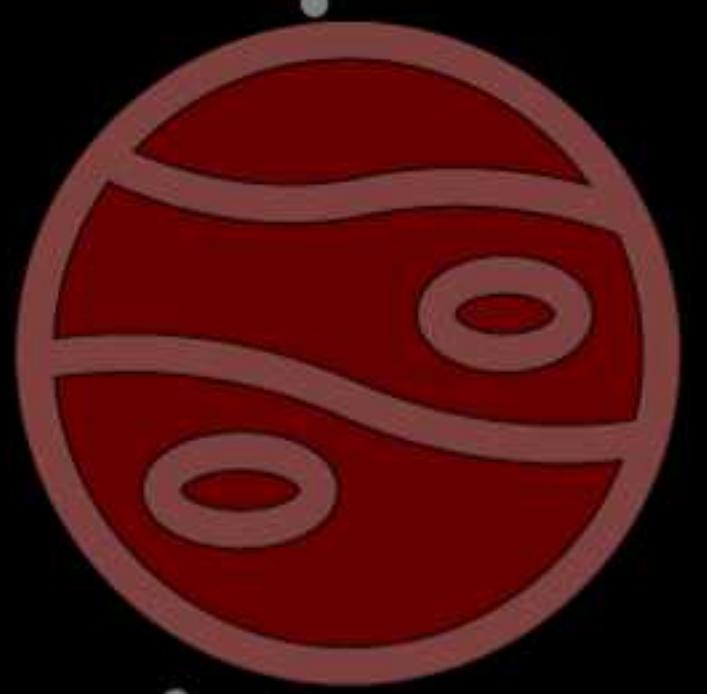

Returning Home...

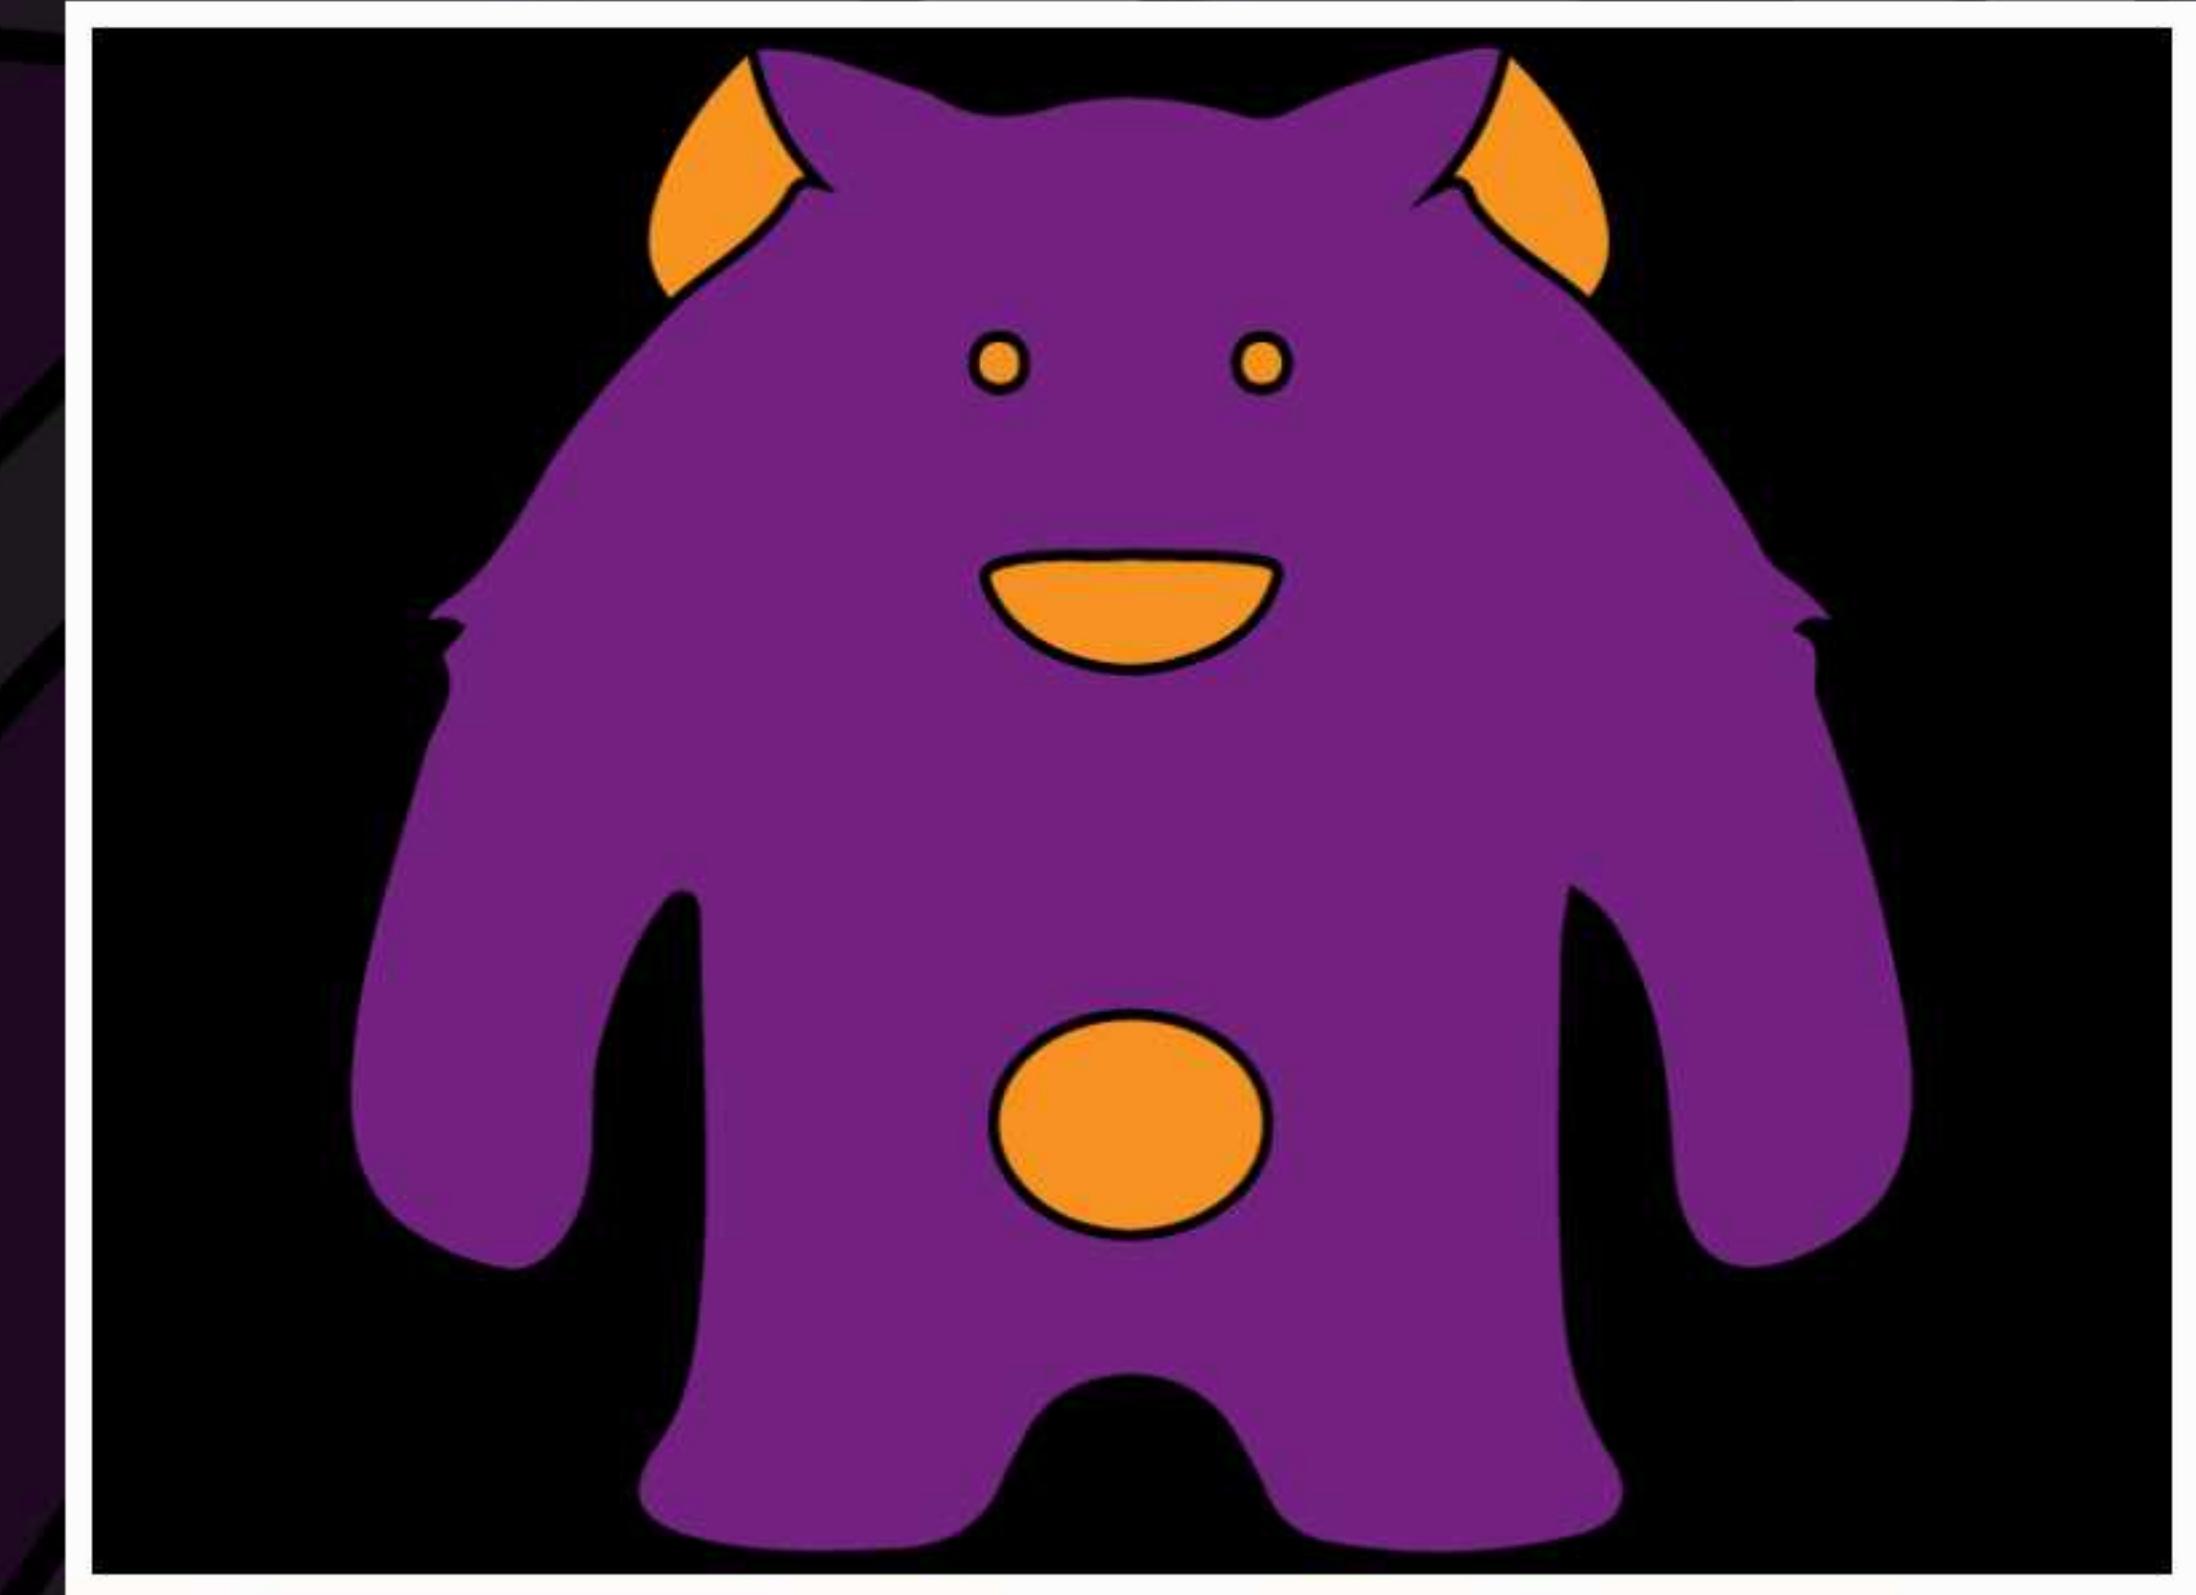

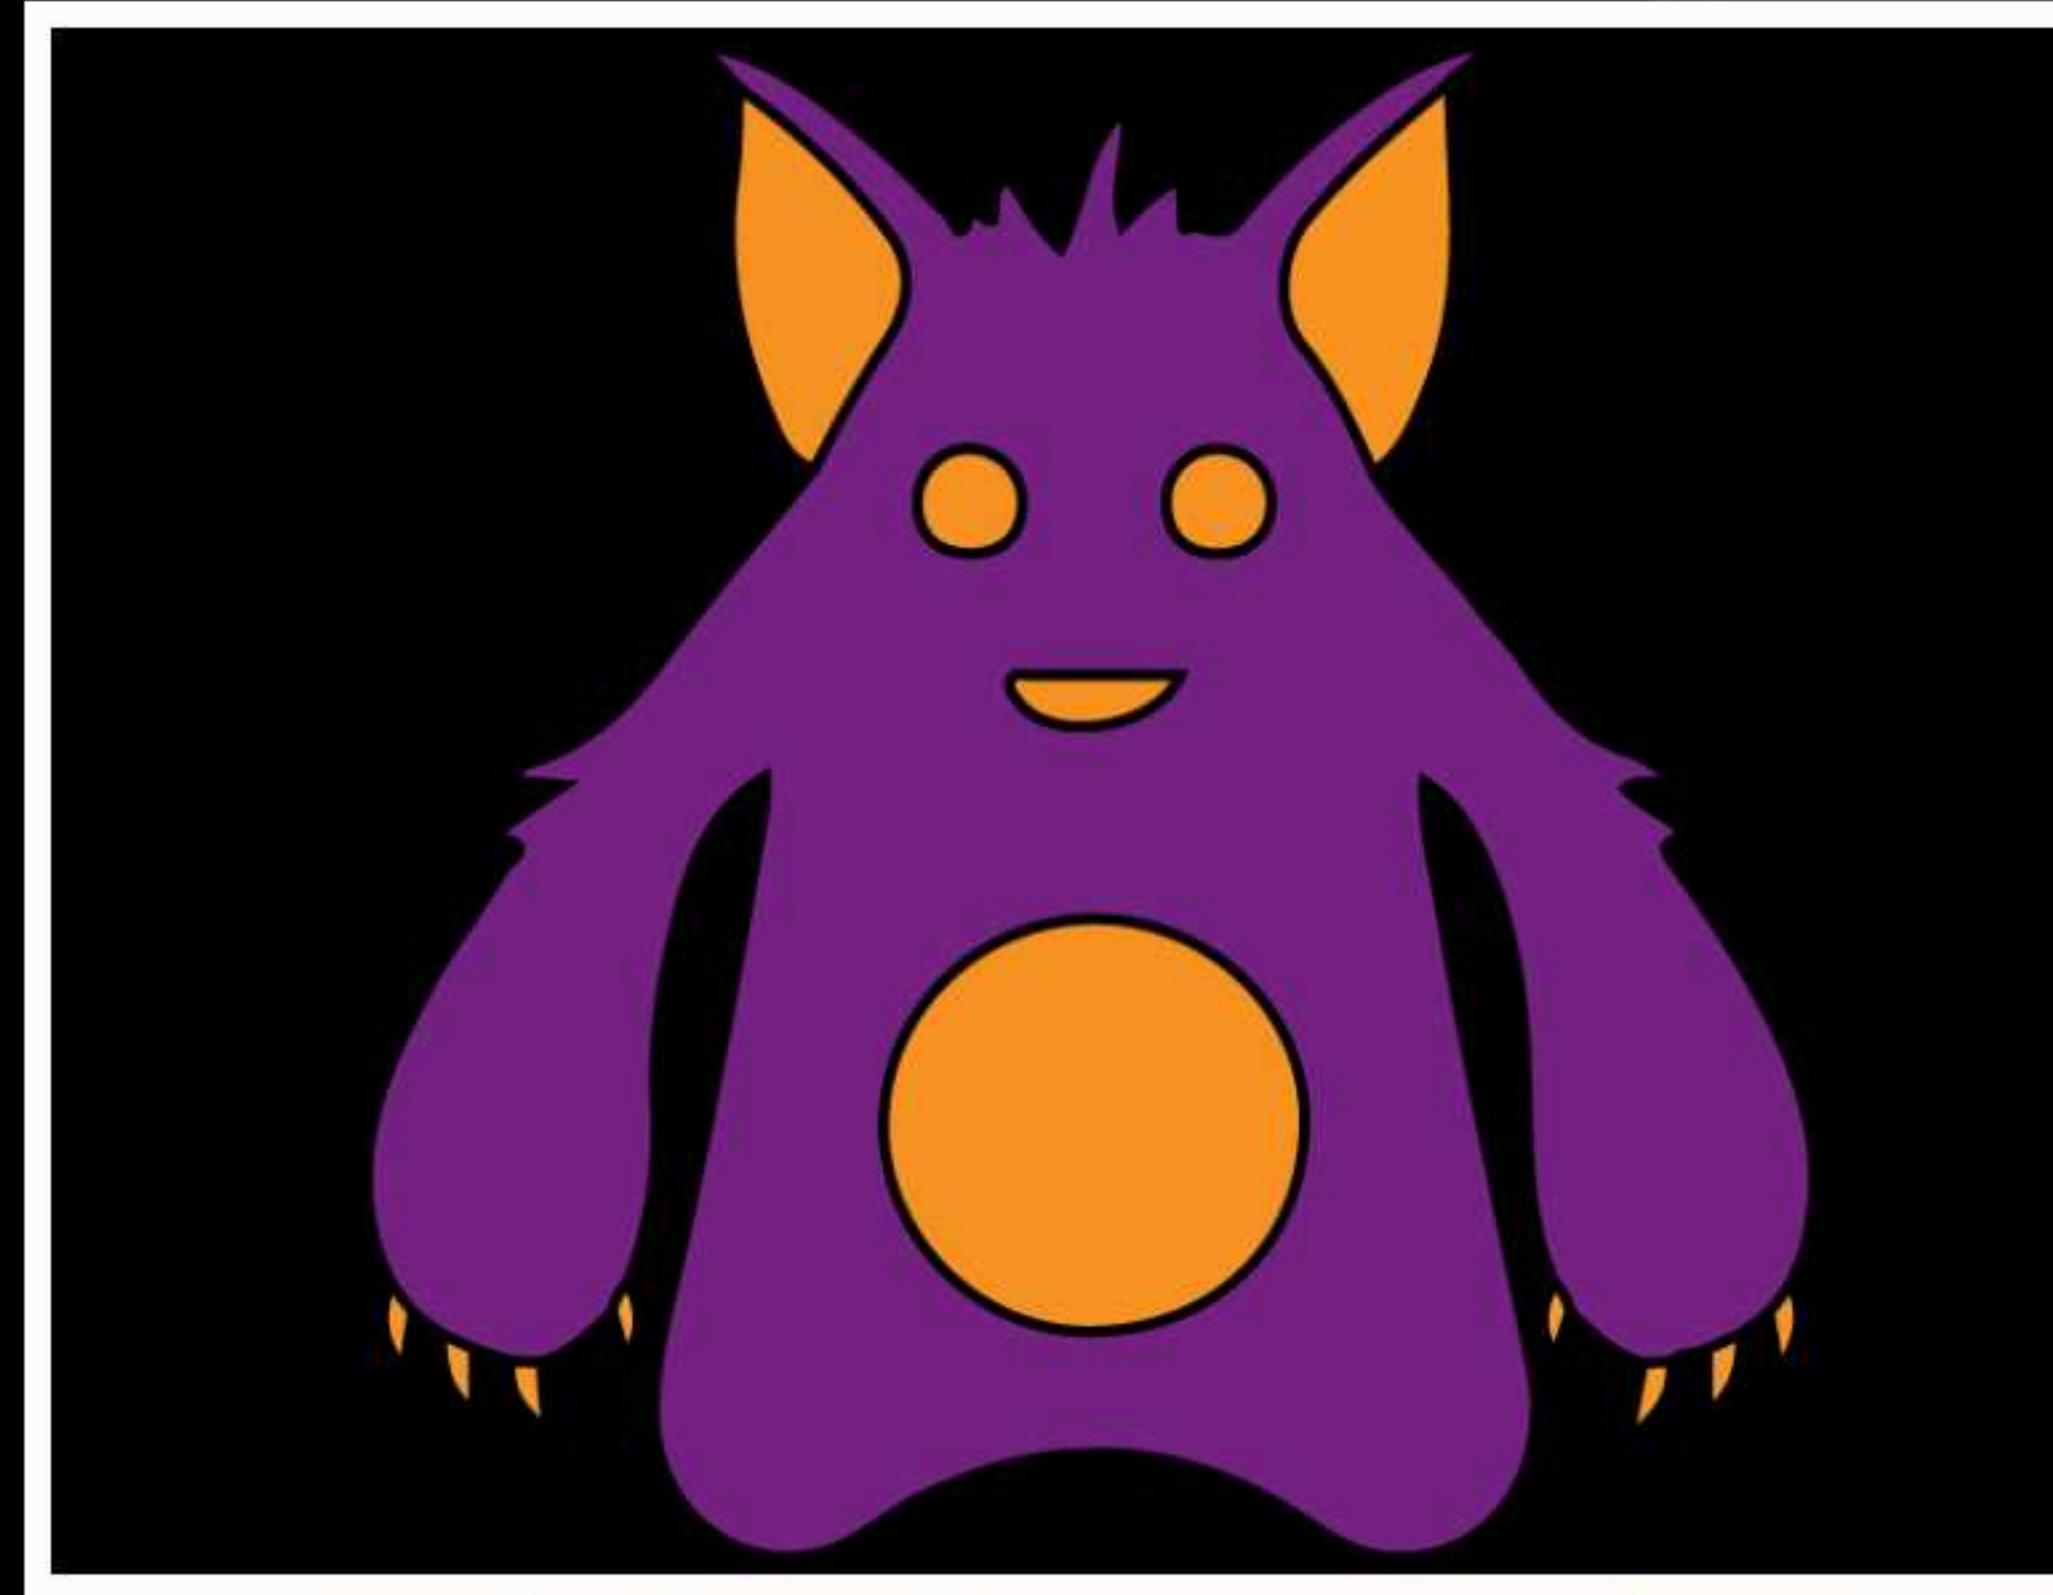

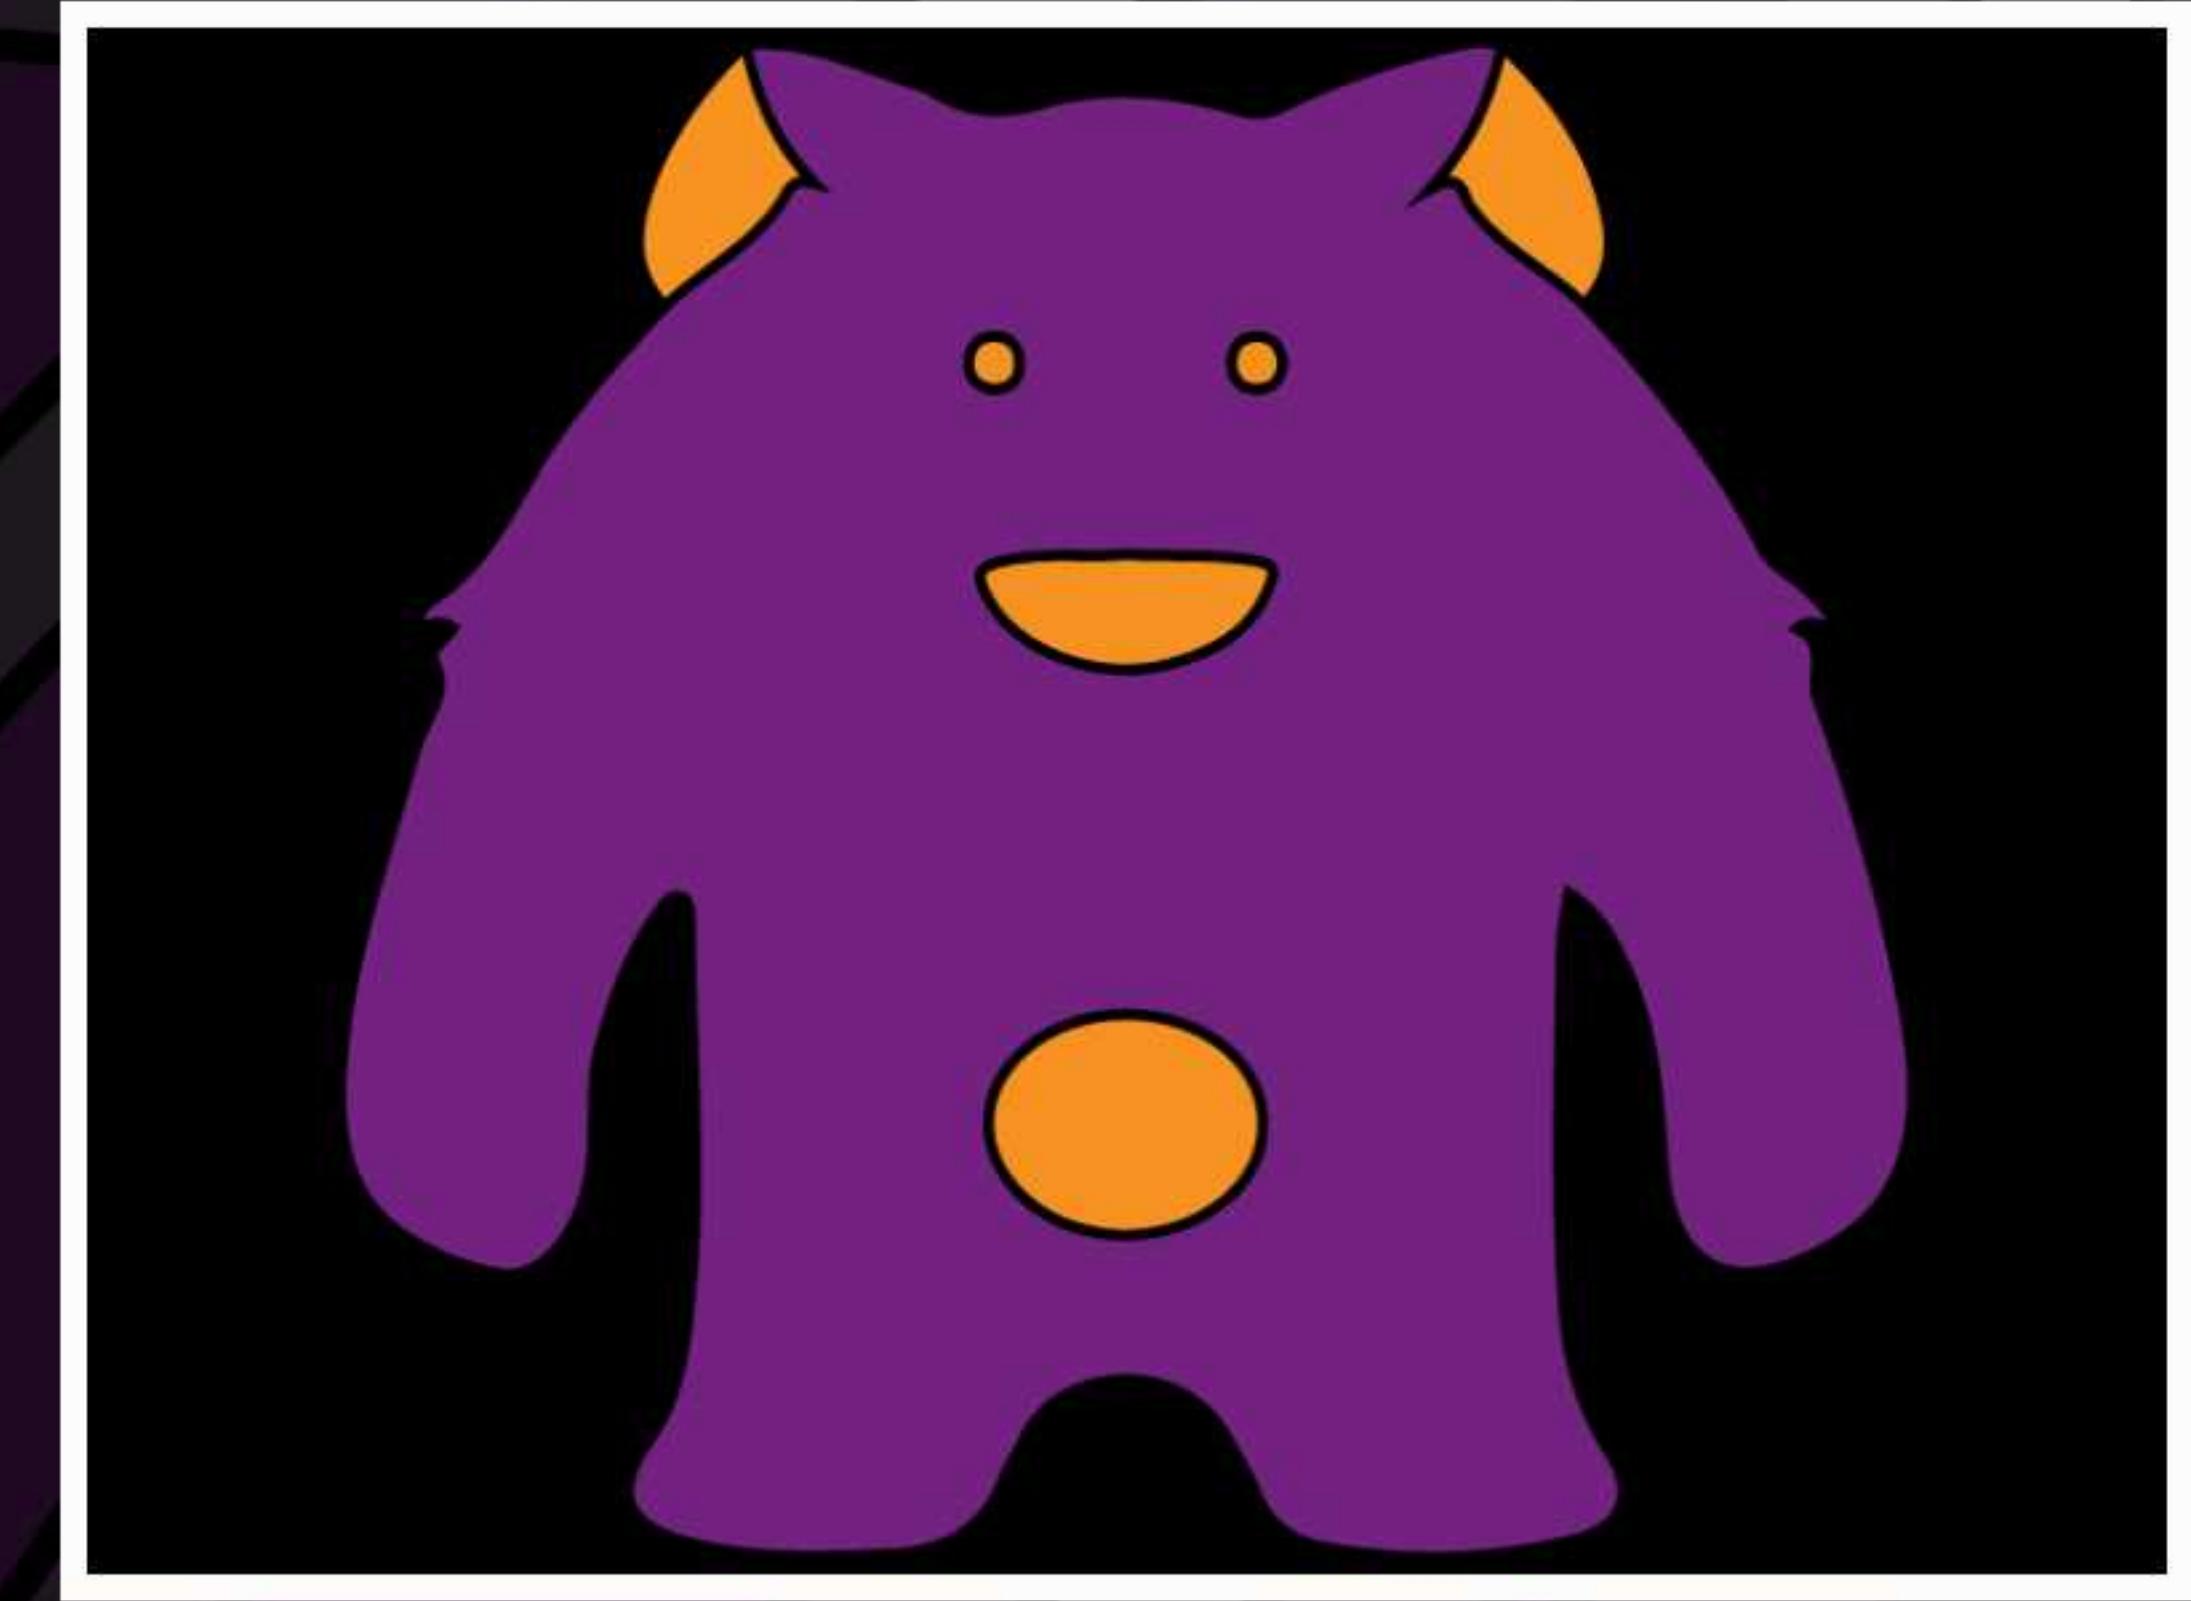

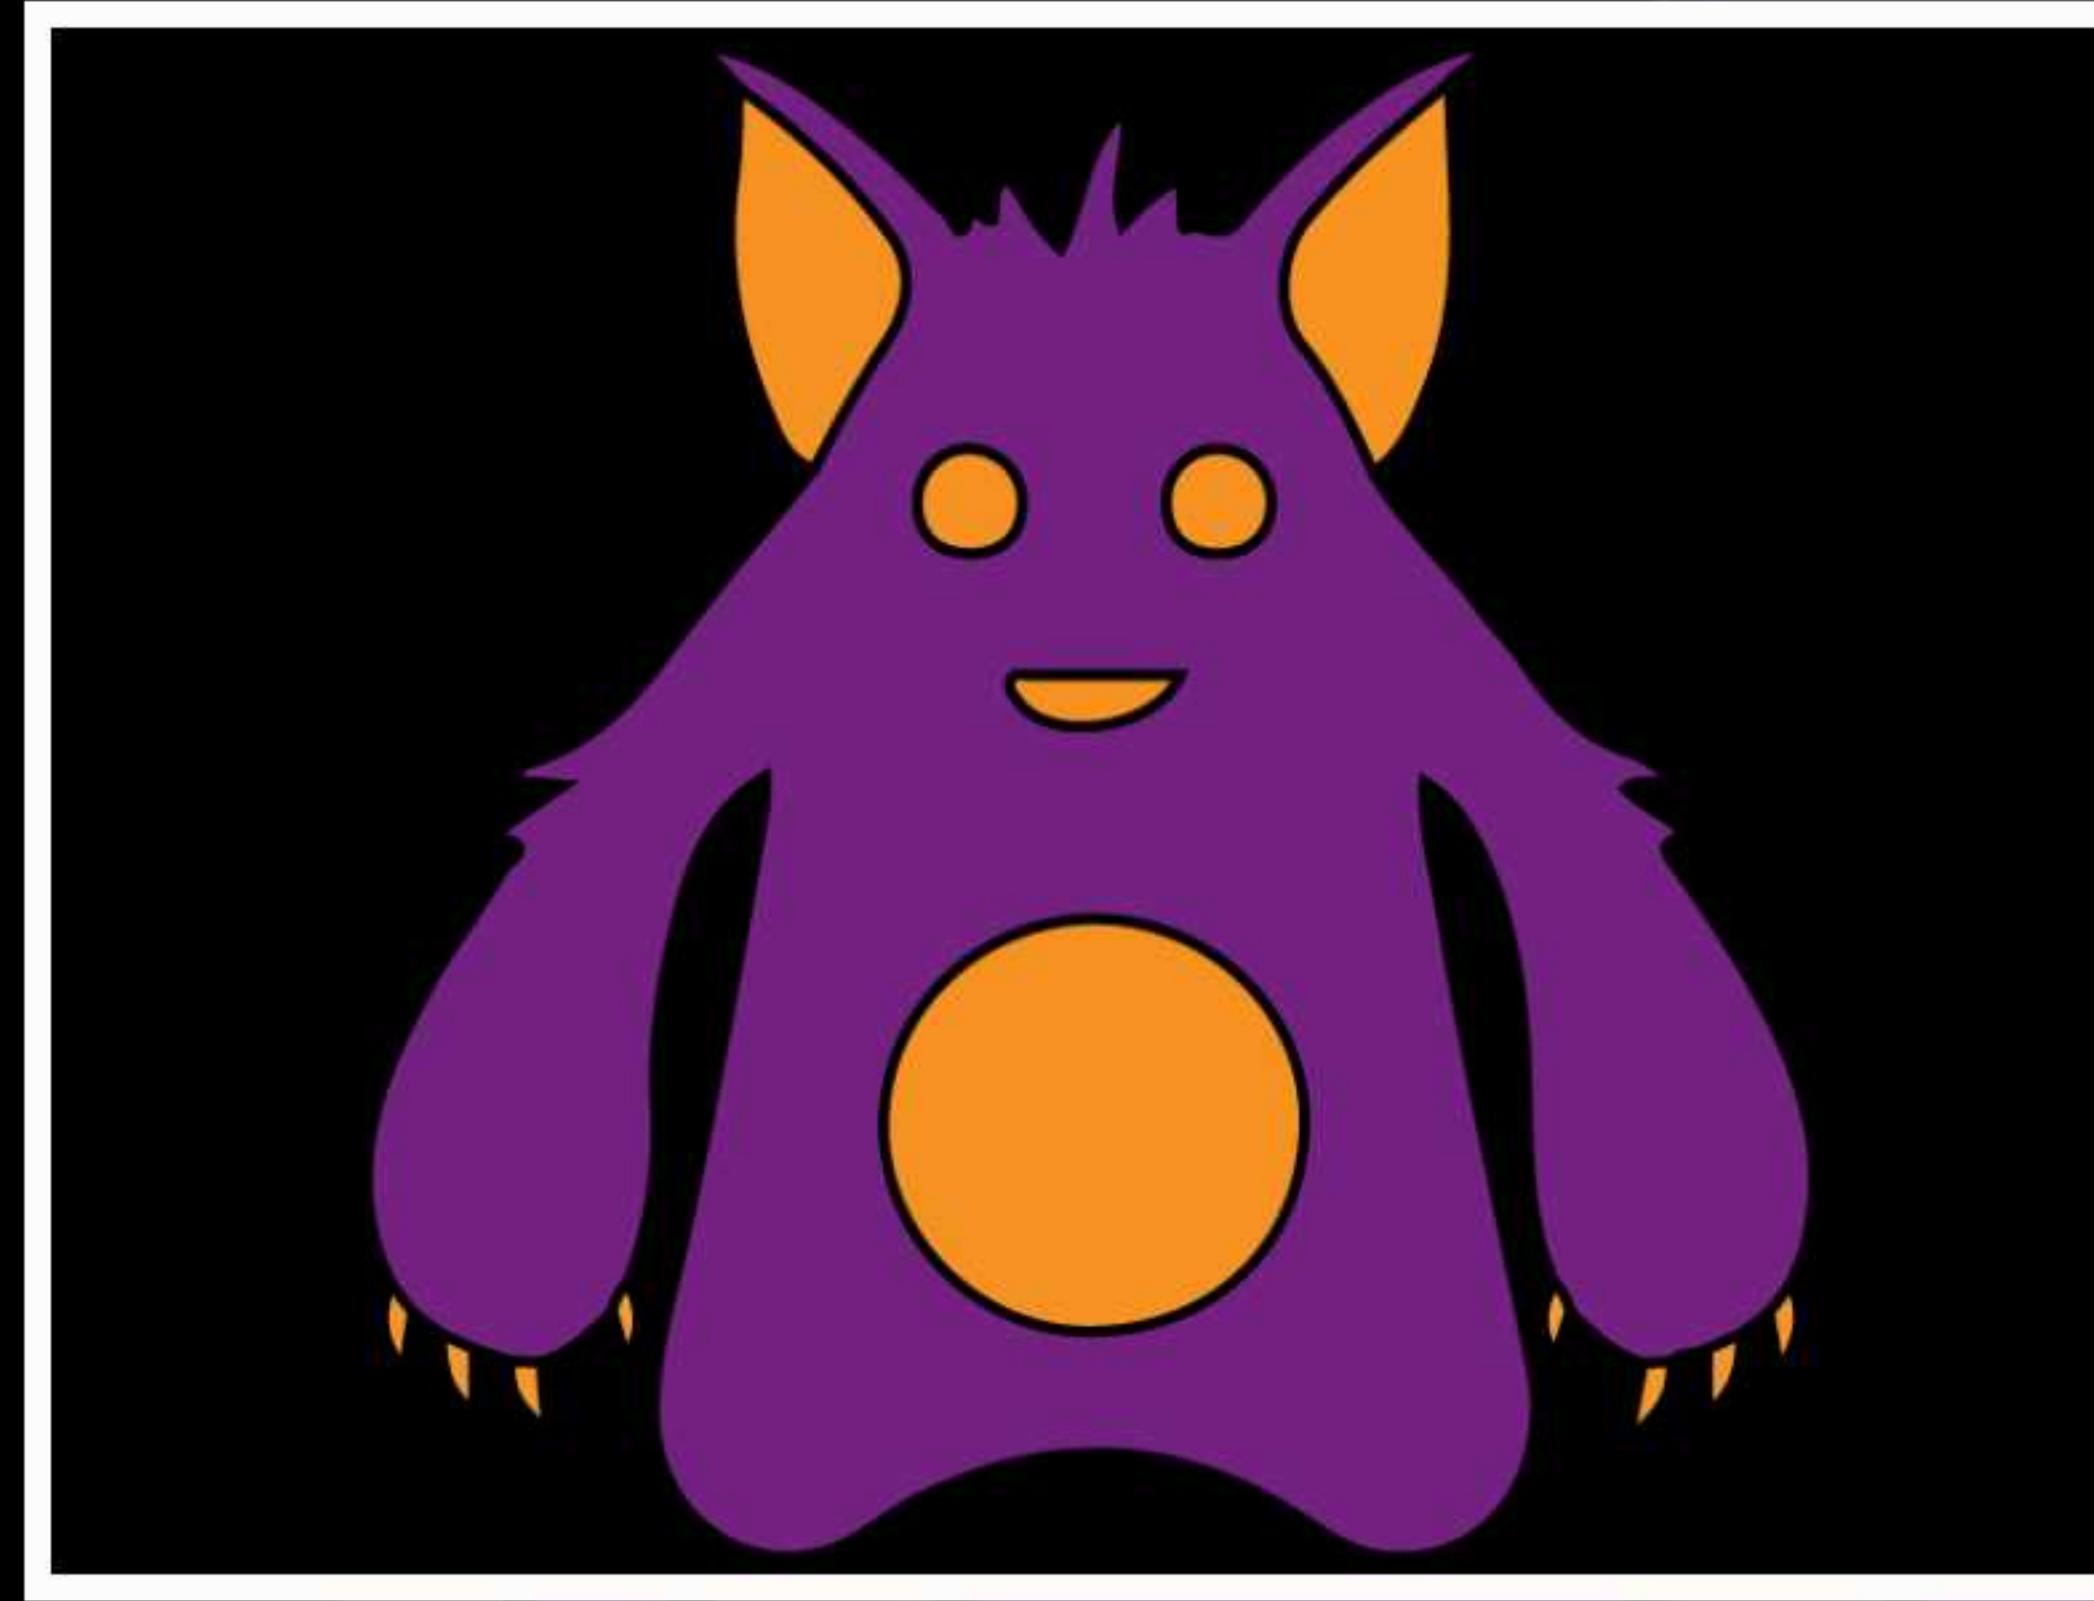

Now you choose which spaceship you want to explore the galaxy.

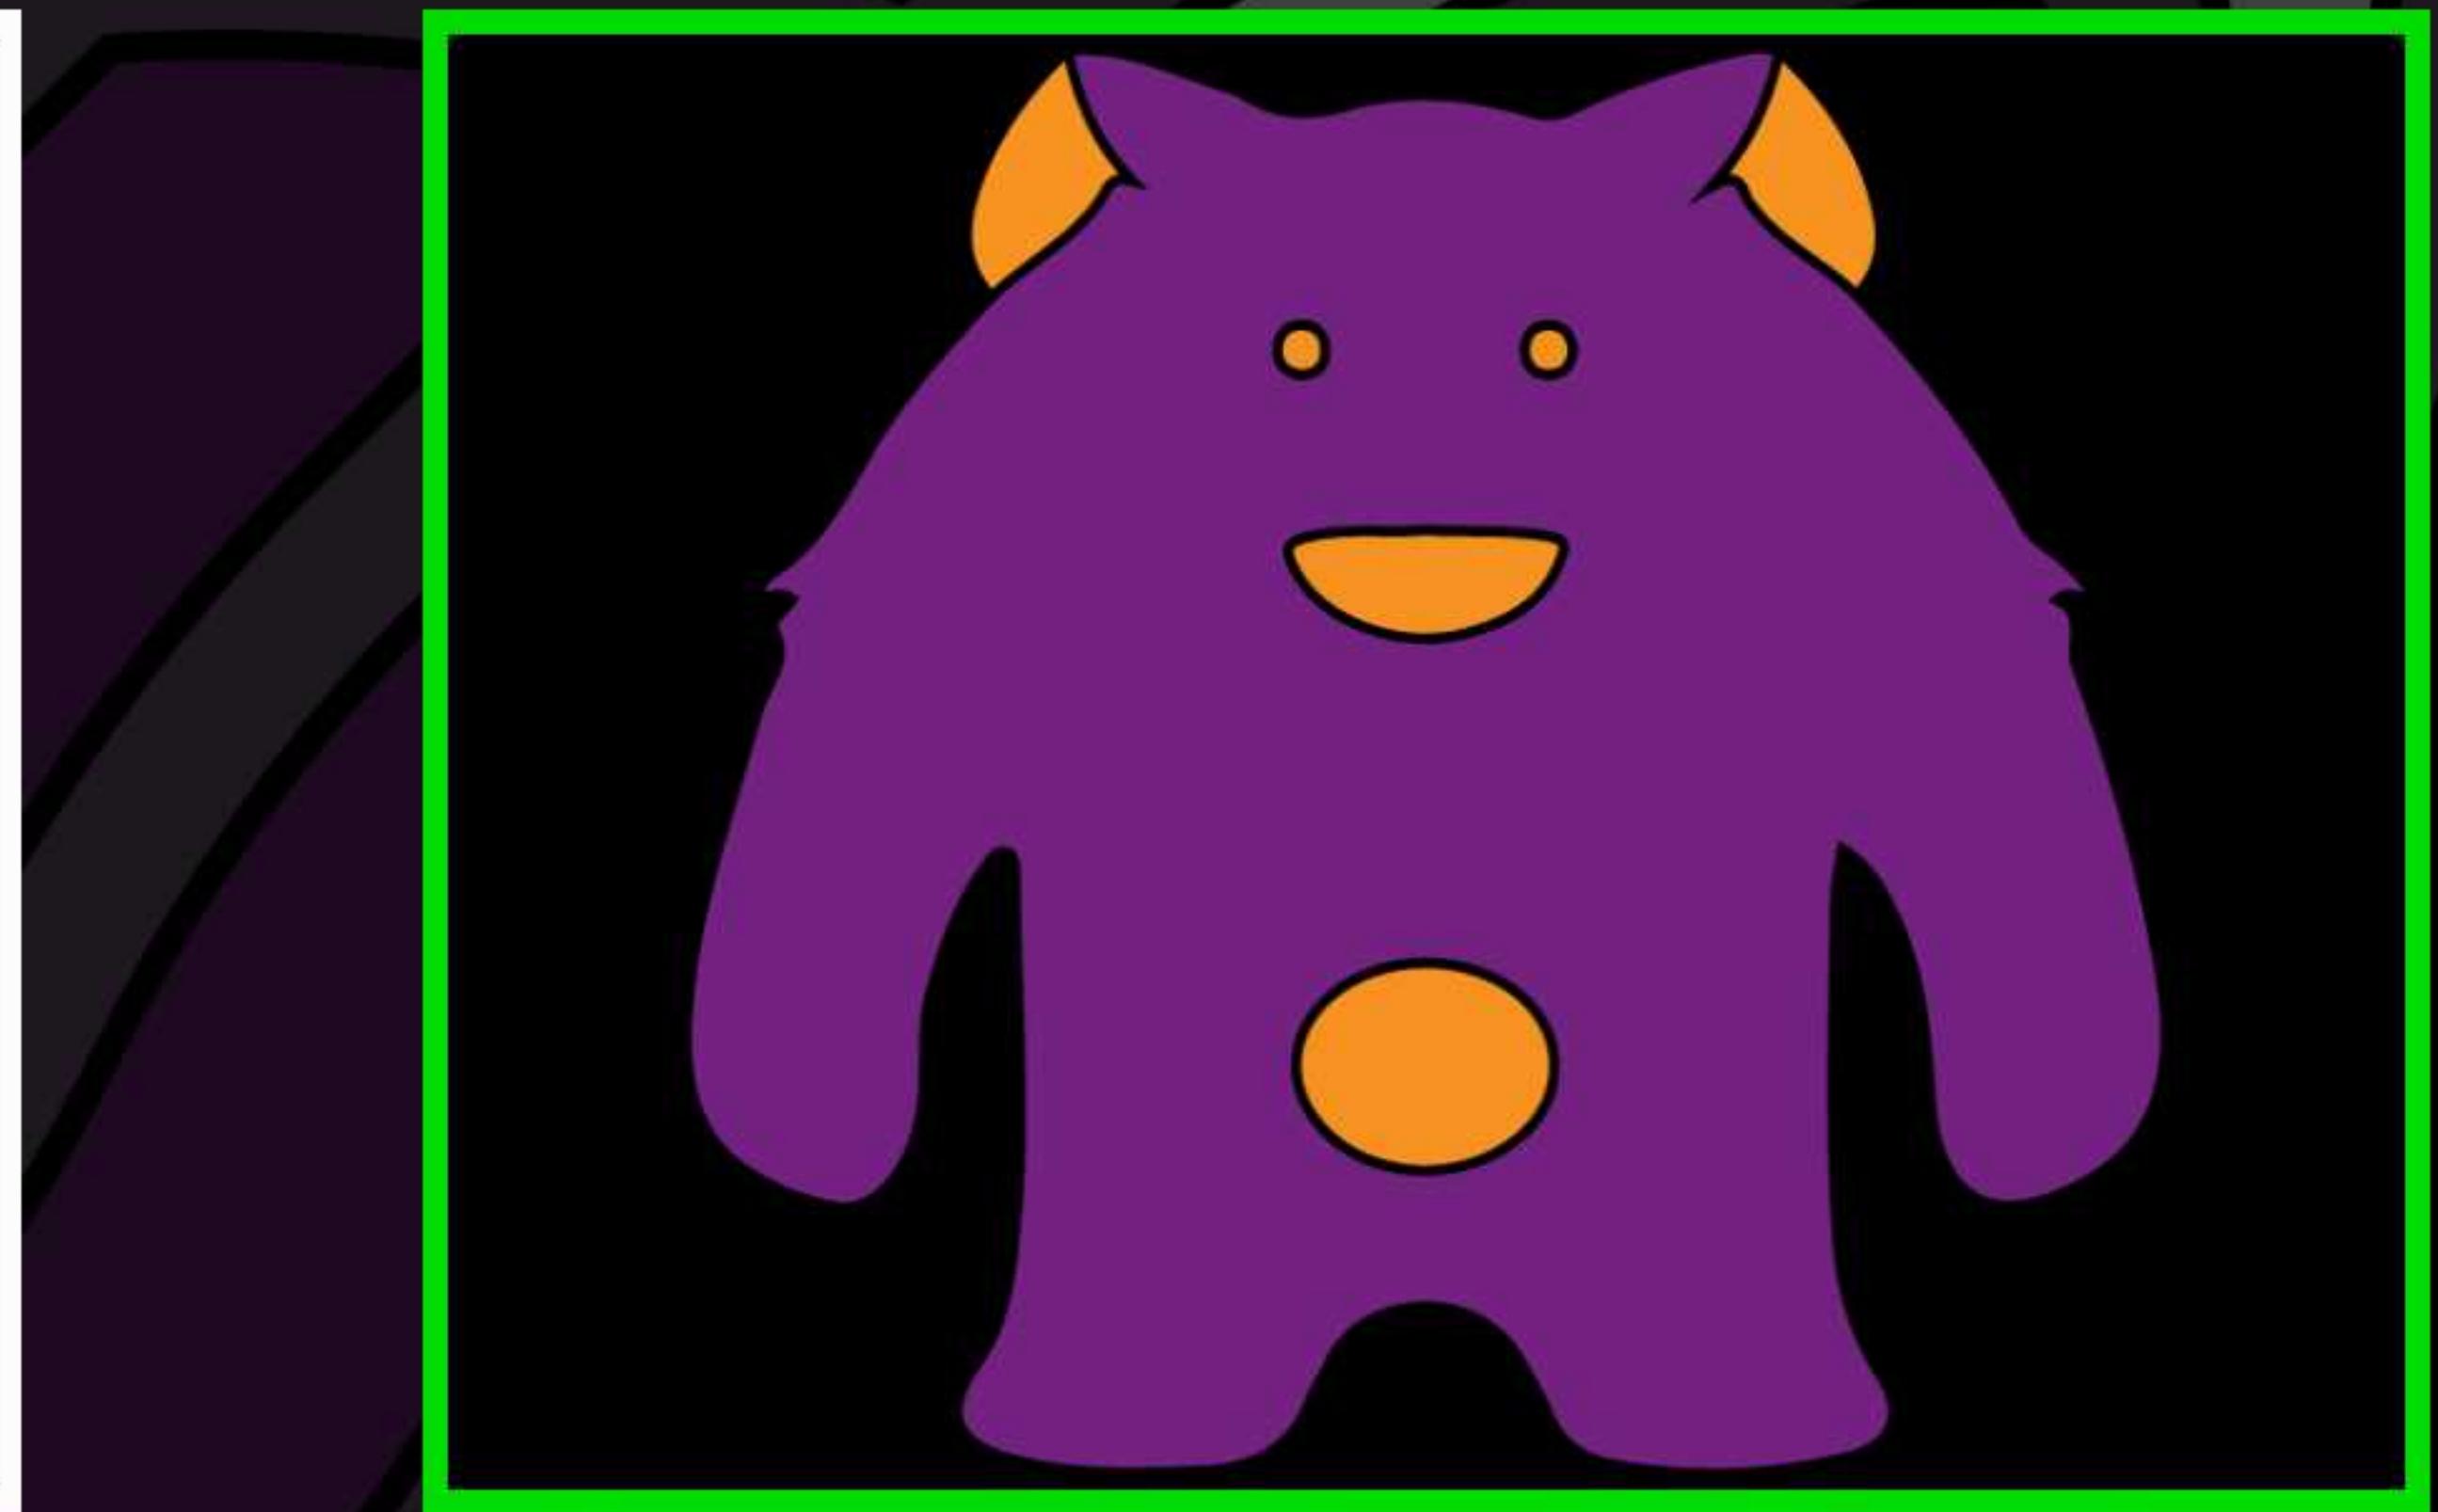

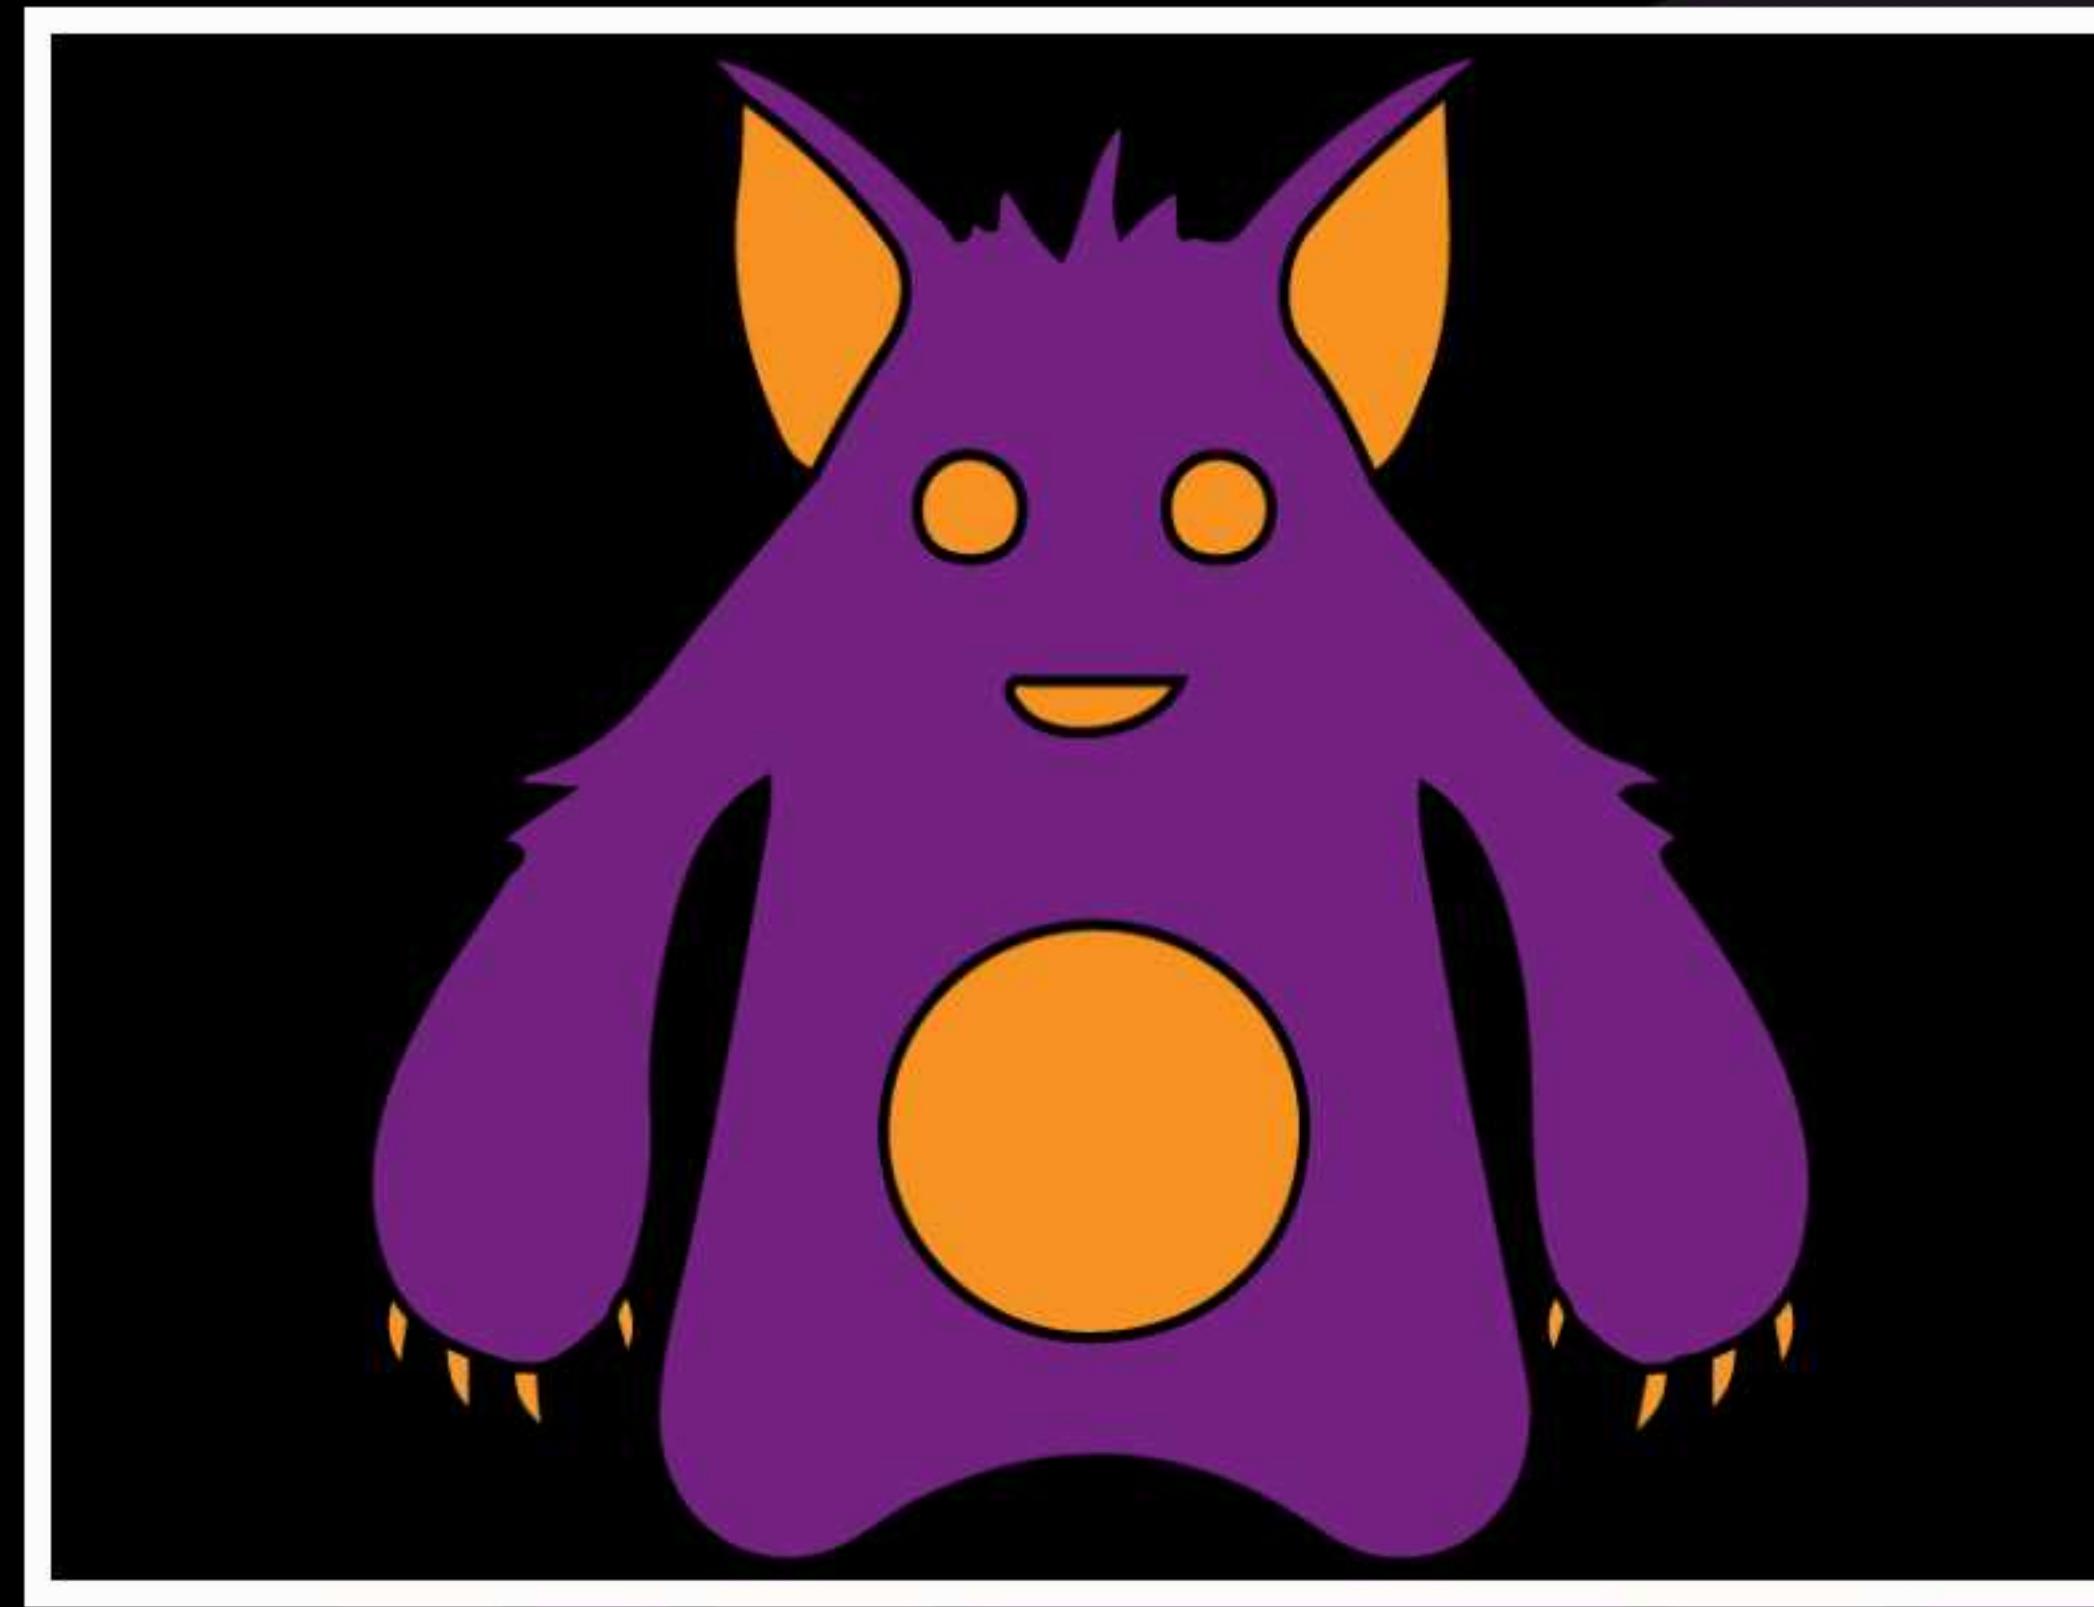

Today, your spaceship landed on Pentarus, home to the purple aliens!

Now you ask one alien if they have space treasure to share.

Win!

Nice Job! You chose an alien who had space treasure to share!

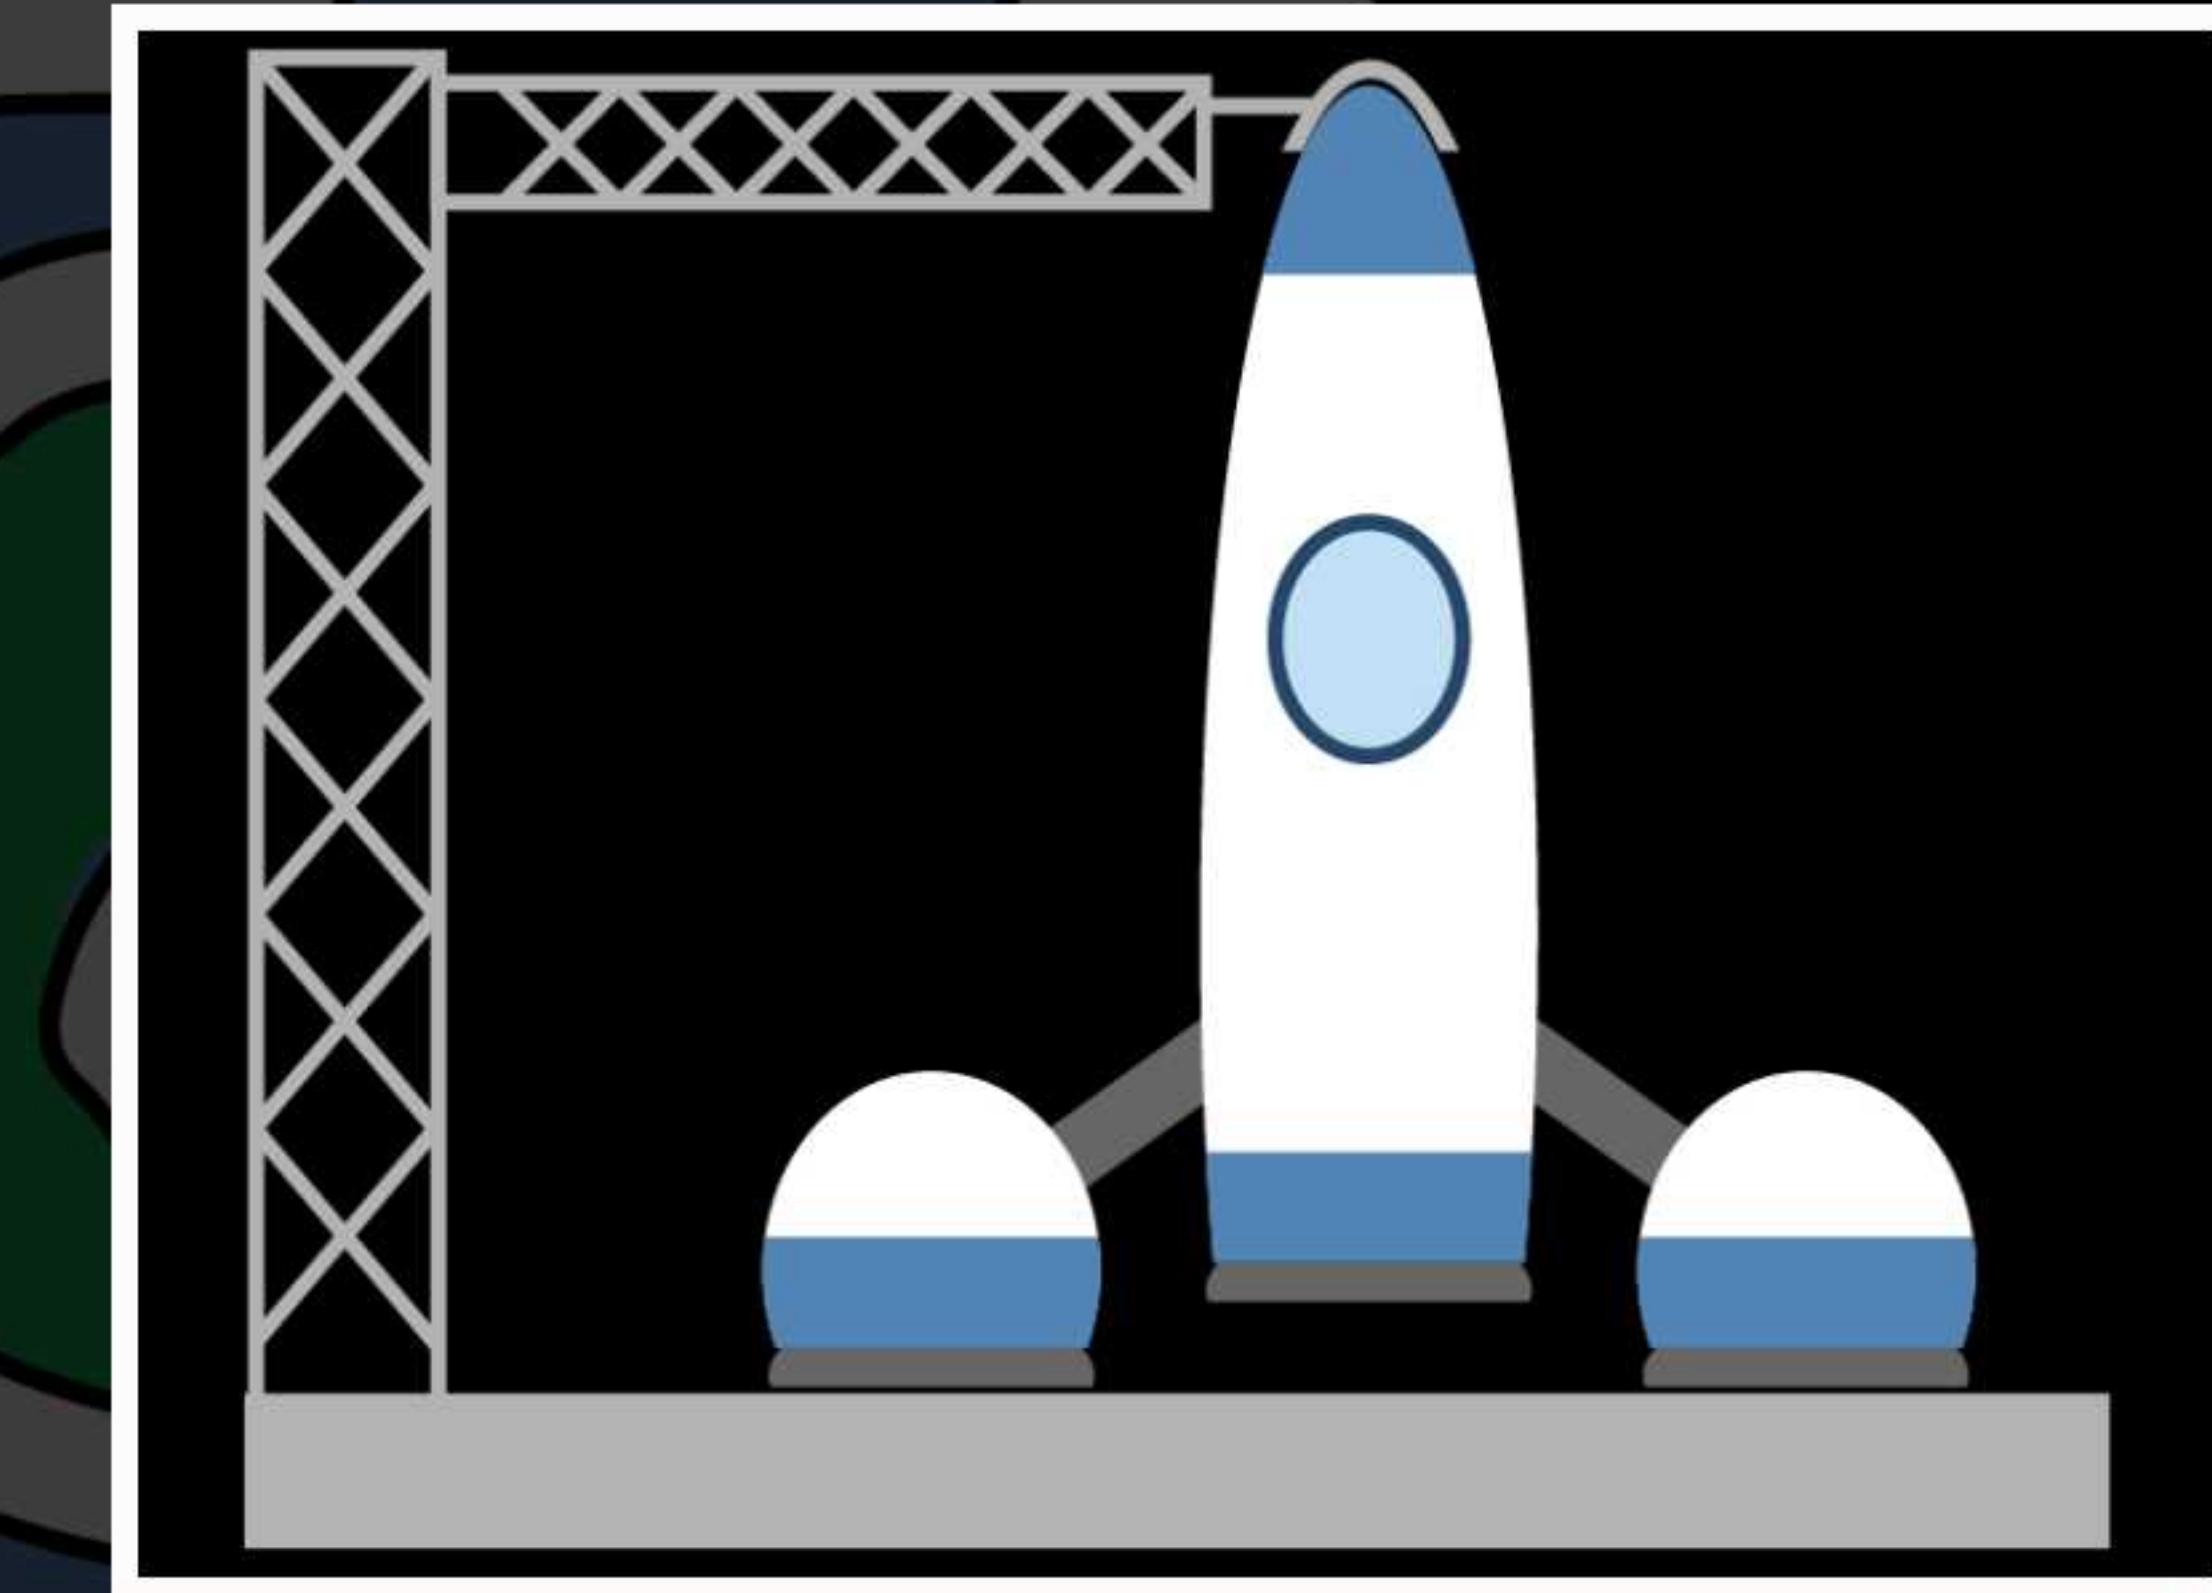

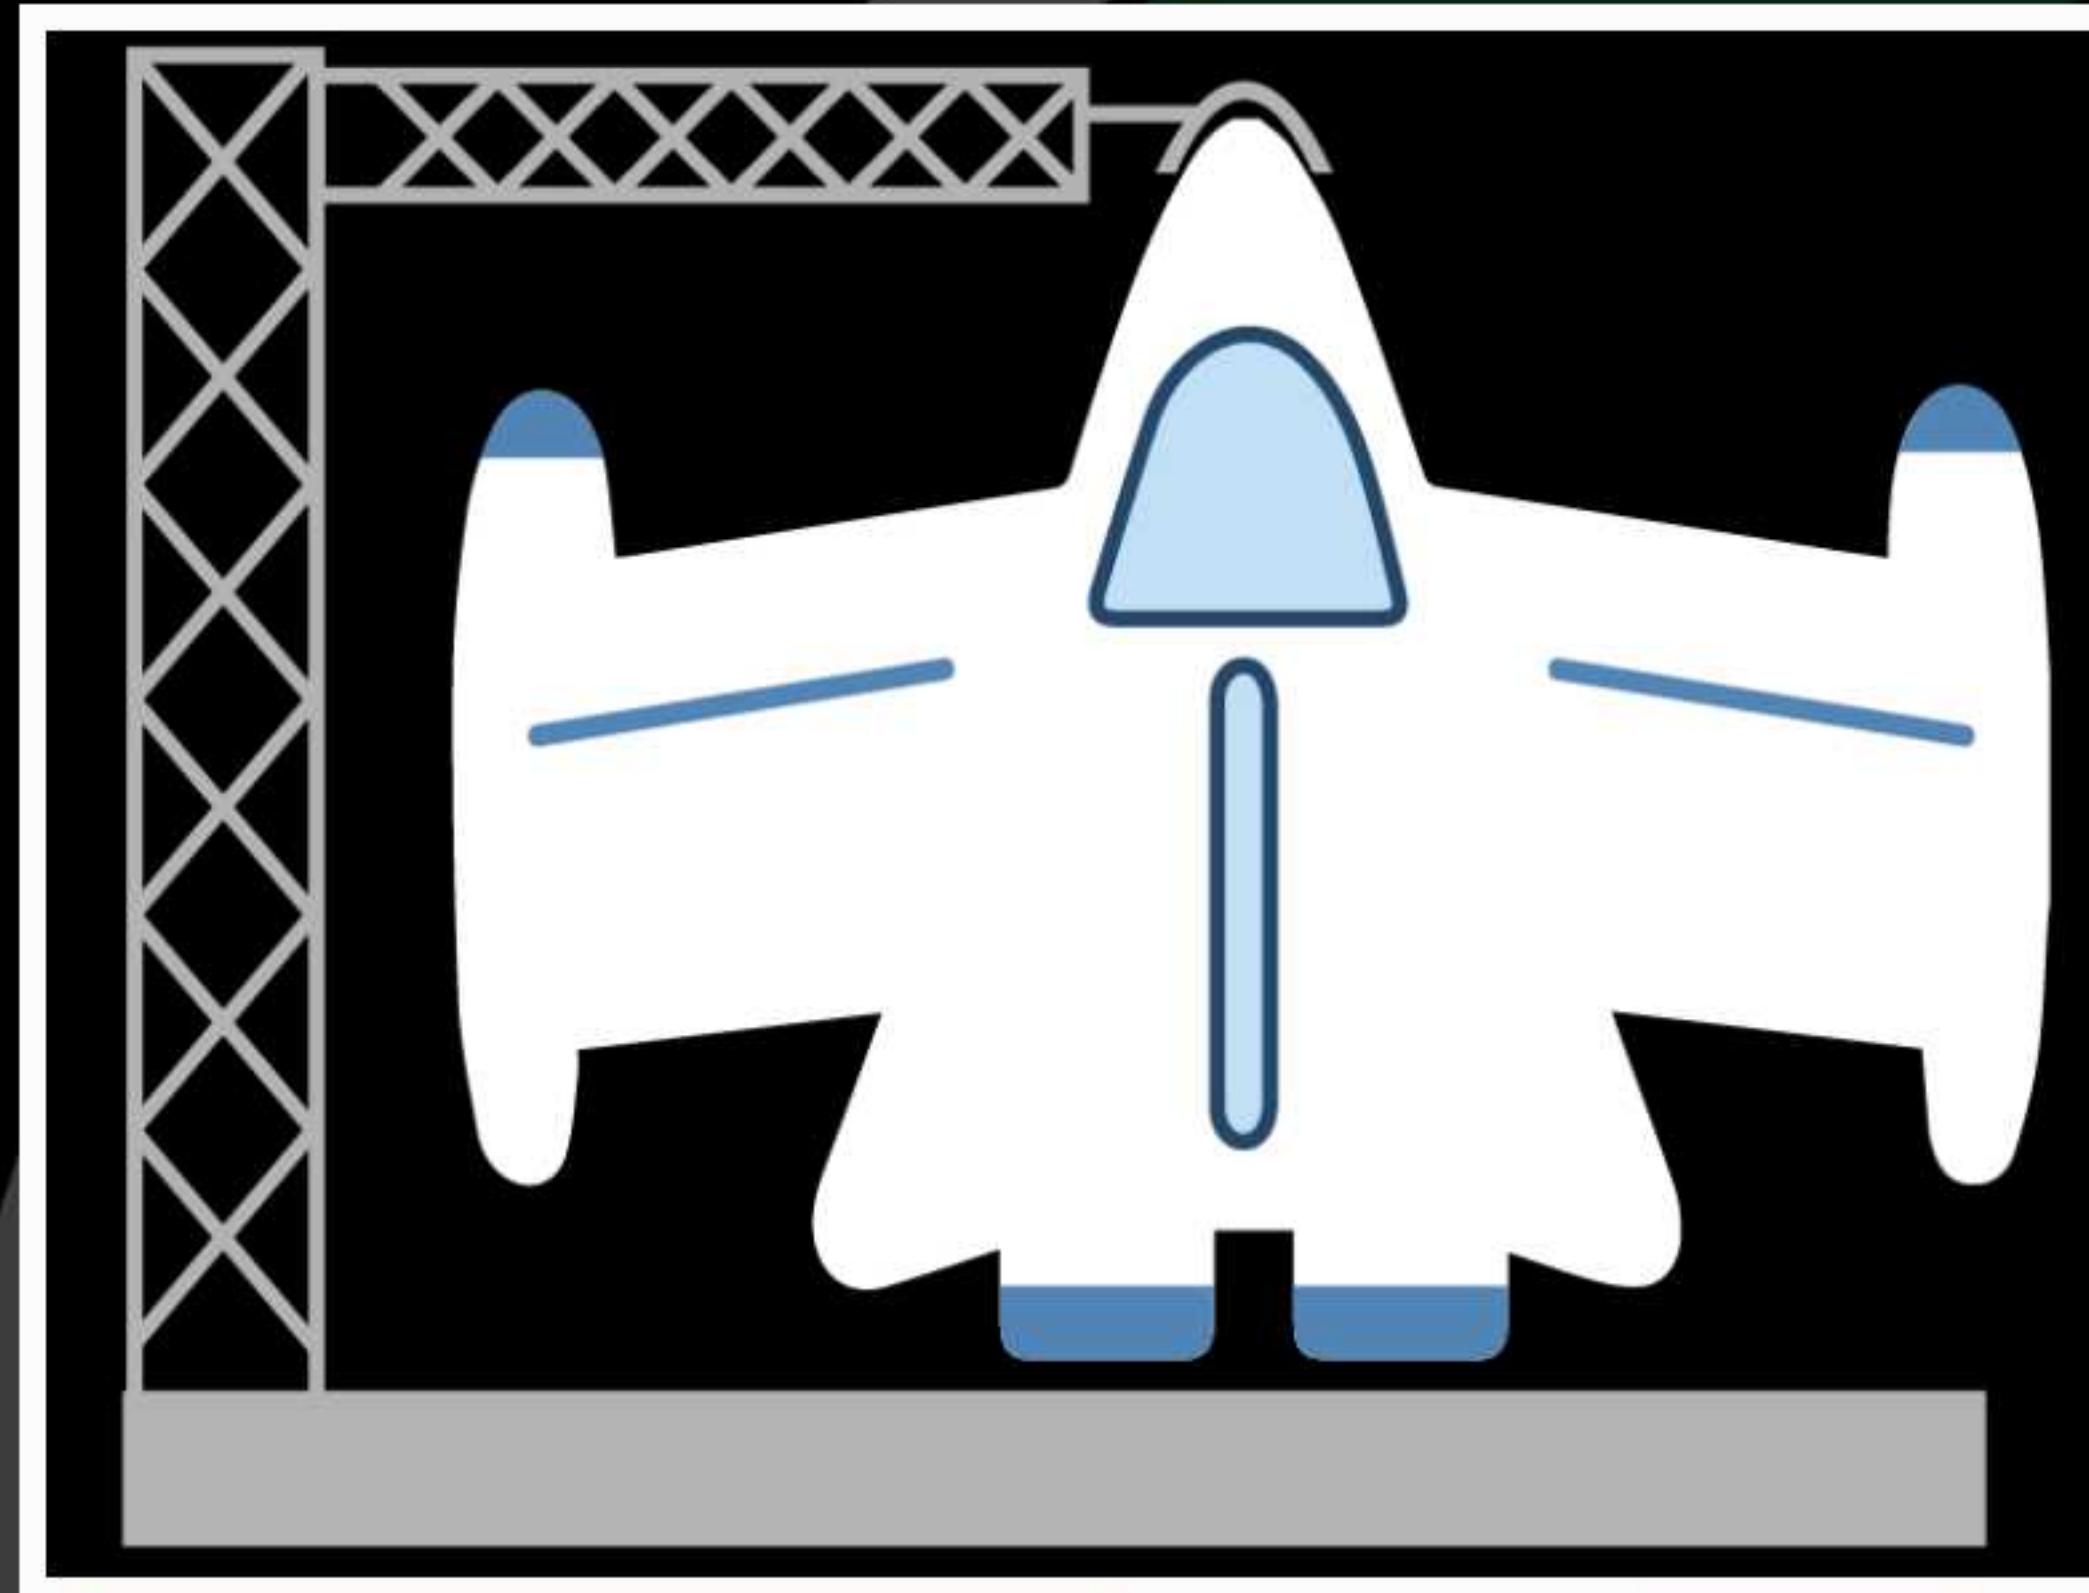

Win!

Let's return home so we can try one more time.

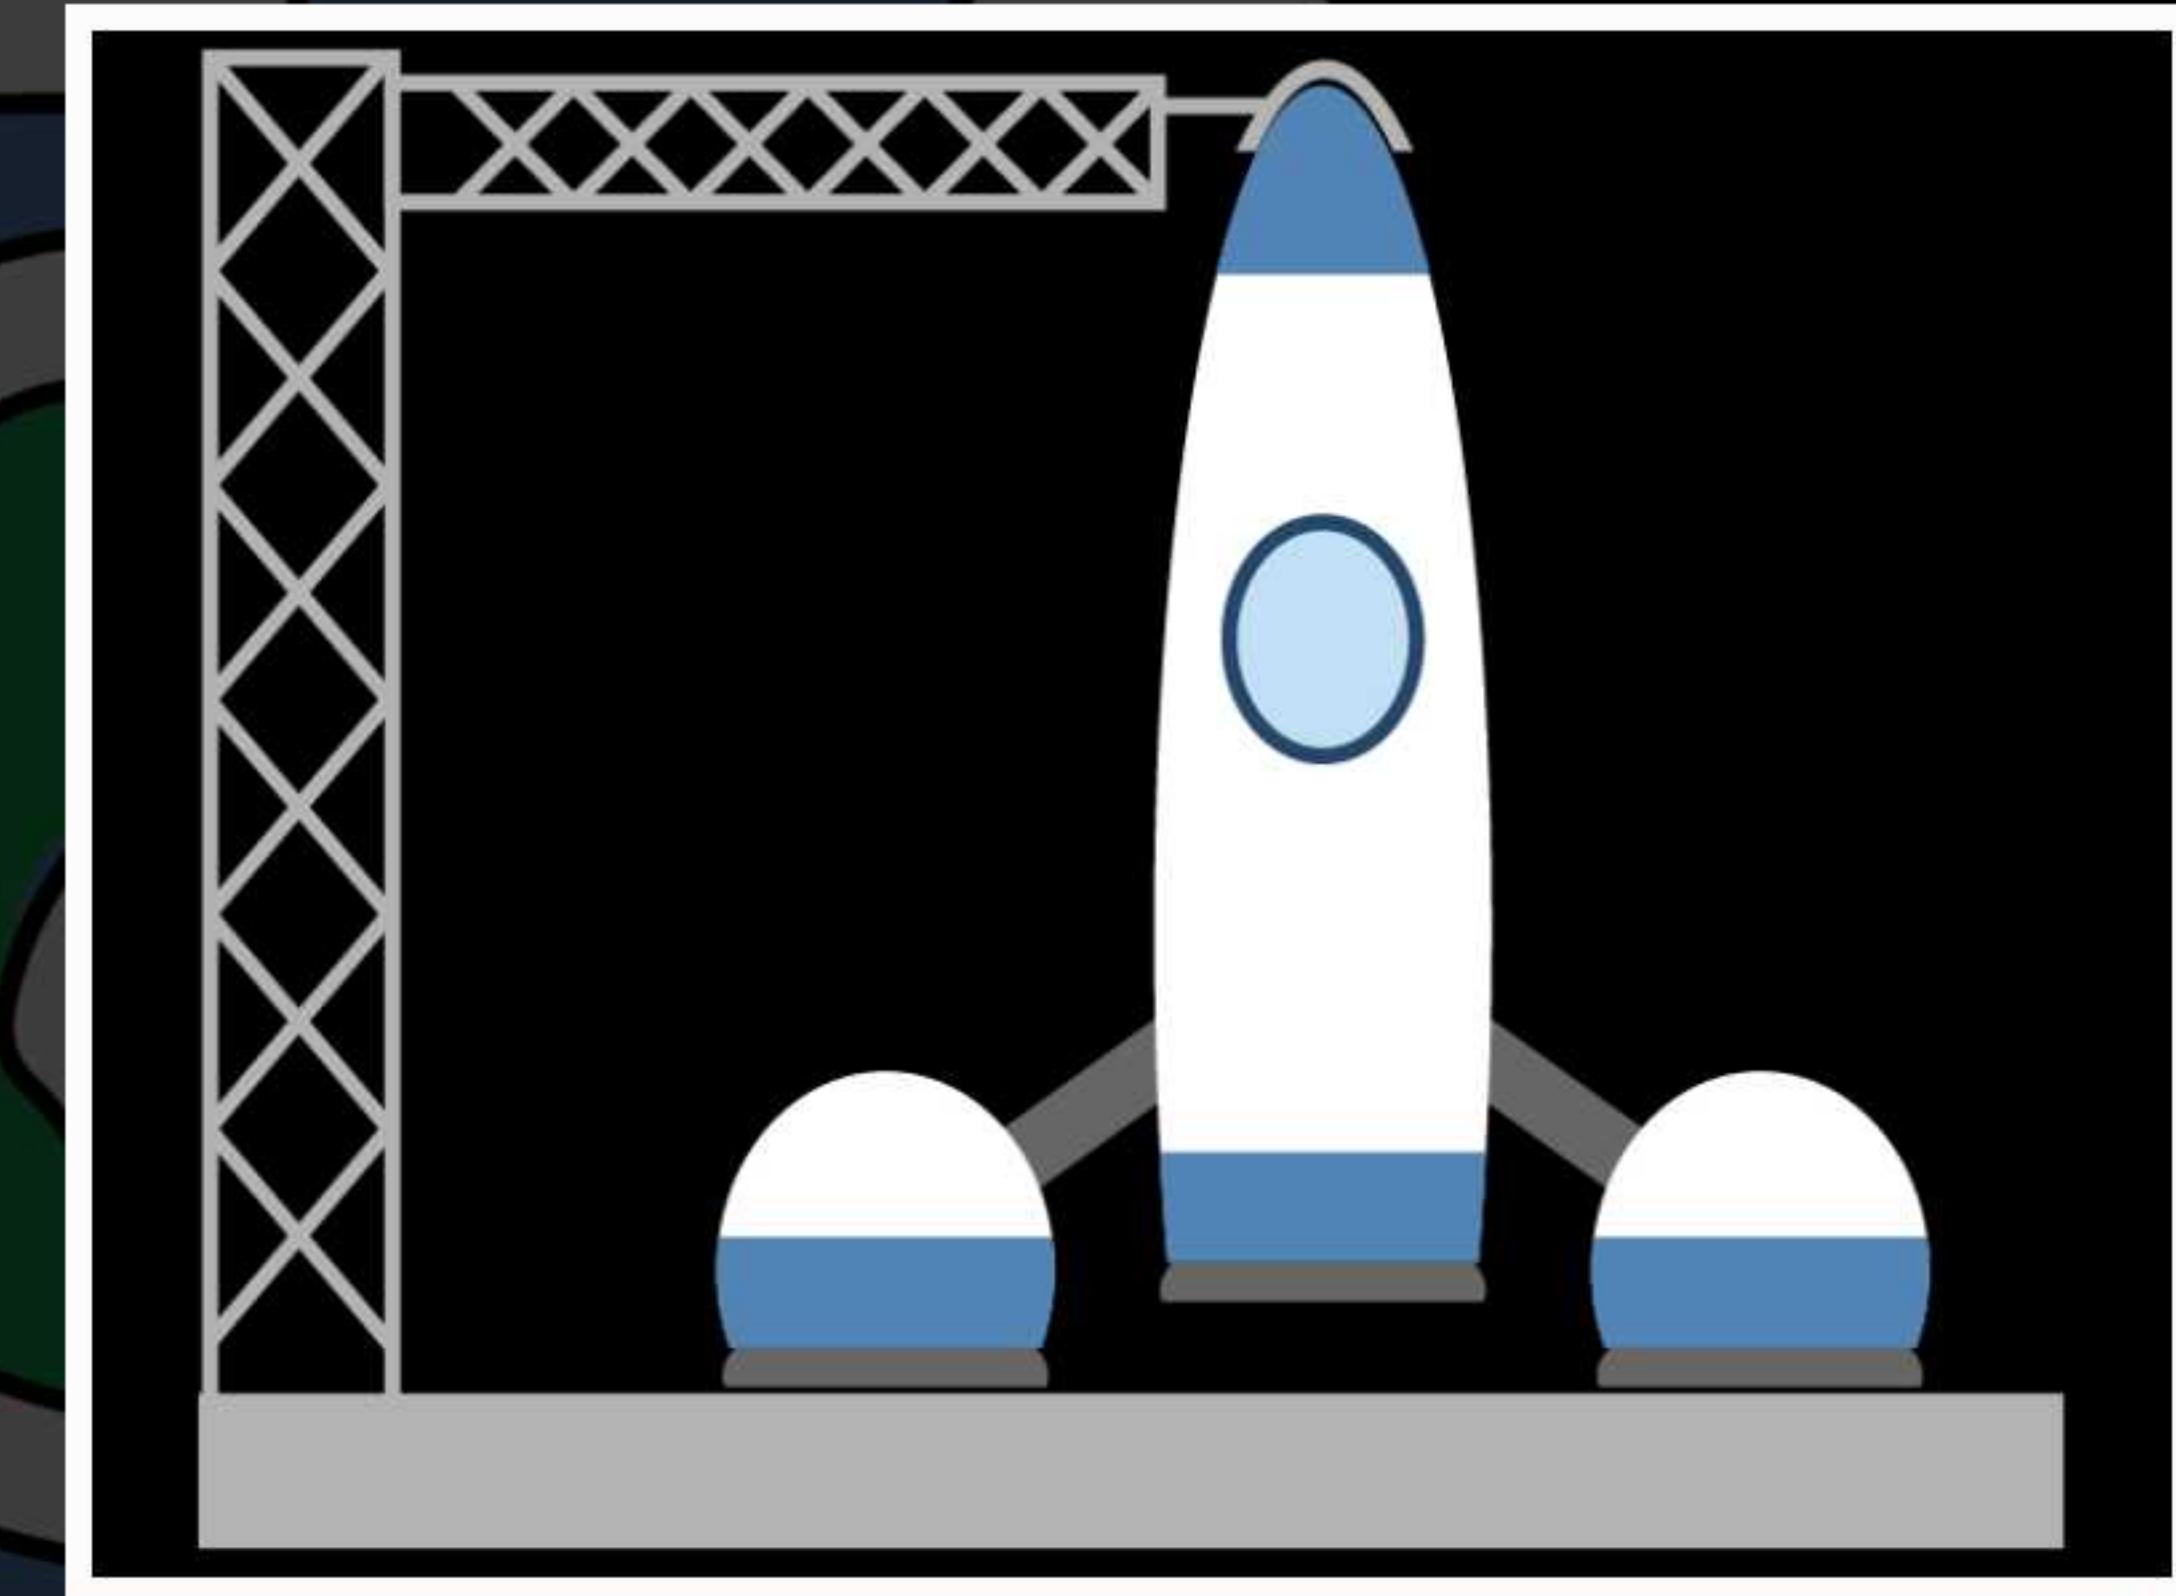

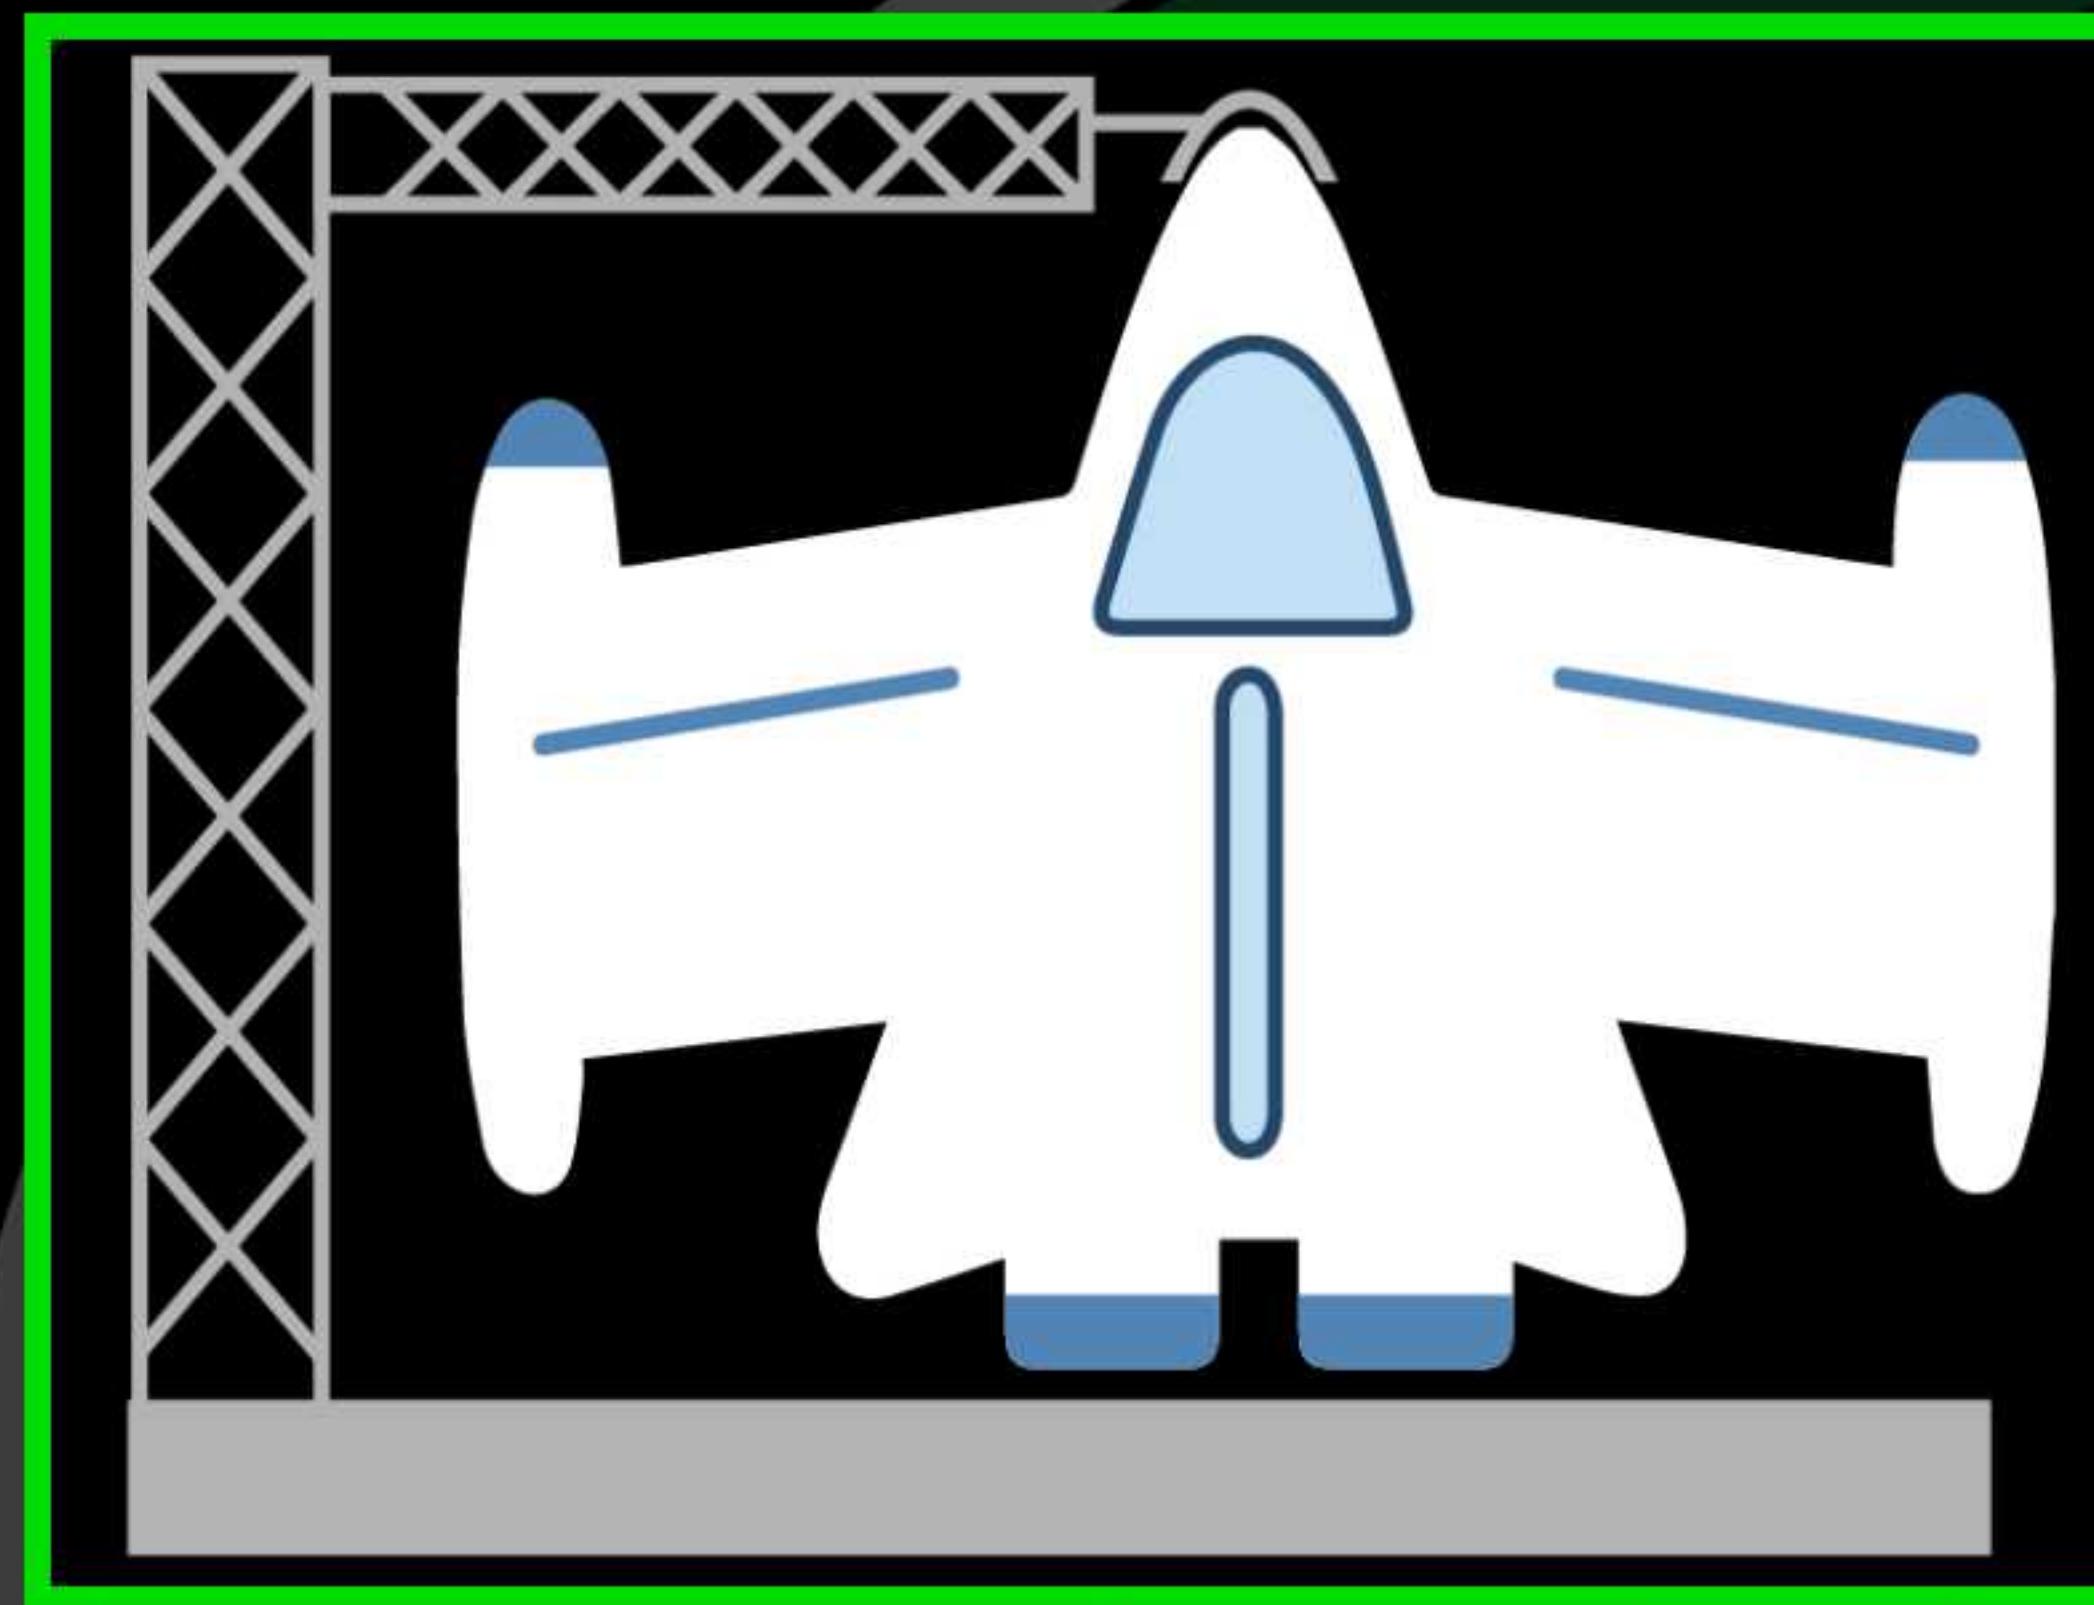

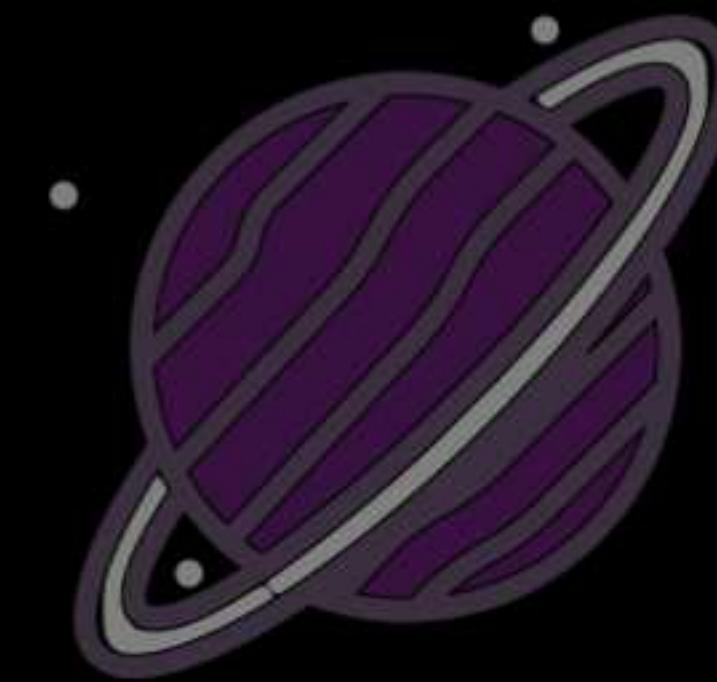

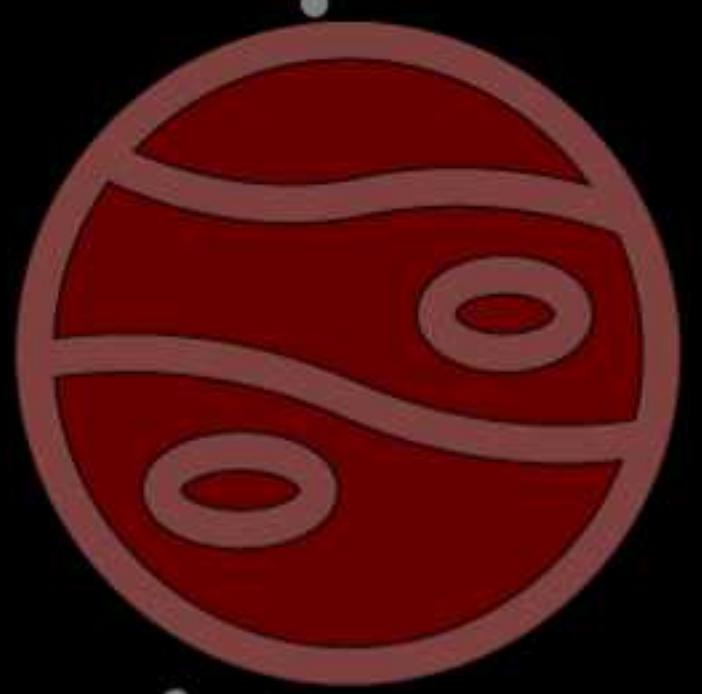

Returning Home...

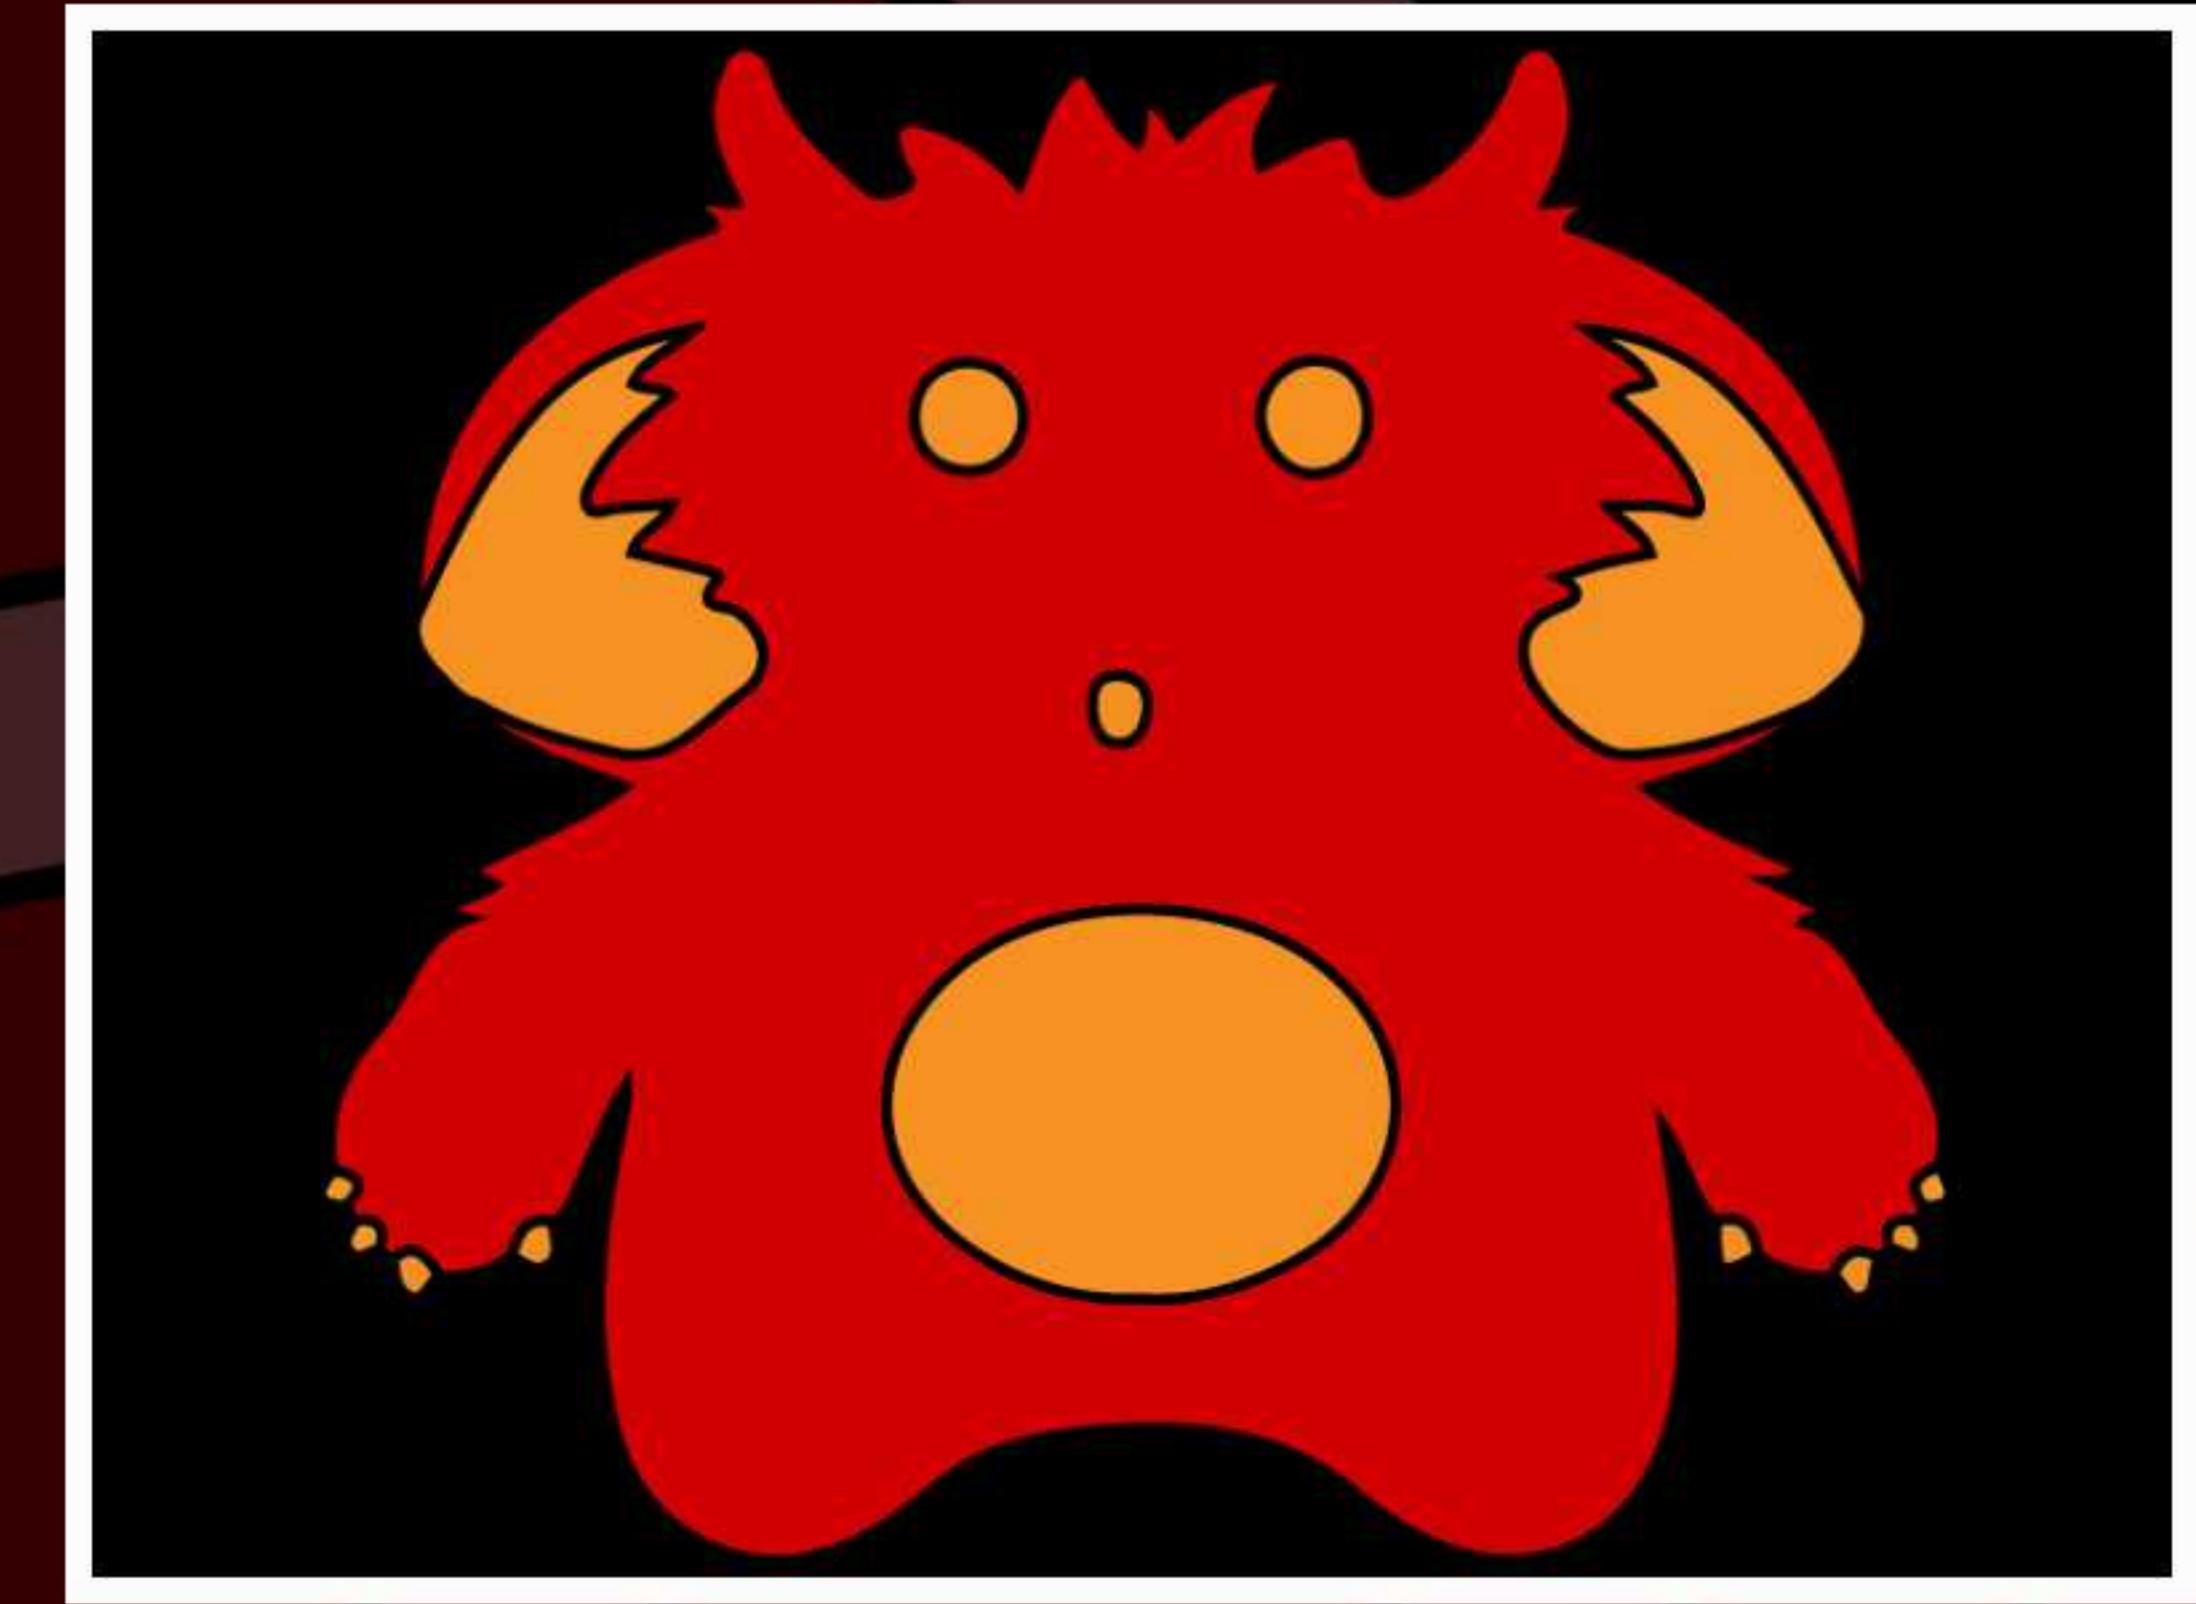

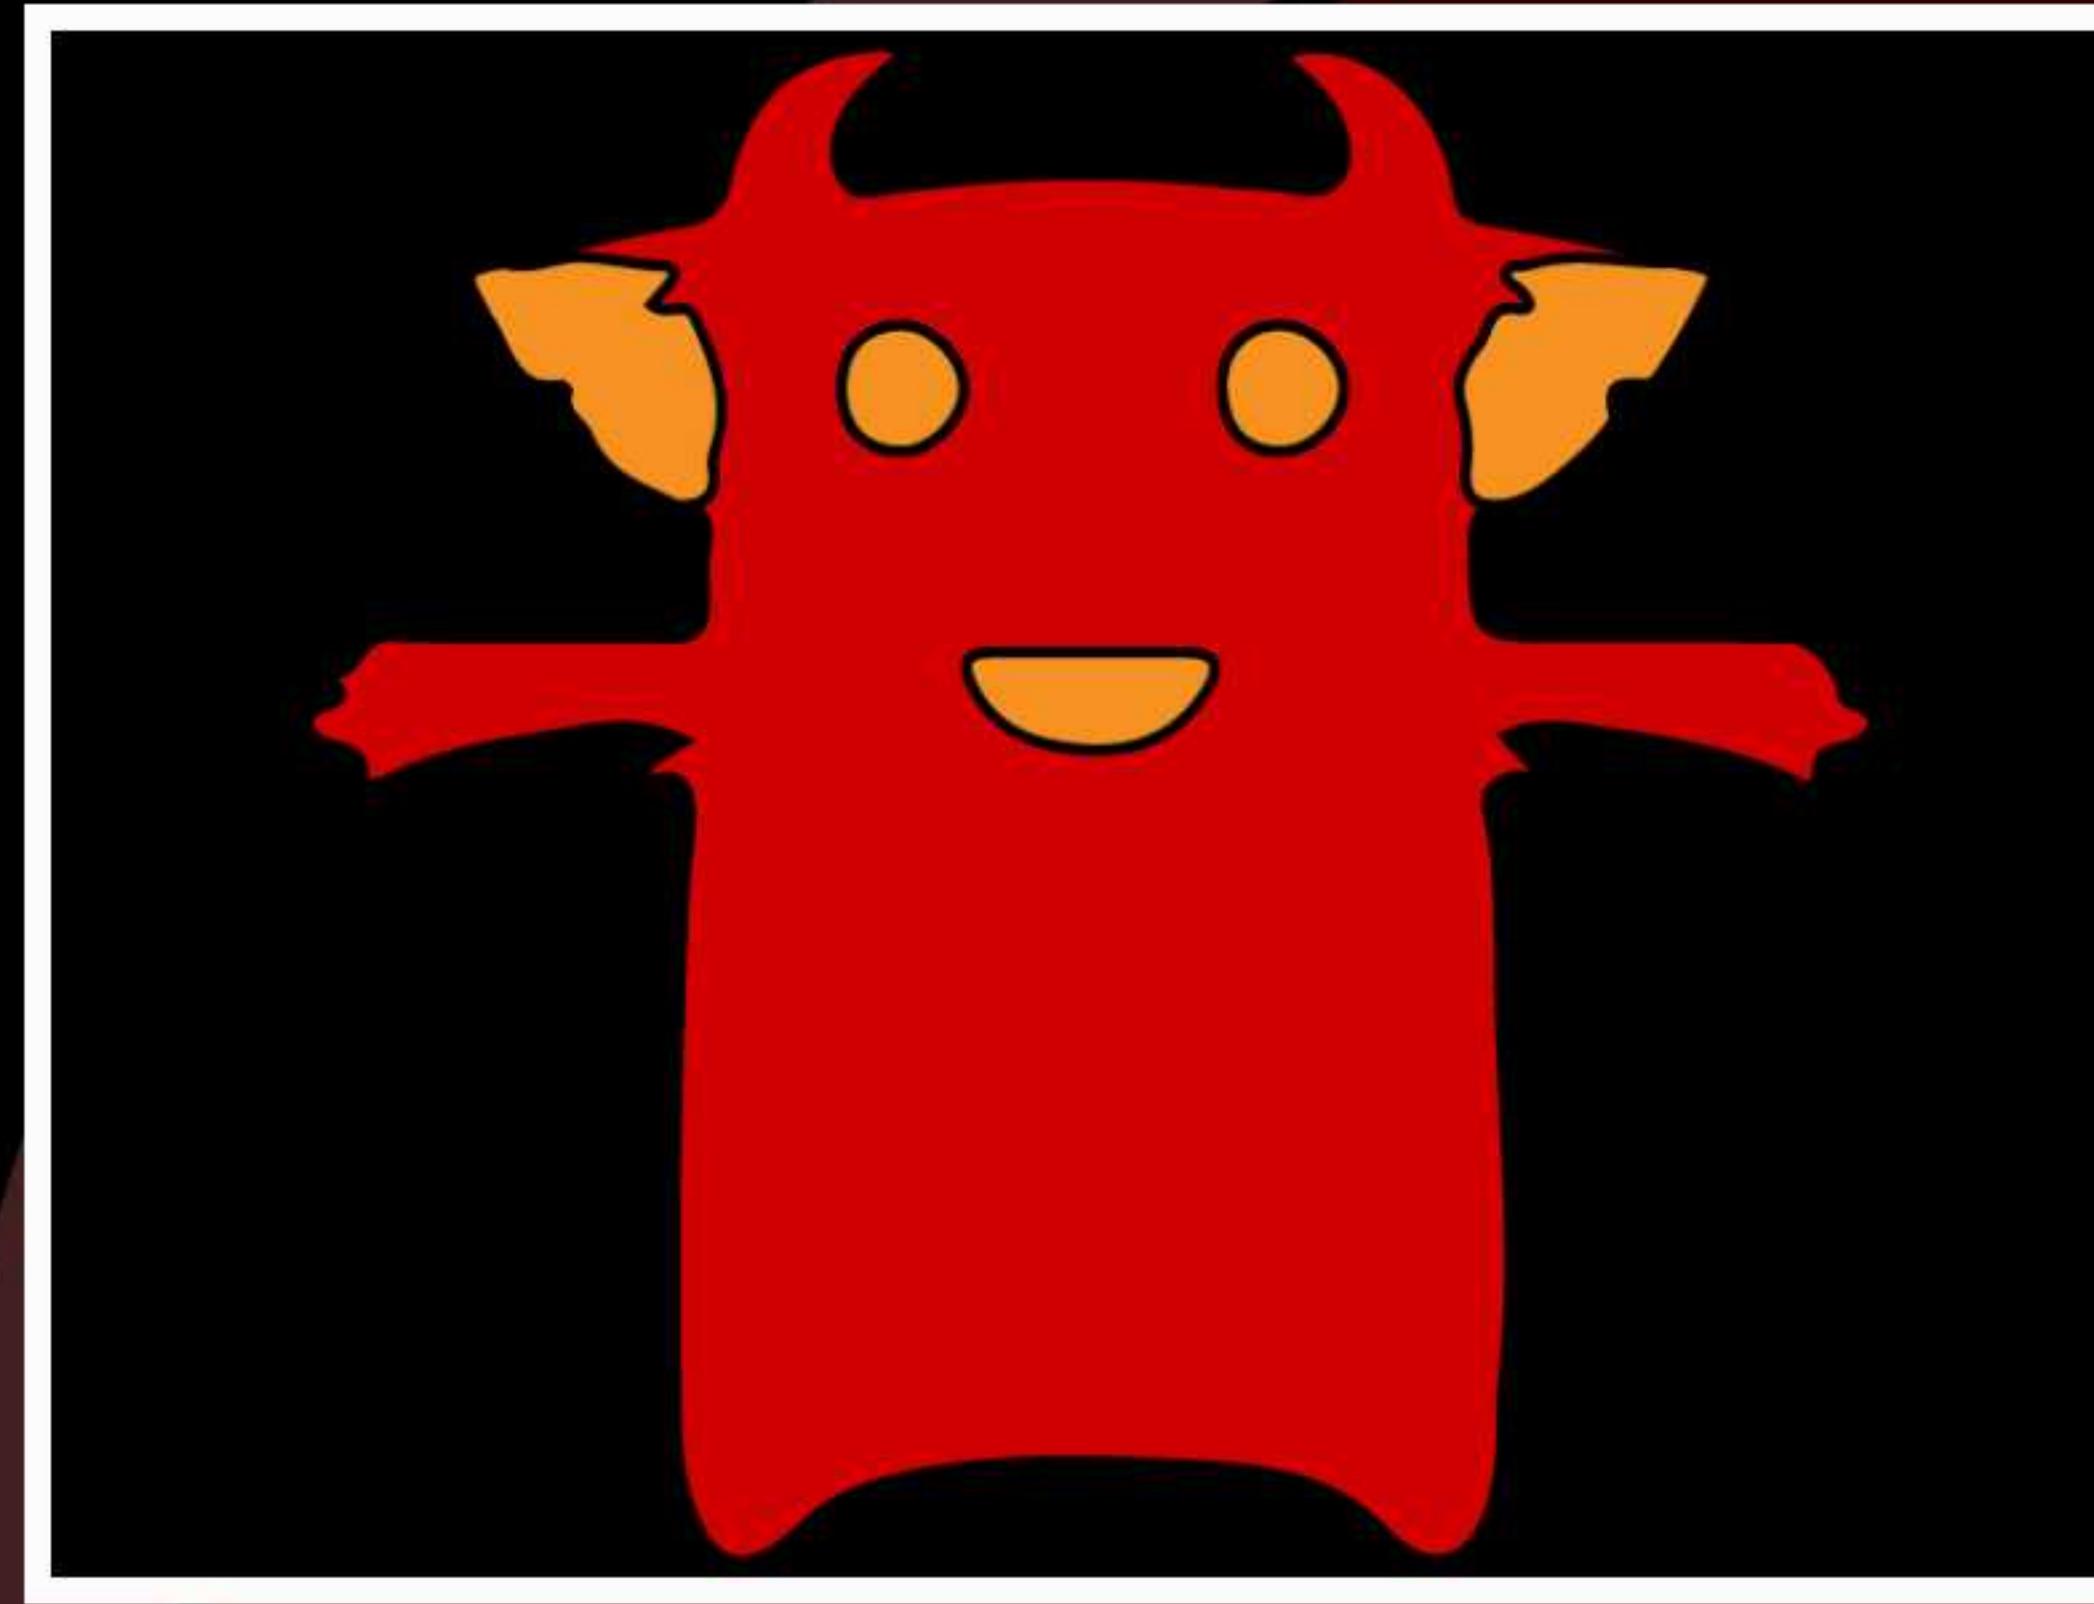

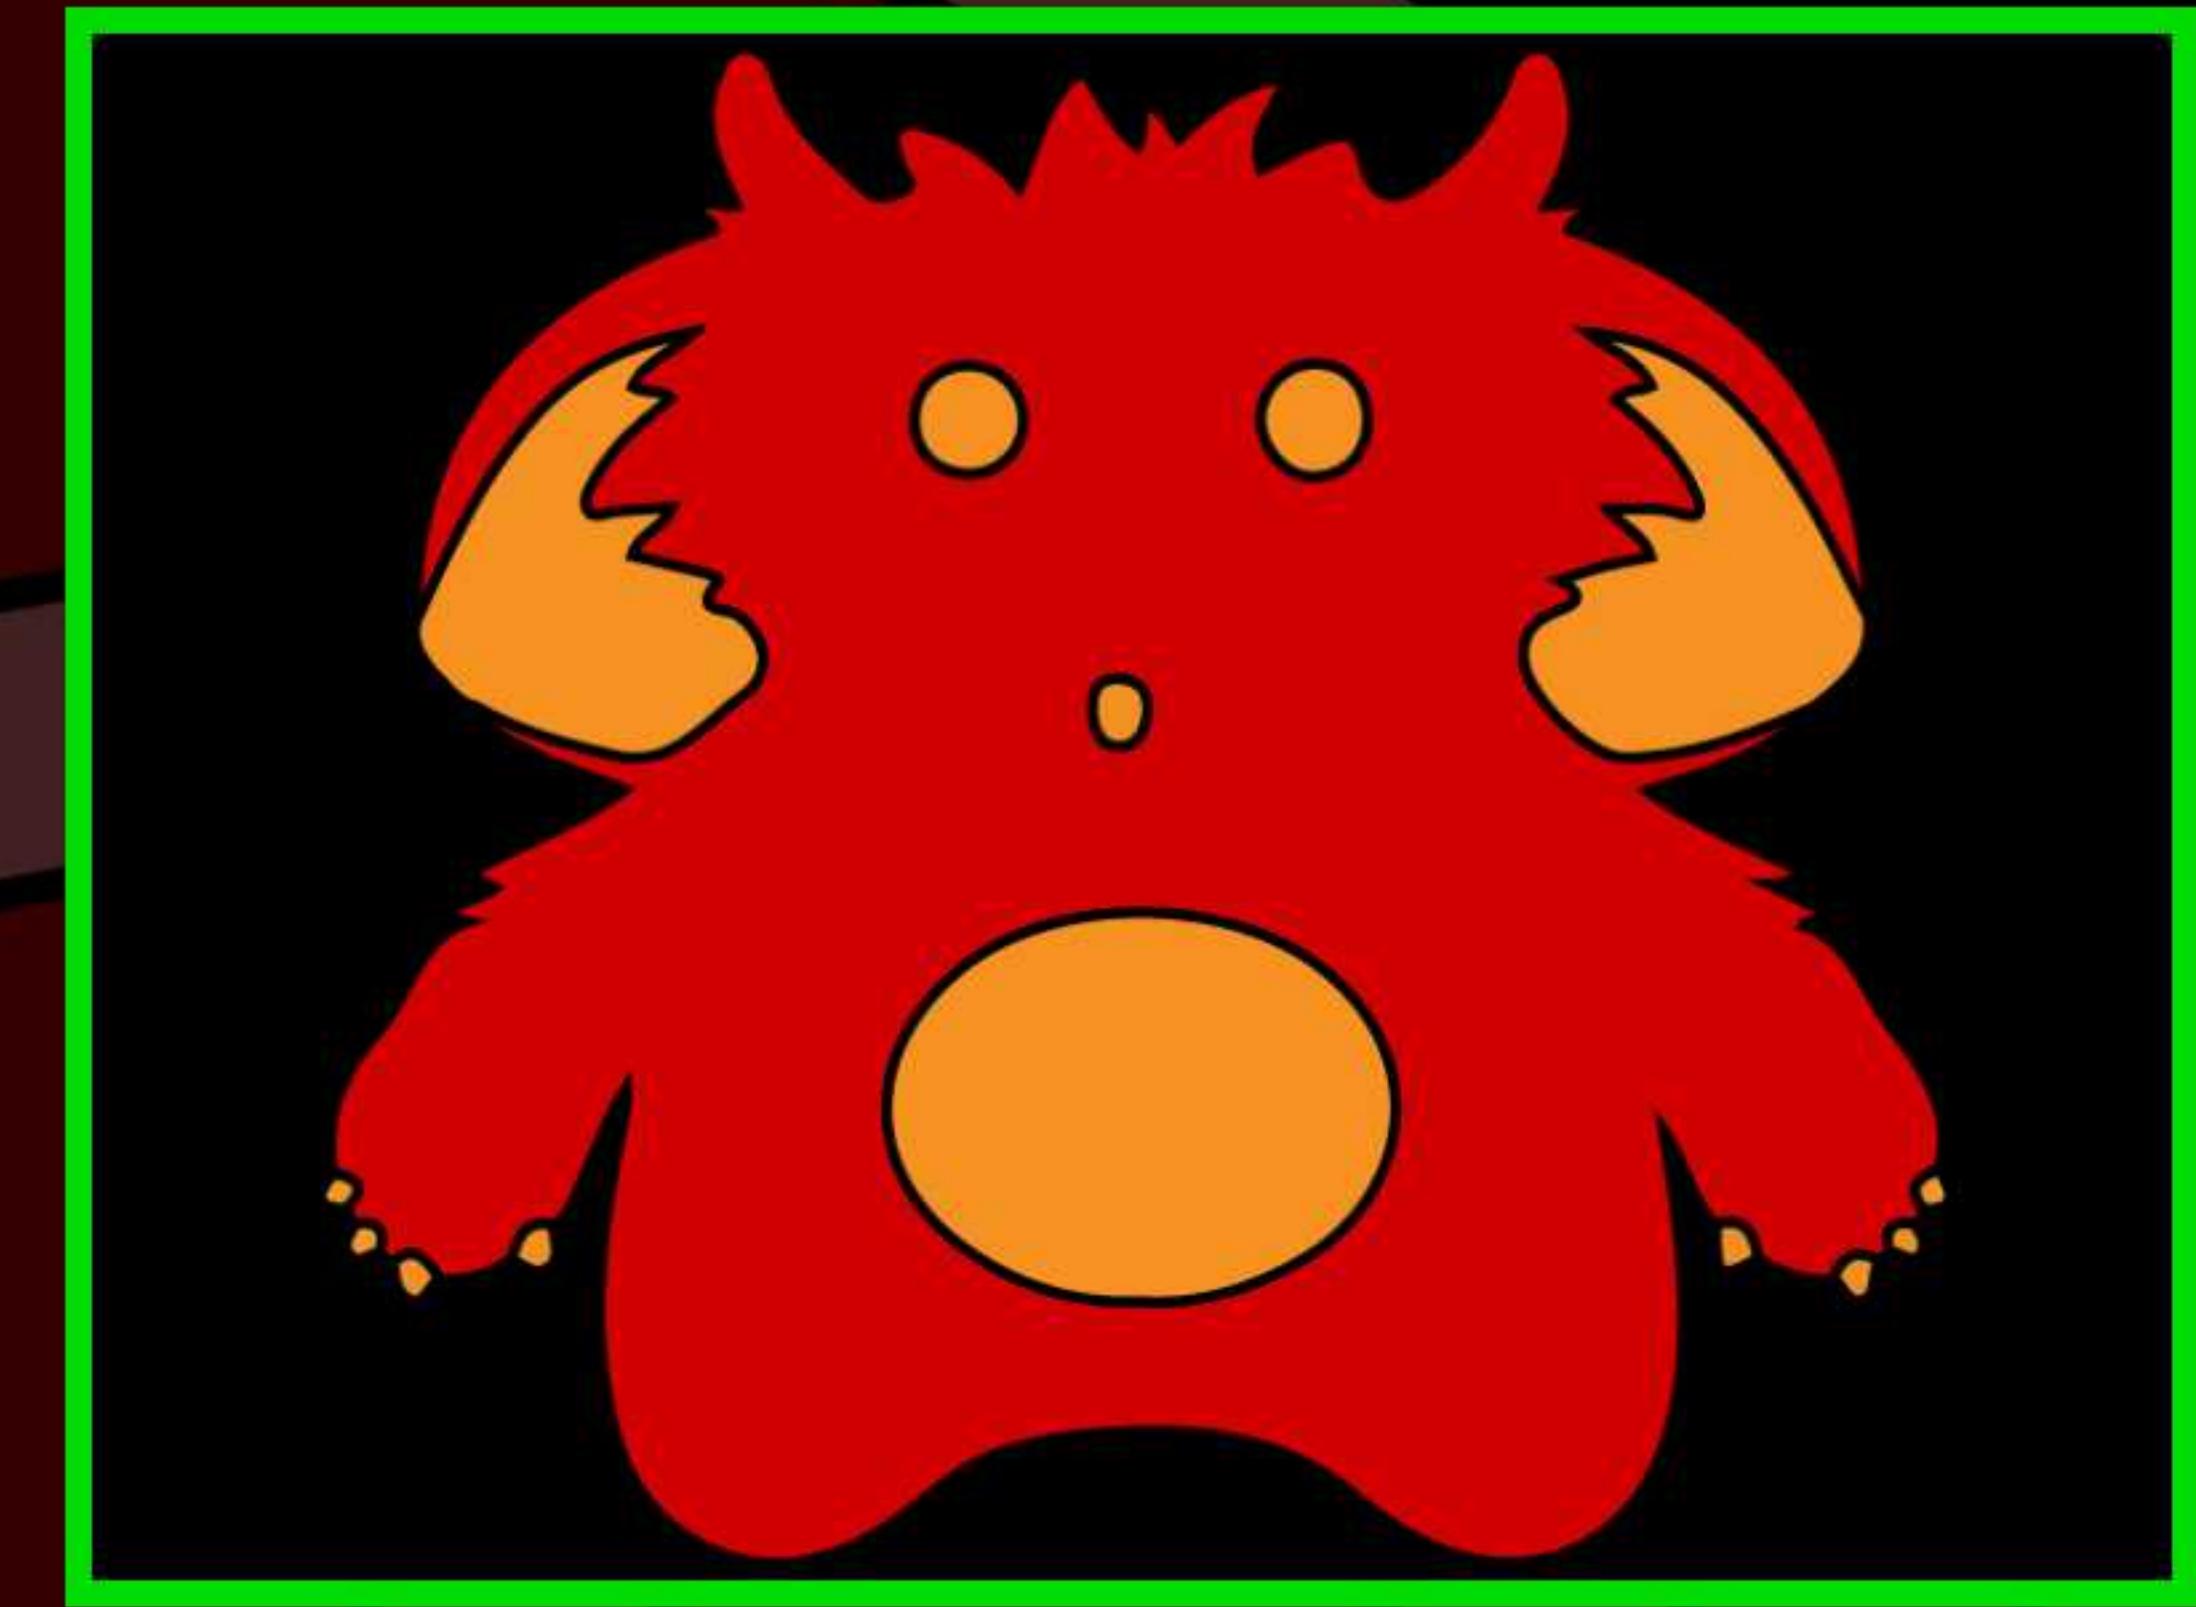

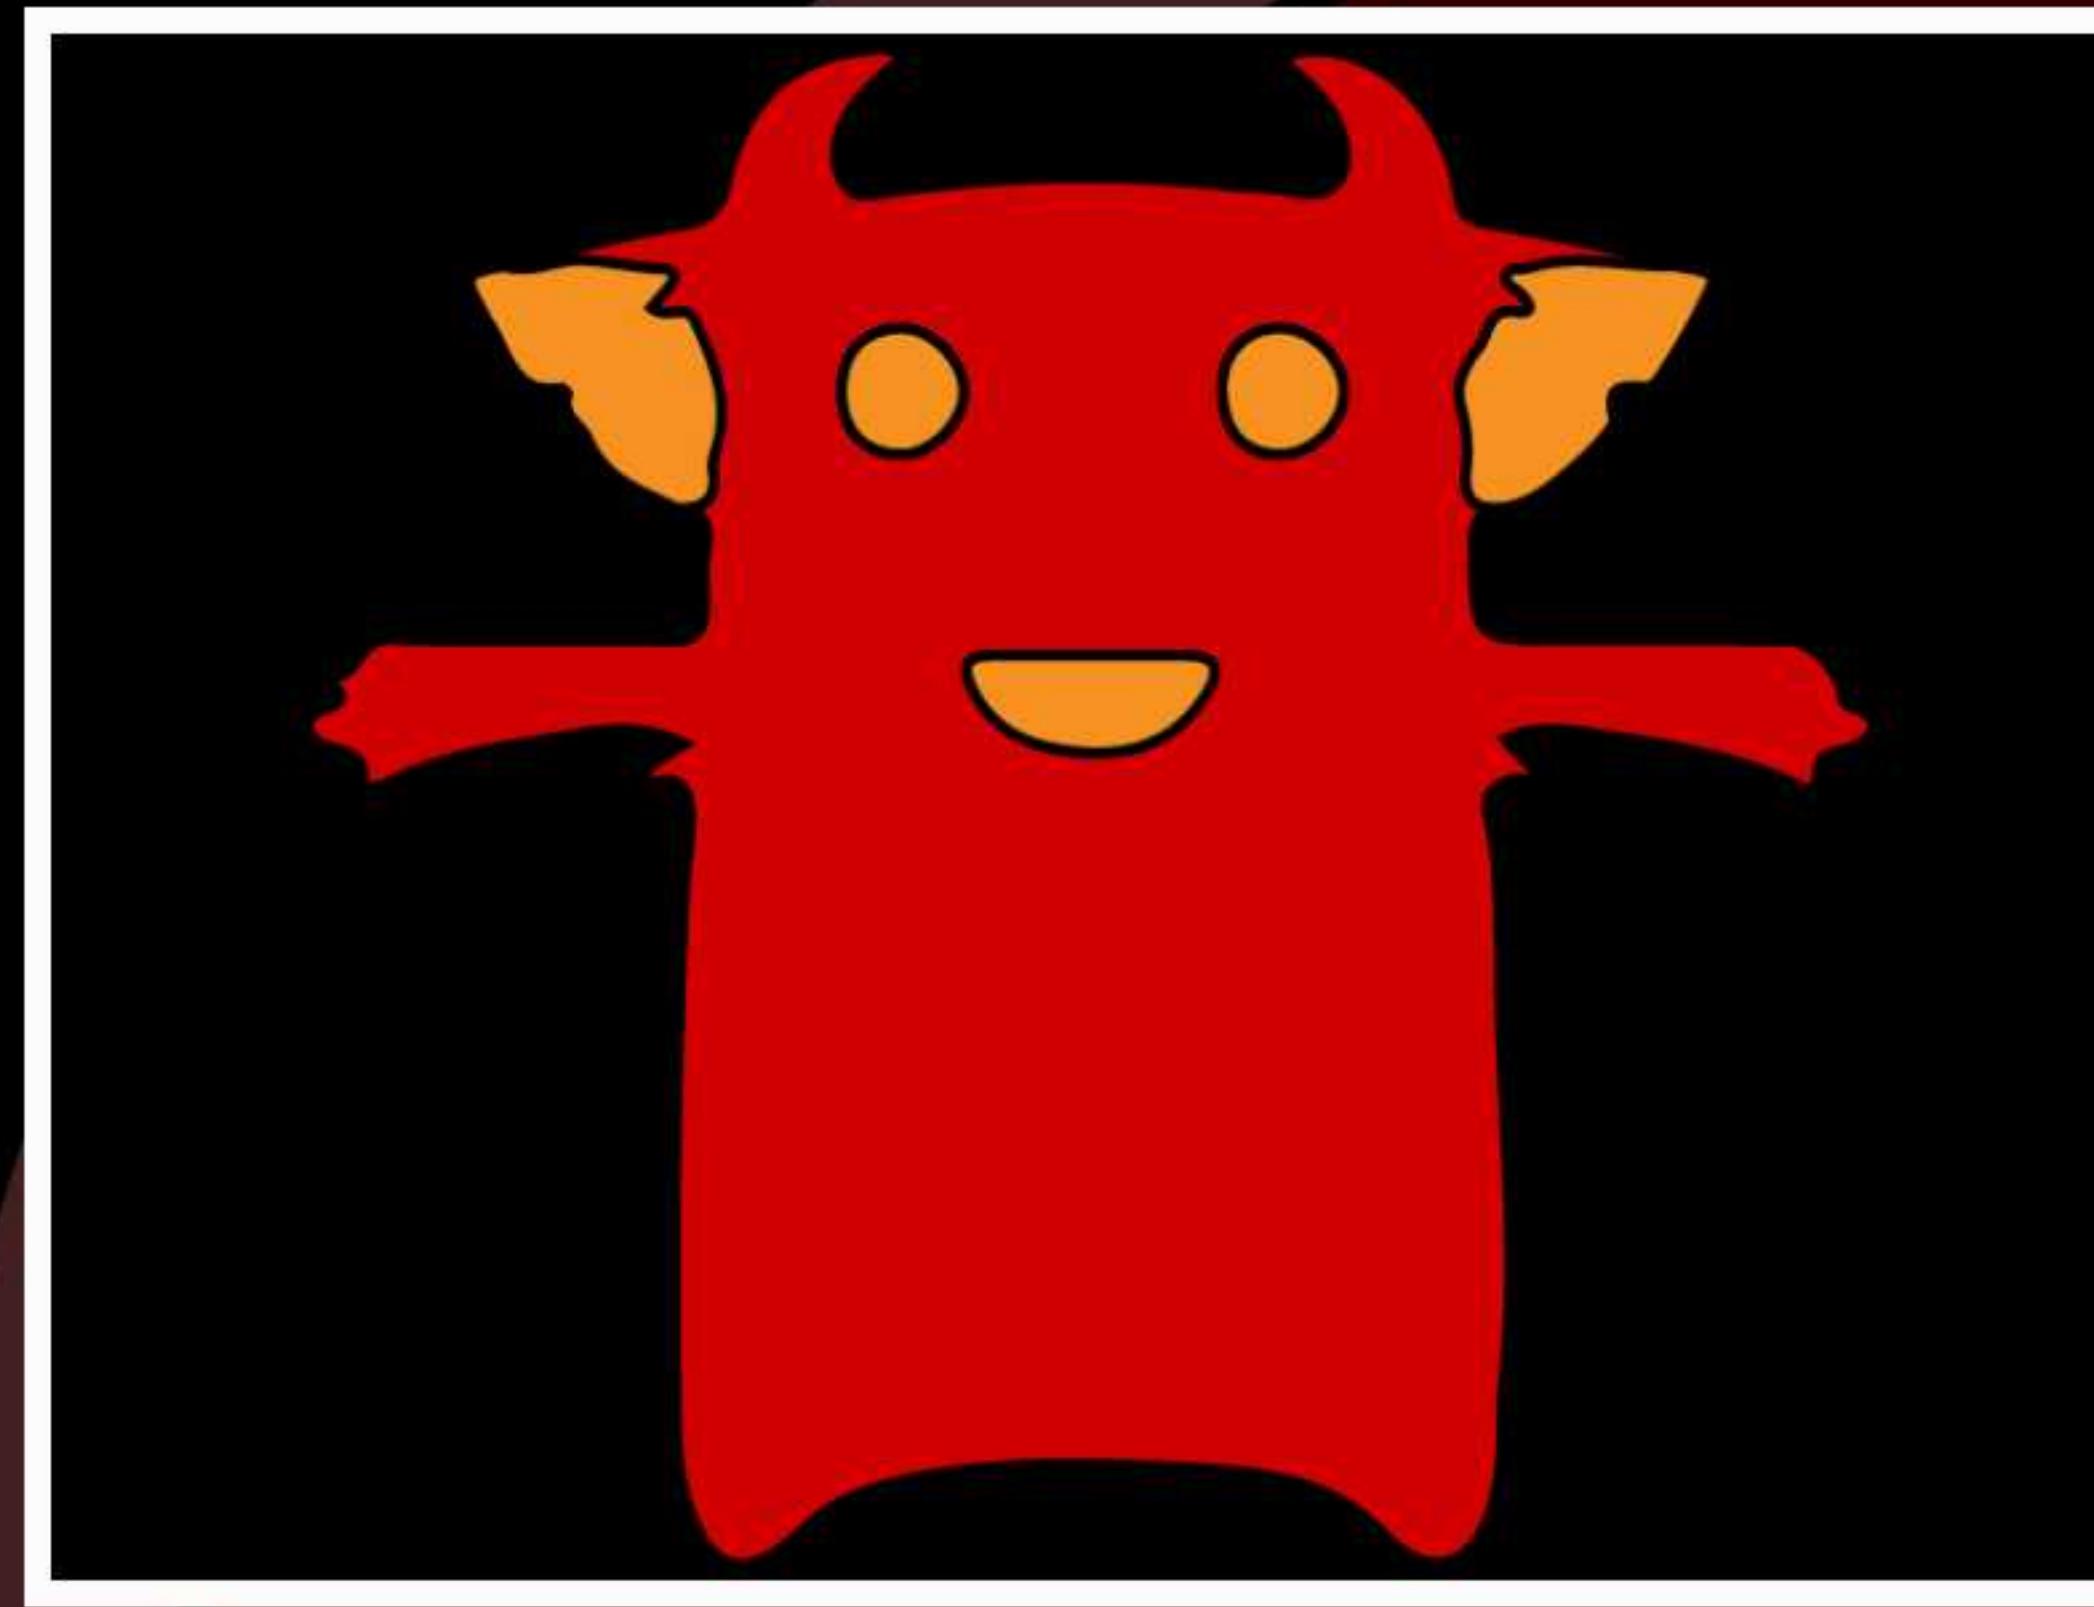

Choose a spaceship to explore the galaxy...

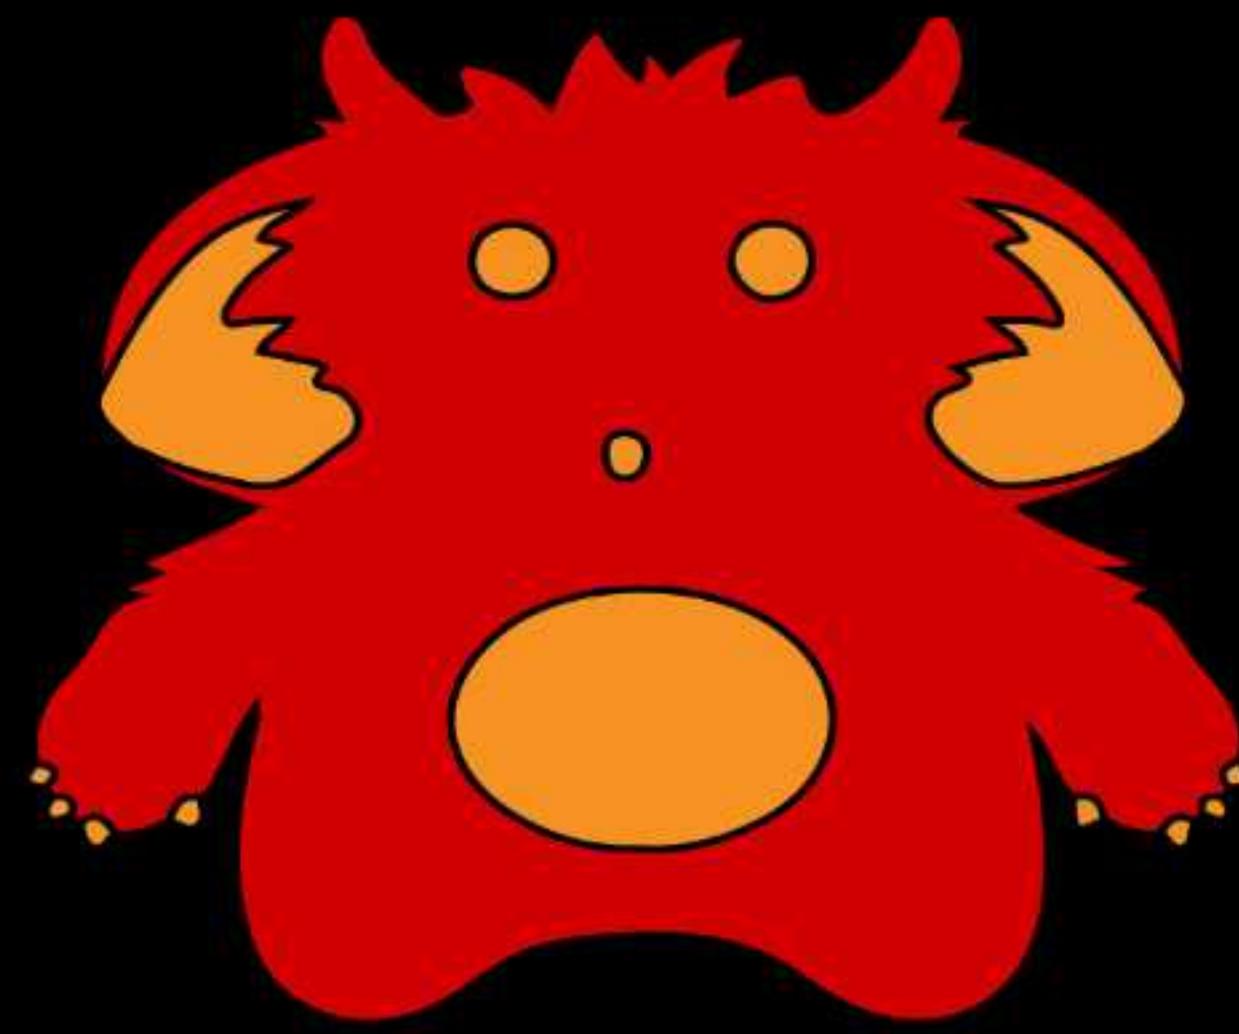

Now you ask one alien if they have space treasure to share.

Win!

Nice Job! You chose an alien who had space treasure to share!

Let's learn more about the aliens.

This will help you find more space treasure.

Each alien goes into their cave to dig for space treasure each day.

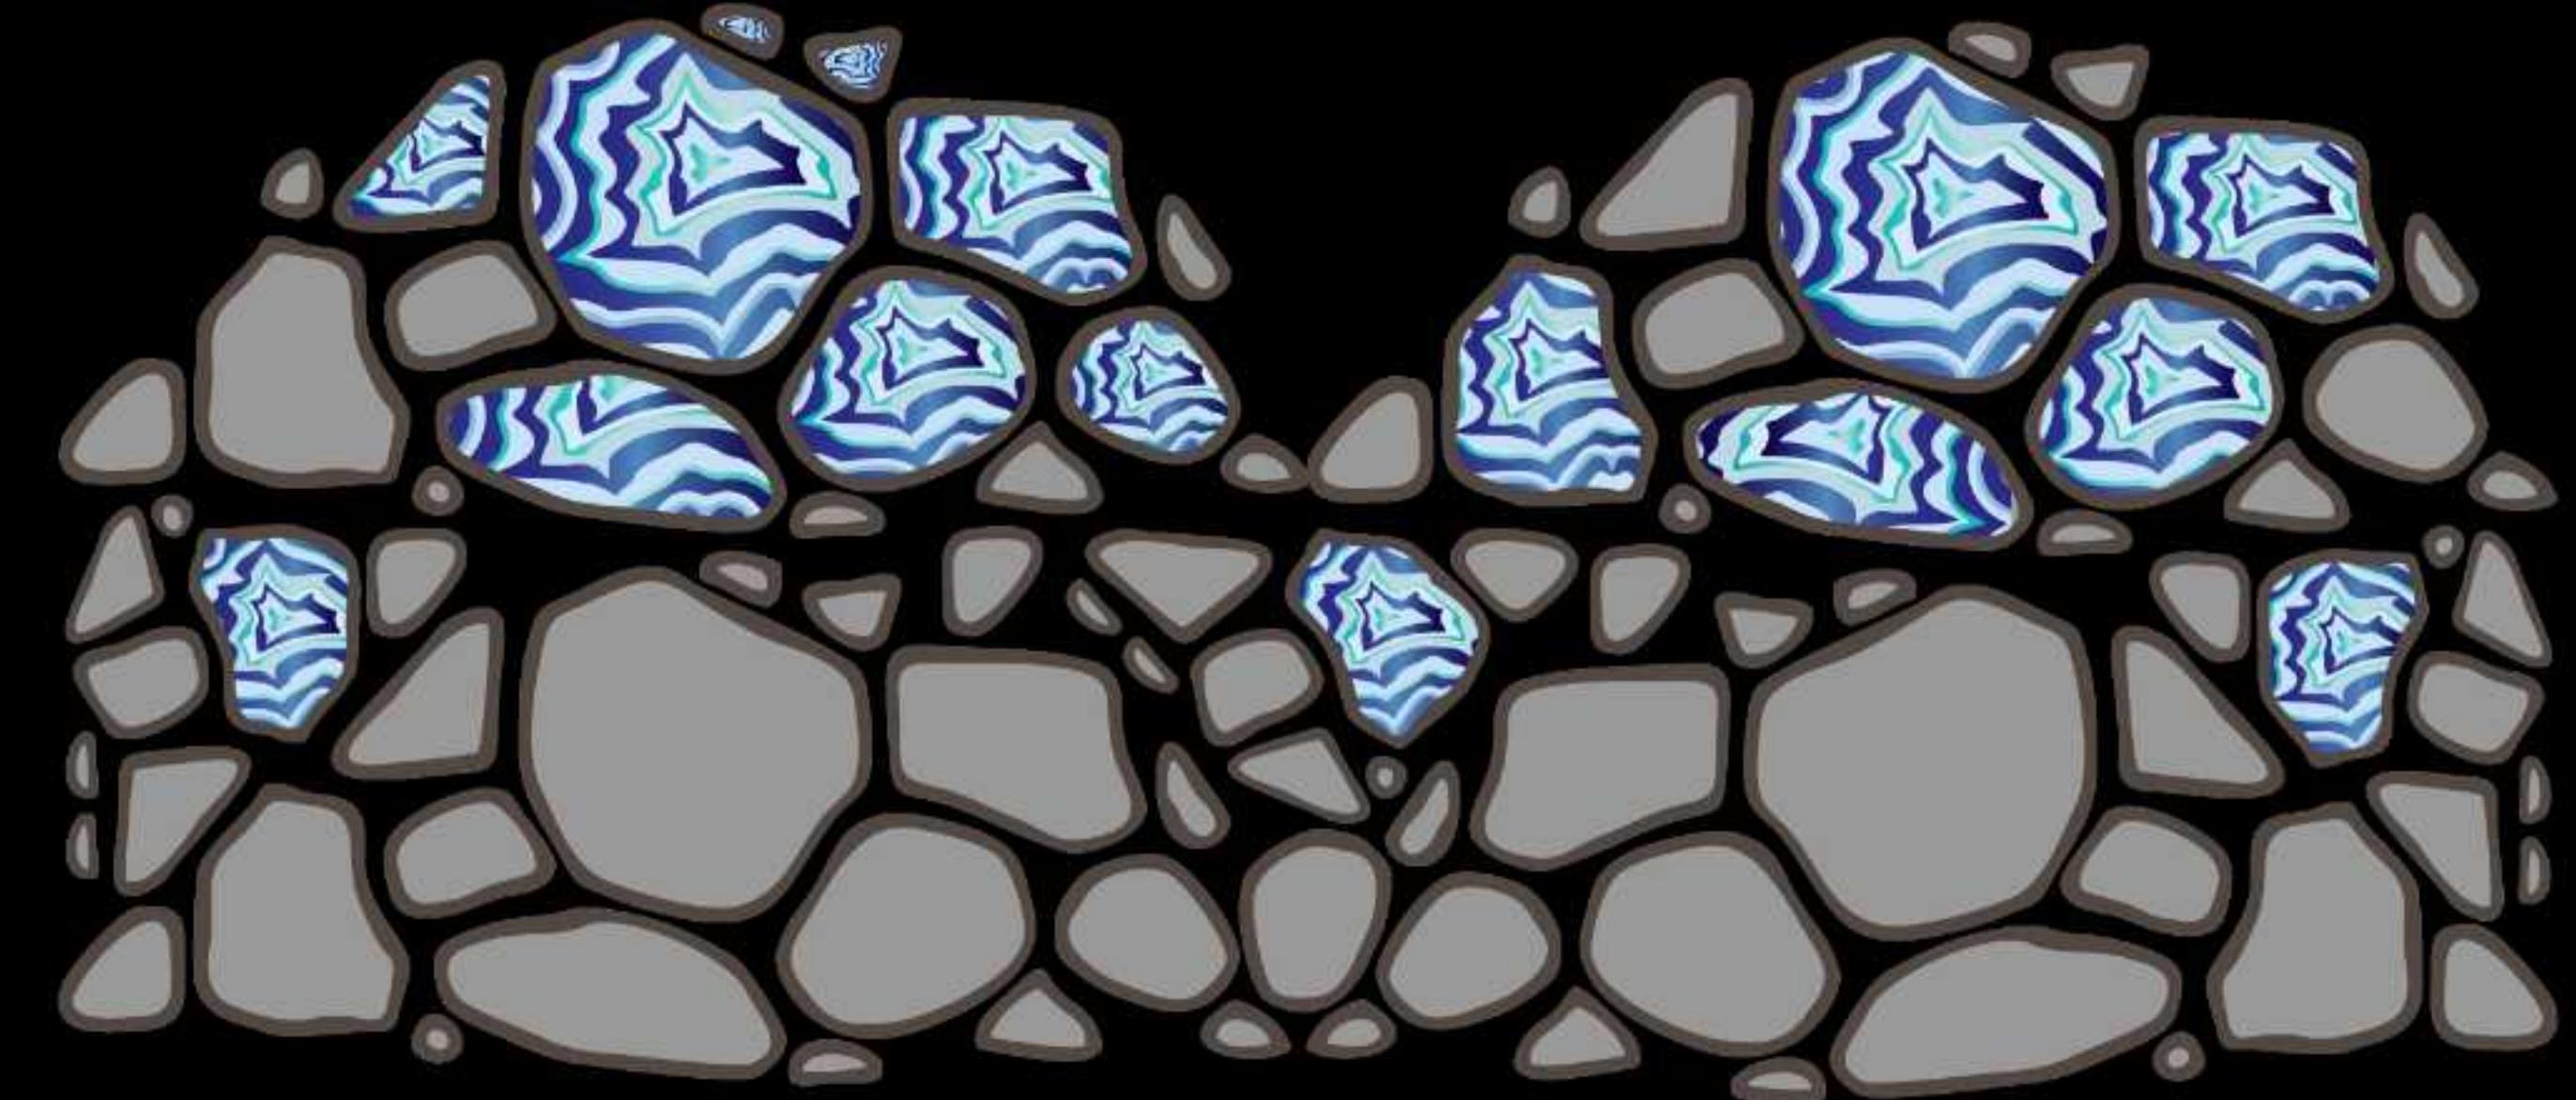

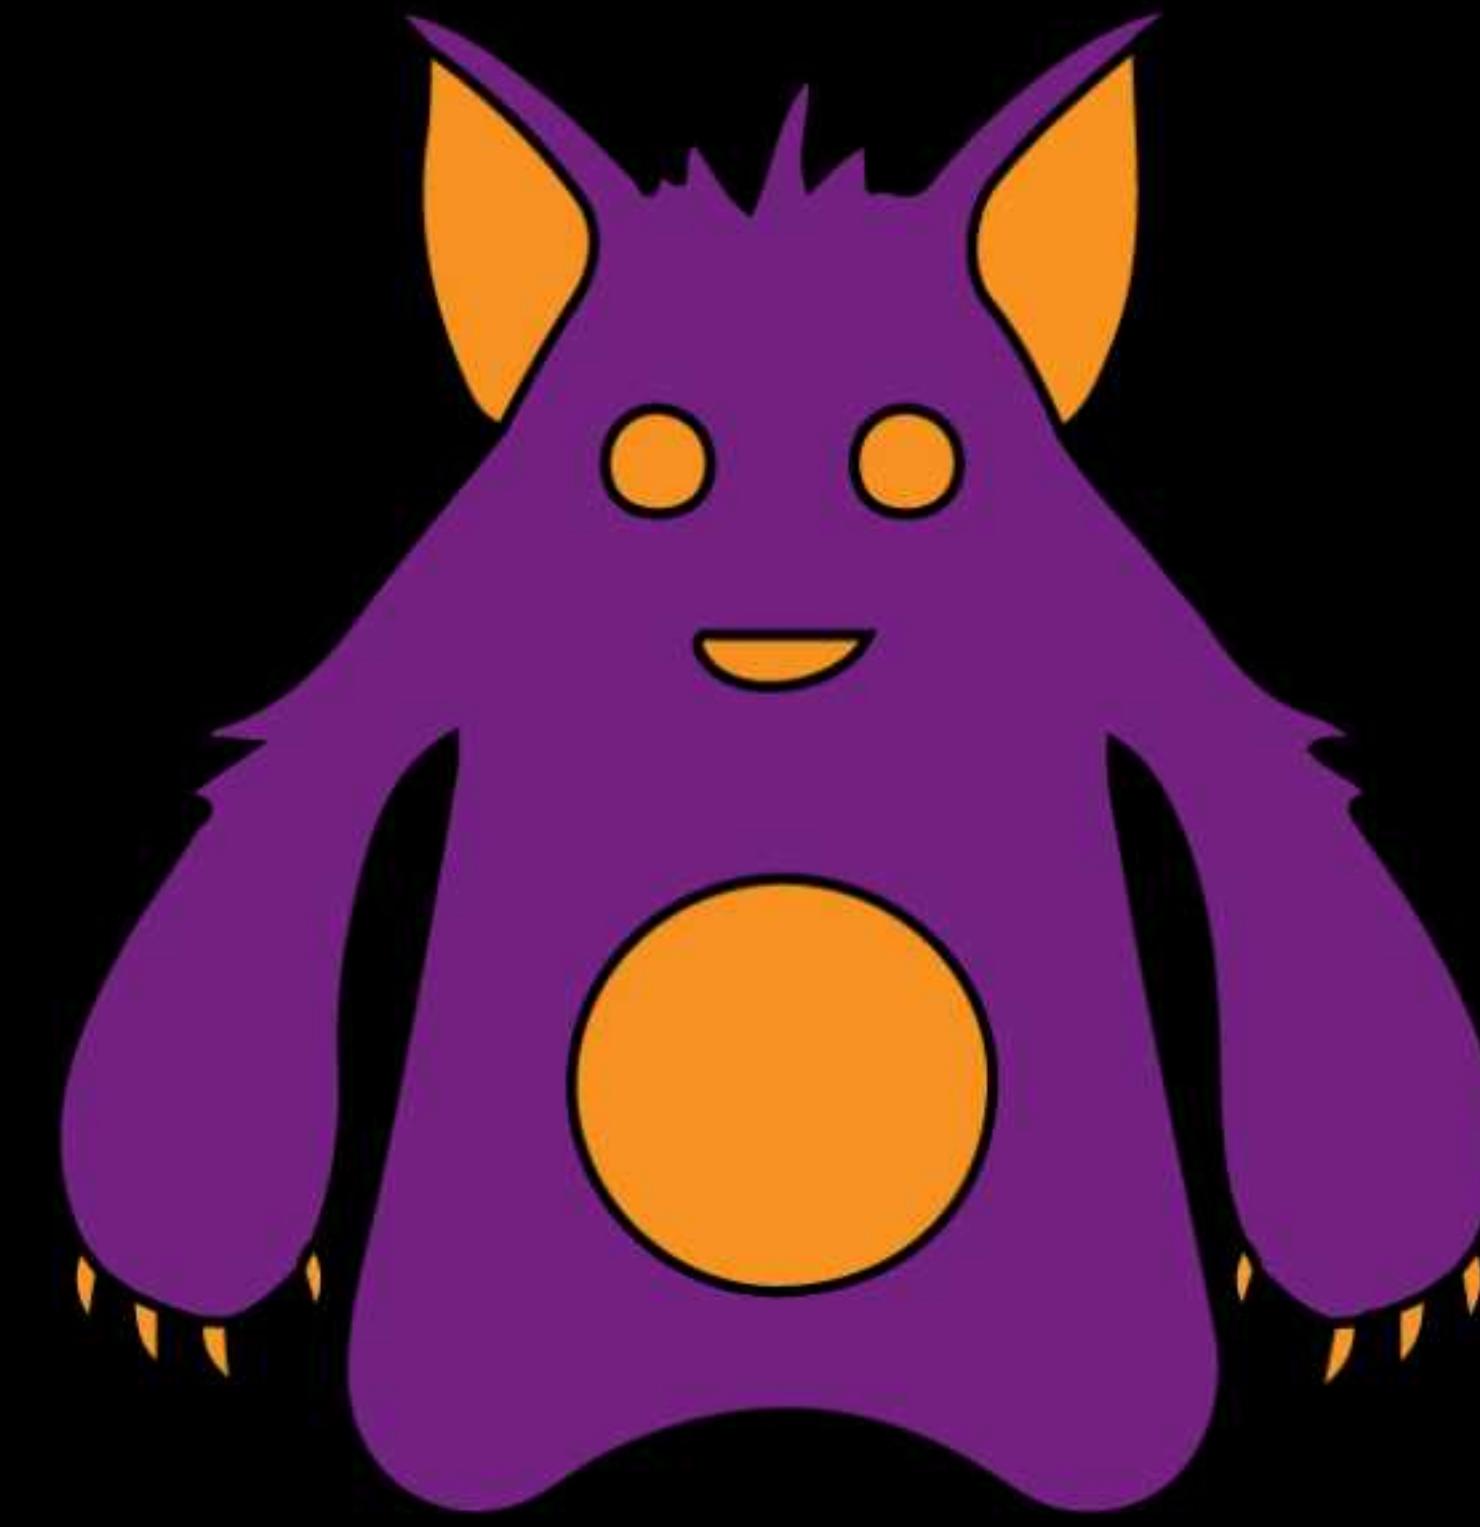

Digging for space treasure is hard work and requires good luck!

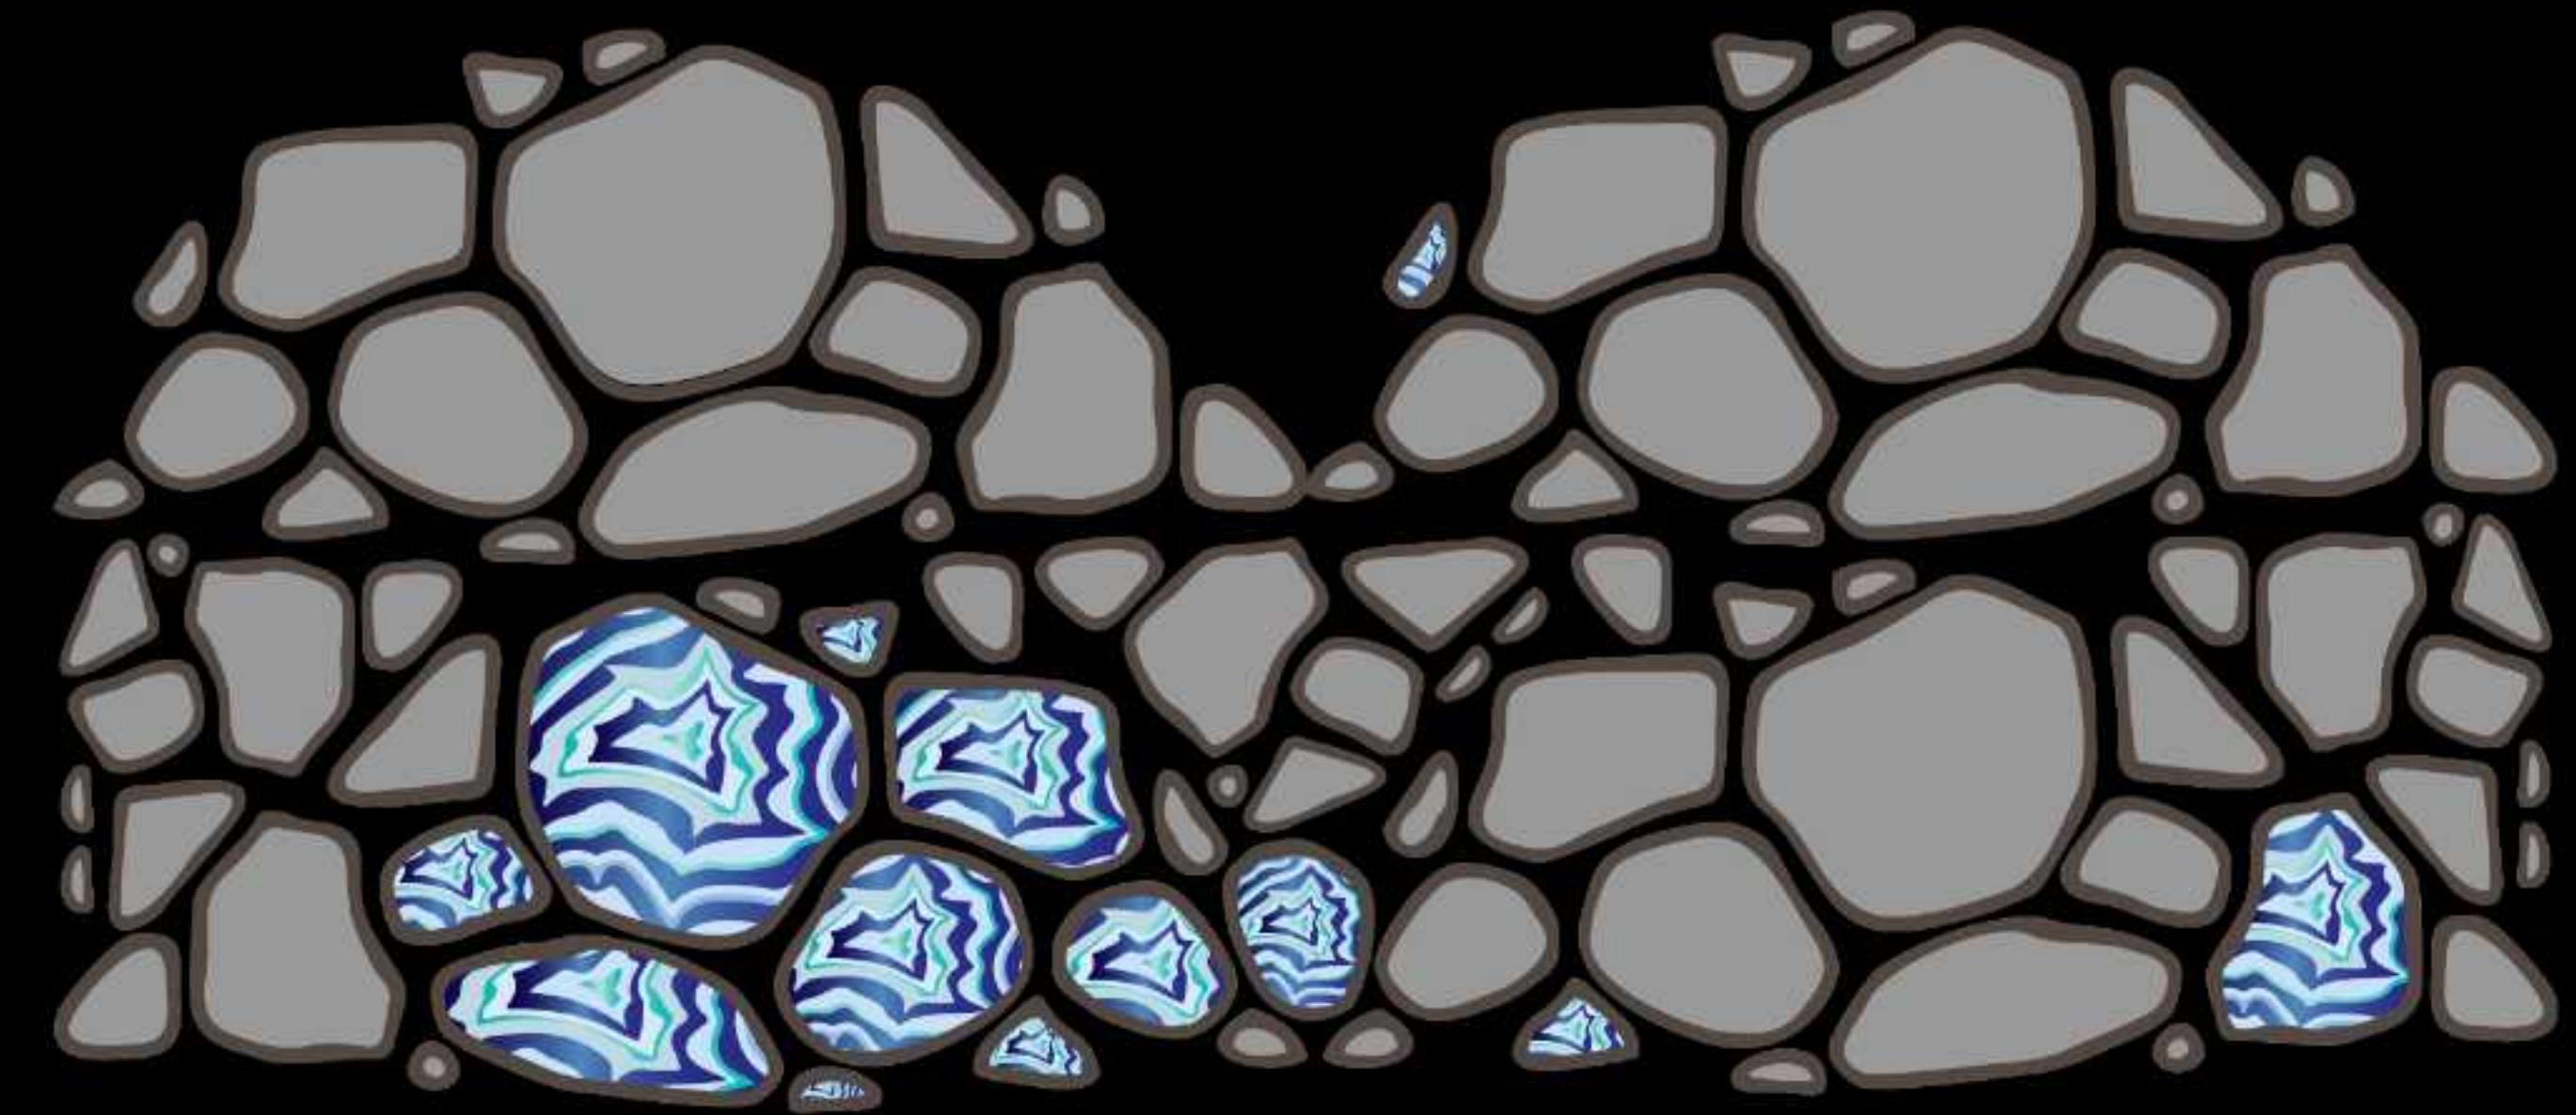

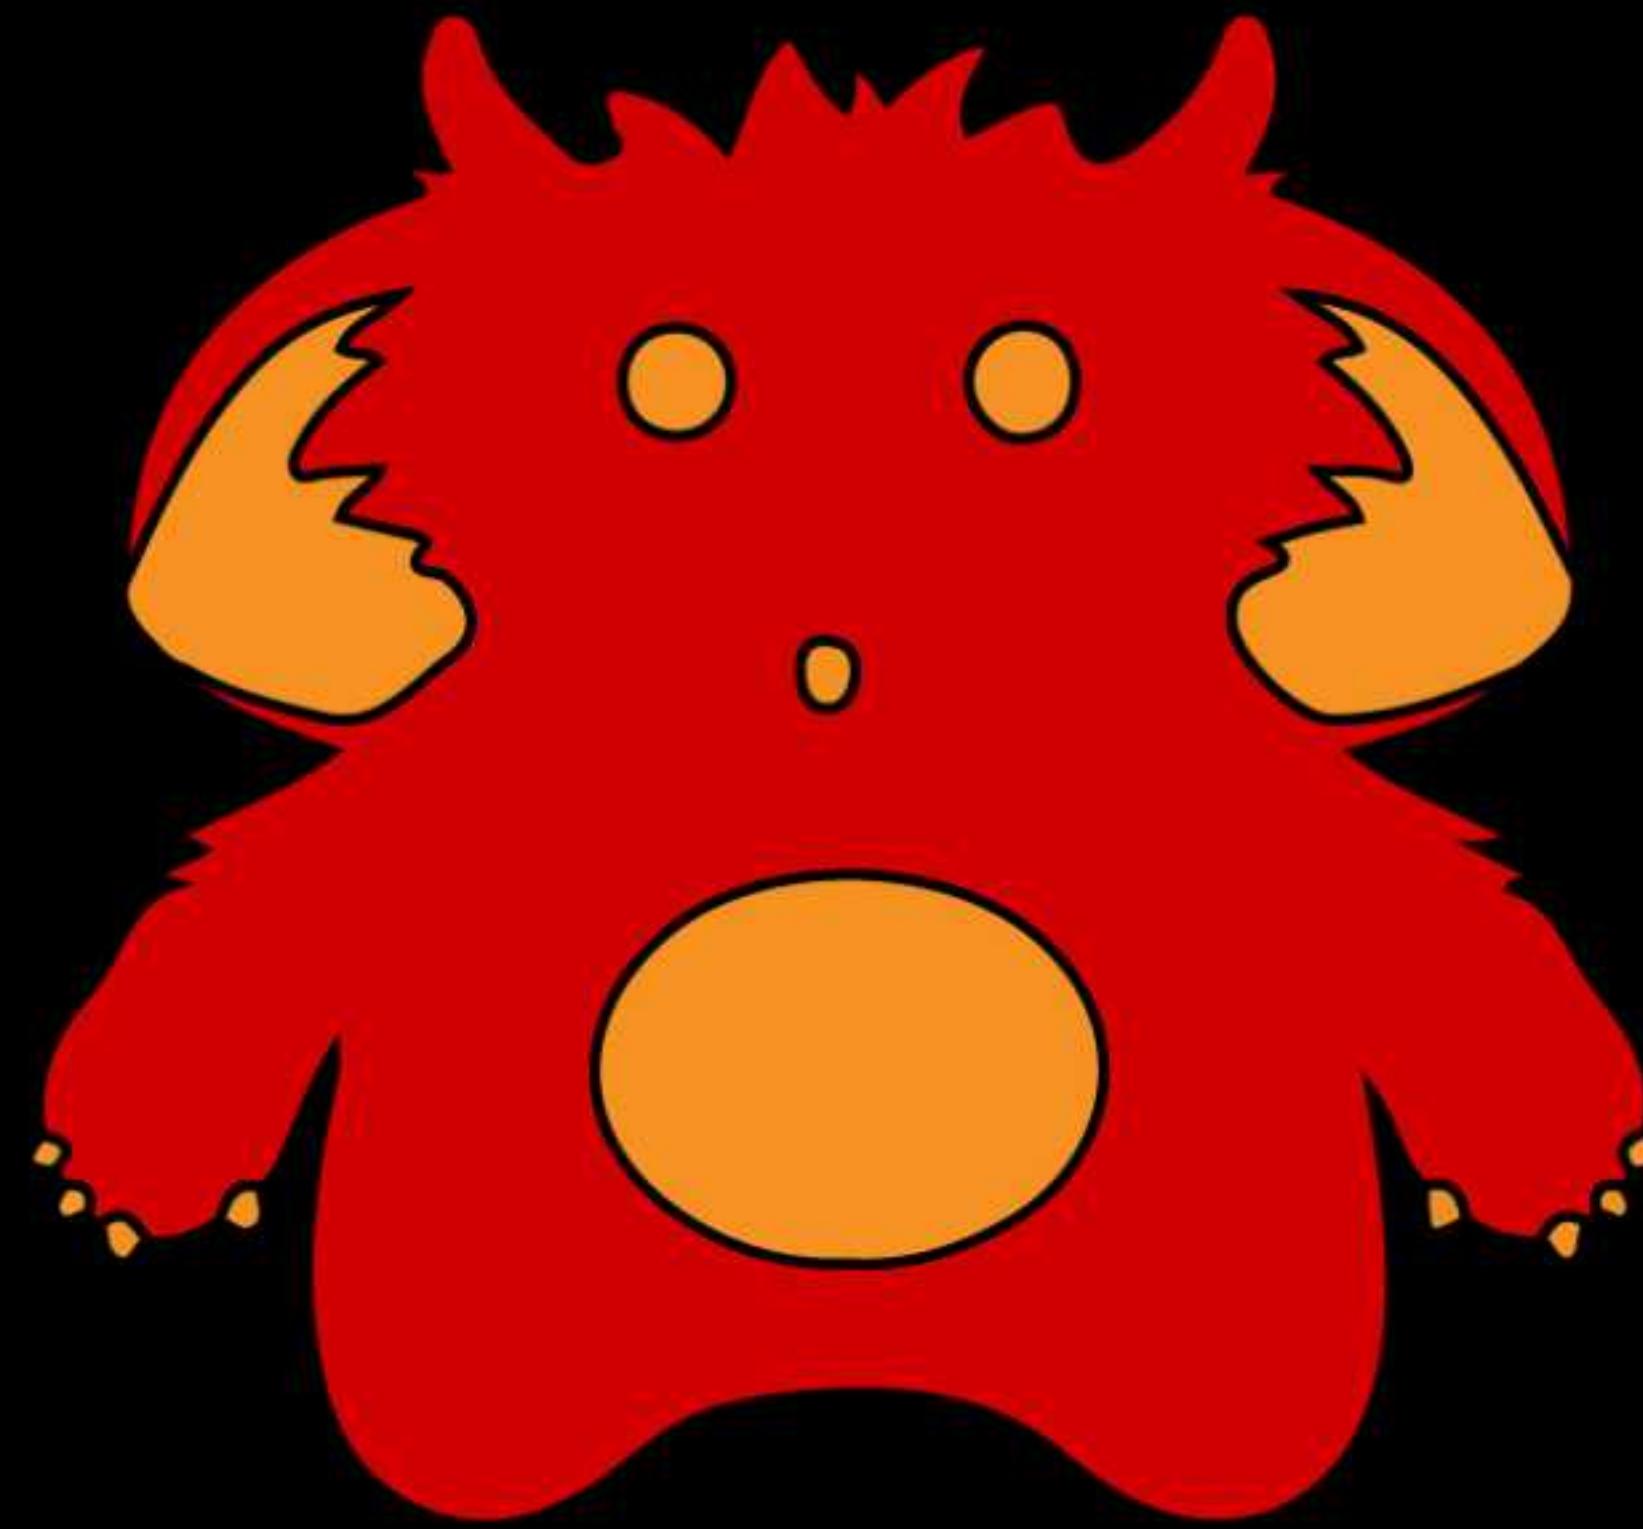

Each day the aliens may or may not find space treasure to share with you.

Some aliens may be able to share more often than other aliens.

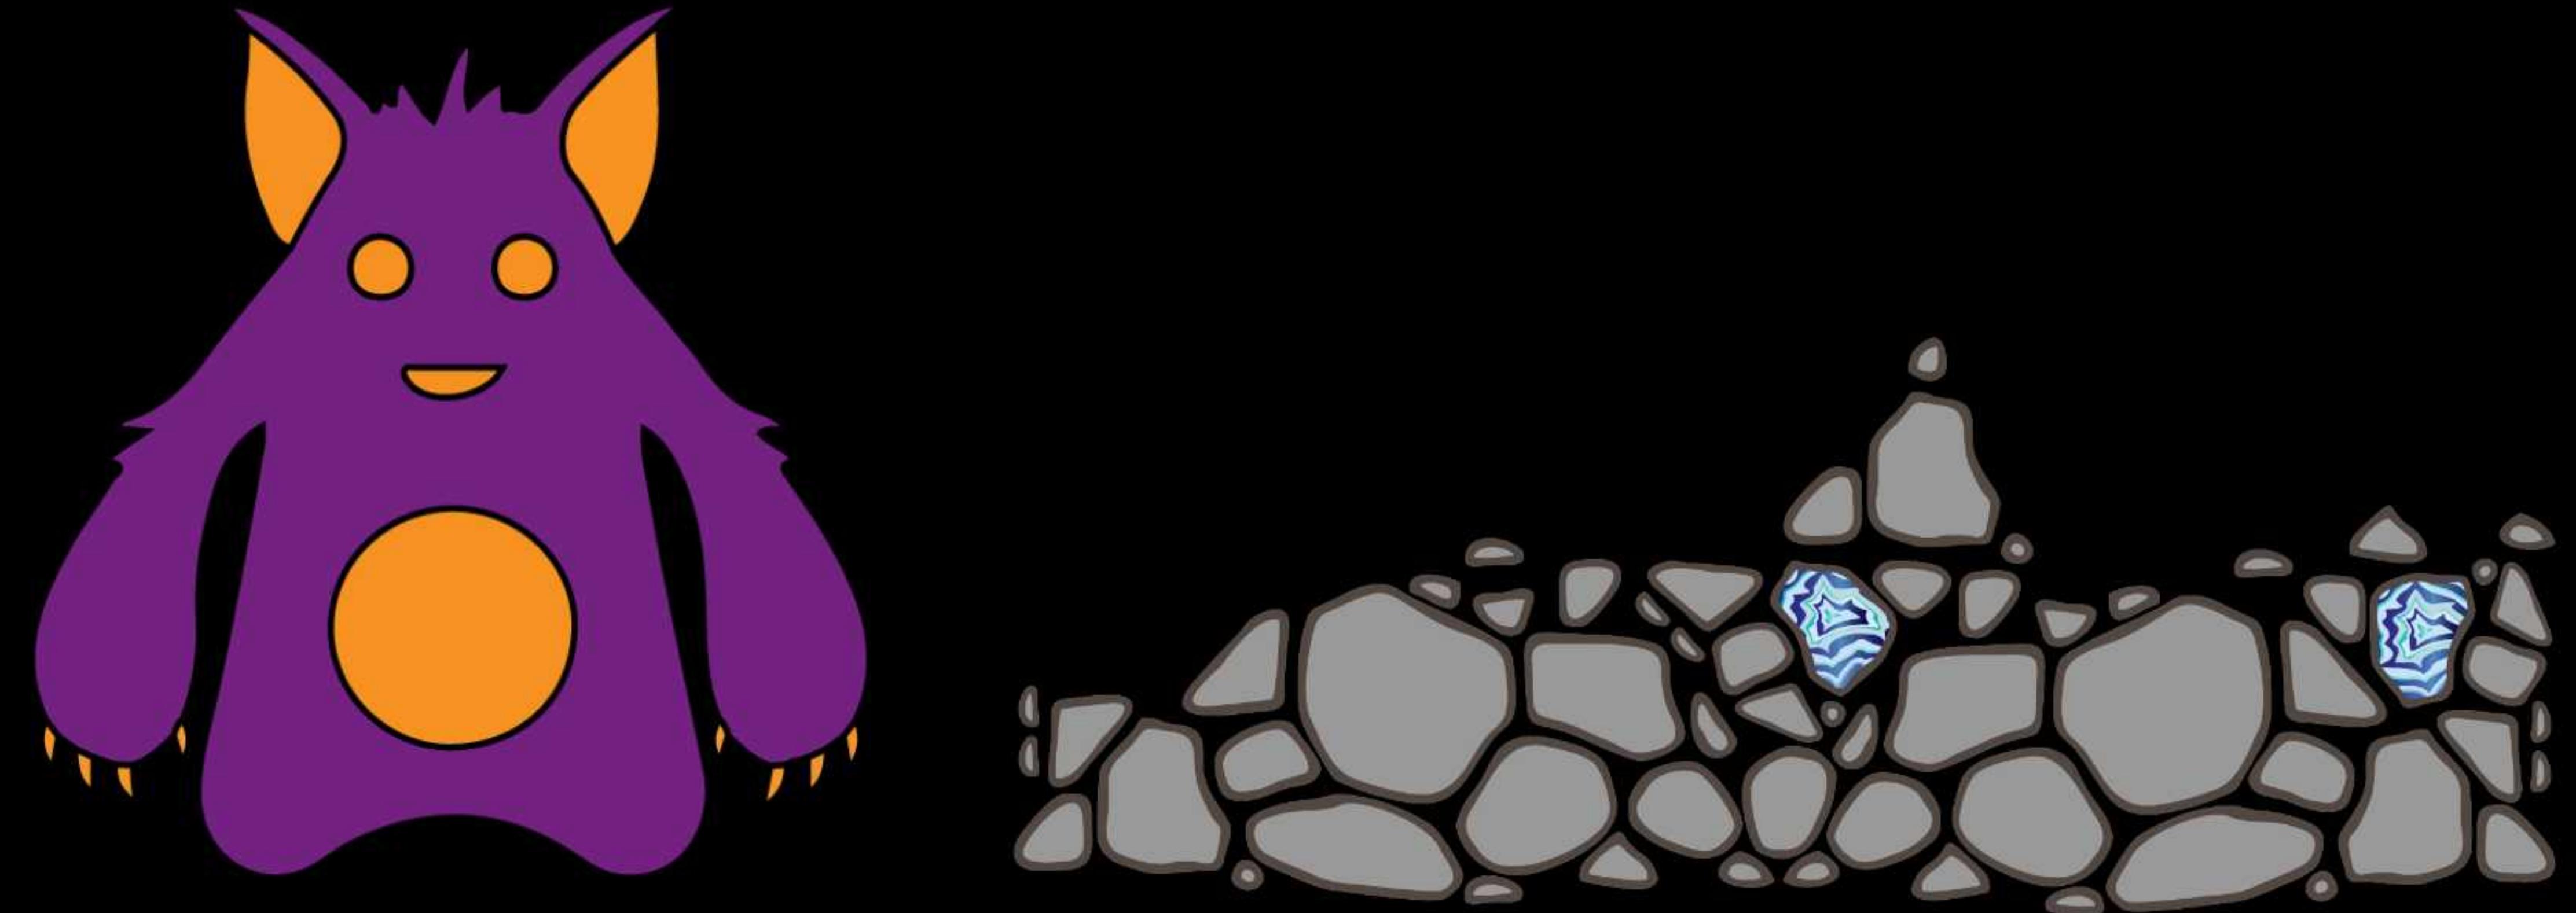

If an alien finds lots of space treasure at the top of their cave...
they will be able to share space treasure on most days.

If an alien has to dig through lots of rock to find space treasure...
they will not be able to share space treasure on most days.

But remember that each alien is slowly digging in their cave each day.

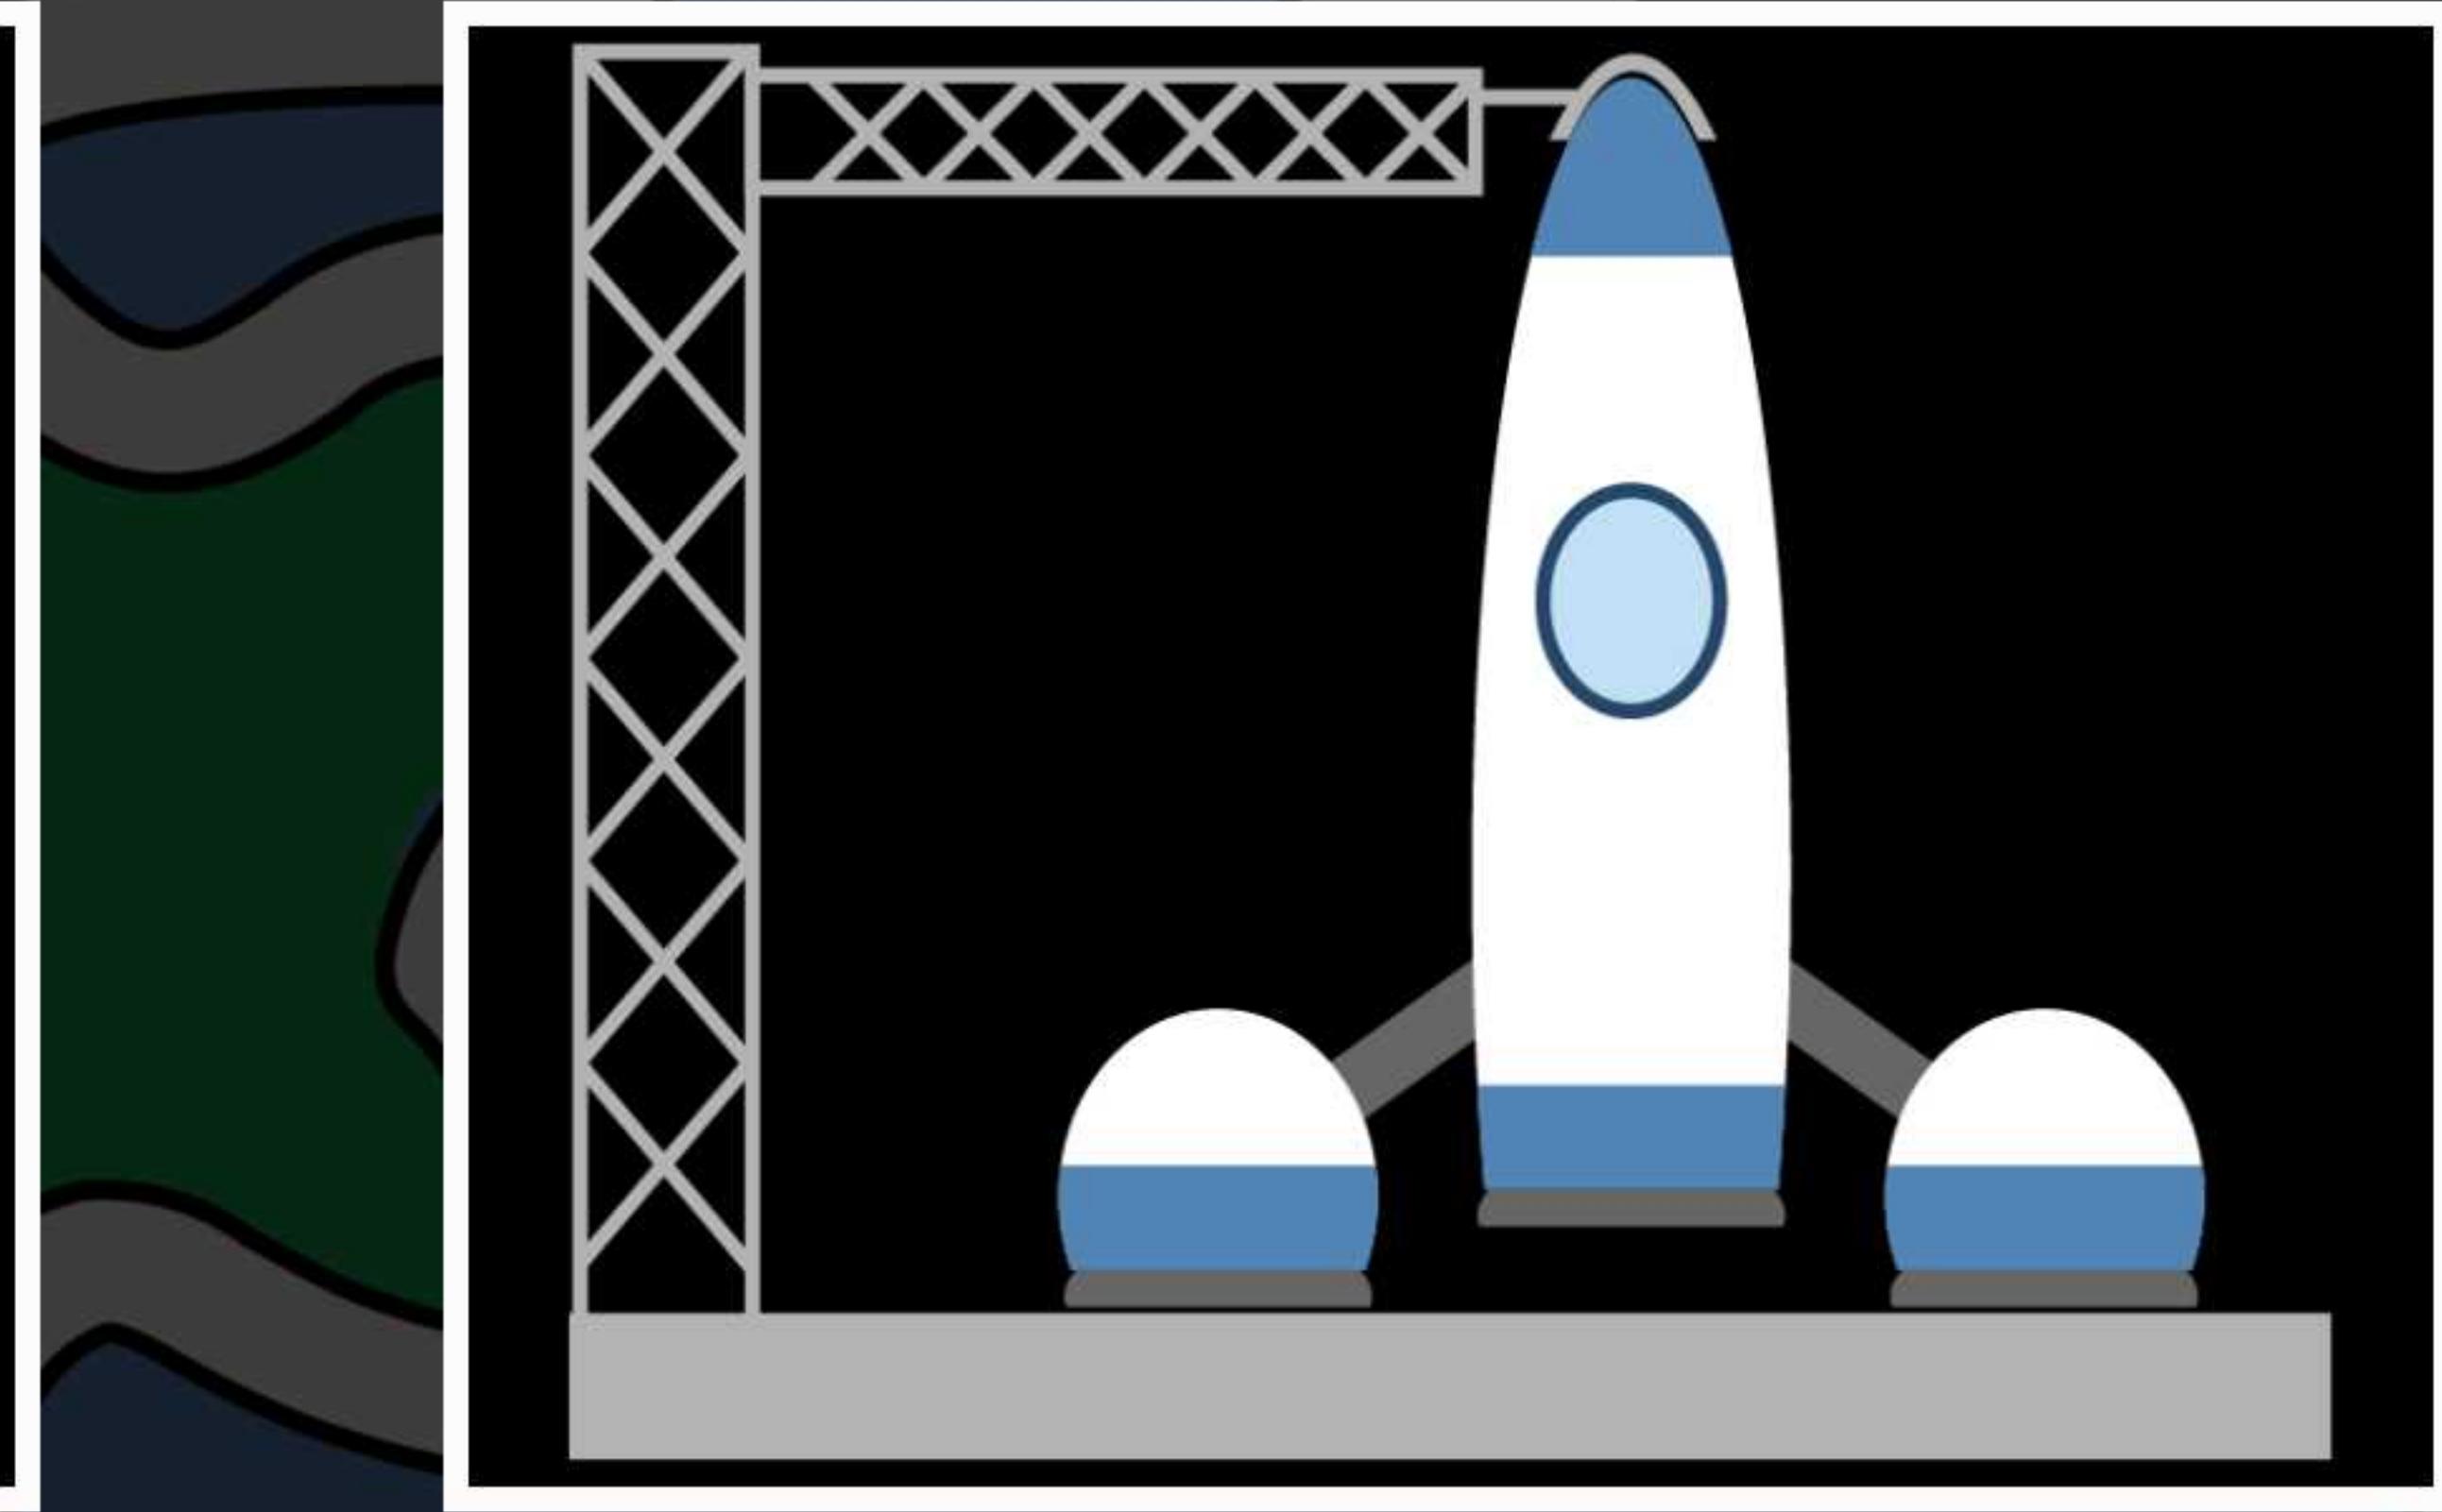

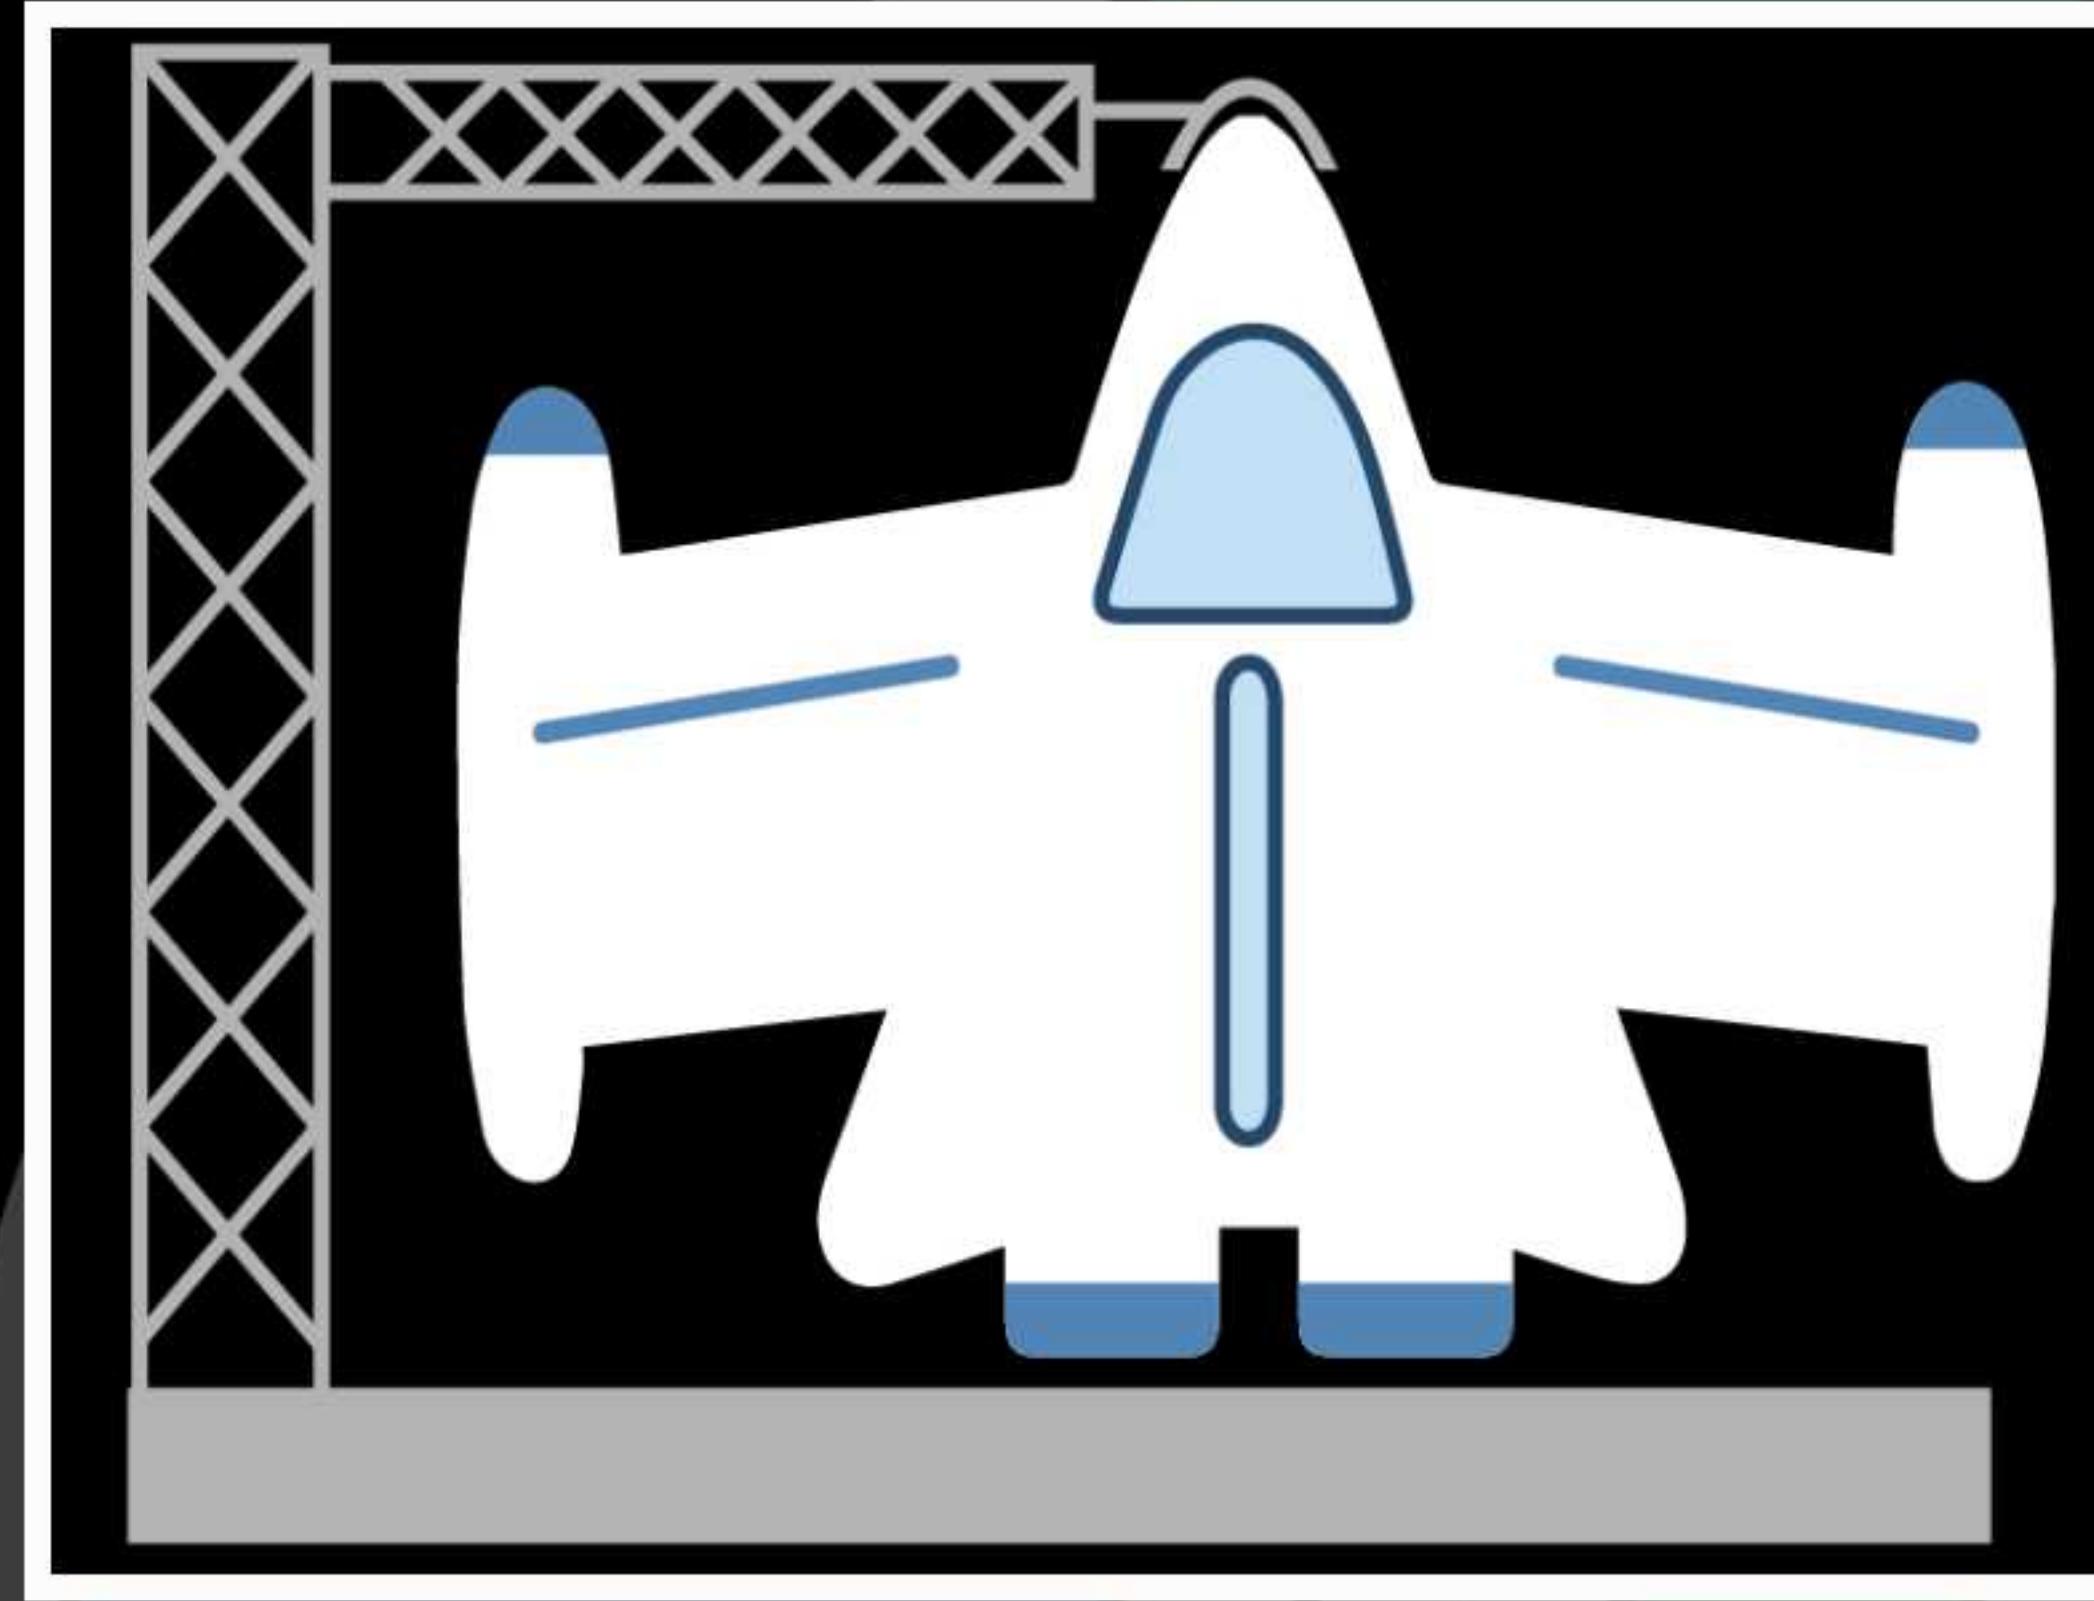

The alien that had lots of space treasure to share in the beginning may slowly run out.

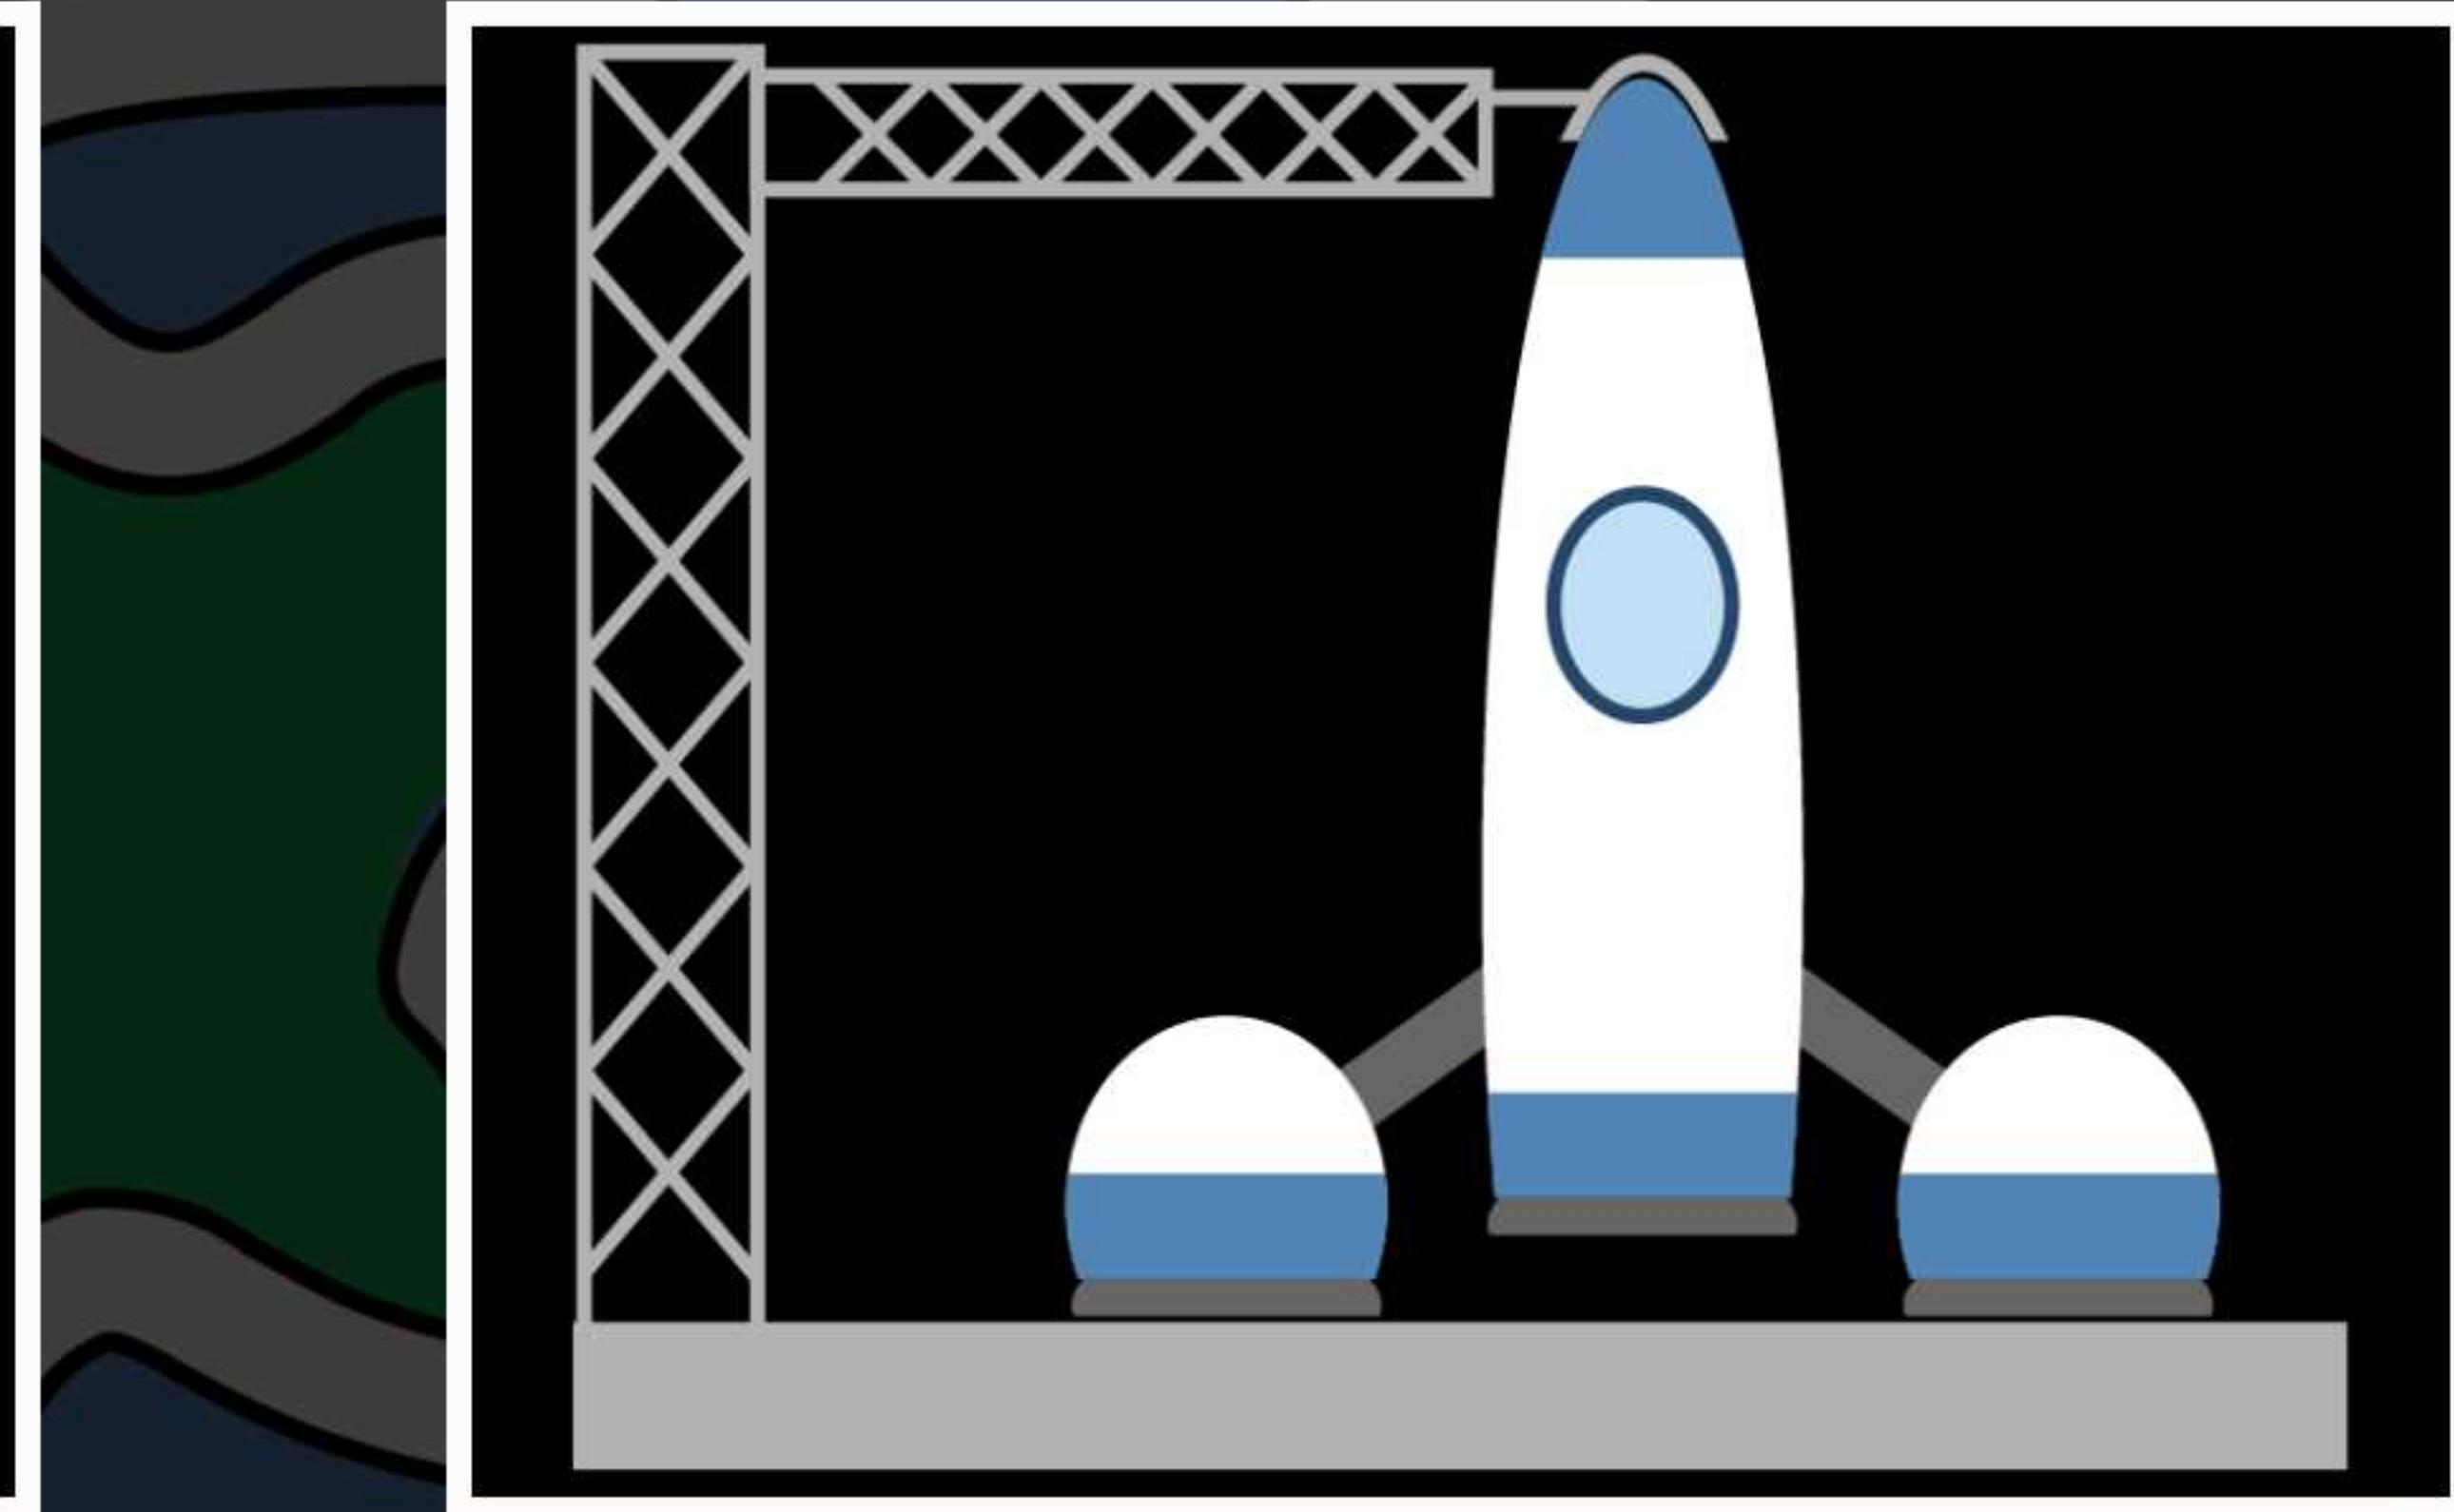

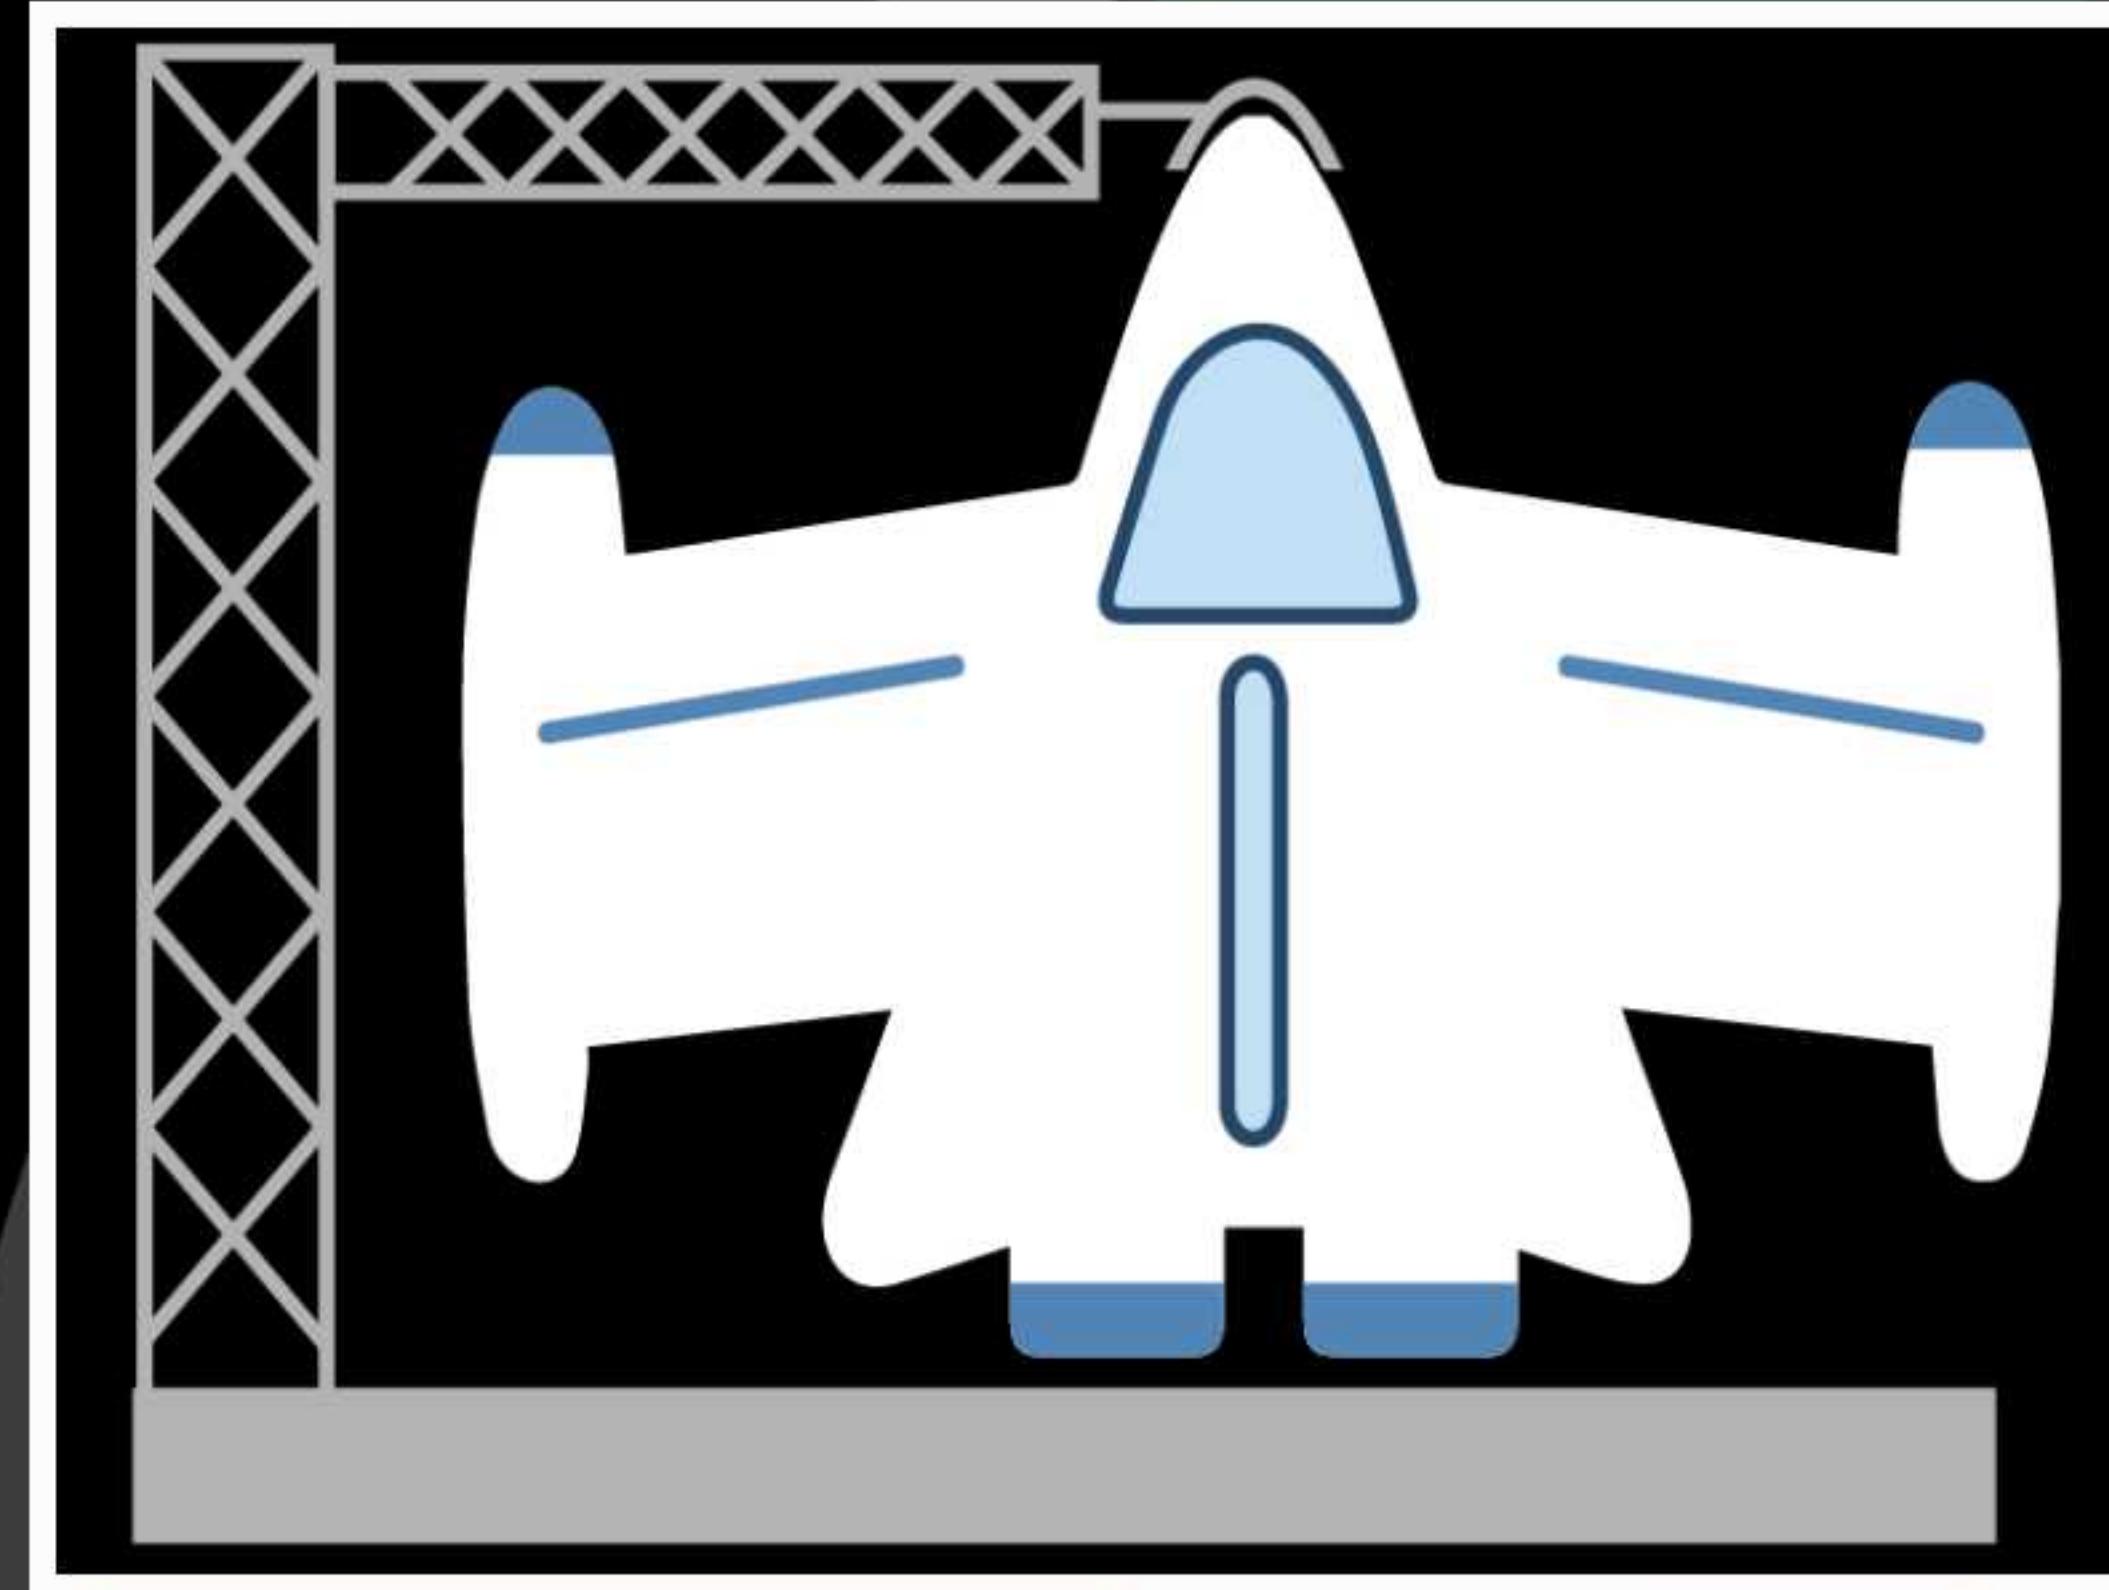

And the alien that had to dig through lots of rock in the beginning,
may slowly uncover space treasure to share!

This means you will have to pay close attention.
How much the aliens can share will slowly change over time.

Let's learn more about your spaceships.
This will help you find more space treasure.

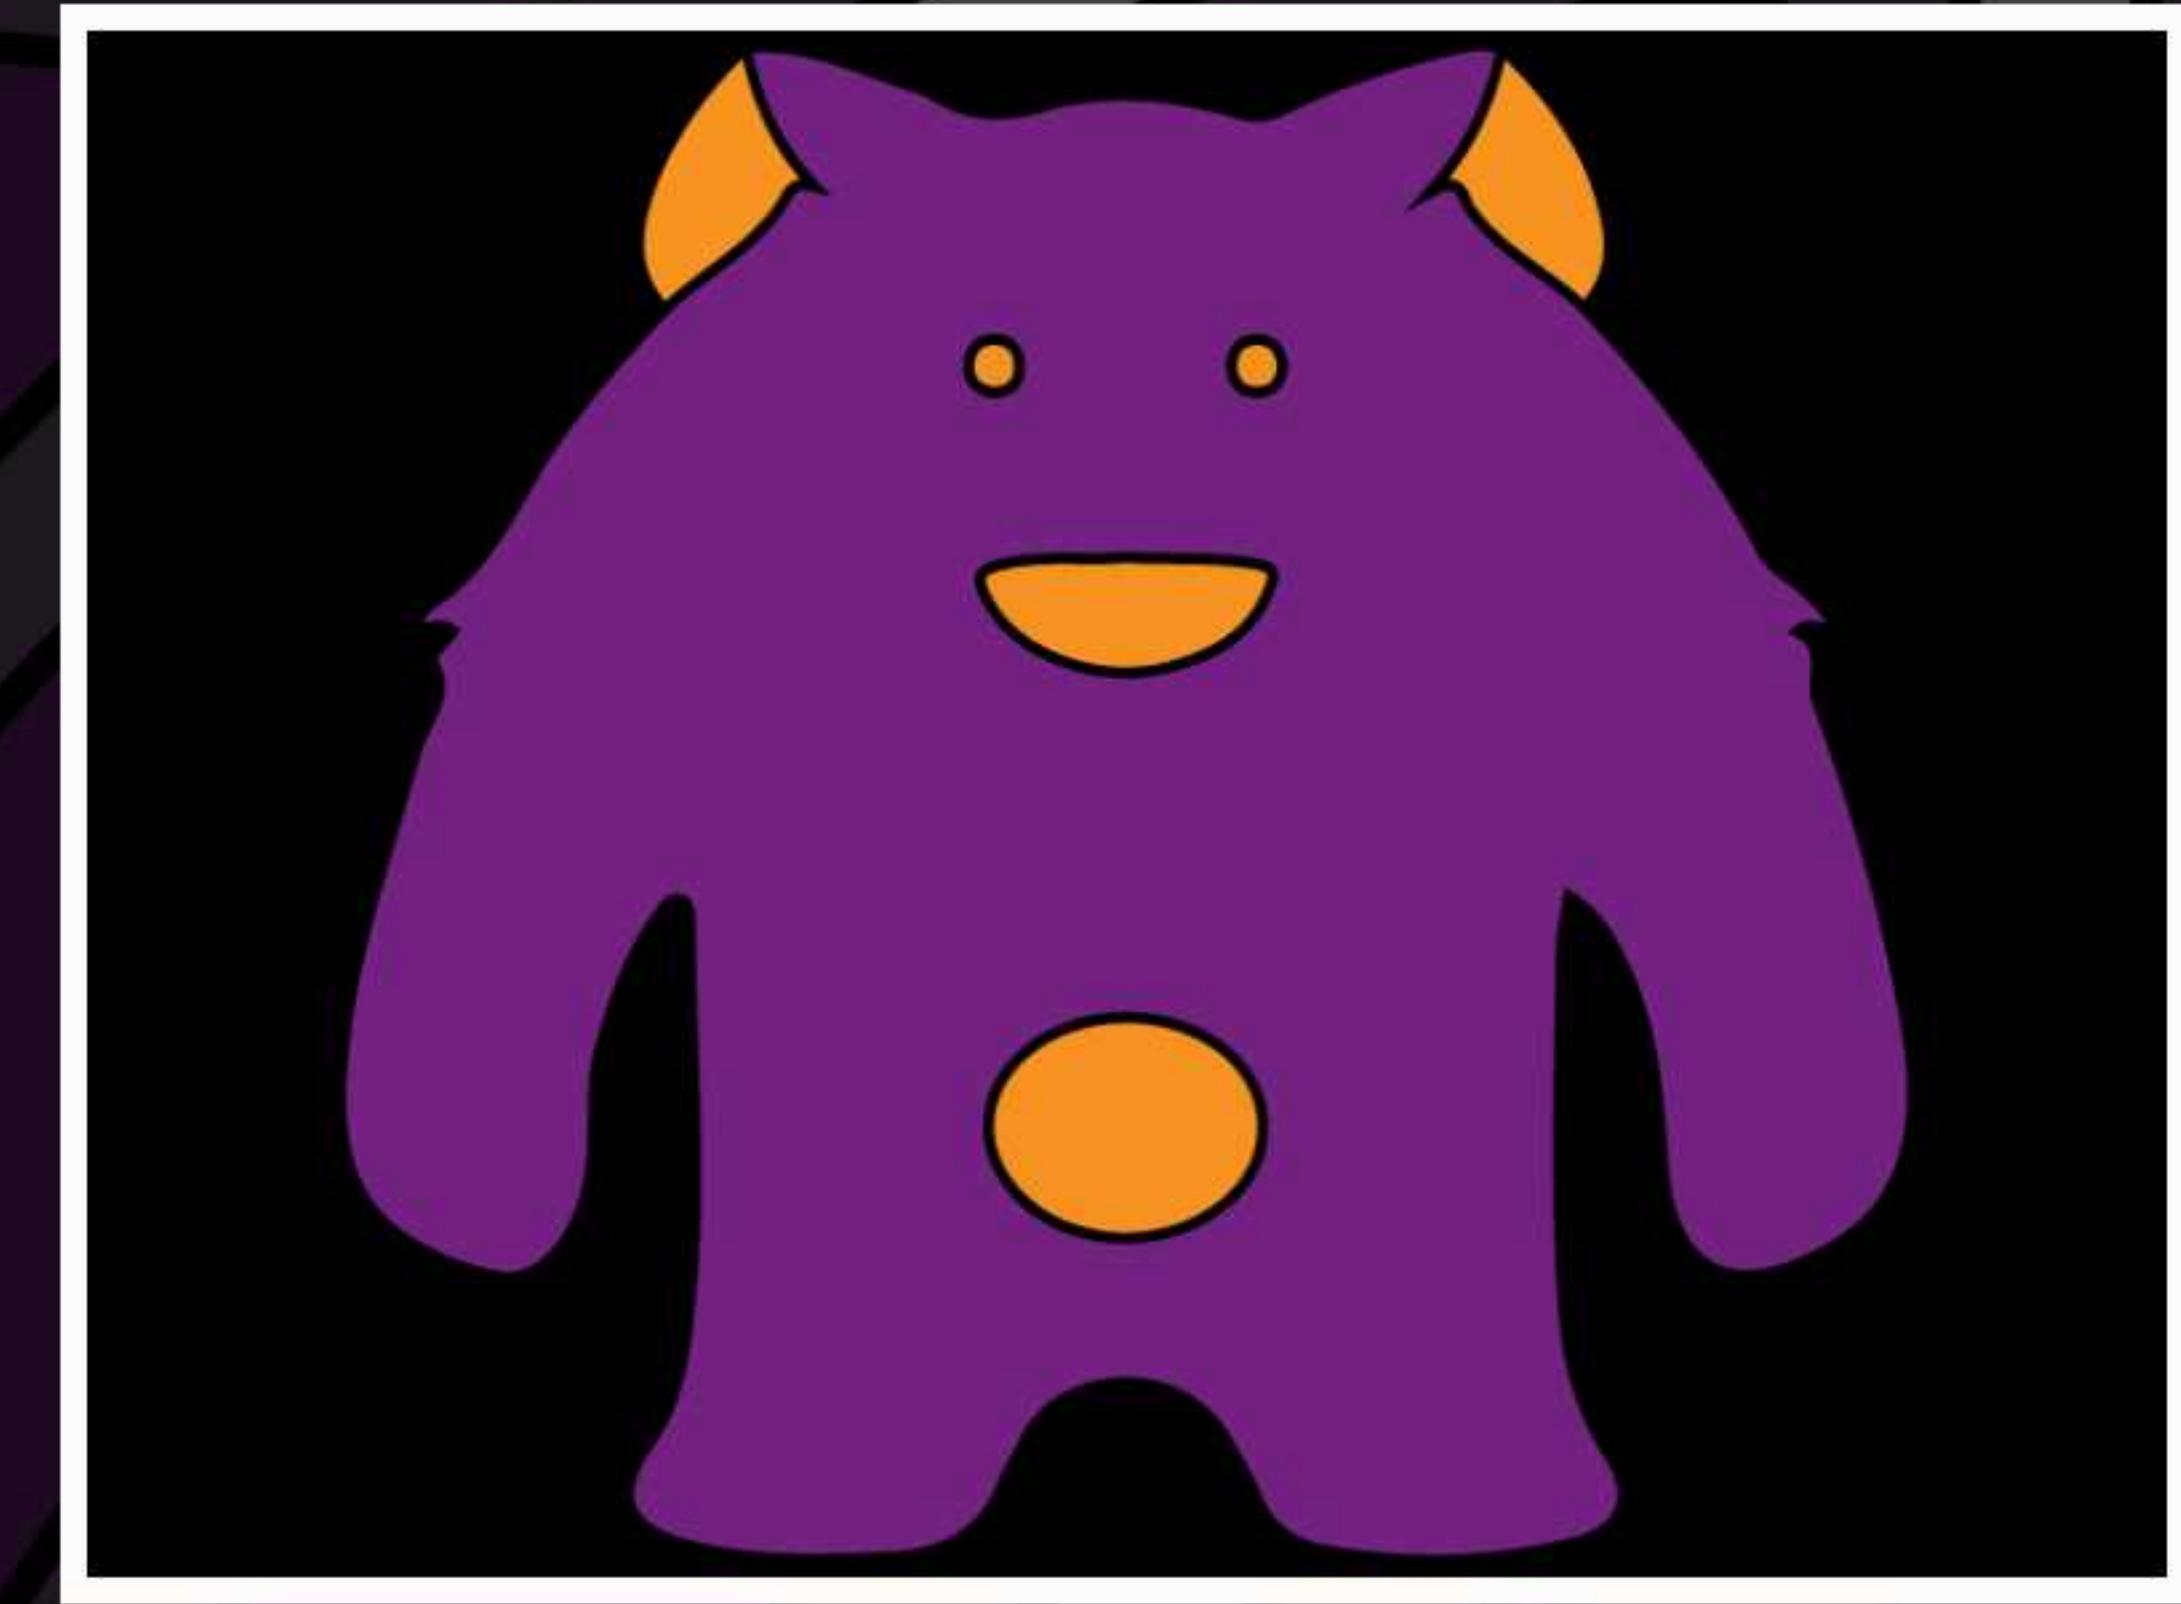

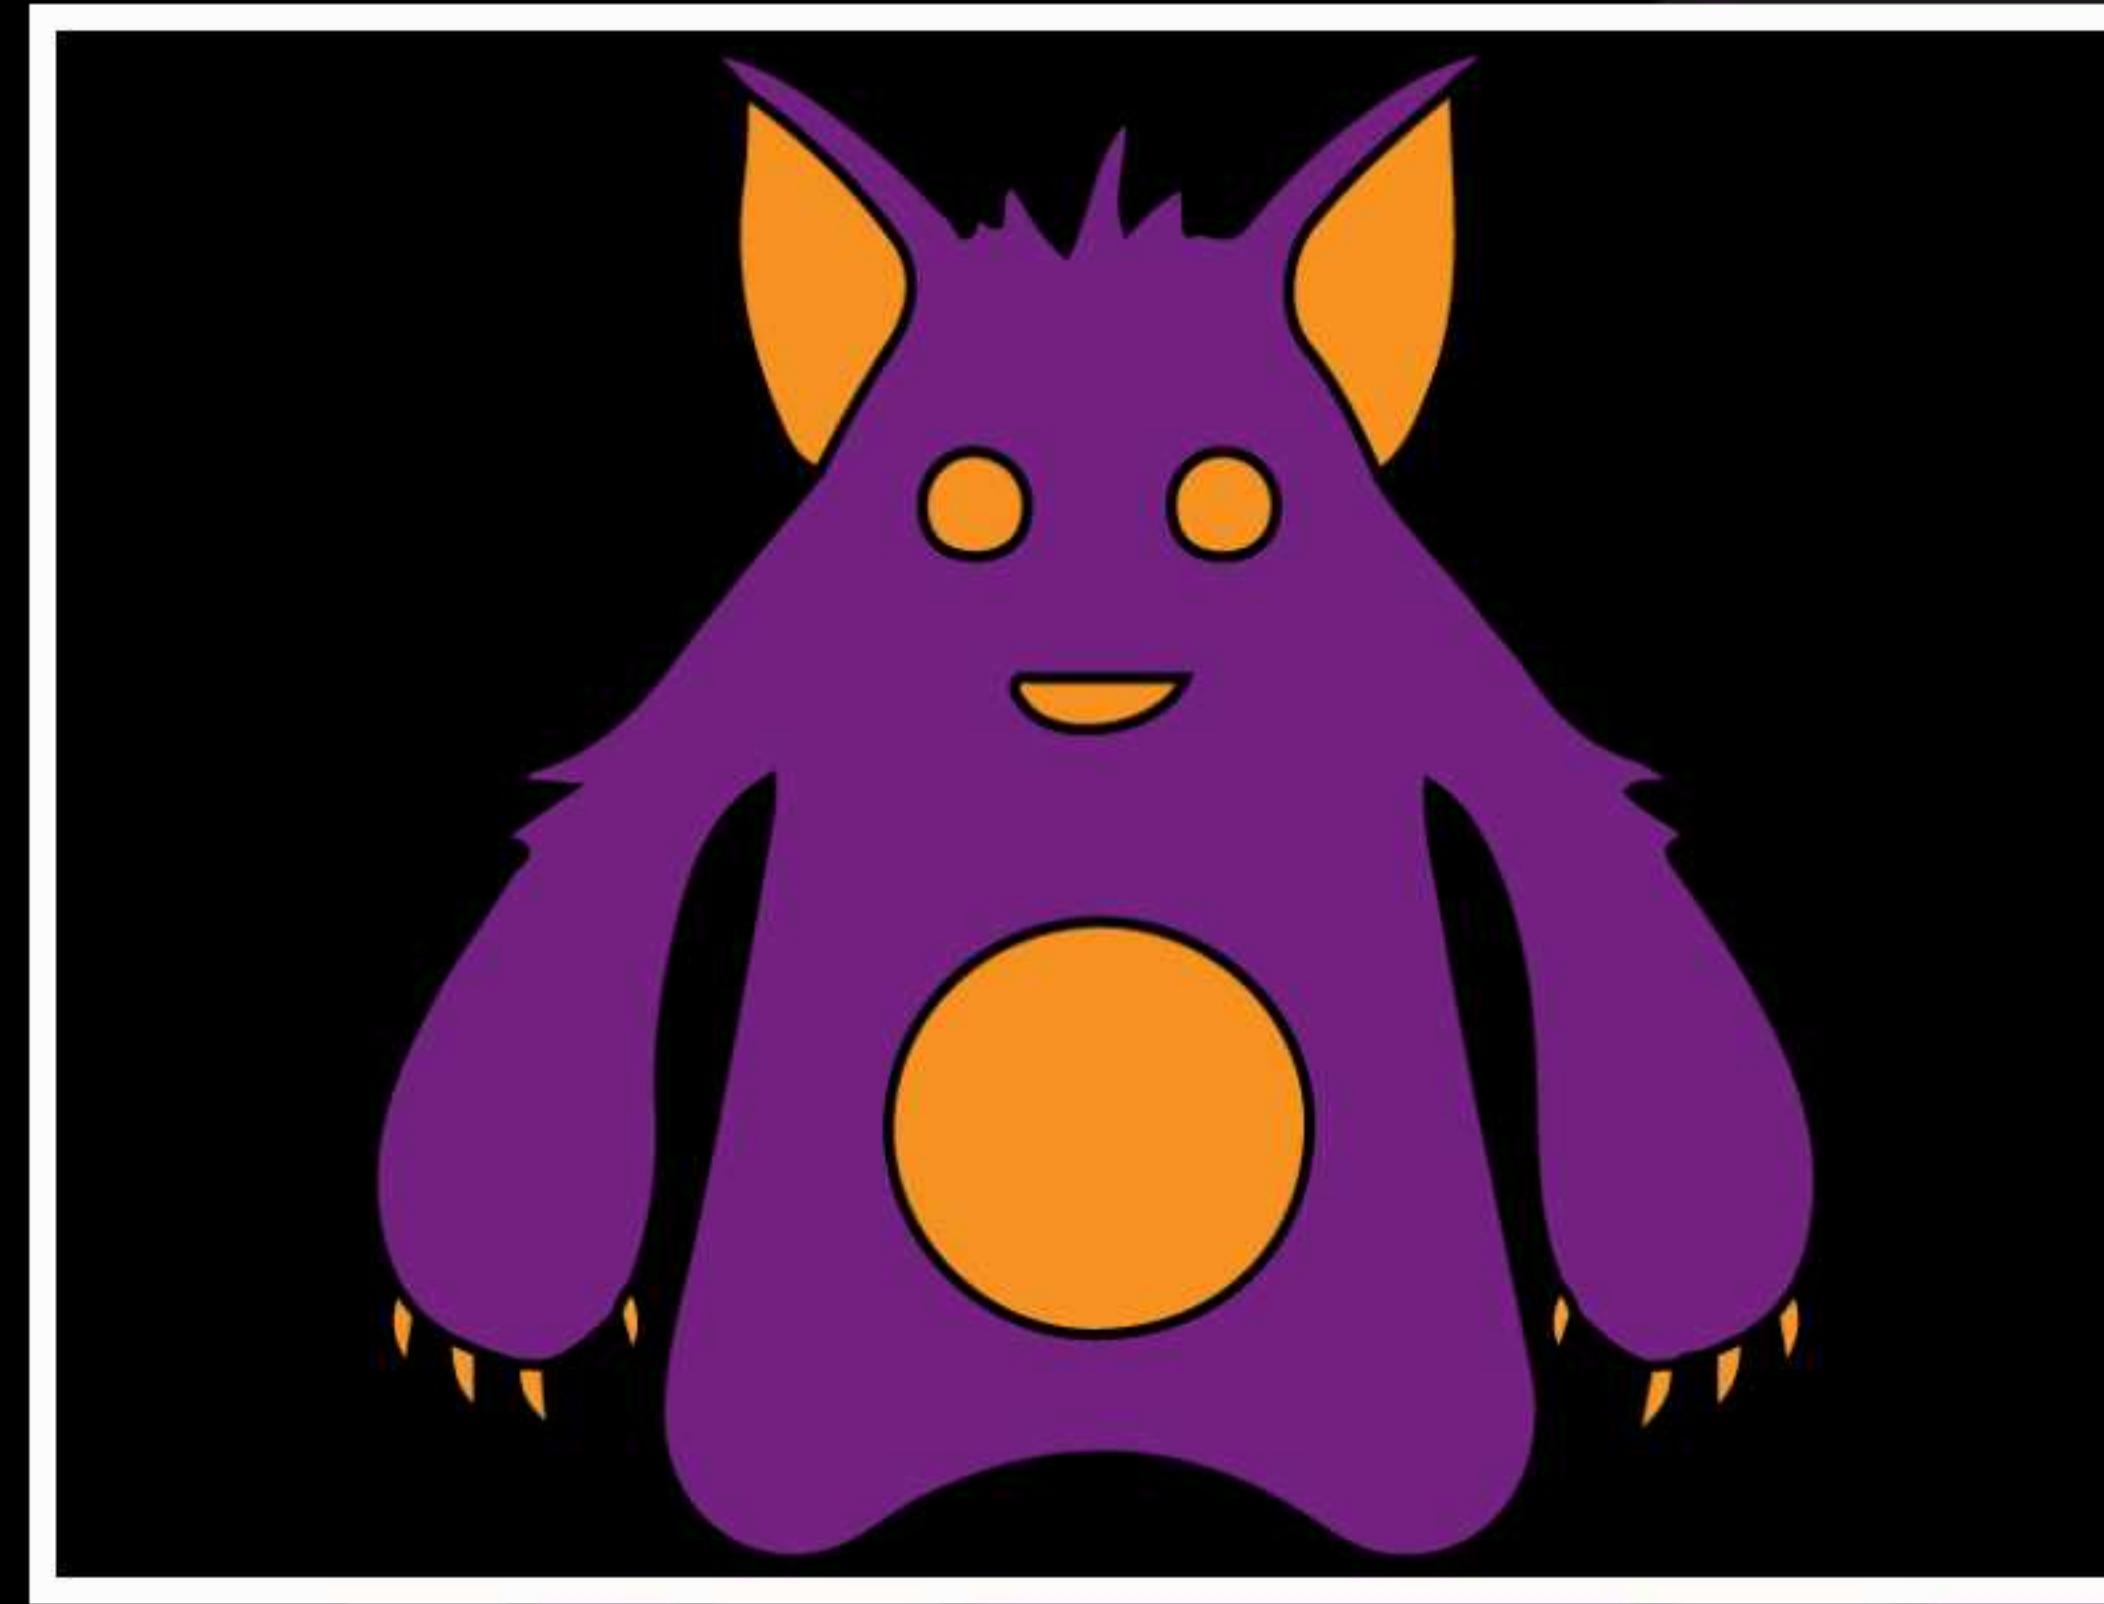

Both of your spaceships can land on both planets...

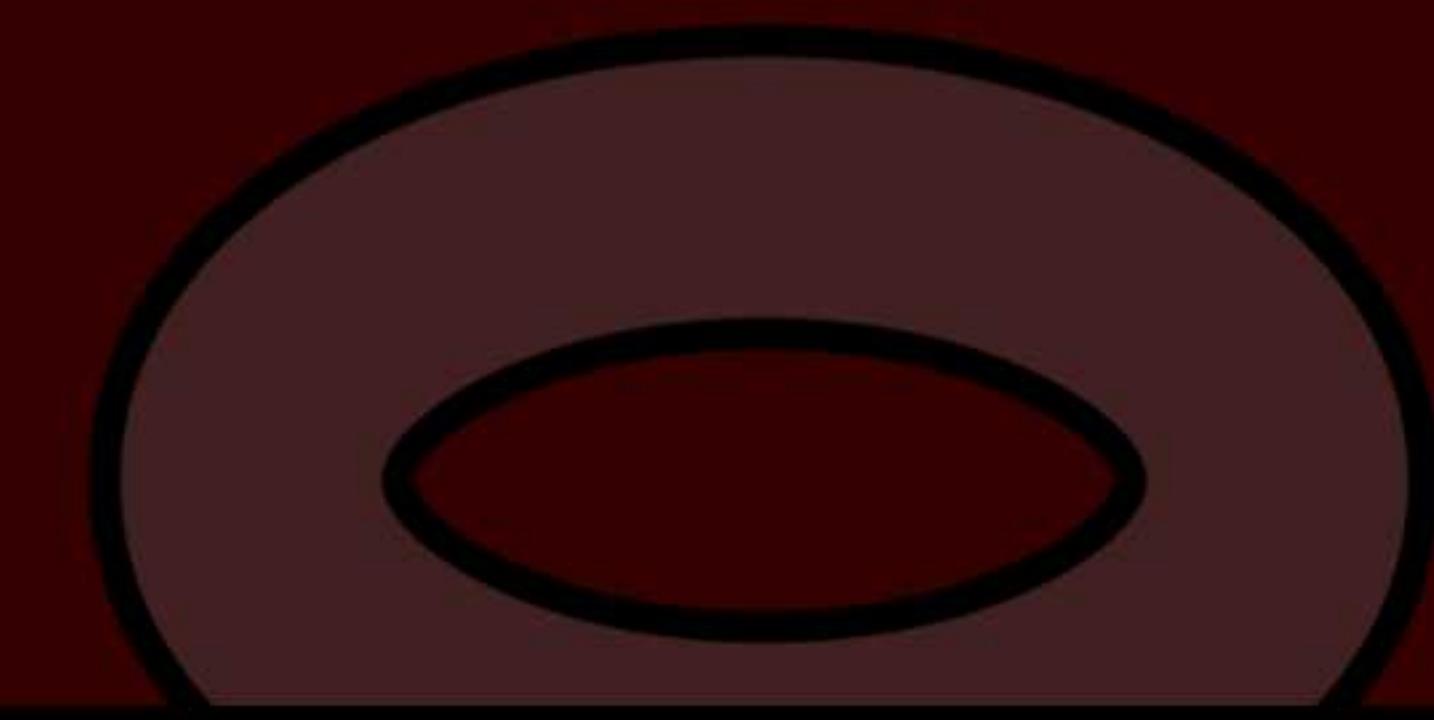

but each spaceship is different.

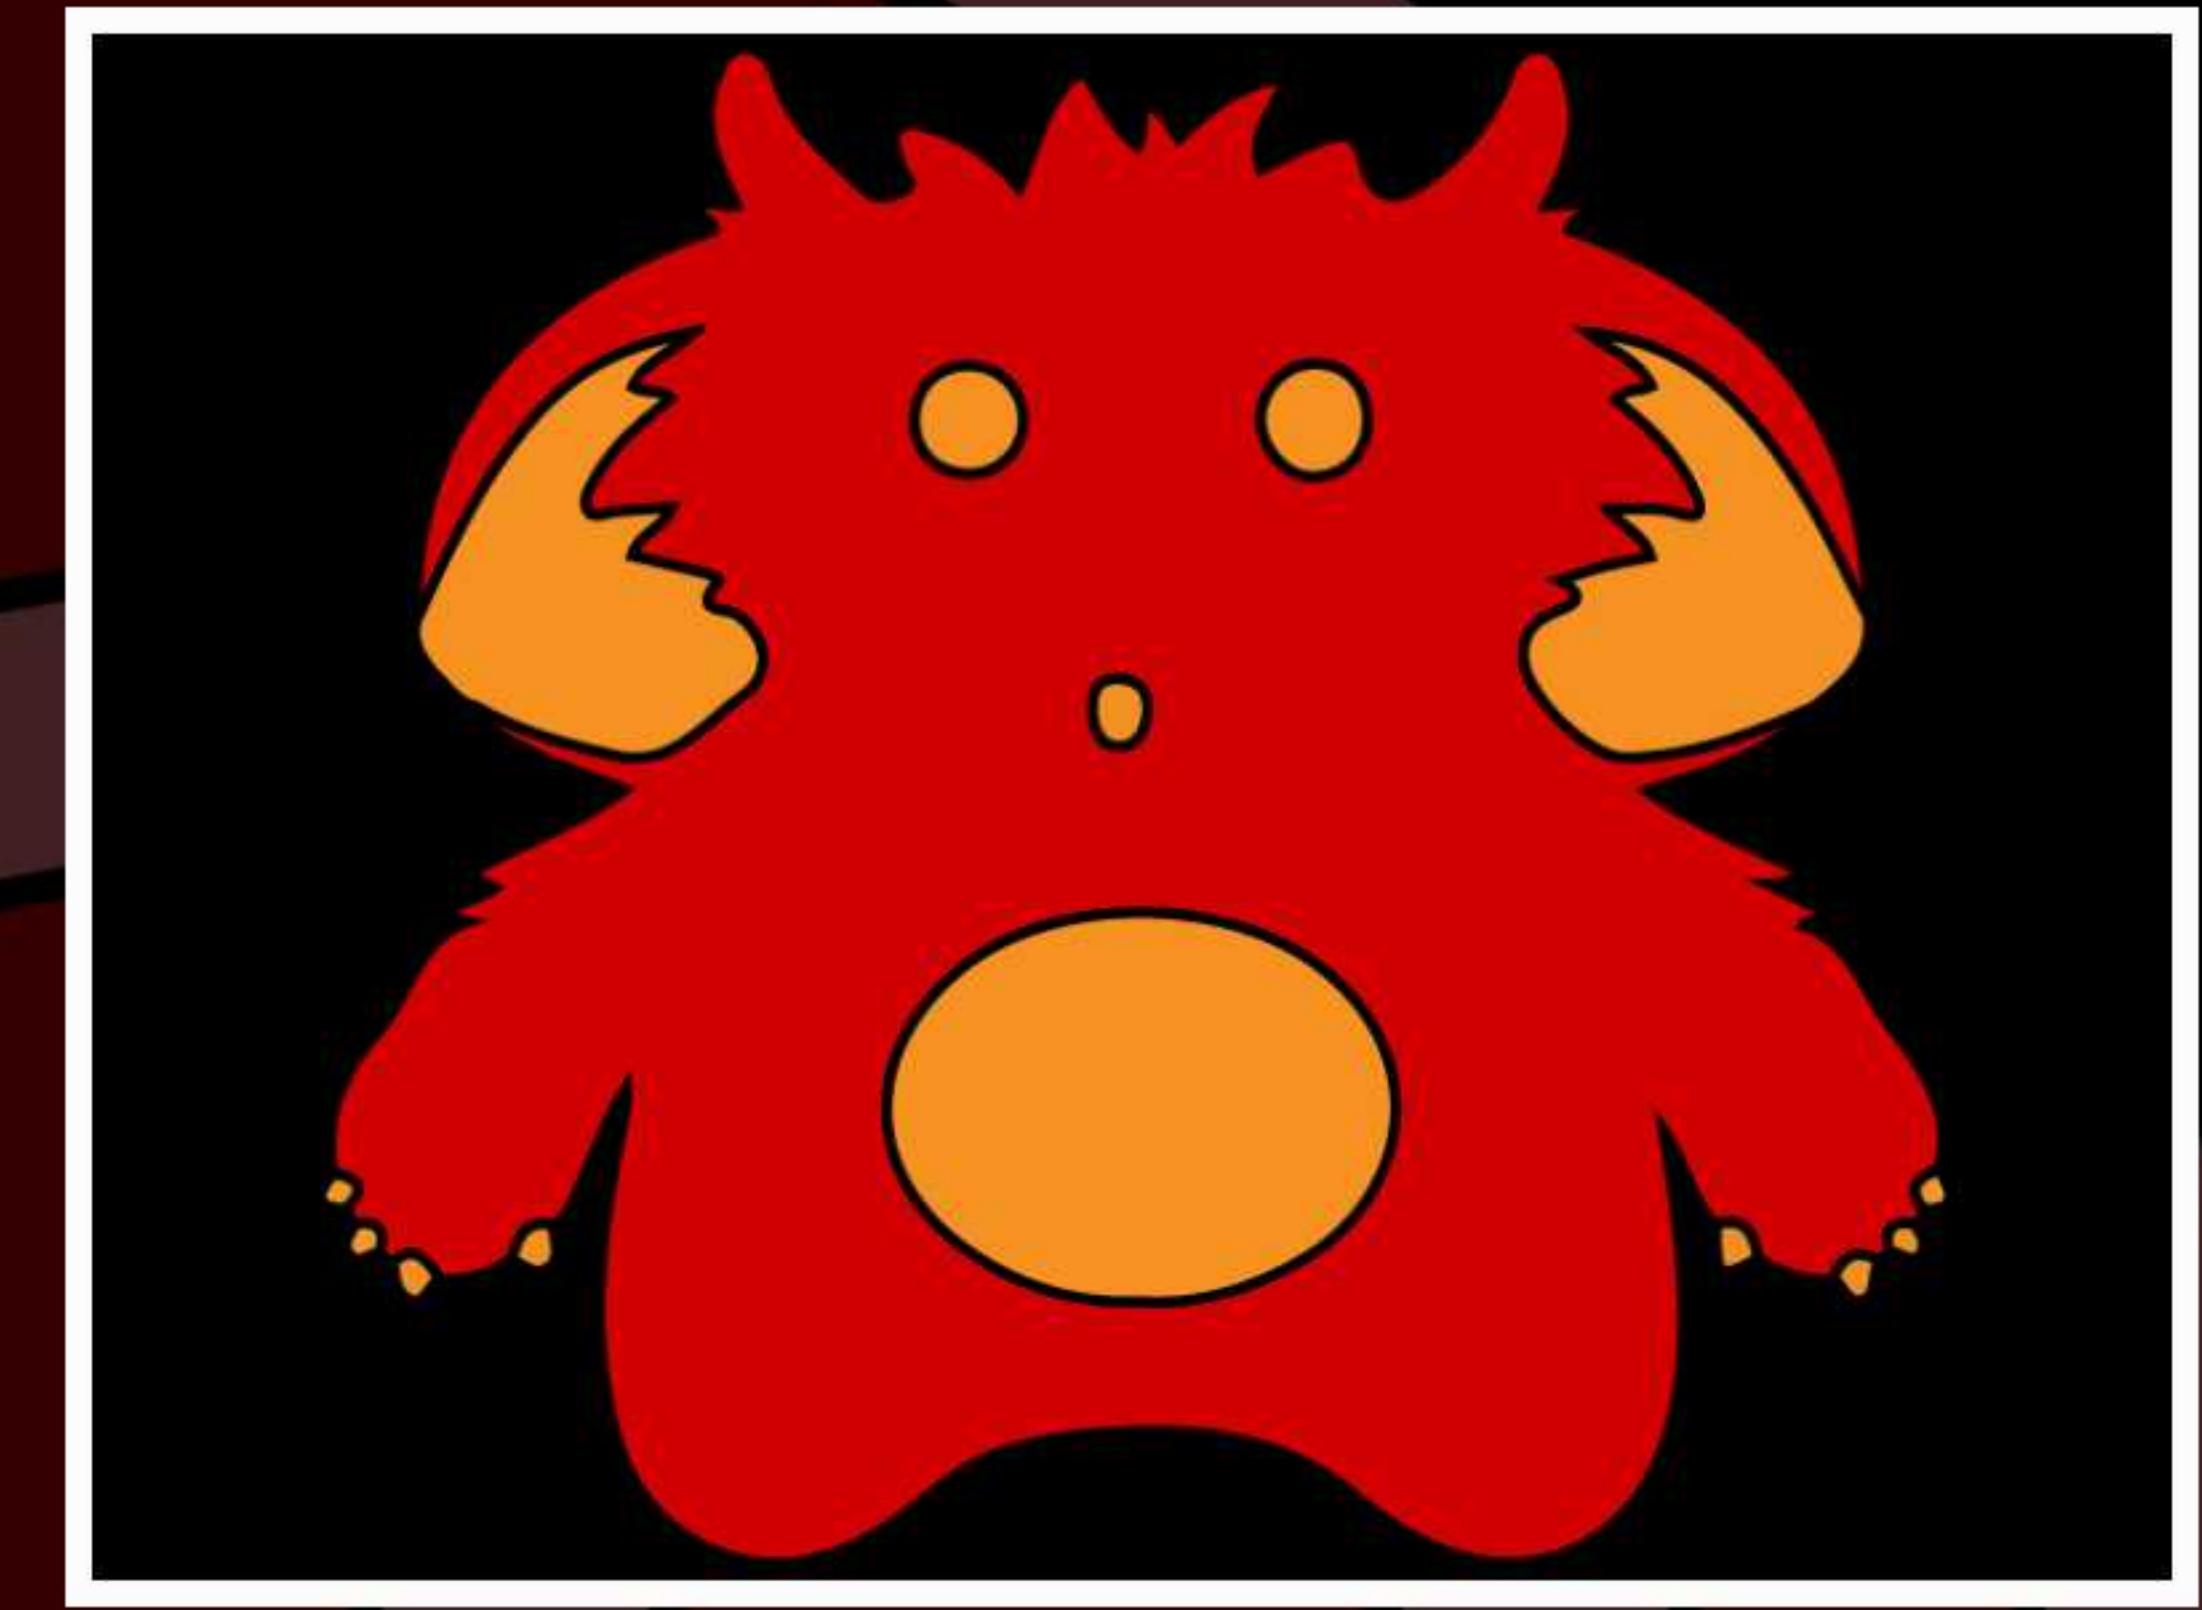

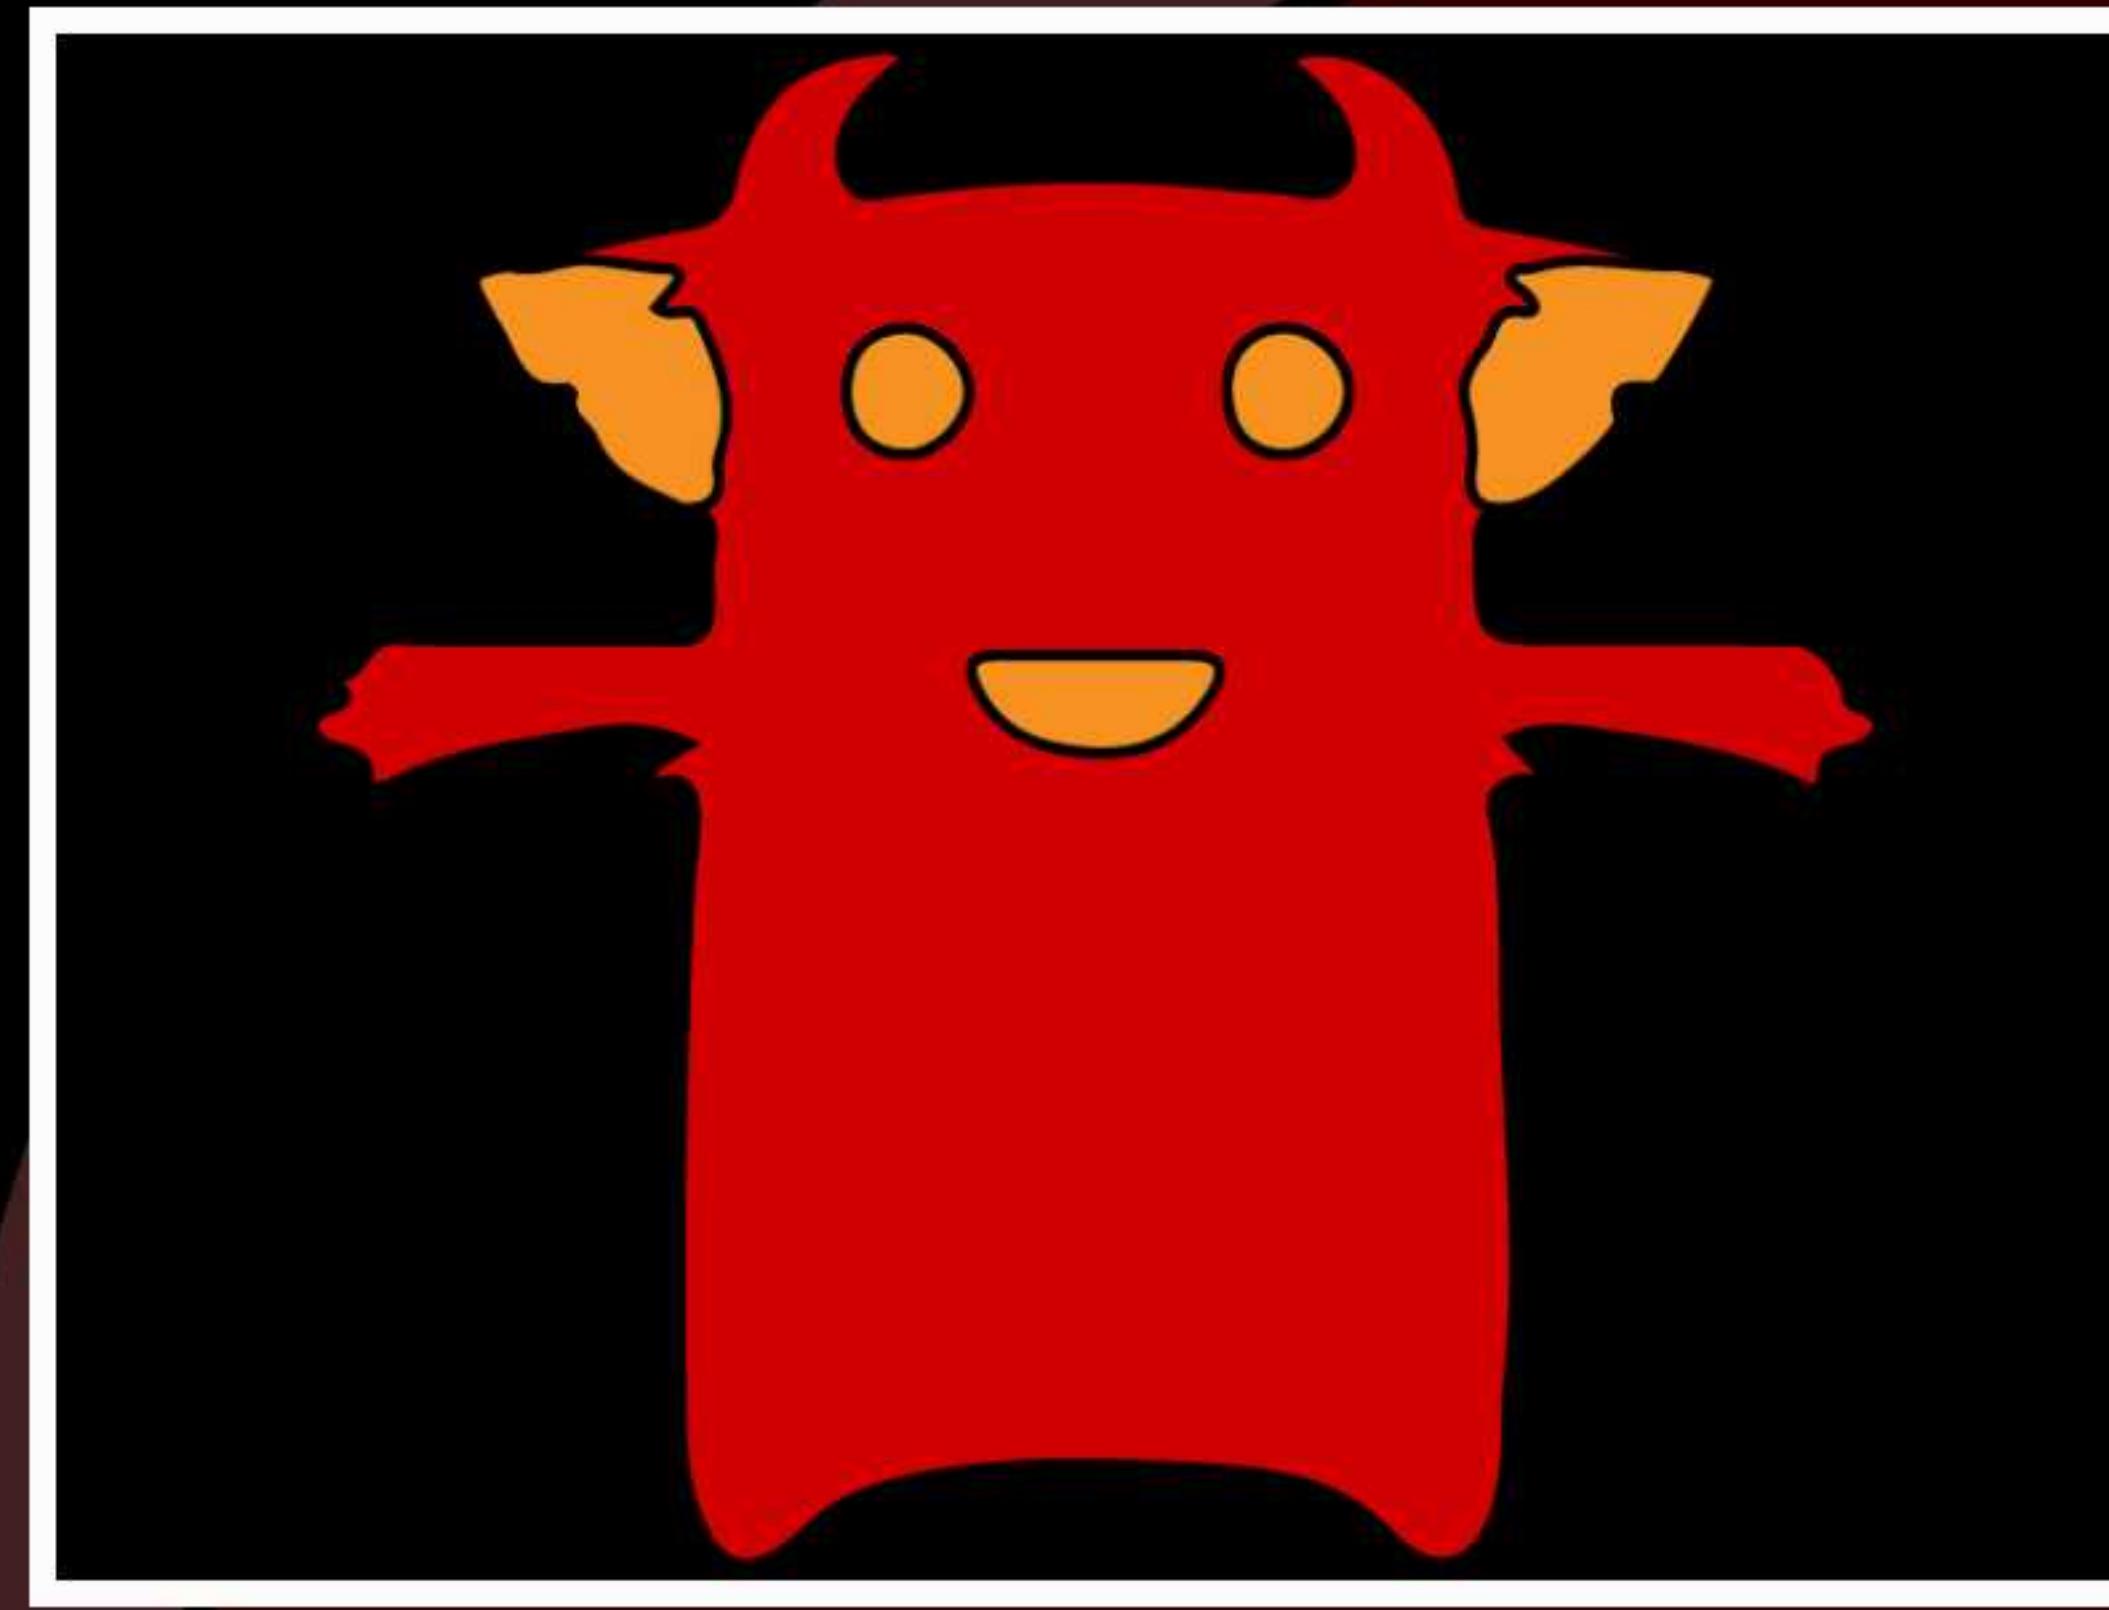

One spaceship will land on Planet Pentarus most of the time.

This is where the purple aliens live.

The other spaceship will land on Planet Rigel most of the time.

This is where the red aliens live.

To win the most space treasure, you need to pay close attention to where your spaceships are landing.

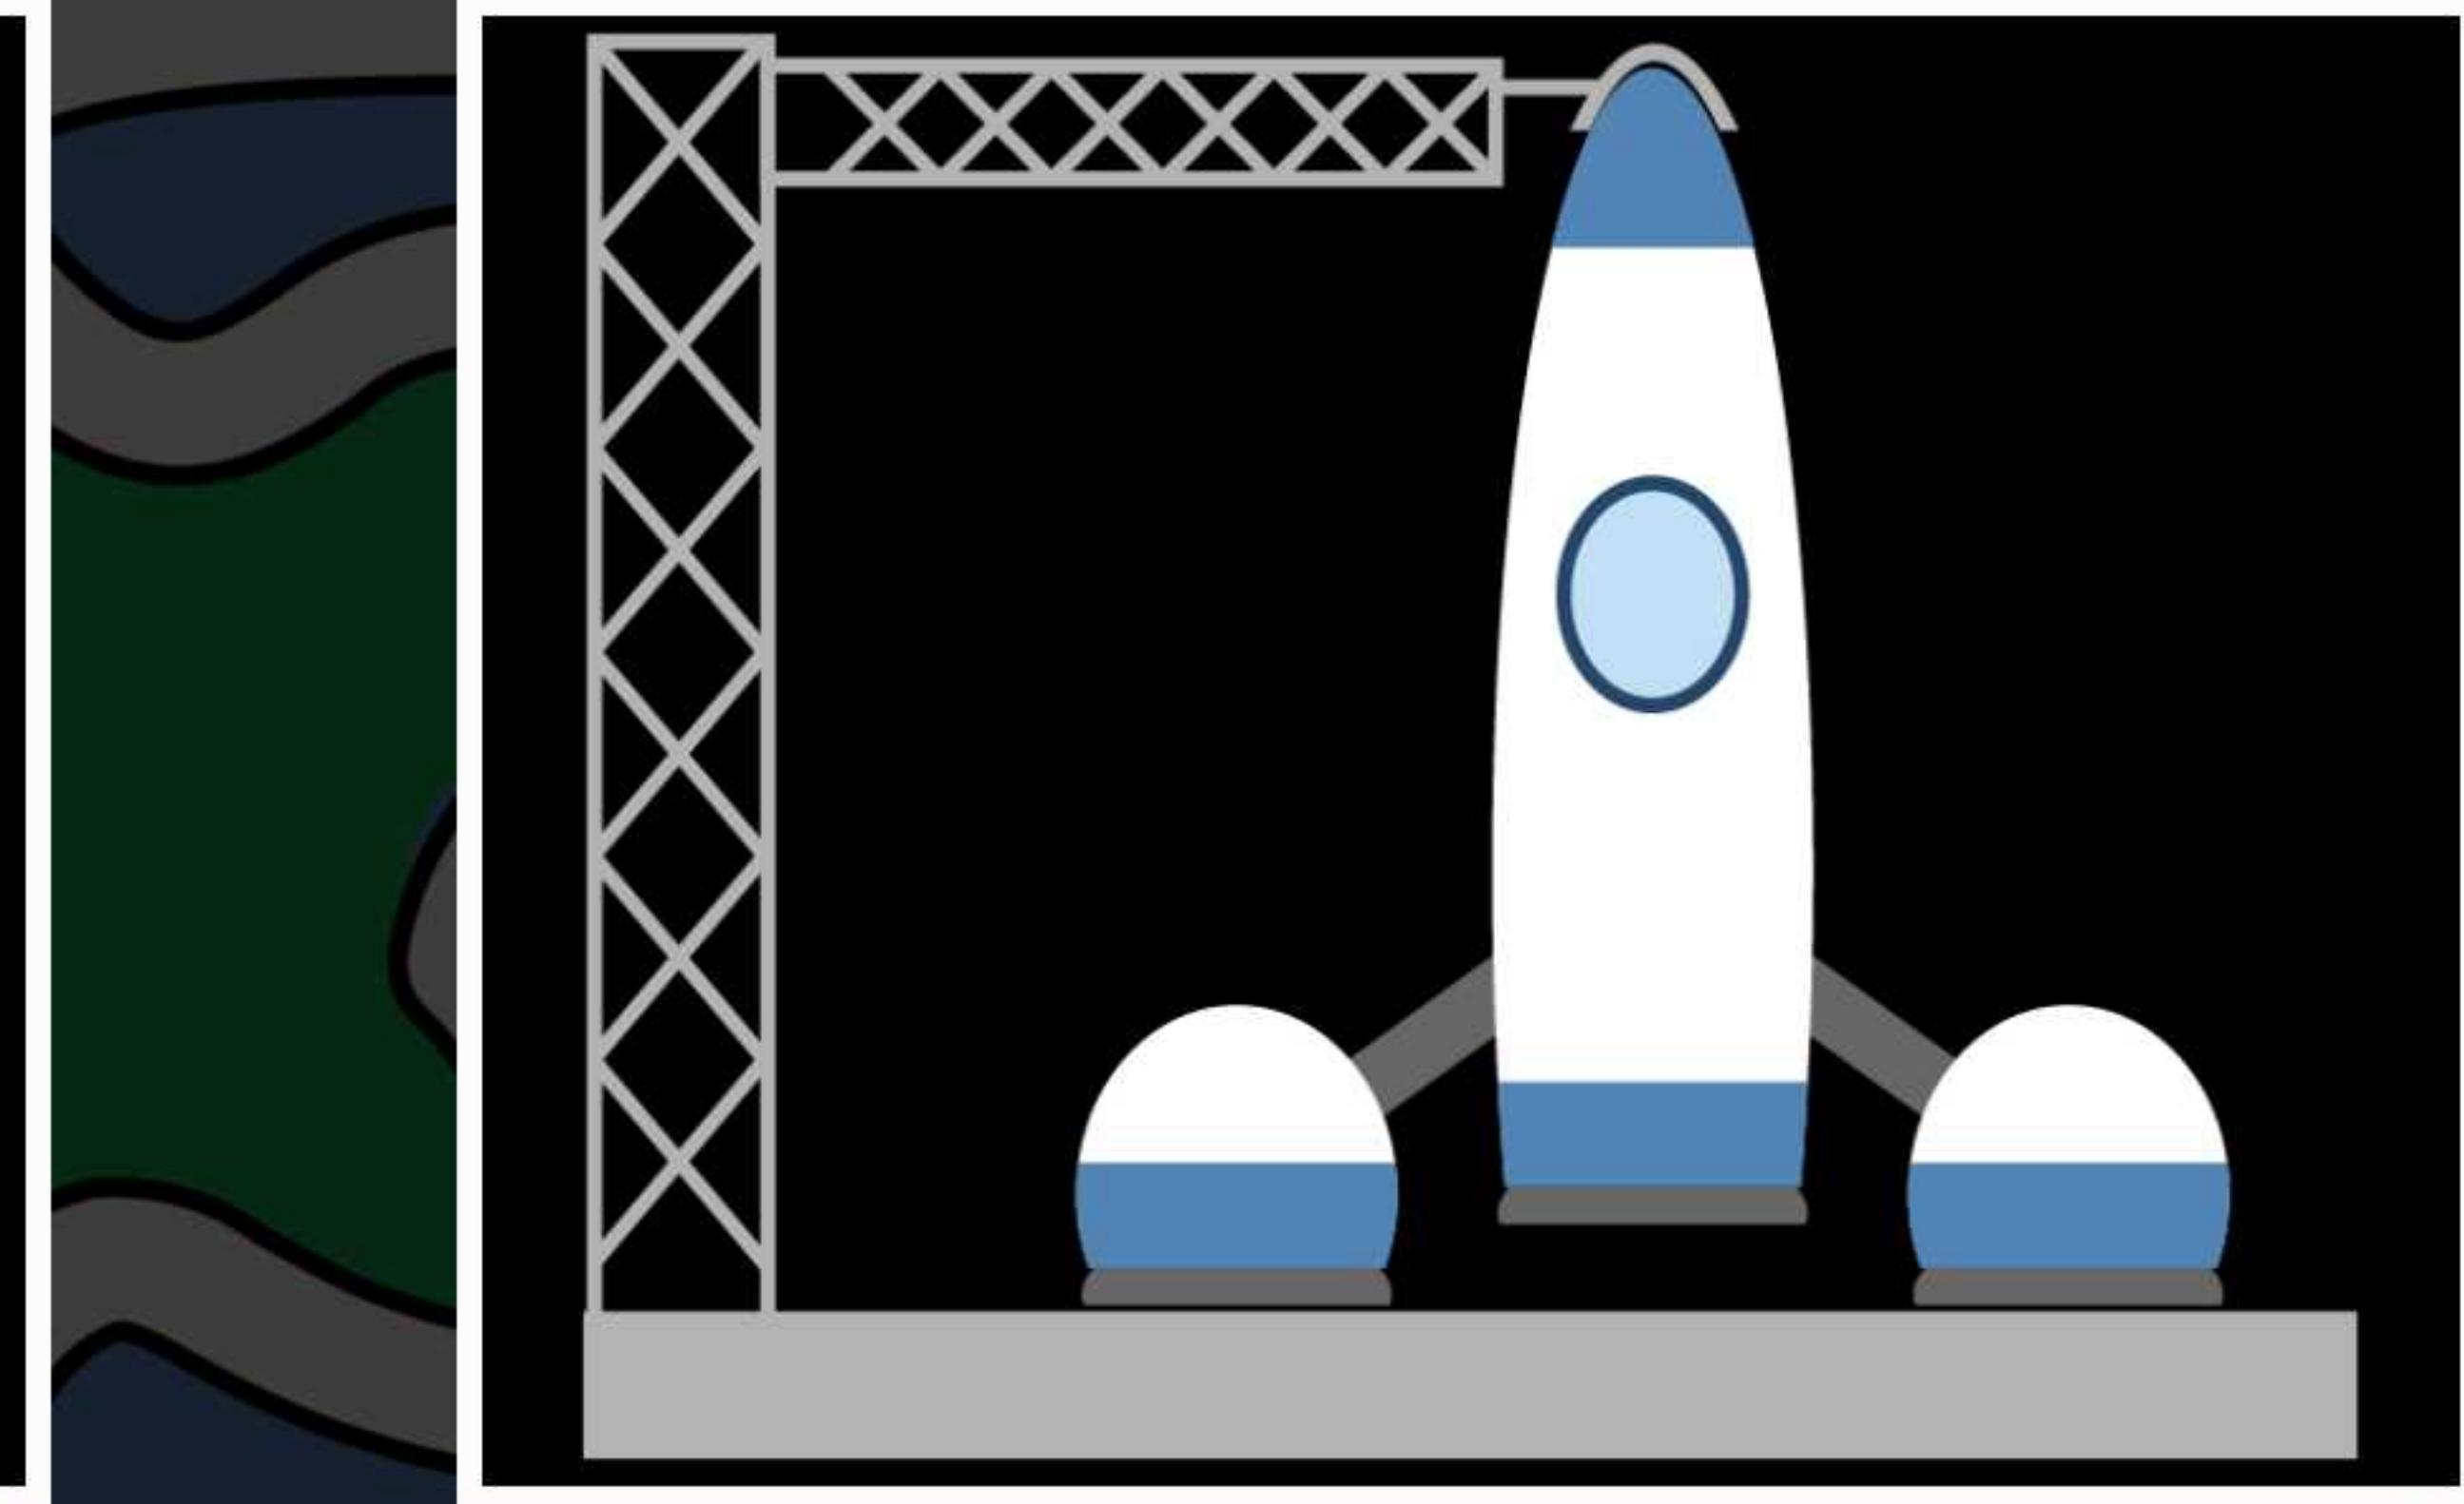

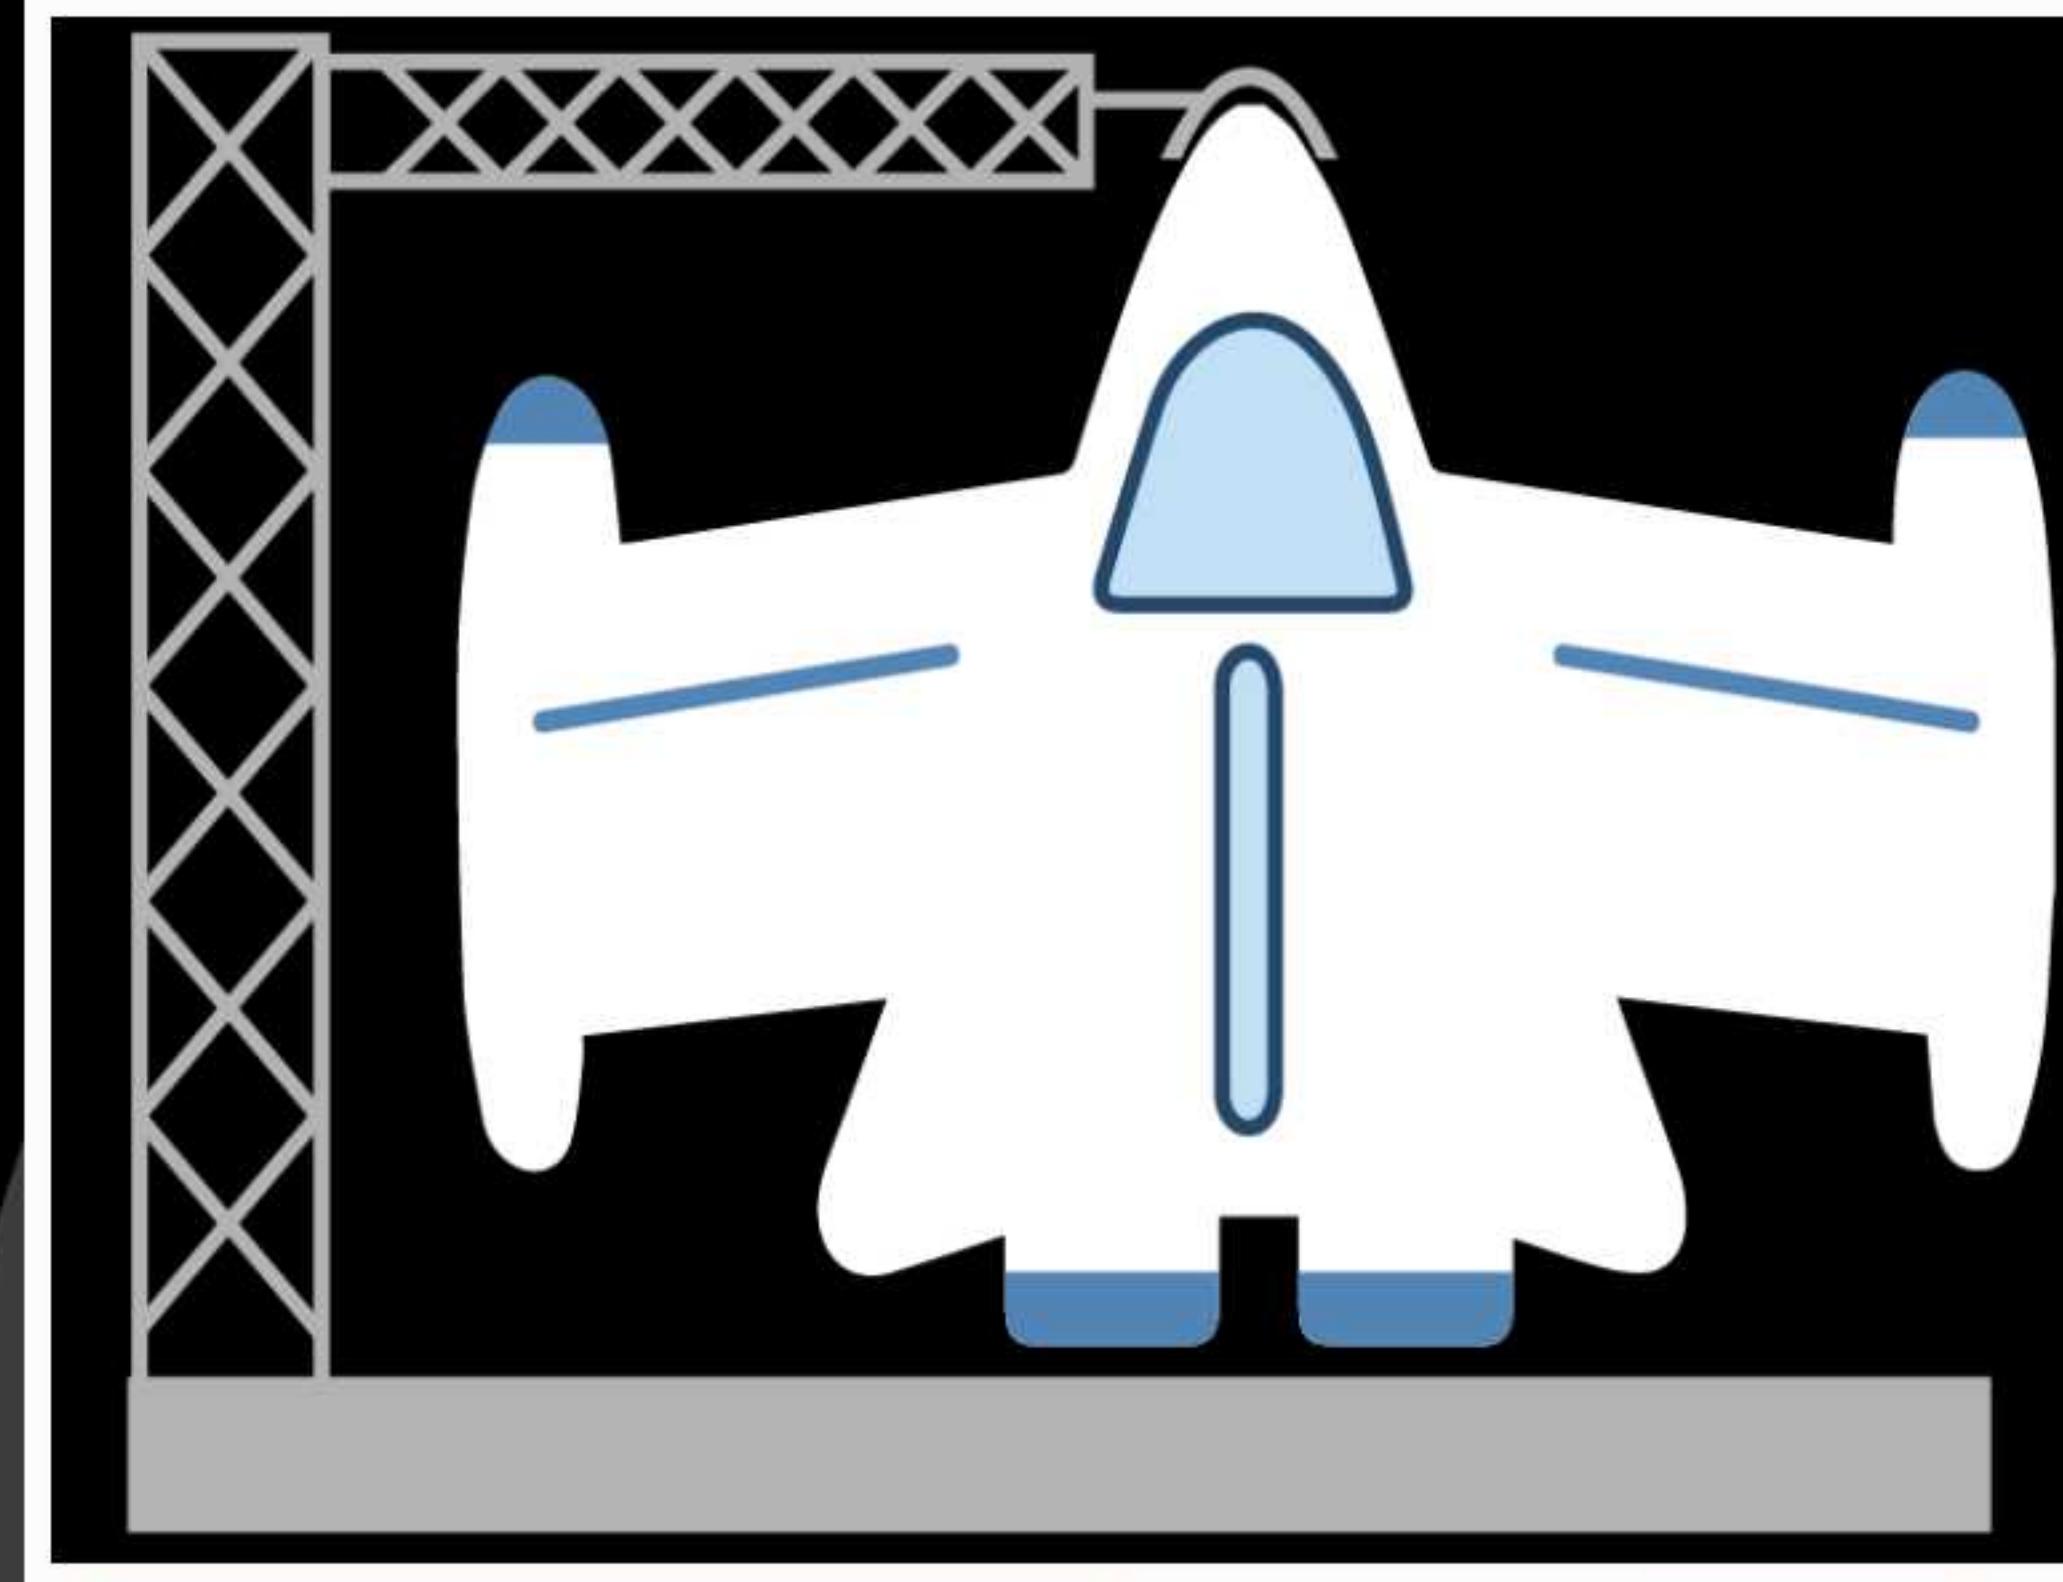

If an alien on one planet has the most space treasure to share, you want to choose the spaceship that is most likely to land there!

Now we have given you all of the information you need to win lots of space treasure, but there was a lot to remember.

Lucky for you, Alesha is here to help...

What questions do you have for Alesha about the aliens and their caves?

What questions do you have for Alesha about the spaceships?

Congratulations Space Captain!

You now have all of the knowledge you need to explore
the galaxy and find space treasure!

Now it is time for your training quest.

We are going to explore this galaxy for 10 days.

At the end of those 10 days, you will have completed training camp!

Brief loading screen while next script loads...

Let's practice!

When you are ready, the experimenter will start the training quest.
You will have 10 days to explore this galaxy.

Start 10 practice trials...

Congratulations Space Captain, you are done the training quest!

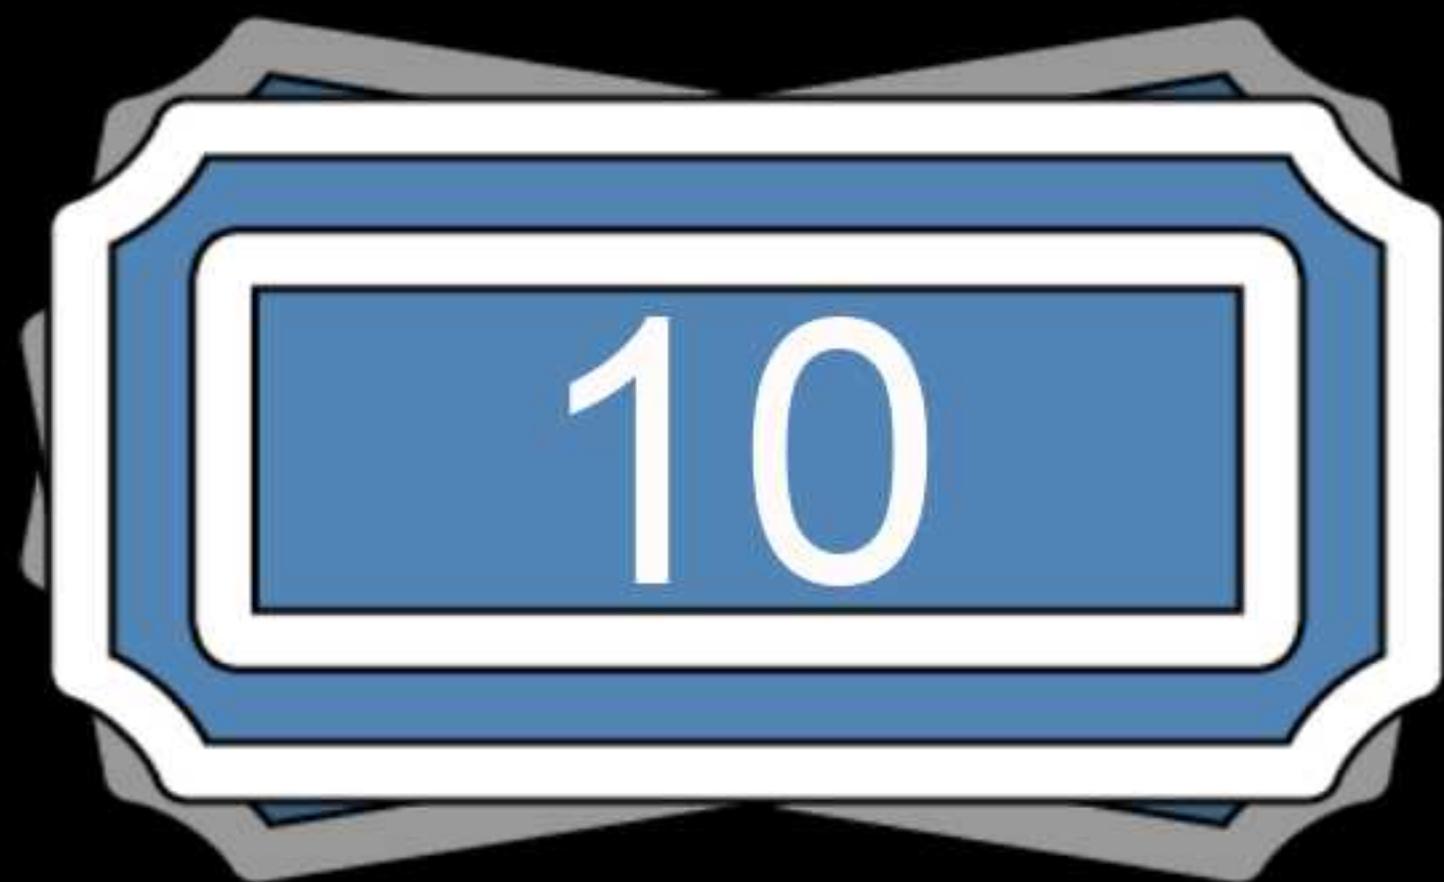

You have finished training camp and are ready to win prizes on your big quest.

When you are ready, Alesha will load the directions for winning prizes.

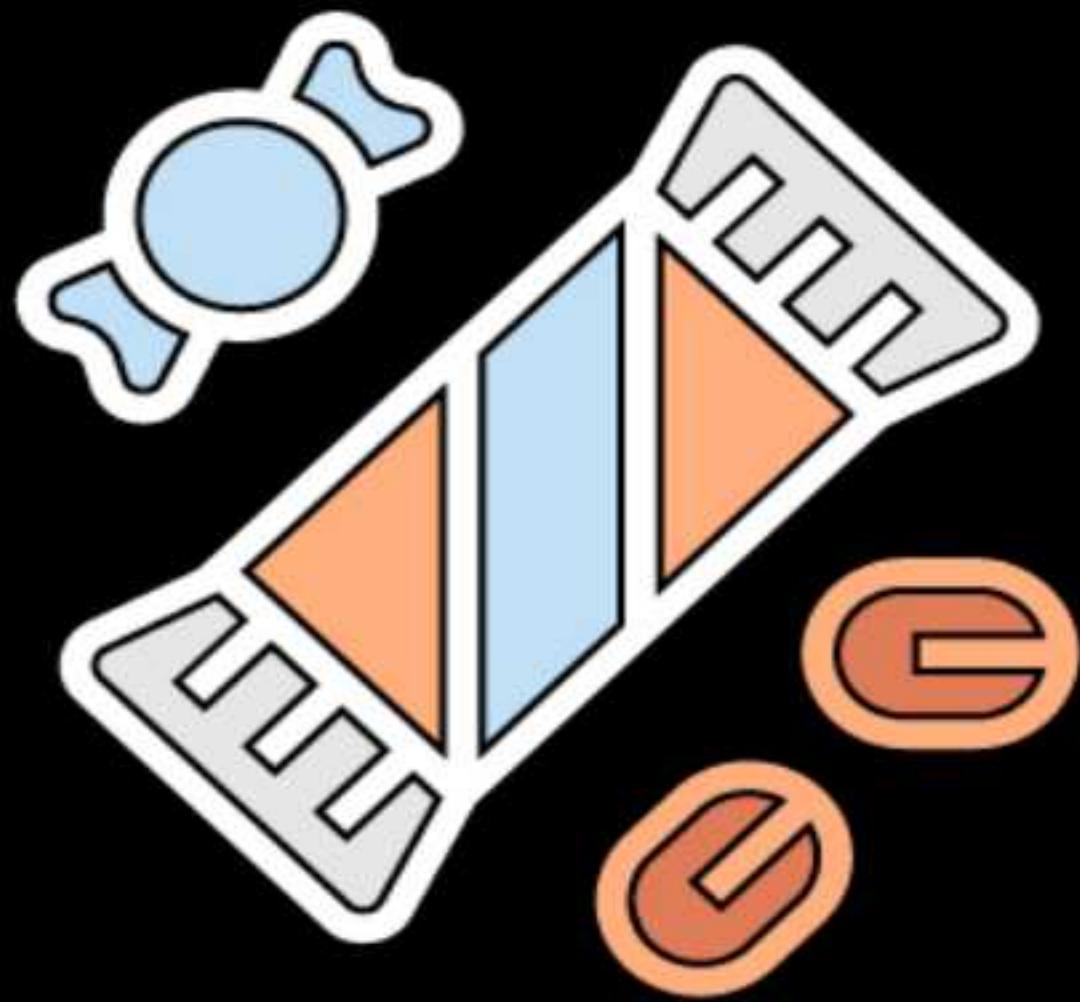

Brief loading screen while next script loads...

Now that you are an experienced Space Captain,
it is time to go on your big quest for space treasure.

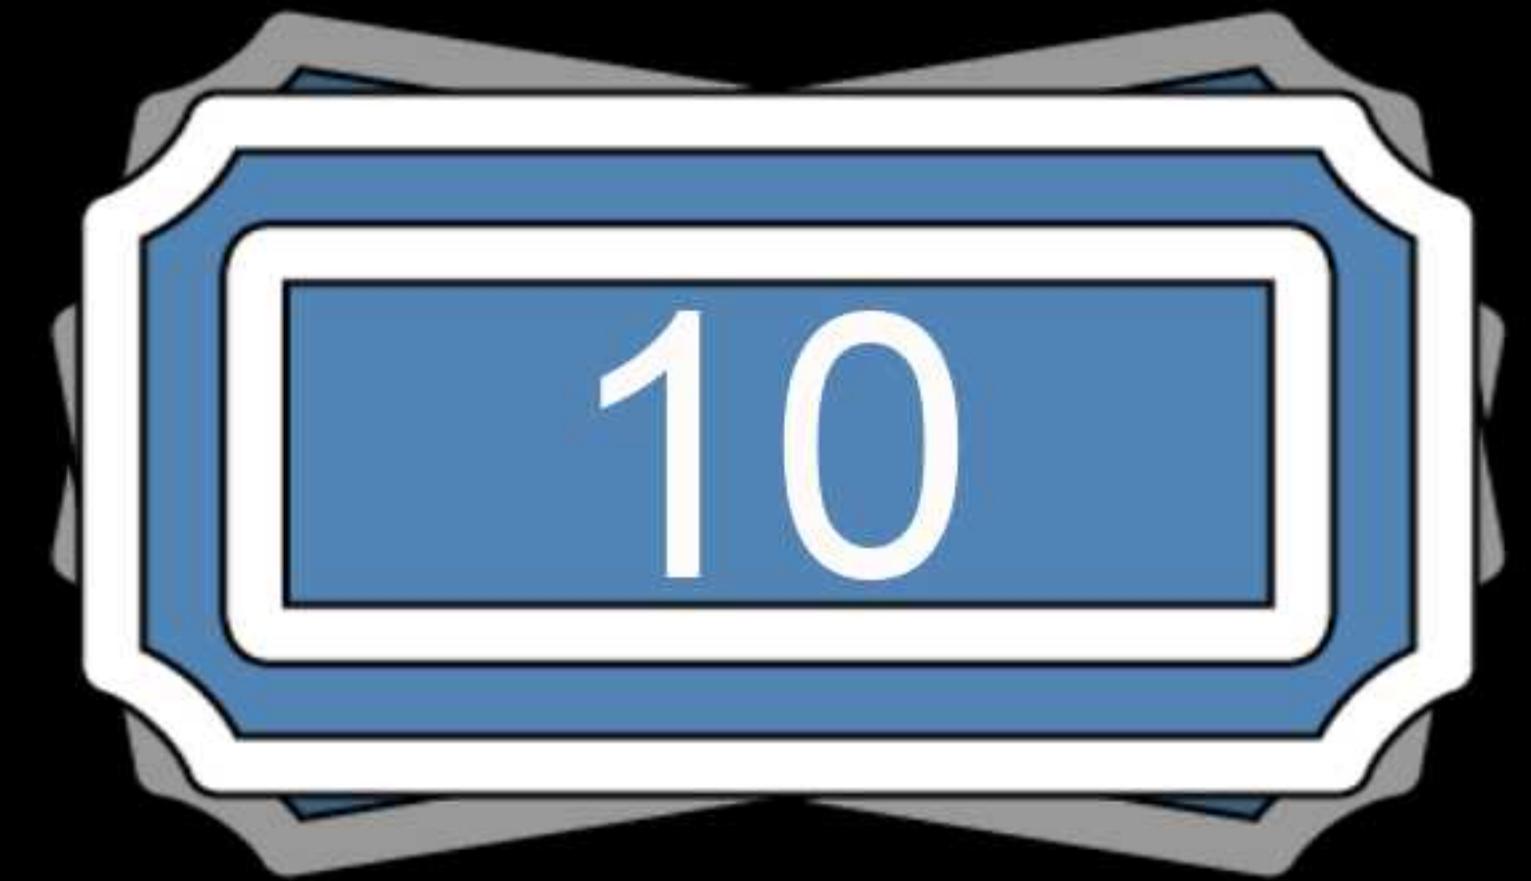

Each time you find space treasure during your big quest,
you will be able to trade it with Alesha for prizes!

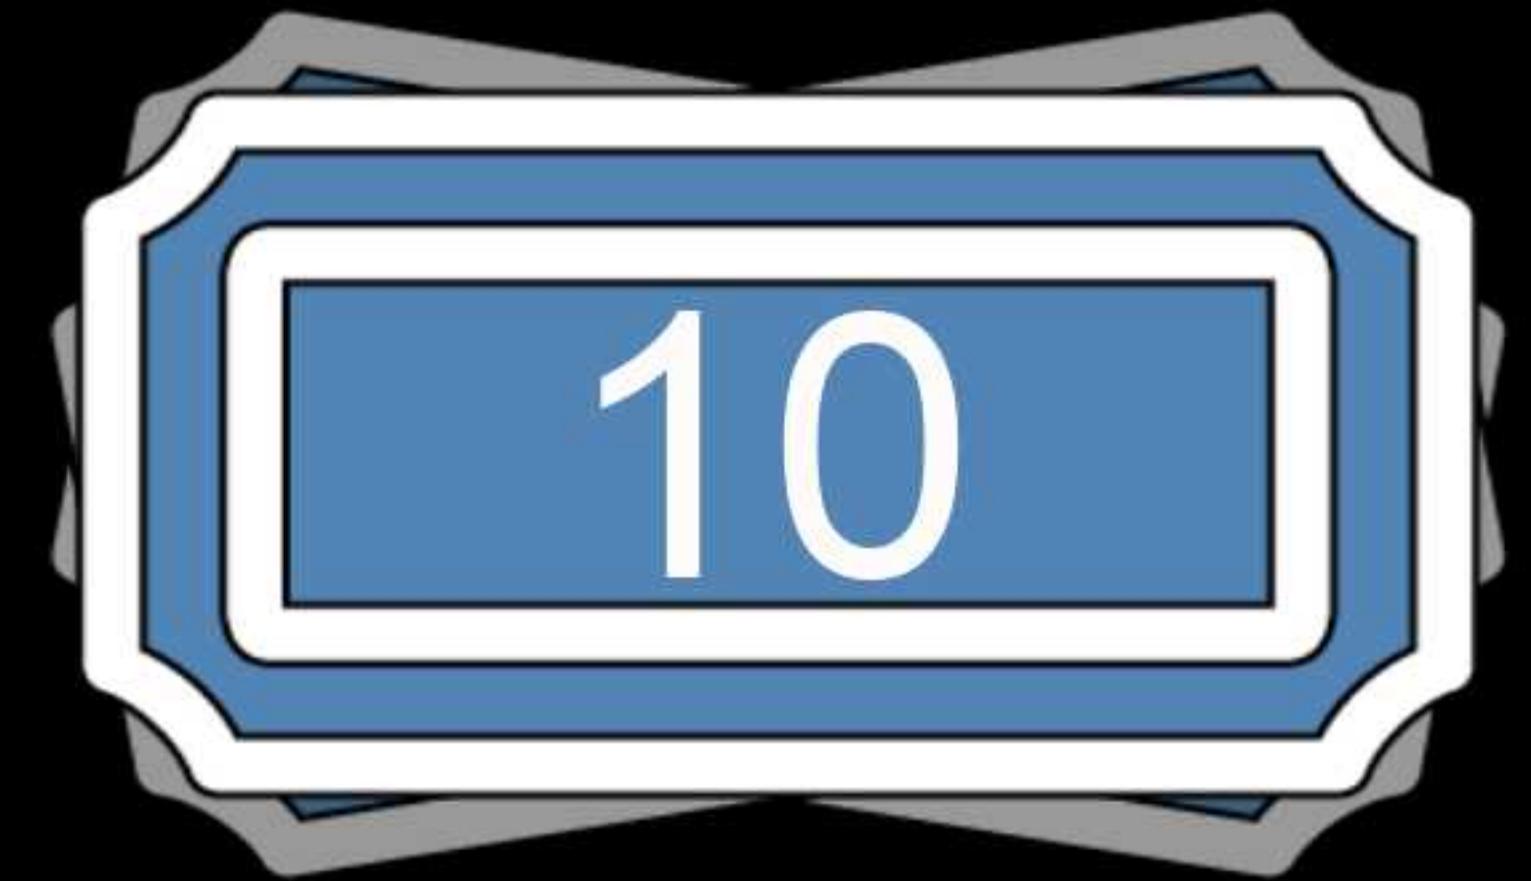

You can trade your space treasure for snacks or for tickets.

If you choose the snacks, you will get to take one bite of either the SweeTarts or the CheezIts.

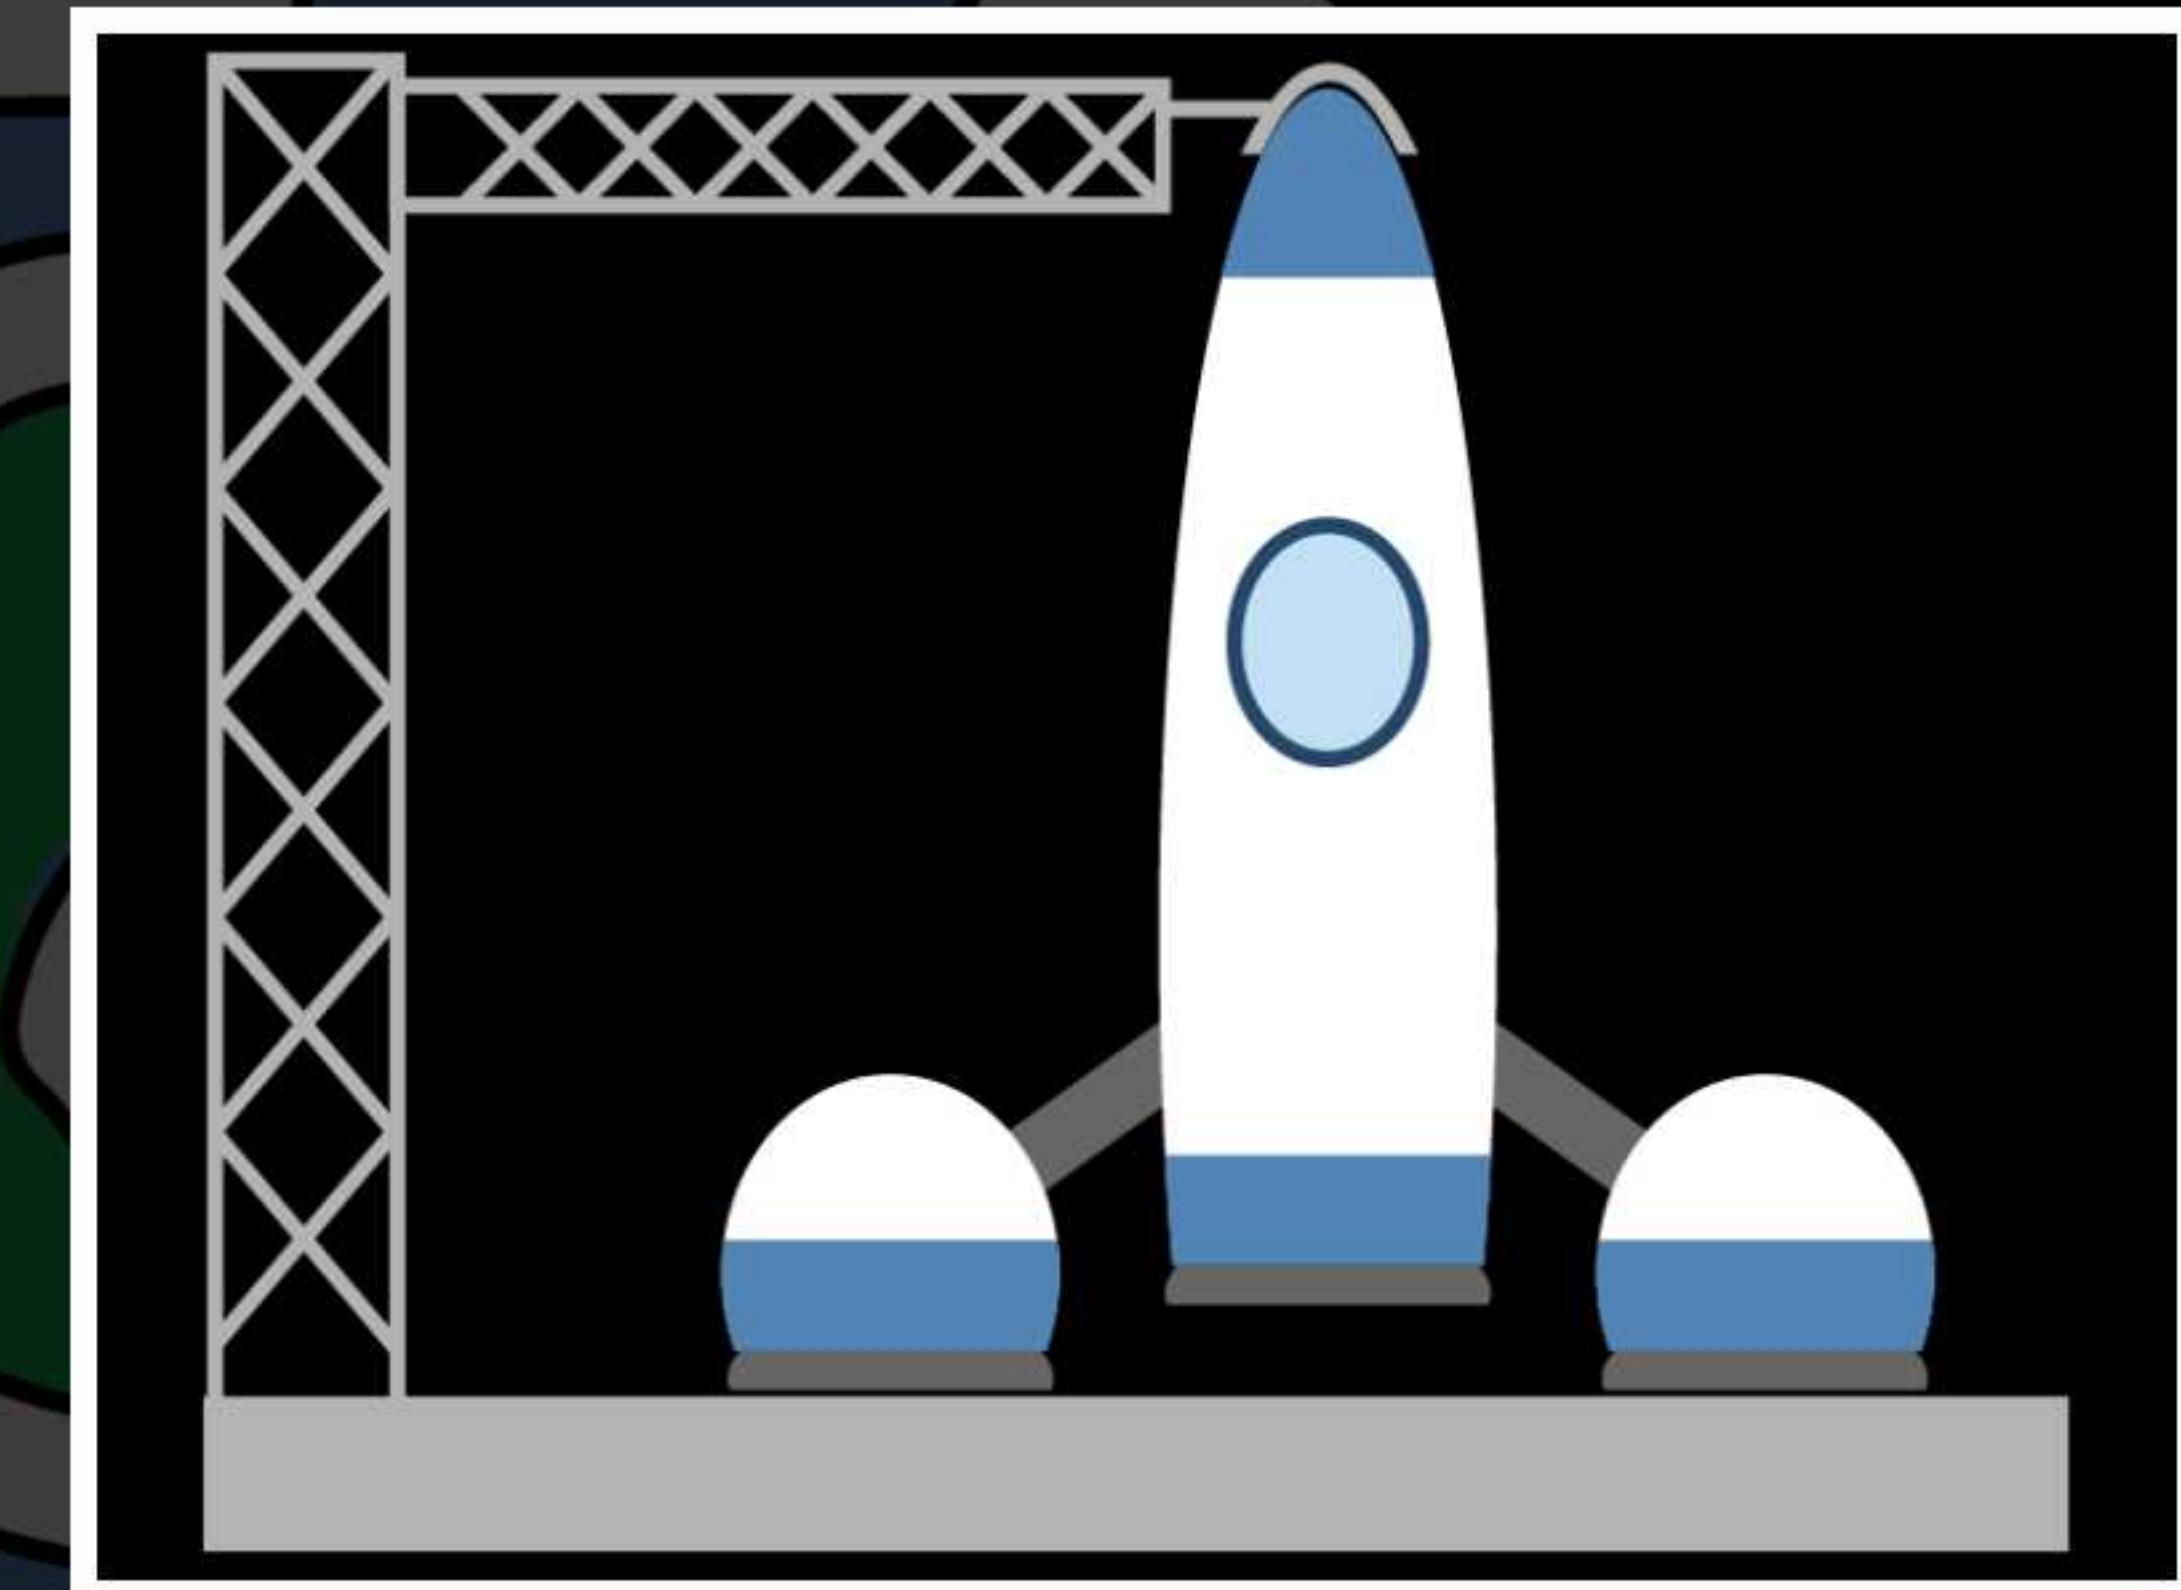

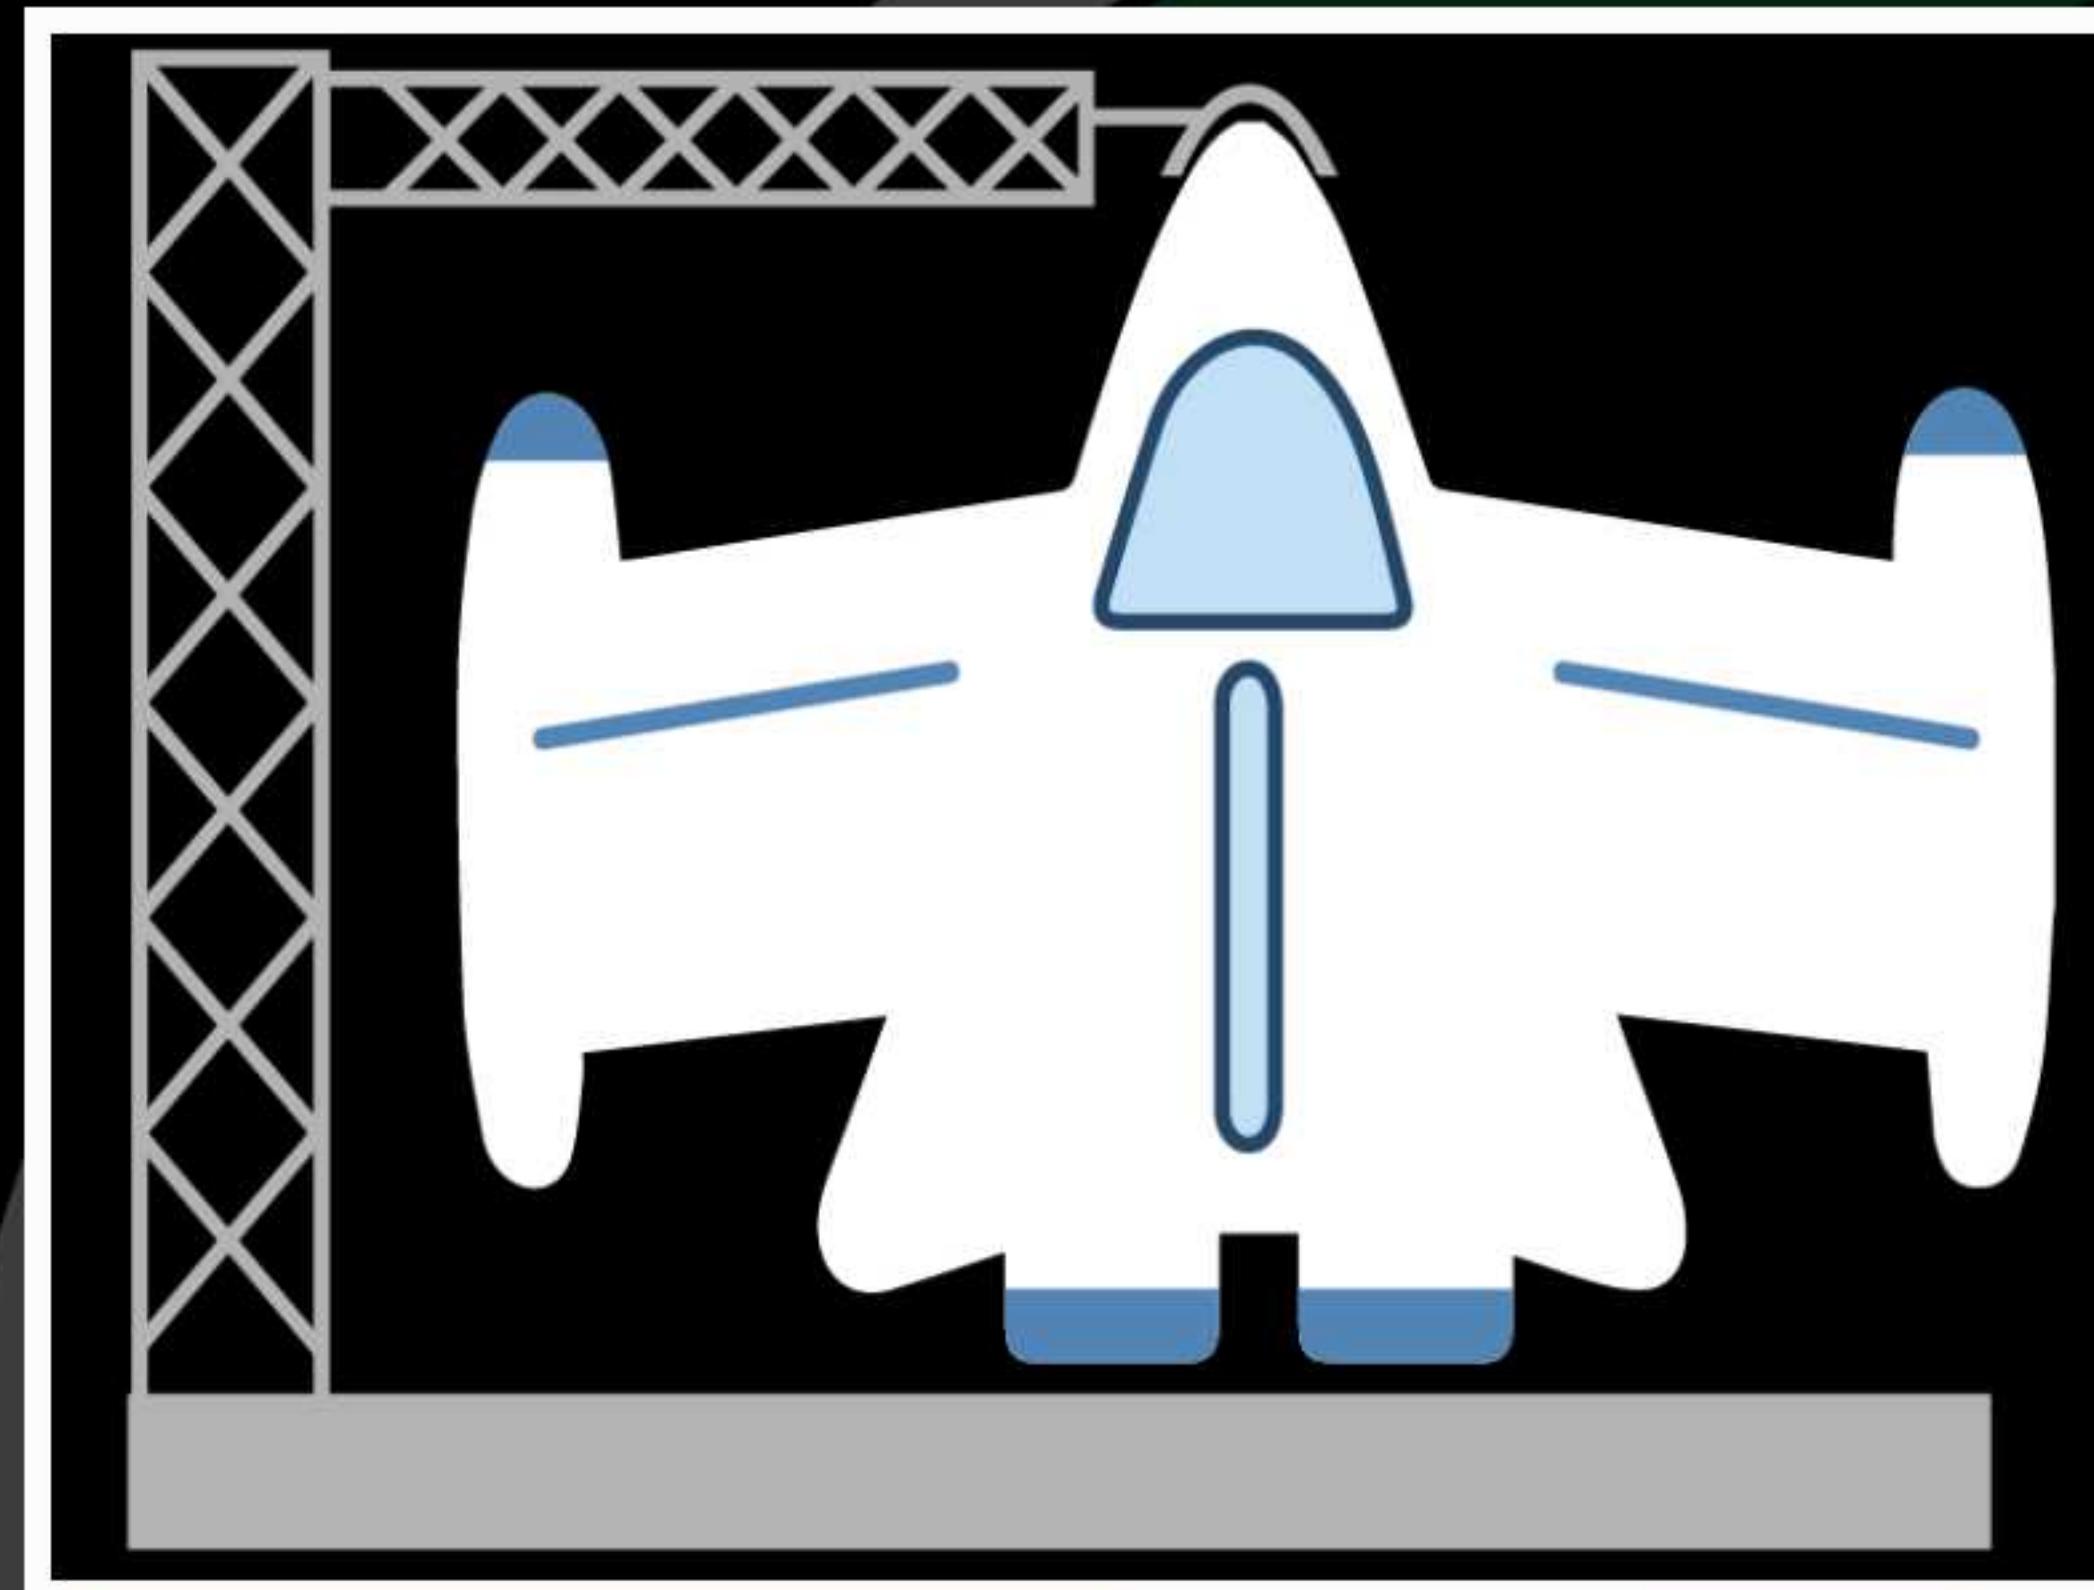

If you choose the tickets, you will get the number of tickets it says.
Right now, that is 10 tickets!

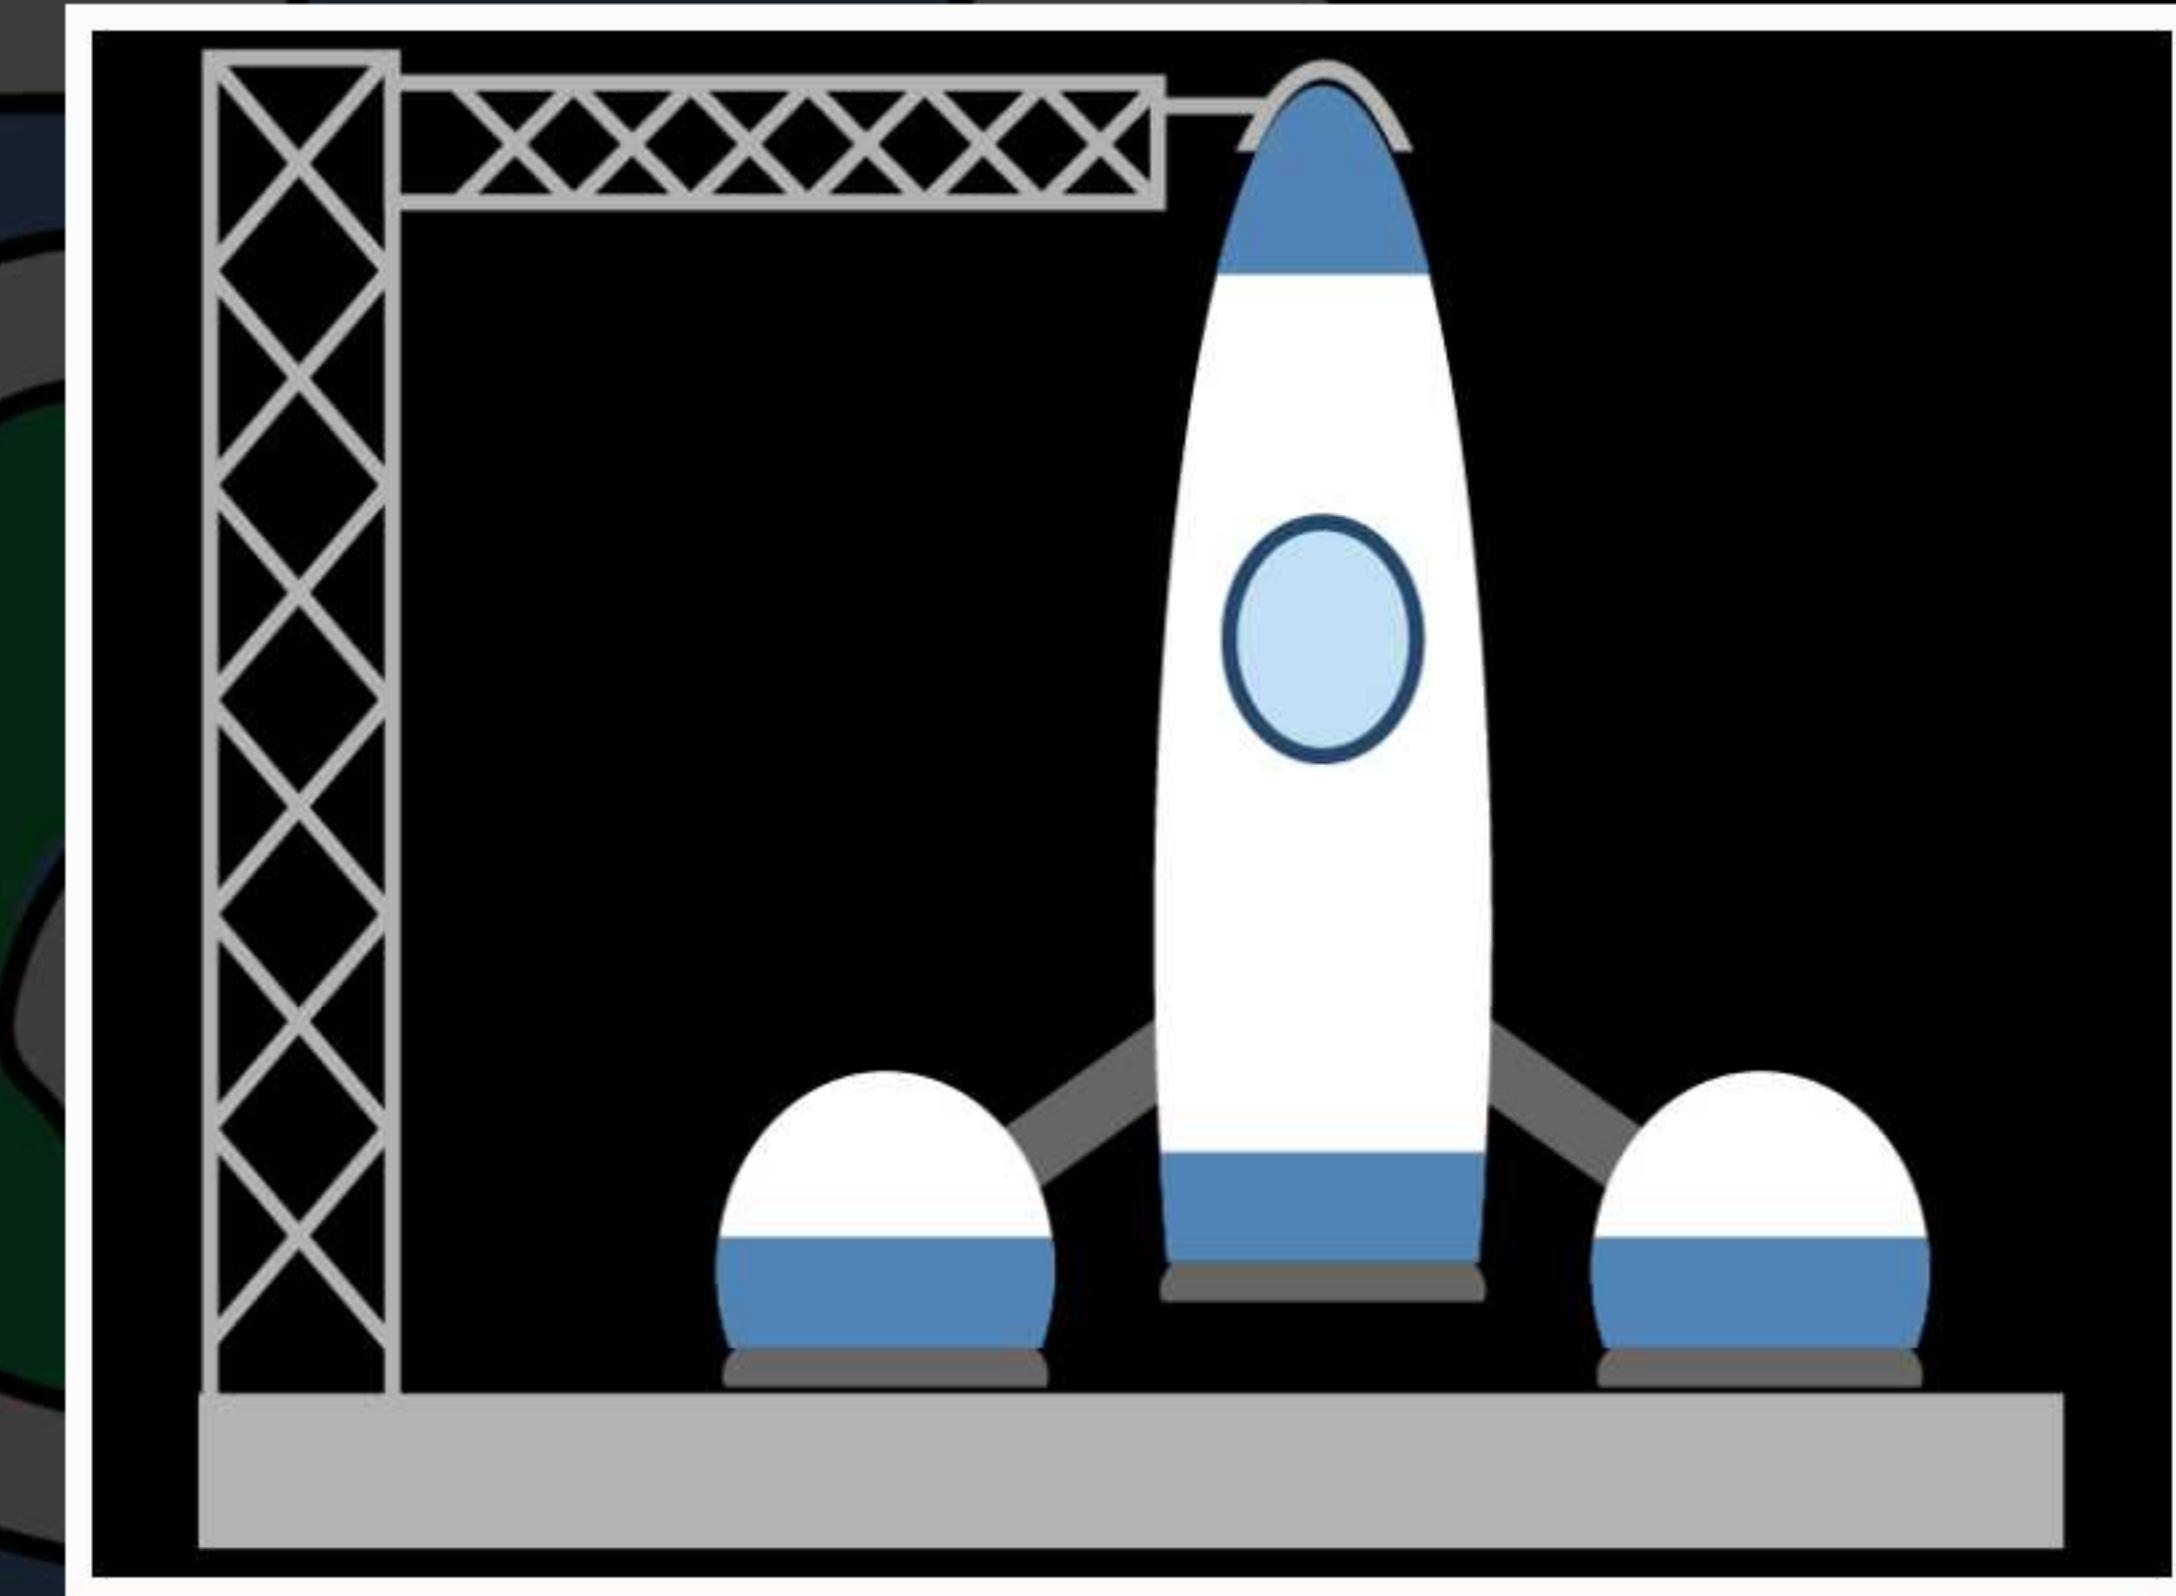

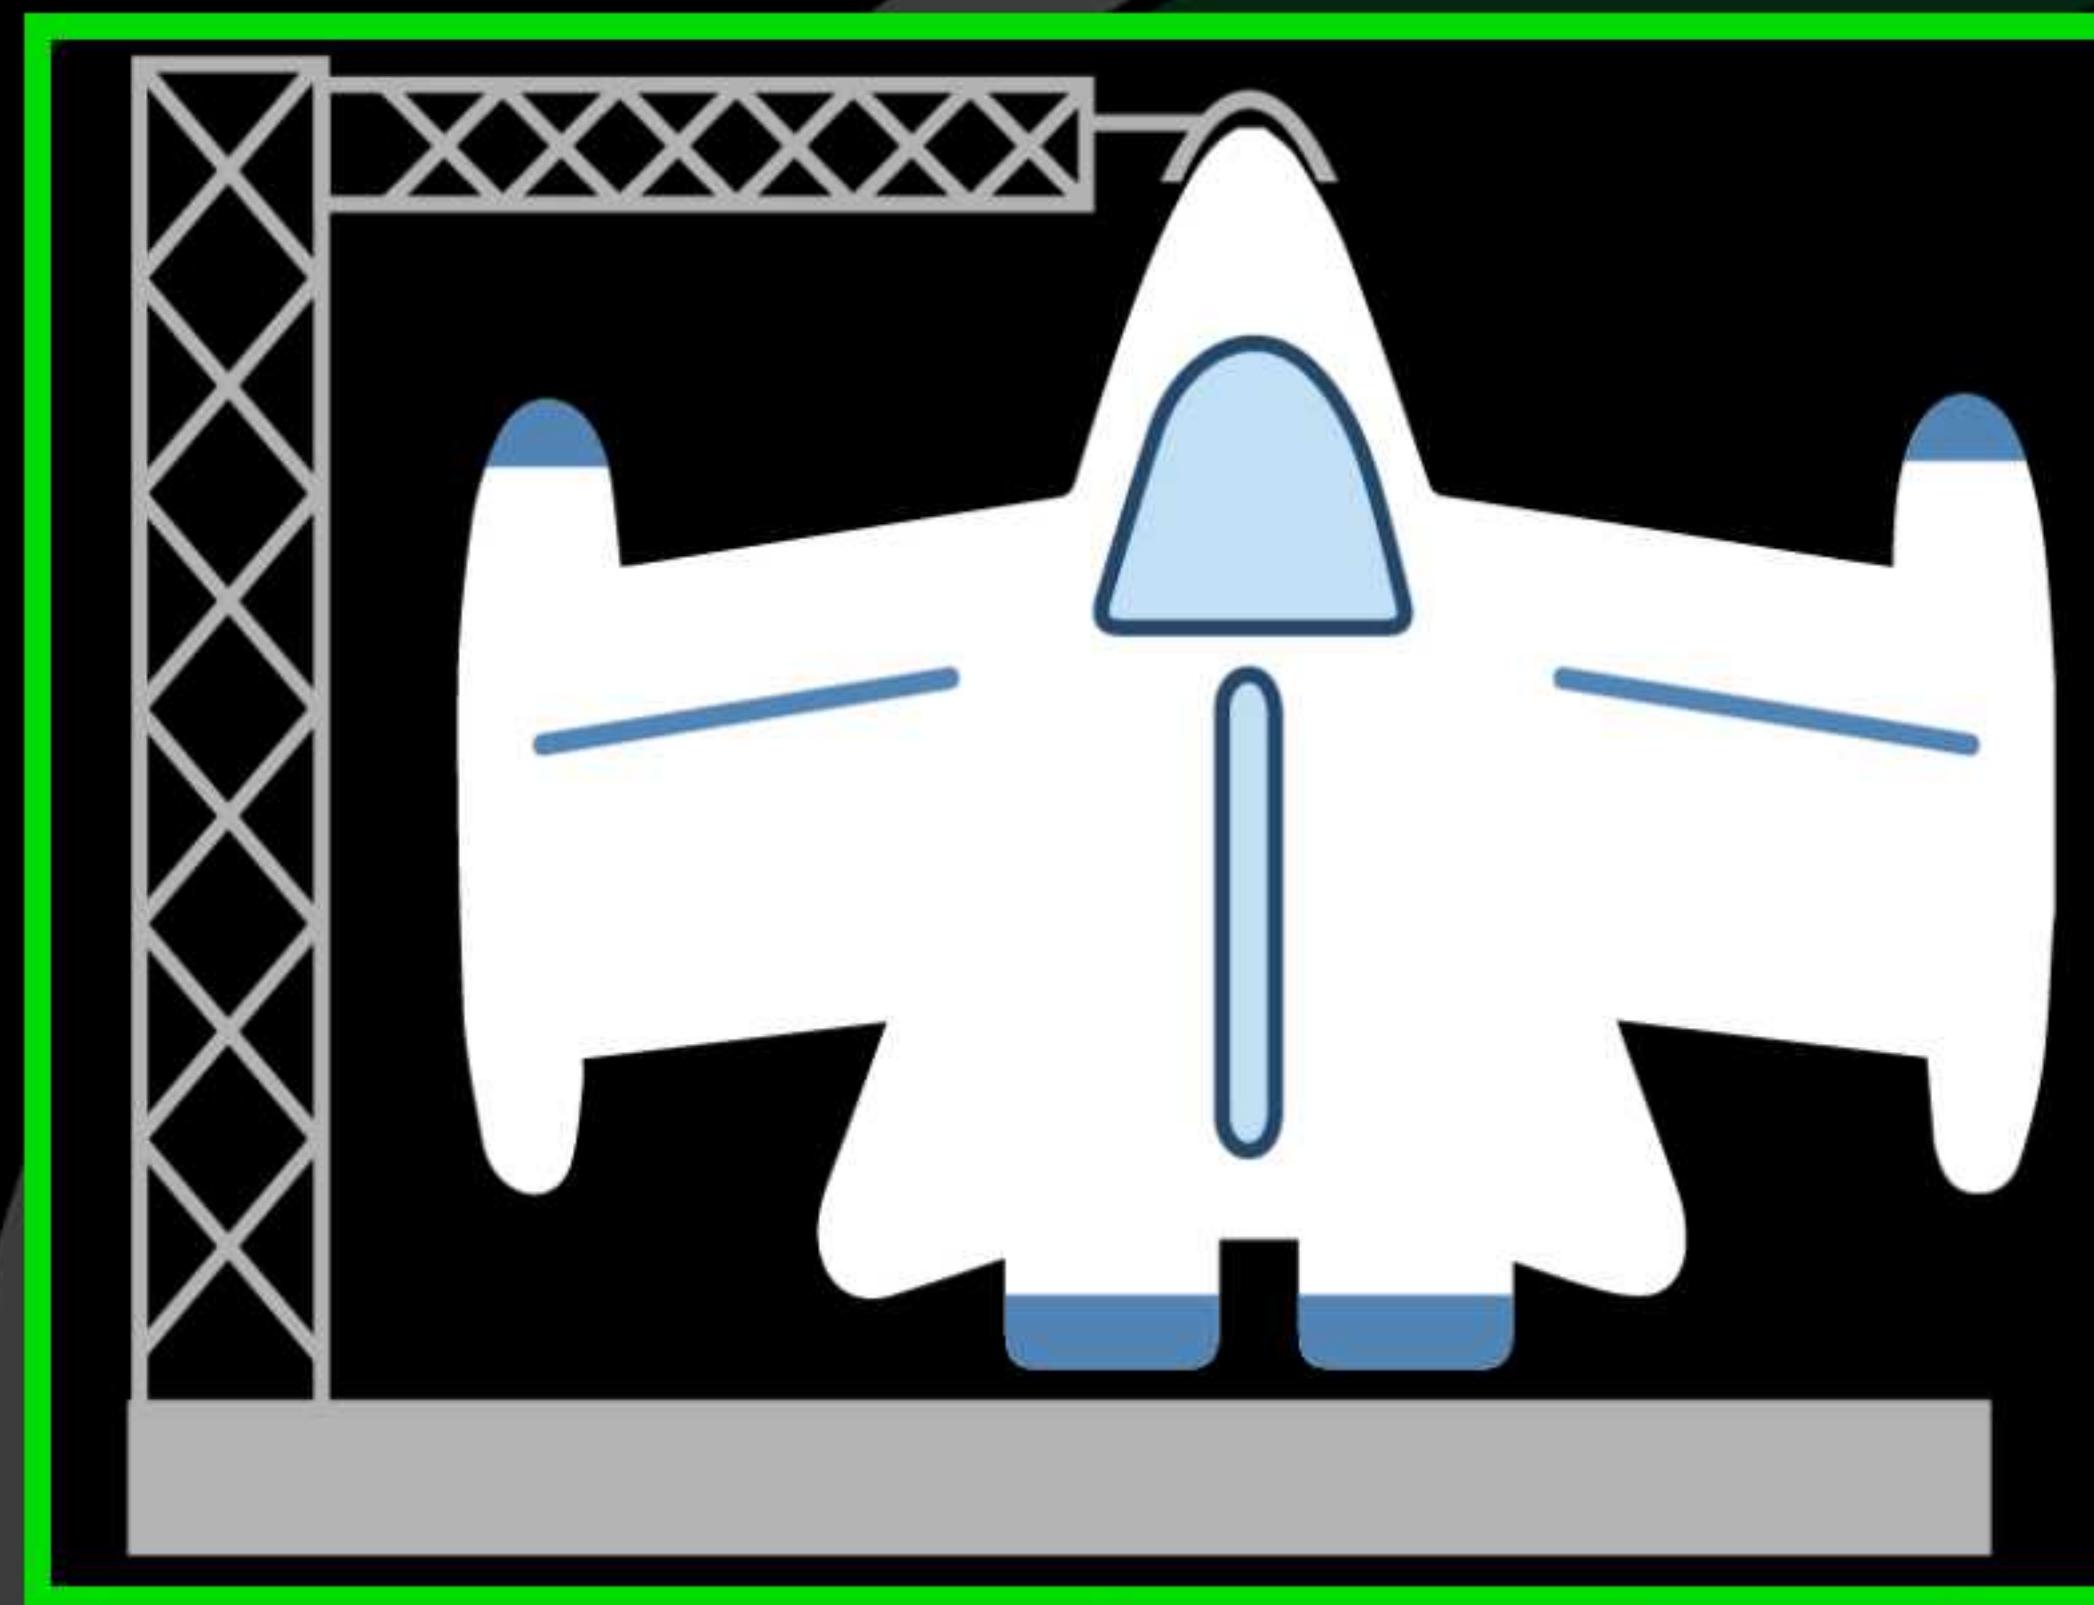

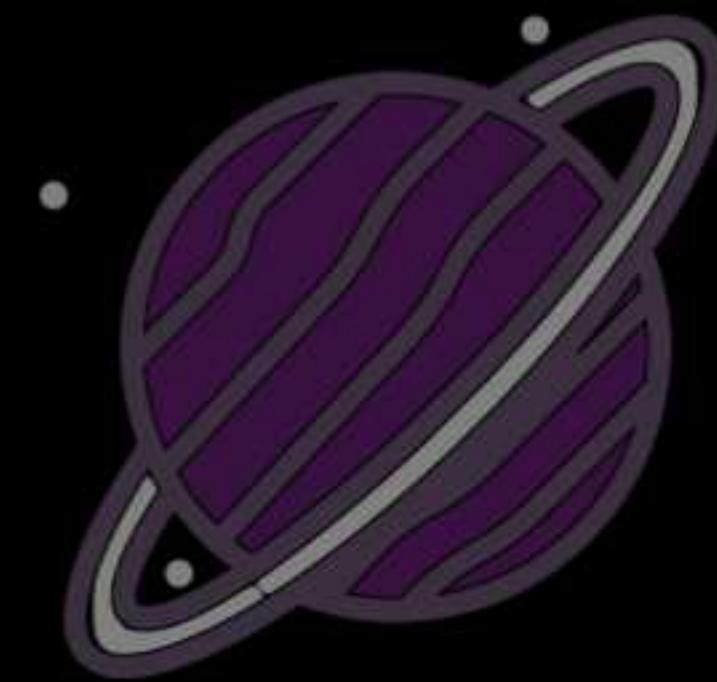

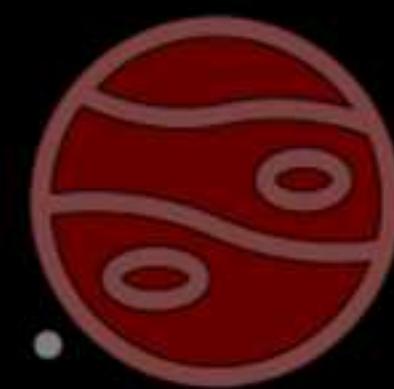

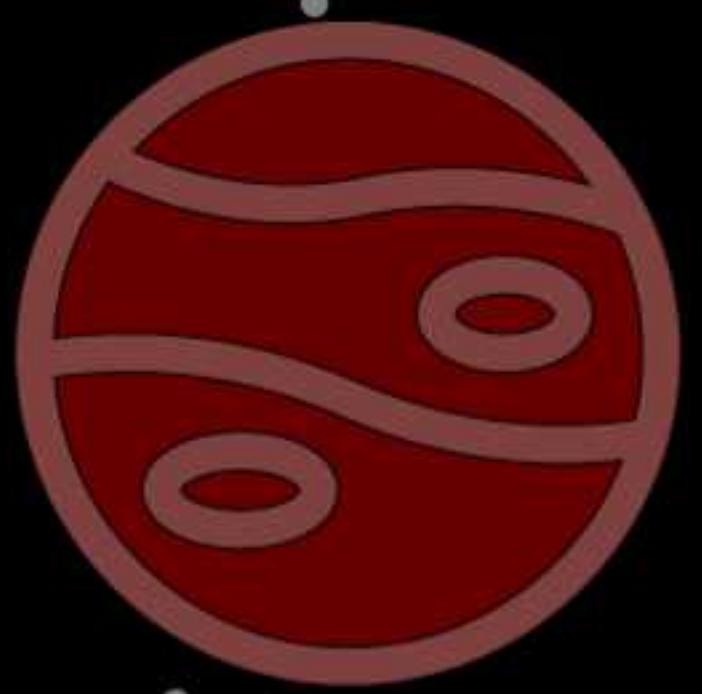

At the end of the game, you will be able to use all your tickets to buy a prize.

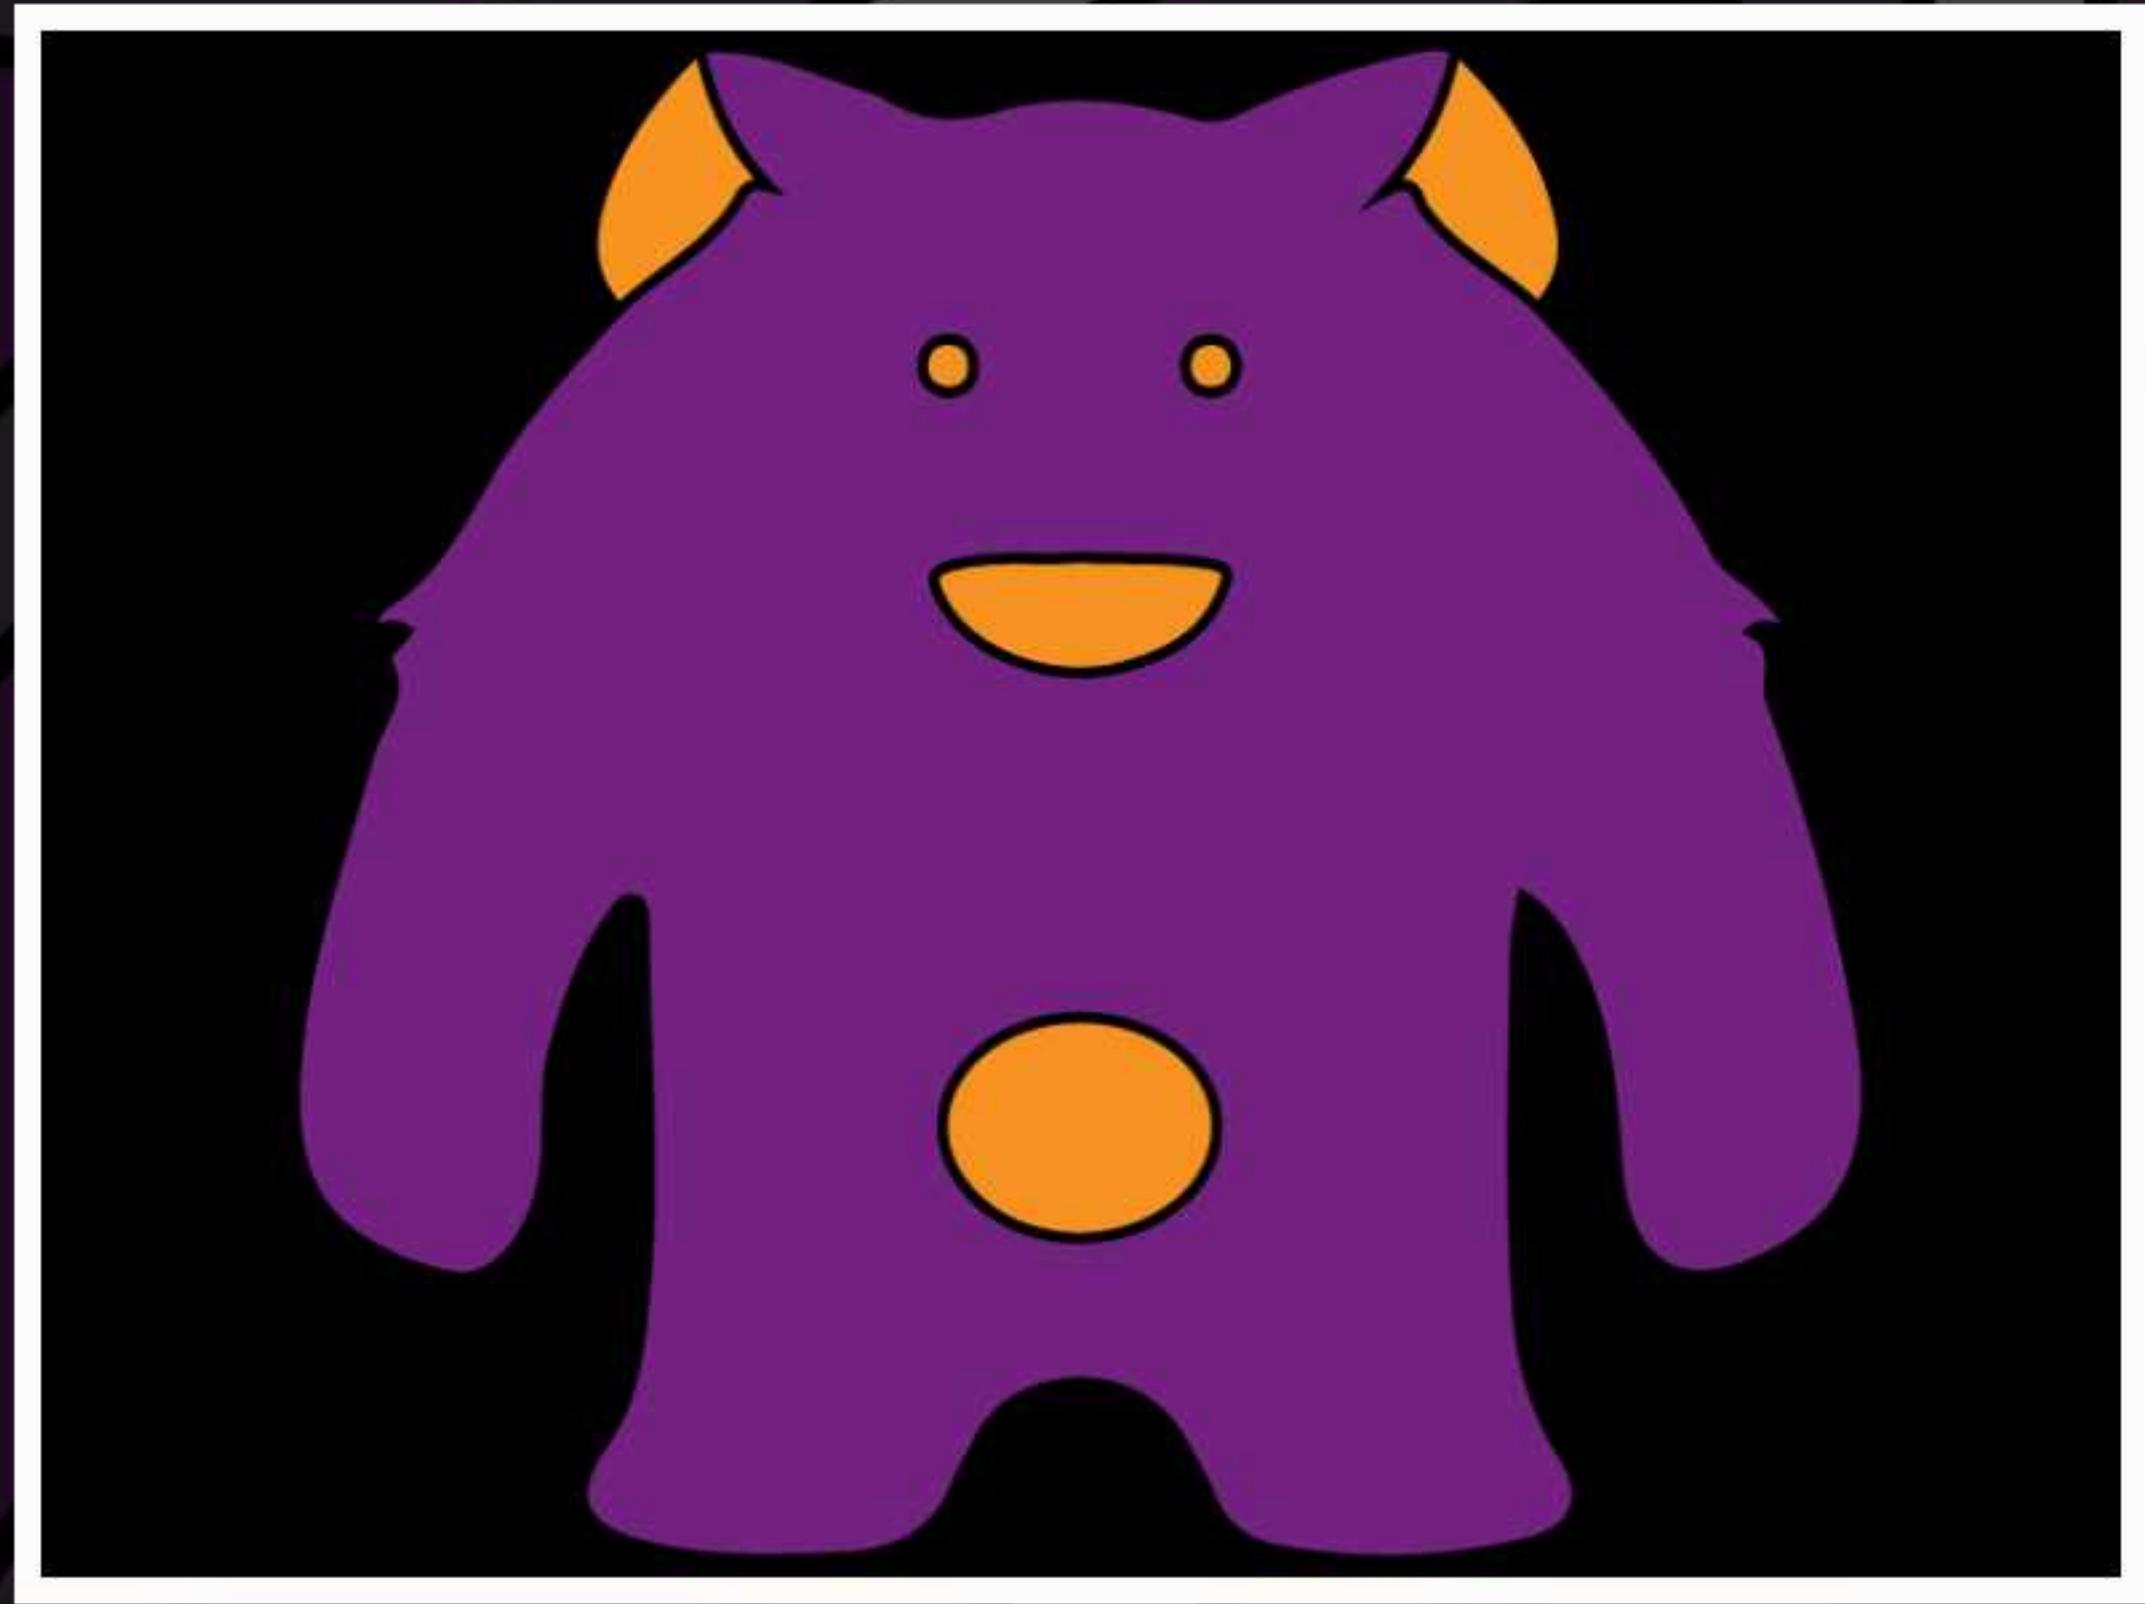

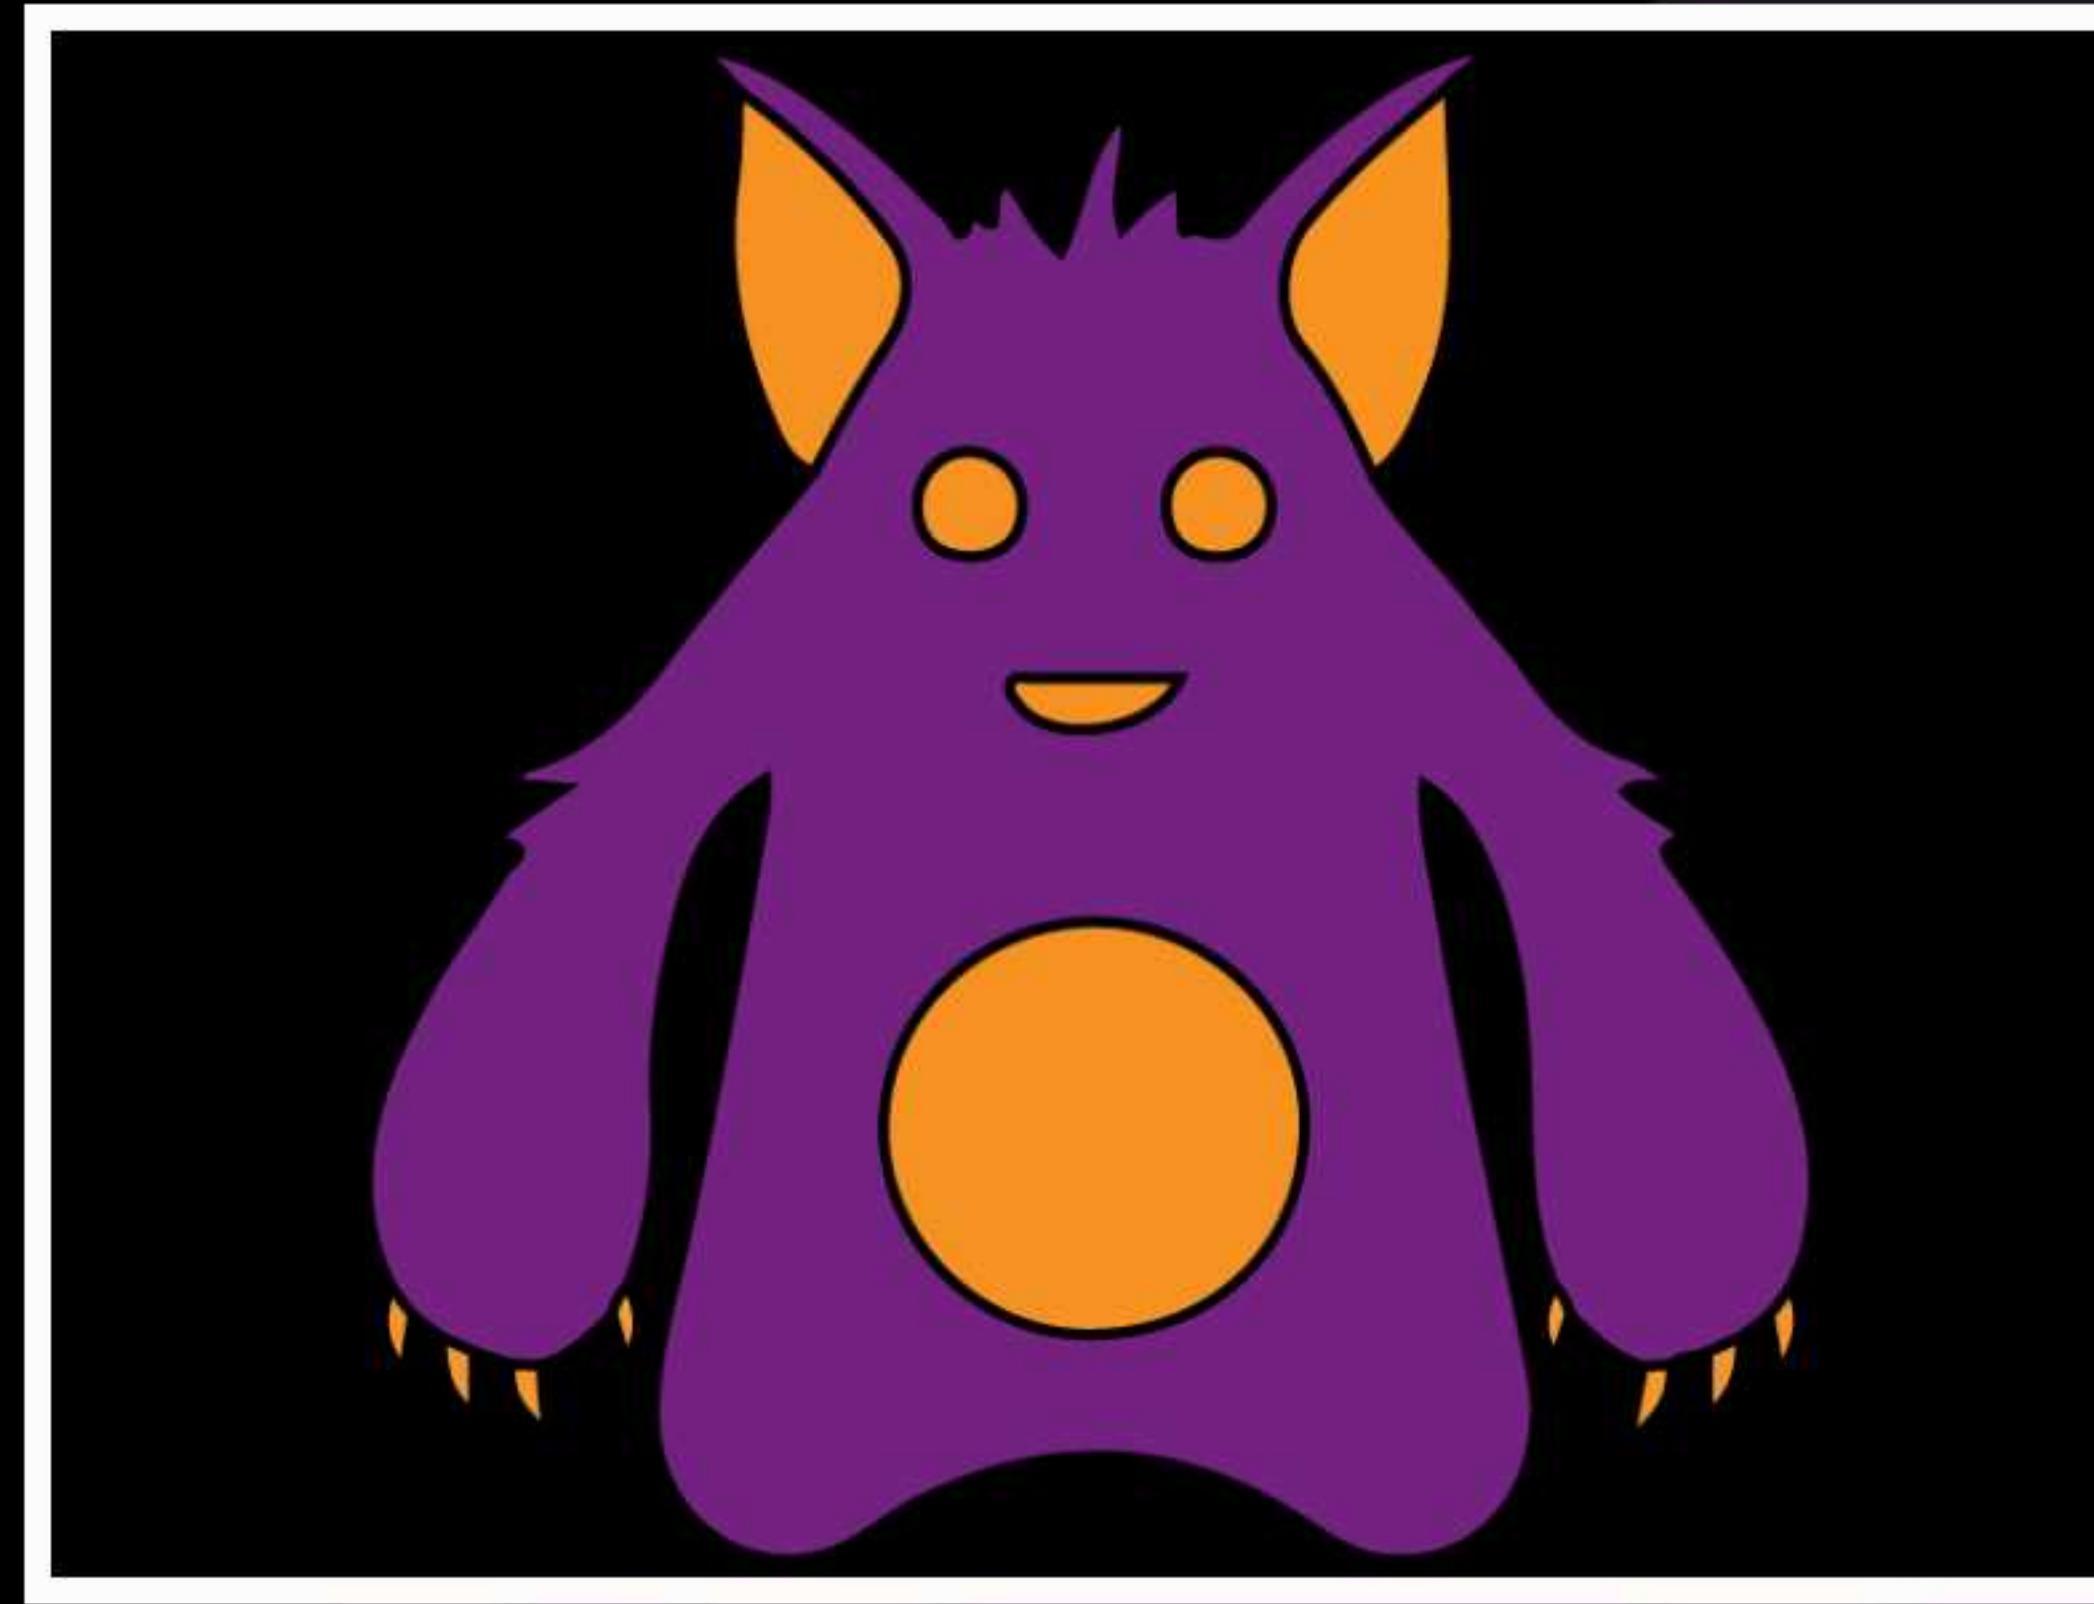

Let's practice exploring for space treasure three more times.

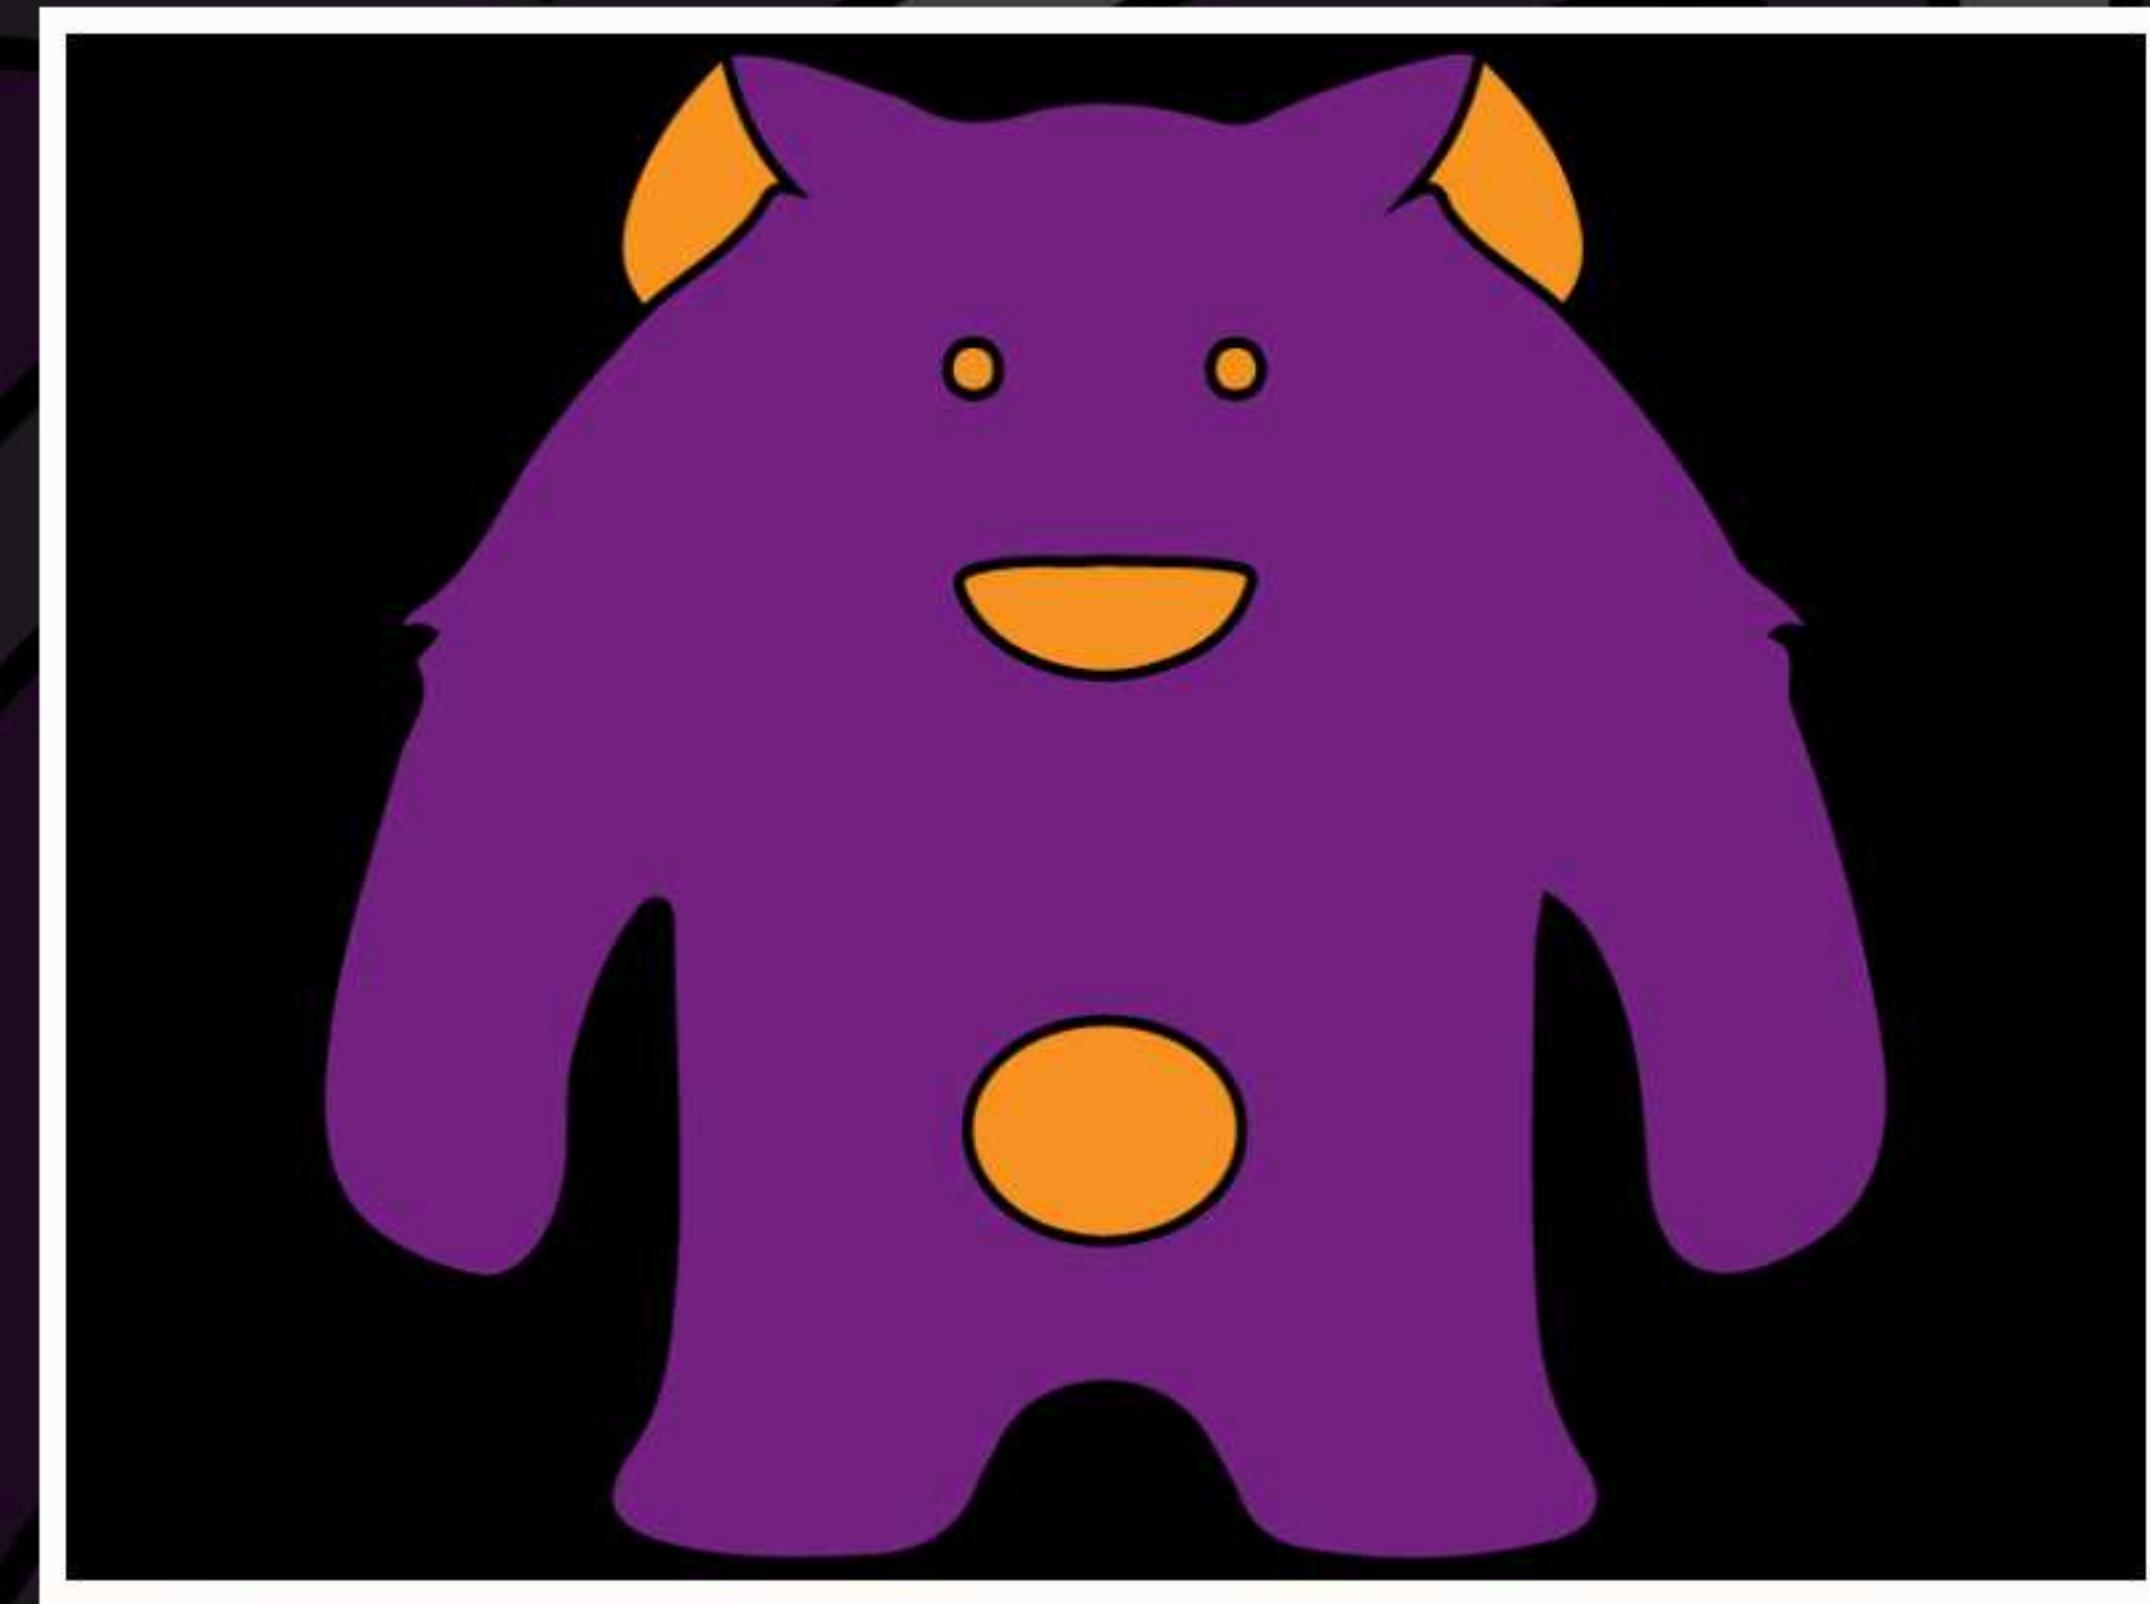

This time, we will trade your space treasure for prizes!

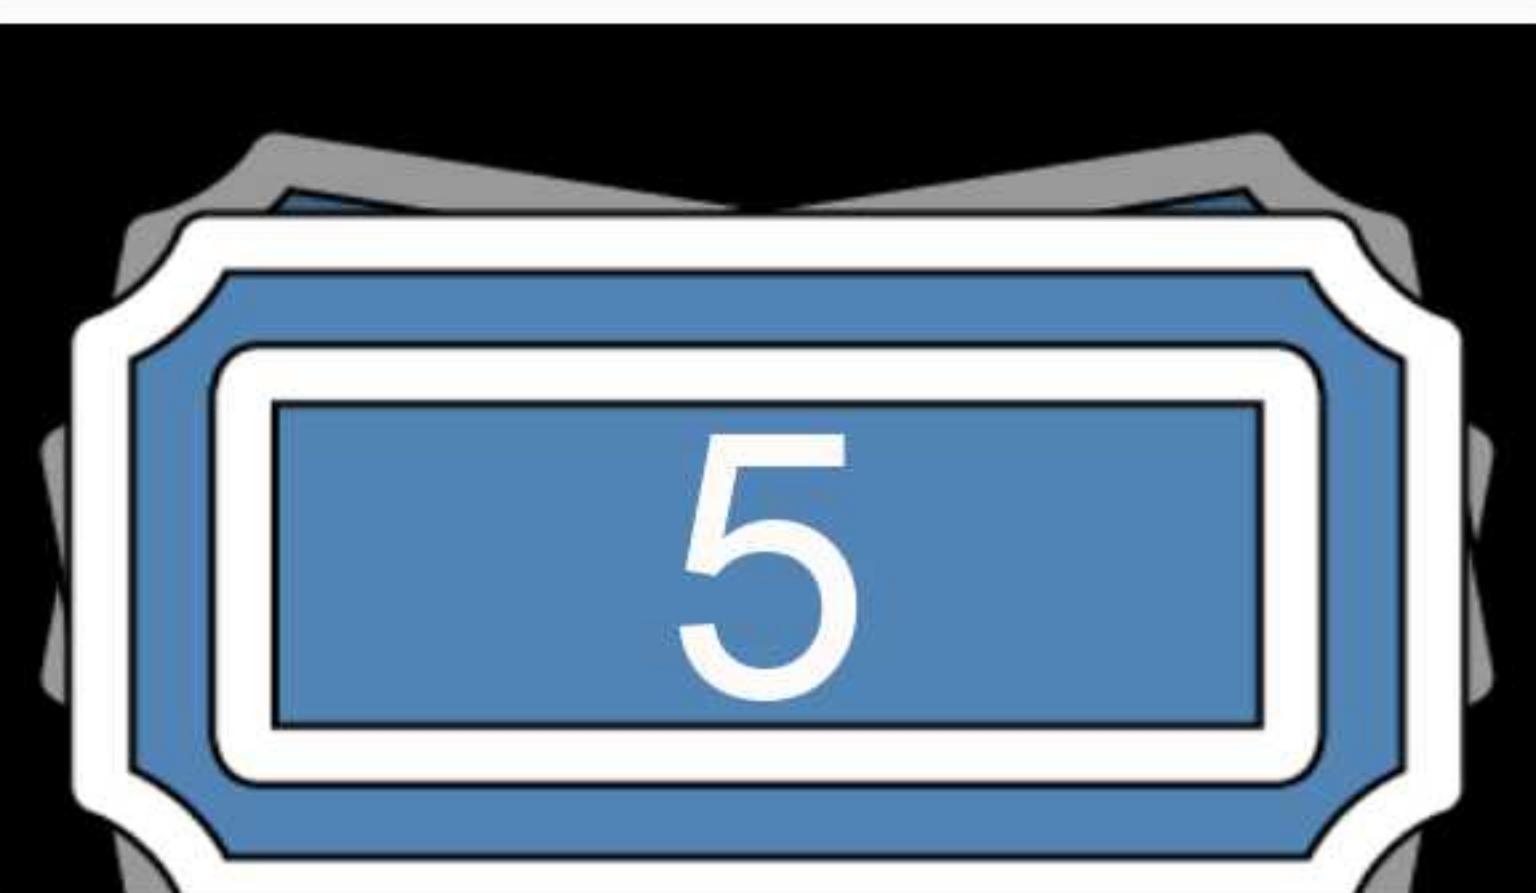

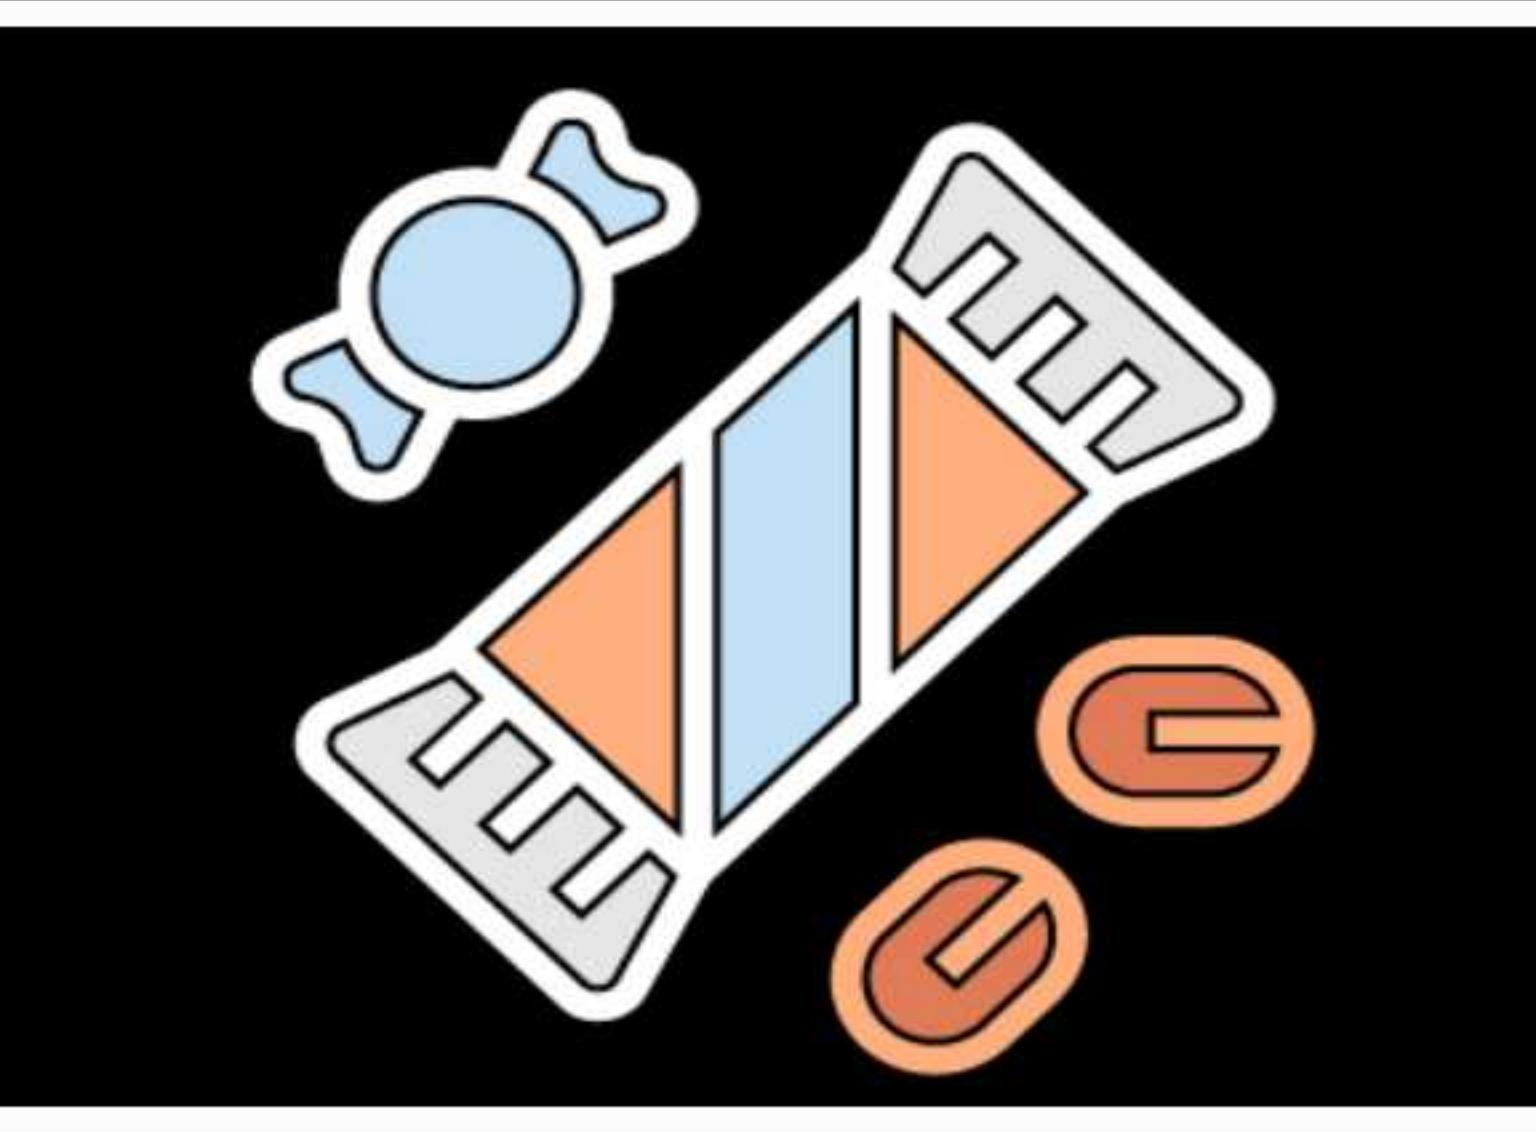

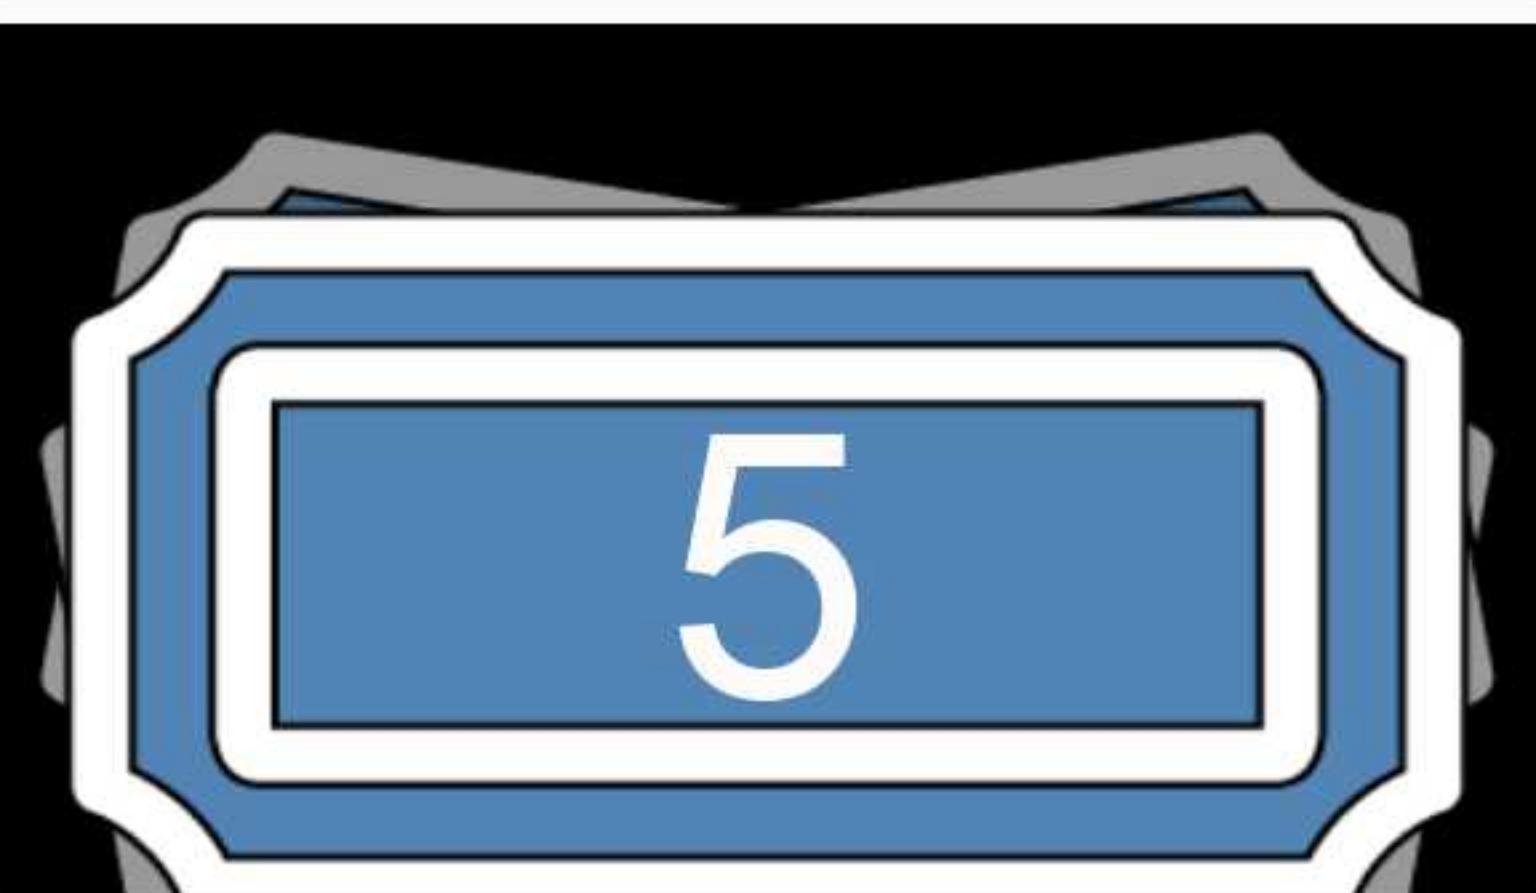

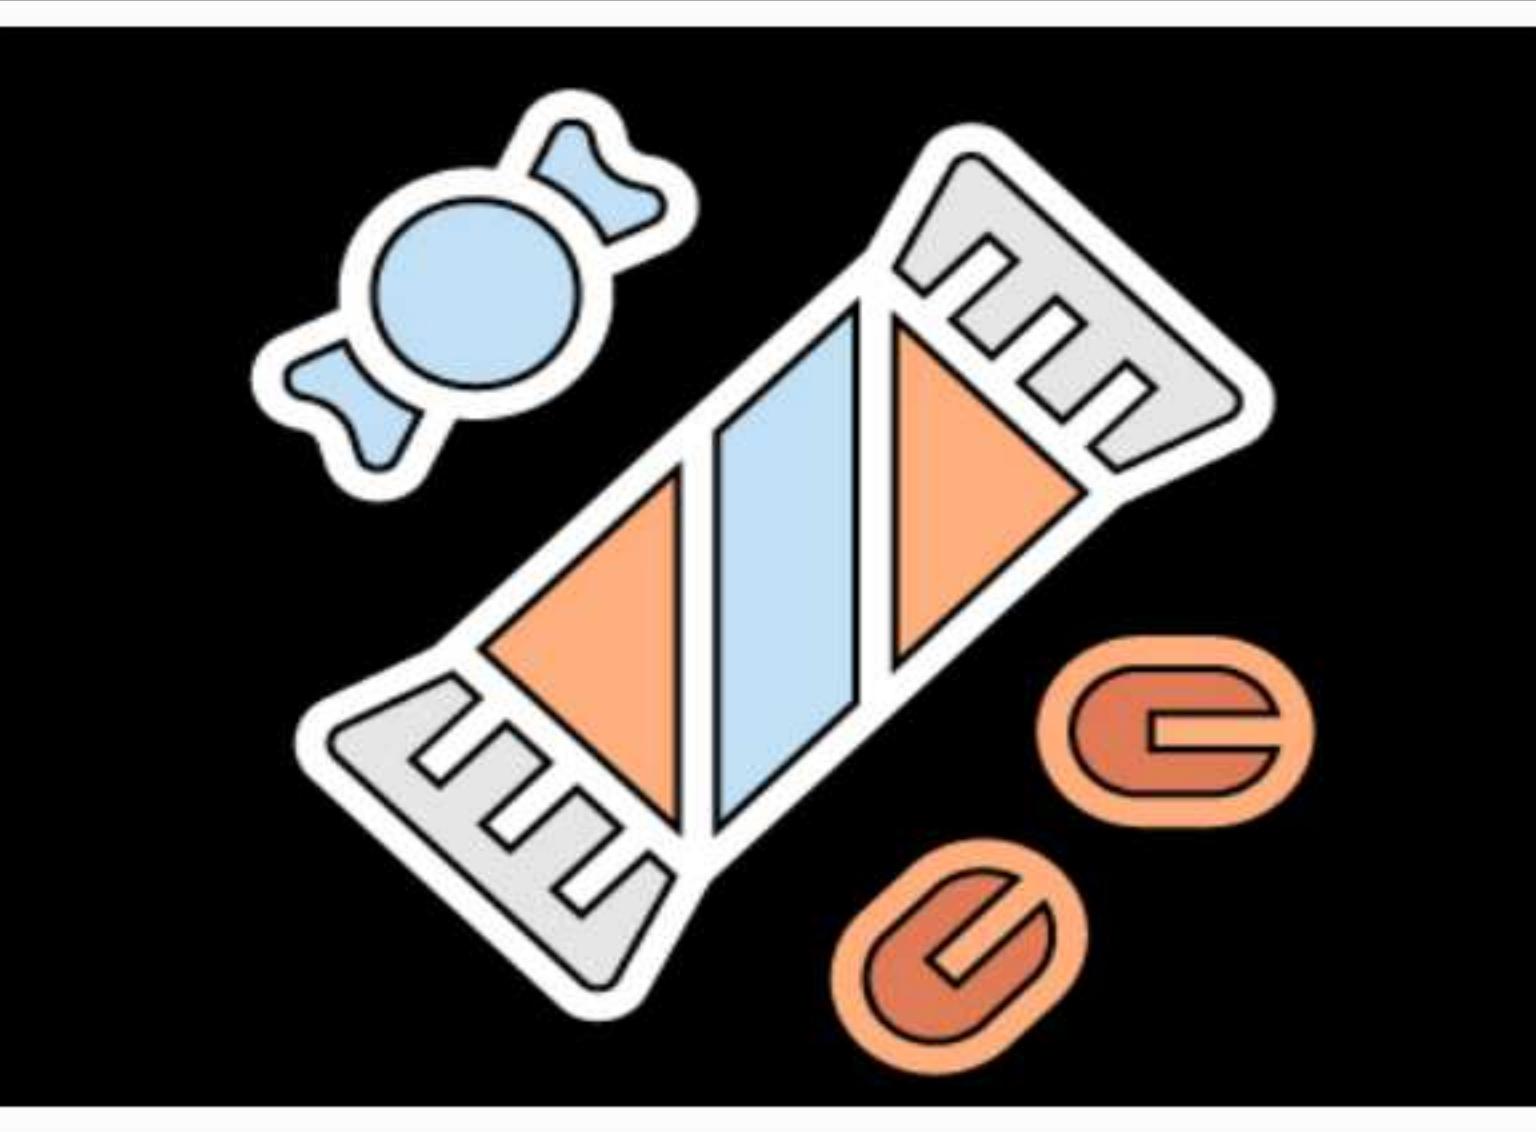

Win!

Trade your space treasure

Look! You can trade your space treasure for snacks or 5 tickets.

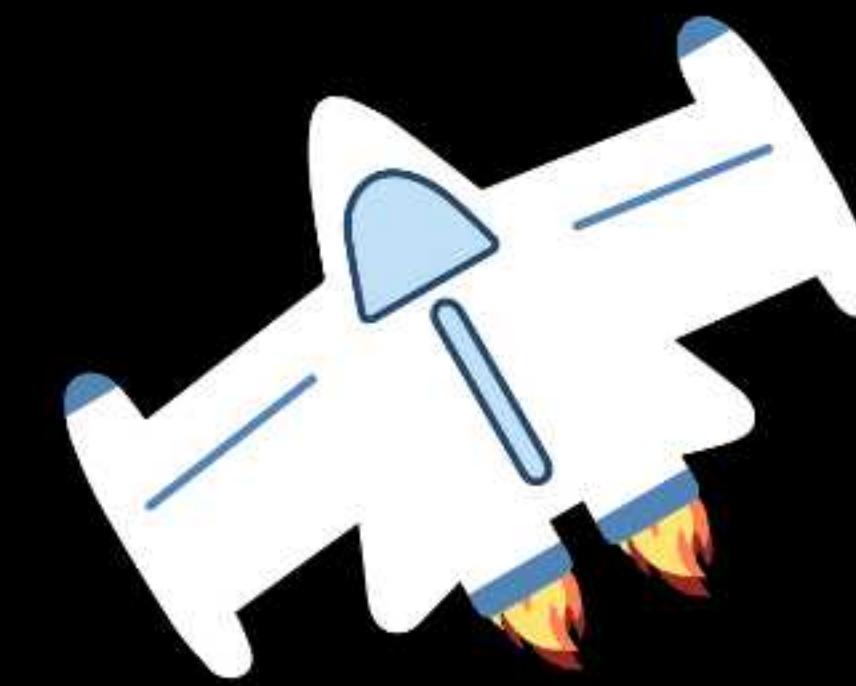

Trade your space treasure

Let's trade your space treasure for a bite of the snacks.

Trade your space treasure

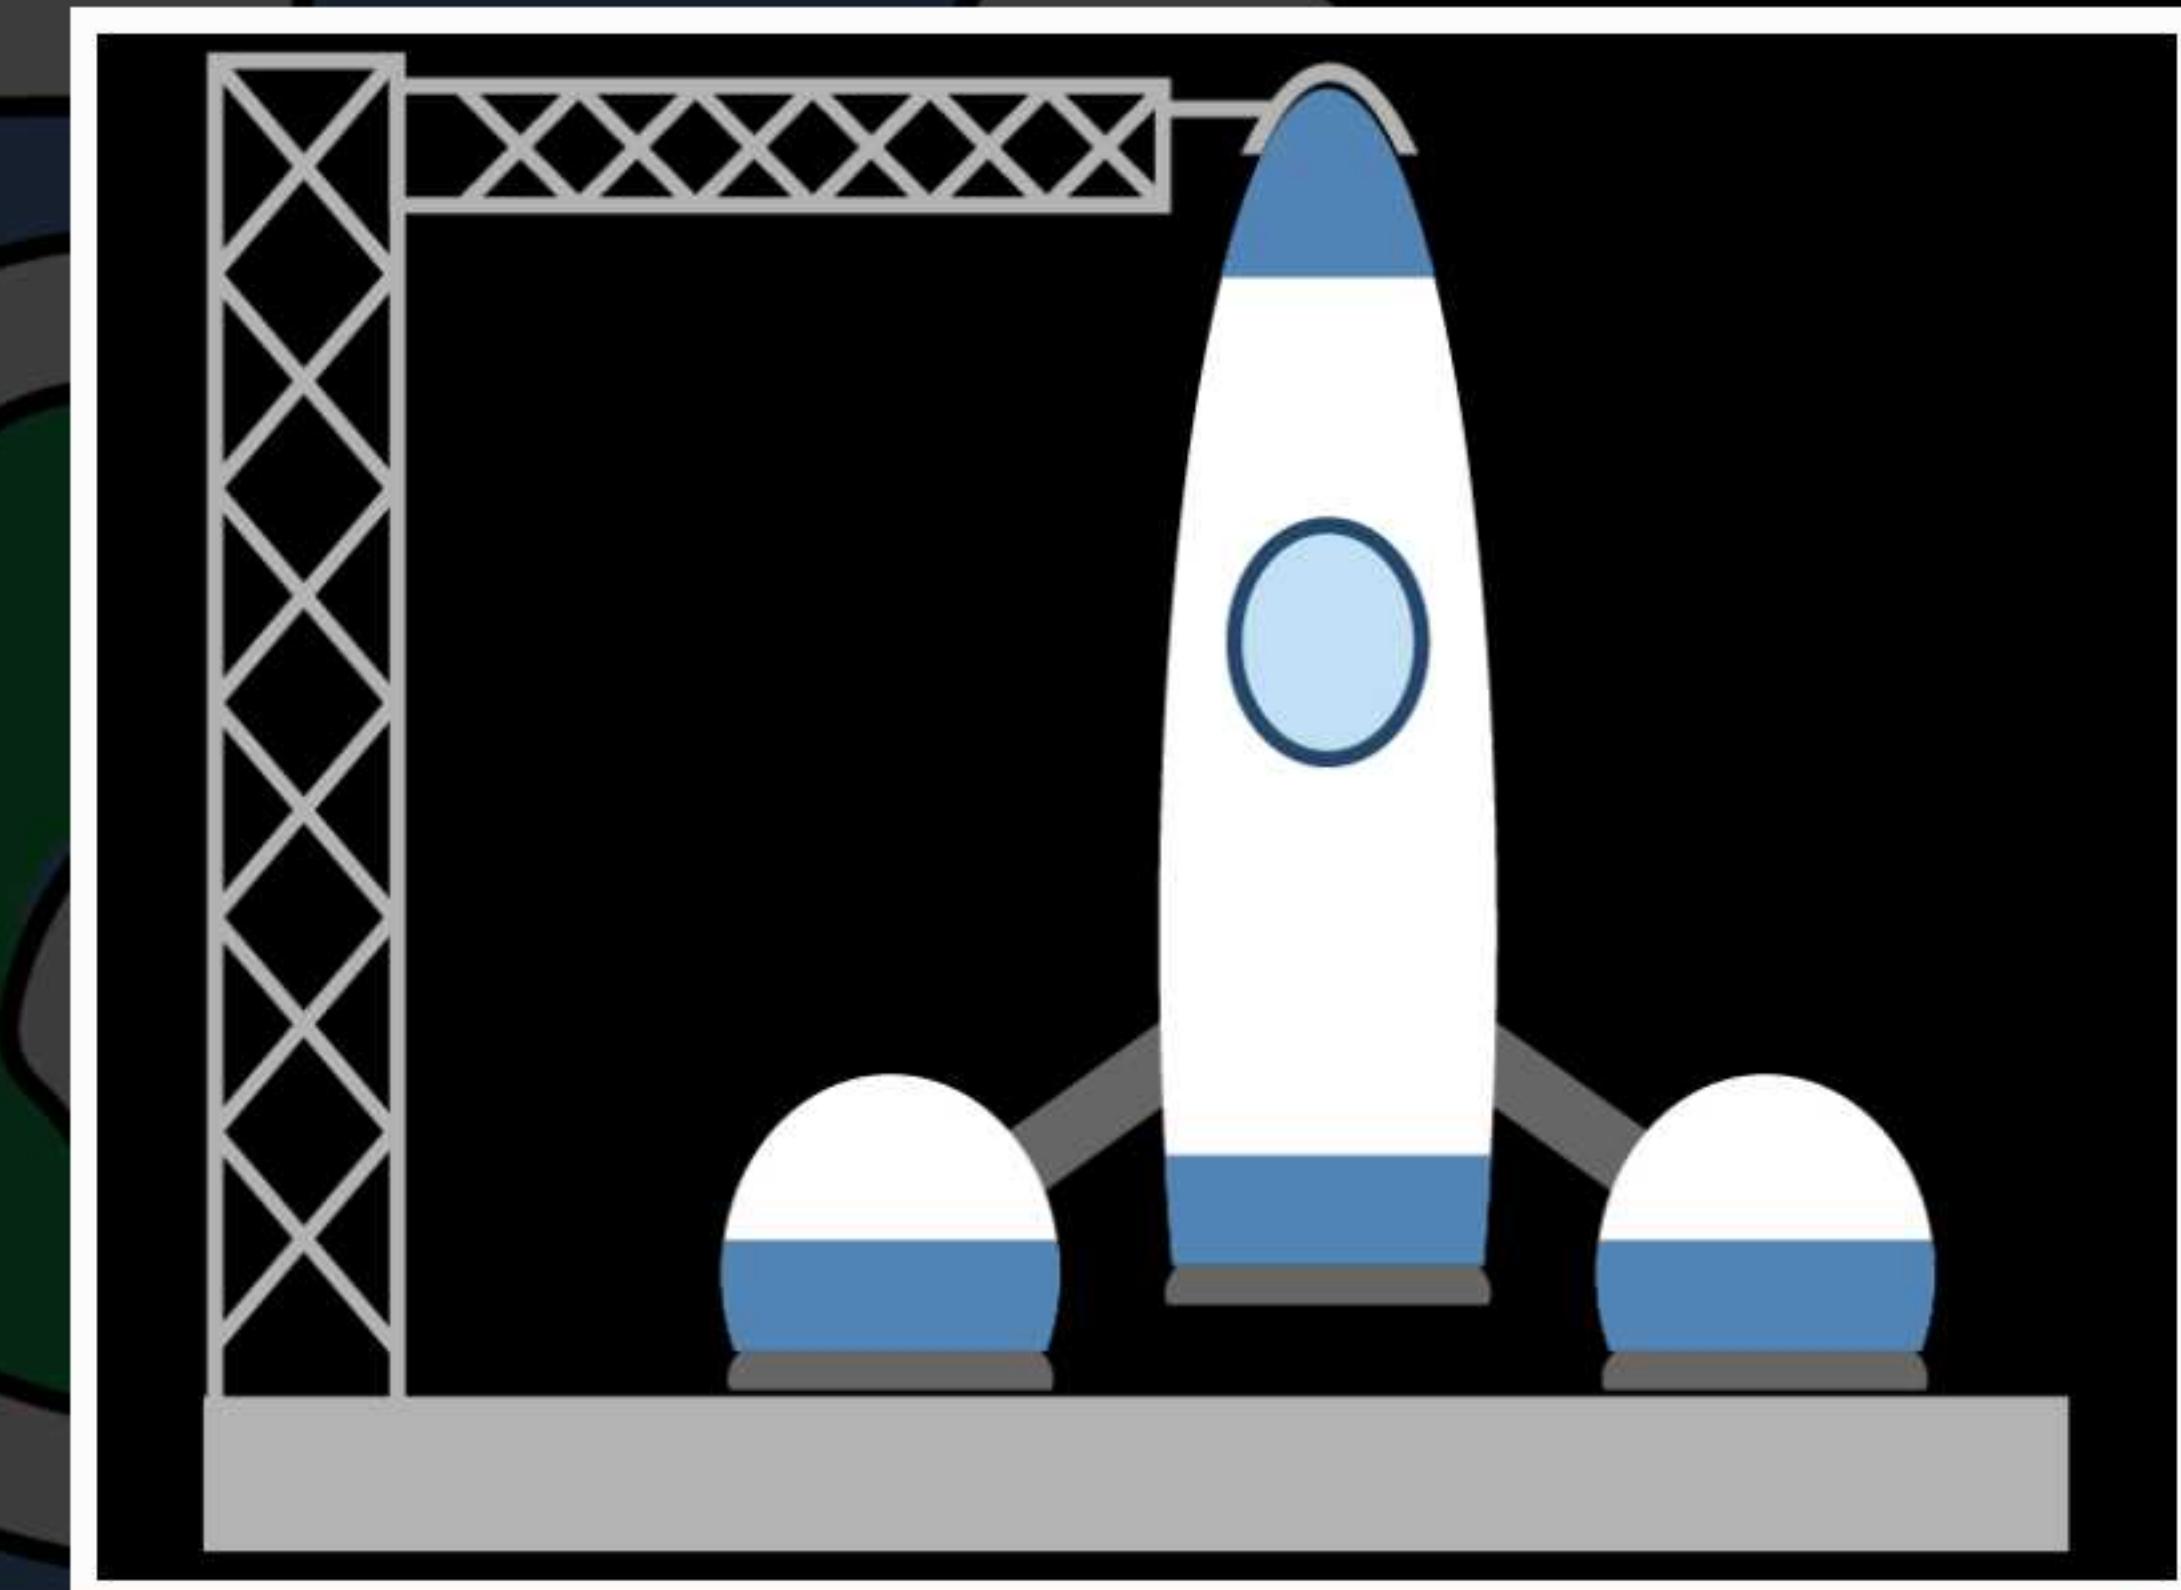

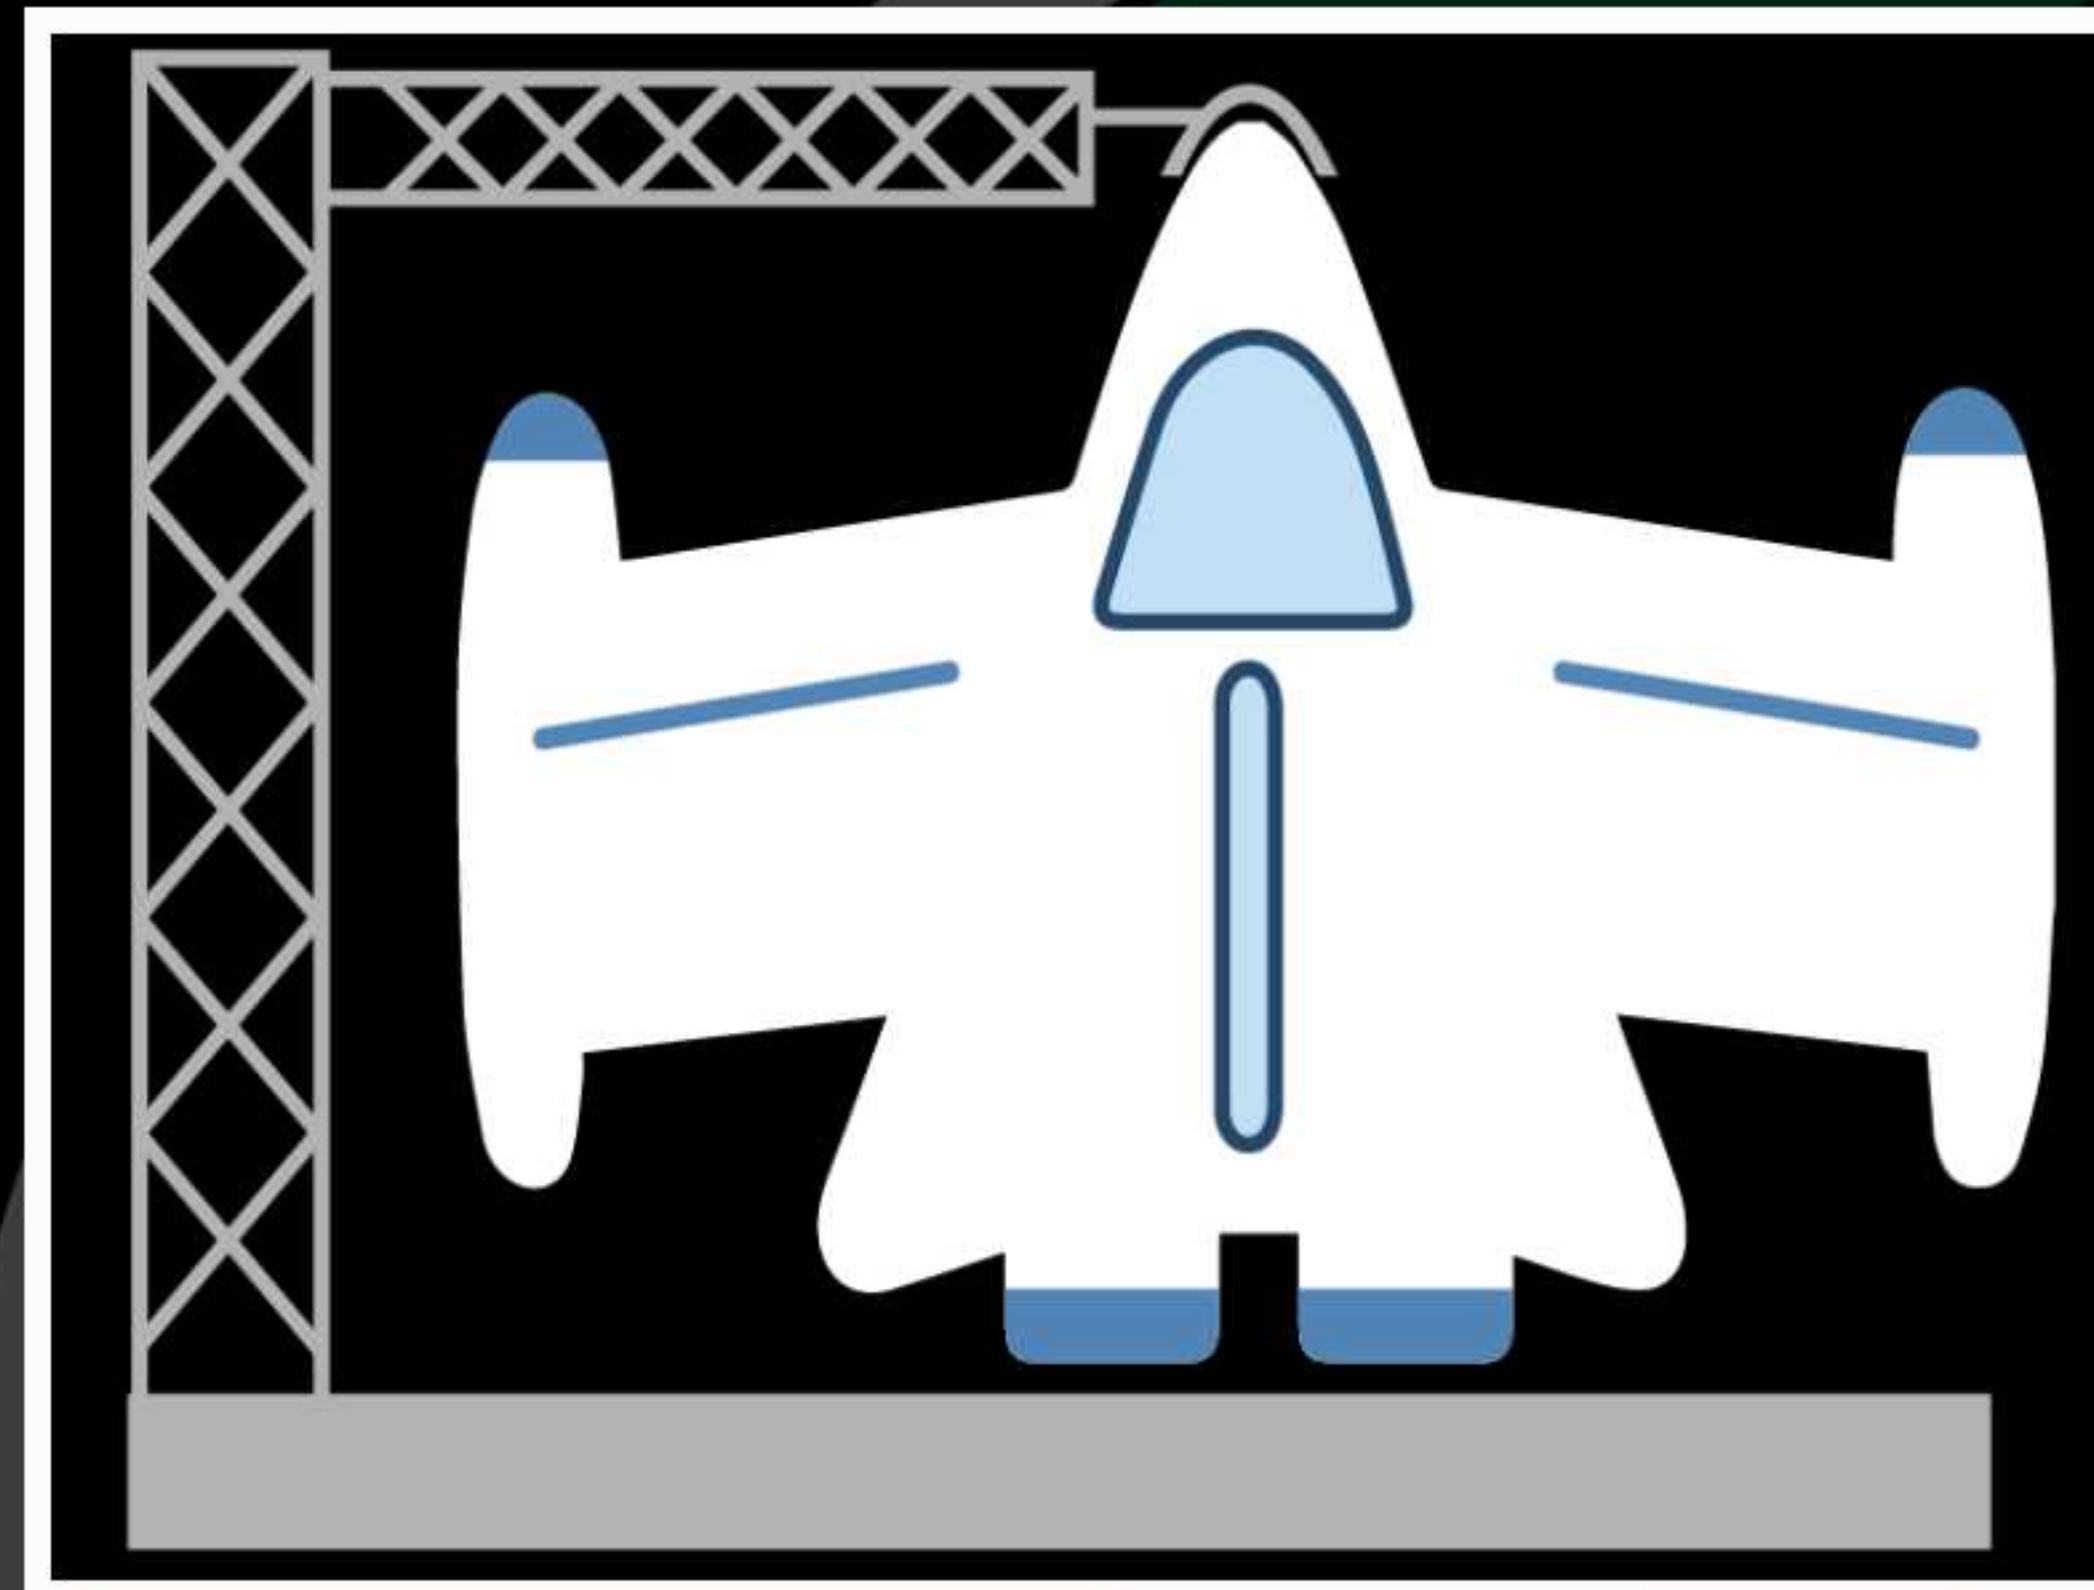

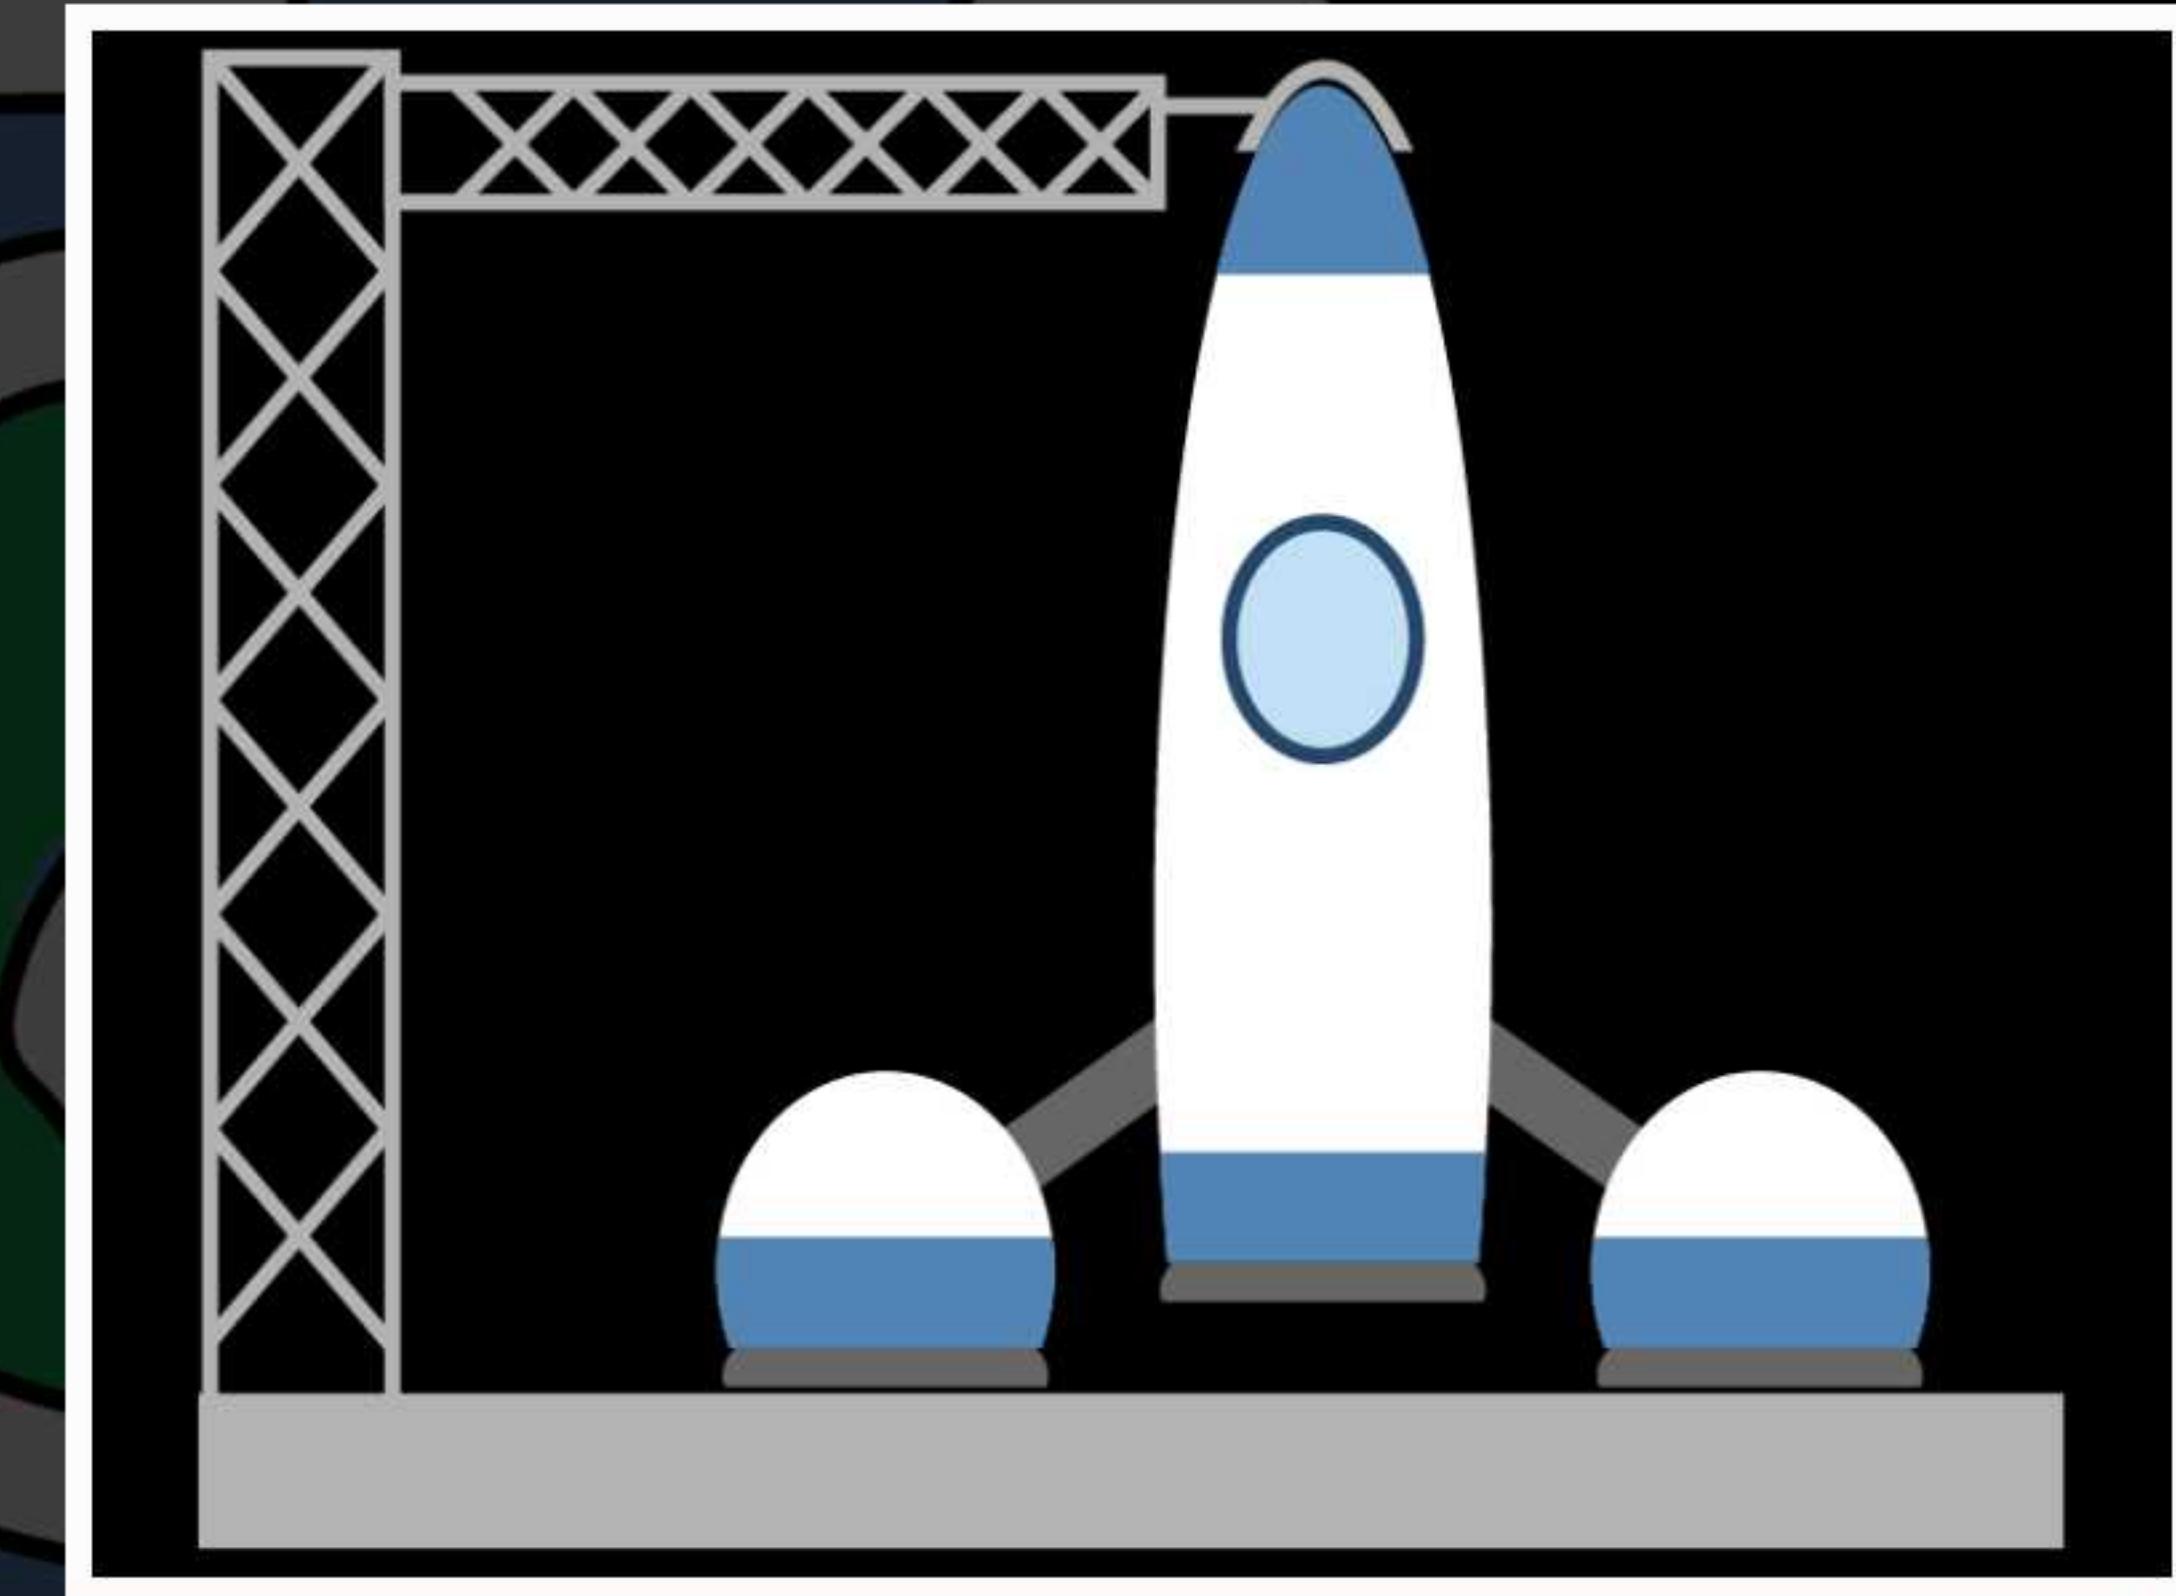

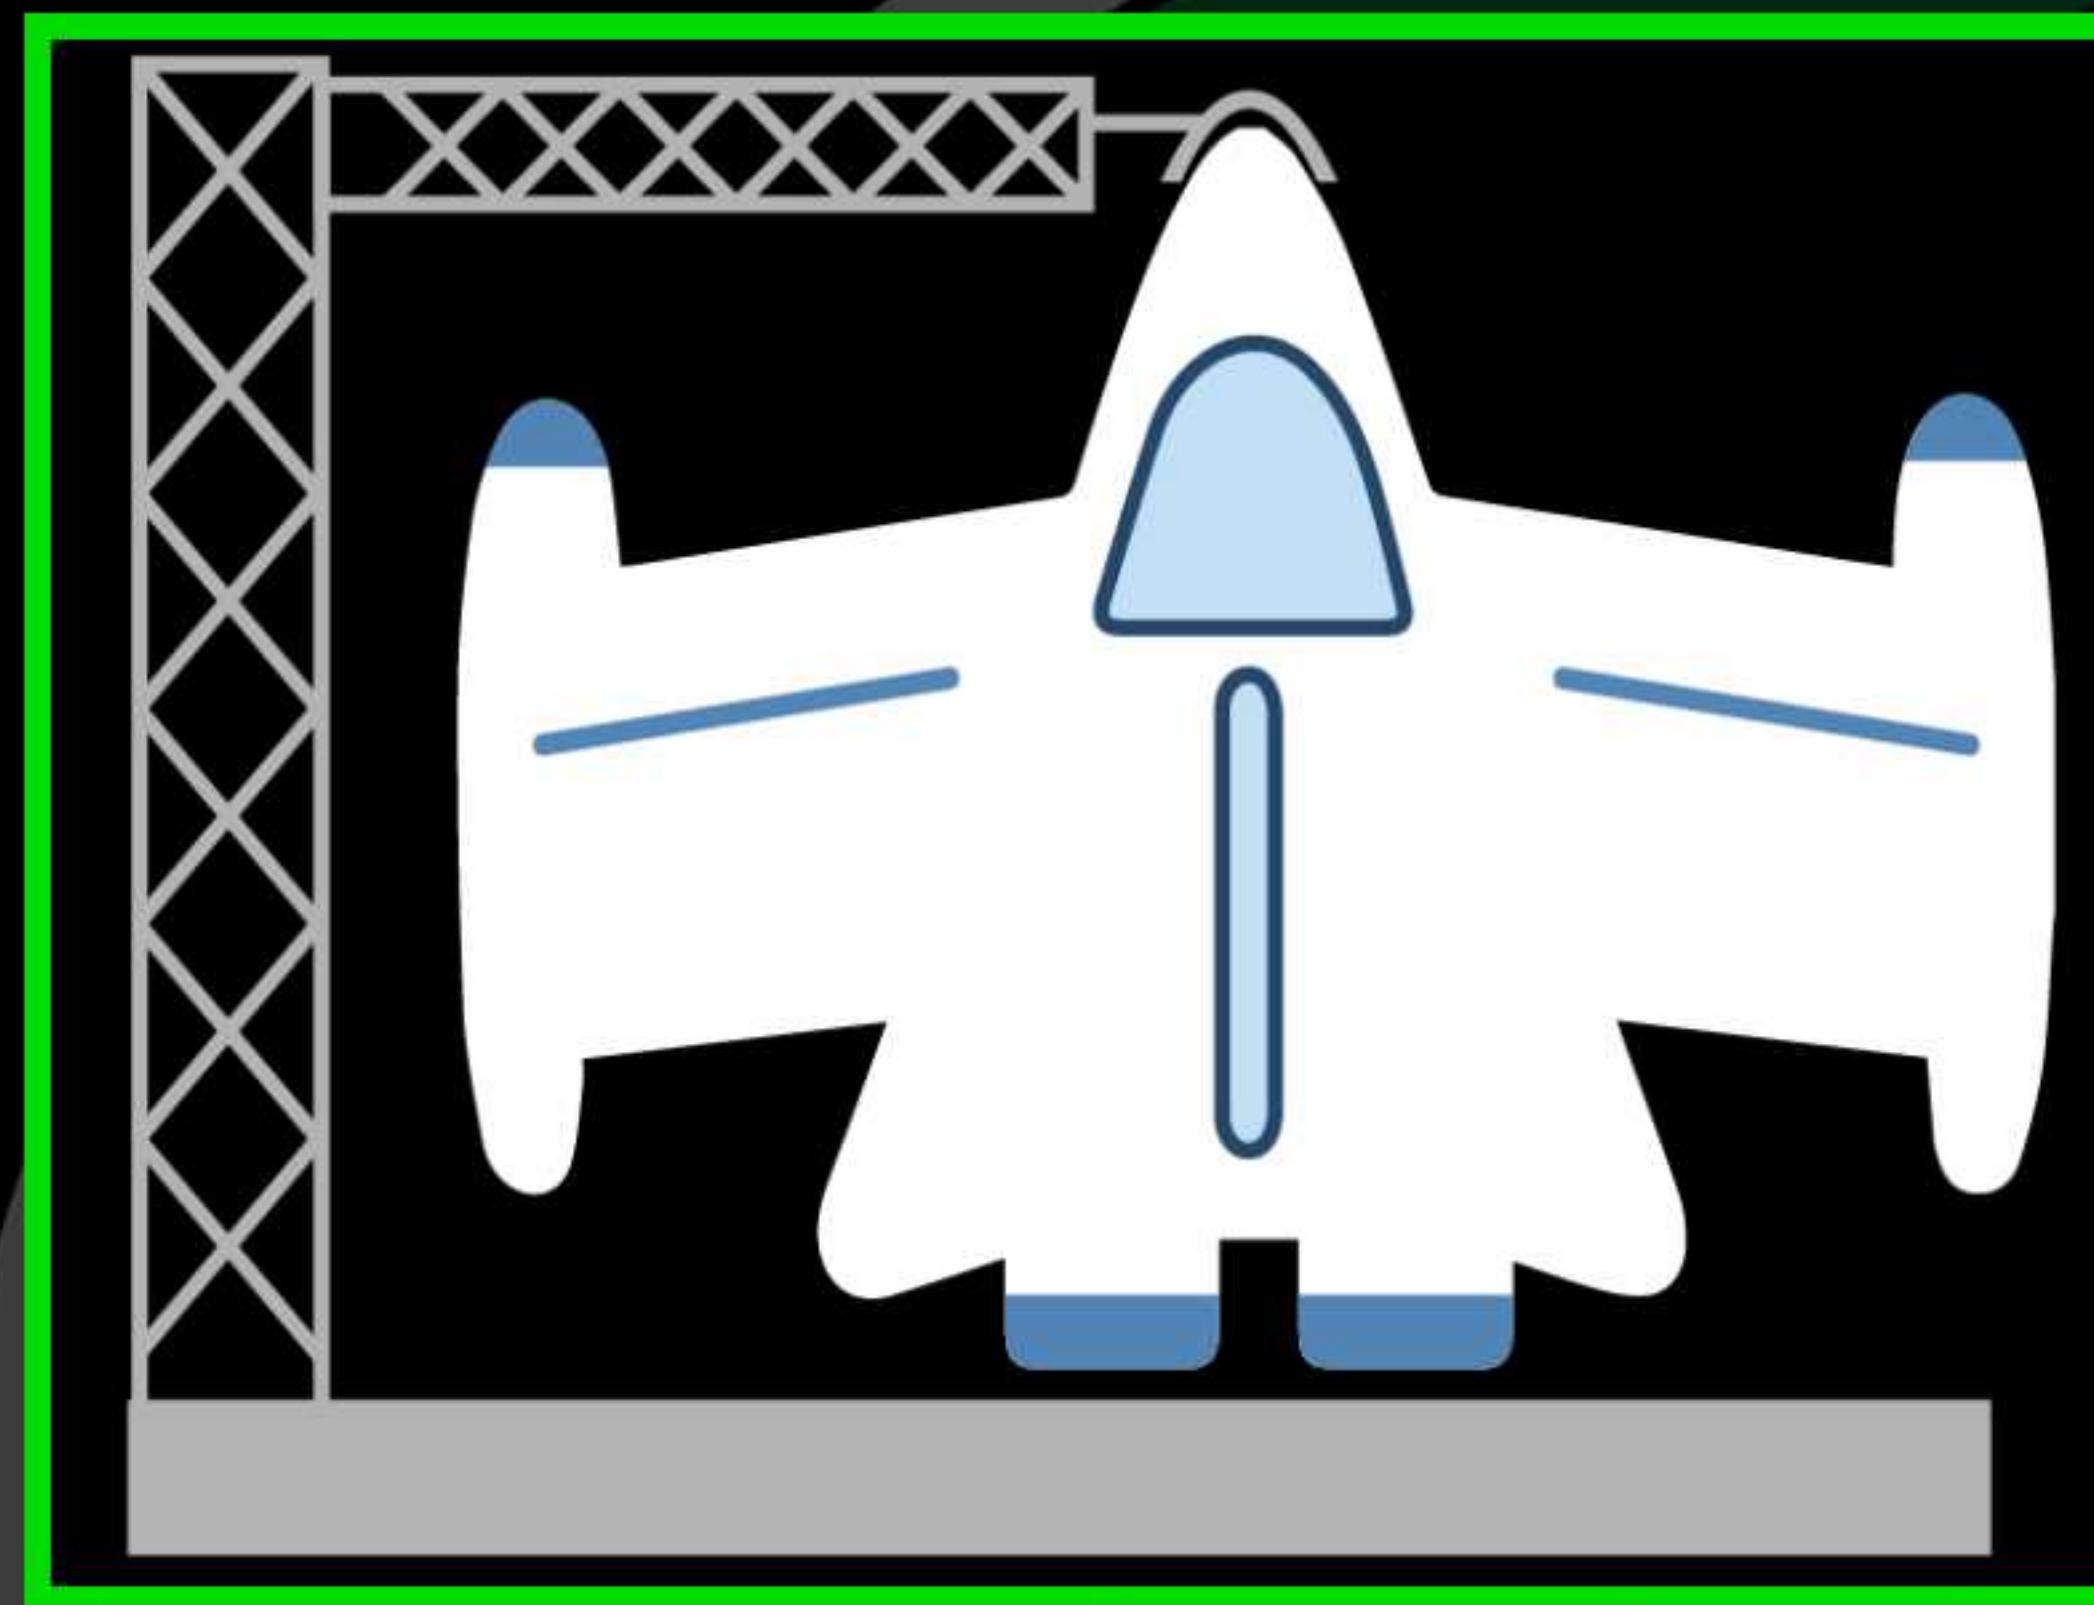

Make sure to eat your snack before your spaceship returns home!

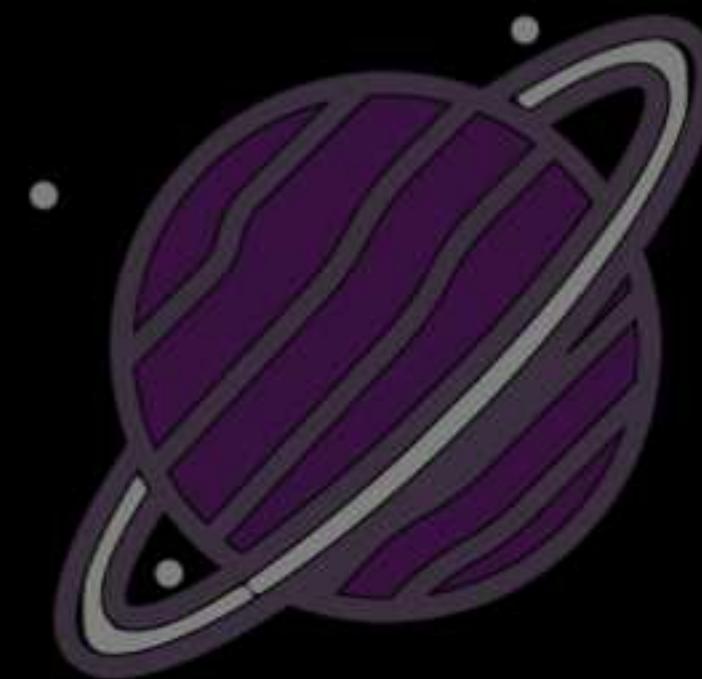

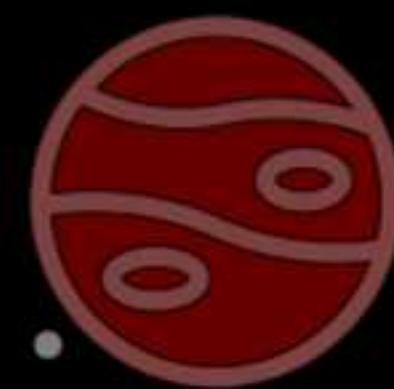

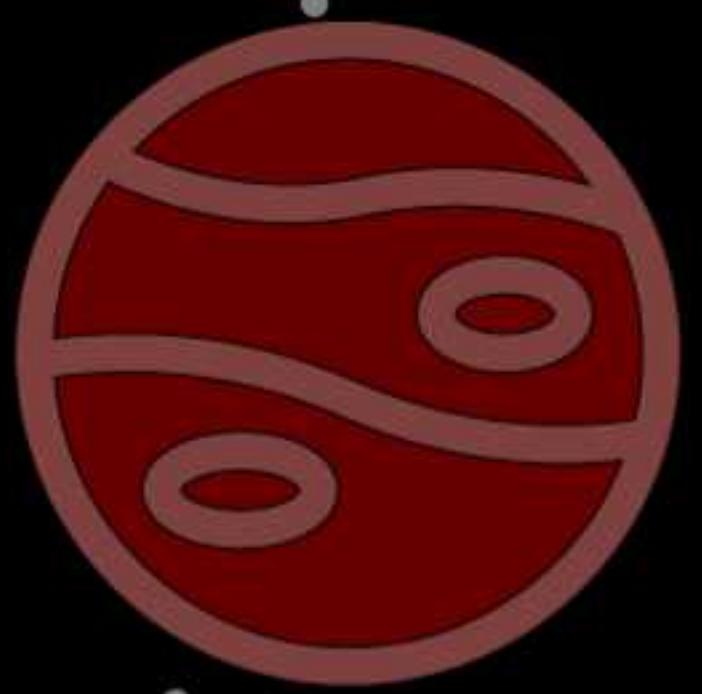

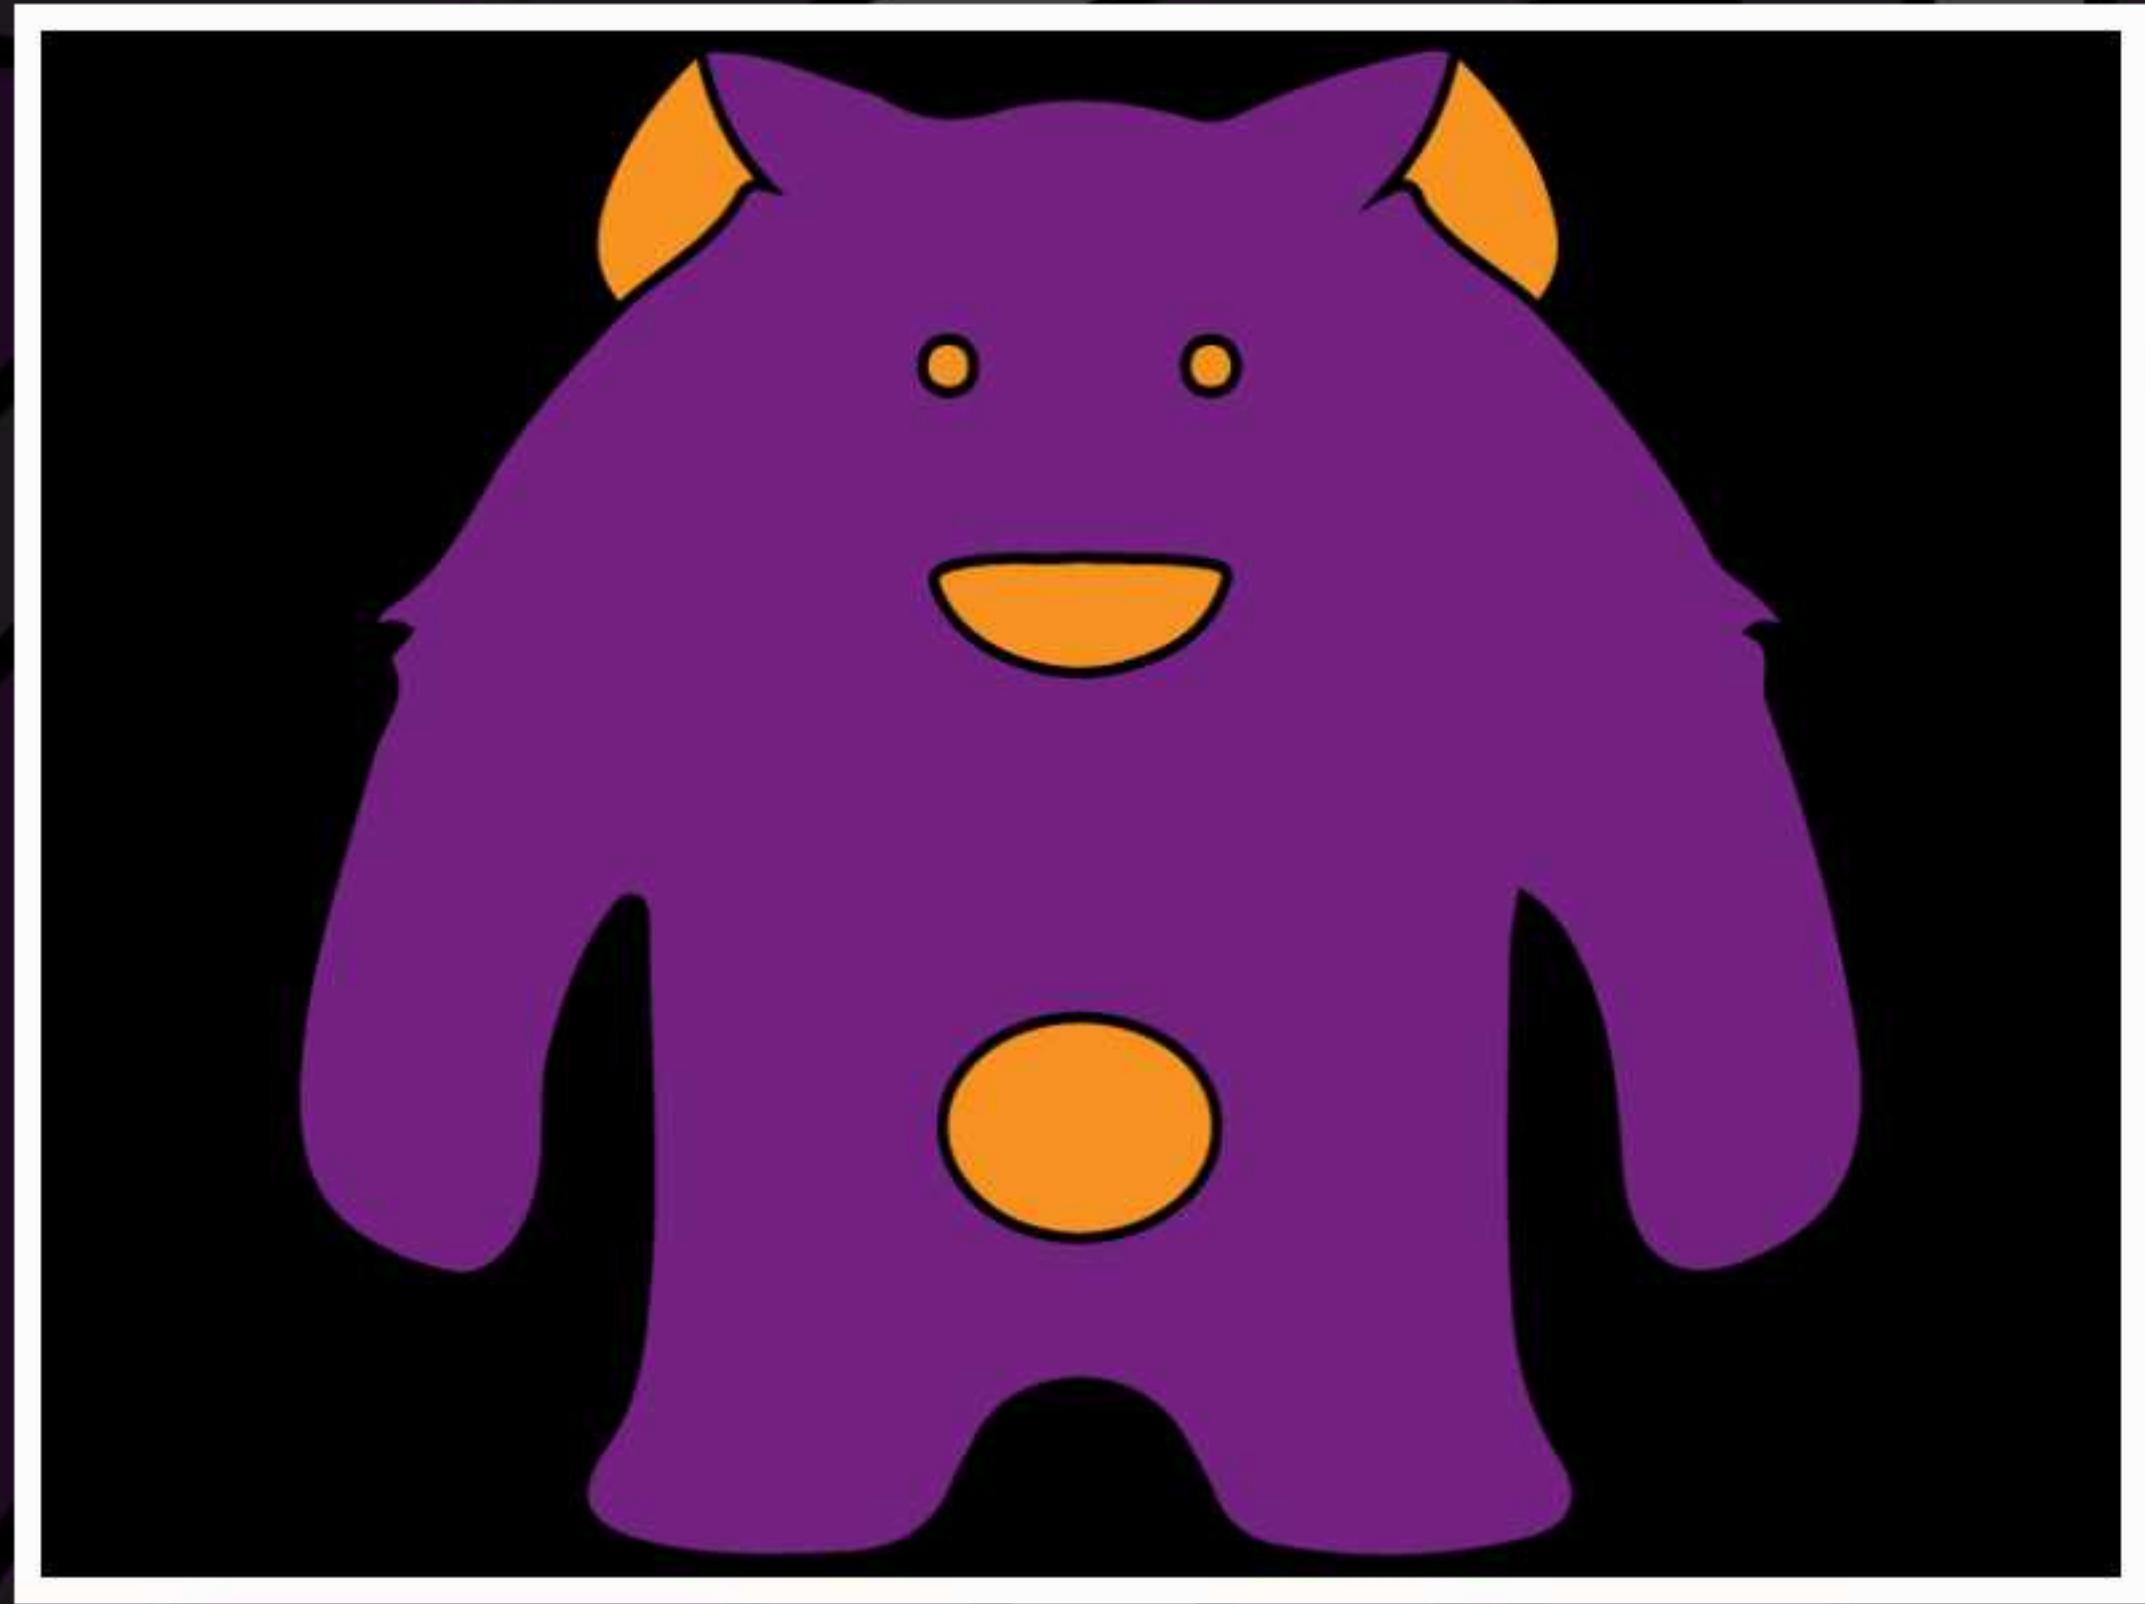

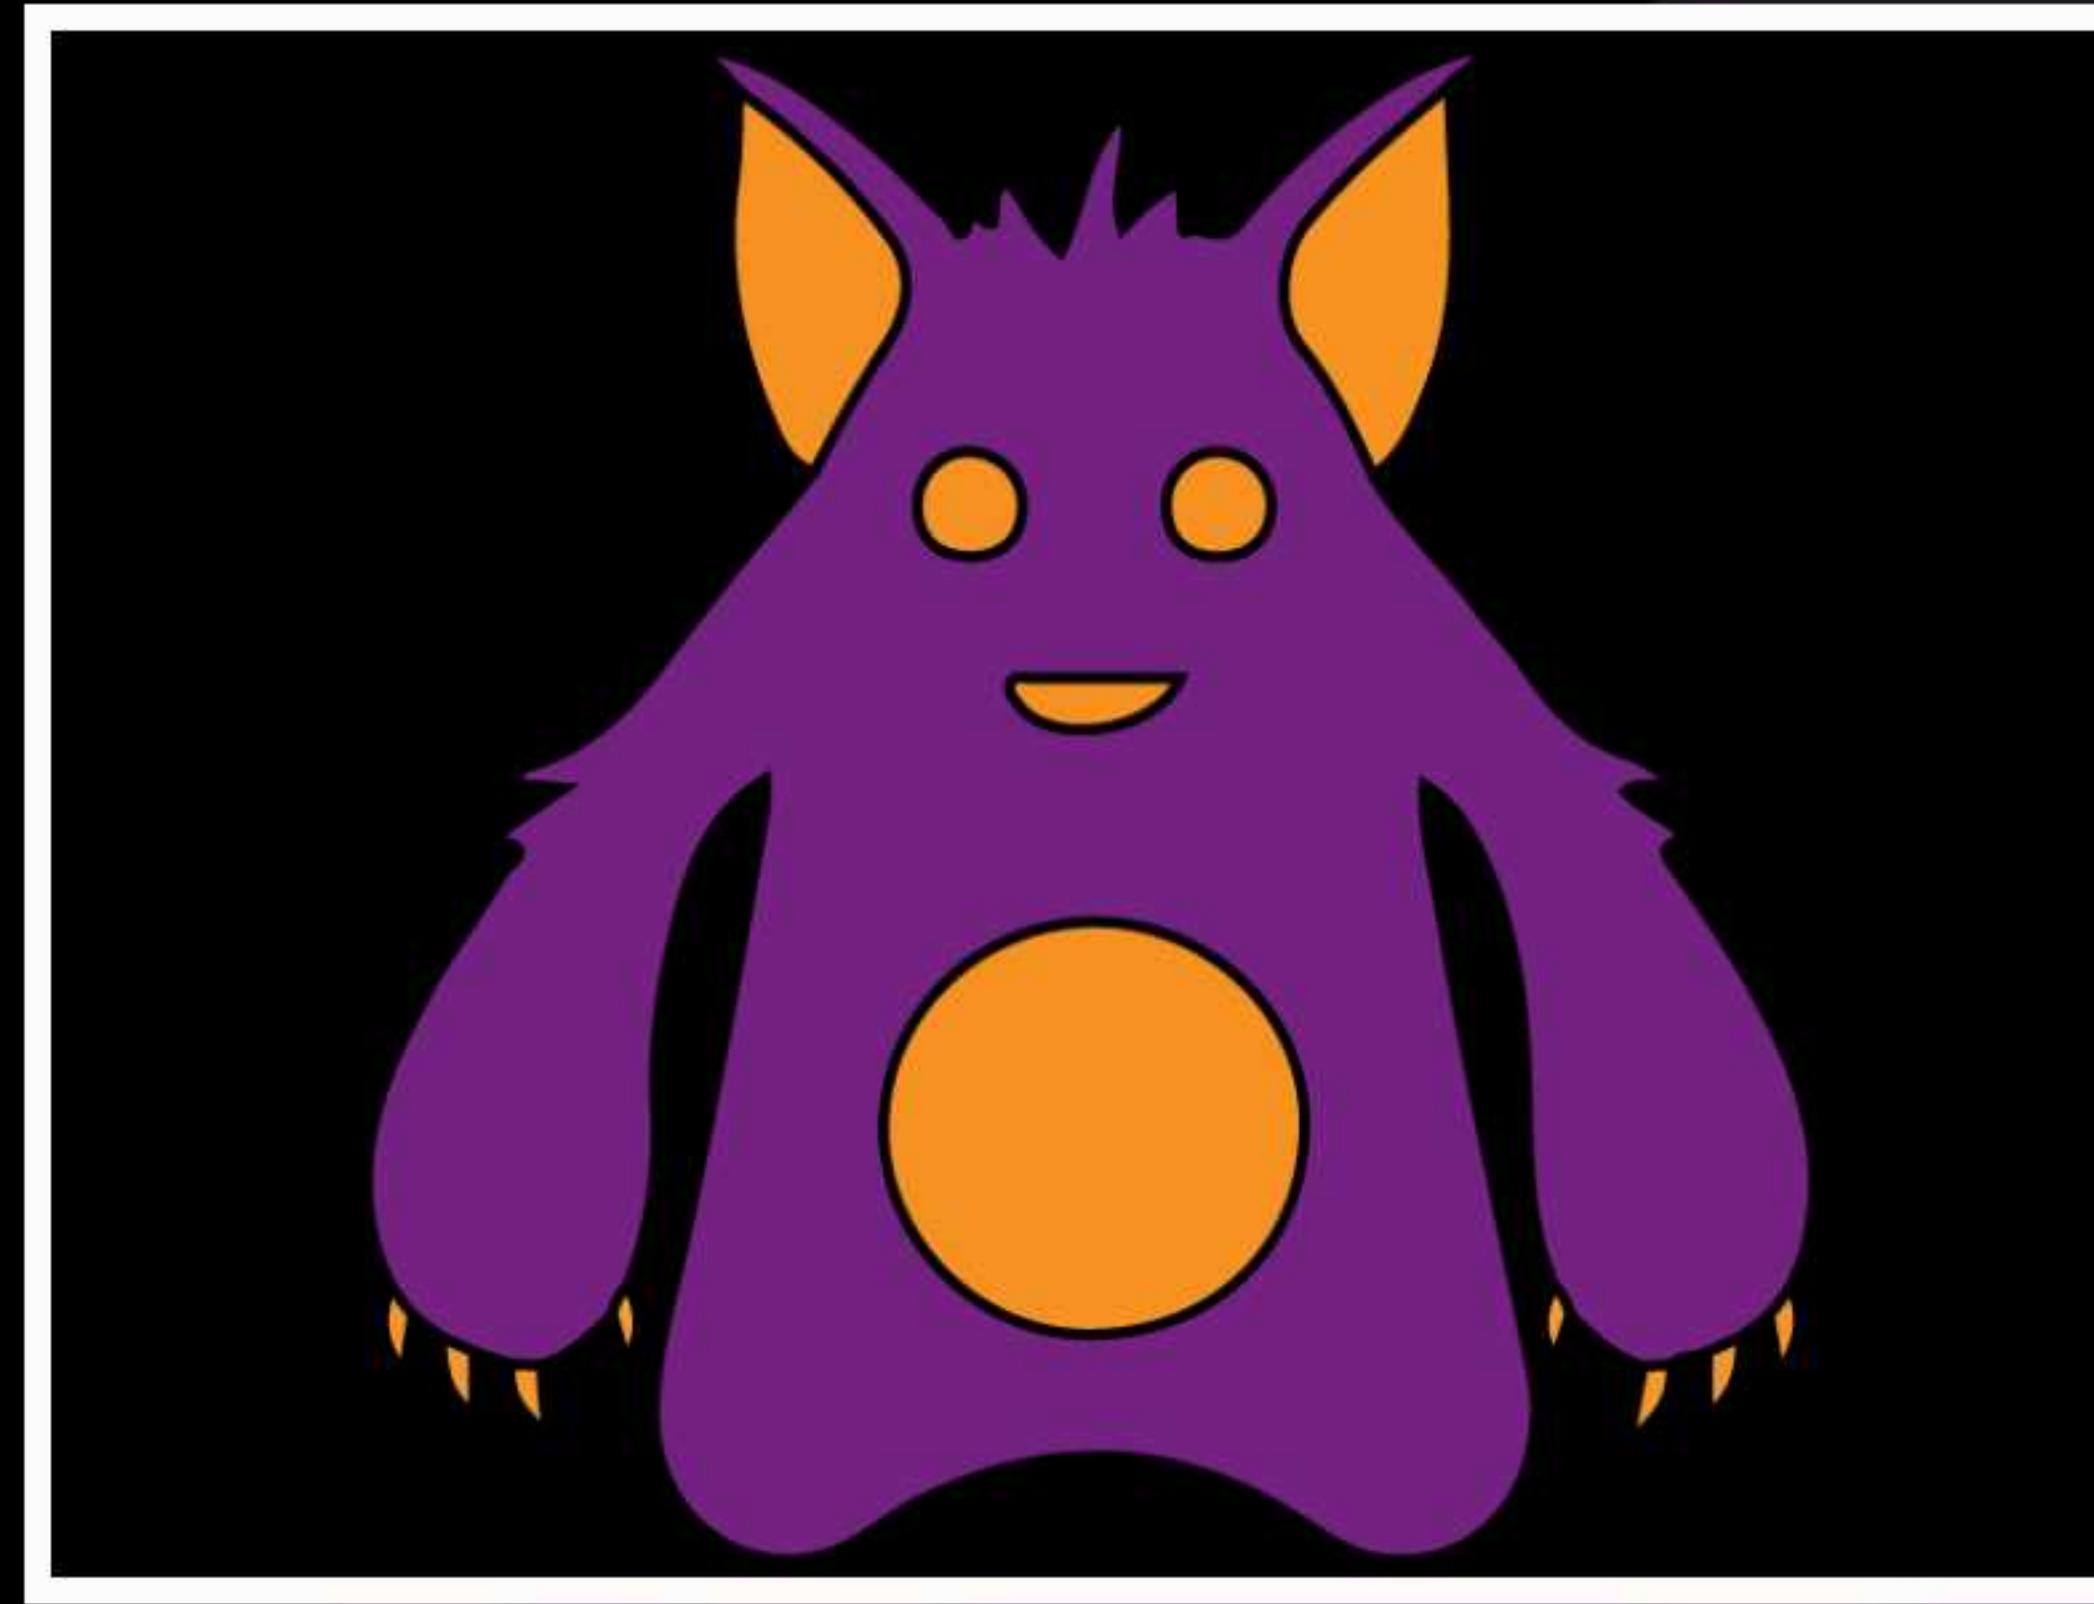

Returning Home...
Collect your snack!

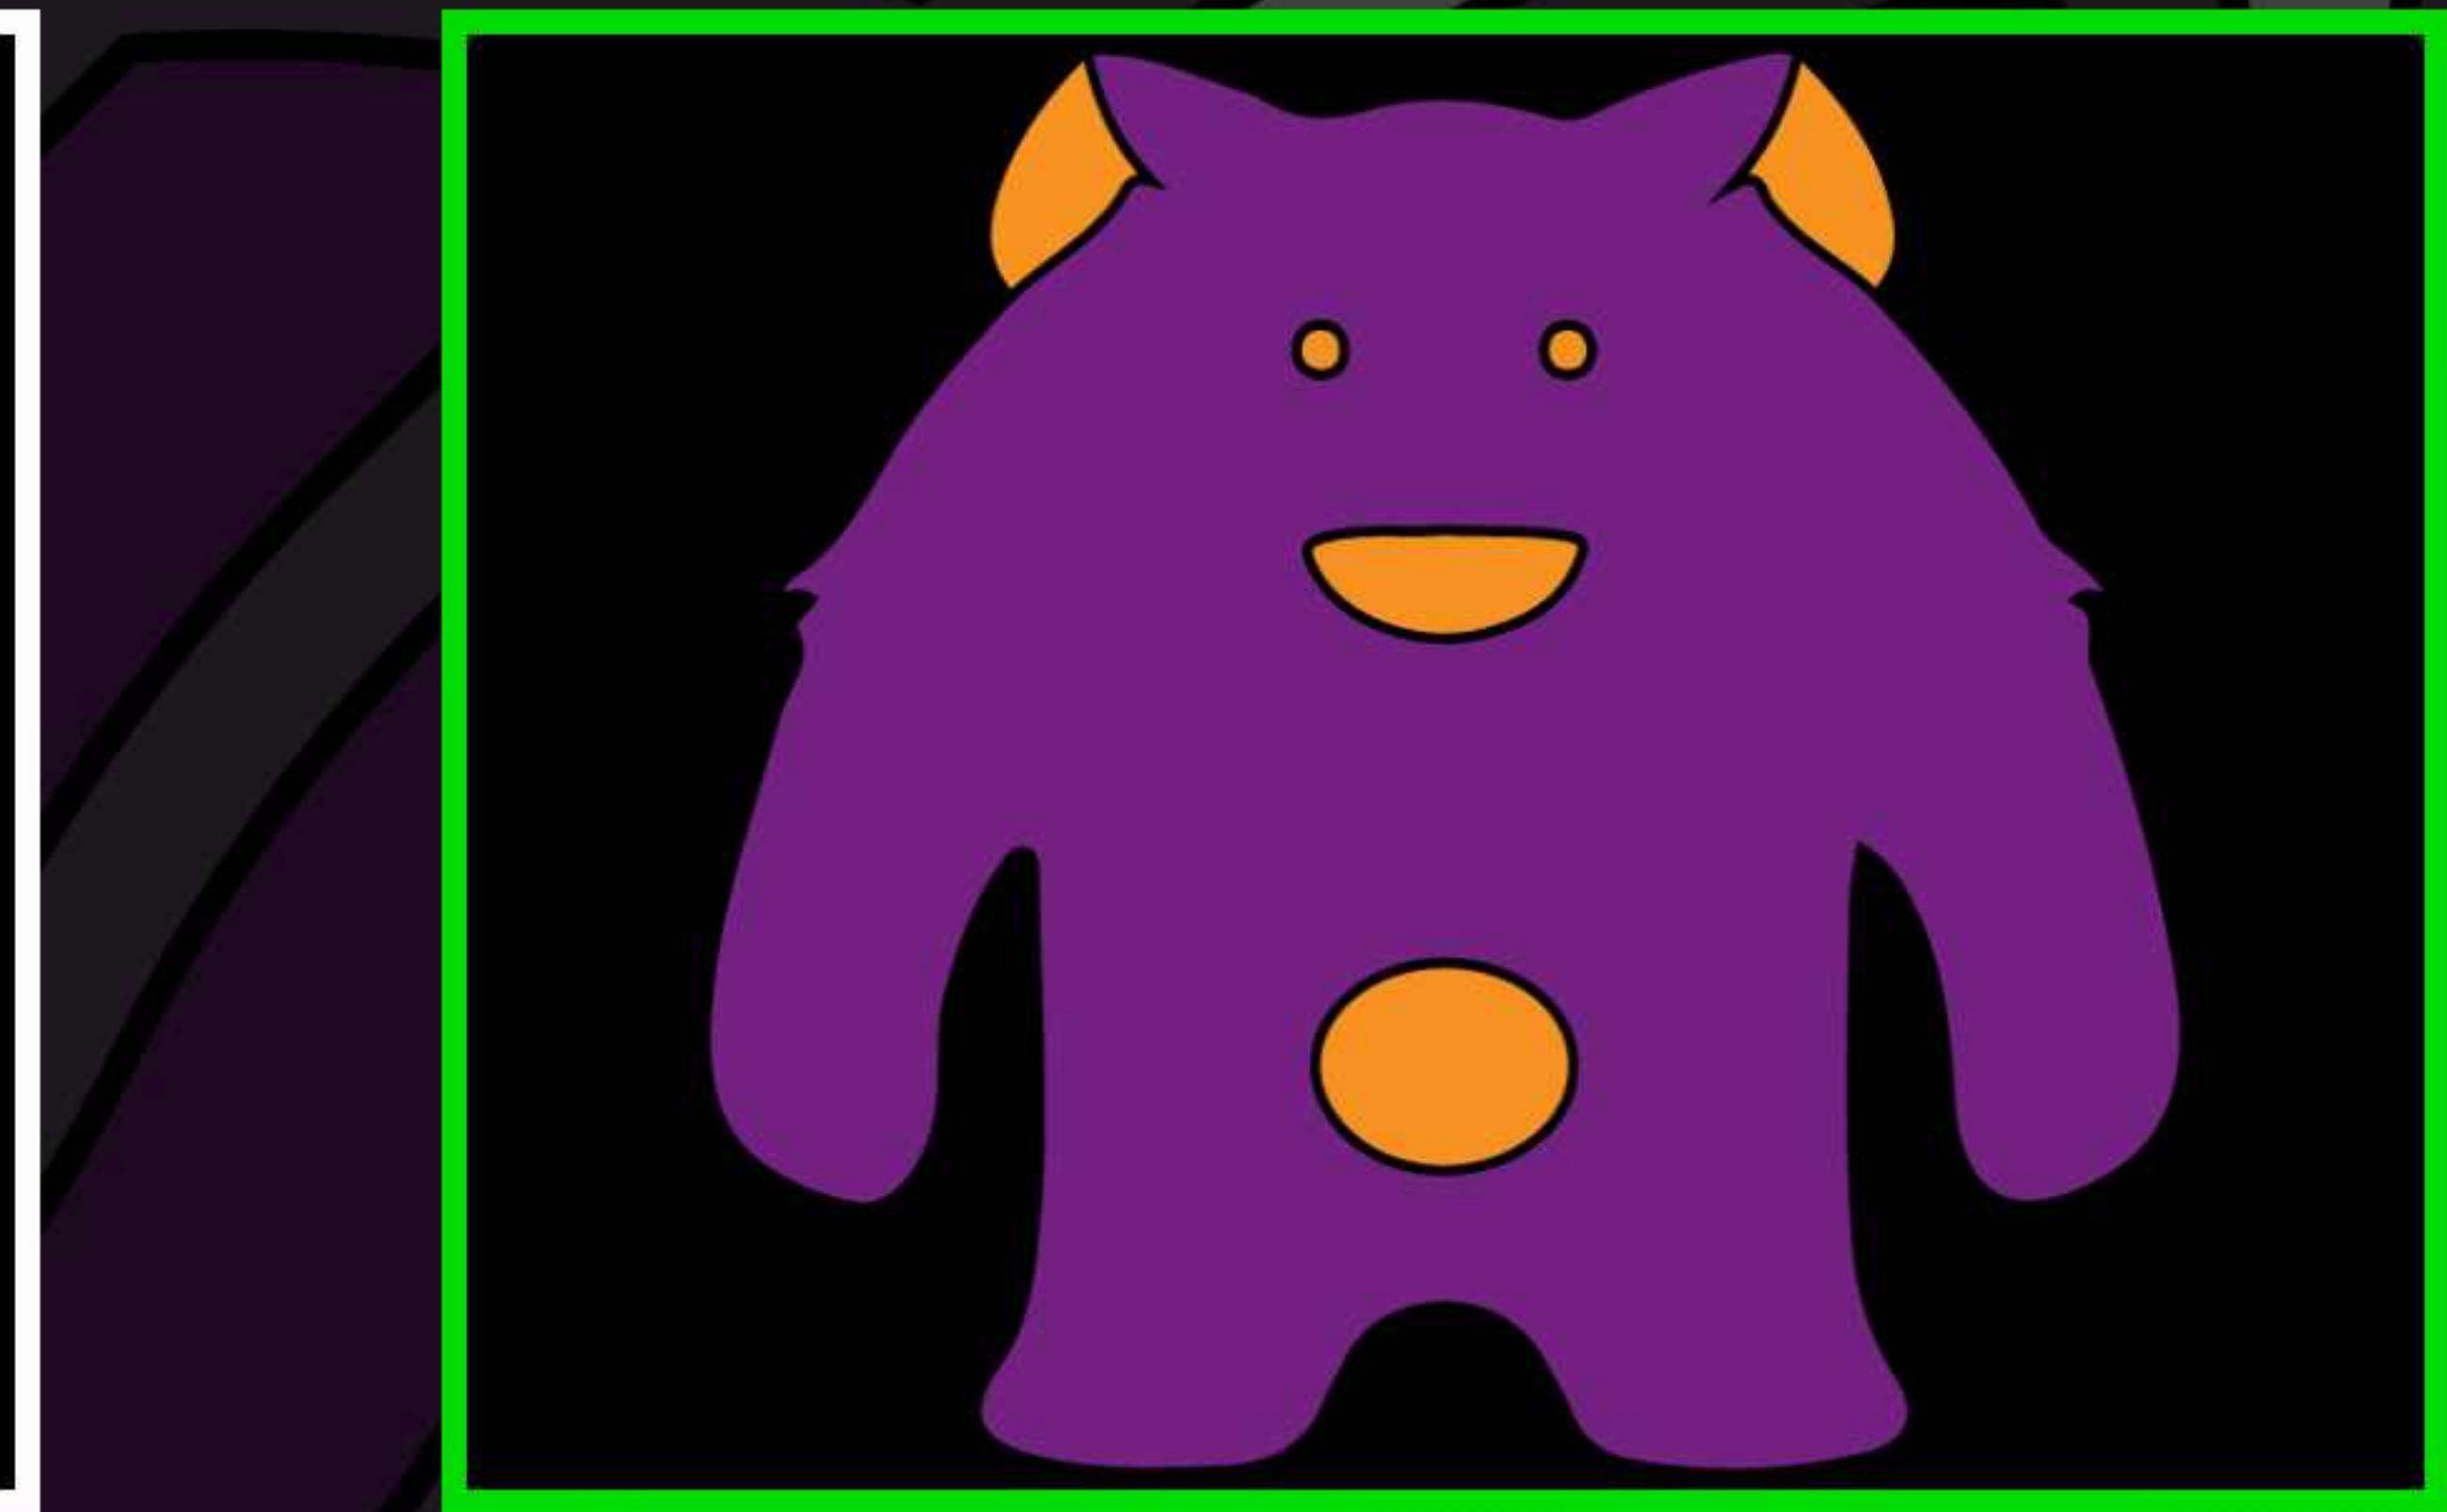

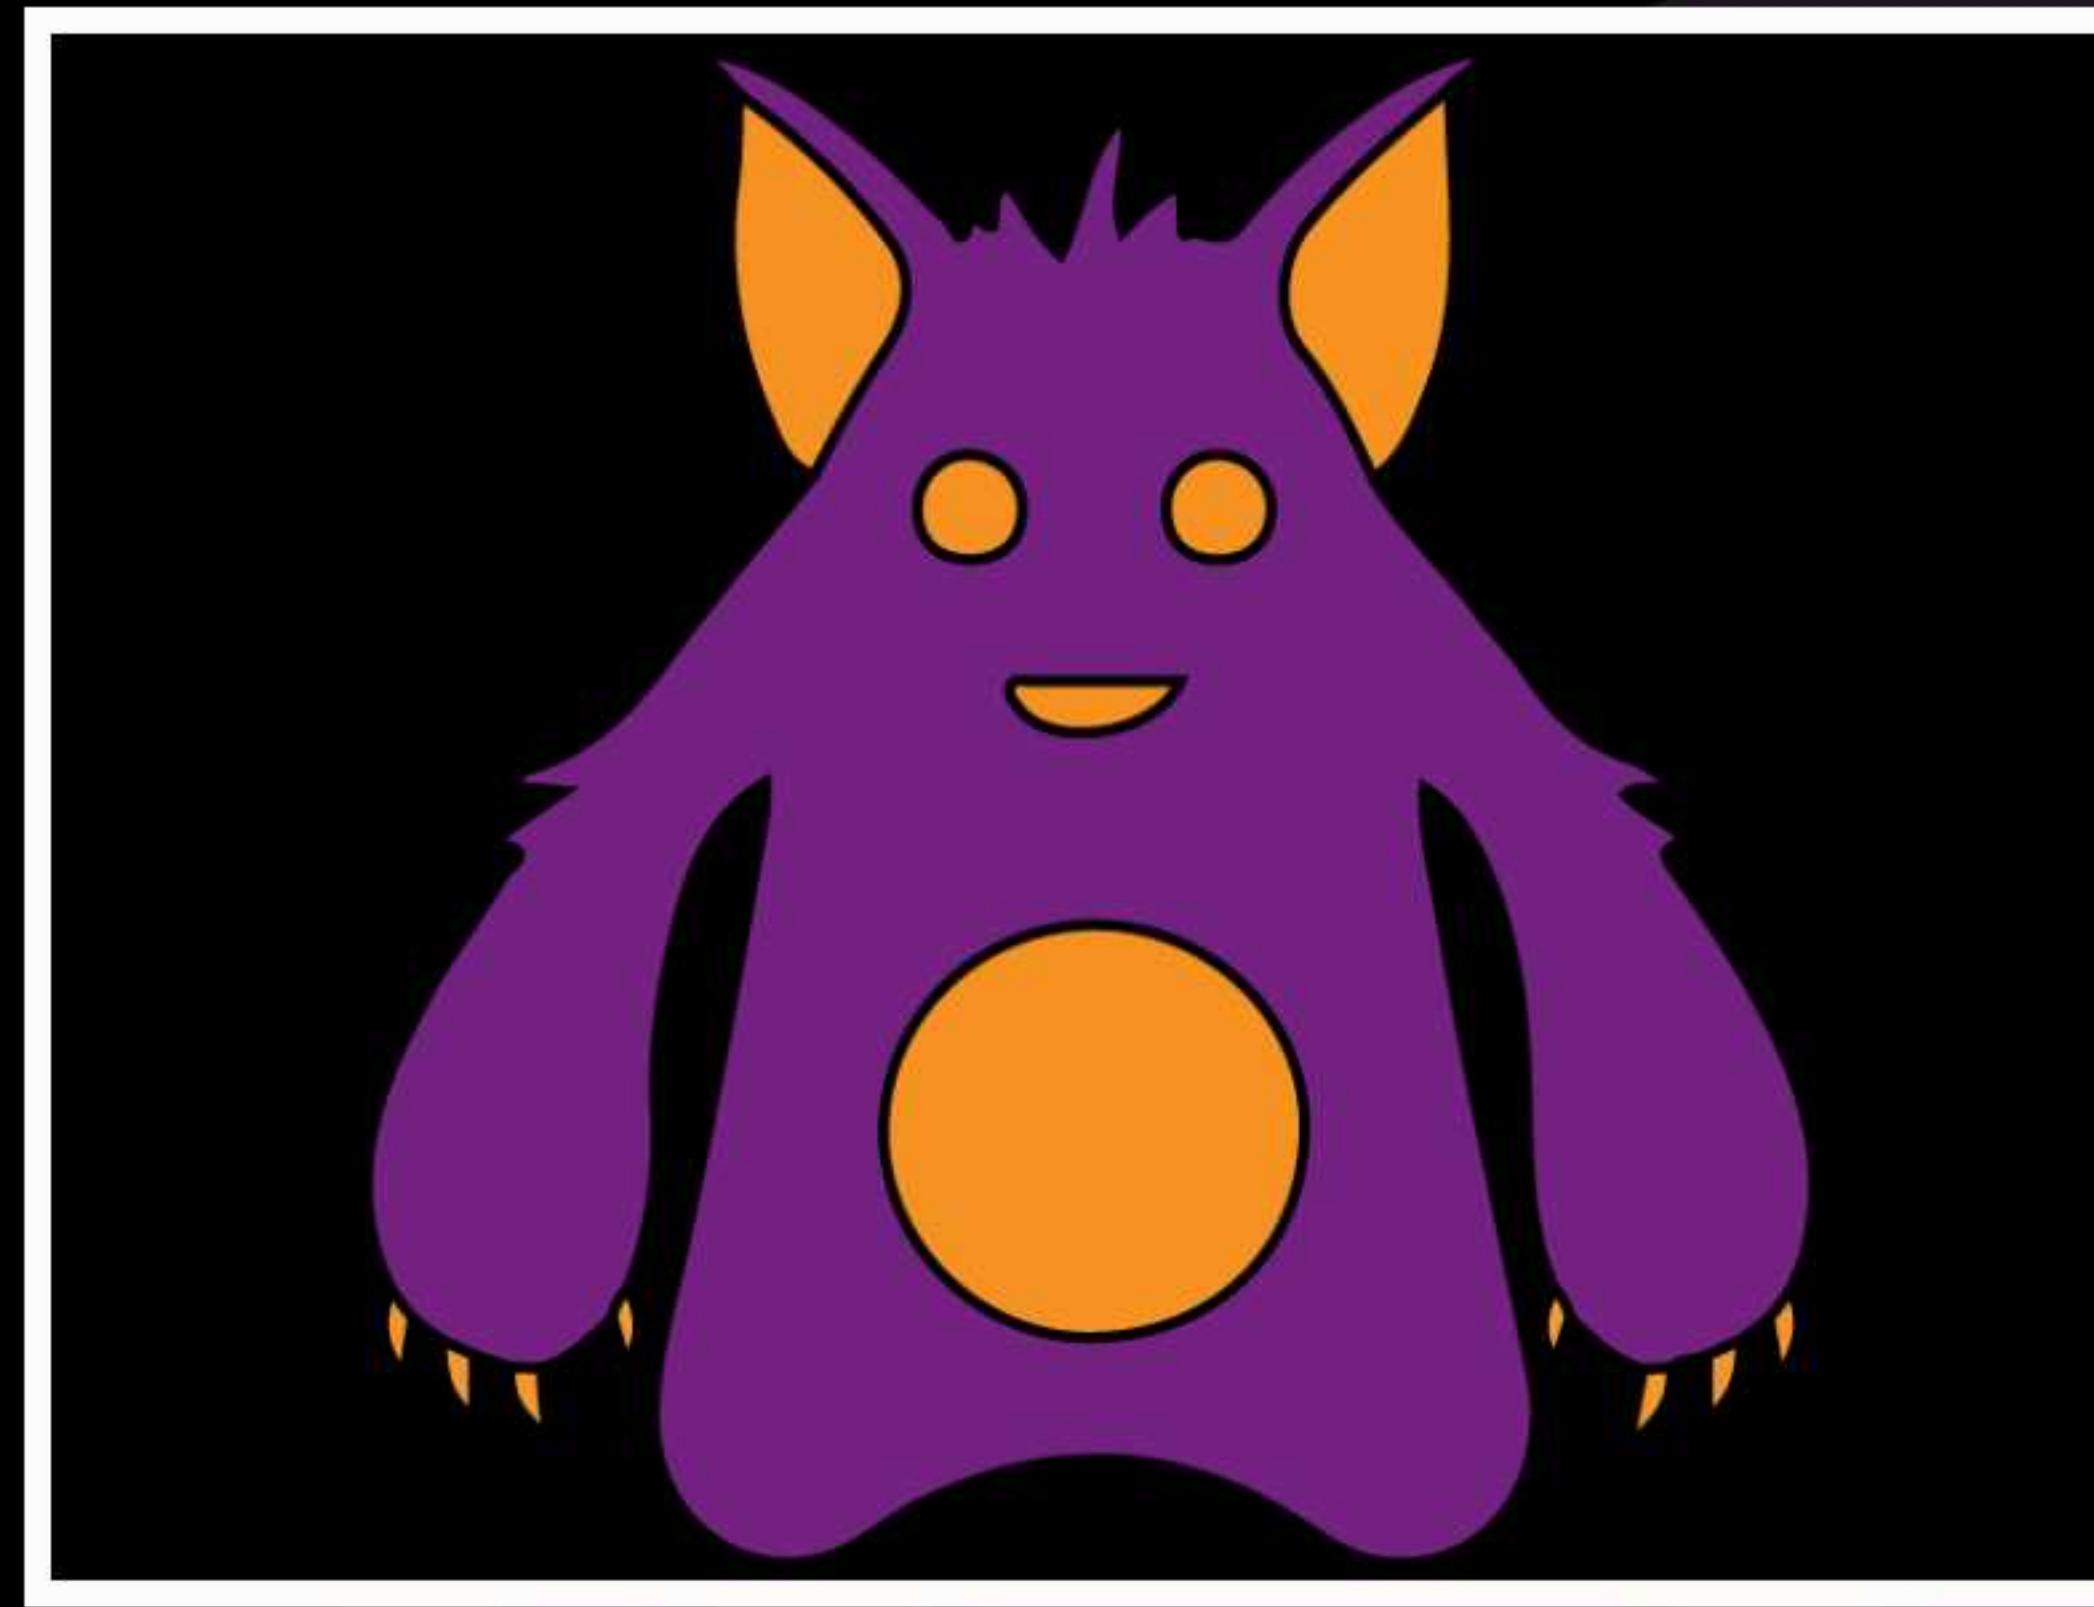

Lose

Select Earth to return home

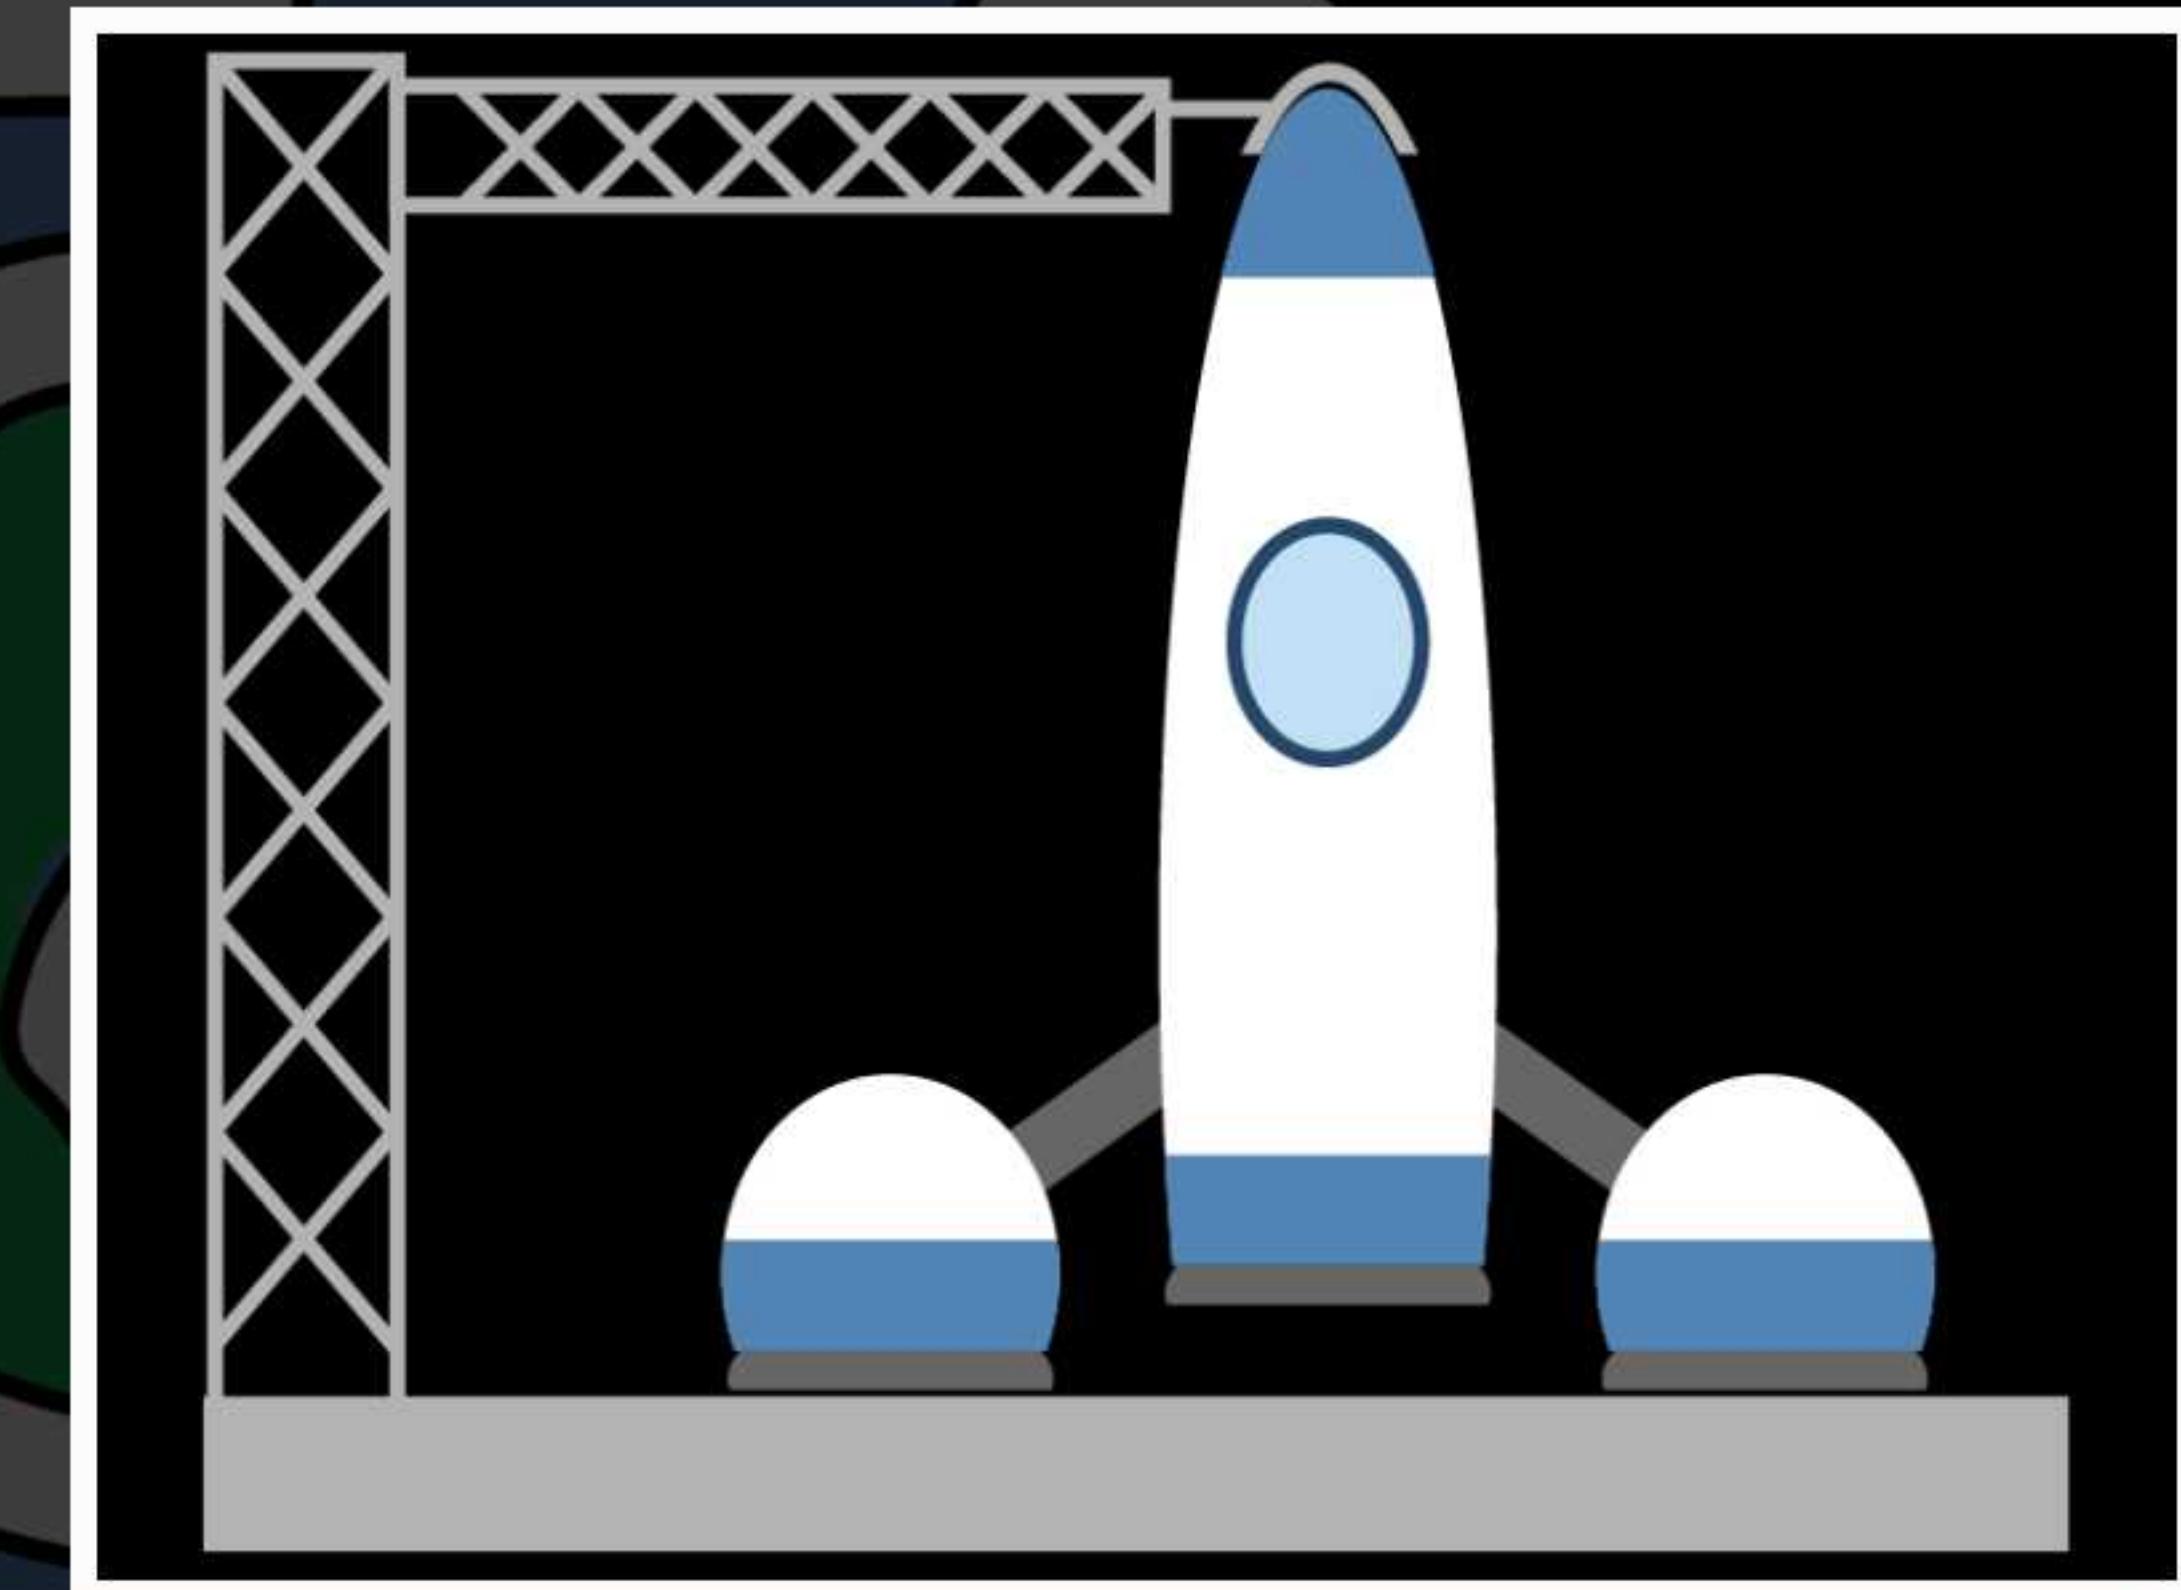

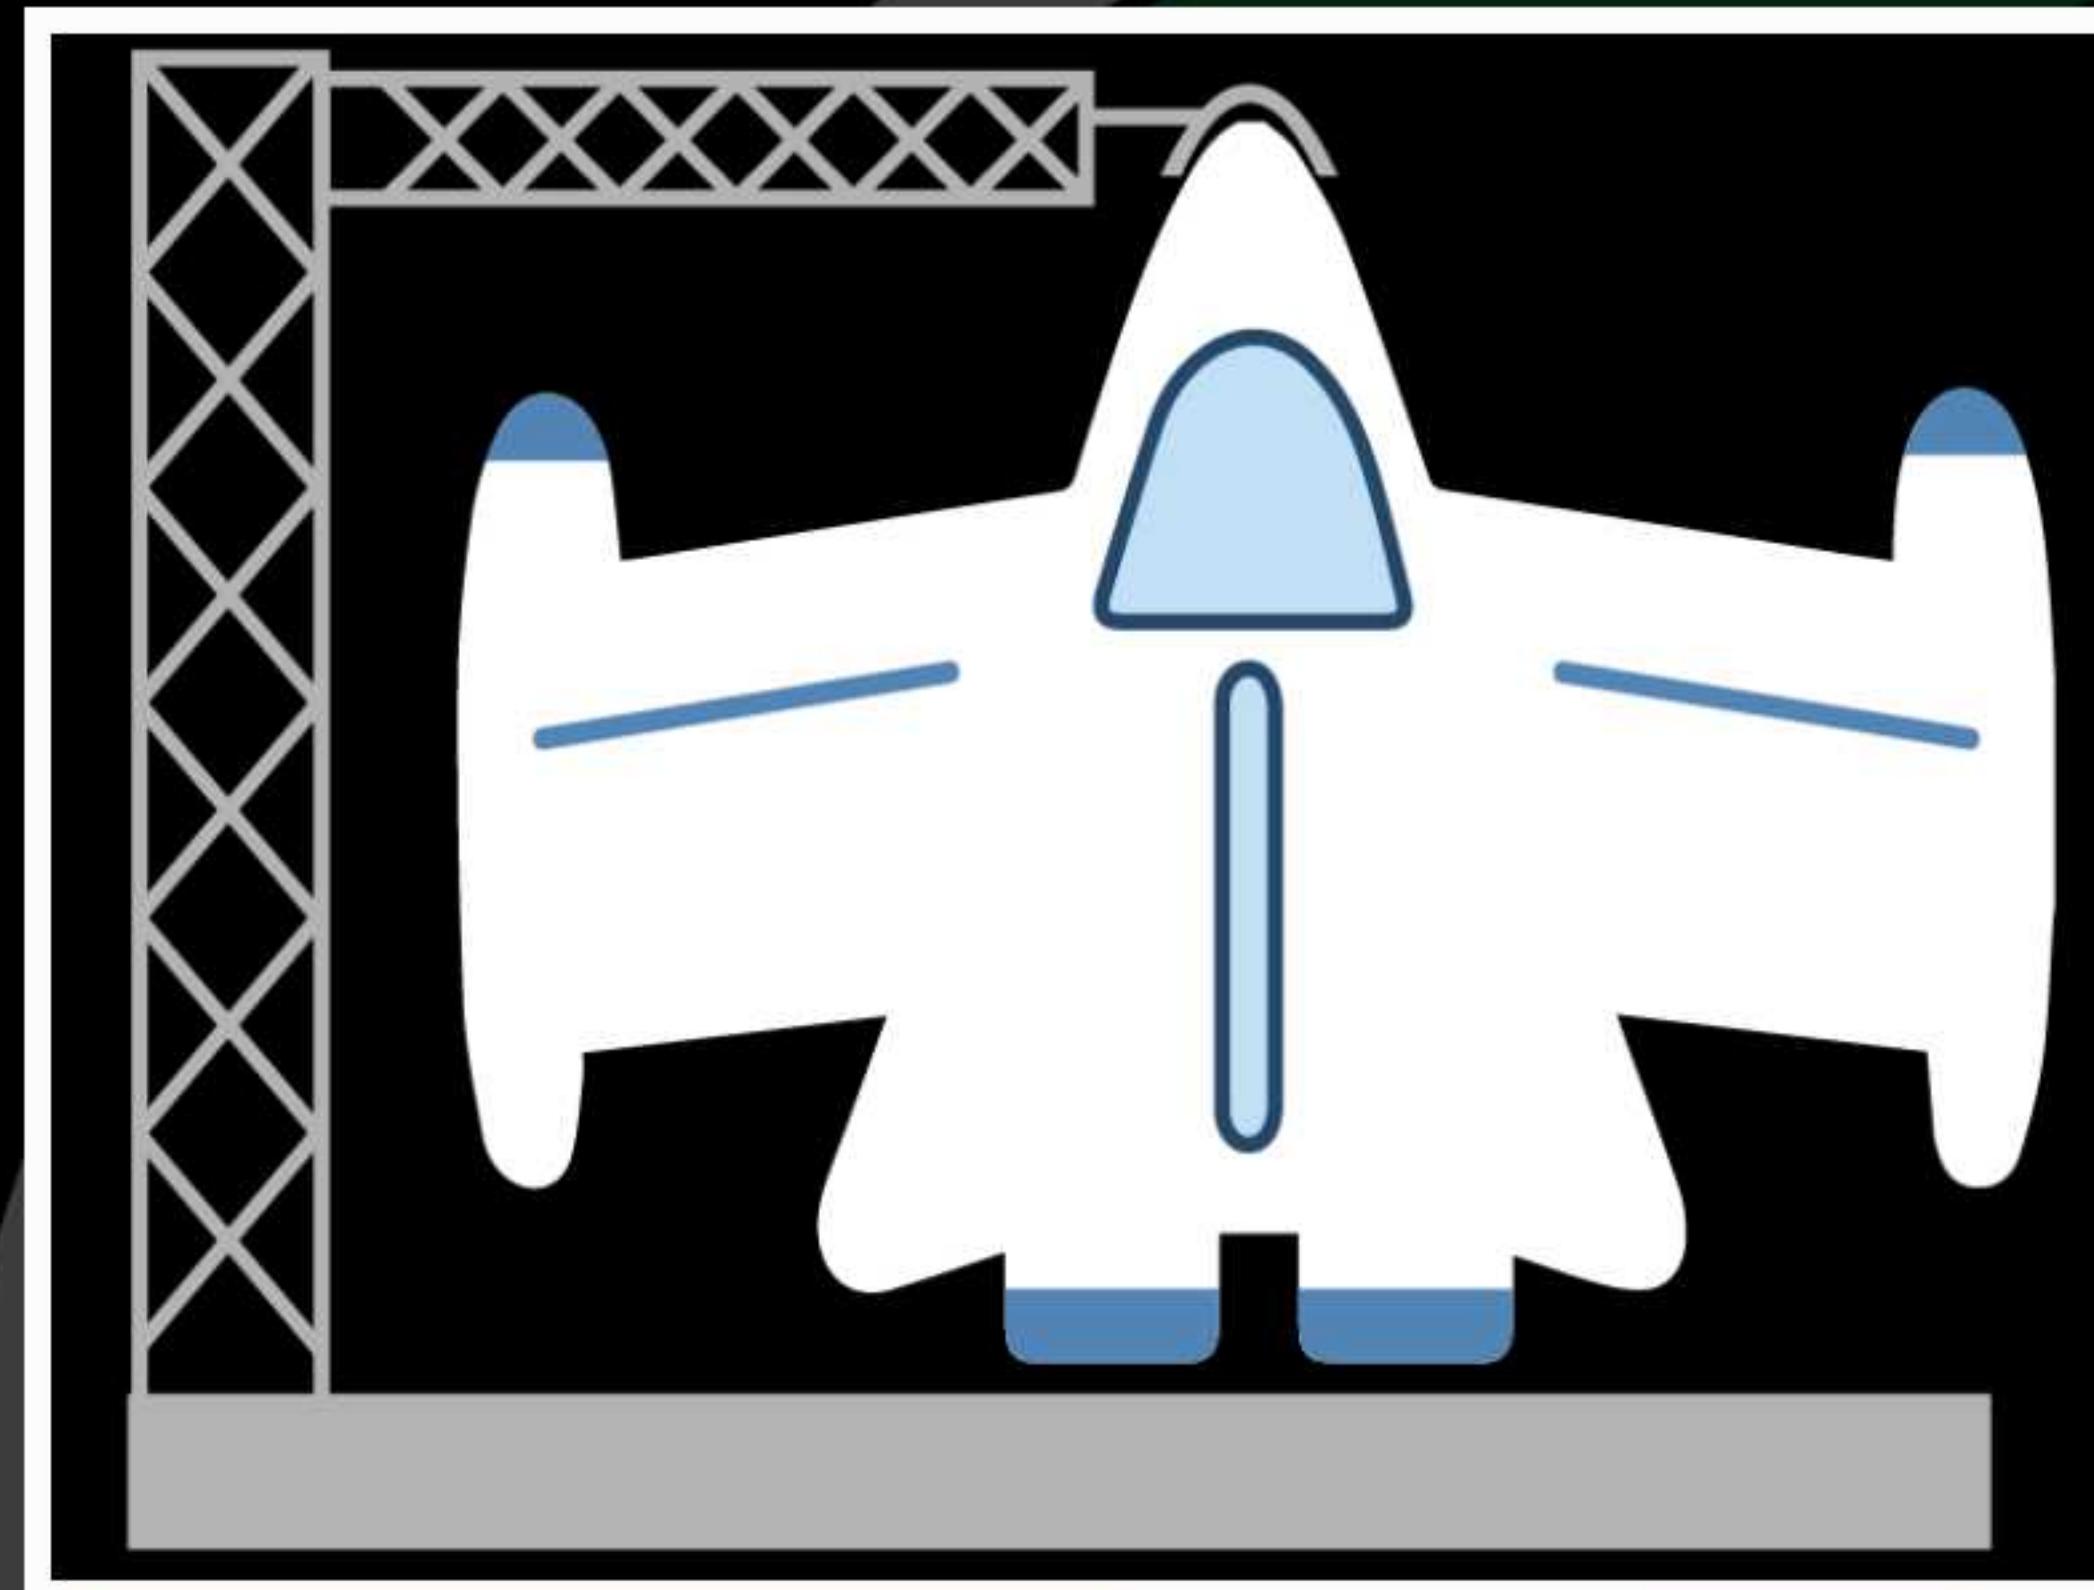

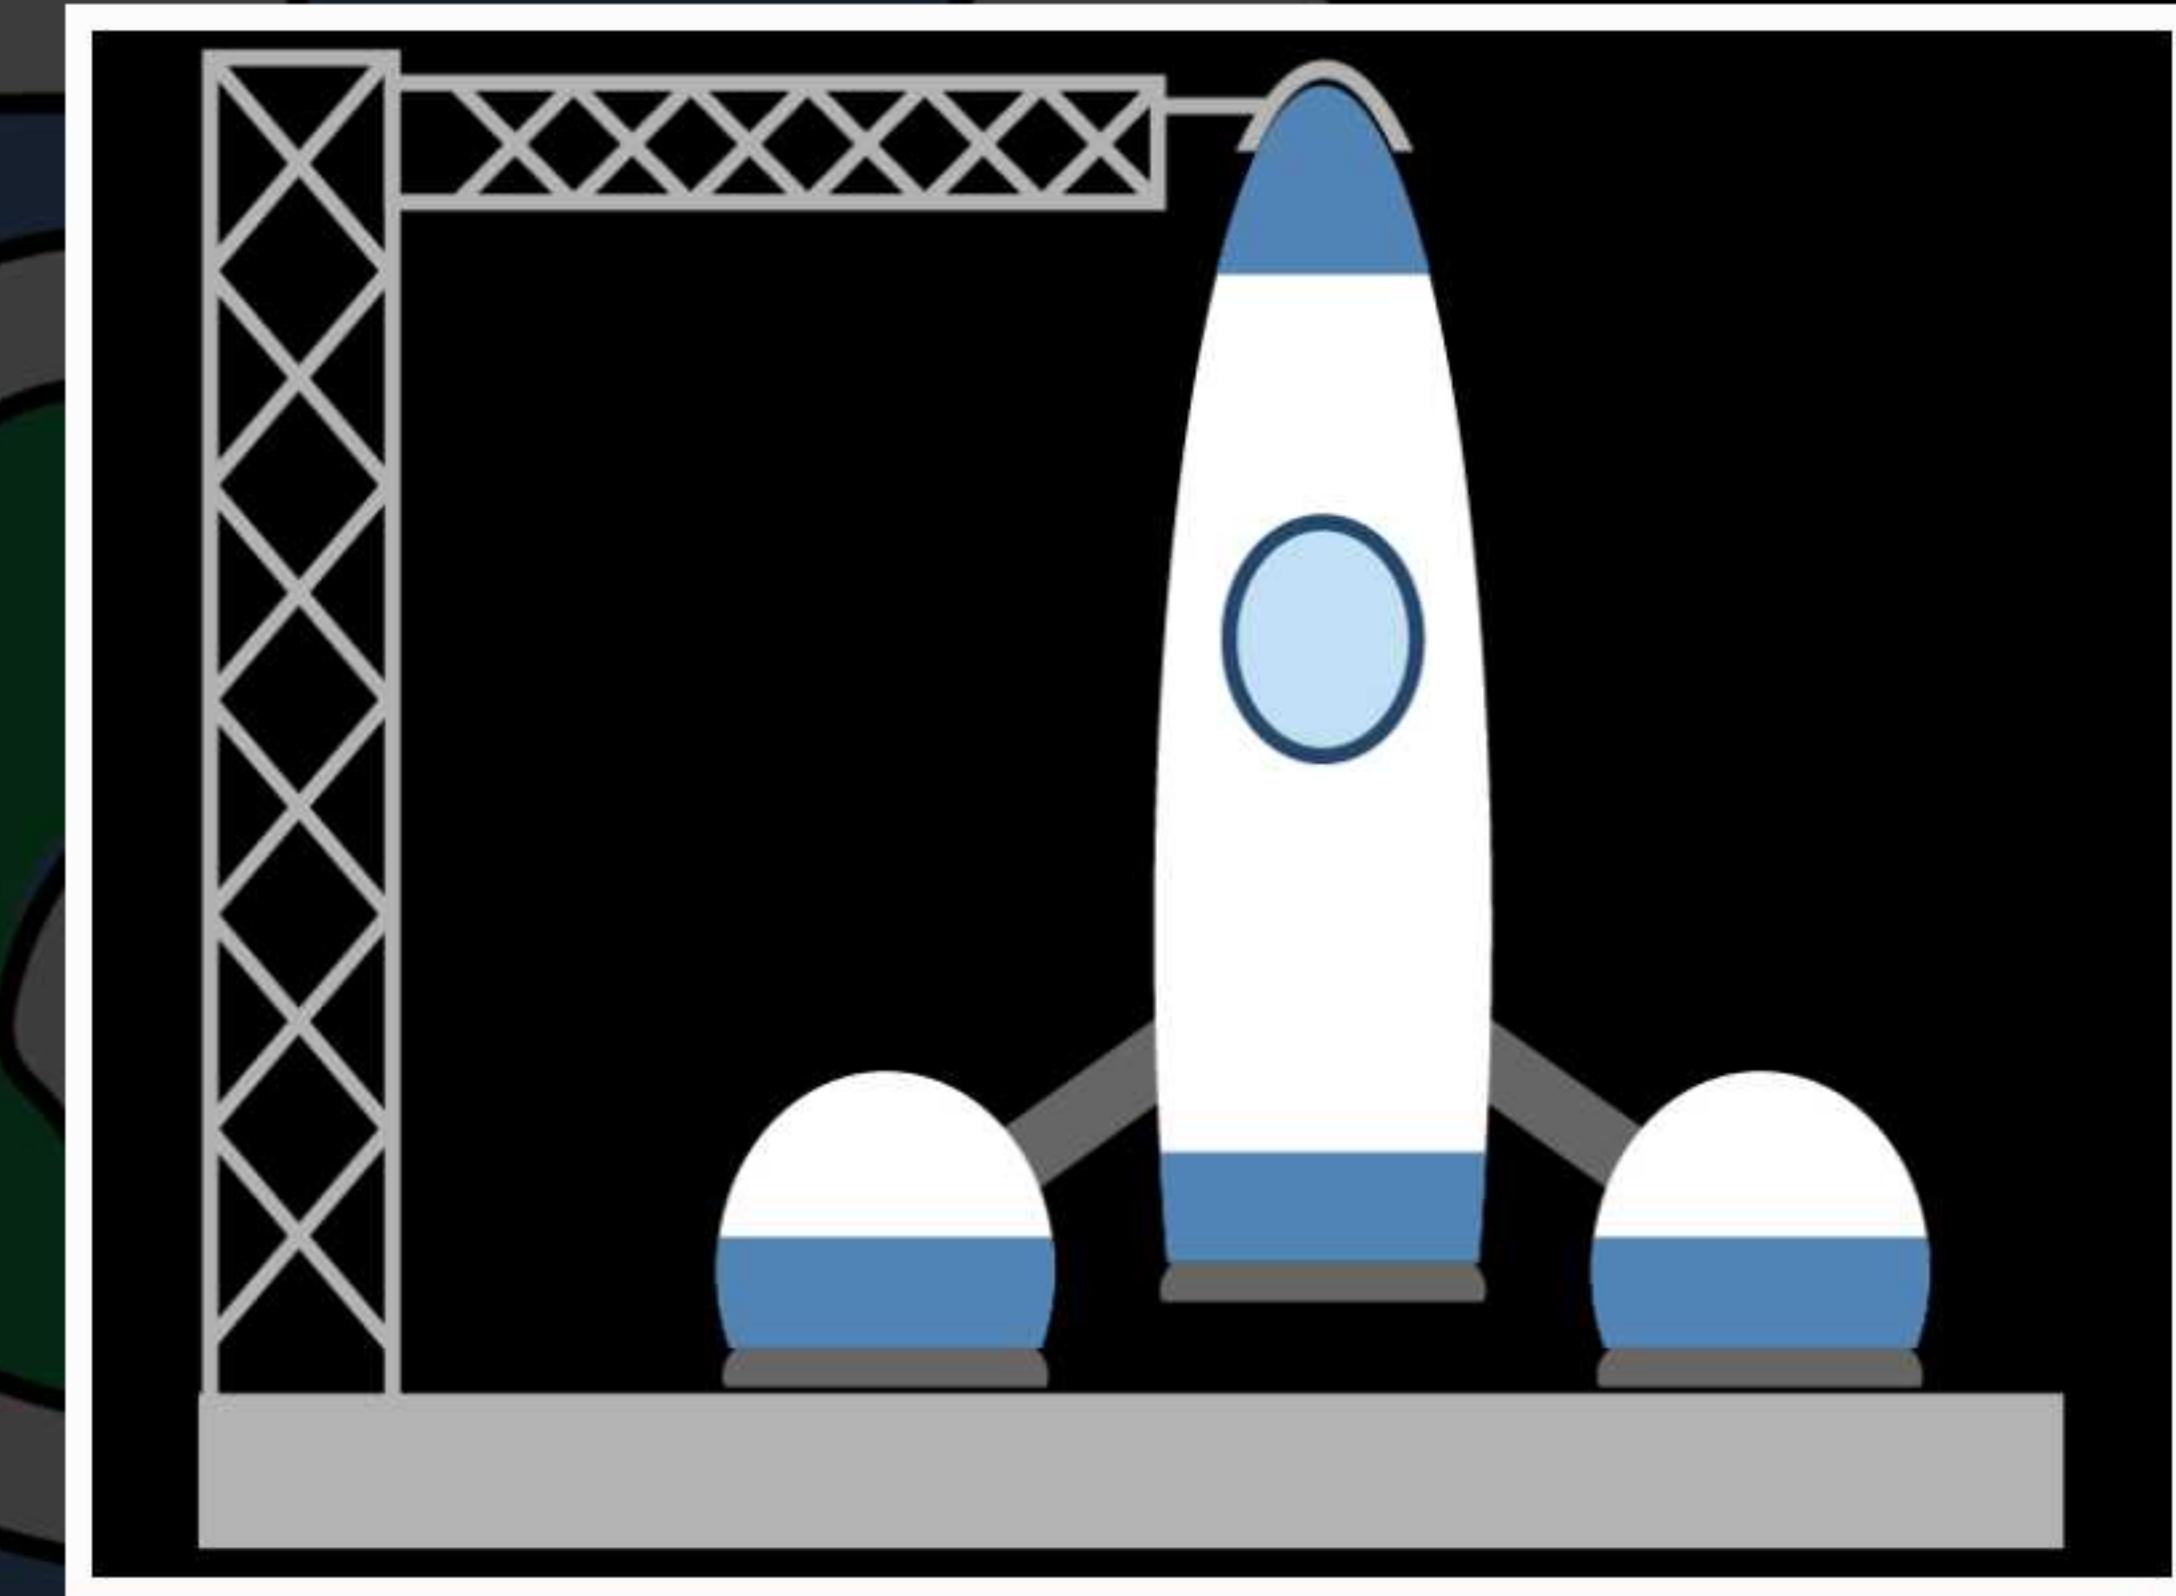

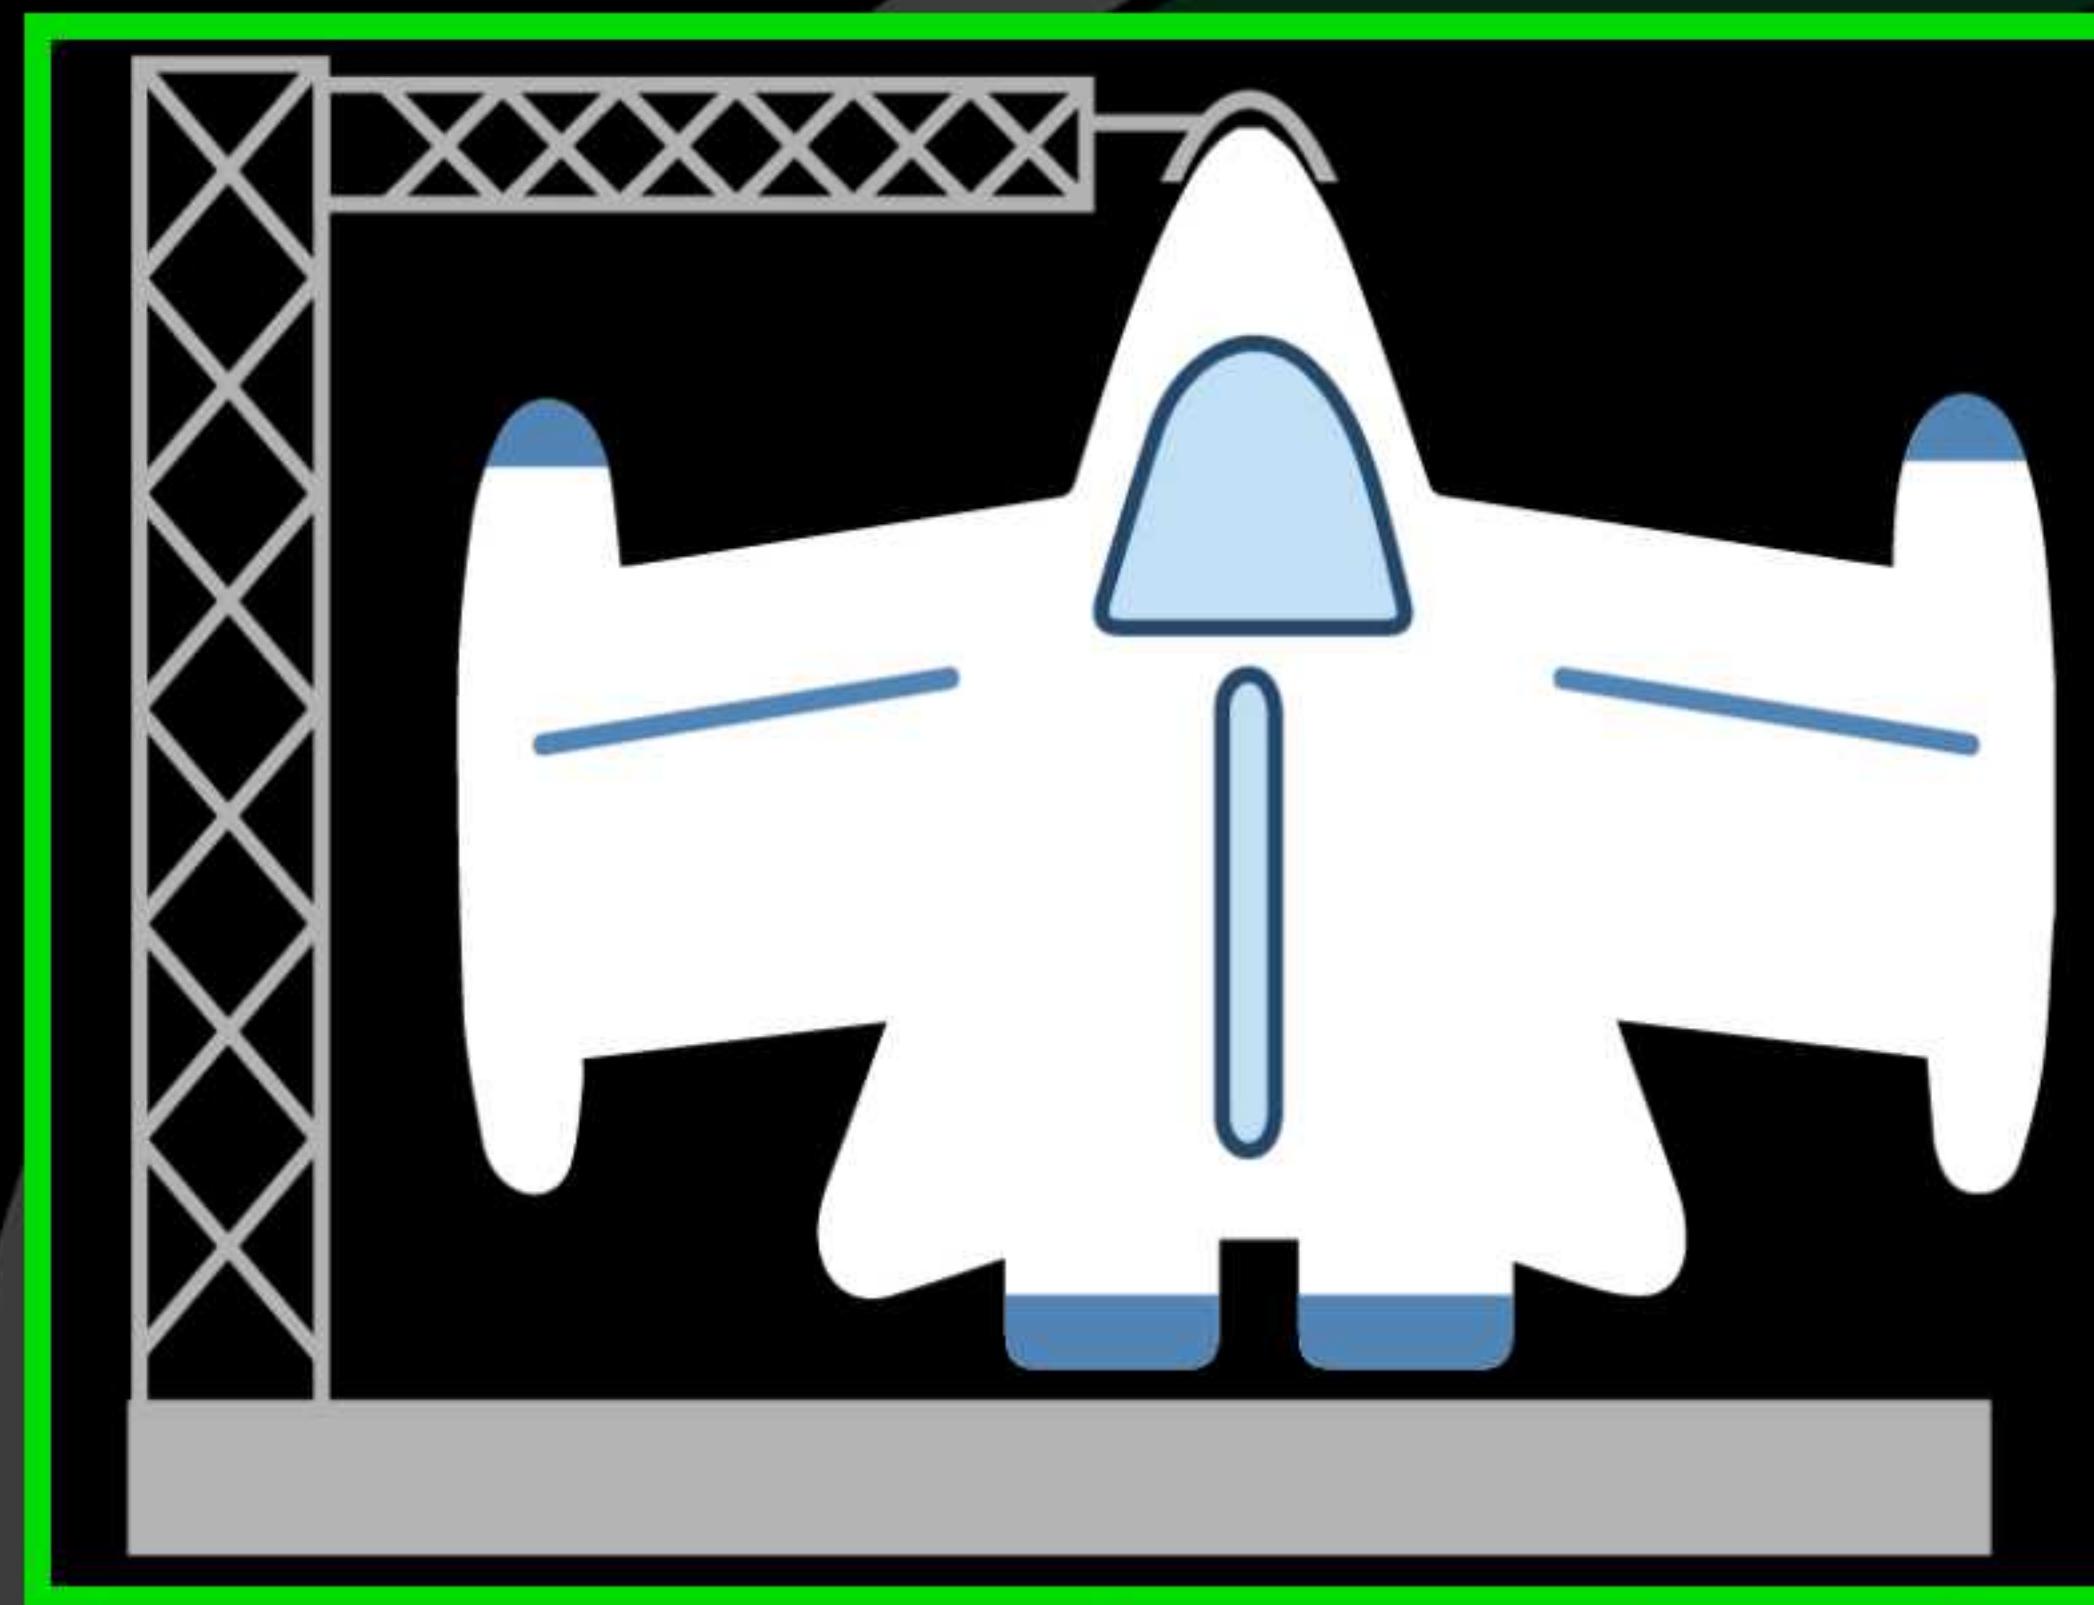

Select Earth to return home

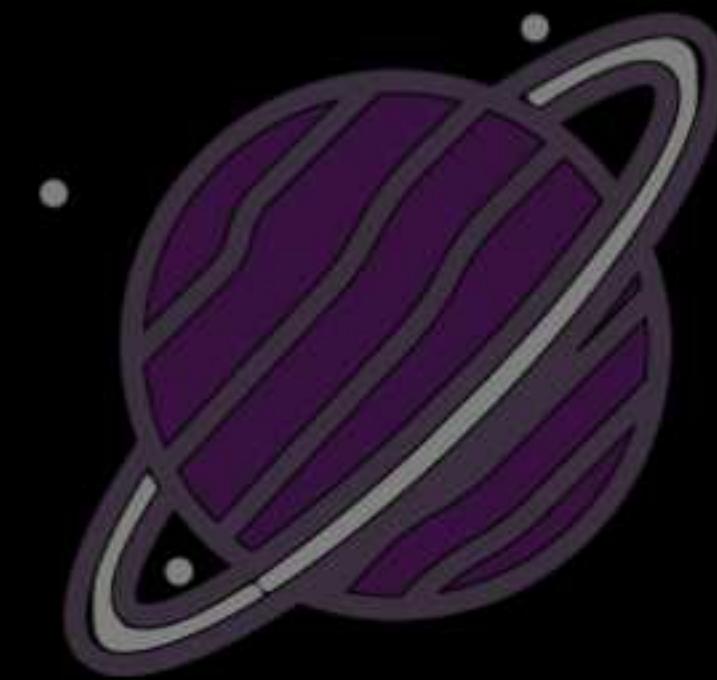

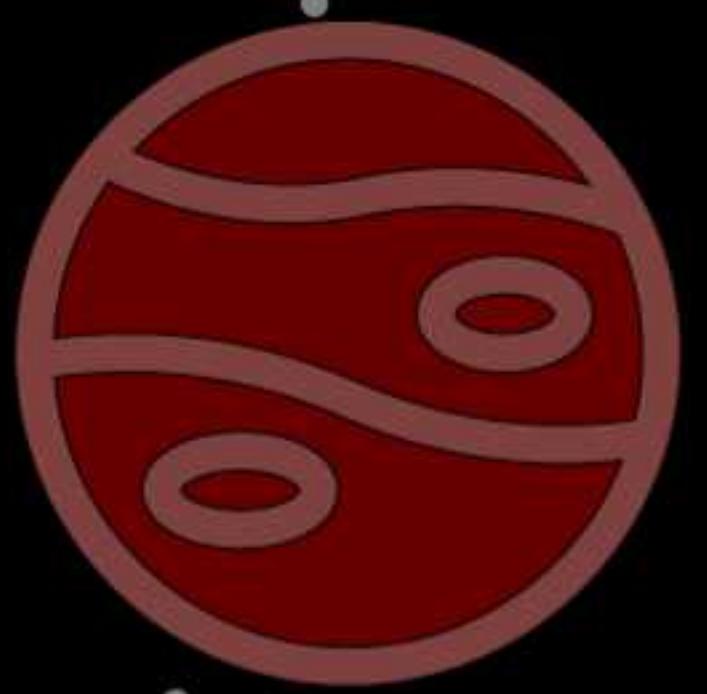

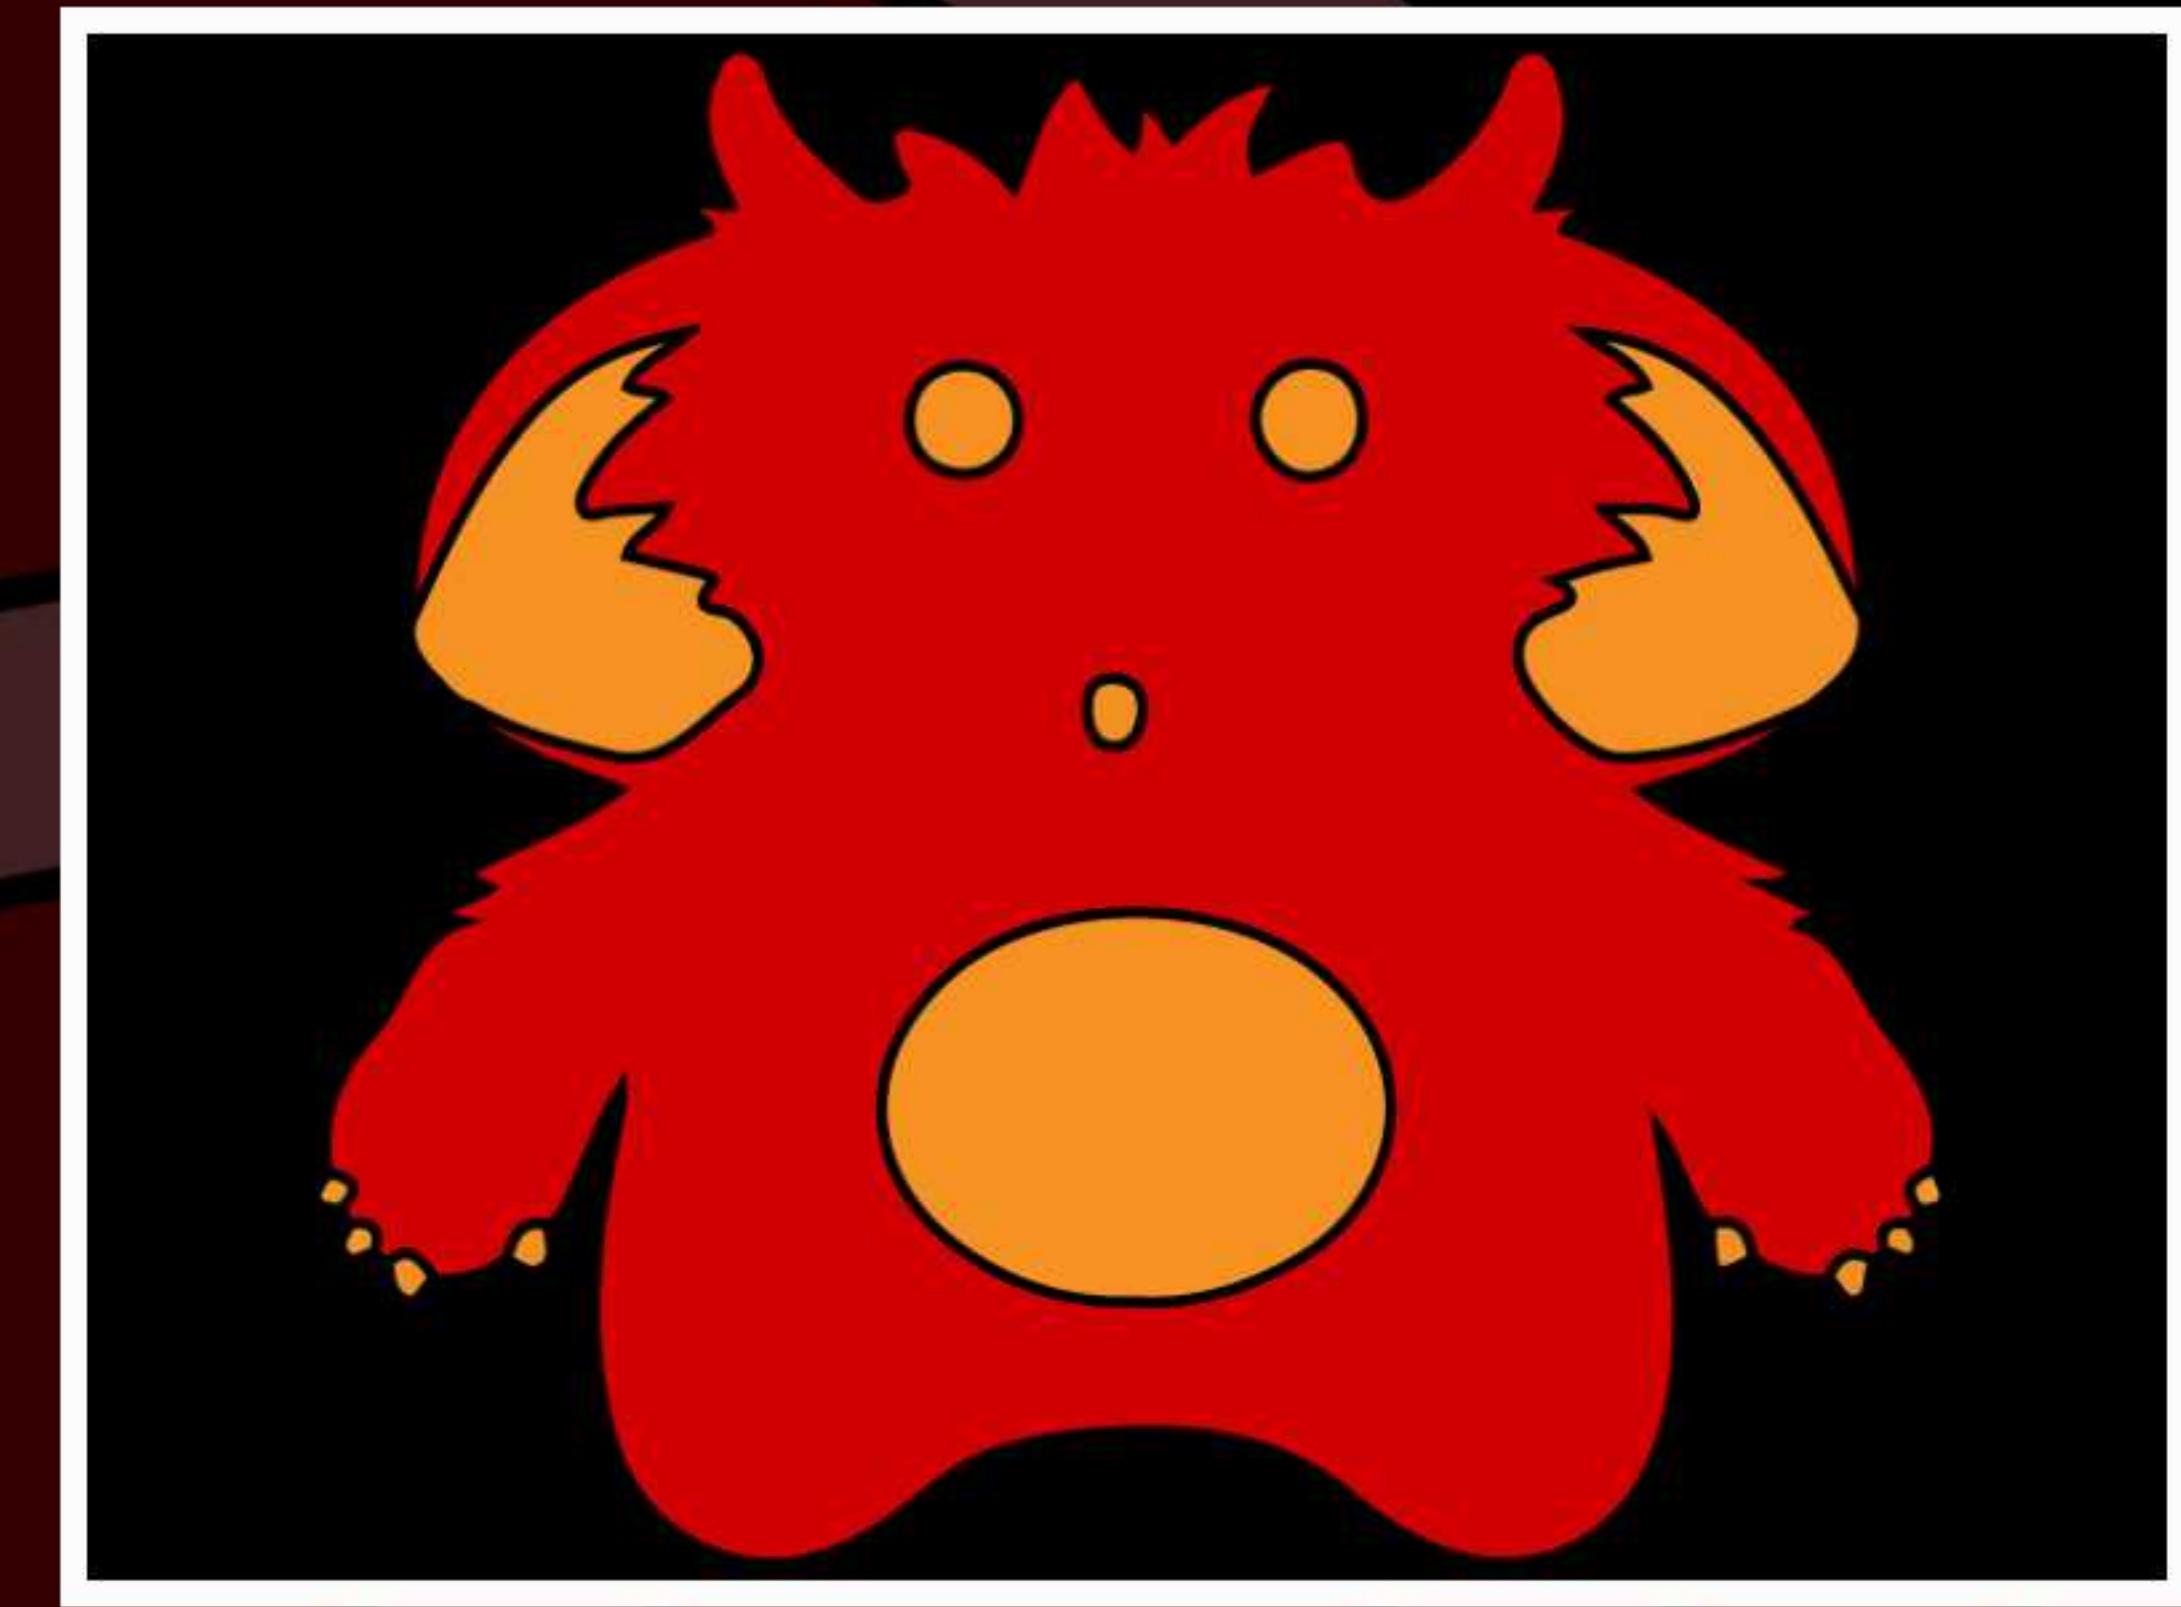

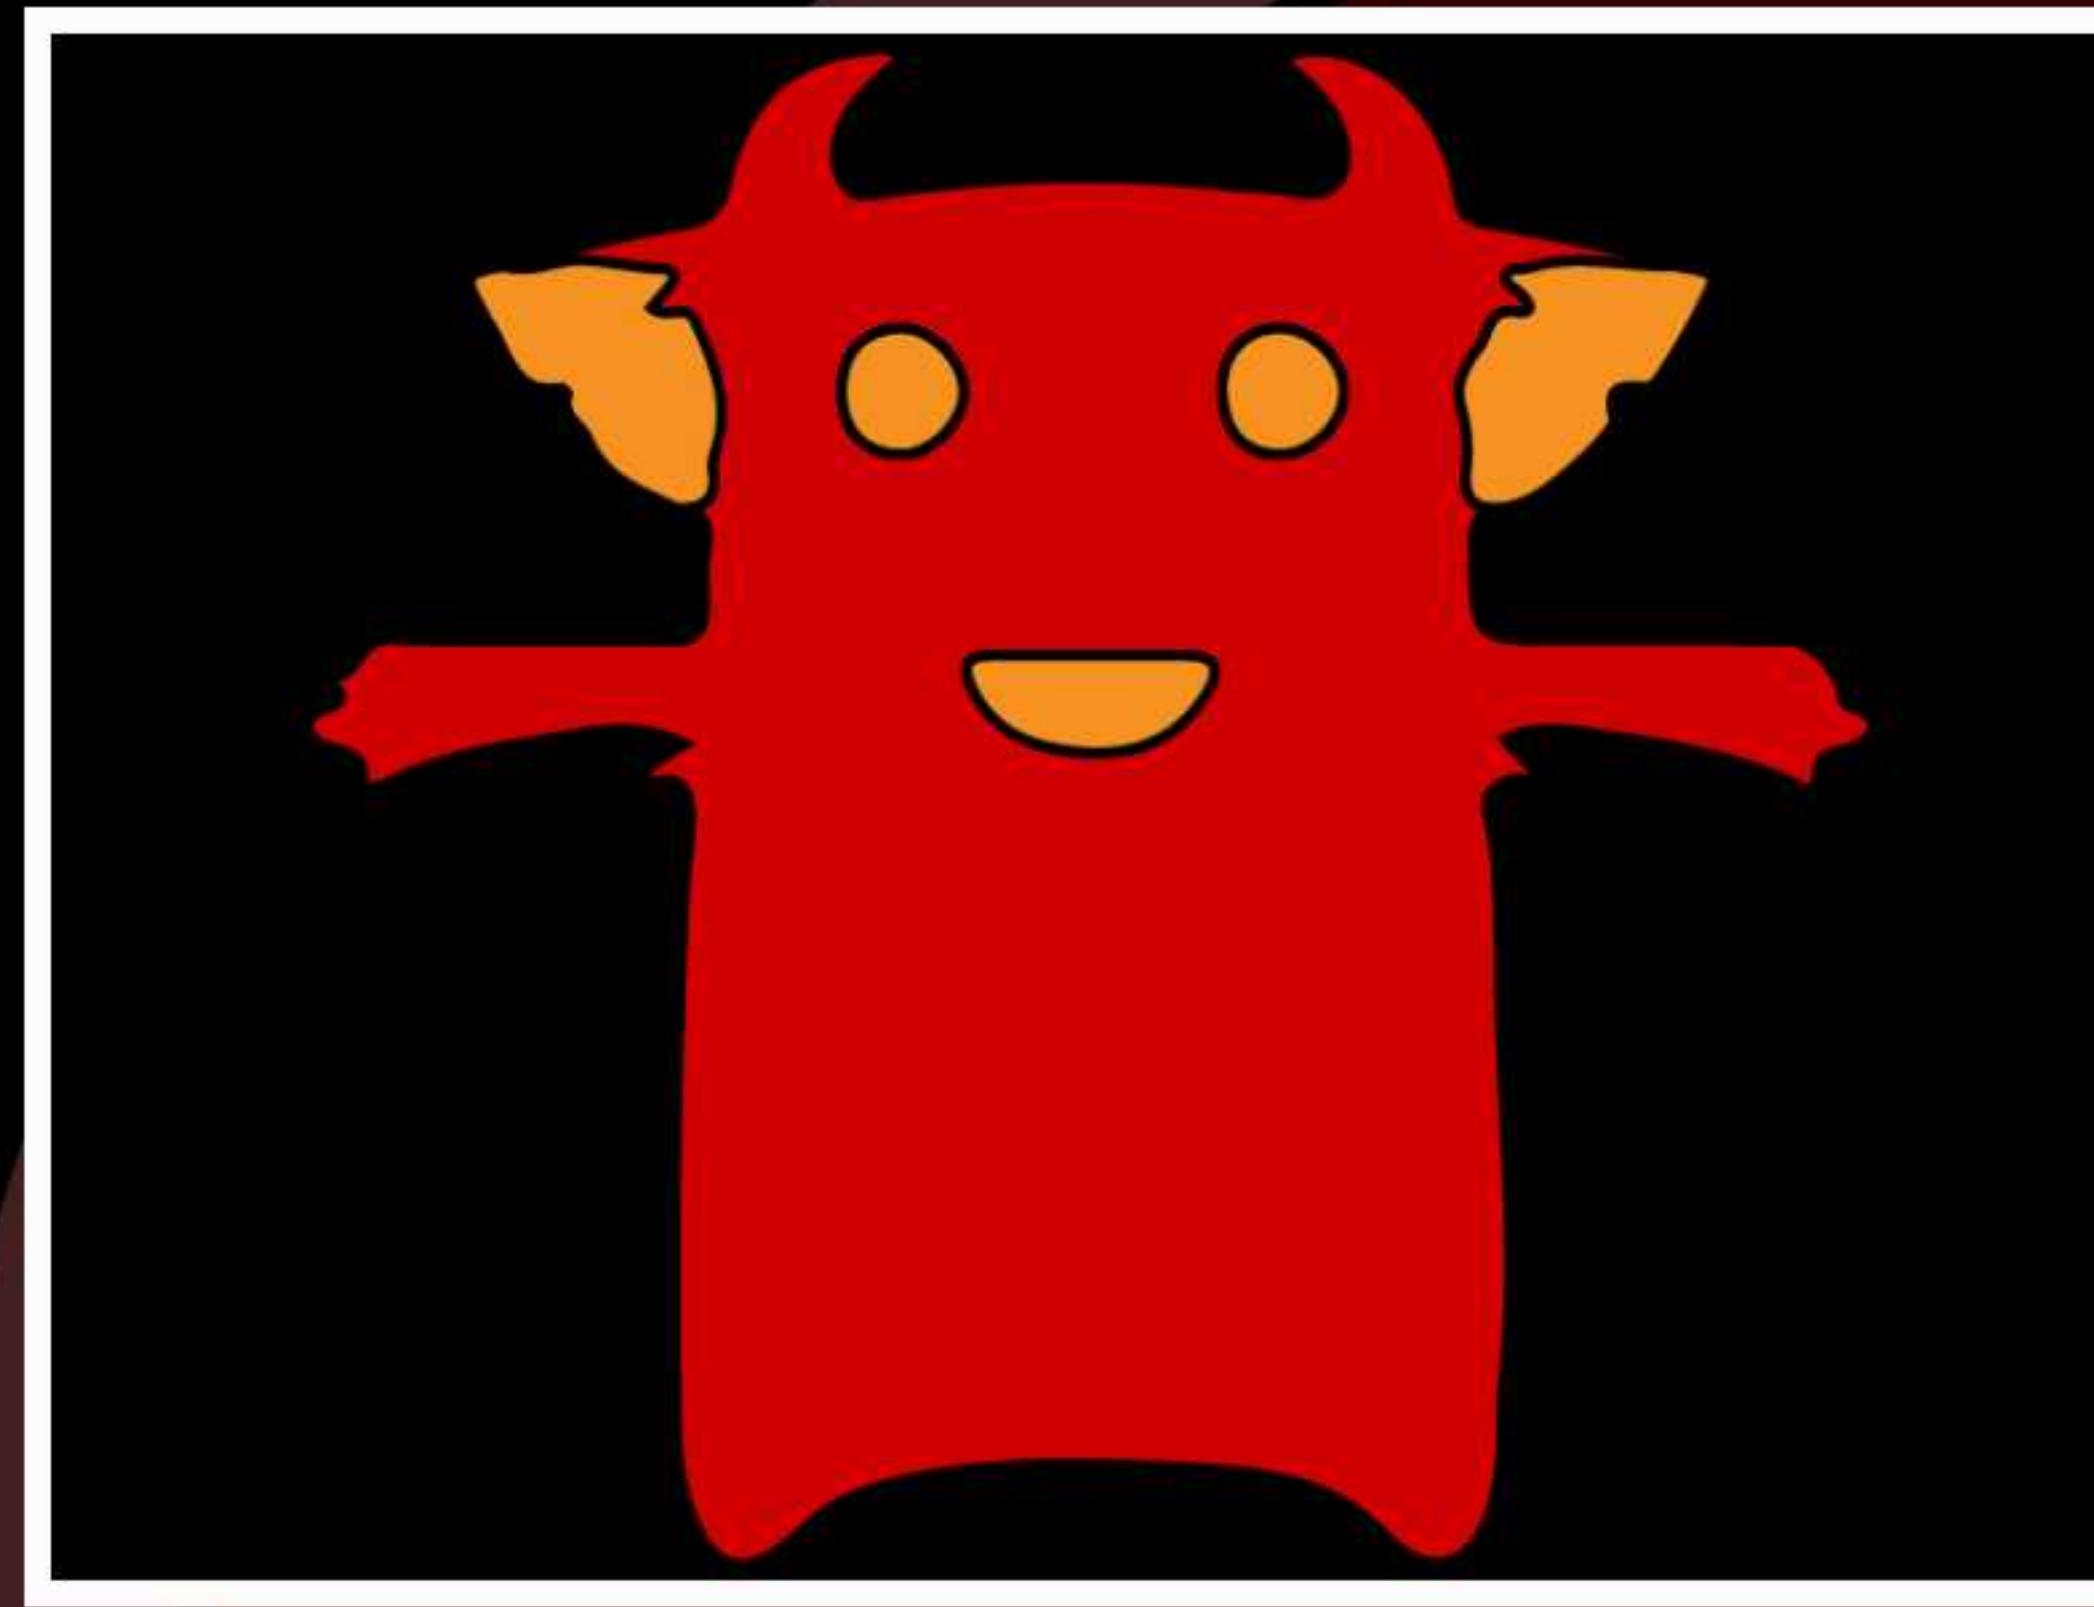

Returning Home...

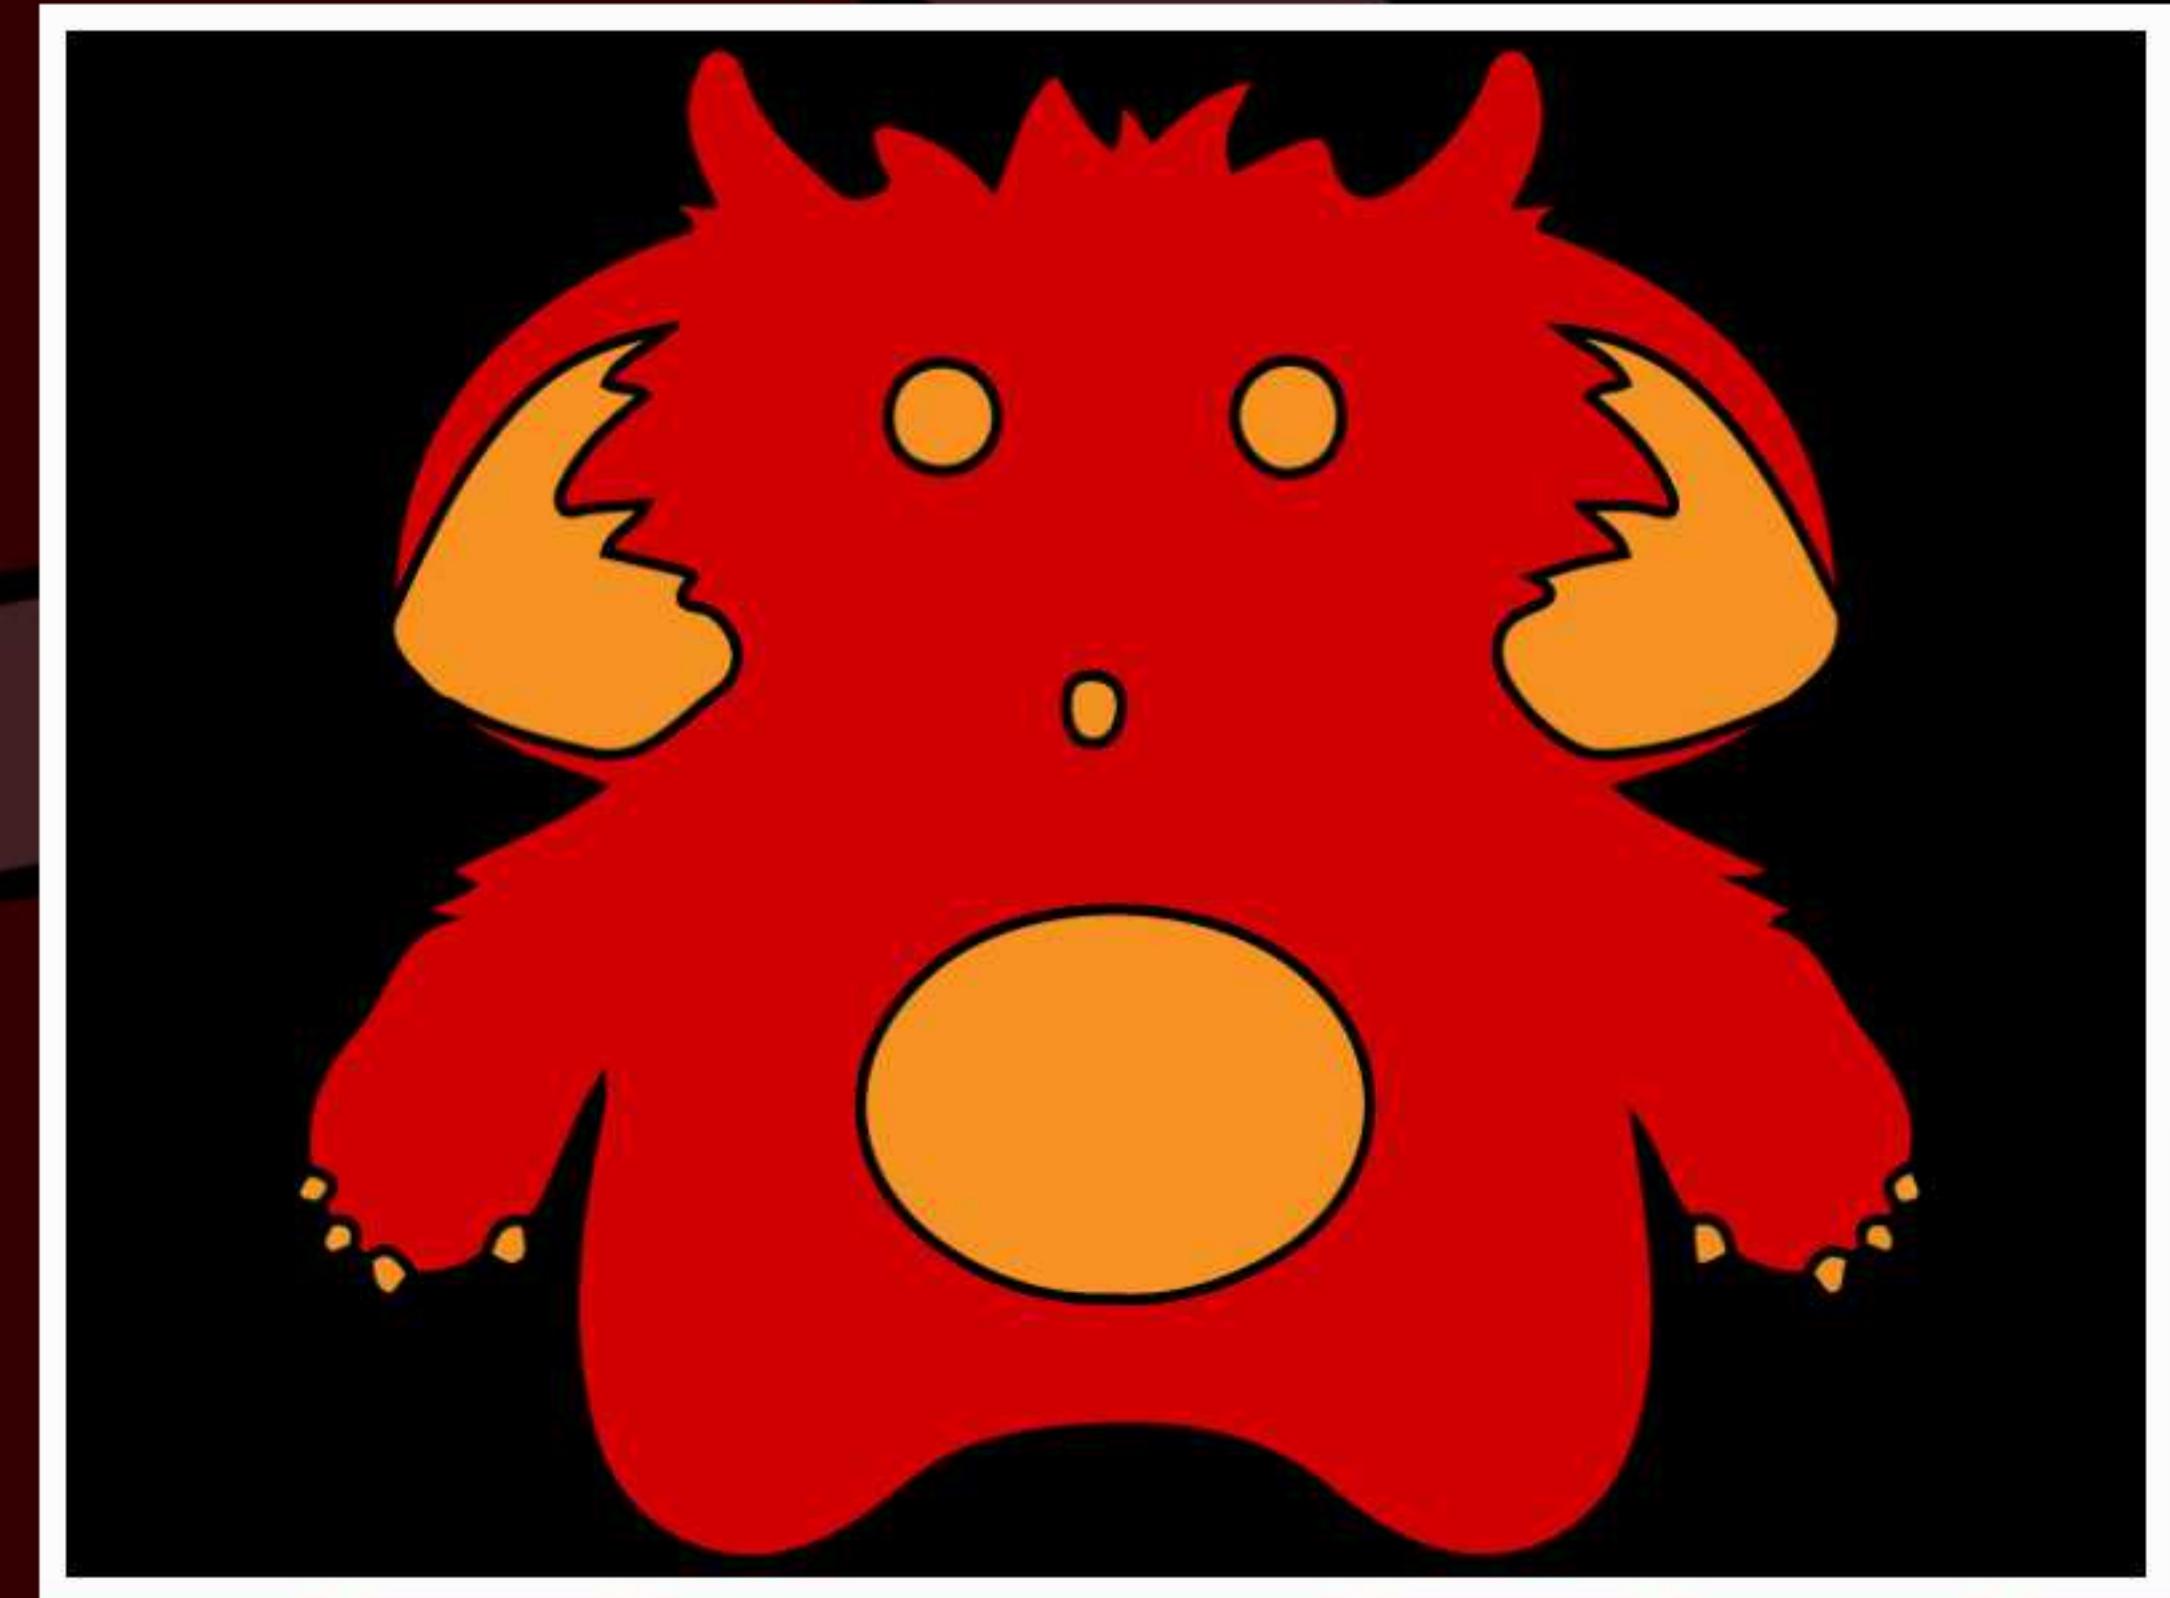

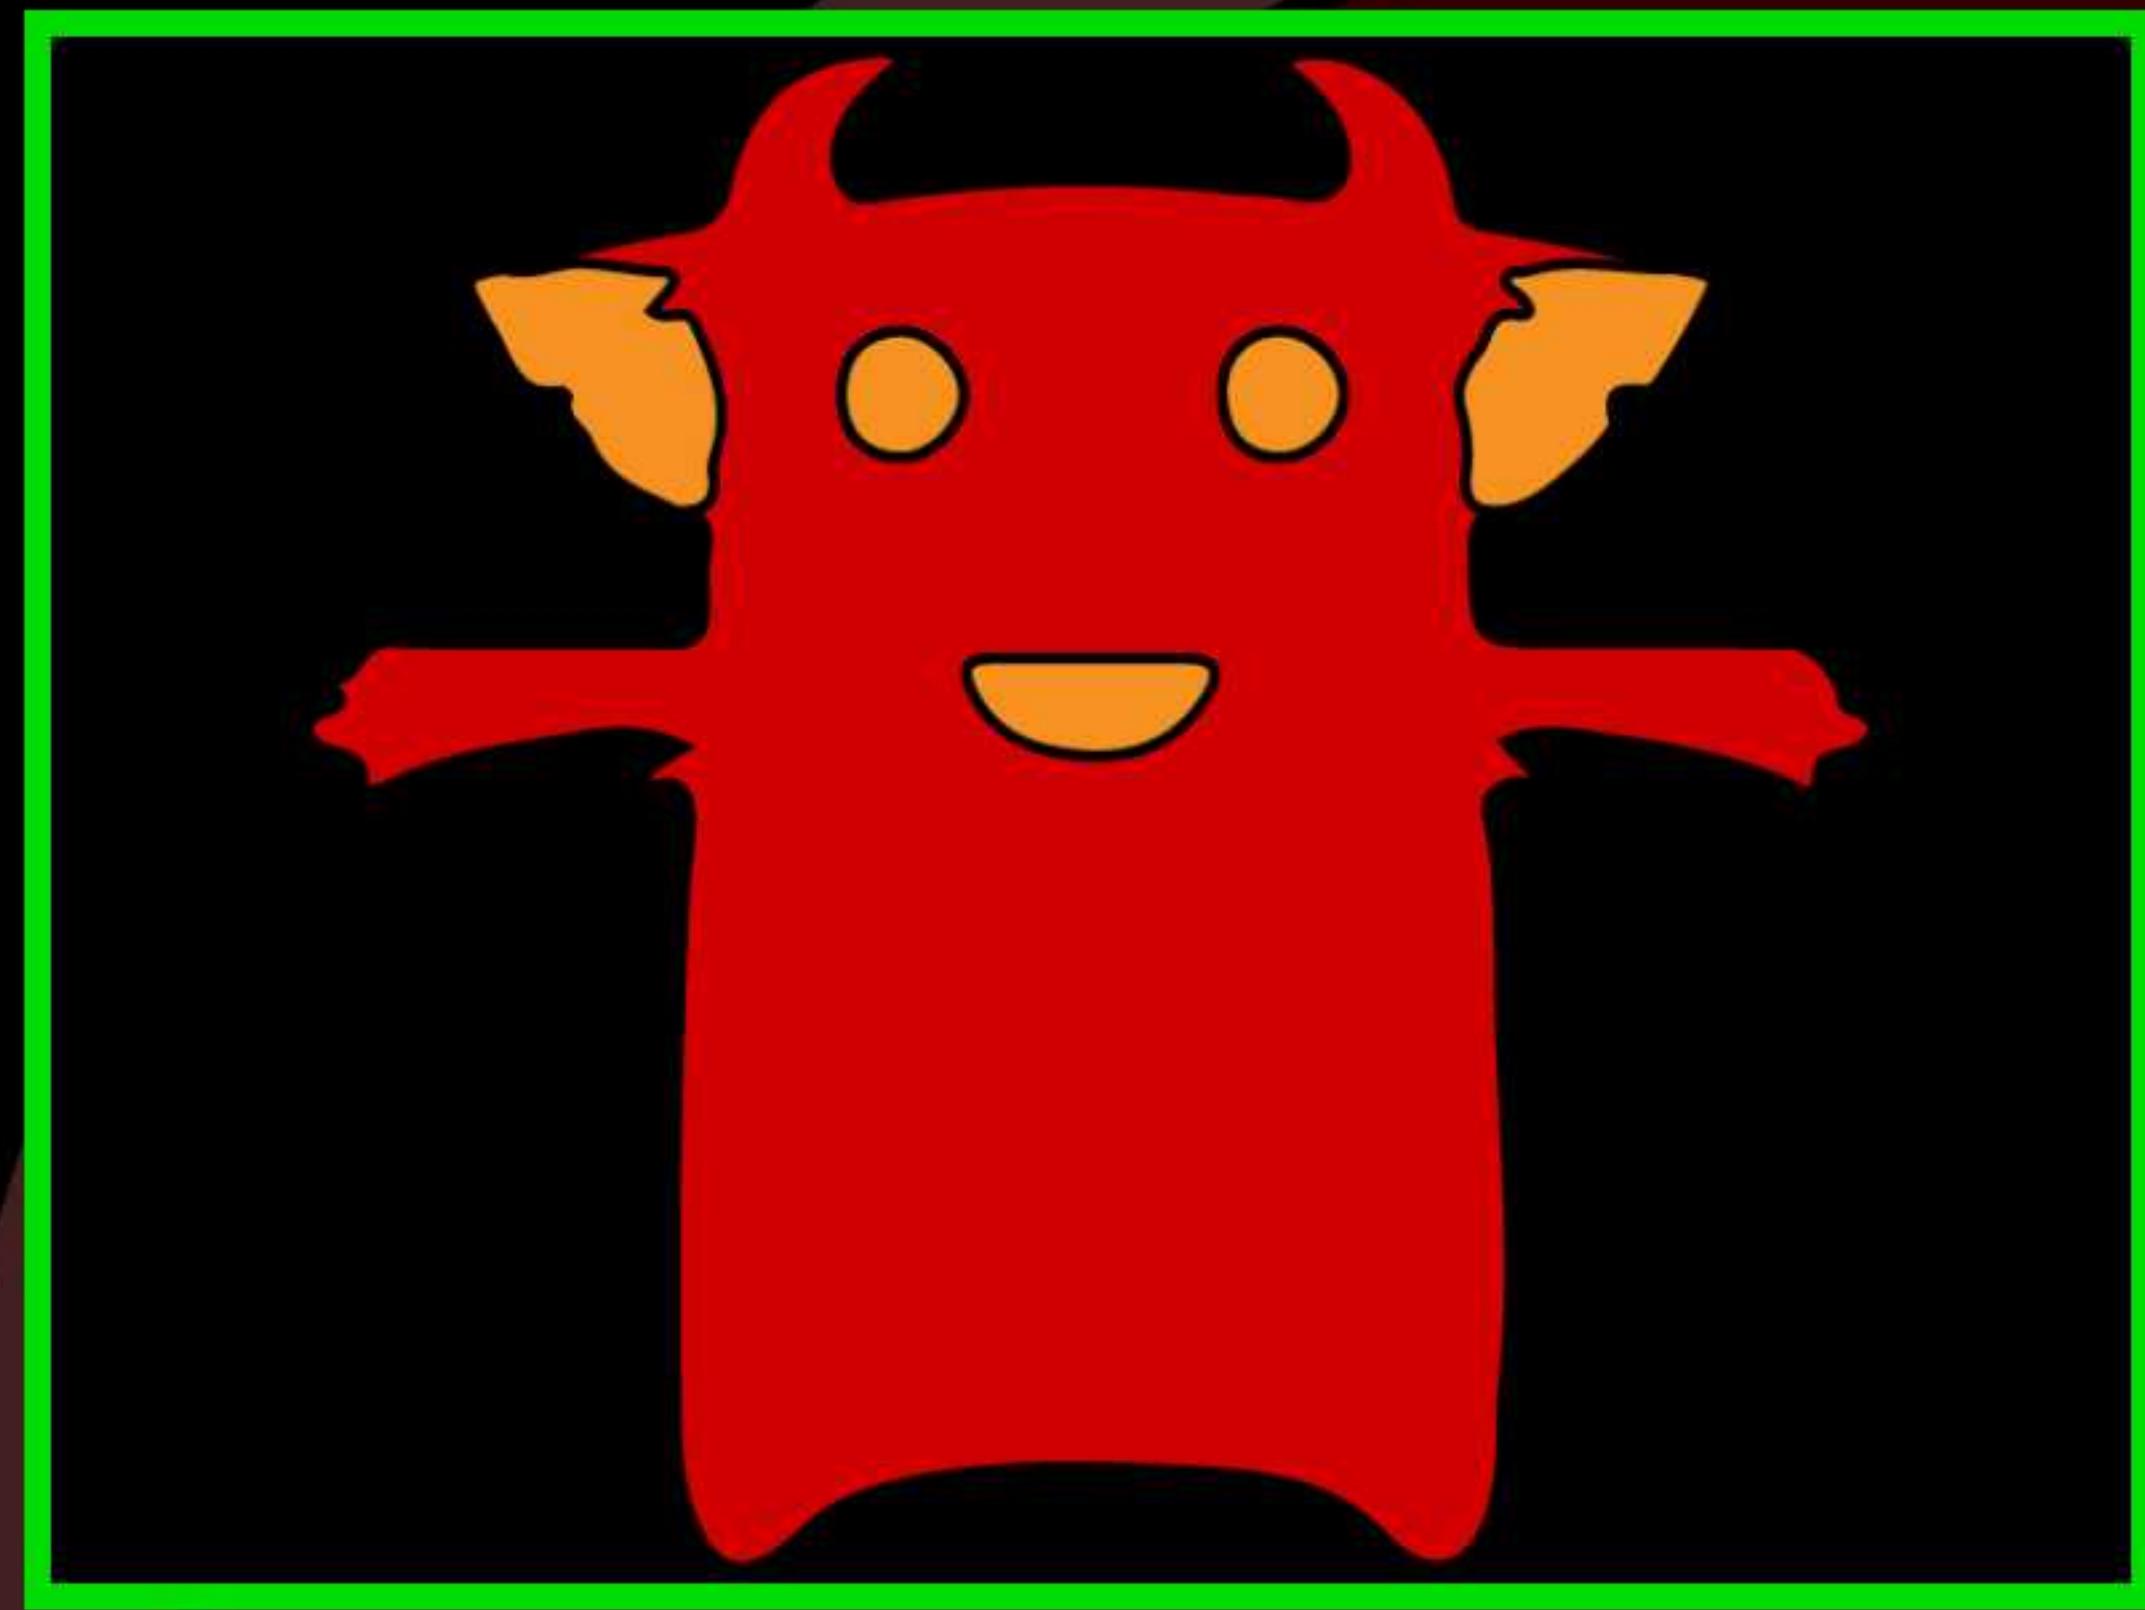

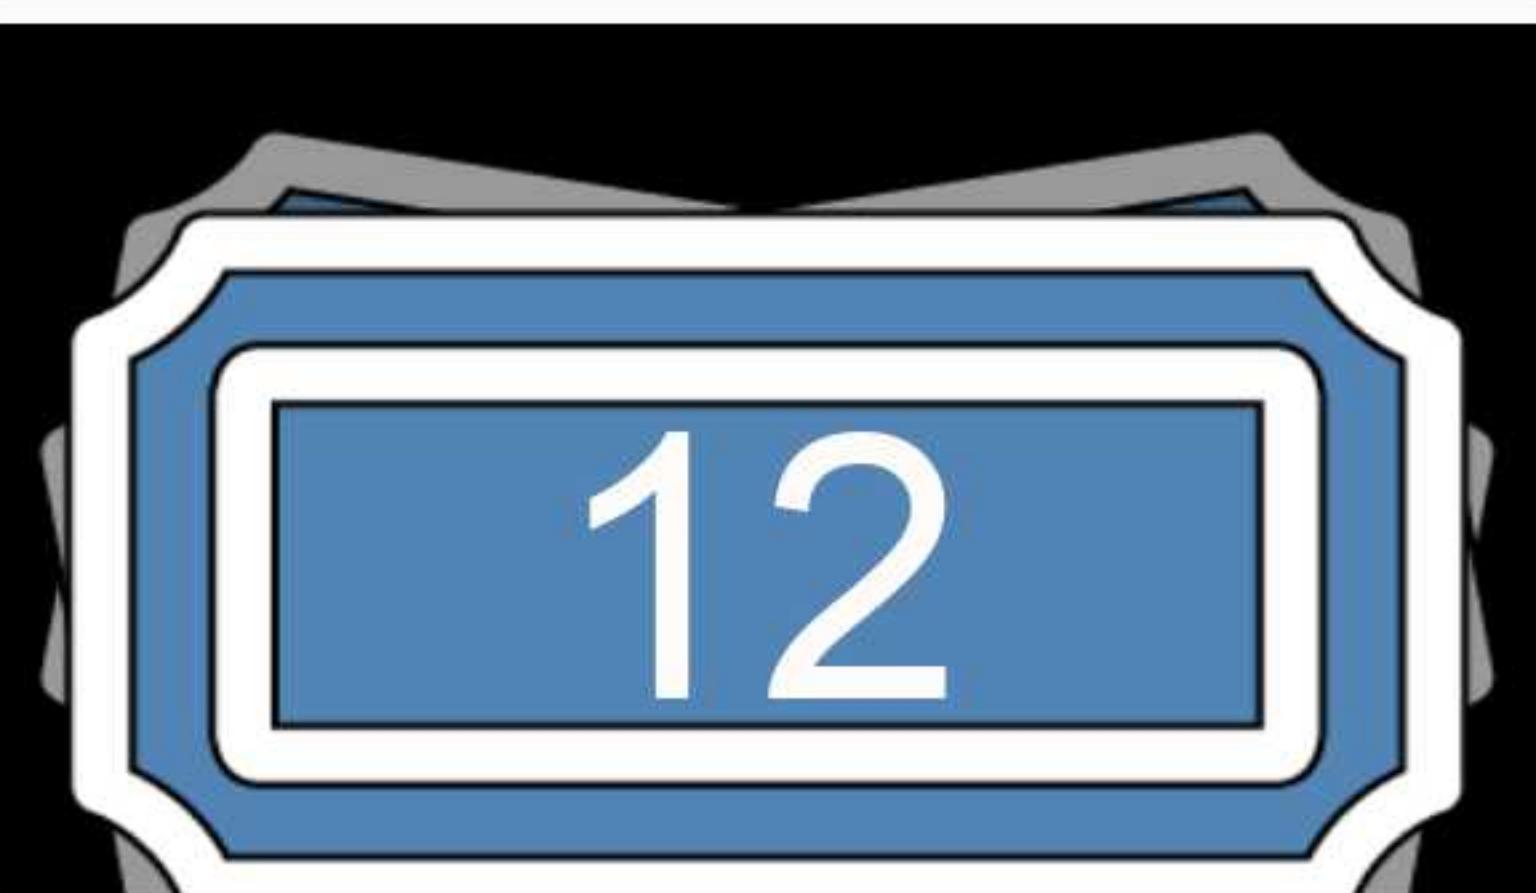

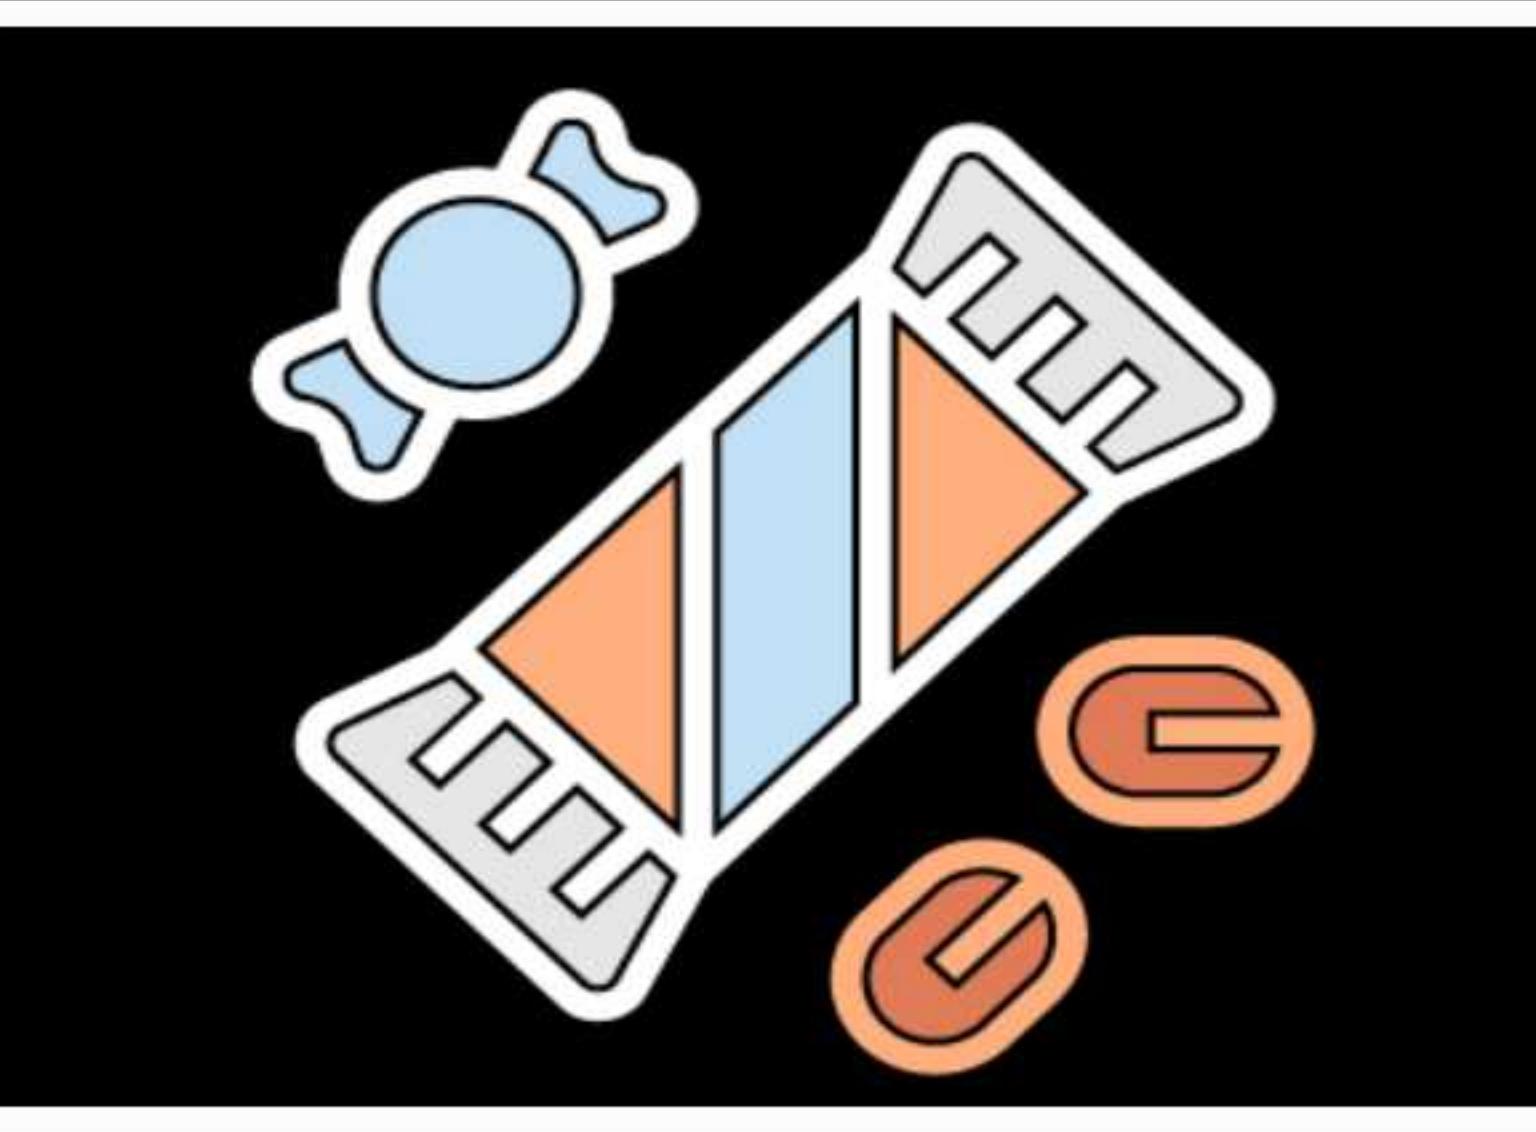

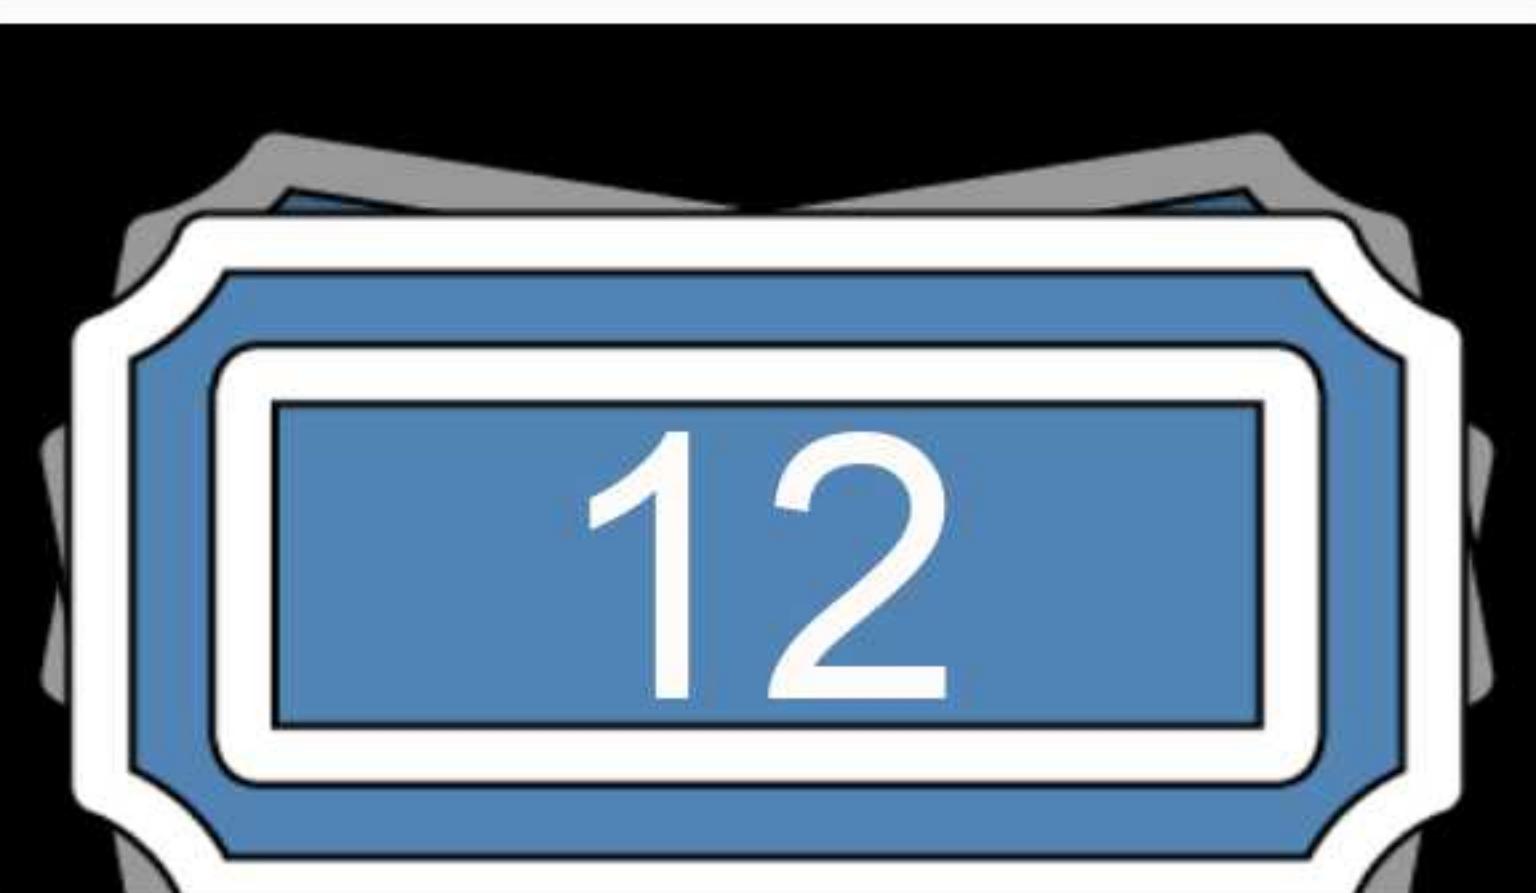

Win!

Trade your space treasure

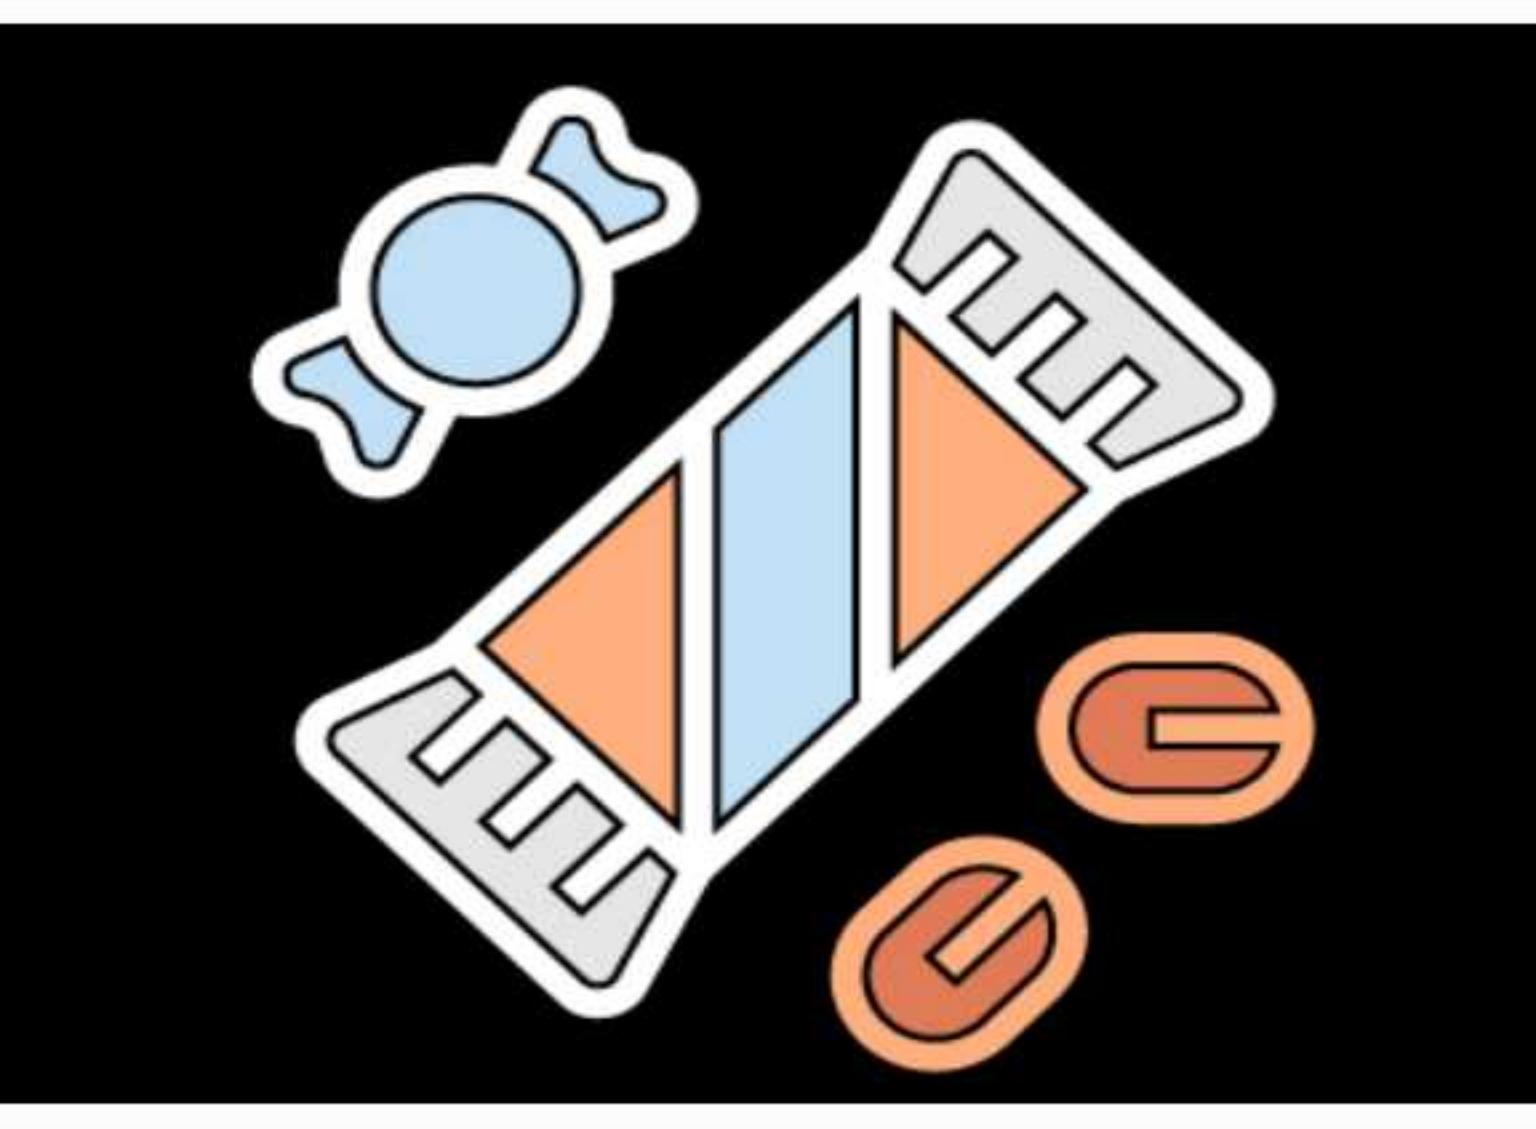

Look! You can trade your space treasure for snacks or 12 tickets.

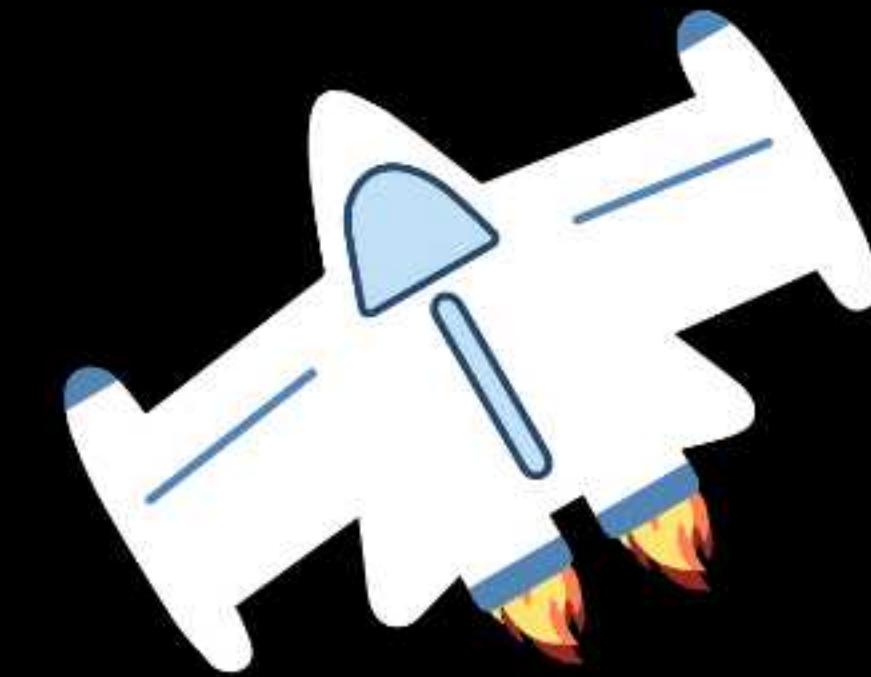

Trade your space treasure

Now let's trade your space treasure for tickets.

Trade your space treasure

The game will end shortly...
Adding 12 tickets to your total!

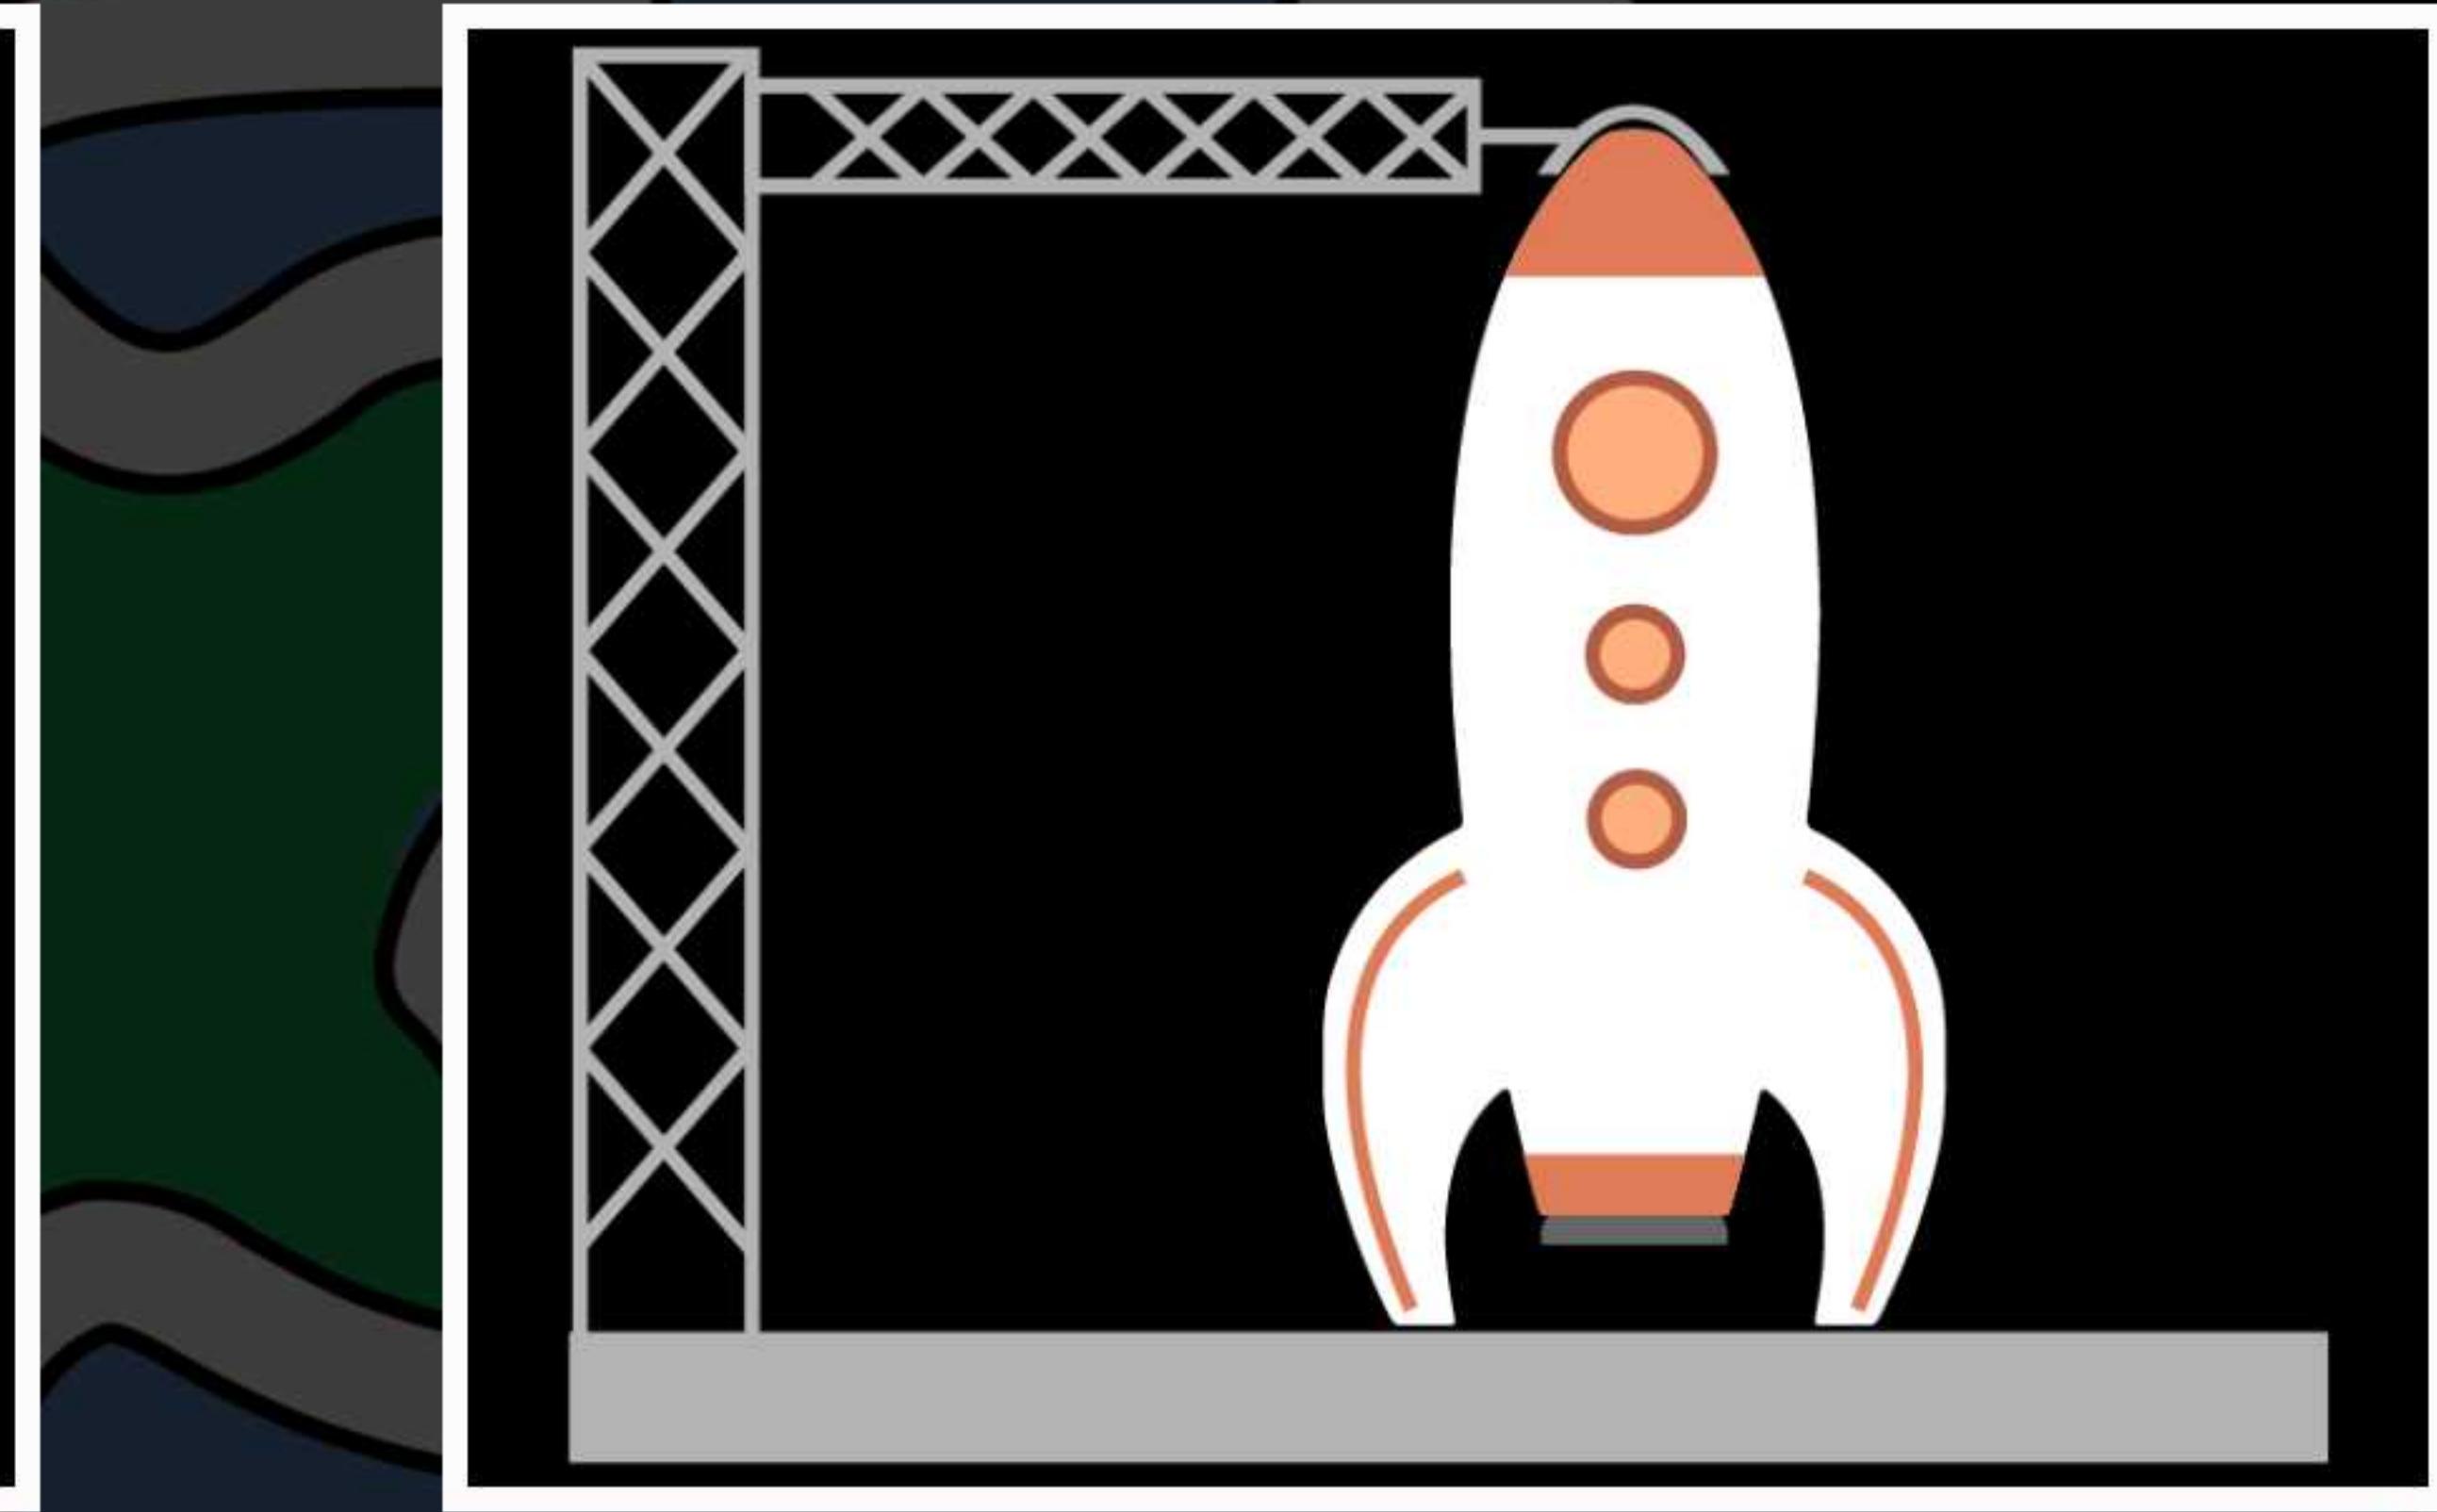

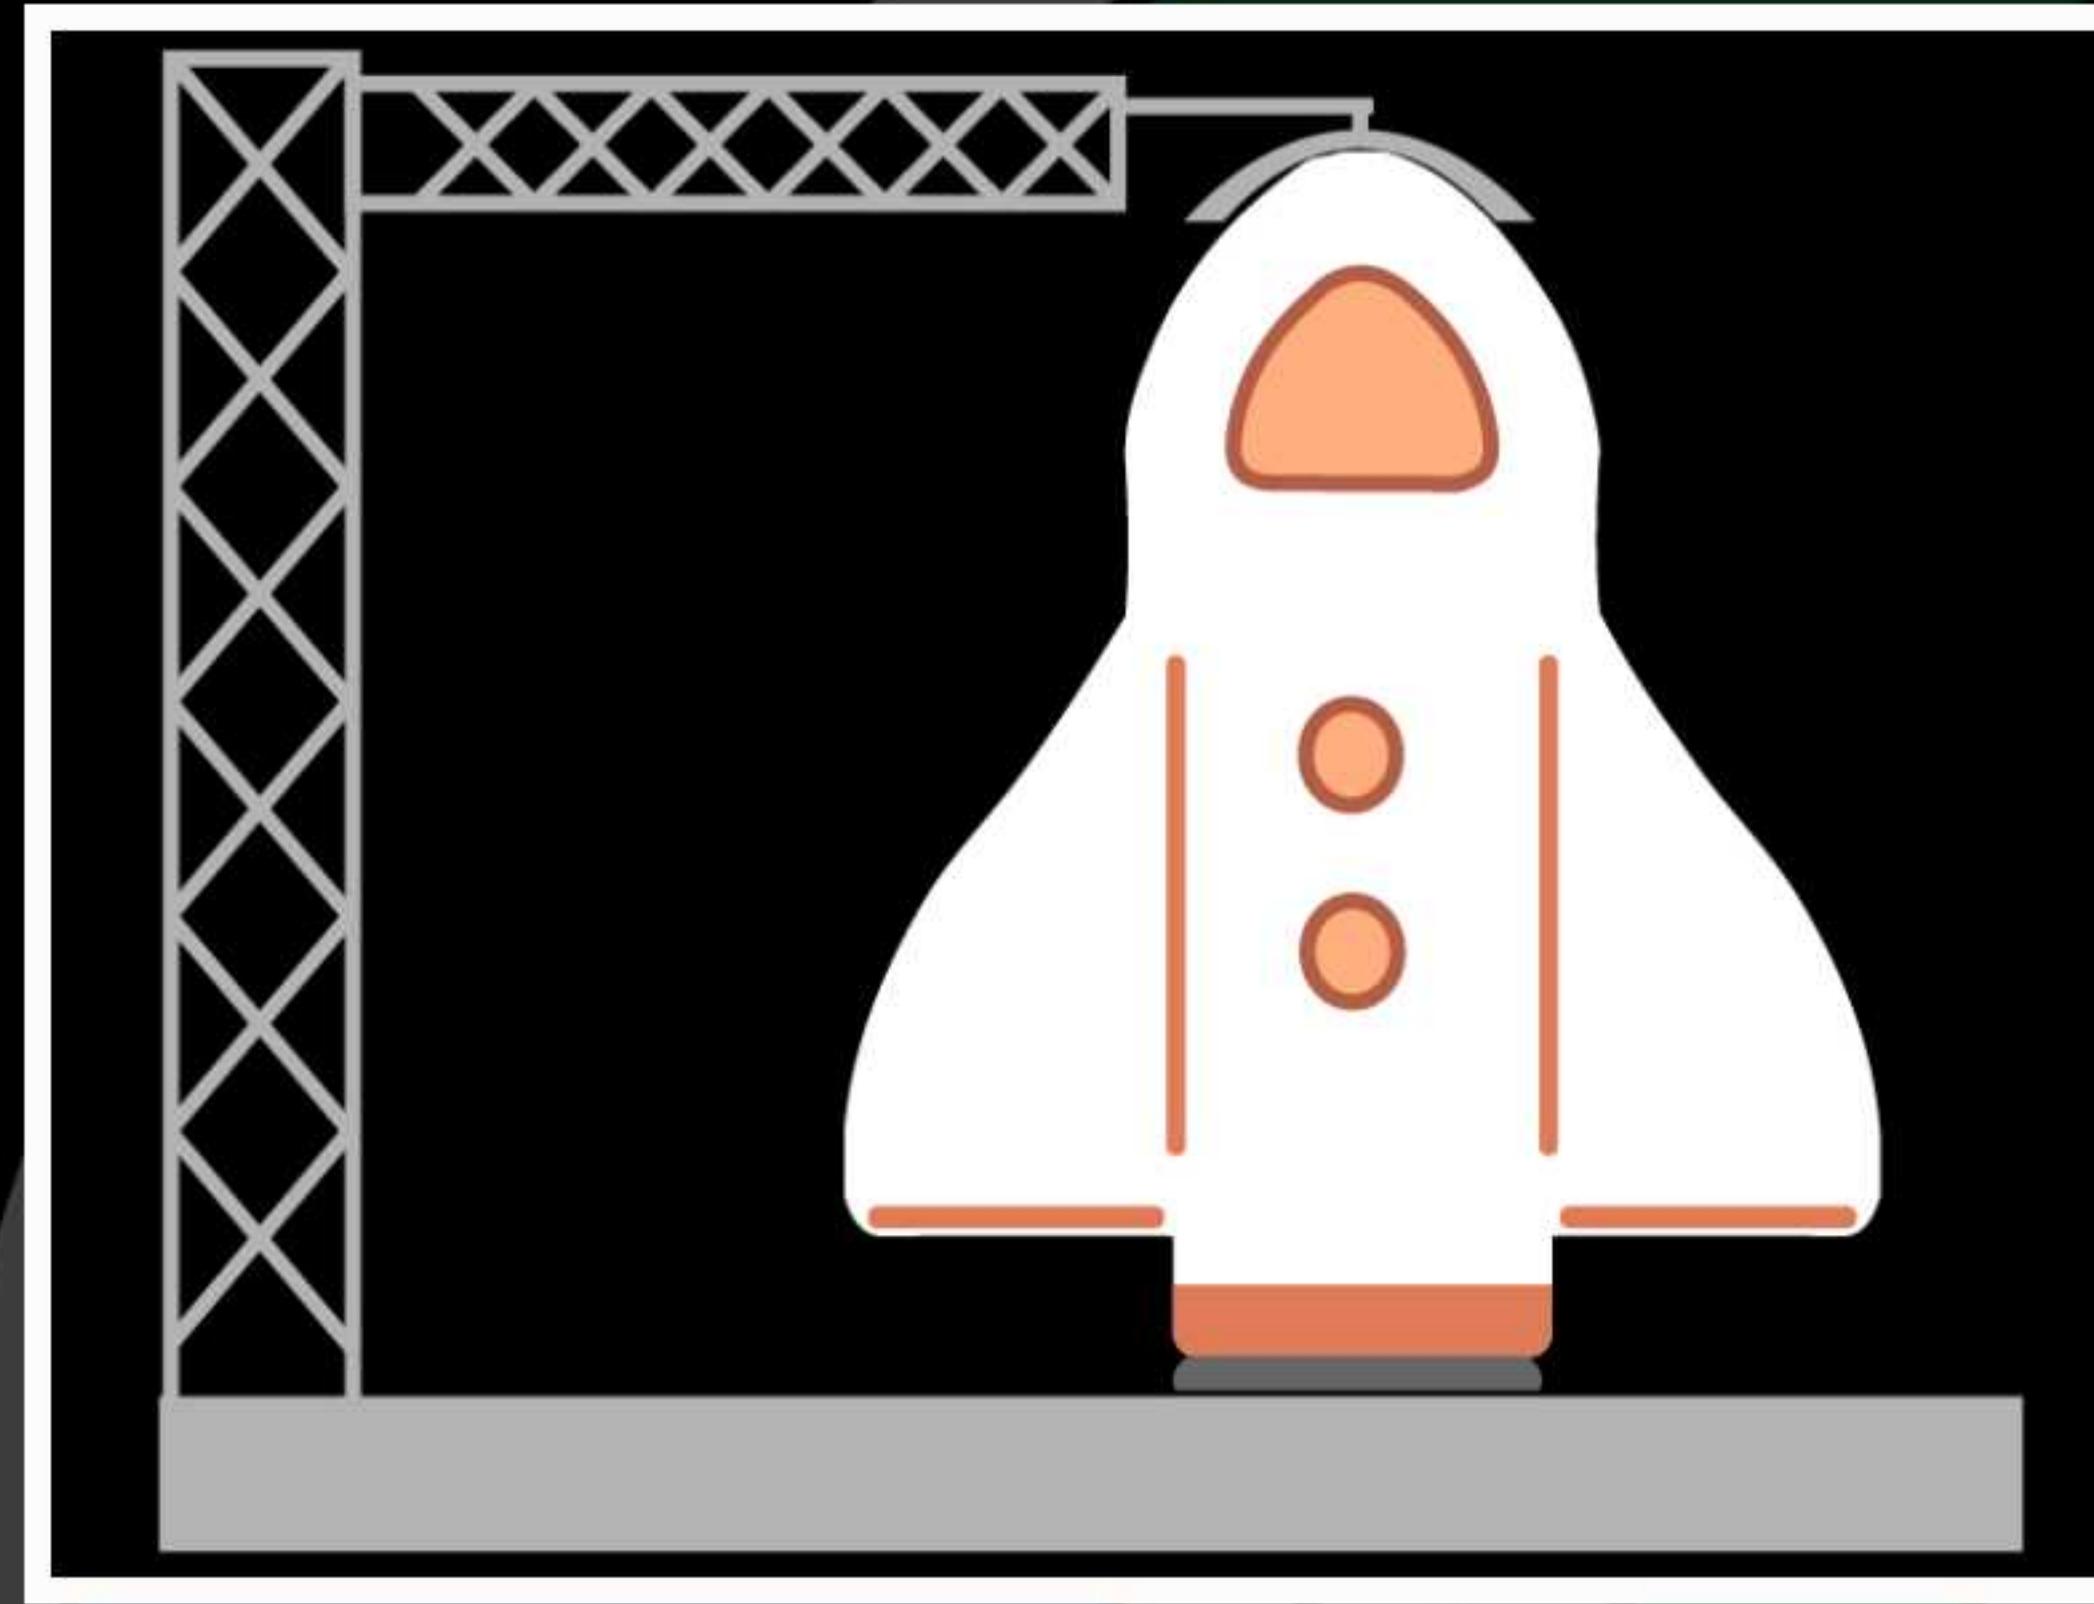

Good job - you are ready to start the big quest!

When you are ready, Alesha will load the big quest.

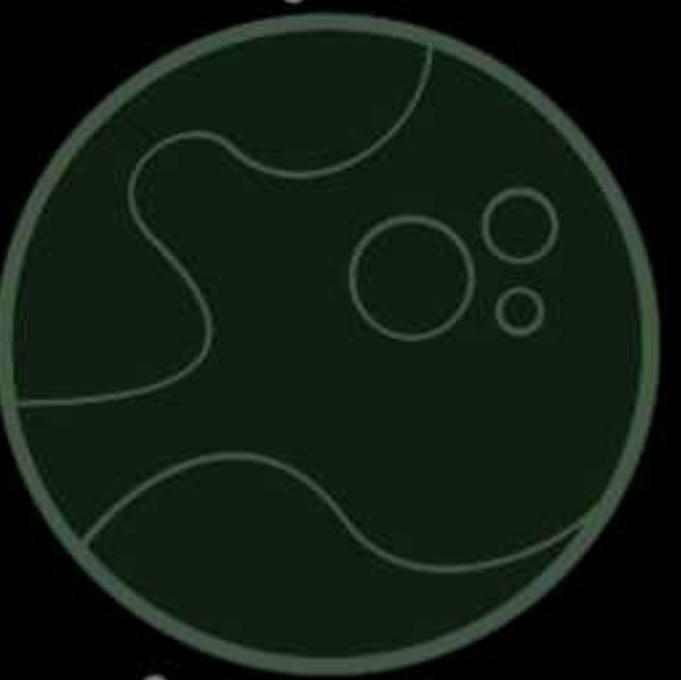

Brief loading screen while next script loads...

Welcome Space Captain,

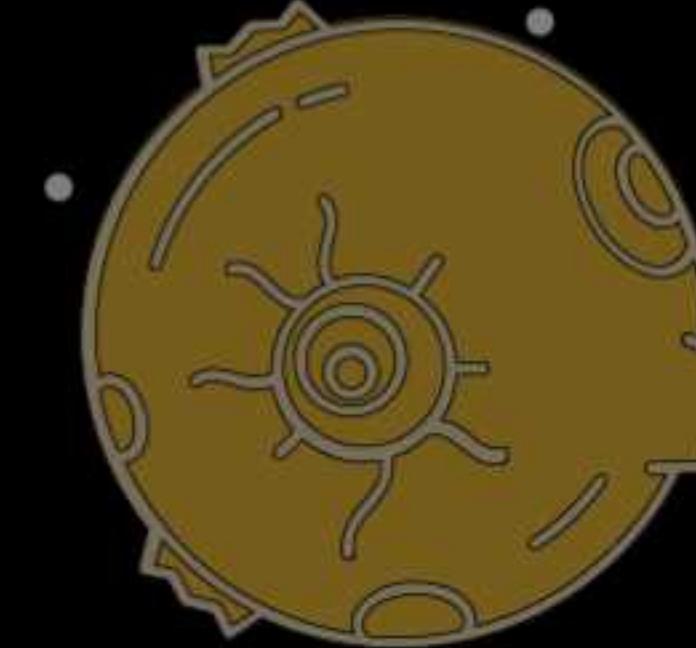

We are sending you on a 150 day quest to
find as much space treasure as you can.

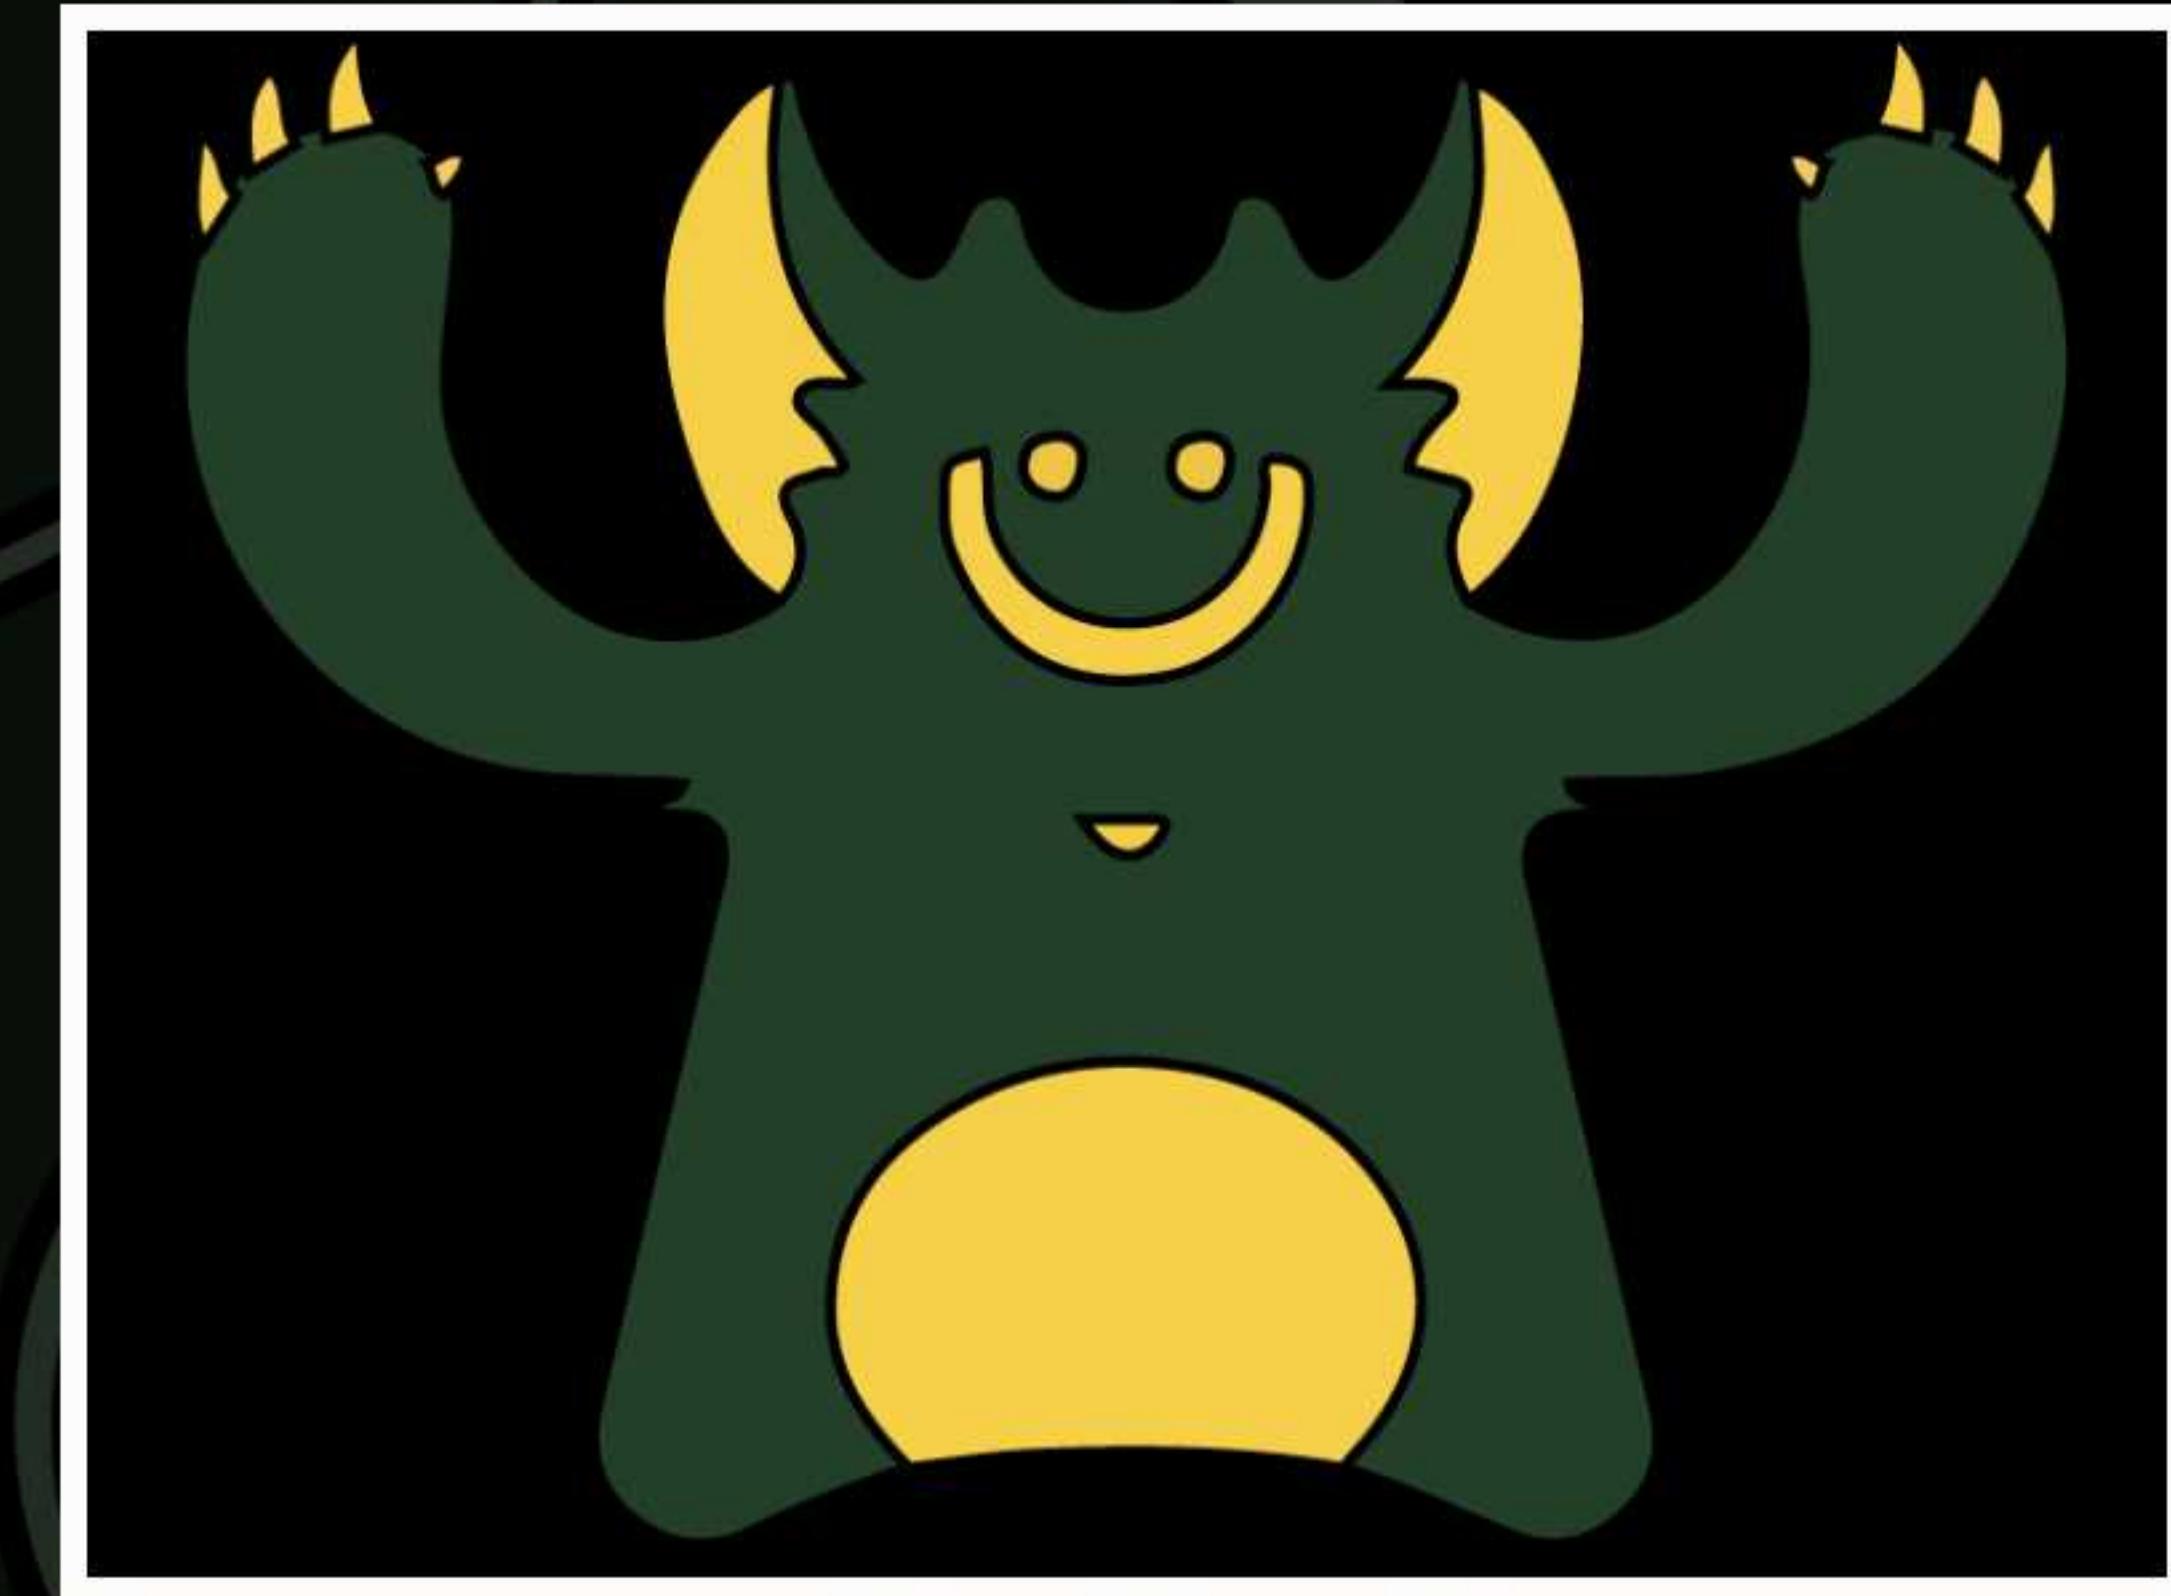

We have given you two new spaceships to explore a new galaxy.

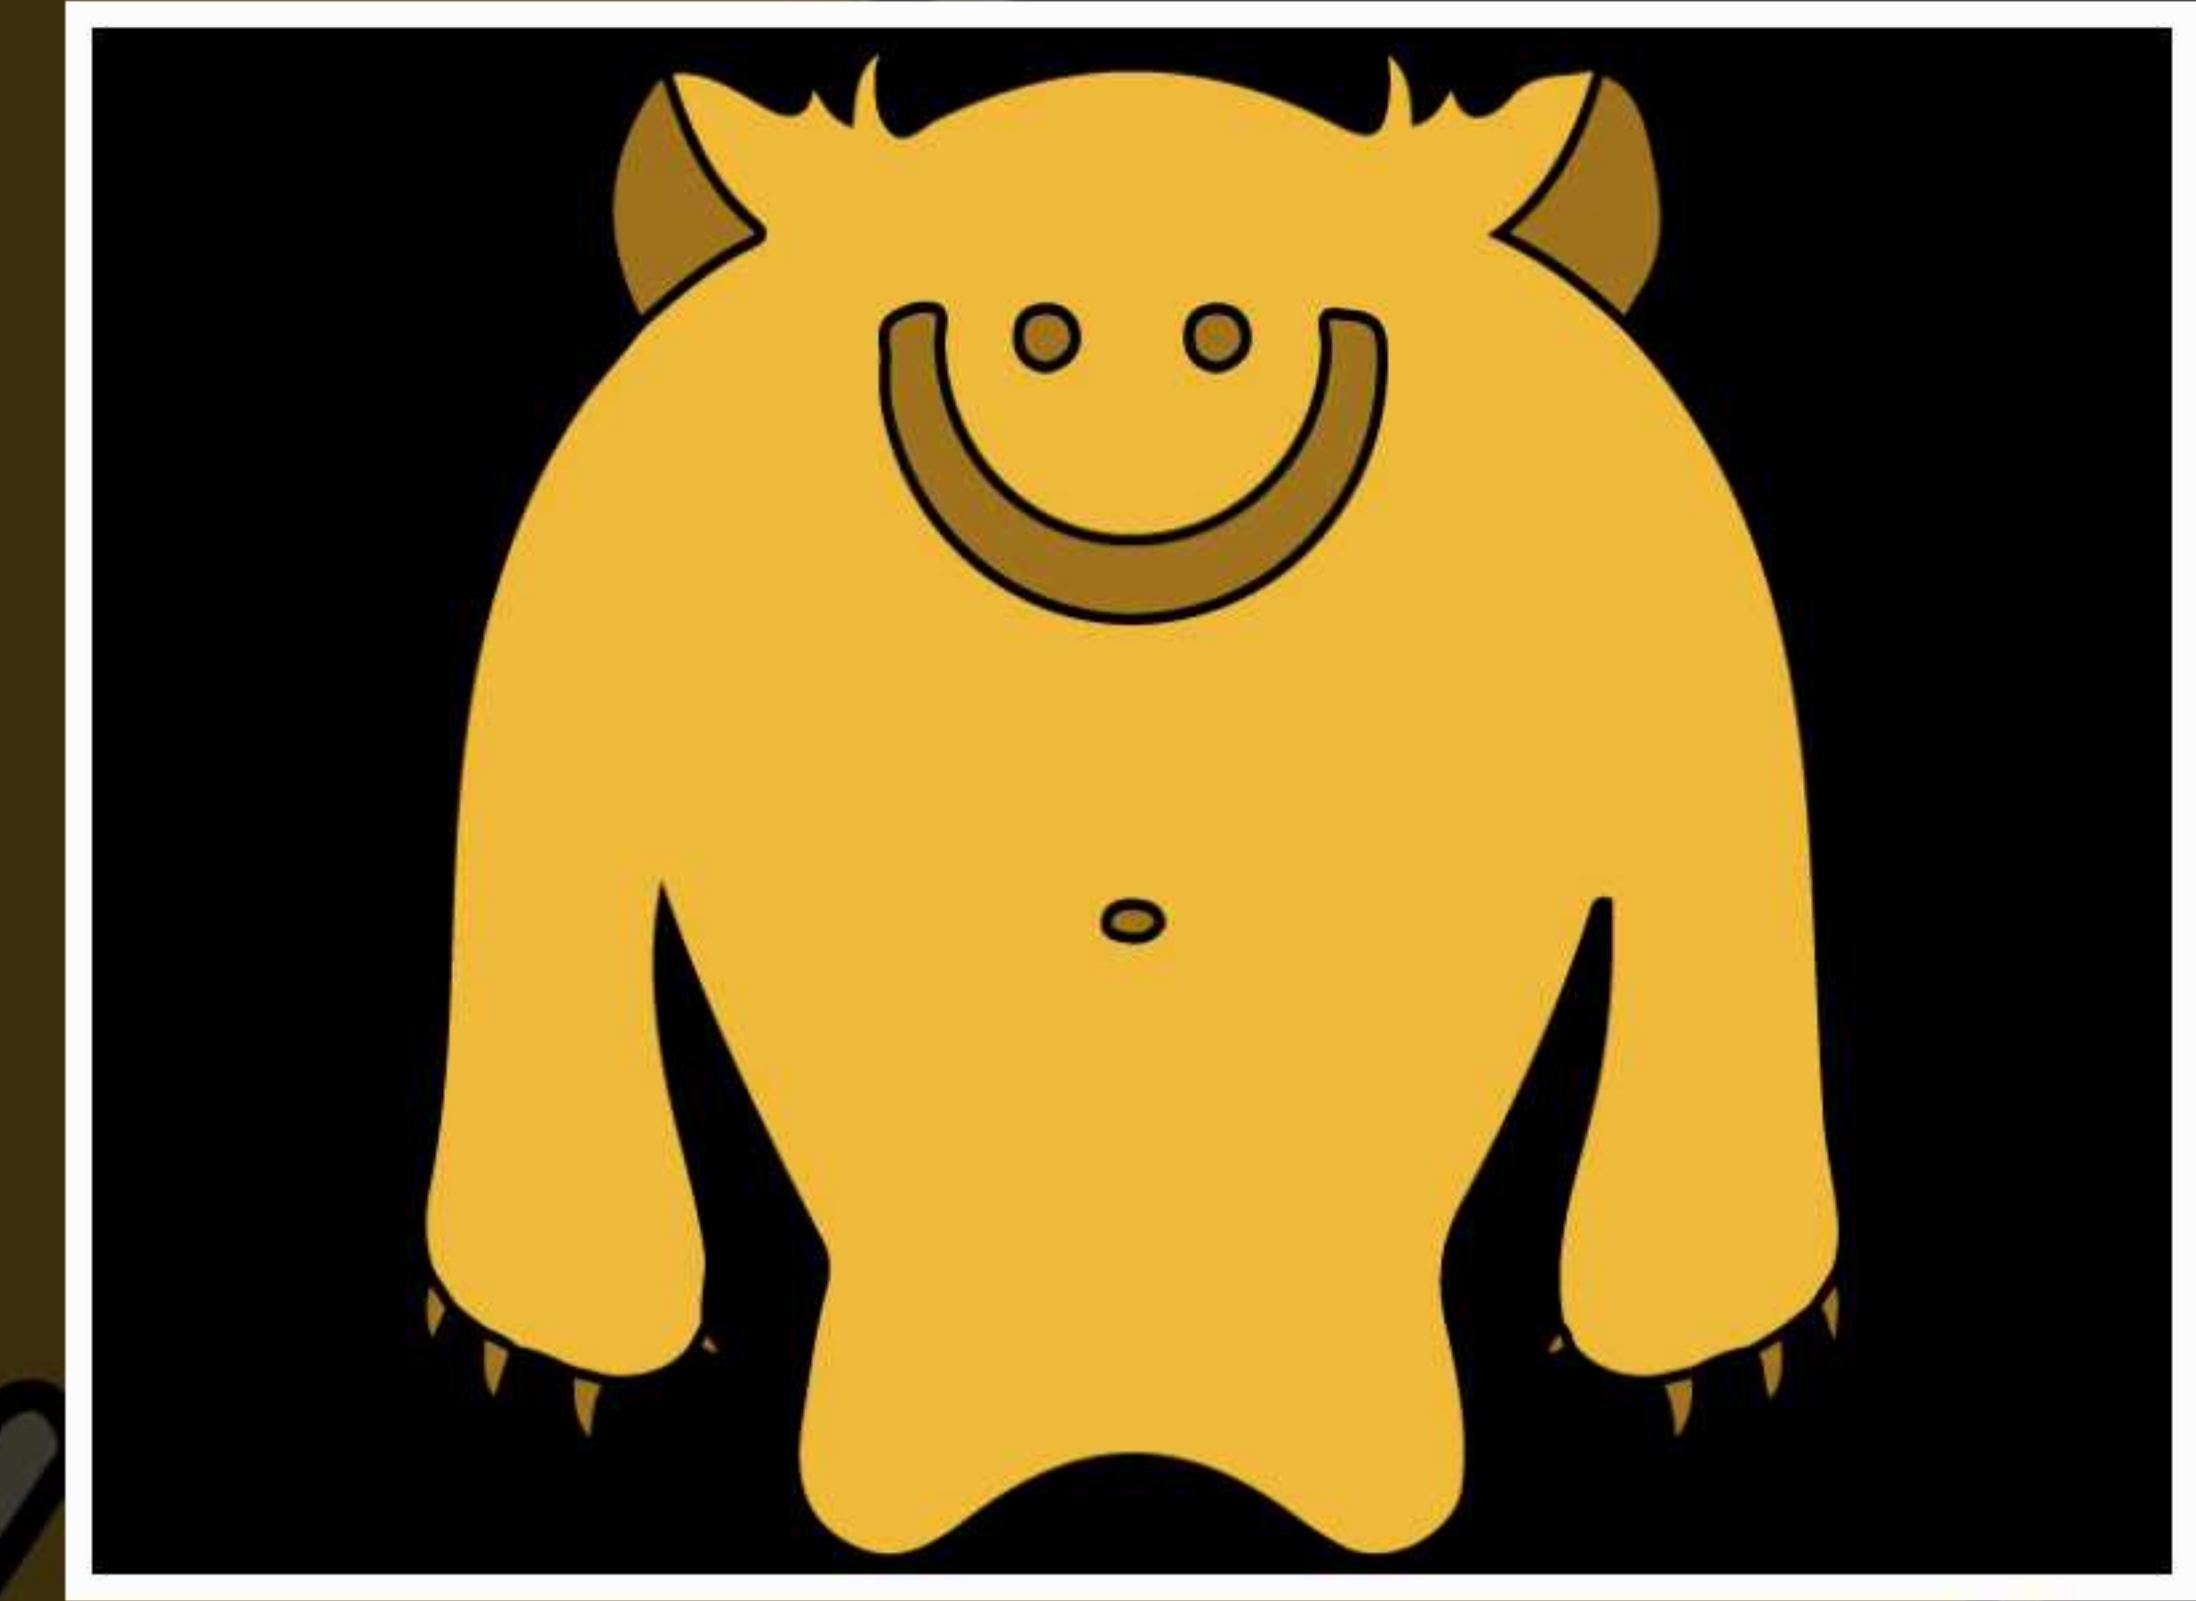

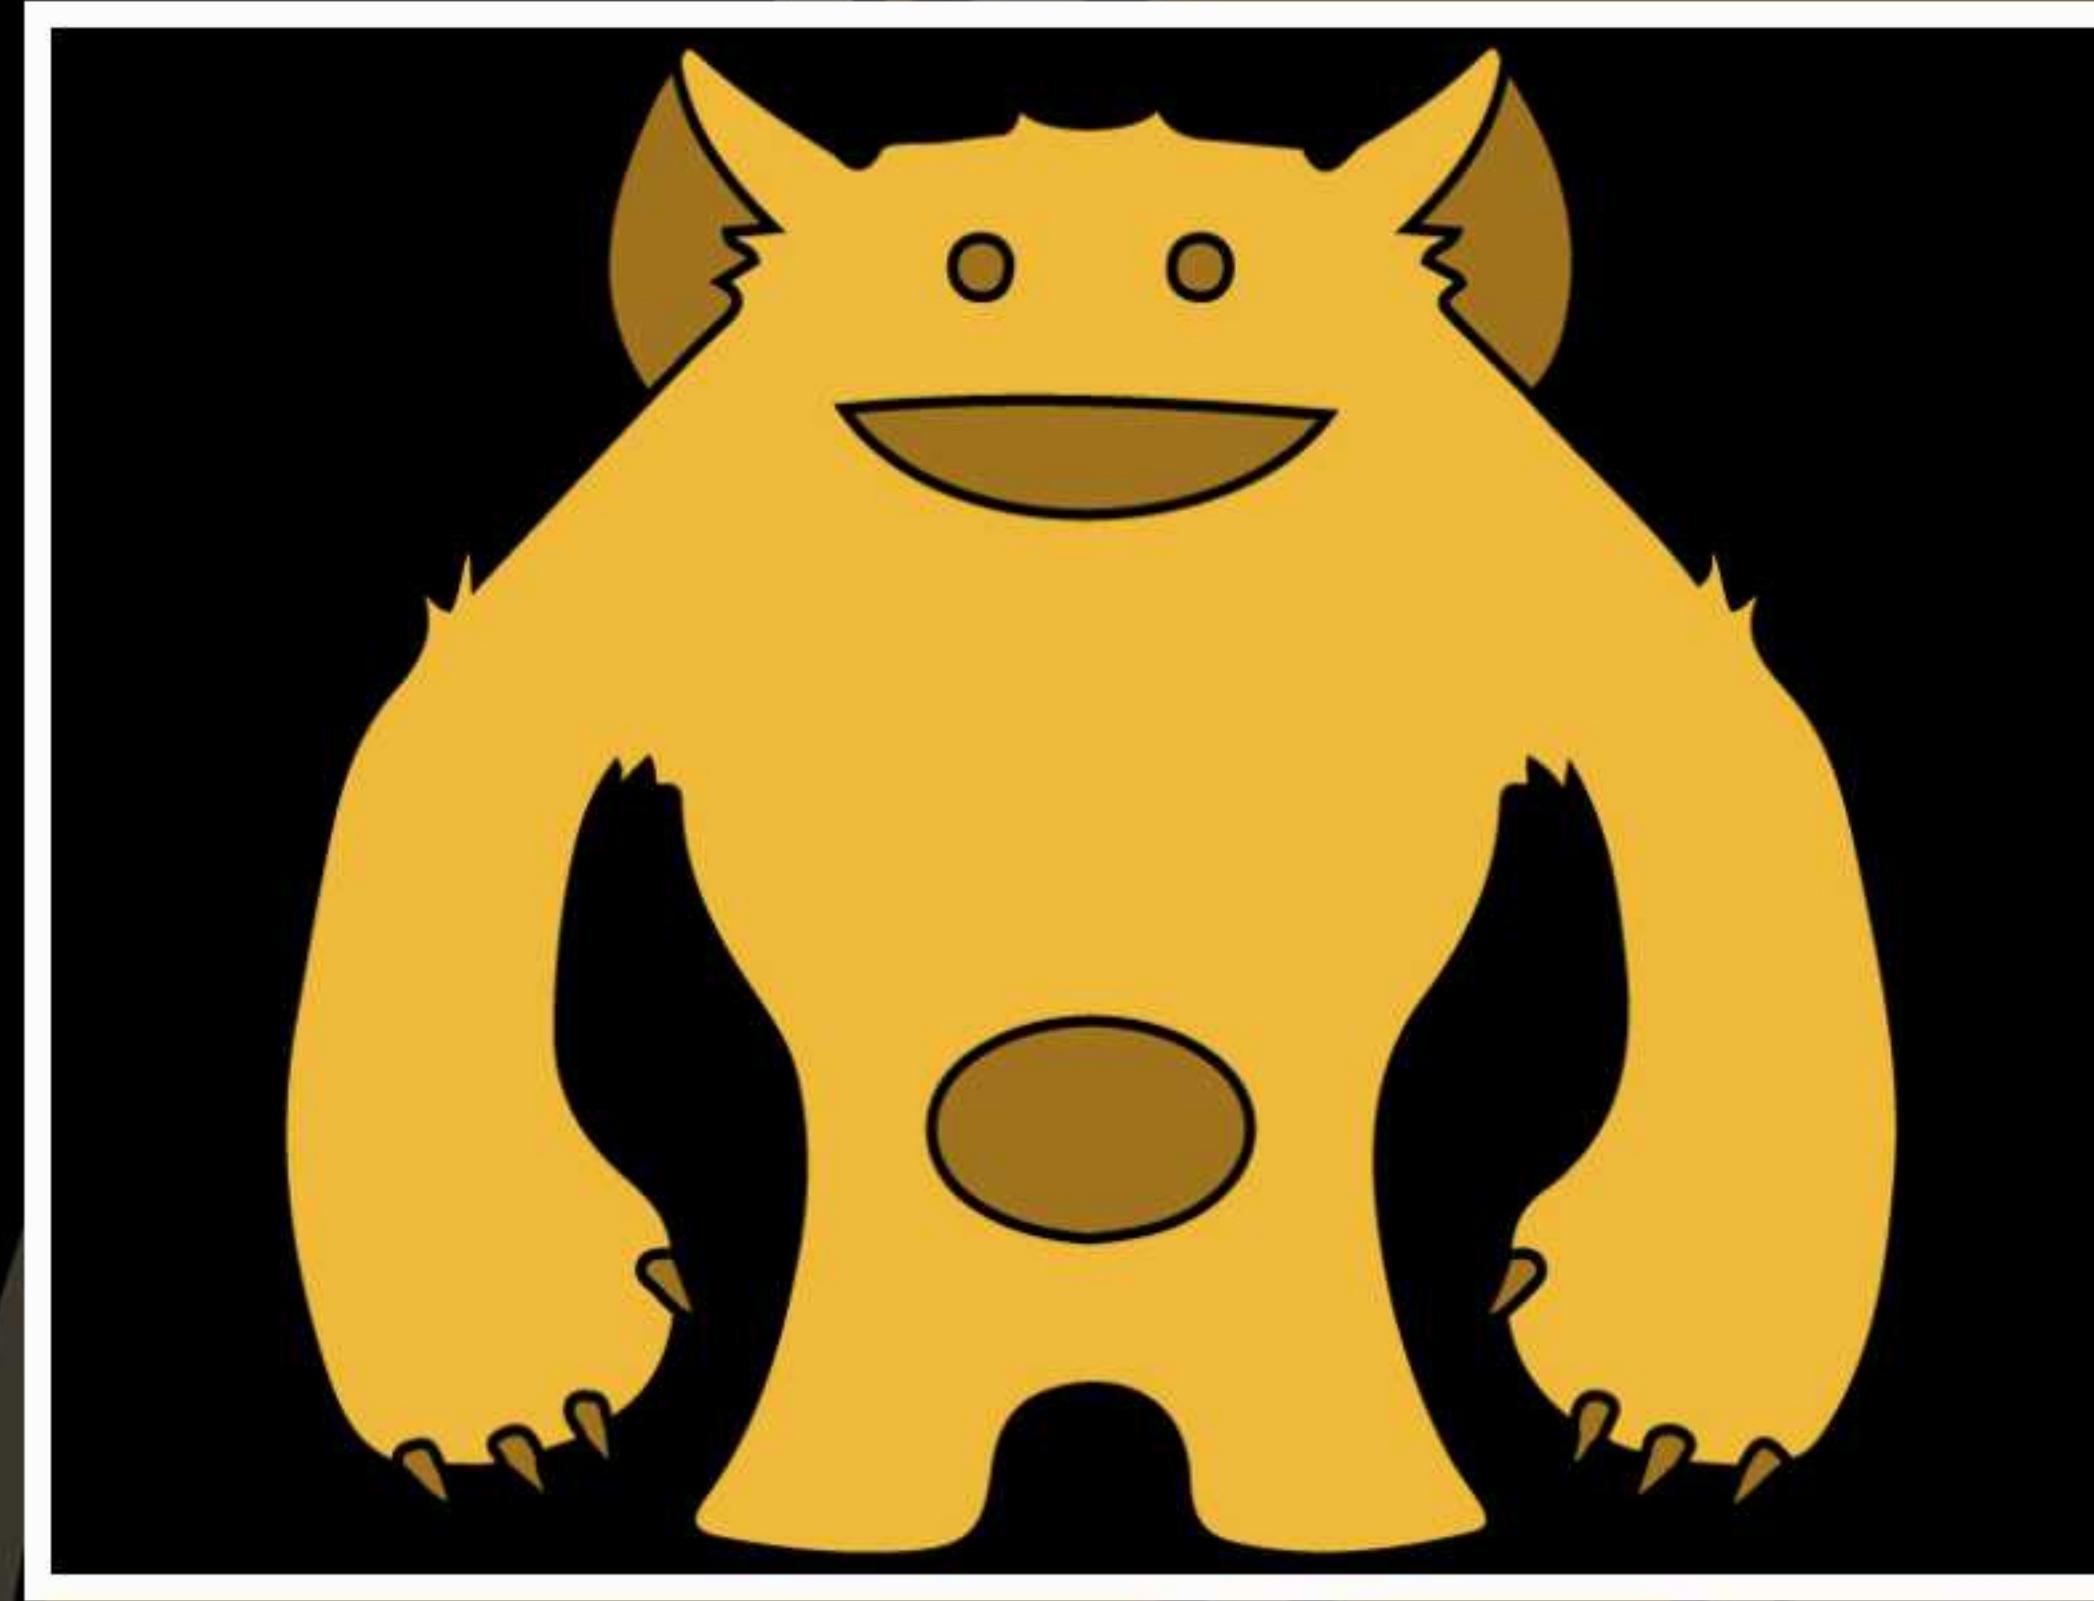

This galaxy is home to Planet Gaspar and Planet Yadera.

The green aliens live on Planet Gaspar.

The yellow aliens live on Planet Yadera.

Remember your training, Space Captain!

All of the rules from the training quest are the same in this quest.

Before you start your quest, what questions do you have for Alesha?

When you are ready, Alesha will start the big quest.

Start 150 experimental trials...
